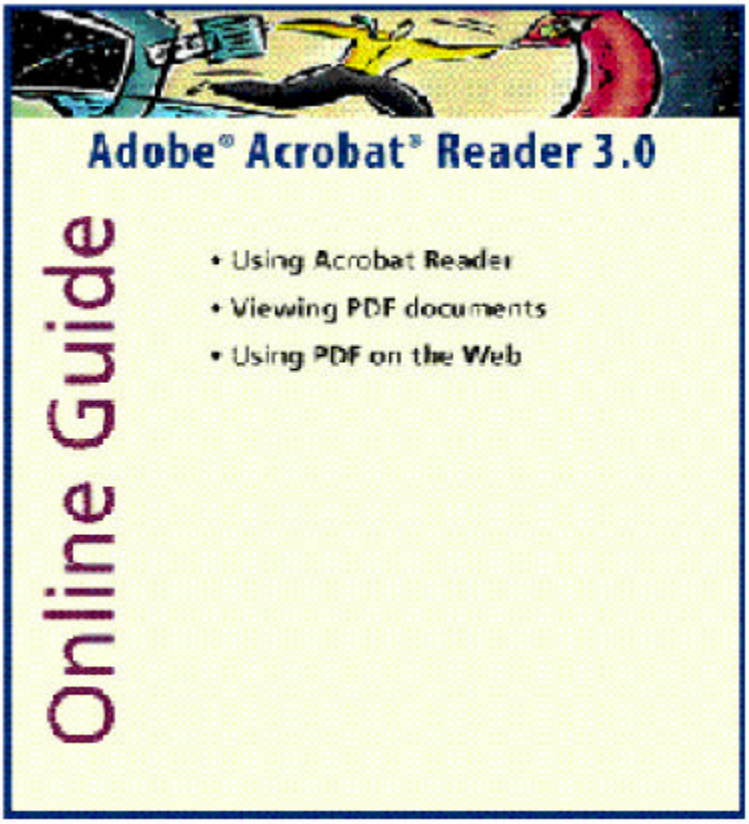
Online Help

Extensive online help is available through the Adobe Acrobat Reader Help Menu selection. The following screen will appear:



Basic setup information and troubleshooting are included with the Adobe Acrobat Reader. Review the README.TXT file included in the same subdirectory where the Reader software is installed.

This Online Guide and the README.TXT file have information on setup of the Web Browser and accessing WWW sites from within the Reader.

The WWW site http://www.adobe.com/acrobat provides an extensive library of information on the software and technical support.

FDA provides no support for setup or operational problems with the software.
