1.1.B.-(DoD585) If you are a USN/USMC activity/installation, are you a host command? A host command is an activity that provides facilities for its own functions and the functions of other (tenant) activities. A host has accountability for Class 1 (land), and/or Class 2 (buildings, structures, and utilities) property, regardless of occupancy. A Host Command may also be a tenant at other host

activities.

1.1.F.-(DoD591) If you are a USN/USMC activity/installation, identify your relationship with other activities, not reported as a host/tenant, for which you provide support. The intent of this input is to capture the full breadth of the mission of your command and your customer/supplier relationships. Include in your answer any Government Owned/Contractor operated facilities for which you provide administrative oversight and control.
(Text)
The United States Marine Corps Logistics Command (LOGCOM) provides logistics products and services to a global customer base by integrating the processes and outputs of three core competencies of end-to-end supply chain management, depot maintenance, and materiel prepositioning. LOGCOM's primary customer is the Marine Corps, but the ability to execute has attracted other customers such as the Army, Navy, Air Force, Army Reserves, other agencies such as the FBI, and foreign services. LOGCOM has leveraged technology and best business practices to transform into what a former DUSD(L&MR) called "a model of the modern logistics organization". Public/Private Partnering plays a vital role in mission execution as evidenced by partnering arrangements with companies such as United Defense Limited Partnership, W. W. Williams Detroit Diesel, Raytheon, and Honeywell.The Supply Chain Management Center is the Marine Corps end-to-end supply chain manager. They orchestrate organic and private sector capabilities to provide a single source for worldwide wholesale and selected retail supply chain activities for Principal End Items (PEIs), Secondary Reparables (SECREPs), and Consumables to meet operational requirements. LOGCOM's multi-commodity maintenance centers service over 122 PEIs with the potential for over 300,000 SECREPs for organic and interservice customers. Their CORE capability has been sized to meet customer requirements and maintain a ready controlled source of maintenance to meet USC Title 10 requirements. The centers also act as advisors and a source of maintenance expertise to the Marine Forces in unscheduled maintenance problems. Blount Island Command (BICmd) plans, coordinates, and executes the logistics efforts of attainment, maintenance, and sustainment in support of the National Strategic assets of the Maritime Prepositioning Ships (MPS) and the GeoPrepositioning Programs. Customer listing attached.

5.1.2.K.-(DoD505) NOTE: This question is to be answered ONLY by the Service Headquarters organization responsible for reporting core capabilities to OSD. What is the amount of depot core capability (in DLH) that must be provided by your Service? (This includes the core requirements your Service has agreed to provide for other Services). Provide your answers by commodity group for FY03, FY05 and FY09. For each Fiscal Year: Column "Total Depot Maintenance Core Capability Requirements" is your Service total core capabilities requirement before inter-servicing in or out of core capabilities between other Services. Column - "Inter-service In" is the total depot maintenance core capabilities requirements your Service is providing for other Services. Column - "From Service" is to note which Services the core capabilities requirements are from. Column - "Inter-service Out" is the total depot maintenance core capabilities requirements another Service is providing for your Service. Column - "To Service" is to note which Service the core capabilities requirements are going to. Column - "Total Core Requirements Service Must Provide" is calculated by adding Column "Total Depot Maintenance Core Capability Requirements and Column "Inter-service In" and then subtracting "Inter-service Out".
