MEMORANDUM FOR CHAIRMAN, EDUCATION AND TRAINING JOINT CROSS-SERVICE GROUP

SUBJECT: Follow On to Education Training Approach to Capacity Analysis

Thank you for your presentation to the Infrastructure Steering Group (ISG) on your Ranges subgroup's approach to capacity analysis. The ISG appreciates the effort that you and the members of your group have committed to the broad functions under your purview.

The ISG had a few modifications for your approach that you need to incorporate into your report. First, the term "resourced/budgeted capacity" should be changed to "normal use" throughout the report. The ISG agreed that the phrase "budgeted capacity" improperly implied that budgets, rather than requirements, drove range use. Second, the ISG agreed that the E&T JCSG should not categorically exclude classified ranges from its analysis. Instead the Military Departments should decide which (if any) classified ranges the E&T JCSG should analyze. Those not analyzed by the JCSG will be considered for analysis by the Military Departments. I have requested that the Military Department ISG members provide you with a listing of the classified ranges that your JCSG should analyze within 60 days.

Please make the changes mentioned above to your final report which you must submit for ISG approval by October 24th. If you have any questions, please direct them to Mr. Pete Potochney, Director, OSD BRAC. He can be reached at (703) 614-5356.

Michael W. Wynne
(Acting USD (Acquisition, Technology & Logistics)
Chairman, Infrastructure Steering Group
