Re:

Dear Parent or Guardian:

We are contacting families whose children are no longer enrolled in the Children's Health Insurance Program also known as CHIP. In order to improve the quality of CHIP, we would like to learn more about why your child is no longer enrolled.

We have enclosed a survey for you to complete. This gives you an opportunity to tell us how you felt about the program and services you received while your child was enrolled in CHIP.

Thank you for taking the time to complete and return the survey. We have enclosed a return addressed stamped envelope for your convenience. Your answers will be kept confidential. If you feel your child may qualify for CHIP or if you have any questions regarding eligibility please contact your local Department of Social Services.

Sincerely,

Nicki Bartel
