PUBLIC TESTIMONY: STOP BRIBERY, CORRUPTION AND POLITICAL PROSTITUTION! 02/10/09

What going on with this nation? The People, the media and even children all times are talking about bribery and corruption by politicians, year after year, for many years, and it continue. Why? What we are teaching our children? Where is the power of the Federal Election Commission (FEC)? It must enforce law. Where in the US Constitution is written that candidates may accept "donation, contribution"?

If a candidate accept any "donation, contribution" from an individual, group, PAC or etc, this candidate loses his / her dependency on the People and in most cases must pay back to the donors by doing some favors, promotions, appointments and etc. It is a corruption, a

felony, it is selling our democracy, selling of us, the People. IT MUST BE STOPPED!

And it is so easy to stop. Our nations has the Public Broadcast Service (PBS). The federal government (taxpayers) funds, gives to the PBS $500 million each year. Plus the PBS receive a huge amount of money from its membership, huge, tax deductible donations from individuals, companies and etc. Also the PBS has a huge profit from selling books, music and etc. The PBS, Corporation is a very rich "public" organization. And it must pay back to society: to inform and educate the People, the voters about Candidates Running for US President, Senate and House - organize and broadcast debate, forum of candidates.
But the PBS intentionally, with conspiracy with big sharks from the media, for theirs own huge monetary benefits, does not do it, that "pushed" candidates to accept "donations, contributions", and huge amount of money flows into pocket of corrupted media, which talks about candidates who paid it. Or stop funding the PBS.

The FEC must enforce the election law, support the Constitution of the USA: stop any bribery, corruption and political prostitution of candidates for the public office, stop selling our country. Because of money an idiots get elected and reelected, that creates a danger to our national security, bad economy and etc.
Any "donation, contribution and etc" is NOT a Freedom of Speech, is against our laws, and is a bribery of politicians and must be stopped.
Highly hope the FEC will support the Constitution of the USA and work for us, "We the People....".
