Dear FEC,

This is what I reported to the major parties to end the candidate's identity theft:

I never made any claim that I would run for office as a Republican to any political dynasty. I never made any claim that I would run as a Democrat for any office. I made reports to the FBI about election fraud because individuals used my identity in campaigning. I never made any campaign promise to any long-serving U.S. Senator. I•ve never been an intern to any President. I never made any explicit proposal towards powerful politicians. It is a scheme by those individuals to gain political advantage with a monetary award to cover up scandals. I never advised the President on any matters. I never spoke to the Vice-President on conflicts. I never suggested any agendas to the President-Elect. I did not offered services to the Vice-President Elect. I have not conferred with any aides such as cabinet members. I am not a Democrat. I am not a Republican. I•m not a member of any endorsing party. I•m apart of an opposing committee registered with the Federal Election Commission to report criminal activity in the General Elections. I am not running for any office including for U.S. President because I am not related to any important individual. I have not confirmed to any organization that I will campaign for their cause. I cannot accepted any offer for appointments to Vice-President, cabinet members, etc. Politic is a health hazard for individuals such as myself.

This is what I wrote to the U.S. Federal Oversight Board:

I•m reporting the governmental military fraud conspiracy concerning my business. The government was given illegal authorization by an individual who stole my identity to sell the patent for two-hundred fifty thousand dollars in a governmental grant, which the individual accepted a down payment of twenty thousand dollars. The U.S. Department of Defense•s governmental contracting corporation in Virginia stated that there weren•t

enough funds to finance my business venture yet the U.S. Department of State authorized applications of my patent to universities and colleges that cost billons of dollars. The government further lied stating that the patent infringed on federal funded projects since 1941 of calculators and re-started in 1978 of automatic storage machine such as ATMs. I wrote to the United States Patent and Trademark Office•s Solicitor General stating that my patent is legitimate dismissing those claims. IRS further stated that I did not pay taxes for three years, which I paid taxes from tax incentives in 2006. I made a tax report with NYS Department of Taxation and Finance. These incidents were used to authorized further plagiarism in commercial marketing and political campaigning through the United Service Organization, an organization that pays for military entertainment in connection to American Society of Composers, Authors, and Publishers. The government authorized illegally deals with different nations in United Nations by governmental corporations such as utilities and investment firms stating that I had an unpaid small business loan. I never received a small business start-up loan, which I reported to the U.S. Small Business Administration because financial institutions such as JP Morgan Chase were discriminating my credit history in order to boost their stocks and their mutual fund•s companies. I would like an investigation because I believe an official sold my business illegally to the Smithsonian Museum. There were media reports about fraud during Congressional campaigns for offices managing U.S. Historic Preservation Committee referring to producing licenses for copyrights and patents. Further there were fraud reports connected to Senatorial campaigns managing U.S. Finance and Judiciary Committee referring to trade deals. I made numerous of reports for investigation with U.S. Attorney General Gonalez but the U.S. Senate Judiciary Committee removed the U.S. Attorney General and those reports were terminated by the appointee. ASCAP ruined the entertainment industry nationally and internationally in their contact with U.S. Copyright Office making the copyrights universal to increase revenue costing $3.4 billion dollars.

This is what I reported to the FBI after the election:

I am reporting U.S. Secretary of State, Dr. Condi Rice because her actions proved political discrimination. When she was the National Security Advisor, I wrote emails to the White House and United Nations. Dr. Condi Rice illegally closed my Yahoo email account to prohibit me from writing to the White House and United Nations through Yahoo•s parent company, whose Hewitt-Packard because Dr. Condi Rice•s colleague was Hewitt-Packard CEO Carly Fiorina. At this time, I was reporting the illegal actions

by large corporations to the federal government. These complaints turned into lawsuits because politicians refused to prosecute according to legislation. Dr. Condi Rice under the U.S. State Department used her power over the U.S. Education Department with the AFSA program to withheld federal grants up to $7000.00 I have documents of this information. Dr. Condi Rice under the U.S. State Department allowed the military to abuse my credit history with $20000.00 loan. She placed my credit history on federal identity theft watch, which is the federal debt collector. Dr. Condi Rice further used strong language such as •terrorists• to taint reputation with the United Nations concerning peace deals. Even when I ended communication with the White House, she kept the conspiracy theory by tapping the phones and view my public library files. She misinterpreted all my contacts as a means to infringed on my business• intellectual properties. Dr. Condi Rice passively suggested that I worked for the government. Dr. Condi Rice used such belittling words about my business describing it as •modern slavery•.

This is what I wrote to FBI this January:

I am reporting Ms. Oprah Winfrey because her actions proved discrimination. Over four years ago, I wrote emails through her website. Ms. Oprah Winfrey illegally infringed on my intellectual property by fraud through Harpo Studios• parent company, NBC Universal because Ms. Oprah Winfrey used the emails as permission to my ideas. At this time, I was reporting the illegal actions by large corporations to the federal government. These complaints turned into lawsuits because politicians refused to prosecute according to legislation. Ms. Oprah Winfrey used her power in entertainment and politics to forcefully stopped my complaints. The media has documents of this information. Ms. Oprah Winfrey was planning during the midst of an investigation to publicly advertise my ideas in connection to the military and government. In my emails, I specifically wrote that the information was fully protected. Additionally, Ms. Oprah Winfrey•s website gave the assurance of confidentiality to all responders. I ended communication over four years ago and according to federal laws, all emails are suppose to be erased to protect identity. Ms. Oprah Winfrey in United Nations• connection to Senator Clinton with the campaign finance fraud two years ago. Even when I ended communication, she kept the conspiracy theory by words-of-mouth. She misinterpreted all my contacts as a means to infringed on my business• intellectual properties. I•m reporting Ms. Athina Onassis Roussel as the mastermind behind the conspiracy theories concerning election fraud and corporate scandal. Ms. Athina Onassis Roussel had closed ties to the

Democratic National Committee through Senator Clinton and Senator Kennedy since 2004. Ms. Athina Onassis Roussel used emails written over five years ago to commit espionage in
plagiarism and fraud. Ms. Athina Onassis Roussel gave permission to the Democratic Party during an election to bandwagon marketing and steal votes in such elections as the New York State•s General Election in 2006. Senator Clinton from New York, allowed Ms. Athina Onassis Roussel access to state citizens• record, which Ms. Athina Onassis Roussel used towards campaign fraud. Ms. Athina Onassis Roussel committed corporate fraud by granting licenses to my intellectual properties through her grandfather•s companies to technology companies in order for a stock kickback. Ms. Athina Onassis Roussel further petitioned a group of wealthy supporters such as Ms. Oprah Winfrey and Senator Barack Obama. Ms. Athina Onassis Roussel, even after being acknowledged as married in 2006, used rumors and threats to illegal closed my federal lawsuits in 2007. Internationally, Ms. Athina Onassis Roussel through connection to royalties such as the British Royal Family and nationally bribed public officials to perjury and obstruction of justice. I reported Ms. Athina Onassis Roussel to the United Nations for illegally stating that she•s an officer in my company and that her friends were officers on my company•s board of directors. I reported this to her grandfather•s foundation but it was written that she does not have any authority there either. Ms. Athina Onassis Roussel connected to the Secretary of State Dr. Condi Rice in order to pardon herself and co-conspirators from federal charges. I•m reporting the facts I know about Senator Barack Obama. Senator Obama became a known confident of Senator Clinton back in 2006 after the General Election, where Senator Obama was briefed about the fraud and plagiarism by the Democratic National Committee. Senator Obama together with Senator Clinton•s approval, went to the FEC to forcefully seized control over the National-Union of America Committee. Senator Obama hid the visit to the FEC by stating that it was a campaign finance investigation. Both Senator Clinton and Senator Obama tried to legally ended the fraud investigation that I started in 2006. Senator Obama was given legal authority by Senator Clinton to my governmental records to use for public campaigning in which the information was used to illegally gather facts to distort voters with churches, PTA, and communities. Democratic National Committee made a compromise with the Republican National Committee because of the political alliance between Senator Clinton and President Bush, which allowed the National-Union of America Committee•s votes to be stolen and hidden from the public in •Blank• and

•Other•. My political party is managed by the National-Union of America Committee. Both Republican National Committee and Democratic National Committee used age requirement and degree
requirement to justify their fraud compromise. Even though last century, both major political parties relaxed on degree requirement and age requirement proving political discrimination because Senator Obama is believed to be 33 years old and the Democrats elected an 18 years old for mayor in Pennsylvania. It is legal for candidates to choose an age, which they represent for public office. I received approval from seniors and retirees to run for office. During this time, both Senator Clinton and Ms. Oprah Winfrey were prospects as a potential Democratic Candidates for U. S. President. Both Senator Clinton and Ms. Oprah Winfrey were involved with public slander campaign, which they had young fans and famous friends to spread rumors of sex scandal in exchange for secretive bribery. Ms. Oprah Winfrey was apart of a plot to takeover my political party by stating it was apart of the African National Union in South Africa. There were reports of bribery and fraud during the U.S. Presidential Campaign. Senator Obama used the ideas that I submitted to the Democratic National Committee in 2004 through Senator Kerry and Senator Edwards in order to justify corporate deals to sell my intellectual properties. Senator Biden verified the deals as under the former President Clinton•s administration. The government allowed JP Morgan Chase to commit this fraud in foreign exchanges against the banking regulations. JP Morgan Chase sponsors numerous of studios. Primous Publishing Co. and Charles Primous Company are fraud businesses confirmed by the Florida Attorney General, which Hollywood Media Corporation used to secure deals with my intellectual properties. Apart of the NYS Governor Spitzer scandal and NYS Governor Paterson•s investigation were their connection to JP Morgan Chase as investors. JP Morgan Chase became the State bank after their election. American Society of Composers, Authors, and Publishers used Pepsi Co. and Coca Cola Co. in their records to license my intellectual properties. American Society of Composers, Authors, and Publishers were supporters of Working Families Party, whom supported the Democratic Party. American Society of Composers, Authors, and Publishers made a settlement with Walt Disney when you were a member without your permission.

This is the new evidence up to now:

The National Union of America Party is a registered FEC party under the party committee entitled National-Union of America Committee. Democratic National Committee with the Republican Policy Committee

were planning to used the National - Union of America Committee to secure international trade re-naming the committee, National - Union of American Committee. The Democratic National Committee and Republican National Committee were committing fraud by bribing third parties in partnership under the Progressive Party, which a website confirms this accusation. Democratic National Committee with Republican National Committee expose my vote before the 2008 General Election for campaigning purposes to voters such as the Parents and Teachers Association. In Project Vote Smart, the Democratic National Committee and Republican National Committee were setting up impostors, who were imitating the National - Union of America Committee•s candidates in such states as Illinois. The Democratic National Committee and Republican National Committee were reported to the Federal Election Commission because States were allowing states• parties to commit fraud. The Democratic National Committee and the Republican National Committee used the United States Postal Service through their labor union for unnecessary espionage during the General Election. The Democratic National Committee bribed such media conglomerates as New York Times to plagiarized on story submission. The Democratic National Committee had some candidates make accusations that claimed I•m related to the King of Hawaii. This was evident in a major voters• strike during the election requesting for restoration of Hawaii•s Kingship. This should be considered unconstitutional.
