Section II: Program's Performance Measurement and Progress

Section IIB: Enrollment and Uninsured Data

SARTS has incorrect data for the Unduplicated Number of Children Ever Enrolled in SCHIP in Texas for the two most recent reporting periods. It appears that the data was entered incorrectly into SEDS. The correct numbers are shown in the table below.

Program	FFY 2005	FFY 2006	Percent change FFY 2005-2006
SCHIP Medicaid Expansion Program			
Separate Child Health Program	**526,484**	**515,559**	**-2.1%**

Because there is only a -2.1 percent change in the unduplicated number of children ever enrolled in SCHIP in Texas between FFYs 2005 and 2006, the state will not be providing a response for question 1A in this section. HHSC staff will correct the data in SEDS to reflect the above numbers.
