1.2.C.-(DoD303) This question should be answered by all owned installations, except the Pentagon Reservation (see amplification for definitions). For EACH building of owned, administrative space that is located on your installation, excluding the Pentagon Reservation, complete the following table by occupant per building. Include each occupant's name/UIC or department equivalent and which building(s) they occupy (building number, name, address), as well as the GSF (Gross Square Feet) and personnel breakdown (authorized and on-board/detailees) per occupant per building. Provide the projected number of ADDITIONAL personnel and space needed to meet any surge requirements. NOTE - there can and should be multiple entries for the SAME building IF it contains more than one occupant. Space/buildings occupied by DoD Defense Agencies should NOT be included, but all other DoD space should be reported. In the final column answer this yes/no questions: If additional personnel ARE required under operational and/or contingency plans to perform administrative functions, do you have sufficient administrative space to accommodate the surge?

Section : Ramp Space / Taxiways

1.6.3.A.-(DoD8) Complete the following tables for ramp/apron space. Include only the ramps/aprons which are owned/controlled by the installation opr which the installation has access to but may not own. “Controlled” includes land/property used by DoD under lease, license, permit, etc. “Access” includes land/property for which an agreement/easement is in effect between the DoD and the owner (such as ANG/AFRC use of civilian airports), but primary control rests with the owner, not DoD. Identify all non-contiguous ramps. These are ramps which are pavement areas larger than 2,750 square yards, connected to other airfield pavement areas by a taxiway. For example, a large ramp area which has a hangar or row of hangars constructed on it would then be considered two ramp areas. Number all ramp areas in sequential fashion if no alpha-numeric scheme adopted by the installation.
