5.1.2.K.-(DoD505) NOTE: This question is to be answered ONLY by the Service Headquarters organization responsible for reporting core capabilities to OSD. What is the amount of depot core capability (in DLH) that must be provided by your Service? (This includes the core requirements your Service has agreed to provide for other Services). Provide your answers by commodity group for FY03, FY05 and FY09. For each Fiscal Year: Column "Total Depot Maintenance Core Capability Requirements" is your Service total core capabilities requirement before inter-servicing in or out of core capabilities between other Services. Column - "Inter-service In" is the total depot maintenance core capabilities requirements your Service is providing for other Services. Column - "From Service" is to note which Services the core capabilities requirements are from. Column - "Inter-service Out" is the total depot maintenance core capabilities requirements another Service is providing for your Service. Column - "To Service" is to note which Service the core capabilities requirements are going to. Column - "Total Core Requirements Service Must Provide" is calculated by adding Column "Total Depot Maintenance Core Capability Requirements and Column "Inter-service In" and then subtracting "Inter-service Out".
