1.1.A.-(DoD584) For your USN/USMC activity/installation, provide the following information in the table below. If any of the information requested is subject to change between now and the end of Fiscal Year (FY) 2005 due to known redesignations, realignments/closures, or other action, provide current and projected data and so annotate. Identify your Immediate Superior In Command (ISIC). If your ISIC is not your primary funding source, please identify that source in addition to the operational ISIC.

1.1.B.-(DoD585) If you are a USN/USMC activity/installation, are you a host command? A host command is an activity that provides facilities for its own functions and the functions of other (tenant) activities. A host has accountability for Class 1 (land), and/or Class 2 (buildings, structures, and utilities) property, regardless of occupancy. A Host Command may also be a tenant at other host activities.

1.1.C.-(DoD586) If you are a USN/USMC activity/installation and a Tenant Command, fill out the following table. A tenant command is an activity or unit that occupies facilities for which another activity (i.e., the host) has accountability. A tenant may have several hosts, although one is usually designated its primary host.

1.1.F.-(DoD591) If you are a USN/USMC activity/installation, identify your relationship with other activities, not reported as a host/tenant, for which you provide support. The intent of this input is to capture the full breadth of the mission of your command and your customer/supplier relationships. Include in your answer any Government Owned/Contractor operated facilities for which you

provide administrative oversight and control.

1.2.5.H.-(DoD102) If your installation conducts undergraduate or graduate level flight training, for the ground school training facilities, list the usage requirements for other than student flight training. Other use made of the facilities must be either from course requirements and student throughput (for formal schools/courses of instruction) or that required to maintain readiness (for permanent/support personnel, reserves, etc.).

Type of Flight Training (Text)	FAC for Facility (Code)	Facility Description (Text)	Usage requirement (Hours per Graduate) (Hrs)
Instrument Ground School	1711	Classroom	8
Crew Resource Management	1711	Classroom	8

1.2.5.I.-(DoD103) By Facility Analysis Code, calculate the current capacity for flight training students, ** Design Capacity (PN) and Capacity (in student hours per year) for all training facilities at the installation in which undergraduate or graduate flight training is conducted. Include all 171X, 179X DoD Facility Analysis Code (FAC) series, and any other applicable FACs. Design Capacity is the number of students for which a classroom, etc., is designed. Total Capacity is student hours per year. For example: In the category 1711, a type of training facility is Flight Training Classroom. If you have 10 classrooms with a capacity of 25 students per room, the design capacity would be 250. If these classrooms are available 8 hours a day for 244 days a year, the capacity in student hours per year would be 488,000.
