Subject: RE: Referral

Dear [purged]:

Thank you for your inquiry.

FDA does not provide references for commercial businesses of any type. I would suggest that you contact businesses in your area which would have similar needs, a local association of businesses or professional providers, or a professional organization(s) that might be involved with food product and/or nutritional analysis. There are also a number of different departments (e.g., food science or nutrition) in the larger universities within your area that might serve as sources of such information. A limited internet "google search" actually pulled up some possible names, which is another approach you might consider.

Hope this information is useful.

If you need further information and/or have additional questions, please submit them once again to the official GCP mailbox, gcpquestions@oc.fda.gov, in lieu of responding to my personal e-mail address.

Sincerely yours,

Jean Toth-Allen, Ph.D.
Good Clinical Practices Program
OSHC, Office of the Commissioner, US FDA

Subject: Referral

Hi,

I´m interested in getting a contact information for a non-clinical analyisis
of my food product, in order to document the "Nutrition Facts" table on my
food product.

I´d appreaciate a referral preferbly in the state of Texas. If not,
wherever it may be.

Thank you ,

[purged]
