FRAMEWORK FOR THE ANNUAL REPORT OF THE STATE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

Preamble

Section 2108(a) of the Act provides that the State must assess the operation of the State child health plan in each fiscal year, and report to the Secretary, by January 1 following the end of the fiscal year, on the results of the assessment. In addition, this section of the Act provides that the State must assess the progress made in reducing the number of uncovered, low-income children.

To assist States in complying with the statute, the National Academy for State Health Policy (NASHP), with funding from the David and Lucile Packard Foundation, has coordinated an effort with States and CMS over the years to design and revise this Annual Report Template. Over time, the framework has been updated to reflect program maturation and corrected where difficulties with reporting have been identified.

The framework is designed to:

- Recognize the ***diversity*** of State approaches to SCHIP and allow States ***flexibility*** to highlight key accomplishments and progress of their SCHIP programs, **AND**
- Provide ***consistency*** across States in the structure, content, and format of the report, **AND**
- Build on data ***already collected*** by CMS quarterly enrollment and expenditure reports, **AND**
- Enhance ***accessibility*** of information to stakeholders on the achievements under Title XXI.

FRAMEWORK FOR THE ANNUAL REPORT OF THE STATE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

State/Territory: **VT**
(Name of State/Territory)

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a)).

Signature:

Russell Frank

SCHIP Program Name(s): **All, Dr. Dynasaur**

SCHIP Program Type:

- ☐ SCHIP Medicaid Expansion Only
- ☒ Separate Child Health Program Only
- ☐ Combination of the above

Reporting Period: **2006** *Note: Federal Fiscal Year 2006 starts 10/1/05 and ends 9/30/06.*

Contact Person/Title: **Russell Frank, SCHIP Coordinator**

Address: **312 Hurricane Lane**

Suite 201

City: **Williston** State**:** **VT** Zip**:** **05495**

Phone: **802-879-5932** Fax: **802-879-5963**

Email: **russell.frank@ahs.state.vt.us**

Submission Date: **4/19/2007**

(Due to your CMS Regional Contact and Central Office Project Officer by January 1st of each year)

SECTION I: SNAPSHOT OF SCHIP PROGRAM AND CHANGES

1) To provide a summary at-a-glance of your SCHIP program characteristics, please provide the following information. You are encouraged to complete this table for the different SCHIP programs within your state, e.g., if you have two types of separate child health programs within your state with different eligibility rules. If you would like to make any comments on your responses, please explain in narrative below this table.

	SCHIP Medicaid Expansion Program					Separate Child Health Program				
Eligibility						**From**		% of FPL conception to birth		% of FPL
	From		% of FPL for **infants**		% of FPL	**From**	225	% of FPL for **infants**	300	% of FPL
	From		% of FPL for children ages **1 through 5**		% of FPL	**From**	225	% of FPL for 1 **through 5**	300	% of FPL

SECTION II: PROGRAM'S PERFORMANCE MEASUREMENT AND PROGRESS

This section consists of three subsections that gather information on the core performance measures for the SCHIP program as well as your State's progress toward meeting its general program strategic objectives and performance goals. Section IIA captures data on the core performance measures to the extent data are available. Section IIB captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your State. Section IIC captures progress towards meeting your State's general strategic objectives and performance goals.

SECTION IIA: REPORTING OF CORE PERFORMANCE MEASURES

CMS is directed to examine national performance measures by the SCHIP Final Rules of January 11, 2001. To address this SCHIP directive, and to address the need for performance measurement in Medicaid, CMS, along with other Federal and State officials, developed a core set of performance measures for Medicaid and SCHIP. The group focused on well-established measures whose results could motivate agencies, providers, and health plans to improve the quality of care delivered to enrollees. After receiving comments from Medicaid and SCHIP officials on an initial list of 19 measures, the group recommended seven core measures, including four core child health measures:

- Well child visits in the first 15 months of life
- Well child visits in the 3rd, 4th, 5th, and 6th years of life
- Use of appropriate medications for children with asthma
- Children's access to primary care practitioners

These measures are based on specifications provided by the Health Plan Employer Data and Information Set (HEDIS®). HEDIS® provides a useful framework for defining and measuring performance. However, use of HEDIS® methodology is <u>not</u> required for reporting on your measures. The HEDIS® methodology can also be modified based on the availability of data in your State.

This section contains templates for reporting performance measurement data for each of the core child health measures. Please report performance measurement data for the three most recent years (to the extent that data are available). In the first and second column, report data from the previous two years' annual reports (FFY 2004 and FFY 2005). If you previously reported no data for either of those years, but you now have recent data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2006). Additional instructions for completing each row of the table are provided below.

If Data Not Reported, Please Explain Why:
If you cannot provide a specific measure, please check the box that applies to your State for each performance measure as follows:

- <u>Population not covered</u>: Check this box if your program does not cover the population included in the measure.
- <u>Data not available</u>: Check this box if data are not available for a particular measure in your State. Please provide an explanation of why the data are currently not available.
- <u>Small sample size</u>: Check this box if the sample size (i.e., denominator) for a particular measure is less than 30. If the sample size is less than 30, your State is not required to report data on the measure. However, please indicate the exact sample size in the space provided.
- <u>Other</u>: Please specify if there is another reason why your state cannot report the measure.

Status of Data Reported:
Please indicate the status of the data you are reporting, as follows:

- <u>Provisional</u>: Check this box if you are reporting data for a measure, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2006.
- <u>Final</u>: Check this box if the data you are reporting are considered final for FFY 2006.

- Same data as reported in a previous year's annual report: Check this box if the data you are reporting are the same data that your State reported in another annual report. Indicate in which year's annual report you previously reported the data.

Measurement Specification:
For each performance measure, please indicate the measurement specification (i.e., were the measures calculated using the HEDIS® technical specifications, HEDIS®-like specifications, or some other source with measurement specifications unrelated to HEDIS®). If the measures were calculated using HEDIS® or HEDIS®-like specifications, please indicate which version was used (e.g., HEDIS® 2006). If using HEDIS®-like specifications, please explain how HEDIS® was modified.

Data Source:
For each performance measure, please indicate the source of data – administrative data (claims), hybrid data (claims and medical records), survey data, or other source. If another data source was used, please explain the source.

Definition of Population included in the Measure:
Please indicate the definition of the population included in the denominator for each measure (such as age, continuous enrollment, type of delivery system). Check one box to indicate whether the data are for the SCHIP population only, or include both SCHIP and Medicaid (Title XIX) children combined. Also provide a definition of the numerator (such as the number of visits required for inclusion).

Note: You do not need to report data for all delivery system types. You may choose to report data for only the delivery system with the most enrollees in your program.

Year of Data:
Please report the year of data for each performance measure. The year (or months) should correspond to the *period in which utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

Performance Measurement Data (HEDIS® or Other):
In this section, please report the numerators, denominators, and rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on whether you are reporting using HEDIS® or HEDIS®-like methodology or a methodology other than HEDIS®. The form fields have been set up to facilitate entering numerators, denominators, and rates for each measure. If the form fields do not give you enough space to fully report on your measure, please use the "additional notes" section.

Note: SARTS will calculate the rate if you enter the numerator and denominator. Otherwise, if you only have the rate, enter it in the rate box.

If you typically calculate separate rates for each health plan, report the aggregate state-level rate for each measure (or component). The preferred method is to calculate a "weighted rate" by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator. Alternatively, if numerators and denominators are not available, you may calculate an "unweighted average" by taking the mean rate across health plans.

Explanation of Progress:
The intent of this section is to allow your State to highlight progress and describe any quality improvement activities that may have contributed to your progress. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2007, 2008, and 2009. Based on your recent performance on the measure (from FFY 2004 through 2006), use a combination of expert opinion and "best guesses" to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small

increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years.

In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

Other Comments on Measure:
Please use this section to provide any other comments on the measure, such as data limitations or plans to report on a measure in the future.

NOTE: Please do not reference attachments in this table. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

SECTION IIB: ENROLLMENT AND UNINSURED DATA

1. The information in the table below is the Unduplicated Number of Children Ever Enrolled in SCHIP in your State for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 in your State's 4th quarter data report (submitted in October) in the SCHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by SARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response.

Program	FFY 2005	FFY 2006	Percent change FFY 2005-2006
SCHIP Medicaid Expansion Program	0	0	
Separate Child Health Program	6614	6519	-1.44

   A. Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent.

2. The table below shows trends in the three-year averages for the number and rate of uninsured children in your State based on the Current Population Survey (CPS), along with the percent change between 1996-1998 and 2003-2005. Significant changes are denoted with an asterisk (*). If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3. SARTS will fill in this information automatically, but in the meantime, please refer to the CPS data attachment that was sent with the FFY 2006 Annual Report Template.

	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
Period	Number	Std. Error	Rate	Std. Error
1996 - 1998	3	1.6	2.1	1.0
1998 - 2000	6	2.1	3.6	1.2
2000 - 2002	3	.9	2.1	.7
2002 - 2004	3	1.0	2.1	.7
2003 - 2005	3	1.1	2.0	.7
Percent change 1996-1998 vs. 2003-2005	.0%	NA	-4.8%	NA

A. Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children.

B. Please note any comments here concerning CPS data limitations that may affect the reliability or precision of these estimates.

The Vermont SCHIP program provides coverage for children between 225-300 % FPL. CPS data only goes up to 200% FPL, as such does not measure uninsured rates for those with higher incomes.

3. Please indicate by checking the box below whether your State has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

☒ Yes (please report your data in the table below)

☐ No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Data source(s)	OVHA uses data from the Vermont Family Health Insurance Survey (See Section II C).
Reporting period (2 or more points in time)	2000 & 2005
Methodology	See below B.
Population (Please include ages and income levels)	Children 0-17 years.
Sample sizes	See below B.
Number and/or rate for two or more points in time	2000 - 141333/147525: 95.8% Insured; 2005 133710/140651: 95.07% Insured
Statistical significance of results	

A. Please explain why your State chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children.
This is not a different method, rather an additional methodology.

OVHA uses data from the Dept of Banking, Insurance, Securities, & Health Care Administration Family Health Insurance Survey. The survey was conducted in 2000 and late 2005.

B. What is your State's assessment of the reliability of the estimate? What are the limitations of the data or estimation methodology? (Provide a numerical range or confidence intervals if available.)
The 2000 Survey was random digit-dial telephone survey of 8,623 households with margin of error of+ 1%.

The 2005 data is an estimate based on a random digit-dial telephone survey of 4,468 households with margin of error of+ 1.5%.

C. What are the limitations of the data or estimation methodology?

4. How many children do you estimate have been enrolled in Medicaid as a result of SCHIP outreach activities and enrollment simplification? Describe the data source and method used to derive this information

This information is not available.

SECTION IIC: STATE STRATEGIC OBJECTIVES AND PERFORMANCE GOALS

This subsection gathers information on your State's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your SCHIP State Plan. The format of this section has been revised for FFY 2006 to provide your State with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- SCHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, please enter the data you reported for each objective in the previous two years' annual reports (FFY 2004 and FFY 2005). In the third column, please report the most recent data available at the time you are submitting the annual report.

Note that the term *performance measure* is used differently in Section IIA versus IIC. In Section IIA, the term refers to the four core child health measures. In this section, the term is used more broadly, to refer to any data your State provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are State-specific, and should be listed in the appropriate subsections within the space provided for each objective.

NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

In addition, please do not report the same data that were reported in Sections IIA or IIB. The intent of this section is to capture goals and measures that your State did not_report elsewhere in Section II.

Additional instructions for completing each row of the table are provided below.

Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective.

Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- New/revised: Check this box if you have revised or added a goal. Please explain how and why the goal was revised.
- Continuing: Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- Discontinued: Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued.

Status of Data Reported:
Please indicate the status of the data you are reporting for each goal, as follows:

- Provisional: Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2006.
- Final: Check this box if the data you are reporting are considered final for FFY 2006.
- Same data as reported in a previous year's annual report: Check this box if the data you are reporting are the same data that your State reported for the goal in another annual report. Indicate in which year's annual report you previously reported the data.

Measurement Specification:
This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which States may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications, HEDIS®-like specifications, or some other method unrelated to HEDIS®). If the measures were calculated using HEDIS® or HEDIS®-like specifications, please indicate which version was used (e.g., HEDIS® 2006). If using HEDIS®-like specifications, please explain how HEDIS® was modified.

Data Source:
For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and SCHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source. For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims), hybrid data (claims and medical records), survey data (specify the survey used), or other source. In all cases, if another data source was used, please explain the source.

Definition of Population Included in Measure:
Please indicate the definition of the population included in the denominator for each measure (such as age, continuous enrollment, type of delivery system). Also provide a definition of the numerator (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

For measures related to increasing access to care and use of preventative care , please also check one box to indicate whether the data are for the SCHIP population only, or include both SCHIP and Medicaid (Title XIX) children combined.

Year of Data:
Please report the year of data for each performance measure. The year (or months) should correspond to the *period in which enrollment or utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

Performance Measurement Data:
Describe what is being measured: Please provide a brief explanation of the information you intend to capture through the performance measure.

Numerator, Denominator, and Rate: Please report the numerators, denominators, and rates for each measure (or component). For the objectives related to increasing access to care and use of preventative care, the template provides two sections for entering the performance measurement data, depending on whether you are reporting using HEDIS® or HEDIS®-like methodology or a methodology other than HEDIS®. The form fields have been set up to facilitate entering numerators, denominators, and rates for

each measure. If the form fields do not give you enough space to fully report on your measure, please use the “additional notes” section.

If you typically calculate separate rates for each health plan, report the aggregate state-level rate for each measure (or component). The preferred method is to calculate a “weighted rate” by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator. Alternatively, if numerators and denominators are not available, you may calculate an “unweighted average” by taking the mean rate across health plans.

Explanation of Progress:

The intent of this section is to allow your State to highlight progress and describe any quality improvement activities that may have contributed to your progress. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2007, 2008, and 2009. Based on your recent performance on the measure (from FFY 2004 through 2006), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

Other Comments on Measure:

Please use this section to provide any other comments on the measure, such as data limitations or plans to report on a measure in the future.

Objectives Related to Reducing the Number of Uninsured Children (Do not report data that was reported in Section IIB, Questions 2 and 3)

Other Comments on Measure:		

1. What other strategies does your State use to measure and report on access to, quality, or outcomes of care received by your SCHIP population? What have you found?

SCHIP is just one of the children's health insurance programs offered to Vermonters by OVHA as Dr Dynasaur. Within Vermont there are two organizations (Vermont Program for Quality in Health Care and the Vermont Child Health Improvement Program) that conduct quality improvement initiatives that impact the quality of health care provided to those in the Dr Dynasaur program.

2. What strategies does your SCHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your SCHIP population? When will data be available?

Vermont has a new 1115 Waiver and has hired a Director of Quality Improvement. The Director of Quality of Improvement is reviewing existing QI projects and measures, and developing new projects and measures. This should create some new strategies in the Dr Dynasaur program.

3. Have you conducted any focused quality studies on your SCHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special heath care needs or other emerging health care needs? What have you found?

Vermont has not conducted any focused quality studies on our SCHIP population.

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your SCHIP program's performance. Please list attachments here and summarize findings or list main findings.

N/A

Enter any Narrative text below.

SECTION III: ASSESSMENT OF STATE PLAN AND PROGRAM OPERATION

Please reference and summarize attachments that are relevant to specific questions

OUTREACH

1. How have you redirected/changed your outreach strategies during the reporting period?

   There have been no changes in Vermont's approach to SCHIP outreach.

2. What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness?

   Vermont has found word of mouth and school outreach to be the best methods.

3. Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)? Have these efforts been successful, and how have you measured effectiveness?

   Outreach activities are conducted for the Dr Dynasaur program (all OVHA childrens' health insurance programs). Outreach has not been targeted to any special population during the last year.

SUBSTITUTION OF COVERAGE (CROWD-OUT)

States with a separate child health program above 200 through 250% of FPL must complete question 1. All other states with trigger mechanisms should also answer this question.

1. Does your state cover children between 200 and 250 percent of the FPL or does it identify a trigger mechanism or point at which a substitution prevention policy is instituted?

   ☒ Yes
   ☐ No
   ☐ N/A

   If yes, please identify the trigger mechanisms or point at which your substitution prevention policy is instituted.

   The State believes that individuals should be encouraged to obtain and retain any insurance coverage available to them. Vermont has discouraged substitution by offering coverage in the 225% - 300% FPL range to those with other insurance through its' 1115 Waiver. As of October 2006 there were 1,279 children enrolled. The trigger mechanism is coverage in the 225% - 300% FPL range for those with other insurance, and that is always available to those who are eligible.

States with separate child health programs over 250% of FPL must complete question 2. All other states with substitution prevention provisions should also answer this question.

2. Does your state cover children above 250 percent of the FPL or does it employ substitution prevention provisions?

   ☒ Yes
   ☐ No
   ☐ N/A

If yes, identify your substitution prevention provisions (waiting periods, etc.).

The State has always believed that eligibles should be encouraged to obtain and retain any insurance coverage available to them. Vermont has discouraged substitution by offering coverage in the 225% - 300% FPL range to those with other insurance through its' 1115 Waiver. Allowing those underinsured children access to the Medicaid benefit prevents those children from dropping commercial coverage.

All States must complete the following 3 questions

3. Describe how substitution of coverage is monitored and measured and the effectiveness of your policies.

   The goal in Vermont has been to provide health care coverage for all children through a combination of public and private insurers. The Department of Banking, Insurance, Securities, and Health Care Administration (BISHCA) conducts periodic household surveys of the health insurance coverage of Vermonters. Results from these surveys are used to monitor changes / fluctuations in the mix of public-private insurers covering children. While there has been a slight shift from commercial coverage; OVHA SCHIP enrollments have not increased.

   In addition, OVHA monitors SCHIP enrollment and disenrollment activities, and enrollment and disenrollment of children between 225-300% FPL with insurance covered under the 1115 Waiver. While there has been a reduction in the number of individuals between 225-300% FPL with other insurance covered by OVHA; there has been no corresponding increase in SCHIP enrollment.

4. At the time of application, what percent of applicants are found to have insurance?

   OVHA has no data regarding the percent of SCHIP applicants that are found to have insurance at the time of application. Because OVHA offers coverage to those children between 225-300% FPL with insurance, we know that as of October 2006 1,279 children between 225-300% FPL with insurance were covered under the 1115 Waiver.

5. Describe the incidence of substitution. What percent of applicants drop group health plan coverage to enroll in SCHIP?

   OVHA has no data on percent of SCHIP applicants who drop group health insurance to enroll in SCHIP. OVHA offers coverage to those children between 225-300% FPL with insurance to prevent SCHIP applicants from dropping group health plan coverage. While there has been a reduction in the number of individuals between 225-300% FPL with other insurance covered by OVHA; there has been no corresponding increase in SCHIP enrollment.

COORDINATION BETWEEN SCHIP AND MEDICAID

(This subsection should be completed by States with a Separate Child Health Program)

1. Do you have the same redetermination procedures to renew eligibility for Medicaid and SCHIP (e.g., the same verification and interview requirements)? Please explain.

   The Department for Children and Families is responsible for determining, and re-determining eligibility for all medical assistance programs, including eligibility for the Medicaid, VHAP, and SCHIP programs. Vermont uses an automated, integrated eligibility system called ACCESS. Criteria for SCHIP is programmed into ACCESS. The processes for determining eligibility for Medicaid and SCHIP are the same.

2. Please explain the process that occurs when a child's eligibility status changes from Medicaid to SCHIP and from SCHIP to Medicaid. Have you identified any challenges? If so, please explain.

Vermont children are not transferred from one program to the other program. Vermont's automated eligibility system ACCESS utilizes program criteria to determine and assign a beneficiary a category code depending on the program. For the most part, the change is transparent from the beneficiary's view.

3. Are the same delivery systems (including provider networks) used in Medicaid and SCHIP? Please explain.

   The SCHIP program is a separate program, however it operates the same as the Medicaid program using the same eligibility system, benefits-counseling firm, provider network, billing, authorizations, and utilization systems, and other infrastructure to deliver health care services to beneficiaries.

ELIGIBILITY REDETERMINATION AND RETENTION

1. What measures does your State employ to retain eligible children in SCHIP? Please check all that apply and provide descriptions as requested.

☐ Conducts follow-up with clients through caseworkers/outreach workers

☒ Sends renewal reminder notices to all families

- How many notices are sent to the family prior to disenrolling the child from the program? Reminder notices are sent to those who have not returned recertification forms by the 1st deadline.
- At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the State?)

☐ Sends targeted mailings to selected populations

- Please specify population(s) (e.g., lower income eligibility groups)

☐ Holds information campaigns

☐ Provides a simplified reenrollment process,

Please describe efforts (e.g., reducing the length of the application, creating combined Medicaid/SCHIP application)

☐ Conducts surveys or focus groups with disenrollees to learn more about reasons for disenrollment *please describe:*

☐ Other, *please explain*:

2. Which of the above strategies appear to be the most effective? Have you evaluated the effectiveness of any strategies? If so, please describe the evaluation, including data sources and methodology.

Vermont has not evaluated the effectiveness of these strategies. Vermont is reviewing all aspects of enrollment to identify changes to enroll those uninsured who are eligible for existing programs.

3. Does your State generate monthly reports or conduct assessments that track the outcomes of individuals who disenroll, or do not reenroll, in SCHIP (e.g., how many obtain other public or private coverage, how many remain uninsured, how many age-out, how many move to a new geographic area)

   ☐ Yes
   ☒ No
   ☐ N/A

   When was the monthly report or assessment last conducted?

If you responded yes to the question above, please provide a summary of the most recent findings (in the table below) from these reports and/or assessments.

Findings from Report/Assessment on Individuals Who Disenroll, or Do Not Reenroll in SCHIP

Total Number of Dis-enrollees	**Obtain other public or private coverage**		**Remain uninsured**		**Age-out**		**Move to new geographic area**		**Other**	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent

Please describe the data source (e.g., telephone or mail survey, focus groups) used to derive this information.

COST SHARING

1. Has your State undertaken any assessment of the effects of premiums/enrollment fees on participation in SCHIP? If so, what have you found?

   OVHA has not conducted any assessment of the effects of premiums recently. While enrollment has remained steady, it has not grown. BISHCA data on uninsured indicates there are many uninsured children eligible for OVHA programs, and many uninsured identified cost for insurance as a barrier. As a result, the Legislature has reduced premiums for July 1, 2007 by 50% to increase participation.

2. Has your State undertaken any assessment of the effects of cost sharing on utilization of health services in SCHIP? If so, what have you found?

   No.

3. If your state has increased or decreased cost sharing in the past federal fiscal year, has the state undertaken any assessment of the impact of these changes on application, enrollment, disenrollment, and utilization of health services in SCHIP. If so, what have you found?

   No.

PREMIUM ASSISTANCE PROGRAM(S) UNDER SCHIP STATE PLAN

1. Does your State offer a premium assistance program for children and/or adults using Title XXI funds under any of the following authorities?

   ☐ Yes, please answer questions below.
   ☒ No, skip to Program Integrity subsection.

Children

☐ Yes, Check all that apply and complete each question for each authority.

☐ Premium Assistance under the State Plan
☐ Family Coverage Waiver under the State Plan
☐ SCHIP Section 1115 Demonstration
☐ Medicaid Section 1115 Demonstration
☐ Health Insurance Flexibility & Accountability Demonstration
☐ Premium Assistance under the Medicaid State Plan (Section 1906 HIPP)

Adults

☐ Yes, Check all that apply and complete each question for each authority.

☐ Premium Assistance under the State Plan (Incidentally)
☐ Family Coverage Waiver under the State Plan
☐ SCHIP Section 1115 Demonstration
☐ Medicaid Section 1115 Demonstration
☐ Health Insurance Flexibility & Accountability Demonstration
☐ Premium Assistance under the Medicaid State Plan (Section 1906 HIPP)

2. Please indicate which adults your State covers with premium assistance. (Check all that apply.)

   ☐ Parents and Caretaker Relatives
   ☐ Childless Adults

3. Briefly describe your program (including current status, progress, difficulties, etc.)

4. What benefit package does the program use?

5. Does the program provide wrap-around coverage for benefits or cost sharing?

6. Identify the total number of children and adults enrolled in the premium assistance program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in premium assistance even if they were covered incidentally and not via the SCHIP family coverage provision).

   _____ Number of adults ever-enrolled during the reporting period

_____

_____ Number of children ever-enrolled during the reporting period

7. Identify the estimated amount of substitution, if any, that occurred or was prevented as a result of your premium assistance program. How was this measured?

8. During the reporting period, what has been the greatest challenge your premium assistance program has experienced?

9. During the reporting period, what accomplishments have been achieved in your premium assistance program?

10. What changes have you made or are planning to make in your premium assistance program during the next fiscal year? Please comment on why the changes are planned.

11. Indicate the effect of your premium assistance program on access to coverage. How was this measured?

12. What do you estimate is the impact of premium assistance on enrollment and retention of children? How was this measured?

13. Identify the total state expenditures for family coverage during the reporting period. **(For states offering premium assistance under a family coverage waiver only.)**

PROGRAM INTEGRITY (COMPLETE ONLY WITH REGARD TO SEPARATE SCHIP PROGRAMS (I.E. THOSE THAT ARE NOT MEDICAID EXPANSIONS)

1. Does your state have a written plan that has safeguards and establishes methods and procedures for prevention, investigation and referral of cases of fraud and abuse? Please explain.
Yes. The Vermont SCHIP program is a separate child health program that operates exactly the same as the Medicaid program. Program integrity for SCHIP is handled the same as for Medicaid. The below case numbers are for all programs, including Medicaid and SCHIP.

2. For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:

a) Provider credentialing

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

b) Provider billing

Number of cases investigated 250

Number of cases referred to appropriate law enforcement officials 44

c) Beneficiary eligibility

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

3. If your state relies on contractors to perform the above functions, how does your state provide oversight of those contractors?
We do not use contractors.

Enter any Narrative text below.

SECTION IV: PROGRAM FINANCING FOR STATE PLAN

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-Federal funds). (*Note: This reporting period =Federal Fiscal Year 2005. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)*

COST OF APPROVED SCHIP PLAN

Benefit Costs	**2006**	**2007**	**2008**
Insurance payments	5,638,318	6,114,799	6,886,050
Managed Care	0	0	0
per member/per month rate @ # of eligibles	149	160	173
Fee for Service	424,390	458,341	495,008
Total Benefit Costs	6,062,708	6,573,140	7,381,058
(Offsetting beneficiary cost sharing payments)	(1,801,600)	(904,738)	(943,678)
Net Benefit Costs	$ 4,261,108	$ 5,668,402	$ 6,437,380

Administration Costs			
Personnel	38,411	41,484	44,803
General Administration	6,402	6,914	7,467
Contractors/Brokers (e.g., enrollment contractors)			
Claims Processing	78,957	85,273	92,095
Outreach/Marketing costs	93,226	100,684	108,739
Other	89,627	96,797	104,541
Health Services Initiatives			
Total Administration Costs	306,623	331,152	357,645
10% Administrative Cap (net benefit costs ÷ 9)	473,456	629,822	715,264

Federal Title XXI Share	3,240,348	4,274,682	4,846,212
State Share	1,327,383	1,724,872	1,948,813

TOTAL COSTS OF APPROVED SCHIP PLAN	4,567,731	5,999,554	6,795,025

2. What were the sources of non-Federal funding used for State match during the reporting period?

- ☒ State appropriations
- ☐ County/local funds
- ☐ Employer contributions
- ☐ Foundation grants
- ☐ Private donations
- ☐ Tobacco settlement

☒ Other (specify) Premiums

Enter any Narrative text below.
In FFY 2007 we expect a slight up turn in enrollment due to reduction premiums on July 1, 2007. We expect enrollment to continue to rise in FFY 08 due to reduced premiums and increased outreach. PMPM's were based on following member months: 37818; 37,999; 39,622.

SECTION V: 1115 DEMONSTRATION WAIVERS (FINANCED BY SCHIP)

Please reference and summarize attachments that are relevant to specific questions.

1. If you do not have a Demonstration Waiver financed with SCHIP funds skip to Section VI. If you do, please complete the following table showing whom you provide coverage to.

	SCHIP Non-HIFA Demonstration Eligibility					HIFA Waiver Demonstration Eligibility				
Children	From		% of FPL to		% of FPL	From		% of FPL to		% of FPL
Parents	From		% of FPL to		% of FPL	From		% of FPL to		% of FPL
Childless Adults	From		% of FPL to		% of FPL	From		% of FPL to		% of FPL
Pregnant Women	From		% of FPL to		% of FPL	From		% of FPL to		% of FPL

2. Identify the total number of children and adults ever enrolled (an unduplicated enrollment count) in your SCHIP demonstration during the reporting period.

_____ Number of **children** ever enrolled during the reporting period in the demonstration

_____ Number of **parents** ever enrolled during the reporting period in the demonstration

_____ Number of **pregnant women** ever enrolled during the reporting period in the demonstration

_____ Number of **childless adults** ever enrolled during the reporting period in the demonstration

3. What have you found about the impact of covering adults on enrollment, retention, and access to care of children?

4. Please provide budget information in the following table for the years in which the demonstration is approved. *Note: This reporting period (Federal Fiscal Year 2005 starts 10/1/04 and ends 9/30/05).*

COST PROJECTIONS OF DEMONSTRATION (SECTION 1115 or HIFA)	**2006**	**2007**	**2008**	**2009**	**2010**
Benefit Costs for Demonstration Population #1 (e.g., children)					
Insurance Payments					
Managed care					
per member/per month rate @ # of eligibles					
Fee for Service					
Total Benefit Costs for Waiver Population #1					
Benefit Costs for Demonstration Population #2 (e.g., parents)					
Insurance Payments					
Managed care					
per member/per month rate @ # of eligibles					

Fee for Service					
Total Benefit Costs for Waiver Population #2					

Benefit Costs for Demonstration Population #3
(e.g., pregnant women)

Insurance Payments					
Managed care					
per member/per month rate @ # of eligibles					
Fee for Service					
Total Benefit Costs for Waiver Population #3					

Benefit Costs for Demonstration Population #4
(e.g., childless adults)

Insurance Payments					
Managed care					
per member/per month rate @ # of eligibles					
Fee for Service					
Total Benefit Costs for Waiver Population #3					

Total Benefit Costs					
(Offsetting Beneficiary Cost Sharing Payments)					
Net Benefit Costs (Total Benefit Costs - Offsetting Beneficiary Cost Sharing Payments)					

Administration Costs

Personnel					
General Administration					
Contractors/Brokers *(e.g., enrollment contractors)*					
Claims Processing					
Outreach/Marketing costs					
Other *(specify)*					
Total Administration Costs					
10% Administrative Cap (net benefit costs ÷ 9)					

Federal Title XXI Share					
State Share					

TOTAL COSTS OF DEMONSTRATION					

When was your budget last updated (please include month, day and year)?

Please provide a description of any assumptions that are included in your calculations.

Other notes relevant to the budget:

SECTION VI: PROGRAM CHALLENGES AND ACCOMPLISHMENTS

1. For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted SCHIP.

   There were no changes in the political environment. The fiscal environment continues to be a challenge. We have not had to cap enrollment or reduce eligibility or benefits. The State did have its 1115 Waiver renewed which provided administrative flexibility and some fiscal relief.

2. During the reporting period, what has been the greatest challenge your program has experienced?

   Reducing the number of uninsured children that are eligible for SCHIP.

3. During the reporting period, what accomplishments have been achieved in your program?

   The program has maintained enrollment levels.

4. What changes have you made or are planning to make in your SCHIP program during the next fiscal year? Please comment on why the changes are planned.

   During the next year premiums will be reduced to increase enrollment. In addition, the Office of the Secretary of Administration will be directing a new initiative to reduce the number of uninsured. This initiative will include new approaches to outreach and enrollment.
