FFY 2004	FFY 2005	FFY 2006
Explanation of Progress: Overall, the number of dental provider types increased in FFY 2006. Member complaints related to difficulty in finding a dental provider have been sparse and do not suggest service access issues. DMAHS closely monitors and works with HMOs to encourage network expansion to assure adequate number of dental providers to ensure access. Each HMO was provided the opportunity to meet and discuss the DMAHS' findings. The HMOs were charged with resolving the network deficiencies identified by DMAHS prior to the second quarter FFY 2007. **Annual Performance Objective for FFY 2007: Provider network analyses will show a stable or increasing number of dental health providers to ensure compliance with provider network standards thereby assuring adequate access.** **Annual Performance Objective for FFY 2008: Provider network analyses will show a stable or increasing number of dental health providers to ensure compliance with provider network standards thereby assuring adequate access.** **Annual Performance Objective for FFY 2009: Provider network analyses will show a stable or increasing number of dental health providers to ensure compliance with provider network standards thereby assuring adequate access.** *Explain how these objectives were set:* **Objectives are based on ensuring HMO adherence to provider network standards defined in the managed care contract.**
