FRAMEWORK FOR THE ANNUAL REPORT OF THE STATE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

Preamble

Section 2108(a) of the Act provides that the State must assess the operation of the State child health plan in each fiscal year, and report to the Secretary, by January 1 following the end of the fiscal year, on the results of the assessment. In addition, this section of the Act provides that the State must assess the progress made in reducing the number of uncovered, low-income children.

To assist States in complying with the statute, the National Academy for State Health Policy (NASHP), with funding from the David and Lucile Packard Foundation, has coordinated an effort with States and CMS over the years to design and revise this Annual Report Template. Over time, the framework has been updated to reflect program maturation and corrected where difficulties with reporting have been identified.

The framework is designed to:

- **A.** Recognize the ***diversity*** of State approaches to SCHIP and allow States ***flexibility*** to highlight key accomplishments and progress of their SCHIP programs, **AND**
- B. Provide ***consistency*** across States in the structure, content, and format of the report, **AND**
- C. Build on data ***already collected*** by CMS quarterly enrollment and expenditure reports, **AND**
- D. Enhance ***accessibility*** of information to stakeholders on the achievements under Title XXI.

FRAMEWORK FOR THE ANNUAL REPORT OF THE STATE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

State/Territory: **OH**
(Name of State/Territory)

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a)).

Signature:

Lorin Ranbom

SCHIP Program Name(s): **All, Ohio**

SCHIP Program Type:

- ☒ SCHIP Medicaid Expansion Only
- ☐ Separate Child Health Program Only
- ☐ Combination of the above

Reporting Period: **2006** *Note: Federal Fiscal Year 2006 starts 10/1/05 and ends 9/30/06.*

Contact Person/Title: **Charlene Alexander**

Address: **30 East Broad Street**

33 rd floor

SECTION I: SNAPSHOT OF SCHIP PROGRAM AND CHANGES

~~1)~~ To provide a summary at-a-glance of your SCHIP program characteristics, please provide the following information. You are encouraged to complete this table for the different SCHIP programs within your state, e.g., if you have two types of separate child health programs within your state with different eligibility rules. If you would like to make any comments on your responses, please explain in narrative below this table.

	SCHIP Medicaid Expansion Program					Separate Child Health Program				
Eligibility						**From**		% of FPL conception to birth		% of FPL
	From	133	% of FPL for **infants**	200	% of FPL	**From**		% of FPL for **infants**		% of FPL
	From	133	% of FPL for children ages **1 through 5**	200	% of FPL	**From**		% of FPL for 1 **through 5**		% of FPL
	From	100	% of FPL for children ages **6 through 16**	200	% of FPL	**From**		% of FPL for children ages **6 through 16**		% of FPL
	From	100	% of FPL for children ages **17 and 18**	200	% of FPL	**From**		% of FPL for children ages **17 and 18**		% of FPL

SECTION II: PROGRAM'S PERFORMANCE MEASUREMENT AND PROGRESS

This section consists of three subsections that gather information on the core performance measures for the SCHIP program as well as your State's progress toward meeting its general program strategic objectives and performance goals. Section IIA captures data on the core performance measures to the extent data are available. Section IIB captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your State. Section IIC captures progress towards meeting your State's general strategic objectives and performance goals.

SECTION IIA: REPORTING OF CORE PERFORMANCE MEASURES

CMS is directed to examine national performance measures by the SCHIP Final Rules of January 11, 2001. To address this SCHIP directive, and to address the need for performance measurement in Medicaid, CMS, along with other Federal and State officials, developed a core set of performance measures for Medicaid and SCHIP. The group focused on well-established measures whose results could motivate agencies, providers, and health plans to improve the quality of care delivered to enrollees. After receiving comments from Medicaid and SCHIP officials on an initial list of 19 measures, the group recommended seven core measures, including four core child health measures:

- Well child visits in the first 15 months of life
- Well child visits in the 3rd, 4th, 5th, and 6th years of life
- Use of appropriate medications for children with asthma
- Children's access to primary care practitioners

These measures are based on specifications provided by the Health Plan Employer Data and Information Set (HEDIS®). HEDIS® provides a useful framework for defining and measuring performance. However, use of HEDIS® methodology is not required for reporting on your measures. The HEDIS® methodology can also be modified based on the availability of data in your State.

This section contains templates for reporting performance measurement data for each of the core child health measures. Please report performance measurement data for the three most recent years (to the extent that data are available). In the first and second column, report data from the previous two years' annual reports (FFY 2004 and FFY 2005). If you previously reported no data for either of those years, but you now have recent data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2006). Additional instructions for completing each row of the table are provided below.

If Data Not Reported, Please Explain Why:
If you cannot provide a specific measure, please check the box that applies to your State for each performance measure as follows:

- Population not covered: Check this box if your program does not cover the population included in the measure.
- Data not available: Check this box if data are not available for a particular measure in your State. Please provide an explanation of why the data are currently not available.
- Small sample size: Check this box if the sample size (i.e., denominator) for a particular measure is less than 30. If the sample size is less than 30, your State is not required to report data on the measure. However, please indicate the exact sample size in the space provided.
- Other: Please specify if there is another reason why your state cannot report the measure.

Status of Data Reported:
Please indicate the status of the data you are reporting, as follows:

- Provisional: Check this box if you are reporting data for a measure, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2006.
- Final: Check this box if the data you are reporting are considered final for FFY 2006.

– Same data as reported in a previous year's annual report: Check this box if the data you are reporting are the same data that your State reported in another annual report. Indicate in which year's annual report you previously reported the data.

Measurement Specification:
For each performance measure, please indicate the measurement specification (i.e., were the measures calculated using the HEDIS® technical specifications, HEDIS®-like specifications, or some other source with measurement specifications unrelated to HEDIS®). If the measures were calculated using HEDIS® or HEDIS®-like specifications, please indicate which version was used (e.g., HEDIS® 2006). If using HEDIS®-like specifications, please explain how HEDIS® was modified.

Data Source:
For each performance measure, please indicate the source of data – administrative data (claims), hybrid data (claims and medical records), survey data, or other source. If another data source was used, please explain the source.

Definition of Population included in the Measure:
Please indicate the definition of the population included in the denominator for each measure (such as age, continuous enrollment, type of delivery system). Check one box to indicate whether the data are for the SCHIP population only, or include both SCHIP and Medicaid (Title XIX) children combined. Also provide a definition of the numerator (such as the number of visits required for inclusion).

Note: You do not need to report data for all delivery system types. You may choose to report data for only the delivery system with the most enrollees in your program.

Year of Data:
Please report the year of data for each performance measure. The year (or months) should correspond to the *period in which utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

Performance Measurement Data (HEDIS® or Other):
In this section, please report the numerators, denominators, and rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on whether you are reporting using HEDIS® or HEDIS®-like methodology or a methodology other than HEDIS®. The form fields have been set up to facilitate entering numerators, denominators, and rates for each measure. If the form fields do not give you enough space to fully report on your measure, please use the "additional notes" section.

Note: SARTS will calculate the rate if you enter the numerator and denominator. Otherwise, if you only have the rate, enter it in the rate box.

If you typically calculate separate rates for each health plan, report the aggregate state-level rate for each measure (or component). The preferred method is to calculate a "weighted rate" by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator. Alternatively, if numerators and denominators are not available, you may calculate an "unweighted average" by taking the mean rate across health plans.

Explanation of Progress:
The intent of this section is to allow your State to highlight progress and describe any quality improvement activities that may have contributed to your progress. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2007, 2008, and 2009. Based on your recent performance on the measure (from FFY 2004 through 2006), use a combination of expert opinion and "best guesses" to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small

increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years.

In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

Other Comments on Measure:
Please use this section to provide any other comments on the measure, such as data limitations or plans to report on a measure in the future.

NOTE: Please do not reference attachments in this table. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

Explanation of Progress:

Annual Performance Objective for FFY 2007: 49.7%

Annual Performance Objective for FFY 2008: 52.8%

Annual Performance Objective for FFY 2009:

Explain how these objectives were set: Managed Care Plans have expectations for performance in their contracts. As noted below, these populations were expanded. Objectives for FFY 2009 have not been extablished. Discussions are required to establish these goals to be placed into (future) contracts. Although objectives may at times appear to be less than prior results, with objectives were extablished in contract based upon different populations. Adjustments will be made in the future.

Other Comments on Measure: Objectives for FFY 2007 are objectives for CY 2006 results. Objectives for FFY 2008 are for CY 2007 results. During SFY 2007, Ohio Medicaid underwent changes by expanding Medicaid/SCHIP populations into managed care plans (statewide). The only child populations not in managed care plans will be children who are in the Aged, Blind and Disabled categories. Managed Care Plans have performance objectives. During the expansion, alterations will be made to adjust performance expectations.

Explanation of Progress:

Annual Performance Objective for FFY 2007: 63.8%

Annual Performance Objective for FFY 2008: 65.4%

Annual Performance Objective for FFY 2009:

Explain how these objectives were set: Managed Care Plans have expectations for performance in their contracts. As noted below, these populations were expanded. Objectives for FFY 2009 have not been extablished. Discussions are required to establish these goals to be placed into (future) contracts. Although objectives may at times appear to be less than prior results, with objectives were established in contracts based upon different populations. Adjustments will be made in the future.

Other Comments on Measure: Objectives for FFY 2007 are objectives for CY 2006 results. Objectives for FFY 2008 are for CY 2007 results. During SFY 2007, Ohio Medicaid underwent changes by expanding Medicaid/SCHIP populations into managed care plans (statewide). The only child populations not in managed care plans will be children who are in the Aged, Blind and Disabled categories. Managed Care Plans have performance objectives. After the expansion alterations will be made to adjust performance expectations.

MEASURE: Use of Appropriate Medications for Children with Asthma

Explanation of Progress:

Annual Performance Objective for FFY 2007: 86.3%

Annual Performance Objective for FFY 2008: 87.0%

Annual Performance Objective for FFY 2009:

Explain how these objectives were set: Managed Care Plans have expectations for performance in their contracts. As noted below, these populations were expanded. Objectives for FFY 2009 have not been extablished. Discussions are required to establish these goals to be placed into (future) contracts. Although objectives may at times appear to be less than prior results, with objectives were extablished in contract based upon different populations. Adjustments will be made in the future.

Other Comments on Measure: Objectives for FFY 2007 are objectives for CY 2006 results. Objectives for FFY 2008 are for CY 2007 results. During SFY 2007, Ohio Medicaid underwent changes by expanding Medicaid/SCHIP populations into managed care plans (statewide). The only child populations not in managed care plans will be children who are in the Aged, Blind and Disabled categories. Managed Care Plans have performance objectives. As the expansion occurs, alterations will be made to adjust performance expectations.

SECTION IIB: ENROLLMENT AND UNINSURED DATA

~~1.~~ The information in the table below is the Unduplicated Number of Children Ever Enrolled in SCHIP in your State for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 in your State's 4th quarter data report (submitted in October) in the SCHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by SARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response.

Program	FFY 2005	FFY 2006	Percent change FFY 2005-2006
SCHIP Medicaid Expansion Program	216495	218529	0.94
Separate Child Health Program	0	0	

~~A.~~ Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent.

~~2.~~ The table below shows trends in the three-year averages for the number and rate of uninsured children in your State based on the Current Population Survey (CPS), along with the percent change between 1996-1998 and 2003-2005. Significant changes are denoted with an asterisk (*). If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3. SARTS will fill in this information automatically, but in the meantime, please refer to the CPS data attachment that was sent with the FFY 2006 Annual Report Template.

	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
Period	Number	Std. Error	Rate	Std. Error
1996 - 1998	189	28.7	6.0	.9
1998 - 2000	186	28.5	5.8	.9
2000 - 2002	157	21.8	5.4	.7
2002 - 2004	156	21.7	5.2	.7
2003 - 2005	153	21.6	5.2	.7
Percent change 1996-1998 vs. 2003-2005	-19.0%	NA	-13.3%	NA

~~A.~~ Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children.

~~B.~~ Please note any comments here concerning CPS data limitations that may affect the reliability or precision of these estimates.

~~3.~~ Please indicate by checking the box below whether your State has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

☒ Yes (please report your data in the table below)

☐ No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Data source(s)	Ohio Family Health Survey
Reporting period (2 or more points in time)	1998 and 2004
Methodology	Phone sample
Population (Please include ages and income levels)	Ohio residents (households)
Sample sizes	1998: 16,000 and 2004: 40,000. In 1998 the samople included about 6,000 households with children. In 2004 the sample included about 15,000 households with children.
Number and/or rate for two or more points in time	Children with insurance at any time in the past year 1998: 94.4% or 2,690,633 out of 2,851,223. In 2004: 97.0% or 2,803,008 out of 2,890,038.
Statistical significance of results	

~~A.~~ Please explain why your State chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children.

The state has this survey as an additional source of data. Since this survey is not administered yearly, it does not supplant the use of the Current Population Survey. However, due to its size and scope, it validates the CPS and provides additional information for policy planning.

~~B.~~ What is your State's assessment of the reliability of the estimate? What are the limitations of the data or estimation methodology? (Provide a numerical range or confidence intervals if available.)

The OFHS is significantly larger in sample size. The sample and weighting are more representative of Ohio's population. The 1998 OFHS has a standard error of .5% with a 95% lower and upper CL at 93.4% and 95.3% respectively. The 2004 OFHS had a standard error of .2% with the 95% lower and upper CL at 96.7% and 97.3% respectively.

~~C.~~ What are the limitations of the data or estimation methodology?

The most significant limitation is that this survey cannot be produced annually.

~~4.~~ How many children do you estimate have been enrolled in Medicaid as a result of SCHIP outreach activities and enrollment simplification? Describe the data source and method used to derive this information

N/A

SECTION IIC: STATE STRATEGIC OBJECTIVES AND PERFORMANCE GOALS

This subsection gathers information on your State's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your SCHIP State Plan. The format of this section has been revised for FFY 2006 to provide your State with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- SCHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, please enter the data you reported for each objective in the previous two years' annual reports (FFY 2004 and FFY 2005). In the third column, please report the most recent data available at the time you are submitting the annual report.

Note that the term *performance measure* is used differently in Section IIA versus IIC. In Section IIA, the term refers to the four core child health measures. In this section, the term is used more broadly, to refer to any data your State provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are State-specific, and should be listed in the appropriate subsections within the space provided for each objective.

NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

In addition, please do not report the same data that were reported in Sections IIA or IIB. The intent of this section is to capture goals and measures that your State did not_report elsewhere in Section II.

Additional instructions for completing each row of the table are provided below.

Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective.

Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- New/revised: Check this box if you have revised or added a goal. Please explain how and why the goal was revised.
- Continuing: Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- Discontinued: Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued.

Status of Data Reported:
Please indicate the status of the data you are reporting for each goal, as follows:

- Provisional: Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2006.

- Final: Check this box if the data you are reporting are considered final for FFY 2006.

- Same data as reported in a previous year's annual report: Check this box if the data you are reporting are the same data that your State reported for the goal in another annual report. Indicate in which year's annual report you previously reported the data.

Measurement Specification:
This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which States may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications, HEDIS®-like specifications, or some other method unrelated to HEDIS®). If the measures were calculated using HEDIS® or HEDIS®-like specifications, please indicate which version was used (e.g., HEDIS® 2006). If using HEDIS®-like specifications, please explain how HEDIS® was modified.

Data Source:
For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and SCHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source. For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims), hybrid data (claims and medical records), survey data (specify the survey used), or other source. In all cases, if another data source was used, please explain the source.

Definition of Population Included in Measure:
Please indicate the definition of the population included in the denominator for each measure (such as age, continuous enrollment, type of delivery system). Also provide a definition of the numerator (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

For measures related to increasing access to care and use of preventative care , please also check one box to indicate whether the data are for the SCHIP population only, or include both SCHIP and Medicaid (Title XIX) children combined.

Year of Data:
Please report the year of data for each performance measure. The year (or months) should correspond to the *period in which enrollment or utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

Performance Measurement Data:
Describe what is being measured: Please provide a brief explanation of the information you intend to capture through the performance measure.

Numerator, Denominator, and Rate: Please report the numerators, denominators, and rates for each measure (or component). For the objectives related to increasing access to care and use of preventative care, the template provides two sections for entering the performance measurement data, depending on whether you are reporting using HEDIS® or HEDIS®-like methodology or a methodology other than HEDIS®. The form fields have been set up to facilitate entering numerators, denominators, and rates for

each measure. If the form fields do not give you enough space to fully report on your measure, please use the “additional notes” section.

If you typically calculate separate rates for each health plan, report the aggregate state-level rate for each measure (or component). The preferred method is to calculate a “weighted rate” by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator. Alternatively, if numerators and denominators are not available, you may calculate an “unweighted average” by taking the mean rate across health plans.

Explanation of Progress:

The intent of this section is to allow your State to highlight progress and describe any quality improvement activities that may have contributed to your progress. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2007, 2008, and 2009. Based on your recent performance on the measure (from FFY 2004 through 2006), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

Other Comments on Measure:

Please use this section to provide any other comments on the measure, such as data limitations or plans to report on a measure in the future.

Performance Measurement Data: *(If reporting with another methodology)* Numerator: Denominator: Rate: Additional notes on measure: 79% (Statewide) and 62% (Medicaid or SCHIP) The 2004 Ohio Family Health Survey indicated the above dental visit rate (self-reported).	**Other Performance Measurement Data:** *(If reporting with another methodology)* Numerator: Denominator: Rate: Additional notes on measure:	**Other Performance Measurement Data:** *(If reporting with another methodology)* Numerator: Denominator: Rate: Additional notes on measure:

Explanation of Progress:

Annual Performance Objective for FFY 2007: 47.6%

Annual Performance Objective for FFY 2008: 48.8%

Annual Performance Objective for FFY 2009:

Explain how these objectives were set: Managed Care Plans have expectations for performance in their contracts. As noted below, these populations were expanded. Objectives for FFY 2009 have not been extablished. Discussions are required to establish these goals to be placed into (future) contracts. Although objectives may at times appear to be less than prior results, objectives were extablished in contracts based upon different populations. Adjustments will be made in the future.

Other Comments on Measure: Objectives for FFY 2007 are objectives for CY 2006 results. Objectives for FFY 2008 are for CY 2007 results. During SFY 2007, Ohio Medicaid underwent changes by expanding Medicaid/SCHIP populations into managed care plans (statewide). The only child populations not in managed care plans will be children who are in the Aged, Blind and Disabled categories. Managed Care Plans have performance objectives. As the expansion occurs, alterations will be made to adjust performance expectations.

Explanation of Progress:

Annual Performance Objective for FFY 2007: 49.7%

Annual Performance Objective for FFY 2008: 52.7%

Annual Performance Objective for FFY 2009:

Explain how these objectives were set: Managed Care Plans have expectations for performance in their contracts. As noted below, these populations were expanded. Objectives for FFY 2009 have not been extablished. Discussions are required to establish these goals to be placed into (future) contracts. Although objectives may at times appear to be less than prior results, with objectives were established in contract based upon different populations. Adjustments will be made in the future.

Other Comments on Measure: Objectives for FFY 2007 are objectives for CY 2006 results.Objectives for FFY 2008 are for CY 2007 results.During SFY 2007, Ohio Medicaid underwent changes by expanding Medicaid/SCHIP populations into managed care plans (statewide). The only child populations not in managed care plans will be children who are in the Aged, Blind and Disabled categories. Managed Care Plans have performance objectives. As the expansion occurs, alterations will be made to adjust performance expectations.

Other Comments on Measure:		

1. What other strategies does your State use to measure and report on access to, quality, or outcomes of care received by your SCHIP population? What have you found?

The Bureau of Managed Health Care (BMHC) has a comprehensive Quality Strategy in place to ensure Medicaid managed care consumers have access to high quality health care services provided by contracting managed care plans (MCPs). The BMHC has established minimum performance standards in key program areas and the plans are held accountable for meeting these standards as specified in their contracts with ODJFS. The plans' performance is evaluated in the areas of Access, Quality, Consumer Satisfaction and Administrative Capacity, through a system of internal monitoring procedures and independent reviews completed by an external quality review organization (EQRO).

2. What strategies does your SCHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your SCHIP population? When will data be available?

An area of emphasis for the BMHC and the MCPs for the Covered Families and Children population is children's preventive health and the importance of receiving routine regular visits with a primary care physician for the provision of services available through the Medicaid managed care program. To support this effort, the MCPs are required to implement Performance Improvement Projects (PIPs) to increase the percentage of members that receive well child visits in the first 15 months of life and to increase the percentage of members aged 2-21 years that access dental care services. The purpose of the three-year PIPs is to achieve, through periodic measurements and intervention, significant and sustained improvement in clinical and non-clinical areas, which are expected to have a favorable effect on health outcomes and satisfaction. In addition, MCPs have targeted education and outreach initiatives for providers and members about the importance of children's preventive health issues.

Additionally, the Office of Ohio health Plans is proceeding with a Medicaid Children's Health and Wellness Initiative to work with other state agencies to focus on improving services to children. As these discussions continue, the goals and objectives will be altered to meet these changing needs.

3. Have you conducted any focused quality studies on your SCHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special heath care needs or other emerging health care needs? What have you found?

The following EQRO studies are presently in process or will be done which will assist in focusing on quality issues for children on SCHIP:

Adolescent Health Care

Report Period - SFY 05

Measurement Period - SFY 04

Purpose: Evaluate if adolescents enrolled in MCPs received services consistent with Ohio Healthchek requirements.

Case Management Focused Administrative Review

Report Period - SFY 06

Measurement Period - SFY 05

Purpose: Evaluate case management services provided by MCPs to members enrolled in case management programs. The random sample did include members identified by BMHC as children with special health care needs.

Healthchek Focused Study

Report Period - SFY 07

Measurement Period - SFY 06

Purpose: To determine the extent which Healthchek services and procedures are performed for MCP members 0-20 years of age. This study is in the data collection phase.

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your SCHIP program's performance. Please list attachments here and summarize findings or list main findings.

The attached file identifies Ohio's EPSDT, Healthcheck outreach and communictions plan.

Enter any Narrative text below.

SECTION III: ASSESSMENT OF STATE PLAN AND PROGRAM OPERATION

Please reference and summarize attachments that are relevant to specific questions

OUTREACH

~~1.~~ How have you redirected/changed your outreach strategies during the reporting period?

Outreach has been redirected to focus primarily on retaining consumers to ensure there is no break in coverage since the majority of Medicaid eligible children in Ohio are on the program.

~~2.~~ What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness?

Since we have redirected our outreach activities to children insured by Medicaid, we cannot address methods in place to reach uninsured children or evaluate effectiveness. To support the uninsured, our Consumer Hotline continues to provide application assistance and answers to general eligibility questions to help guide consumers in getting the care they need. Also, our county staff also assist consumers in navigating the program.

~~3.~~ Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)? Have these efforts been successful, and how have you measured effectiveness?

To target minority populations in rural areas, we translate our educational materials into Spanish and make them available on the Internet and at the local county department of job and family services. In addition, we facilitate the federal distribution of Healthy Start, Grow Smart Booklets to assist Medicaid mothers in caring for their newborns. These booklets are available in both English & Spanish. We also work in collaboration with the Covering Kids & Families Initiative, which has a pilot site in the Northeast region of the State. The pilot site is charged with targeting the uninsured Hispanic population and ensuring materials and applications are made available in Spanish to simply application processing.

SUBSTITUTION OF COVERAGE (CROWD-OUT)

States with a separate child health program above 200 through 250% of FPL must complete question 1. All other states with trigger mechanisms should also answer this question.

~~1.~~ Does your state cover children between 200 and 250 percent of the FPL or does it identify a trigger mechanism or point at which a substitution prevention policy is instituted?

- ☐ Yes
- ☐ No
- ☒ N/A

If yes, please identify the trigger mechanisms or point at which your substitution prevention policy is instituted.

States with separate child health programs over 250% of FPL must complete question 2. All other states with substitution prevention provisions should also answer this question.

~~2.~~ Does your state cover children above 250 percent of the FPL or does it employ substitution prevention provisions?

☐ Yes
☐ No
☒ N/A

If yes, identify your substitution prevention provisions (waiting periods, etc.).

All States must complete the following 3 questions

~~3.~~ Describe how substitution of coverage is monitored and measured and the effectiveness of your policies.

Ohio is monitoring the drop in health insurance options, and is considering how this may impact the program and how crowd out should be measured.

~~4.~~ At the time of application, what percent of applicants are found to have insurance?

Ohio does not currently track what percent of applicants have insurance. If applicants are in the 151-200% FPL range and are found to have insurance, then they do not meet eligibility criteria, and their applications are denied.

~~5.~~ Describe the incidence of substitution. What percent of applicants drop group health plan coverage to enroll in SCHIP?

N/A

COORDINATION BETWEEN SCHIP AND MEDICAID

(This subsection should be completed by States with a Separate Child Health Program)

~~1.~~ Do you have the same redetermination procedures to renew eligibility for Medicaid and SCHIP (e.g., the same verification and interview requirements)? Please explain.

N/A

~~2.~~ Please explain the process that occurs when a child's eligibility status changes from Medicaid to SCHIP and from SCHIP to Medicaid. Have you identified any challenges? If so, please explain.

N/A

~~3.~~ Are the same delivery systems (including provider networks) used in Medicaid and SCHIP? Please explain.

N/A

ELIGIBILITY REDETERMINATION AND RETENTION

1. What measures does your State employ to retain eligible children in SCHIP? Please check all that apply and provide descriptions as requested.

☒ Conducts follow-up with clients through caseworkers/outreach workers

☒ Sends renewal reminder notices to all families

- How many notices are sent to the family prior to disenrolling the child from the program?
  Families are sent one notice prior to case closure which includes hearing rights. The pre-termination reviews are conducted prior to any closure. The process includes reviewing continuing eligibility for each individual in the assistance group. And this may result in an addititional notice to the family.
- At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the State?)
  In the month prior to redetermination an application packet is sent to consumers. If this information is not complete a notice to propose termination is sent and subsequent pre-termination review is completed.

☐ Sends targeted mailings to selected populations

- Please specify population(s) (e.g., lower income eligibility groups)

☐ Holds information campaigns

☐ Provides a simplified reenrollment process,

Please describe efforts (e.g., reducing the length of the application, creating combined Medicaid/SCHIP application)

☐ Conducts surveys or focus groups with disenrollees to learn more about reasons for disenrollment *please describe:*

☐ Other, *please explain*:

2. Which of the above strategies appear to be the most effective? Have you evaluated the effectiveness of any strategies? If so, please describe the evaluation, including data sources and methodology.

N/A

3. Does your State generate monthly reports or conduct assessments that track the outcomes of individuals who disenroll, or do not reenroll, in SCHIP (e.g., how many obtain other public or private coverage, how many remain uninsured, how many age-out, how many move to a new geographic area)

☐ Yes
☐ No
☒ N/A

When was the monthly report or assessment last conducted?

N/A

If you responded yes to the question above, please provide a summary of the most recent findings (in the table below) from these reports and/or assessments.

Findings from Report/Assessment on Individuals Who Disenroll, or Do Not Reenroll in SCHIP

Total Number of Dis-enrollees	**Obtain other public or private coverage**		**Remain uninsured**		**Age-out**		**Move to new geographic area**		**Other**	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent

Please describe the data source (e.g., telephone or mail survey, focus groups) used to derive this information.

N/A

COST SHARING

~~1.~~ Has your State undertaken any assessment of the effects of premiums/enrollment fees on participation in SCHIP? If so, what have you found?

N/A

~~2.~~ Has your State undertaken any assessment of the effects of cost sharing on utilization of health services in SCHIP? If so, what have you found?

N/A

~~3.~~ If your state has increased or decreased cost sharing in the past federal fiscal year, has the state undertaken any assessment of the impact of these changes on application, enrollment, disenrollment, and utilization of health services in SCHIP. If so, what have you found?

N/A

PREMIUM ASSISTANCE PROGRAM(S) UNDER SCHIP STATE PLAN

~~1.~~ Does your State offer a premium assistance program for children and/or adults using Title XXI funds under any of the following authorities?

☐ Yes, please answer questions below.
☒ No, skip to Program Integrity subsection.

Children

☐ Yes, Check all that apply and complete each question for each authority.

☐ Premium Assistance under the State Plan
☐ Family Coverage Waiver under the State Plan
☐ SCHIP Section 1115 Demonstration

- ☐ Medicaid Section 1115 Demonstration
- ☐ Health Insurance Flexibility & Accountability Demonstration
- ☐ Premium Assistance under the Medicaid State Plan (Section 1906 HIPP)

Adults

- ☐ Yes, Check all that apply and complete each question for each authority.

- ☐ Premium Assistance under the State Plan (Incidentally)
- ☐ Family Coverage Waiver under the State Plan
- ☐ SCHIP Section 1115 Demonstration
- ☐ Medicaid Section 1115 Demonstration
- ☐ Health Insurance Flexibility & Accountability Demonstration
- ☐ Premium Assistance under the Medicaid State Plan (Section 1906 HIPP)

~~2.~~ Please indicate which adults your State covers with premium assistance. (Check all that apply.)

- ☐ Parents and Caretaker Relatives
- ☐ Childless Adults

~~3.~~ Briefly describe your program (including current status, progress, difficulties, etc.)

N/A

~~4.~~ What benefit package does the program use?

N/A

~~5.~~ Does the program provide wrap-around coverage for benefits or cost sharing?

N/A

6. Identify the total number of children and adults enrolled in the premium assistance program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in premium assistance even if they were covered incidentally and not via the SCHIP family coverage provision).

_____ Number of adults ever-enrolled during the reporting period

_____ Number of children ever-enrolled during the reporting period

7. Identify the estimated amount of substitution, if any, that occurred or was prevented as a result of your premium assistance program. How was this measured?

N/A

8. During the reporting period, what has been the greatest challenge your premium assistance program has experienced?

N/A

9. During the reporting period, what accomplishments have been achieved in your premium assistance program?

N/A

10. What changes have you made or are planning to make in your premium assistance program during the next fiscal year? Please comment on why the changes are planned.

N/A

11. Indicate the effect of your premium assistance program on access to coverage. How was this measured?

N/A

12. What do you estimate is the impact of premium assistance on enrollment and retention of children? How was this measured?

N/A

13. Identify the total state expenditures for family coverage during the reporting period. **(For states offering premium assistance under a family coverage waiver only.)**

N/A

PROGRAM INTEGRITY (COMPLETE ONLY WITH REGARD TO SEPARATE SCHIP PROGRAMS (I.E. THOSE THAT ARE NOT MEDICAID EXPANSIONS)

1. Does your state have a written plan that has safeguards and establishes methods and procedures for prevention, investigation and referral of cases of fraud and abuse? Please explain.
Ohio is a Medicaid expansion state.

2. For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:

~~a)~~ Provider credentialing

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

~~b)~~ Provider billing

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

~~c)~~ Beneficiary eligibility

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

3. If your state relies on contractors to perform the above functions, how does your state provide oversight of those contractors?
N/A

Enter any Narrative text below.

N/A

SECTION IV: PROGRAM FINANCING FOR STATE PLAN

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-Federal funds). (*Note: This reporting period =Federal Fiscal Year 2005. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)*

COST OF APPROVED SCHIP PLAN

Benefit Costs	**2006**	**2007**	**2008**
Insurance payments			
Managed Care	94,673,539	189,551,192	214262585
per member/per month rate @ # of eligibles		12,753	13,147
Fee for Service	133,838,195	88,665,199	74,400,139
Total Benefit Costs	228,511,734	278,216,391	288,662,724
(Offsetting beneficiary cost sharing payments)			
Net Benefit Costs	$ 228,511,734	$ 278,216,391	$ 288,662,724

Administration Costs			
Personnel			
General Administration	5,102,972	6,750,727	6,953,249
Contractors/Brokers (e.g., enrollment contractors)			
Claims Processing			
Outreach/Marketing costs			
Other			
Health Services Initiatives			
Total Administration Costs	5,102,972	6,750,727	6,953,249
10% Administrative Cap (net benefit costs ÷ 9)	25,390,193	30,912,932	32,073,636

Federal Title XXI Share	168,015,697	204,492,404	0
State Share	65,599,009	80,474,714	295,615,973

TOTAL COSTS OF APPROVED SCHIP PLAN	233,614,706	284,967,118	295,615,973

2. What were the sources of non-Federal funding used for State match during the reporting period?

- ☒ State appropriations
- ☐ County/local funds
- ☐ Employer contributions
- ☐ Foundation grants
- ☐ Private donations

SECTION V: 1115 DEMONSTRATION WAIVERS (FINANCED BY SCHIP)

Please reference and summarize attachments that are relevant to specific questions.

~~1.~~ If you do not have a Demonstration Waiver financed with SCHIP funds skip to Section VI. If you do, please complete the following table showing whom you provide coverage to.

	SCHIP Non-HIFA Demonstration Eligibility					HIFA Waiver Demonstration Eligibility				
Children	From		% of FPL to		% of FPL	From		% of FPL to		% of FPL
Parents	From		% of FPL to		% of FPL	From		% of FPL to		% of FPL
Childless Adults	From		% of FPL to		% of FPL	From		% of FPL to		% of FPL
Pregnant Women	From		% of FPL to		% of FPL	From		% of FPL to		% of FPL

2. Identify the total number of children and adults ever enrolled (an unduplicated enrollment count) in your SCHIP demonstration during the reporting period.

_____ Number of **children** ever enrolled during the reporting period in the demonstration

_____ Number of **parents** ever enrolled during the reporting period in the demonstration

_____ Number of **pregnant women** ever enrolled during the reporting period in the demonstration

_____ Number of **childless adults** ever enrolled during the reporting period in the demonstration

~~3.~~ What have you found about the impact of covering adults on enrollment, retention, and access to care of children?

N/A

~~4.~~ Please provide budget information in the following table for the years in which the demonstration is approved. *Note: This reporting period (Federal Fiscal Year 2005 starts 10/1/04 and ends 9/30/05).*

COST PROJECTIONS OF DEMONSTRATION (SECTION 1115 or HIFA)	**2006**	**2007**	**2008**	**2009**	**2010**
Benefit Costs for Demonstration Population #1 (e.g., children)					
Insurance Payments					
Managed care					
per member/per month rate @ # of eligibles					
Fee for Service					
Total Benefit Costs for Waiver Population #1					
Benefit Costs for Demonstration Population #2 (e.g., parents)					
Insurance Payments					
Managed care					
per member/per month rate @ # of eligibles					

Fee for Service					
Total Benefit Costs for Waiver Population #2					

Benefit Costs for Demonstration Population #3
(e.g., pregnant women)

Insurance Payments					
Managed care					
per member/per month rate @ # of eligibles					
Fee for Service					
Total Benefit Costs for Waiver Population #3					

Benefit Costs for Demonstration Population #4
(e.g., childless adults)

Insurance Payments					
Managed care					
per member/per month rate @ # of eligibles					
Fee for Service					
Total Benefit Costs for Waiver Population #3					

Total Benefit Costs					
(Offsetting Beneficiary Cost Sharing Payments)					
Net Benefit Costs (Total Benefit Costs - Offsetting Beneficiary Cost Sharing Payments)					

Administration Costs

Personnel					
General Administration					
Contractors/Brokers *(e.g., enrollment contractors)*					
Claims Processing					
Outreach/Marketing costs					
Other *(specify)*					
Total Administration Costs					
10% Administrative Cap (net benefit costs ÷ 9)					

Federal Title XXI Share					
State Share					

TOTAL COSTS OF DEMONSTRATION					

When was your budget last updated (please include month, day and year)?

N/A

Please provide a description of any assumptions that are included in your calculations.

N/A

Other notes relevant to the budget:

N/A

SECTION VI: PROGRAM CHALLENGES AND ACCOMPLISHMENTS

~~1.~~ For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted SCHIP.

Gubernatorial campaigning occurred this year and the governor elect has publicly announced an outreach campaign to reach all potentially eligible parents, pregnant women and children. This has been identified as a priority and the transition team has established workgroups to address possible health care expansions. Any program expansion will be a challenge as we approach the reauthorization of SCHIP. Without funding, program expansions or any new budget initiatives are not possible.

Ohio has not received a final grant amount for FFY06 funding or any numbers for redistributed funding from other states. Absent any redistribution or grant increases for FFY06, the year end balance will drop. Even with an estimated increase in funding for FFY07, the year end balance would continue to drop. At the current rate of spending, the SCHIP program will exhaust all funds next biennium. Spending at this point would revert to the Medicaid match rate of approximately 59% for any spending above the annual SCHIP grant awards. Spending for CHIP is assumed to increase on an annual basis by 8% for FFY08.

~~2.~~ During the reporting period, what has been the greatest challenge your program has experienced?

The biggest concern during this program year was the establishment and implementation of the Deficit reduction act of 2005 policies. The new citizenship requirement affected the SCHIP population and many decisions regarding acceptable documentation were not available timely from CMS.

~~3.~~ During the reporting period, what accomplishments have been achieved in your program?

There were no program changes that reduced the SCHIP population.

~~4.~~ What changes have you made or are planning to make in your SCHIP program during the next fiscal year? Please comment on why the changes are planned.

As noted above, it is uncertain exactly what changes the new administration will bring. The State of Ohio has identified 100,000+ children who would be currently eligible for Medicaid/SCHIP but are not currently receiving benefits for a variety of reasons. Governor-elect Ted Strickland has expressed an interest in finding these children to provide them access to needed health care. To do this, the Department is crafting an outreach plan that includes media campaigns, direct mailings and provider communication initiatives. In addition, the department is identifying how much funding is needed to cover these additional children. The plan, which will include associated costs, is expected to be finalized in January 2007.
