I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Grace Agnew

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
One cannot call a place a sanctuary if there is no place there for sanctuary.
Thank you.

Sincerely,

Mrs. Suzanne K. Marienau
203 Benck St
Algona, IA 50511-7281

Dear Superintendent MacDonald,

In regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary, I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
This is just wrong.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence NOW. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I beg you to change the draft plan to contain the following:

-Develop regulations now to reduce whale disturbance by all commercial and recreational vessels;

-Develop a zoning plan now with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
- Finally please officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision'. It is the right thing to do for protection. Please.
Thank you.

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Lorna Soroko

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Celeo osorio

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Sophie Miranda

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen

Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase this protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and the loss of their food sources; and, that human activity, particularly fishing, is compromising the purpose of the Sanctuary.
Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Trudy Ramirez

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Sarah Lincoln

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Kathy Lou Kronenberger

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Darlene Bialeck

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Deborah Murphy

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Cindy Milligan

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. John Starmer

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Lynn Jenkins

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of significant portion their food sources, and that human activity, particularly commercial fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that

designate commercial fishing research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to limit or even ban fishing on forage species such as sand lance and herring.

Spending a lot of time in the FL Key Marine Sanctuary for recreational purposes as well as operating an eco-tour in the 'Sanctuary' I can honestly say that our board has done a very decent job managing both commercial and recreational fishing as well as excessive high speed boat traffic. While personally I would like to see even stricter bag limits and more key no-wake zones in vital marine habitats, something firm is better than nothing. I encourge you to take into account the wealth of marine life you have available so that it can flourish for generations to come.
Thank you.

Sincerely,

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Erin Mendoza

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Miss Joann Secor

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Miss alicia kirschenheiter

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Vince Mendieta
6005 Cherry Creek Dr
Austin, TX 78745-3421

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Melissa Domsic

I urge you to revise the draft plan to contain the following in the final plan:
-MAKE THE WHOLE OF THE SANCTUARY A "NO-TAKE MARINE ZONE"
-USE FISHING INDUSTRY TRICKS, SUCH AS FLOATSUM, TO INCREASE THE ATTRACTION OF FISH TO THE PROTECTION OF THE "NO-TAKE MARINE ZONE"
-USE A FINE SCHEDULE FOR SPEEDING WITHIN 'SBNMS'.
-CHARGE A TOLL USE FOR LARGE VESSEL TRAFFIC, ALSO REQUIRE THEM TO HAVE WHALE SPOTTING CREWS THAT WATCH FOR WHALES, AND REPORT SIGHTING TO A CENTRAL OFFICE. USE A TOLL FEE TO ENFORCE; IE $100,000 FOR USE AND 80%

BACK FOR COMPLIANCE TO SPEED AND WATCH OUT FOR WHALES. THIS WILL START
AN INDUSTRY OF "WHALE SPOTTING FOR HIRE"
-EXPAND THE SANCTUARY TO TAKE JEFERRIES LEDGE. REQUIRE THE FISHING INDUSTRY TO FORM A TO COME UP WITH SCIENCE DESIGNED FISHING CONSERVATION FOR THE SOURROUNDING AREA OF 'SBNMS'.
-sTART AN OUT REACH PROGRAM TO SCHOOLS ACROSS NEW ENGLAND. BEGIN WITH
AGE CONSIDERATE INFORMATION AND INTEREST.
Thank you FOR LETTING ME COMMENT.

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Leilani Echols

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Cheri Dzubak

-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Last weekend, I had the great fortune to encounter no less than 24 humpback whales in Stellwagen. While this is great news for the species, we can not take this as a sign of success. We must continue to protect these animals. I was also struck by the massive amounts of boat traffic around these creatures - please help protect them so they will be around for future generations.
Thank you.

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Dr. Carrie Thackeray

Dear Superintendent MacDonald,

I am writing to beg you to please Officially adopt the proposed draft

'Vision' (see below) as the Sanctuary's guiding vision. Precious animal
lives are at stake.

I am writing in regard to the Draft Management Plan for the Stellwagen
Bank National Marine Sanctuary. I am very concerned that New England's
only Sanctuary provides very little protection for the habitat and
animals within its borders, and that your proposed plan does not
increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels
and loss of their food sources, and that human activity, particularly
fishing, is compromising the purpose of the Sanctuary. Time is of the
essence. The proposed action plans should include detailed regulatory
proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the
final plan:
-Develop regulations immediately to reduce whale disturbance by all
commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that
designate no-take research reserves and limited-use areas in addition
to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand
lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's
guiding vision.
Thank you.

Sincerely,

Mrs. laurie harris

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Dear Superintendent MacDonald,

Once again, I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I remain concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans must be expanded to include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Noreen Guregian

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Miss Alissa D'Auria

Aug 21, 2008

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

With regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary, I am very concerned that New England's only

Sanctuary provides little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection. Instead, the plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is negating the purpose of the Sanctuary. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
Therefore, I urge you to revise the draft plan to contain the following: regulations to reduce whale disturbance by all commercial and recreational vessels; a zoning plan with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use; regulations to ban fishing on forage species such as sand lance and herring; adoption of the draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Paul Schutt

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Seymour Brodsky

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Ruth Vitale

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
The proliferation of jellyfish VERY early in the season on our northern beaches this year is a strong warning of an imbalance in our ocean ecology. This is just one example.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. John Sartoris

175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Lisa Reitano
4735 Farmdale Ave
North Hollywood, CA 91602-1109

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Gina Riedel

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am concerned that New England's only Sanctuary provides very little protection for habitat and species within its perimeter, and that your proposed plan appears lax on protection.
Apparently, there are compelling data: that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by fishing vessels which lessen their food sources, and that human activity, particularly fishing, are compromising the purpose of the Sanctuary.
Please act now! Proposed action plans should include detailed regulatory guidelines for immediate ocean protection.
I urge you to revise the draft plan to effectively address the following protection concerns:

-Develop regulations to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan with accompanying regulations that designate no-take research reserves and establish ?
areas in harmony with ocean areas designated for commercial and recreational use;
-Develop regulations to ban fishing on forage species, such as sand lance and herring.

In general, my concerns are that 'balanced ecology' for areas requiring government protection are not adequately addressed, such that, ocean health is not being effectively maintained by appropriate authorities charged with responsible stewardship.
Thank you.

Sincerely,

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Karen Ziomek Vayda

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Mrs Jack McMullen
549 Forest Ridge Ct
Montgomery, AL 36109-3344

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Patricia Chang

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Marion Tidwell

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. John Pham

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Lynda Zoya

Aug 21, 2008

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I have visited Stellwagen and think it

needs stronger protection and regulations. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:

-Shorten the whale watching hours and have a closed day once or twice a week to whale watching. Whale watching boats act as paparazzi, constantly harrasing the whales from sunrise to sunset. A day off from the noise and disturbance would benefit them.
-Develop regulations (such as greater distances between the whales and the boats)aimed immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
By protecting the Sanctuary it will continued to be enjoyed by whale watchers, fisherman, researchers and all for many more years to come.
Moderation is the key.
Thank you.

Sincerely,

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Dian Lord

Scituate, MA 02066

Dear Superintendent MacDonald,

In regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary; I am deepply concerned that New England's only Sanctuary provides minimal protection for the habitat and animals within its borders, and that your proposed plan will not increase protection. Marine sanctuaries are vital bastions for the ocean againsts the rising tide of humanity.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I strongly urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you for considering my comments.

Sincerely,

Ms. Sarah Peters

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Dr. Boris Dirnbach

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Tommy Harmon

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. John Donaldson

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders.
Time is of the essence. The proposed action plans should include detailed regulatory proposals to protect the Sanctuary's at-risk biodiversity against loss of food sources, impacts from fishing, vessels, and human activity.
In specific, the proposals should include:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Bob LeHew

-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
A recent United Nations scientific report has determined that ALL commercial ocean fisheries in the world will be depleted by 2050. We have to change the way we do business, or else we will lose our precious natural resources. The time to protect our fisheries is NOW, before it is too late. Please don't sell out to the pressure of vested interests that are not planning for the future of us all.
Thank you.

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Miss Linnea Whitman

Aug 21, 2008

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Jenna Garvey

Dear Superintendent MacDonald,

As an Educator of marine biology here in Massachusetts, I/we are very concerned about the habitat known as Stellwagen Bank Natioanl Marine Sanctuary. Once it is gone, it is gone for good.
Therefore, I am writing in regard to the Draft Management Plan for the

Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Stephen M. DuBois

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing regarding the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am extremely concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders. Your proposed plan does not increase protection.

Your plan contains information that the Sanctuary's biodiversity is at risk. The endangered whales are impacted by vessels.The loss of the whales food sources and human activity, particularly fishing, is

compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I strongly urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate research reserves and limited-use areas In addition to areas for commercial and recreational use;
-Develop regulations to ban fishing;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
I hope that you will consider the above.
Thank you and have a good day

Sincerely,

Mrs. Lise Fisher

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Miss Siobhan Casey

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Sharon Fortunak

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Carol Guillemette

Dear Superintendent MacDonald,

You are protecting an unique environment and ecosystem. You have the responsibility of stewardship for our national assets in your hands.
I'm sure you have many competing interests making demands. At the end of the day we need to leave something worth leaving for tomorrow and make an effort to repair and replace some of what we have all been responsible for taking. Additionally, protecting this area to a greater degree will help the entire surrounding ecosystem be more resilient and bountiful for everyone who draws upon and enjoys it's resources.

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.

Dear Superintendent MacDonald,

As a citizen, a scientist, and someone concerned with the health of our

world's oceans, I am writing in regard to the Draft Management Plan for

the Stellwagen Bank National Marine Sanctuary. Along with other members
of the Ocean Conservancy and many people in Massachusetts I am very
concerned that New England's only Sanctuary provides very little
protection for the habitat and animals within its borders, and that
your proposed plan does not increase protection. Protection needs to
be increased in this area as soon as possible.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels
and loss of their food sources, and that human activity, particularly
fishing, is compromising the purpose of the Sanctuary. Time is of the
essence. The proposed action plans should include detailed regulatory
proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the
final plan:
-Develop regulations immediately to reduce whale disturbance by all
commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that
designate no-take research reserves and limited-use areas in addition
to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand
lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's
guiding vision.
Thank you.

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Marti Siemion

Dear Superintendent MacDonald,

This will certainly be the CENTURY OF EXTINCTION if we fail to offer
adequate and genuine protection to the species that are endangered by
man and his activities.All of the life support systems of our planet

are in CRISIS and this is no time for business as usual!!!IT IS TIME TO
LISTEN AND TO SUPPORT THE ENVIRONMENTALISTS AND THEIR EXPERTS- AND NOT

THE TIME TO FOLLOW THE WHIMS OF THE SPECIAL INTERESTS WHO ARE PRIMARILY
ONLY THINKING OF THEIR BOTTOM LINE AT THE EXPENSE AND THE RISK OF
CAUSING EXTINCNTION- WHICH IS A VERY LONG TIME!!!!I am writing in
regard to the Draft Management Plan for the Stellwagen Bank National

Marine Sanctuary. I am very concerned that New England's only Sanctuary
provides very little protection for the habitat and animals within its
borders, and that your proposed plan does not increase protection.

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Miss Laura Dymkowski

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Kimberly Peterson

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Amelia Braselton

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Victor Castellanos

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Debra Rochna

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection. This is completely unacceptable and reprehensible.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory

proposals for immediate development and implementation. Your knowledge of the above information re: the amazing biodiversity and the damage being done by human activity, makes you culpable for continued damage

and lack of protections if you go forward with your current weak action plan.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to drastically reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that clearly designate no-take research reserves and limited-use areas, in addition to areas set aside for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision;
-Set stiff fines and sentences for non-compliance and aggressively pursue conviction of offenders.
Thank you.

Sincerely,

Mrs. Skye Patterson

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Michael E. van der Heyden

Dear Superintendent MacDonald,

PERSONAL COMMENTS: I cannot add more details to the excellent recommendations below; I am just a citizen but I am intelligent enough to understand that the world's oceans are under terrible pressure and that everything that can be done to save them must be done now.
Sincerely,
Jan McCreary

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Theresa Everett

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Nancy Gathing

175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Pamala Thomas
2622 Montana Ave
Santa Monica, CA 90403-2258

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Tom Dellay
