Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Carl Kurtz

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Dylan Medlock-Turek

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Charles Rapport
14 Regency Dr
Holliston, MA 01746-2070

Dear Superintendent MacDonald,

PLEASE do all you can to save the sea and its creatures!!!!

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Bobbie O'Neill

Dear Superintendent MacDonald,

I am writing regarding the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and

animals within its borders and that your proposed plan does not include an increase in protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. As time is always of the essence, proposed action plans should include detailed regulatory proposals for immediate development and implementation.

I implore you to revise the draft to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Your consideration is greatly appreciated!

Sincerely,

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Raymond Keeling

Dear Superintendent MacDonald,

Re the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary, this Sanctuary needs to provide real protection.

The proposed action plans should include detailed regulatory proposals for immediate implementation:
1. ban fishing on forage species such as sand lance and herring!
2. develop a zoning plan to designate no-take research reserves, limited-use areas and areas for commercial and recreational use;
3. reduce whale disturbance by ALL vessels;
4. adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you for your consideration.

Sincerely,

Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Vivian Fahlgren

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;

Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Keith Kyle

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection. You are also ignoring your own NEPA implementation policy by not preparing a draft environmental impact statement.
Your plan contains compelling information that the Sanctuary's biodiversity is at risk (overall C in the state of the Sanctuary report),that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is

compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision and develop goals and objectives;
-ban gill nets and hooklines from the sanctuary.
Thank you.

Sincerely,

Miss Gib Chase

Dear Superintendent MacDonald,

The Draft Management Plan for the Stellwagen Bank National Marine Sanctuary is weak and needs revision. Specifically, the draft plan, in order for it to truly protect marine animal life, must contain the following:
1. Regulations to immediately reduce whale disturbance by all commercial and recreational vessels;
2. A zoning plan with accompanying regulations that designates no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
3. Regulations to ban fishing on forage species such as sand lance and herring;
4. Official adoption of the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Jan Cox Goloviich

Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Robert L Foley Jr

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Miss Tracy Marotta

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Jessica Barley

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Dear Superintendent MacDonald,

We are writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. We are very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's biodiversity is at risk, that endangered whales are suffering from the impact of vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
We respectfully urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Jan Melious

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am highly concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's biodiversity is at great risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary.
Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you for your attention to this problem!.

Sincerely,

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Matthew Bennett

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Dear Superintendent MacDonald,

I am concerned about the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan correctly reports that the Sanctuary's biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is

compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
Please increase protection and revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Keep our oceans from dying and keep biodiversity a major component of any management plan.

Sincerely,

Dear Superintendent MacDonald,

As a marine biologist and educator, I am extremely aware of the degraded state of our oceans and its wildlife due to human actions and pressures. It is imperative that we do everything possible NOW to protect our ocean ecosystems and their inhabitants. As such, I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Dear Superintendent MacDonald,

As a citizen of Massachusetts, I am very concerned that New England's only Sanctuary provides so little protection for the habitat and

animals within its borders, and that your Draft Management Plan for the Stellwagen Bank National Marine Sanctuary fails to improve that protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly

fishing, is compromising the whole purpose of the Sanctuary. Time is of the essence here. The proposed action plans must include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following:
-Develop regulations to reduce immediately whale disturbance by ALL commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Judith Smith

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Simona Bixler

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Dr. Ellen Levine

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Donna Lewis

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Elaine Priday

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Patricia Cook

Aug 21, 2008

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

Wife Virginia and I are spokespeople for the oceans of the world.
Today we are writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary.
Frankly, we are very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
The Draft Management Plan contains compelling information that:
=> the Sanctuary's biodiversity is at risk,
=> that endangered whales are impacted by vessels and loss of their food sources,
=> and that human activity, particularly fishing, is compromising the purpose of the Sanctuary.
Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
We urge you to revise the draft plan to contain the following in the final plan:

(1) Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
(2) Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
(3) Develop regulations to ban fishing on forage species such as sand lance and herring;
(4) Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Jim Wagner

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Christiaan Siano

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Pamela Roberts

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.MISMANAGEMENT ABOUNDS AND WEAKENING PROTECTIONS IS WHAT WE FIGHT AGAINST DAILY.
New England's only National Marine Sanctuary, Stellwagen Bank, encompasses nearly 1,000 square miles of deep sea basins, productive shallow banks, and a breathtaking wealth of marine life. Yet this "sanctuary" actually does very little to protect animals and their habitats. Whales are still endangered by vessel traffic speeding into the Port of Boston; fishing activity still disrupts sensitive bottom habitats and discards unwanted species ("bycatch"); and large fishing trawlers compete with whales, tuna, and cod by harvesting the food fish that support this web of life.
Stellwagen Bank Sanctuary is in crisis. Compelling evidence documents the fact that human uses are degrading the Sanctuary's wildlife,

whales, fish species, and shipwrecks. But to date managers at NOAA have done very little to protect this special place.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Robert Durant

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I have been there and I was changed forever! The experience with these great whales is inbdescribable! If you have never been - go!
Protecting precious places like these in 'Marine Parks/Sanctuaries' vastly IMPROVES fishing and other commercial endeavors dependent on healthy Oceans. Protecting the Stellwagon Bank is pro-business! And it will pay off quickly.
I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.

Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Kim Neumann

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Mark Weissman

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Arthur Kaltenborn
1370 Athena Dr
Kent, OH 44240-4602

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Thane Harpole

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

We own and use so much of the ocean already, we should do a much better job of actually providing a true sanctuary for marine life.
This would mean much stronger provisions for Stellwagen to protect the species there, to stop ship traffic, and to close fishing on the bank.
I am working on a book called "In Pursuit of Giants: One Man's Global Search for the Last of the Great Fish". It will be published by Penguin in 2011. The book talks about the catastrophic

decline in large pelagic fish numbers (bluefin tuna, marlin, swordfish) in the past 50 years, and what needs to be done about it.
If we are serious about changing how we interact with the ocean, it

will mean having the courage and the vision to set aside whole areas so that they are unimpacted by human activities.
Stellwagen is the only location in New England so far that has sanctuary status. The book will talk about the limits of this status and the loopholes that allow continued use. By the time the book is out, I'd really like to tell a different story--how the sanctuary managers and the people of New England made the commitment to do something truly effective in an effort to bring back the marine riches that used to bless our waters.

Sincerely,

Mr. Matt Rigney

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Anita Brandariz

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Jennifer Martinson

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Colleen Kvenvold

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am VERY concerned that New England's only sanctuary provides VERY little protection for the habitat and animals within its borders, and that your proposed plan does NOT increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at RISK, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, PARTICULARLY fishing, is compromising the purpose of the Sanctuary. Time is of the UTMOST essence. The proposed action plans should INCLUDE detailed regulatory proposals for immediate development and implementation.
I STRONGLY urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations IMMEDIATELY to reduce whale disturbance by ALL commercial and recreational vessels;
-Develop a zoning plan IMMEDIATELY with accompanying regulations that designate no-take research reserves and limited-use areas in ADDITION to areas for commercial and recreational use;
-Develop regulations to BAN fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's GUIDING vision.
Thank you.

Sincerely,

Dear Superintendent MacDonald,

It's really sad that ever since the right wing Republicans have taken over this country, that they are more than happy to degrade every part of our environment. After all the hard work and effort that so many people have undertaken for the past 35 years, only to be undone so quickly by so few. Stellwagen Sanctuary is no sanctuary as it now stands. It needs more protections, not less otherwise the animals who

live there will continue to decline. One wonders what the right wingers will do when there is no clean water, clean air and everything is polluted with the chemicals they hold so near and dear. If they think they're above Mother Nature's laws, they've got another thing coming. Too bad all the rest of us who really care about the planet and her inhabitants, will also have to suffer because of their greed.

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

As one who appreciates the natural splendor that our Earth has to
offer, I am writing in regard to the Draft Management Plan for the

Stellwagen Bank National Marine Sanctuary. I am very concerned that New
England's only Sanctuary provides very little protection for the
habitat and animals within its borders, and that your proposed plan
does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels
and loss of their food sources, and that human activity, particularly
fishing, is compromising the purpose of the Sanctuary. Time is of the
essence. The proposed action plans should include detailed regulatory
proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the
final plan:
-Develop regulations immediately to reduce whale disturbance by all
commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that
designate no-take research reserves and limited-use areas in addition
to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand
lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's
guiding vision.
Thank you.

Sincerely,

Ms. April Westfall

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Rick Shreve

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
I have been on Quite a few whale watches that go in and around Stellwagen Bank and Iit a richly diverse area where many animals and fish live and come to eat. I care deeply for the ocean and I Urge you to please keep in mind the lives of the animals and Whales that need that area in and around Stellwagen bank to live and thrive. Without better protection the whale and the thousands of marine animals that live within that area will be greatly effected.
I also graduated from a new England College with a bachelors in Marine Science and know how vital Marine Sacntuarys are for the livelyhood and and surval of all the oceans creature both large and small.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Scituate, MA 02066

Dear Superintendent MacDonald,

Please consider our comments as part of the record on the Draft

Management Plan for the Stellwagen Bank National Marine Sanctuary. What kind of a sanctuary allows harvesting, destruction, and pollution to occur in its borders? In a way it is as if one were allowed to clearcut, plow, farm, hunt, litter, and dump in Yosemite or the Grand Canyon. Admittedly a marine sanctuary is difficult to "manage" and monitor, however
New England's only Sanctuary provides very little protection for the

habitat and animals within its borders. The management plan as proposed does little to address this.

It is clear fromthe plan that Stellwagen's biodiversity and the success

of the area as a Sanctuary is at risk. Endangered whales are threatened and often struck by ships. The loss of food sources impacts not only the whales but the sea birds. It is possible that tern dieoffs are caused by starvation and improper nutrition due to overfishing. Fishing, especially trawling is compromising the goals of the Sanctuary.
There is no time to waste! Detailed regulations and enforcement are vital and need to be immediately put into place.
PLEASE revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Ellen Podolsky

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Whales are very significant mammals, and we need to take every precaution to ensure their species survival.
Thank you.

Sincerely,

Ms. Madeline Woods

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am extremely concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I strongly urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

please end this all talk and no action plan that this administration has put into place. they think of one thing .and thats how to line the pockets of all the big business. man has tryed to use ,abuse and mold our earth into his pocket. he thinks that it was put

here just for him. and that he can do with it how he pleases. well its not going to die without putting up a fight. we must end this archaic thinking.like all living thinks ,it must be protected ,especially when its in trouble,it must have all the essentials in place to prosper and

survive. and yet we continue to abuse and rape it. when are we going to learn. we can't be healthy and survive ,if our earth is not healthy.
Thank you.

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Heather Rhine

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Mary McBride

175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Margery Coffey

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Sabrina Choi

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

as someone who loves the ocean, I am writing in regard to the Draft

Management Plan for the Stellwagen Bank National Marine Sanctuary. I am concerned that the proposed plan does not offer enough protection for the habitat and animals within its borders.
Acknowledgin that the Sanctuary's biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food

sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary is an excellent start to your plan.
However, a truly comprehensive plan should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Miss Rebecca Jenkins

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Miss Leticia Bayona

Dear Superintendent MacDonald,

Let's do something to make things better.
I am writing with regard to the Draft Management Plan for the

Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders. Does your proposed plan increase protection?
No. It seems your plan contains compelling information that the Sanctuary's biodiversity is at risk. Whales are endangered by traffic and loss of their food sources. Human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation. We must protect our oceans because they are critical to the health of this planet. We must act to protect our future.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Linda T. Haney

Aug 21, 2008

Superintendent Craig MacDonald
175 Edward Foster Road
Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Toni Spott

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Christine Oettle

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
I consider myself incredibly fortunate for having seen North Atlantic Right Whales up close and in person. I have also spent many hours watching whales including humpbacks at Stellwagen Bank. These animals as well as the dolphins and some of the other species who share the area are highly intelligent, social and beautiful.
They are worthy of moral consideration in their own right.
Further, future generations of people have the right to make the journey to see these amazing creatures in their natural habitat. To do so requires real protection for these animals on their feeding grounds in Stellwagen and George's Banks.

Lastly, the Right Whale is critically endangered with only around three hundred of these incredible mammals left. This dramatically increases the urgency of taking all possible action to save them.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.

Please do everything in your power to protect the wildlife of
Stellwagen Bank.
Thank you for your time and consideration in this important matter.

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Rebecca Tippens

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Joseph Grinnell

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Michael Castleberry

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Lisa Bowman

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Michele Adams

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. fabienne Babb

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. ed mc dade

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. CHERE HIGH

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. David Neral

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Claire Marron

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mr. Robert Lindsay

Scituate, MA 02066

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Mrs. Dee Schiavone

Dear Superintendent MacDonald,

As an advocate of protecting our country's coastal waters and the distinct ecosystems and species that exisit within them, I speak out for the utmost in conservation measures applied accordingly to these special places.
As a resident of Washington State, I live along Puget Sound, where we host orca whale and spawning salmon, as well as migratory and resident sea birds, just to name a few of the fauna native to our region. Here in Puget Sound, we regulate sport fishing in order to allow enough salmon--themselves threatened--to both spawn and provide food for our orca populations. There is no commercial fishing allowed in Puget Sound at all.
I am writing today regarding the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you for considering my comments, as a citizen who values our nations coastal waters.

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels; make it mandatory to comply with speed limits or they lose their license to operate. Tourists want to see whales, I know I did, and I also know this is possible to achieve with careful and considerate speed and distance limits.
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring; prohibit by-catch by insisting on certain sized nets;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision. Call it a Sanctuary and help us protect it forever.
Thank you.

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Dr. E. Hollander

Dear Superintendent MacDonald,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

I am writing in regard to the Draft Management Plan for the Stellwagen Bank National Marine Sanctuary. I am very concerned that New England's only Sanctuary provides very little protection for the habitat and animals within its borders, and that your proposed plan does not increase protection.
Your plan contains compelling information that the Sanctuary's

biodiversity is at risk, that endangered whales are impacted by vessels and loss of their food sources, and that human activity, particularly fishing, is compromising the purpose of the Sanctuary. Time is of the essence. The proposed action plans should include detailed regulatory proposals for immediate development and implementation.
I urge you to revise the draft plan to contain the following in the final plan:
-Develop regulations immediately to reduce whale disturbance by all commercial and recreational vessels;
-Develop a zoning plan immediately with accompanying regulations that designate no-take research reserves and limited-use areas in addition to areas for commercial and recreational use;
-Develop regulations to ban fishing on forage species such as sand lance and herring;
-Officially adopt the proposed draft 'Vision' as the Sanctuary's guiding vision.
Thank you.

Sincerely,

Ms. Lyara Ekvinai
