VOLUME II-MORTALITY

PART B

Section 9. Geographic Detail for Mortality: Tables

Total number of deaths, deaths from selected causes, infant deaths, neonatal deaths, fetal deaths, and selected rates. Tabulations shown by each State, county, specified urban places, population-size groups, metropolitan and non-metropolitan counties, urban and rural areas, and standard metropolitan statistical areas.

Section 10. Puerto Rico and Virgin Islands: Tables

Frequency tabulations for most variables shown in other sections in Volume II. General mortality rates by age, sex, and cause of death.

A brief summary of the contents for each section is listed above for the convenience of the reader. A complete table of contents is shown at the beginning of each section and is identified by a narrow black edge which can be located easily by fanning the pages. Each section is paged independently, using the section number as the identifying prefix.

(Data refer only to events occurring within the United States. Specified urban places are those with populations of 10,000 or more in 1960 and are incorporated unless otherwise noted. Figures for white and nonwhite are shown separately for those counties and urban places in which the 1960 populations for nonwhite formed 10 percent or more of the total or numbered 10,000 or more. Deaths exclude fetal deaths. Fetal deaths include only those for which the period of gestation was given as 20 weeks or more or was not stated)

NOTES

Geographic classification

Data are shown by place of occurrence; events occurring within Puerto Rico are allocated to the place of residence, as are those for the Virgin Islands. Mortality data are shown for St. Croix Island and for St. John and St. Thomas Islands (the latter two combined) in the Virgin Islands and for the primary geographic subdivision, "muncipio," in Puerto Rico. Deaths by place of residence are also shown for each urban place having a population of 10,000 or more according to the 1960 census.

Race and color

For 1961, deaths are not shown by color for Puerto Rico; they are classified as white and nonwhite for the Virgin Islands.
