Dear Mr. Doxsey:

In response to your Freedom of Information Act request made earlier this year, I would like to inform you that neither the Department of Energy (DOE) Solar Energy Technologies Program nor the Wind Energy Program maintains power system blueprints. Both programs are primarily involved with research and development, and documents dealing with that are available at the websites http://www1.eere.energy.gov/solar/info_resources.html and http://www1.eere.energy.gov/windandhydro/wind_resources.html, and through the National Technical Information Service, contact information for which is—

National Technical Information Service
5285 Port Royal Road
Springfield, VA 22161
1-800-553-6847 or (703) 605-6000
Website: http://www.ntis.gov/

In addition, the DOE provides general information to the public on solar energy and wind energy at the website www.energysavers.gov (see especially "Making Clean Electricity").

Please feel free to contact Mr. Jim Ahlgrimm of the Wind Program, at 202-586-9806, or me, at 202-586-8109, if you have any questions regarding DOE research documents or programs.

Sincerely,
Jim Kern
Office of Solar Energy Technologies
U.S. Department of Energy
