RE: FOIA-2009-000027

Dear Mr. Gellatly:

This is a final response to the request for information that you sent to the Department of Energy (DOE) under the Freedom of Information Act (FOIA), 5 U.S.C. 552. You asked for access to and copies of documents that pertain to the potential investments in the Savannah River Site and other DOE nuclear clean-up sites with a view to accelerating their footprint reductions and the proposed Energy Proposed Initiative.

On February 17, 2009, a partial request was sent to you. I informed you that the Office of Environmental Management (EM) was still searching for additional documents responsive to the request. The EM has completed its search and review and their Program Planning and Budget Office found one additional document. The enclosed document is entitled "Footprint Reduction Scenarios December 2008" and it is provided to you in its entirety.

I appreciate the opportunity to assist you with this matter. If you have any questions about this letter you may contact Ms. Sheila Jeter of my staff on (202) 586-5061.

Sincerely,

Alexander C. Morris
FOIA Officer
Office of Information Resources
