Greetings All,

We are pleased to announce DoDDS-E has purchased a one year's subscription to the Official SAT Online Course Program. This subscription will be available to all high school students 9-12, administrators, and teachers. This online "toolkit" will provide:

- The SAT Online Course Tour which can be used to introduce course features to staff, students and parents.
- Course information and resources which will support Advanced Placement Program; PSAT/NMSQT; SAT Prep Readiness initiatives; Continuous School Improvement initiatives; DoDEA College Entrance Prep course; high school college and career counseling services; community outreach initiative to support SAT Prep Programs offered by base education centers; and all the free SAT practice tools available on the College Board website.

Whether used as a stand-alone course, incorporated into classroom activities or provided for independent study, The Official SAT Online Course™ provides our staff and our students with:

- 18 interactive lessons
- 10 Official SAT Practice Tests
- Hundreds of practice questions
- Personalized score reports
- Automated Essay Scoring
- Detailed answers and explanations

To use the course, students will need our school's unique access code. This code will be available to all eligible students at our school who will use the course. The SHS access code will be disseminated by our teachers to our students as soon as we can ensure the access code is operating correctly.

SHS does offer a College Prep course as an elective for this second semester and will use the online course as part of curriculum. For those students who cannot take this elective course, Mr. Jordan is currently developing an after-school and Saturday morning SAT Prep sessions during this coming spring. This SAT online course will also be available for this spring opportunity with Mr. Jordan and more information will be forthcoming.
