16. REMARKS

The contractor shall provide a technical report with the following information to support a request for NSE from EPA engine emission standards. The report shall include: engine make, model, horse power and displacement; cylinder displacement; EPA emission standard the engine currently complies with; number of engines to be exempted including an estimate of spares needed within 5 years of start of production; the availability of JP-8 compatible, tier III marine diesel emission standard compliant engines at the time of contract award, including market research details; technical justification for the continued use of the non-compliant engine, including impacts to schedule and/or performance in the event the NSE request is rejected and a compliant engine is required to be integrated into the BEB design.

BLOCKS 12 and 13: Initial submission is due 30 days after contract award. The Government shall have 10 days to review and provide comments to the contractor. The contractor is required to address and/or incorporate all Government comments and provide a final justification for approval within 10 days after receipt of Government comments.

BLOCK 14: E-mail delivery per e-mail addresses on BEB IPT List.
