
Figure 7A

Figure 7B

FIGURE 7. Cross-section profiles of the base of the Calvert Formation. Figures 7A and 7B derived from figure 6. The green line (A-A') is a longitudinal profile of the base of the Calvert Formation while the red (B-B'), black (C-C'), and blue (D-D') lines are transverse cross-sections. Graphs show a slight trough on the west side of the depositional basin, and a deep trough on the east. Units are in feet.
