
Figure 6. Plan view of ArcScene 3-dimensional computer model for the western part of the Calvert depositional basin. Contours represent the base of the Calvert Formation relative to sea level (amsl). Light green line (A-A') shows location of longitudinal cross section for Figure 7A; red (B-B'), black (C-C') and blue (D-D') lines are transverse cross-sections shown in Figure 7B. Brown lines are faults.
