Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Please do this.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I was lucky enough to be on a whale watch several years ago during which we spotted several species, including humpbacks and right whales. Please help protect these glorious creatures!

Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

WHen I was a child, I wondered about whales, was concerned about their extiction, and wondered whether they would be around for me to see when I was a grown-up. Now I have young children and I wonder for them...will these right whales still exist when they are grown?

Save the right whale by protecting Stellwagen Bank from harmful commercial interests...bottom trawling, leaving discarded nets (which is pollution!) the big ships in commercial shipping lanes, and over-fishing...leave the whales, and their food, alone!

I can't believe we kill they by hitting them and accidentally trapping them in trashed nets. ALl those years of actual hunting but the whale in danger and now it is in danger becuase we can't be bothered!

That is not a marine sanctuary. Make it one. And then actually enforce the rules. WHat are you thinking! Let's not but profits ahead of the whales, which we did when we hunted them. Make Stellwagon a real marine sanctuary. Save the whales.

Dear Superintendent MacDonald,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Even though the Stellwegan Bank is supposed to be a marine sanctuary, it has been made clear that harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

I believe we have a civic and moral obligation to maintain and preserve such a place for the marine life dependent upon it and for future generations who, I hope, will be able to come and be awe-inspired by this particular marine sanctuary.

Thank you for your time,

Suellen Green

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

It's a difficult situation when the rights of man are against the rights of other animals on the planet. Humanity is supposed to be the most intelligent creature on this Earth and if we are, then we are responsible for any damage. Let's be responsible for any repair that needs to be done.

Let's protect those that cannot protect themselves.

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to help!

We must 1) divert industrial shipping from the Bank in order to prevent huge ships from

striking the whales. 2) Also, end bottom trawling wherever it threatens to destroy the Bank's fragile floor. 3) Ensure that factory fishing vessels leave enough plankton, herring and other food for the Bank's whales, and 4) enforce the rules designed to prevent whales from being tangled in discarded fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

Please do you job and ensure the integrity of the Stellwagen Bank as a marine reserve. With so few Right whales left in the world, it is critical that we do everything we can to protect them. Commercial uses of the area which threaten them should be stopped. This includes -

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Thank you in advance to heeded the calls of the Commonwealth's citizens!

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I have spent a number of beautiful days on the ocean in Massachusetts watching the whales on Stellwagen Bank. We are so fortunate to have these wonderful creatures off the shores of our state.

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Whales in the Stellwagen Bank area are threatened by harmful practices there and the entire ocean ecosystem upon which they depend is at risk.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Please do what you can to ensure that future generations can enjoy these incredible creatures. The disappearance of creatures from the earth due our behavior, stupidity, and unwillingness to protect them is tragic. Our wastefulness and lack of foresight predict our own future as human beings as well.

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

To the Marine Sanctuary Superintendent for Stellwagen Bank,

We STRONGLY urge you to protect both Right and Humpback whales on Stellwagen Bank. As you know, Stellwagen Bank is supposed to be a marine sanctuary, yet dangerous shipping and fishing practices threaten the whales in that area and beyond.

To make Stellwagen Bank a true marine sanctuary, I urge you to stop industrial shipping in and near the Bank in order to prevent huge ships from striking the whales. In addition, we need to stop bottom trawling and restrict factory fishing vessels in the area.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

The oceans belong to one and all and it is prime time to insure that the health of the oceans become a main priority for the people who are charged with caring for this beautiful and much needed resource. For too long a period the oceans were left to take care of themselves and we know once human behavior is involved restrictions need to be put in place. Shipping industry has been one of the culprits in damaging this resource and a closer look should be taken to insure the shipping and boating industries abide by the true laws of nature and work to maintain and allow this resource and marine life to SURVIVE>

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Marine Sanctuary Superintendent for Stellwagen Bank,

I urge you to protect the Right and Humpback whales of Stellwagen Bank. Stellwagen Bank is supposed to be a marine sanctuary, but harmful practices threaten the whales there and the entire ocean ecosystem upon which they depend.

To make Stellwagen Bank a true marine sanctuary, I urge you to:

• Keep industrial shipping out of the Bank in order to prevent huge ships from

striking the whales;

• End bottom trawling wherever it threatens to destroy the Bank's fragile floor;

• Ensure that factory fishing vessels leave enough plankton, herring and other food

for the Bank's whales; and

• Enforce the rules designed to prevent whales from being tangled in discarded

fishing nets.

Dear Mr. MacDonald and the Staff of Stellwagen Bank National Marine Sanctuary,

This email is to share my profound concern over the welfare of the Stellwagen Bank National Marine Sanctuary and to provide my comments for consideration.

I strongly propose that the following items be part of a new management plan:

- Establishment of no-take zones, in order to provide the opportunity for sea mammals, aquatic sea-life, and other species to recover; from the the ocean floor to the ocean surface.
- Regulations to enforce the use of environmentally-friendly fishing gear & nets; along with financial assistance to fisherman in securing such equipment.
- Establishment of a well-defined zone in which large commercial vessels would not be permitted entry into the most sensitive areas of the sanctuary.
- Regulation and strict enforcement of adequate speed limits of large commercial vessels, to minimize whale collisions.
- String regulation to prohibit and/or severely limit trawling of the sea floor in order to prevent further damage to the ecology of the sanctuary.
- Monitoring of water quality to confirm current and new sources of pollution, as well as initiating scientifically sound steps to mitigate the impact of waste-water treatment discharge from Deer Island, and waste disposal from commercial and pleasure craft, within or in close proximity of the sanctuary.
- Making a concerted determined effort to save the North Atlantic Right Whale from extinction, by combining the talents and resources of all relevant parties; including marine biologists, environmentalists, fisherman, commercial fleets, and all concerned citizens.
- Disseminating educational material through all media outlets, in order to educate Massachusetts citizens of what remains a tremendous resource only a few short miles off our shores, and the necessity of protecting it for future generations.

Thank you for the opportunity to share my views!

In addition, please let me know how I may be of service, in any capacity, to assist in these efforts, and for the general preservation of our natural resources.

Yours Truly,

Dear Superintendent McDonald,

The Gerry E. Studds Stellwagen Bank National Marine Sanctuary was designated in 1992 in recognition of its nationally outstanding ecological value and the need to protect this ocean treasure for future generations. However, the recently released draft sanctuary management plan paints a grim picture of Stellwagen and the destructive impacts of human activities including bottom trawling and commercial shipping.

Today Stellwagen is a sanctuary in name only. The proposed management plan is woefully inadequate and provides no real and immediate protections for ocean wildlife or habitat. This must change for Stellwagen Bank National Marine Sanctuary to live up to its name and deliver on its ocean stewardship responsibility to the American people. I urge you to develop a final management plan for Stellwagen Bank National Marine Sanctuary that:

- Manages all commercial and recreational activities inside the Sanctuary;

- Immediately identifies and protects vulnerable seafloor habitats from harmful bottom trawling and other harmful human activities;

- Protects herring, sand lance and other critical forage fish that provide a source of food for whales, tuna, cod, and other ocean wildlife;

- Inventories and protects maritime heritage sites;

- Improves monitoring and protection of water quality; and

- Manages shipping, fishing and whale watching boats to stop endangered whales from being disturbed, entangled or killed while they try to raise and feed their young.

Stellwagen Bank can no longer be a Sanctuary in name only. I expect real leadership and urge you to craft an effective management plan that will fully protect and restore the diversity of the ocean wildlife that call Stellwagen Bank Sanctuary home.

Sincerely,

However, the recently released draft sanctuary management plan paints a grim picture of Stellwagen and the destructive impacts of human activities including bottom trawling and commercial shipping.

Today Stellwagen is a sanctuary in name only. The proposed management plan is woefully inadequate and provides no real and immediate protections for ocean wildlife or habitat. This must change for Stellwagen Bank National Marine Sanctuary to live up to its name and deliver on its ocean stewardship responsibility to the American people. I urge you to develop a final management plan for Stellwagen Bank National Marine Sanctuary that:

- Manages all commercial and recreational activities inside the Sanctuary;

- Immediately identifies and protects vulnerable seafloor habitats from harmful bottom trawling and other harmful human activities;

- Protects herring, sand lance and other critical forage fish that provide a source of food for whales, tuna, cod, and other ocean wildlife;

- Inventories and protects maritime heritage sites;

- Improves monitoring and protection of water quality; and

- Manages shipping, fishing and whale watching boats to stop endangered whales from being disturbed, entangled or killed while they try to raise and feed their young.

Stellwagen Bank can no longer be a Sanctuary in name only. I expect real leadership and urge you to craft an effective management plan that will fully protect and restore the diversity of the ocean wildlife that call Stellwagen Bank Sanctuary home.

Sincerely,

Carol Simon

However, the recently released draft sanctuary management plan paints a grim picture of Stellwagen and the destructive impacts of human activities including bottom trawling and commercial shipping.

Today Stellwagen is a sanctuary in name only. The proposed management plan is woefully inadequate and provides no real and immediate protections for ocean wildlife or habitat. This must change for Stellwagen Bank National Marine Sanctuary to live up to its name and deliver on its ocean stewardship responsibility to the American people. I urge you to develop a final management plan for Stellwagen Bank National Marine Sanctuary that:

- Manages all commercial and recreational activities inside the Sanctuary;

- Immediately identifies and protects vulnerable seafloor habitats from harmful bottom trawling and other harmful human activities;

- Protects herring, sand lance and other critical forage fish that provide a source of food for whales, tuna, cod, and other ocean wildlife;

- Inventories and protects maritime heritage sites;

- Improves monitoring and protection of water quality; and

- Manages shipping, fishing and whale watching boats to stop endangered whales from being disturbed, entangled or killed while they try to raise and feed their young.

Stellwagen Bank can no longer be a Sanctuary in name only. I expect real leadership and urge you to craft an effective management plan that will fully protect and restore the diversity of the ocean wildlife that call Stellwagen Bank Sanctuary home.

Sincerely,

Nancy Anton

This must change for Stellwagen Bank National Marine Sanctuary to live up to its name and deliver on its ocean stewardship responsibility to the American people. I urge you to develop a final management plan for Stellwagen Bank National Marine Sanctuary that:

- Manages all commercial and recreational activities inside the Sanctuary;

- Immediately identifies and protects vulnerable seafloor habitats from harmful bottom trawling and other harmful human activities;

- Protects herring, sand lance and other critical forage fish that provide a source of food for whales, tuna, cod, and other ocean wildlife;

- Inventories and protects maritime heritage sites;

- Improves monitoring and protection of water quality; and

- Manages shipping, fishing and whale watching boats to stop endangered whales from being disturbed, entangled or killed while they try to raise and feed their young.

Stellwagen Bank can no longer be a Sanctuary in name only. I expect real leadership and urge you to craft an effective management plan that will fully protect and restore the diversity of the ocean wildlife that call Stellwagen Bank Sanctuary home.

Sincerely,

Joan Ray

Dear Superintendent McDonald,

The Gerry E. Studds Stellwagen Bank National Marine Sanctuary was designated in 1992 in recognition of its nationally outstanding ecological value and the need to protect this ocean treasure for future generations. However, the recently released draft sanctuary management plan paints a grim picture of Stellwagen and the destructive impacts of human activities including bottom trawling and commercial shipping.

Today Stellwagen is a sanctuary in name only. The proposed management plan is woefully inadequate and provides no real and immediate protections for ocean wildlife or habitat. This must change for Stellwagen Bank National Marine Sanctuary to live up to its name and deliver on its ocean stewardship responsibility to the American people. I urge you to develop a final management plan for Stellwagen Bank National Marine Sanctuary that:

- Manages all commercial and recreational activities inside the Sanctuary;

- Immediately identifies and protects vulnerable seafloor habitats from harmful bottom trawling and other harmful human activities;

- Protects herring, sand lance and other critical forage fish that provide a source of food for whales, tuna, cod, and other ocean wildlife;

- Inventories and protects maritime heritage sites;

Dear Superintendent McDonald,

The Gerry E. Studds Stellwagen Bank National Marine Sanctuary was designated in 1992 in recognition of its nationally outstanding ecological value and the need to protect this ocean treasure for future generations. However, the recently released draft sanctuary management plan paints a grim picture of Stellwagen and the destructive impacts of human activities including bottom trawling and commercial shipping.

Today Stellwagen is a sanctuary in name only. The proposed management plan is woefully inadequate and provides no real and immediate protections for ocean wildlife or habitat. This must change for Stellwagen Bank National Marine Sanctuary to live up to its name and deliver on its ocean stewardship responsibility to the American people. I urge you to develop a final management plan for Stellwagen Bank National Marine Sanctuary that:

- Manages all commercial and recreational activities inside the Sanctuary;

- Immediately identifies and protects vulnerable seafloor habitats from harmful bottom trawling and other harmful human activities;

- Protects herring, sand lance and other critical forage fish that provide a source of food for whales, tuna, cod, and other ocean wildlife;

- Inventories and protects maritime heritage sites;

- Improves monitoring and protection of water quality; and

- Manages shipping, fishing and whale watching boats to stop endangered whales from being disturbed, entangled or killed while they try to raise and feed their young.

Stellwagen Bank can no longer be a Sanctuary in name only. I expect real leadership and urge you to craft an effective management plan that will fully protect and restore the diversity of the ocean wildlife that call Stellwagen Bank Sanctuary home.

Sincerely,

Dear Superintendent McDonald,

The Stellwagen Bank National Marine Sanctuary was designated in 1992 in recognition of its nationally outstanding ecological value - and we should do all we can to protect it for future generations. However, the recently released draft sanctuary management plan paints a grim picture of the effects of bottom trawling and commercial shipping on Stellwagen. Clearly not enough is being done to protect this ocean treasure!

I urge you to develop a final management plan for Stellwagen Bank National Marine Sanctuary that:

- Manages all commercial and recreational activities inside the Sanctuary;

- Immediately identifies and protects vulnerable seafloor habitats from harmful bottom trawling and other harmful human activities;

- Protects herring, sand lance and other critical forage fish that provide a source of food for whales, tuna, cod, and other ocean wildlife;

- Inventories and protects maritime heritage sites;

- Improves monitoring and protection of water quality; and

- Manages shipping, fishing and whale watching boats to stop endangered whales from being disturbed, entangled or killed while they try to raise and feed their young.

Stellwagen Bank can no longer be a Sanctuary in name only. I expect real leadership and urge you to craft an effective management plan that will fully protect and restore the diversity of the ocean wildlife that call Stellwagen Bank Sanctuary home.

Dear Superintendent McDonald,

The Gerry E. Studds Stellwagen Bank National Marine Sanctuary was designated in 1992 in recognition of its nationally outstanding ecological value and the need to protect this ocean treasure for future generations. However, the recently released draft sanctuary management plan paints a grim picture of Stellwagen and the destructive impacts of human activities including bottom trawling and commercial shipping.

Today Stellwagen is a sanctuary in name only. The proposed management plan is woefully inadequate and provides no real and immediate protections for ocean wildlife or habitat. This must change for Stellwagen Bank National Marine Sanctuary to live up to its name and deliver on its ocean stewardship responsibility to the American people. I urge you to develop a final management plan for Stellwagen Bank National Marine Sanctuary that:

- Manages all commercial and recreational activities inside the Sanctuary;

- Immediately identifies and protects vulnerable seafloor habitats from harmful bottom trawling and other harmful human activities;

- Protects herring, sand lance and other critical forage fish that provide a source of food for whales, tuna, cod, and other ocean wildlife;

- Inventories and protects maritime heritage sites;

- Improves monitoring and protection of water quality; and

- Manages shipping, fishing and whale watching boats to stop endangered whales from being disturbed, entangled or killed while they try to raise and feed their young.

Stellwagen Bank can no longer be a Sanctuary in name only. I expect real leadership and urge you to craft an effective management plan that will fully protect and restore the diversity of the ocean wildlife that call Stellwagen Bank Sanctuary home.

Sincerely,

Judith Wohl
