RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>		
IRA-SJCSvcA-IS-IRAdj	TEXAS GAS SERVICE COMPANY RATE SCHEDULE IRA South Jefferson County Service Area INTERIM RATE ADJUSTMENT		
A. APPLICABILITY			
This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas served in Jefferson County, Texas including Port Arthur, Nederland, Groves and Port Neches, Texas. Applicable rate schedules include 10, 20, 40and T-4.			
B. PURPOSE			
Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.			
C. BILLING The following Interim Rate Adjustments will be added to the applicable Rate Schedule Customer Charge for each monthly billing period:			
Rate Schedule Adjustment	Customer Class Total Customer Charge	Current Customer Charge	Interim Rate
10	Residential	\$16.40	
20	Commercial	\$48.20	
40	Public Authority	\$95.68	
T-4	Transportation	\$817.40	
All applicable fees and taxes will be added to the above rate.			
D. COMPUTATION OF IRA RATE			
The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment.			

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7612

RATE SCHEDULESCHEDULE IDDESCRIPTION

Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented.

The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

E. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.
2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.
3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.
4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.
5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.
6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.
7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

SCHEDULE IDDESCRIPTION

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7612

RATE SCHEDULESCHEDULE IDDESCRIPTION

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and

WNA-SJC-IS

TEXAS GAS SERVICE COMPANY South Jefferson County Service Area RATE SCHEDULE
 WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Jefferson County, Texas including Port Arthur, Nederland, Groves & Port Neches : 10, 20, and 40. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds. Supersedes Same Rate Schedule Dated Meters Read On and After August 27, 2004 (Cities of Nederland, Port Neches and Groves) April 28, 2006

1-1-INC-SJC-IS-COG

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE NO. 1-1-INC
 South Jefferson County Service Area
 COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its South Jefferson County Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, and other purchased gas expenses.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7612

RATE SCHEDULESCHEDULE IDDESCRIPTION

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7612

RATE SCHEDULESCHEDULE IDDESCRIPTION

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). F.

SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. **COST OF GAS STATEMENT** The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. H. **ANNUAL RECONCILIATION REPORT** The Company shall file an Annual Reconciliation Report with

SCHEDULE ID	DESCRIPTION
1-1-INC-SJC-IS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-1-INC South Jefferson County Service Area COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its South Jefferson County Service Area.</p> <p>B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, and other purchased gas expenses.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7614

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. This report shall be filed concurrently with the Cost of Gas Statement for October.

TEXAS GAS SERVICE COMPANY RATE SCHEDULE IRA
 South Jefferson County Service Area
 INTERIM RATE ADJUSTMENT

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas served in Jefferson County, Texas including Port Arthur, Nederland, Groves and Port Neches, Texas. Applicable rate schedules include 10, 20, 40 and T-4.

B. PURPOSE

Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7614

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. BILLING The following Interim Rate Adjustments will be added to the applicable Rate Schedule Customer Charge for each monthly billing period:

Rate Schedule Adjustment	Customer Class Total	Current Customer Charge	Interim Rate
10	Residential	\$16.40	
20	Commercial	\$48.20	
40	Public Authority	\$95.68	
T-4	Transportation	\$817.40	

All applicable fees and taxes will be added to the above rate.

D. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment.

Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented.

The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

E. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

2. The Company shall provide notice to customers by bill insert or direct mail not

TARIFF CODE: DS RRC TARIFF NO: 7614

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

RATE SCHEDULE PSF
PIPELINE SAFETY AND REGULATORY PROGRAM FEES
TEXAS ADMINISTRATIVE CODE TITLE 16
ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS CHAPTER 8
PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7614

RATE SCHEDULESCHEDULE IDDESCRIPTION

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of

GAS SERVICES DIVISION

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

\$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

Source Note: The provisions of this Section 8.201 adopted to be effective September 8, 2003, 28 TexReg 7682; amended to be effective November 24, 2004, 29 TexReg 10733; amended to be effective May 15, 2005, 30 TexReg 2849; amended to be effective December 19, 2005, 30 TexReg 8428; amended to be effective April 18, 2007, 32 TexReg 2136; amended to be effective November 12, 2007, 32 TexReg 8121; amended to be effective September 21, 2009, 34 TexReg 6446; amended to be effective August 30, 2010, 35 TexReg 7743; amended to be effective November 14, 2011, 36 TexReg 7663

TARIFF CODE: DS RRC TARIFF NO: 7614

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds. RATE SCHEDULESCHEDULE IDDESCRIPTION

regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

TEXAS GAS SERVICE COMPANY
 South Jefferson County Service Area - Gulf Coast Region
 RATE SCHEDULE NO. 1-1
 COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7625

RATE SCHEDULESCHEDULE IDDESCRIPTION

natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7625

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7625

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

I. PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June. .

RATE SCHEDULESCHEDULE IDDESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

PIPELINE SAFETY AND REGULATORY PROGRAM FEES

TEXAS ADMINISTRATIVE CODE TITLE 16

ECONOMIC REGULATION PART 1

RAILROAD COMMISSION OF TEXAS CHAPTER 8

PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and

DESCRIPTION

regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

SCHEDULE ID	DESCRIPTION
1-1-SoJef-OS-COG	<p>TEXAS GAS SERVICE COMPANY South Jefferson County Service Area - Gulf Coast Region RATE SCHEDULE NO. 1-1 COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.</p>

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7627

RATE SCHEDULESCHEDULE IDDESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7627

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

DESCRIPTION

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and
(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the

purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

SCHEDULE ID	DESCRIPTION
1-1-SoJef-OS-COG	<p>TEXAS GAS SERVICE COMPANY South Jefferson County Service Area - Gulf Coast Region RATE SCHEDULE NO. 1-1 COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7628

RATE SCHEDULESCHEDULE IDDESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7628

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

PIPELINE SAFETY AND REGULATORY PROGRAM FEES

TEXAS ADMINISTRATIVE CODE TITLE 16

ECONOMIC REGULATION PART 1

RAILROAD COMMISSION OF TEXAS CHAPTER 8

PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time

DESCRIPTION

customer charge per bill of \$0.92, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-1-INC-SJC-IS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-1-INC South Jefferson County Service Area COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its South Jefferson County Service Area.</p> <p>B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, and other purchased gas expenses.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued</p>

TARIFF CODE: DS RRC TARIFF NO: 7635

RATE SCHEDULESCHEDULE IDDESCRIPTION

during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7635

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. This report shall be filed concurrently with the Cost of Gas Statement for October.

 South Jefferson County Service Area
 INTERIM RATE ADJUSTMENT

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas served in Jefferson County, Texas including Port Arthur, Nederland, Groves and Port Neches, Texas. Applicable rate schedules include 10, 20, 40and T-4.

B. PURPOSE

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7635

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. BILLING The following Interim Rate Adjustments will be added to the applicable Rate Schedule Customer Charge for each monthly billing period:

Rate Schedule	Customer Class	Current Customer Charge	Interim Rate
Adjustment	Total	Customer Charge	
10	Residential	\$16.40	
20	Commercial	\$48.20	
40	Public Authority	\$95.68	
T-4	Transportation	\$817.40	

All applicable fees and taxes will be added to the above rate.

D. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment.

Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented.

The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

E. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7635

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

TEXAS GAS SERVICE COMPANY
 All Service Areas
 RATE SCHEDULE PSF
 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS CHAPTER 8
 PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7635

RATE SCHEDULESCHEDULE IDDESCRIPTION

calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3,

Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA-SJC-IS

TEXAS GAS SERVICE COMPANY South Jefferson County Service Area RATE SCHEDULE
WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7635

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Jefferson County, Texas including Port Arthur, Nederland, Groves & Port Neches : 10, 20, and 40. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds. DESCRIPTION

regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

TEXAS GAS SERVICE COMPANY
 South Jefferson County Service Area - Gulf Coast Region
 RATE SCHEDULE NO. 1-1
 COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7640

RATE SCHEDULESCHEDULE IDDESCRIPTION

natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7640

RATE SCHEDULESCHEDULE IDDESCRIPTION

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

DESCRIPTION

Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

I. PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June. .

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-1-SoJef-OS-COG	<p>TEXAS GAS SERVICE COMPANY South Jefferson County Service Area - Gulf Coast Region RATE SCHEDULE NO. 1-1 COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7641

RATE SCHEDULESCHEDULE IDDESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7641

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

 RATE SCHEDULE PSF
 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS CHAPTER 8
 PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
 Rule Section8.201 Pipeline Safety and Regulatory Program Fees
 (a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3,

DESCRIPTION

Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7642

RATE SCHEDULESCHEDULE IDDESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

2K_SoJef-OS-Paro AC

TEXAS GAS SERVICE COMPANY
South Jefferson County Service Area - Gulf Coast Region
RATE SCHEDULE 2K
PAROCHIAL SCHOOL AIR CONDITIONING SERVICE RATE

APPLICABILITY

Applicable to parochial schools who have and regularly operate a gas fired air-conditioning system.

TERRITORY

Unincorporated areas served in Jefferson County, Texas including Port Arthur, Port Neches, Nederland and Groves, Texas.

COST OF SERVICE RATES

During each monthly billing period:

A Customer Charge of \$6.50 plus -
Nov. - April May - Oct.
All gas @ \$.1976 per Ccf \$.0700 per Ccf

Cost of Gas Component: The basic rates for cost of service set forth above shall be increased by the amount of the Cost of Gas Component for the billing month computed in accordance with the provisions of Rate Schedule 1-1. Prompt Payment Provisions: The rates set forth above are net for prompt payment. After 15 days following rendering of the bill, an additional five percent penalty will be added if the bill has not been paid.

OTHER CONDITIONS

1. Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.
2. Service under this schedule applies only to usage from a separately metered gas fired air conditioning system. Non-air conditioning usage is subject to the cost of service rates on Schedule 4H.
3. Air conditioning equipment must be inspected and verified as to capacity by qualified Company personnel.

PIPELINE SAFETY AND REGULATORY PROGRAM FEES

TEXAS ADMINISTRATIVE CODE TITLE 16

ECONOMIC REGULATION PART 1

RAILROAD COMMISSION OF TEXAS CHAPTER 8

PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

customer charge per bill of \$0.92, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

SCHEDULE ID	DESCRIPTION
1-1-SoJef-OS-COG	<p>TEXAS GAS SERVICE COMPANY South Jefferson County Service Area - Gulf Coast Region RATE SCHEDULE NO. 1-1 COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7643

RATE SCHEDULESCHEDULE IDDESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7643

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

DESCRIPTION

(a) Application of fees. Pursuant to Texas Utilities Code, Section 121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

 (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

SCHEDULE ID	DESCRIPTION
1-1-SoJef-OS-COG	<p>TEXAS GAS SERVICE COMPANY South Jefferson County Service Area - Gulf Coast Region RATE SCHEDULE NO. 1-1 COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7644

RATE SCHEDULESCHEDULE IDDESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7644

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

TARIFF CODE: DS RRC TARIFF NO: 7644

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the

purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-1-SoJef-OS-COG	<p>TEXAS GAS SERVICE COMPANY South Jefferson County Service Area - Gulf Coast Region RATE SCHEDULE NO. 1-1 COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7645

RATE SCHEDULESCHEDULE IDDESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7645

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS CHAPTER 8
 PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
 Rule Section8.201 Pipeline Safety and Regulatory Program Fees
 (a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7645

RATE SCHEDULESCHEDULE IDDESCRIPTION

fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned

TARIFF CODE: DS RRC TARIFF NO: 7645

RATE SCHEDULESCHEDULE IDDESCRIPTION

natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7646

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

PIPELINE SAFETY AND REGULATORY PROGRAM FEES
TEXAS ADMINISTRATIVE CODE TITLE 16
ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS CHAPTER 8
PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7646

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.
- (4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:
- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.
- (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.
- (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.
- (c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.
- (1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.
- (2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

DESCRIPTION

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

SCHEDULE ID	DESCRIPTION
1-1-SoJef-OS-COG	<p>TEXAS GAS SERVICE COMPANY South Jefferson County Service Area - Gulf Coast Region RATE SCHEDULE NO. 1-1 COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7647

RATE SCHEDULESCHEDULE IDDESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7647

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the

purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

SCHEDULE ID	DESCRIPTION
1-1-SoJef-OS-COG	<p>TEXAS GAS SERVICE COMPANY South Jefferson County Service Area - Gulf Coast Region RATE SCHEDULE NO. 1-1 COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7648

RATE SCHEDULESCHEDULE IDDESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7648

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3,

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-1-SoJef-OS-COG	<p>TEXAS GAS SERVICE COMPANY South Jefferson County Service Area - Gulf Coast Region RATE SCHEDULE NO. 1-1 COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7649

RATE SCHEDULESCHEDULE IDDESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7649

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

RATE SCHEDULE PSF
PIPELINE SAFETY AND REGULATORY PROGRAM FEES
TEXAS ADMINISTRATIVE CODE TITLE 16
ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS CHAPTER 8
PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
Rule Section8.201 Pipeline Safety and Regulatory Program Fees
(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7649

RATE SCHEDULESCHEDULE IDDESCRIPTION

Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

DESCRIPTION

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7650

RATE SCHEDULESCHEDULE IDDESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7650

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS CHAPTER 8
 PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
 Rule Section8.201 Pipeline Safety and Regulatory Program Fees
 (a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7650

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the

purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

1-1-INC-EPSvcA-IS-CO	<p>TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 1-1-INC COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed.</p> <p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.</p> <p>3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component,</p>

TARIFF CODE: DS RRC TARIFF NO: 7654

RATE SCHEDULESCHEDULE IDDESCRIPTION

Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also

TARIFF CODE: DS RRC TARIFF NO: 7654

RATE SCHEDULESCHEDULE IDDESCRIPTION

include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7654

RATE SCHEDULESCHEDULE IDDESCRIPTION

following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7654

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
(B) the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
(B) the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and

EPARR-ElPaso-IS

Texas Gas Service Company
Rate Schedule EPARR
El Paso Service Area - West Texas Region

El Paso Annual Rate Review

I. Purpose

This mechanism is designed to provide annual earnings transparency. All rate calculations under this tariff shall be made on an El Paso Service Area wide basis.

If, through the implementation of the provisions of this mechanism, it is determined that rates should be decreased or increased, then rates will be adjusted accordingly in the manner set forth herein. The rate adjustments implemented under this mechanism will reflect annual changes in the Company's cost of service and rate base. This Rider EPARR will be effective for the period commencing with the Company's first EPARR filing on or before April 15, 2014, and will remain in effect unless and until either the Company or the regulatory authority having original jurisdiction gives written notice to the contrary to the other by January 1 of the filing year. Upon receipt of such notice by either the Company or the regulatory authority having original jurisdiction, the Company shall prepare and file a Statement of Intent rate case with the regulatory authority within 180 days. Rates approved pursuant to this tariff shall remain in effect during the pendency of any Statement of Intent rate filing.

II. Definitions

a) The Filing Date shall occur on or before March 31 of each year with the exception of 2014, which shall have a Filing Date of April 15, 2014. The Annual Evaluation Date shall be the date the Company will make its annual filing under this mechanism. The Annual Evaluation Date shall, with the exception of 2014 be no earlier than March 1st nor later than March 31st of each year. This filing shall be made in electronic form where practicable.

b) Audited Financial Data shall mean the Company's books and records related to the Company's El Paso Service Area and shared services operations. Audited Financial Data shall not require the schedules and information provided under this tariff to undergo a separate financial audit by an outside auditing firm similar to the Company's annual financial audit.

c) The Company is defined as Texas Gas Service Company, a division of ONE Gas, Inc.

d) The Test Period is defined as the twelve-month period ending December 31, of each preceding calendar year. The Company's April 2014 filing will be based on the twelve-month period ending December 31, 2013.

e) The Rate Effective Period is defined as the twelve-month period commencing with the first billing cycle for August in each year and ending when subsequent rates are implemented under this tariff pursuant to a final order from a regulatory authority.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7654

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

f) Final Order is defined as the most recent general rate case final order establishing the Company's effective rates for customers within the City of El Paso.

g) El Paso Service Area means the incorporated areas of El Paso, Anthony, Clint, Horizon City, San Elizario, Socorro, and Vinton, as well as the surrounding unincorporated areas served by the Company.

III. Rate Review Mechanism

The Company shall file with the City of El Paso the schedules specified below for the Test Period, with the filing to be made by the Annual Evaluation Date following the end of the Test Period. The schedules will be based upon the Company's Audited Financial Data, as adjusted, and will include the following:

a) Test Period ending balances for actual gross plant in service, accumulated depreciation, accumulated deferred income taxes, inventory, and other rate base components, with the exception of working capital, will be used for the calculation of rates for the Rate Effective Period. The ratemaking treatments, principles, findings and adjustments included in the Final Order will apply except when a departure from those treatments, principles, findings or adjustments is justified by changed circumstances. Regulatory adjustments due to prior regulatory rate base adjustment disallowances will be maintained. In addition:

(i) Cash working capital to be included in rate base will be zero 0;

(ii) With respect to pension and other postemployment benefits, the Company will record a regulatory asset or liability for these costs until the amounts are included in the next annual rate adjustment implemented under this tariff. Each year, the Company's filing under this tariff will clearly state the level of pension and other postemployment benefits recovered in rates. In addition, the Company may maintain one or more reserve accounts as provided in Tex. Util. Code. Sec. 104.059, and treat any surplus or shortage in the reserve accounts in accordance with Tex. Util. Code. Sec. 104.059.

(iii) For rate making purposes, the calculation of Accumulated Deferred Income Taxes (ADIT) will be based on the original book basis and tax basis for assets placed in service under the ownership of Southern Union and the original book basis and tax basis for assets placed in service subsequent to the acquisition of Southern Union's assets. Company-generated net operating losses may be considered in calculating the ADIT balance, if appropriate.

b) Depreciation rates booked in the period will be those approved in the Final Order, or the depreciation rates most recently approved for the El Paso Service Area and for the Shared Services Division by the Railroad Commission of Texas, as applicable, if and only if the City of El Paso has the right to participate in a subsequent Railroad Commission of Texas proceeding with a full right to have its reasonable expenses reimbursed. All calculation methodologies will be those approved in the Final Order except where noted or included in this tariff.

c) Return on Equity (ROE) shall be maintained at 10.1%.

d) The cost of long-term debt will be the weighted cost of long-term debt for ONE Gas, Inc. determined at the end of the Test Period. The capital structure will be the ratio of long-term debt and equity determined at the end of the Test Period.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7654

RATE SCHEDULESCHEDULE IDDESCRIPTION

For purposes of the filing in April 2014, the long-term cost of debt will be determined at January 31, 2014. For purposes of the filing in April 2014, the Capital Structure for the filing in April 2014 shall be determined at January 31, 2014, but in no event shall the capital structure consist of more than 57% equity.

e) All applicable accounting adjustments along with all supporting work papers. Such adjustments may include:

- 1) Pro-forma adjustments to update and annualize costs and revenue billing determinants as of the end of the Test Period.
- 2) Pro-forma or other adjustments required to properly account for atypical, unusual, or nonrecurring events recorded during the Test Period.

f) Shared Services allocation factors shall be recalculated each year based on the latest component factors used during the Test Period, but the methodology used will be that approved in the Final Order.

IV. Calculation of Rate Adjustment

a) The Company shall provide additional schedules indicating the following revenue deficiency/sufficiency calculations using the class classification and allocation methodology accepted in the Final Order. The result shall be reflected in the proposed new rates to be established for the Rate Effective Period. In calculating the required rate adjustments, such adjustments will be applied to the minimum charge or customer charge if the rate class has no minimum charge.

b) All reasonable and necessary operation and maintenance expenses from the Test Period will be used for the calculation of rates for the Rate Effective Period. Such amounts shall be prepared consistent with the rate making treatments approved in the Final Order subject to an allowance that authorizes the inclusion of (1) reasonable cost of meals and travel incurred during the Test Period (as limited by Sec IX) and (2) 25% of the Company's long-term and short-term incentive compensation costs incurred during the Test Period. The Company may include in its operations and maintenance expense reasonable costs of Pipeline Integrity testing conducted after completion of the 2010-2014 test cycle. The Company may also adjust rates for the Rate Effective Period to include recovery of any known and measurable changes to operating and maintenance costs. Known and measurable adjustments shall be limited to those changes that have occurred prior to the Filing Date.

c) Effective with the Company's 2014 filing under this tariff, the Company may include in its rate base calculation all prudently incurred, direct, incremental investment and costs associated with Commission Rule 8.209.

d) The regulatory authority may disallow any net plant investment that is not shown to be prudently incurred. Approval by the regulatory authority of net plant investment pursuant to the provisions of this tariff shall be deemed prudent and not subject to further review. In determining whether investment was prudently incurred, the regulatory authority shall base its decision on a review that examines as fair, just and reasonable.

e) The Company shall provide a schedule demonstrating the proof of revenues relied upon to calculate the proposed rate for the Rate Effective Period. The proposed

GAS SERVICES DIVISION

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

rates shall conform as closely as is practicable to the revenue allocation principles approved in the Final Order except that any required increase or decrease shall be apportioned to the customer charge.

V. Attestation

A sworn statement shall be filed by an Officer of the Company affirming that the filed schedules are in compliance with the provisions of this mechanism and are true and correct to the best of his/her knowledge, information and belief. No testimony shall be filed, but a brief narrative explanation shall be provided of any changes to corporate structure, accounting methodologies or allocation of common costs.

VI. Evaluation Procedures

The City of El Paso shall have a minimum of 125 days to review and render a decision on the Company's filed schedules and work papers. The Company will be prepared to provide all supplemental information as may be requested to ensure adequate review by the relevant regulatory authority. The Company shall not unilaterally impose any limits upon the provision of supplemental information, with the exception of information claimed to be confidential, highly sensitive or proprietary, and such information shall be provided within ten (10) working days of the original request.

The regulatory authority may propose any adjustments it determines to be required to bring the schedules into compliance with the above provisions. Information claimed to be confidential, highly sensitive or proprietary shall be furnished to representatives of the Regulatory Authority pursuant to a confidentiality agreement in accordance with Texas Law.

During the 125 day period, the Company and the regulatory authority will work collaboratively and seek agreement on the proposed adjustments to the Company's schedule and proposed rates. If agreement has been reached by the Company and the regulatory authority, the regulatory authority shall authorize an increase or decrease to the Company's rates so as to achieve the revenue levels indicated for the Rate Effective Period. If, at the end of the 125 day period, the Company and the regulatory authority have not reached agreement on the proposed adjustments, the Company shall have the right to appeal the regulatory authority's action or inaction to the Railroad Commission of Texas. Upon the filing of an appeal of a city's order relating to an annual EPARR filing with the Railroad Commission of Texas, the regulatory authority shall not oppose the implementation of rates subject to refund or advocate the imposition of a third party surety bond by the Company.

To defray the cost, if any, of regulatory authority review of the Company's annual filing, the Company shall reimburse the regulatory authority for its reasonable expenses incurred upon submission of invoices for such review. The Company shall further be allowed to recover its reasonable and necessary expenses it incurs for outside services above any amounts included in the Test Year provided in connection with the annual filing subject to the review of the regulatory authority. Costs contemplated hereunder shall be deemed a reasonable and necessary operating expense of the Company in the year in which the reimbursement is made or the Company expense is incurred. A regulatory authority seeking reimbursement under this

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7654

RATE SCHEDULESCHEDULE IDDESCRIPTION

provision shall submit its request for reimbursement to the Company no later than September 1 of the year in which the annual filing is made and the Company shall reimburse the regulatory authority in accordance with this provision within 30 days of the submission.

VII. Reconsideration and Appeal

Orders issued pursuant to this mechanism are ratemaking orders and shall be subject to appeal under Sections 102.001(b) and 103.021, et seq., of the Texas Utilities Code (Vernon 2007).

VIII. Notice

Notice of this annual EPARR filing shall be provided by either: (1) including the notice, in conspicuous form, in the bill of each directly affected customer, or (2) sending the notice by email if the customer's bill is provided in this format no later than forty-five (45) days after the Company makes its annual filing pursuant to this tariff. The notice to customers shall include the following information:

- a) a description of the proposed revision of rates and schedules;
- b) the effect the proposed revision of rates is expected to have on the rates applicable to each customer class and on an average bill for each affected customer;
- c) the service area or areas in which the proposed rate adjustment would apply;
- d) the date the proposed rate adjustment was filed with the regulatory authority; and
- e) the Company's address, telephone number and website where information concerning the proposed rate adjustment may be obtained.

IX. EPARR Schedules and Information

The following types of employee reimbursed expenses and directly incurred costs are to be removed from all expense and rate base amounts included within Rider EPARR filings for the Test Period and for the Rate Effective Period: Amounts incurred for travel, meals or entertainment of employee spouses, domestic partners, significant others, children and pets.

Amounts for air travel that exceed published commercial coach air fares.

Amounts incurred for excessive rates for hotel rooms.

Amounts for alcoholic beverages.

Amounts paid for admission to entertainment, sports, art or cultural events, and all event sponsorship costs.

Amounts for social club dues or fees.

DESCRIPTION

IRA-EPSvcA-IS-IRAdj Meters Read On and After March 25, 2014 (City of El Paso only)
 TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE IRA El Paso Service Area - West Texas Region
 INTERIM RATE ADJUSTMENT

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro, and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, and T-1.

B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

2. The Company shall provide notice to customers by bill insert or direct mail not

TARIFF CODE: DS RRC TARIFF NO: 7654

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

PIT-EPSvcA-ISOS

TEXAS GAS SERVICE COMPANY
RATE SCHEDULE PIT
El Paso Service Area - West Texas Region
PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7654

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Demand		Total Testing Expense	x	Each Class' Total Demand of the Applicable Classes
_____	=	_____		

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class Testing Expense	=	Each Class' Total Allocated

48 Months		

Third, the total amount that is to be recovered on a monthly basis from each class

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7654

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge = Monthly Recovery from Each Class

_____ Estimated
Monthly Usage of Each Class

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7654

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

RATE SCHEDULESCHEDULE IDDESCRIPTION

RCE-Rider-EPSvcA-IS

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE RCE RIDER
 El Paso Service Area - Incorporated
 RATE CASE EXPENSE (RCE) SURCHARGE

A. APPLICABILITY

Pursuant to the Final Order in GUD No. 10016, the Rate Case Expense (RCE) Surcharge set forth in Section B. below shall apply to all gas sales customers (except special contract customers) located in that portion of the Company's El Paso Service Area (EPSA) that is within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas, including customers served under Rate Schedules 10, 20, 21, 25, 26, 27, 40, C-1, SS, and T-1.

B. RCE SURCHARGE

- The initial RCE Surcharge per Ccf for each billing period shall be: \$0.0053
- The RCE Surcharge per Ccf for each billing period from April 2013 - March 2014 shall be: \$0.0054

This rate, as adjusted pursuant to Section C. below, shall be designed to recover the approved level of Company and City rate case expenses of \$2,536,360.75 over a recovery period of three years. However, if the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, is collected in less than three years, then this Rider shall cease to be operable and the Company shall cease to apply the Rate Case Expense Surcharge. If the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, has not been collected by the end of the three-year recovery period, then this Rider shall remain in effect beyond the three-year recovery period only until all approved rate case expenses have been recovered under the applicable rate schedules, and any interest accruing on overrecoveries or underrecoveries has been recovered from or refunded or credited to the Company's customers.

C. OTHER ADJUSTMENTS

The applicable RCE Surcharge shall be adjusted annually to reflect interest on any underrecoveries or overrecoveries calculated at the Company's 6.21% cost of long-term debt as determined by the Railroad Commission of Texas in GUD No. 9988. In addition to the RCE Surcharge, applicable revenue-related taxes and fees, including franchise fees, shall also be recovered based on the revenue amounts collected hereunder.

D. ANNUAL COMPLIANCE FILING On or before February 21st following each calendar year in which an RCE Surcharge was applied to recover rate case expenses under this Rider, the Company shall file a written report with the Commission and the EPSA Cities showing the total amount of rate case expenses (including any adjustments made to reflect interest on overrecoveries or underrecoveries accruing to the Company or its customers) that (a) were recovered during the preceding calendar year, (b) have been cumulatively recovered since the effective date of the Rider, and (c) still remain to be recovered through the Rider pursuant to the Commission's Final Order in GUD No. 10016. The report shall also include a calculation of the RCE Surcharge that is to be applied during the ensuing recovery period.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-1-INC-EPSvcA-IS-CO	TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 1-1-INC COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area. B. DEFINITIONS 1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed. 2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period. 4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component,

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULESCHEDULE IDDESCRIPTION

Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULESCHEDULE IDDESCRIPTION

following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report

TEXAS GAS SERVICE COMPANY
El Paso Service Area - West Texas Region
RATE SCHEDULE 20
COMMERCIAL SERVICE RATE

APPLICABILITY

Applicable to all commercial consumers and to consumers not otherwise specifically provided for under any other rate schedule. This rate is only available to full requirements customers of Texas Gas Service Company.

TERRITORY

The incorporated areas of El Paso, Texas.

COST OF SERVICE RATE

During each monthly billing period:
A customer charge per meter per month of \$29.76 plus

All Ccf per monthly billing period @

The First 100 Ccf	No Charge
The Next 400 Ccf	\$.10901 per Ccf
The Next 2500 Ccf	.08901 per Ccf
All Over 3000 Ccf	.06901 per Ccf

Prompt Payment Provision: None. Above rates are net.

OTHER ADJUSTMENTS

Cost of Gas Component: In addition to the Cost of Service set forth above, each customer's bill shall include an amount equal to the Cost of Gas for the billing month as determined in accordance with Rate Schedule No. 1-1-INC multiplied by the total Ccf consumed during the billing month.

Taxes: Plus applicable taxes and fees (including franchise fees) related to above.

CONDITIONS

1. Subject in all respects to applicable laws, rules, and regulations from time to time in effect.

2. The applicability section of this rate notwithstanding, if a customer, other than a full requirements customer, pays a standby charge pursuant to Rate Schedule S.S., Texas Gas Service Company will maintain facilities and supply capability to serve said customer. If standby payments are current, the customer will qualify for this rate.

rate base. This Rider EPARR will be effective for the period commencing with the Company's first EPARR filing on or before April 15, 2014, and will remain in effect unless and until either the Company or the regulatory authority having original jurisdiction gives written notice to the contrary to the other by January 1 of the filing year. Upon receipt of such notice by either the Company or the regulatory authority having original jurisdiction, the Company shall prepare and file a Statement of Intent rate case with the regulatory authority within 180 days. Rates approved pursuant to this tariff shall remain in effect during the pendency of any Statement of Intent rate filing.

II. Definitions

a) The Filing Date shall occur on or before March 31 of each year with the exception of 2014, which shall have a Filing Date of April 15, 2014. The Annual Evaluation Date shall be the date the Company will make its annual filing under this mechanism. The Annual Evaluation Date shall, with the exception of 2014 be no earlier than March 1st nor later than March 31st of each year. This filing shall be made in electronic form where practicable.

b) Audited Financial Data shall mean the Company's books and records related to the Company's El Paso Service Area and shared services operations. Audited Financial Data shall not require the schedules and information provided under this tariff to undergo a separate financial audit by an outside auditing firm similar to the Company's annual financial audit.

c) The Company is defined as Texas Gas Service Company, a division of ONE Gas, Inc.

d) The Test Period is defined as the twelve-month period ending December 31, of each preceding calendar year. The Company's April 2014 filing will be based on the twelve-month period ending December 31, 2013.

e) The Rate Effective Period is defined as the twelve-month period commencing with the first billing cycle for August in each year and ending when subsequent rates are implemented under this tariff pursuant to a final order from a regulatory authority.

f) Final Order is defined as the most recent general rate case final order establishing the Company's effective rates for customers within the City of El Paso.

g) El Paso Service Area means the incorporated areas of El Paso, Anthony, Clint, Horizon City, San Elizario, Socorro, and Vinton, as well as the surrounding unincorporated areas served by the Company.

III. Rate Review Mechanism

The Company shall file with the City of El Paso the schedules specified below for the Test Period, with the filing to be made by the Annual Evaluation Date following the end of the Test Period. The schedules will be based upon the Company's Audited Financial Data, as adjusted, and will include the following:

a) Test Period ending balances for actual gross plant in service, accumulated

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULESCHEDULE IDDESCRIPTION

depreciation, accumulated deferred income taxes, inventory, and other rate base components, with the exception of working capital, will be used for the calculation of rates for the Rate Effective Period. The ratemaking treatments, principles, findings and adjustments included in the Final Order will apply except when a departure from those treatments, principles, findings or adjustments is justified by changed circumstances. Regulatory adjustments due to prior regulatory rate base adjustment disallowances will be maintained. In addition:

(i) Cash working capital to be included in rate base will be zero 0;

(ii) With respect to pension and other postemployment benefits, the Company will record a regulatory asset or liability for these costs until the amounts are included in the next annual rate adjustment implemented under this tariff. Each year, the Company's filing under this tariff will clearly state the level of pension and other postemployment benefits recovered in rates. In addition, the Company may maintain one or more reserve accounts as provided in Tex. Util. Code. Sec. 104.059, and treat any surplus or shortage in the reserve accounts in accordance with Tex. Util. Code. Sec. 104.059.

(iii) For rate making purposes, the calculation of Accumulated Deferred Income Taxes (ADIT) will be based on the original book basis and tax basis for assets placed in service under the ownership of Southern Union and the original book basis and tax basis for assets placed in service subsequent to the acquisition of Southern Union's assets. Company-generated net operating losses may be considered in calculating the ADIT balance, if appropriate.

b) Depreciation rates booked in the period will be those approved in the Final Order, or the depreciation rates most recently approved for the El Paso Service Area and for the Shared Services Division by the Railroad Commission of Texas, as applicable, if and only if the City of El Paso has the right to participate in a subsequent Railroad Commission of Texas proceeding with a full right to have its reasonable expenses reimbursed. All calculation methodologies will be those approved in the Final Order except where noted or included in this tariff.

c) Return on Equity (ROE) shall be maintained at 10.1%.

d) The cost of long-term debt will be the weighted cost of long-term debt for ONE Gas, Inc. determined at the end of the Test Period. The capital structure will be the ratio of long-term debt and equity determined at the end of the Test Period. For purposes of the filing in April 2014, the long-term cost of debt will be determined at January 31, 2014. For purposes of the filing in April 2014, the Capital Structure for the filing in April 2014 shall be determined at January 31, 2014, but in no event shall the capital structure consist of more than 57% equity.

e) All applicable accounting adjustments along with all supporting work papers. Such adjustments may include:

1) Pro-forma adjustments to update and annualize costs and revenue billing determinants as of the end of the Test Period.

2) Pro-forma or other adjustments required to properly account for atypical, unusual, or nonrecurring events recorded during the Test Period.

f) Shared Services allocation factors shall be recalculated each year based on the latest component factors used during the Test Period, but the methodology used will be that approved in the Final Order.

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULESCHEDULE IDDESCRIPTION

IV. Calculation of Rate Adjustment

a) The Company shall provide additional schedules indicating the following revenue deficiency/sufficiency calculations using the class classification and allocation methodology accepted in the Final Order. The result shall be reflected in the proposed new rates to be established for the Rate Effective Period. In calculating the required rate adjustments, such adjustments will be applied to the minimum charge or customer charge if the rate class has no minimum charge.

b) All reasonable and necessary operation and maintenance expenses from the Test Period will be used for the calculation of rates for the Rate Effective Period. Such amounts shall be prepared consistent with the rate making treatments approved in the Final Order subject to an allowance that authorizes the inclusion of (1) reasonable cost of meals and travel incurred during the Test Period (as limited by Sec IX) and (2) 25% of the Company's long-term and short-term incentive compensation costs incurred during the Test Period. The Company may include in its operations and maintenance expense reasonable costs of Pipeline Integrity testing conducted after completion of the 2010-2014 test cycle. The Company may also adjust rates for the Rate Effective Period to include recovery of any known and measurable changes to operating and maintenance costs. Known and measurable adjustments shall be limited to those changes that have occurred prior to the Filing Date.

c) Effective with the Company's 2014 filing under this tariff, the Company may include in its rate base calculation all prudently incurred, direct, incremental investment and costs associated with Commission Rule 8.209.

d) The regulatory authority may disallow any net plant investment that is not shown to be prudently incurred. Approval by the regulatory authority of net plant investment pursuant to the provisions of this tariff shall be deemed prudent and not subject to further review. In determining whether investment was prudently incurred, the regulatory authority shall base its decision on a review that examines as fair, just and reasonable.

e) The Company shall provide a schedule demonstrating the proof of revenues relied upon to calculate the proposed rate for the Rate Effective Period. The proposed rates shall conform as closely as is practicable to the revenue allocation principles approved in the Final Order except that any required increase or decrease shall be apportioned to the customer charge.

V. Attestation

A sworn statement shall be filed by an Officer of the Company affirming that the filed schedules are in compliance with the provisions of this mechanism and are true and correct to the best of his/her knowledge, information and belief. No testimony shall be filed, but a brief narrative explanation shall be provided of any changes to corporate structure, accounting methodologies or allocation of common costs.

VI. Evaluation Procedures

The City of El Paso shall have a minimum of 125 days to review and render a decision on the Company's filed schedules and work papers. The Company will be prepared to provide all supplemental information as may be requested to ensure

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULESCHEDULE IDDESCRIPTION

adequate review by the relevant regulatory authority. The Company shall not unilaterally impose any limits upon the provision of supplemental information, with the exception of information claimed to be confidential, highly sensitive or proprietary, and such information shall be provided within ten (10) working days of the original request.

The regulatory authority may propose any adjustments it determines to be required to bring the schedules into compliance with the above provisions. Information claimed to be confidential, highly sensitive or proprietary shall be furnished to representatives of the Regulatory Authority pursuant to a confidentiality agreement in accordance with Texas Law.

During the 125 day period, the Company and the regulatory authority will work collaboratively and seek agreement on the proposed adjustments to the Company's schedule and proposed rates. If agreement has been reached by the Company and the regulatory authority, the regulatory authority shall authorize an increase or decrease to the Company's rates so as to achieve the revenue levels indicated for the Rate Effective Period. If, at the end of the 125 day period, the Company and the regulatory authority have not reached agreement on the proposed adjustments, the Company shall have the right to appeal the regulatory authority's action or inaction to the Railroad Commission of Texas. Upon the filing of an appeal of a city's order relating to an annual EPARR filing with the Railroad Commission of Texas, the regulatory authority shall not oppose the implementation of rates subject to refund or advocate the imposition of a third party surety bond by the Company.

To defray the cost, if any, of regulatory authority review of the Company's annual filing, the Company shall reimburse the regulatory authority for its reasonable expenses incurred upon submission of invoices for such review. The Company shall further be allowed to recover its reasonable and necessary expenses it incurs for outside services above any amounts included in the Test Year provided in connection with the annual filing subject to the review of the regulatory authority. Costs contemplated hereunder shall be deemed a reasonable and necessary operating expense of the Company in the year in which the reimbursement is made or the Company expense is incurred. A regulatory authority seeking reimbursement under this provision shall submit its request for reimbursement to the Company no later than September 1 of the year in which the annual filing is made and the Company shall reimburse the regulatory authority in accordance with this provision within 30 days of the submission.

VII. Reconsideration and Appeal

Orders issued pursuant to this mechanism are ratemaking orders and shall be subject to appeal under Sections 102.001(b) and 103.021, et seq., of the Texas Utilities Code (Vernon 2007).

VIII. Notice

Notice of this annual EPARR filing shall be provided by either: (1) including the notice, in conspicuous form, in the bill of each directly affected customer, or (2) sending the notice by email if the customer's bill is provided in this format no later than forty-five (45) days after the Company makes its annual filing pursuant to this tariff. The notice to customers shall include the following information:

GAS SERVICES DIVISION

DESCRIPTION

- a) a description of the proposed revision of rates and schedules;
- b) the effect the proposed revision of rates is expected to have on the rates applicable to each customer class and on an average bill for each affected customer;
- c) the service area or areas in which the proposed rate adjustment would apply;
- d) the date the proposed rate adjustment was filed with the regulatory authority; and
- e) the Company's address, telephone number and website where information concerning the proposed rate adjustment may be obtained.

IX. EPARR Schedules and Information

The following types of employee reimbursed expenses and directly incurred costs are to be removed from all expense and rate base amounts included within Rider EPARR filings for the Test Period and for the Rate Effective Period: Amounts incurred for travel, meals or entertainment of employee spouses, domestic partners, significant others, children and pets.

Amounts for air travel that exceed published commercial coach air fares.

Amounts incurred for excessive rates for hotel rooms.

Amounts for alcoholic beverages.

Amounts paid for admission to entertainment, sports, art or cultural events, and all event sponsorship costs.

Amounts for social club dues or fees.

Meters Read On and After March 25, 2014 (City of El Paso only)

IRA-EPSvcA-IS-IRAdj

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE IRA El Paso Service Area - West Texas Region
 INTERIM RATE ADJUSTMENT

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro, and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, and T-1.

B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULESCHEDULE IDDESCRIPTION

shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.
2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.
3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.
4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.
5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

PIT-EPSvcA-ISOS

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE PIT
 El Paso Service Area - West Texas Region
 PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Demand		Total Testing Expense	x		Each Class' Total Demand of the Applicable Classes
------------------------------------	--	-----------------------	---	--	--

Testing Expense	=	Expense	x		Total Demand of the Applicable Classes
-----------------	---	---------	---	--	--

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class Testing Expense			=		Each Class' Total Allocated Testing Expense
--	--	--	---	--	---

48 Months

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge			=		Monthly Recovery from Each Class
---------------------------	--	--	---	--	----------------------------------

Monthly Usage of Each Class					Estimated
-----------------------------	--	--	--	--	-----------

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULESCHEDULE IDDESCRIPTION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly

DESCRIPTION

addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS CHAPTER 8
PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
Rule Section 8.201 Pipeline Safety and Regulatory Program Fees
(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULESCHEDULE IDDESCRIPTION

to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission;
- (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULESCHEDULE IDDESCRIPTION

the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RCE-Rider-EPSvcA-IS

TEXAS GAS SERVICE COMPANY
RATE SCHEDULE RCE RIDER
El Paso Service Area - Incorporated
RATE CASE EXPENSE (RCE) SURCHARGE

A. APPLICABILITY

Pursuant to the Final Order in GUD No. 10016, the Rate Case Expense (RCE) Surcharge set forth in Section B. below shall apply to all gas sales customers (except special contract customers) located in that portion of the Company's El Paso Service Area (EPSA) that is within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas, including customers served under Rate Schedules 10, 20, 21, 25, 26, 27, 40, C-1, SS, and T-1.

B. RCE SURCHARGE

- The initial RCE Surcharge per Ccf for each billing period shall be: \$0.0053
- The RCE Surcharge per Ccf for each billing period from April 2013 - March 2014 shall be: \$0.0054

This rate, as adjusted pursuant to Section C. below, shall be designed to recover the approved level of Company and City rate case expenses of \$2,536,360.75 over a recovery period of three years. However, if the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, is collected in less than three years, then this Rider shall cease to be operable and the Company shall cease to apply the Rate Case Expense Surcharge. If the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, has not been collected by the end of the three-year recovery period, then this Rider shall remain in effect beyond the three-year recovery period only until all approved rate case expenses have been recovered under the applicable rate schedules, and any interest accruing on overrecoveries or underrecoveries has been recovered from or refunded or credited to the Company's customers.

C. OTHER ADJUSTMENTS

The applicable RCE Surcharge shall be adjusted annually to reflect interest on any underrecoveries or overrecoveries calculated at the Company's 6.21% cost of long-term debt as determined by the Railroad Commission of Texas in GUD No. 9988. In addition to the RCE Surcharge, applicable revenue-related taxes and fees, including franchise fees, shall also be recovered based on the revenue amounts collected hereunder.

D. ANNUAL COMPLIANCE FILING On or before February 21st following each calendar year in which an RCE Surcharge was applied to recover rate case expenses under this Rider, the Company shall file a written report with the Commission and the EPSA

SCHEDULE ID	DESCRIPTION
1-1-INC-EPSvcA-IS-CO	<p>TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 1-1-INC COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed.</p> <p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.</p> <p>3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component,</p>

DESCRIPTION

Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also

TARIFF CODE: DS RRC TARIFF NO: 7656

RATE SCHEDULESCHEDULE IDDESCRIPTION

include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the

RATE SCHEDULESCHEDULE IDDESCRIPTION

following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report

RATE SCHEDULE EDR
ECONOMIC DEVELOPMENT RATE

A. APPLICABILITY

This Economic Development Rate (EDR) rate schedule shall apply to the following rate schedules for the incorporated areas of the El Paso Service Area: 10, 20, 21, 25, 26, 27, 40, C-1 and T-1.

B. TERRITORY Incorporated Areas of the El Paso Service Area - Cities of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas

C. PURPOSE This rate schedule provides for the recovery of costs that TGS incurs related to economic development in the El Paso Service Area. Successful economic development will only occur to the extent that the community and its corporate partners provide the necessary support to attract new businesses and industries to this region. New businesses and industries will increase employment, spur growth and local business expansion, create a more robust economy and improve the quality of life for the region.

D. EDR RATE The EDR rate:

During each Monthly Billing Period All Ccf @ \$.002 per Ccf

All applicable fees and taxes will be added to the EDR rates. D. BILLING 1. The EDR rate shall be included as a component of the Company's Cost of Gas (per Ccf rate) for rate schedules: 10, 20, 21, 22, 25, 26, 27, 40 and C-1. 2. The EDR rate shall be added to the applicable cost of service usage charge (per Ccf rate) for rate schedules: T-1.

El Paso Annual Rate Review

I. Purpose

This mechanism is designed to provide annual earnings transparency. All rate calculations under this tariff shall be made on an El Paso Service Area wide basis.

If, through the implementation of the provisions of this mechanism, it is determined that rates should be decreased or increased, then rates will be adjusted accordingly in the manner set forth herein. The rate adjustments implemented under this mechanism will reflect annual changes in the Company's cost of service and rate base. This Rider EPARR will be effective for the period commencing with the Company's first EPARR filing on or before April 15, 2014, and will remain in effect unless and until either the Company or the regulatory authority having original jurisdiction gives written notice to the contrary to the other by January 1 of the filing year. Upon receipt of such notice by either the Company or the regulatory authority having original jurisdiction, the Company shall prepare and file a Statement of Intent rate case with the regulatory authority within 180 days. Rates approved pursuant to this tariff shall remain in effect during the pendency of any Statement of Intent rate filing.

II. Definitions

a) The Filing Date shall occur on or before March 31 of each year with the exception of 2014, which shall have a Filing Date of April 15, 2014. The Annual Evaluation Date shall be the date the Company will make its annual filing under this mechanism. The Annual Evaluation Date shall, with the exception of 2014 be no earlier than March 1st nor later than March 31st of each year. This filing shall be made in electronic form where practicable.

b) Audited Financial Data shall mean the Company's books and records related to the Company's El Paso Service Area and shared services operations. Audited Financial Data shall not require the schedules and information provided under this tariff to undergo a separate financial audit by an outside auditing firm similar to the Company's annual financial audit.

c) The Company is defined as Texas Gas Service Company, a division of ONE Gas, Inc.

d) The Test Period is defined as the twelve-month period ending December 31, of each preceding calendar year. The Company's April 2014 filing will be based on the twelve-month period ending December 31, 2013.

e) The Rate Effective Period is defined as the twelve-month period commencing with the first billing cycle for August in each year and ending when subsequent rates are implemented under this tariff pursuant to a final order from a regulatory authority.

f) Final Order is defined as the most recent general rate case final order establishing the Company's effective rates for customers within the City of El Paso.

g) El Paso Service Area means the incorporated areas of El Paso, Anthony, Clint,

TARIFF CODE: DS RRC TARIFF NO: 7656

RATE SCHEDULESCHEDULE IDDESCRIPTION

Horizon City, San Elizario, Socorro, and Vinton, as well as the surrounding unincorporated areas served by the Company.

III. Rate Review Mechanism

The Company shall file with the City of El Paso the schedules specified below for the Test Period, with the filing to be made by the Annual Evaluation Date following the end of the Test Period. The schedules will be based upon the Company's Audited Financial Data, as adjusted, and will include the following:

a) Test Period ending balances for actual gross plant in service, accumulated depreciation, accumulated deferred income taxes, inventory, and other rate base components, with the exception of working capital, will be used for the calculation of rates for the Rate Effective Period. The ratemaking treatments, principles, findings and adjustments included in the Final Order will apply except when a departure from those treatments, principles, findings or adjustments is justified by changed circumstances. Regulatory adjustments due to prior regulatory rate base adjustment disallowances will be maintained. In addition:

(i) Cash working capital to be included in rate base will be zero 0;

(ii) With respect to pension and other postemployment benefits, the Company will record a regulatory asset or liability for these costs until the amounts are included in the next annual rate adjustment implemented under this tariff. Each year, the Company's filing under this tariff will clearly state the level of pension and other postemployment benefits recovered in rates. In addition, the Company may maintain one or more reserve accounts as provided in Tex. Util. Code. Sec. 104.059, and treat any surplus or shortage in the reserve accounts in accordance with Tex. Util. Code. Sec. 104.059.

(iii) For rate making purposes, the calculation of Accumulated Deferred Income Taxes (ADIT) will be based on the original book basis and tax basis for assets placed in service under the ownership of Southern Union and the original book basis and tax basis for assets placed in service subsequent to the acquisition of Southern Union's assets. Company-generated net operating losses may be considered in calculating the ADIT balance, if appropriate.

b) Depreciation rates booked in the period will be those approved in the Final Order, or the depreciation rates most recently approved for the El Paso Service Area and for the Shared Services Division by the Railroad Commission of Texas, as applicable, if and only if the City of El Paso has the right to participate in a subsequent Railroad Commission of Texas proceeding with a full right to have its reasonable expenses reimbursed. All calculation methodologies will be those approved in the Final Order except where noted or included in this tariff.

c) Return on Equity (ROE) shall be maintained at 10.1%.

d) The cost of long-term debt will be the weighted cost of long-term debt for ONE Gas, Inc. determined at the end of the Test Period. The capital structure will be the ratio of long-term debt and equity determined at the end of the Test Period. For purposes of the filing in April 2014, the long-term cost of debt will be determined at January 31, 2014. For purposes of the filing in April 2014, the Capital Structure for the filing in April 2014 shall be determined at January 31, 2014, but in no event shall the capital structure consist of more than 57% equity.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7656

RATE SCHEDULESCHEDULE IDDESCRIPTION

e) All applicable accounting adjustments along with all supporting work papers. Such adjustments may include:

- 1) Pro-forma adjustments to update and annualize costs and revenue billing determinants as of the end of the Test Period.
- 2) Pro-forma or other adjustments required to properly account for atypical, unusual, or nonrecurring events recorded during the Test Period.

f) Shared Services allocation factors shall be recalculated each year based on the latest component factors used during the Test Period, but the methodology used will be that approved in the Final Order.

IV. Calculation of Rate Adjustment

a) The Company shall provide additional schedules indicating the following revenue deficiency/sufficiency calculations using the class classification and allocation methodology accepted in the Final Order. The result shall be reflected in the proposed new rates to be established for the Rate Effective Period. In calculating the required rate adjustments, such adjustments will be applied to the minimum charge or customer charge if the rate class has no minimum charge.

b) All reasonable and necessary operation and maintenance expenses from the Test Period will be used for the calculation of rates for the Rate Effective Period. Such amounts shall be prepared consistent with the rate making treatments approved in the Final Order subject to an allowance that authorizes the inclusion of (1) reasonable cost of meals and travel incurred during the Test Period (as limited by Sec IX) and (2) 25% of the Company's long-term and short-term incentive compensation costs incurred during the Test Period. The Company may include in its operations and maintenance expense reasonable costs of Pipeline Integrity testing conducted after completion of the 2010-2014 test cycle. The Company may also adjust rates for the Rate Effective Period to include recovery of any known and measurable changes to operating and maintenance costs. Known and measurable adjustments shall be limited to those changes that have occurred prior to the Filing Date.

c) Effective with the Company's 2014 filing under this tariff, the Company may include in its rate base calculation all prudently incurred, direct, incremental investment and costs associated with Commission Rule 8.209.

d) The regulatory authority may disallow any net plant investment that is not shown to be prudently incurred. Approval by the regulatory authority of net plant investment pursuant to the provisions of this tariff shall be deemed prudent and not subject to further review. In determining whether investment was prudently incurred, the regulatory authority shall base its decision on a review that examines as fair, just and reasonable.

e) The Company shall provide a schedule demonstrating the proof of revenues relied upon to calculate the proposed rate for the Rate Effective Period. The proposed rates shall conform as closely as is practicable to the revenue allocation principles approved in the Final Order except that any required increase or decrease shall be apportioned to the customer charge.

V. Attestation

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7656

RATE SCHEDULESCHEDULE IDDESCRIPTION

A sworn statement shall be filed by an Officer of the Company affirming that the filed schedules are in compliance with the provisions of this mechanism and are true and correct to the best of his/her knowledge, information and belief. No testimony shall be filed, but a brief narrative explanation shall be provided of any changes to corporate structure, accounting methodologies or allocation of common costs.

VI. Evaluation Procedures

The City of El Paso shall have a minimum of 125 days to review and render a decision on the Company's filed schedules and work papers. The Company will be prepared to provide all supplemental information as may be requested to ensure adequate review by the relevant regulatory authority. The Company shall not unilaterally impose any limits upon the provision of supplemental information, with the exception of information claimed to be confidential, highly sensitive or proprietary, and such information shall be provided within ten (10) working days of the original request.

The regulatory authority may propose any adjustments it determines to be required to bring the schedules into compliance with the above provisions. Information claimed to be confidential, highly sensitive or proprietary shall be furnished to representatives of the Regulatory Authority pursuant to a confidentiality agreement in accordance with Texas Law.

During the 125 day period, the Company and the regulatory authority will work collaboratively and seek agreement on the proposed adjustments to the Company's schedule and proposed rates. If agreement has been reached by the Company and the regulatory authority, the regulatory authority shall authorize an increase or decrease to the Company's rates so as to achieve the revenue levels indicated for the Rate Effective Period. If, at the end of the 125 day period, the Company and the regulatory authority have not reached agreement on the proposed adjustments, the Company shall have the right to appeal the regulatory authority's action or inaction to the Railroad Commission of Texas. Upon the filing of an appeal of a city's order relating to an annual EPARR filing with the Railroad Commission of Texas, the regulatory authority shall not oppose the implementation of rates subject to refund or advocate the imposition of a third party surety bond by the Company.

To defray the cost, if any, of regulatory authority review of the Company's annual filing, the Company shall reimburse the regulatory authority for its reasonable expenses incurred upon submission of invoices for such review. The Company shall further be allowed to recover its reasonable and necessary expenses it incurs for outside services above any amounts included in the Test Year provided in connection with the annual filing subject to the review of the regulatory authority. Costs contemplated hereunder shall be deemed a reasonable and necessary operating expense of the Company in the year in which the reimbursement is made or the Company expense is incurred. A regulatory authority seeking reimbursement under this provision shall submit its request for reimbursement to the Company no later than September 1 of the year in which the annual filing is made and the Company shall reimburse the regulatory authority in accordance with this provision within 30 days of the submission.

DESCRIPTION

VII. Reconsideration and Appeal
Orders issued pursuant to this mechanism are ratemaking orders and shall be subject to appeal under Sections 102.001(b) and 103.021, et seq., of the Texas Utilities Code (Vernon 2007).

VIII. Notice
Notice of this annual EPARR filing shall be provided by either: (1) including the notice, in conspicuous form, in the bill of each directly affected customer, or (2) sending the notice by email if the customer's bill is provided in this format no later than forty-five (45) days after the Company makes its annual filing pursuant to this tariff. The notice to customers shall include the following information:

- a) a description of the proposed revision of rates and schedules;
- b) the effect the proposed revision of rates is expected to have on the rates applicable to each customer class and on an average bill for each affected customer;
- c) the service area or areas in which the proposed rate adjustment would apply;
- d) the date the proposed rate adjustment was filed with the regulatory authority; and
- e) the Company's address, telephone number and website where information concerning the proposed rate adjustment may be obtained.

IX. EPARR Schedules and Information
The following types of employee reimbursed expenses and directly incurred costs are to be removed from all expense and rate base amounts included within Rider EPARR filings for the Test Period and for the Rate Effective Period: Amounts incurred for travel, meals or entertainment of employee spouses, domestic partners, significant others, children and pets.

Amounts for air travel that exceed published commercial coach air fares.

Amounts incurred for excessive rates for hotel rooms.

Amounts for alcoholic beverages.

Amounts paid for admission to entertainment, sports, art or cultural events, and all event sponsorship costs.

Amounts for social club dues or fees.

IRA-EPSvcA-IS-IRAdj

TEXAS GAS SERVICE COMPANY
RATE SCHEDULE IRA El Paso Service Area - West Texas Region
INTERIM RATE ADJUSTMENT

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7656

RATE SCHEDULESCHEDULE IDDESCRIPTION

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro, and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, and T-1.

B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding

TARIFF CODE: DS RRC TARIFF NO: 7656

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

PIT-EPSvcA-ISOS

TEXAS GAS SERVICE COMPANY
RATE SCHEDULE PIT
El Paso Service Area - West Texas Region
PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval

DESCRIPTION

(CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Demand		Total Testing Expense	x	Total Demand of the	
	=				

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class Testing Expense	=	Each Class' Total Allocated

48 Months

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge Class	=	Monthly Recovery from Each Class

Estimated
 Monthly Usage of Each Class

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the

DESCRIPTION

testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

SCHEDULE IDDESCRIPTION

TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS CHAPTER 8
 PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7656

RATE SCHEDULESCHEDULE IDDESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

RCE-Rider-EPSvcA-IS

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE RCE RIDER
 El Paso Service Area - Incorporated
 RATE CASE EXPENSE (RCE) SURCHARGE

A. APPLICABILITY

Pursuant to the Final Order in GUD No. 10016, the Rate Case Expense (RCE) Surcharge set forth in Section B. below shall apply to all gas sales customers (except special contract customers) located in that portion of the Company's El Paso Service Area (EPSA) that is within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas, including customers served under Rate Schedules 10, 20, 21, 25, 26, 27, 40, C-1, SS, and T-1.

B. RCE SURCHARGE

- The initial RCE Surcharge per Ccf for each billing period shall be: \$0.0053
- The RCE Surcharge per Ccf for each billing period from April 2013 - March 2014 shall be: \$0.0054

This rate, as adjusted pursuant to Section C. below, shall be designed to recover the approved level of Company and City rate case expenses of \$2,536,360.75 over a recovery period of three years. However, if the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, is collected in less than three years, then this Rider shall cease to be operable and the Company shall cease to apply the Rate Case Expense Surcharge. If the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, has not been collected by the end of the three-year recovery period, then this Rider shall remain in effect beyond the three-year recovery period only until all approved rate case expenses have been recovered under the applicable rate schedules, and any interest accruing on overrecoveries or underrecoveries has been recovered from or refunded or credited to the Company's customers.

DESCRIPTION

C. OTHER ADJUSTMENTS

The applicable RCE Surcharge shall be adjusted annually to reflect interest on any underrecoveries or overrecoveries calculated at the Company's 6.21% cost of long-term debt as determined by the Railroad Commission of Texas in GUD No. 9988. In addition to the RCE Surcharge, applicable revenue-related taxes and fees, including franchise fees, shall also be recovered based on the revenue amounts collected hereunder.

D. ANNUAL COMPLIANCE FILING On or before February 21st following each calendar year in which an RCE Surcharge was applied to recover rate case expenses under this Rider, the Company shall file a written report with the Commission and the EPSCA Cities showing the total amount of rate case expenses (including any adjustments made to reflect interest on overrecoveries or underrecoveries accruing to the Company or its customers) that (a) were recovered during the preceding calendar year, (b) have been cumulatively recovered since the effective date of the Rider, and (c) still remain to be recovered through the Rider pursuant to the Commission's Final Order in GUD No. 10016. The report shall also include a calculation of the RCE Surcharge that is to be applied during the ensuing recovery period.

E. CONDITIONS Service under this rate schedule shall be subject to all applicable laws and orders and to the Company's rules and regulations on file with the regulatory authority.

EPARR-ElPaso-IS	<p>Texas Gas Service Company Rate Schedule EPARR El Paso Service Area - West Texas Region</p> <p>El Paso Annual Rate Review</p> <p>I. Purpose</p> <p>This mechanism is designed to provide annual earnings transparency. All rate calculations under this tariff shall be made on an El Paso Service Area wide basis. If, through the implementation of the provisions of this mechanism, it is determined that rates should be decreased or increased, then rates will be adjusted accordingly in the manner set forth herein. The rate adjustments implemented under this mechanism will reflect annual changes in the Company's cost of service and rate base. This Rider EPARR will be effective for the period commencing with the Company's first EPARR filing on or before April 15, 2014, and will remain in effect unless and until either the Company or the regulatory authority having original jurisdiction gives written notice to the contrary to the other by January 1 of the filing year. Upon receipt of such notice by either the Company or the regulatory authority having original jurisdiction, the Company shall prepare and file a Statement of Intent rate case with the regulatory authority within 180 days. Rates approved pursuant to this tariff shall remain in effect during the pendency of any Statement of Intent rate filing.</p> <p>II. Definitions</p> <p>a) The Filing Date shall occur on or before March 31 of each year with the exception of 2014, which shall have a Filing Date of April 15, 2014. The Annual Evaluation Date shall be the date the Company will make its annual filing under this mechanism. The Annual Evaluation Date shall, with the exception of 2014 be no earlier than March 1st nor later than March 31st of each year. This filing shall be made in electronic form where practicable.</p> <p>b) Audited Financial Data shall mean the Company's books and records related to the Company's El Paso Service Area and shared services operations. Audited Financial Data shall not require the schedules and information provided under this tariff to undergo a separate financial audit by an outside auditing firm similar to the Company's annual financial audit.</p> <p>c) The Company is defined as Texas Gas Service Company, a division of ONE Gas, Inc.</p> <p>d) The Test Period is defined as the twelve-month period ending December 31, of each preceding calendar year. The Company's April 2014 filing will be based on the twelve-month period ending December 31, 2013.</p> <p>e) The Rate Effective Period is defined as the twelve-month period commencing with the first billing cycle for August in each year and ending when subsequent rates</p>

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7657

RATE SCHEDULESCHEDULE IDDESCRIPTION

are implemented under this tariff pursuant to a final order from a regulatory authority.

f) Final Order is defined as the most recent general rate case final order establishing the Company's effective rates for customers within the City of El Paso.

g) El Paso Service Area means the incorporated areas of El Paso, Anthony, Clint, Horizon City, San Elizario, Socorro, and Vinton, as well as the surrounding unincorporated areas served by the Company.

III. Rate Review Mechanism

The Company shall file with the City of El Paso the schedules specified below for the Test Period, with the filing to be made by the Annual Evaluation Date following the end of the Test Period. The schedules will be based upon the Company's Audited Financial Data, as adjusted, and will include the following:

a) Test Period ending balances for actual gross plant in service, accumulated depreciation, accumulated deferred income taxes, inventory, and other rate base components, with the exception of working capital, will be used for the calculation of rates for the Rate Effective Period. The ratemaking treatments, principles, findings and adjustments included in the Final Order will apply except when a departure from those treatments, principles, findings or adjustments is justified by changed circumstances. Regulatory adjustments due to prior regulatory rate base adjustment disallowances will be maintained. In addition:

(i) Cash working capital to be included in rate base will be zero 0;

(ii) With respect to pension and other postemployment benefits, the Company will record a regulatory asset or liability for these costs until the amounts are included in the next annual rate adjustment implemented under this tariff. Each year, the Company's filing under this tariff will clearly state the level of pension and other postemployment benefits recovered in rates. In addition, the Company may maintain one or more reserve accounts as provided in Tex. Util. Code. Sec. 104.059, and treat any surplus or shortage in the reserve accounts in accordance with Tex. Util. Code. Sec. 104.059.

(iii) For rate making purposes, the calculation of Accumulated Deferred Income Taxes (ADIT) will be based on the original book basis and tax basis for assets placed in service under the ownership of Southern Union and the original book basis and tax basis for assets placed in service subsequent to the acquisition of Southern Union's assets. Company-generated net operating losses may be considered in calculating the ADIT balance, if appropriate.

b) Depreciation rates booked in the period will be those approved in the Final Order, or the depreciation rates most recently approved for the El Paso Service Area and for the Shared Services Division by the Railroad Commission of Texas, as applicable, if and only if the City of El Paso has the right to participate in a subsequent Railroad Commission of Texas proceeding with a full right to have its reasonable expenses reimbursed. All calculation methodologies will be those approved in the Final Order except where noted or included in this tariff.

c) Return on Equity (ROE) shall be maintained at 10.1%.

DESCRIPTION

d) The cost of long-term debt will be the weighted cost of long-term debt for ONE Gas, Inc. determined at the end of the Test Period. The capital structure will be the ratio of long-term debt and equity determined at the end of the Test Period. For purposes of the filing in April 2014, the long-term cost of debt will be determined at January 31, 2014. For purposes of the filing in April 2014, the Capital Structure for the filing in April 2014 shall be determined at January 31, 2014, but in no event shall the capital structure consist of more than 57% equity.

e) All applicable accounting adjustments along with all supporting work papers. Such adjustments may include:

- 1) Pro-forma adjustments to update and annualize costs and revenue billing determinants as of the end of the Test Period.
- 2) Pro-forma or other adjustments required to properly account for atypical, unusual, or nonrecurring events recorded during the Test Period.

f) Shared Services allocation factors shall be recalculated each year based on the latest component factors used during the Test Period, but the methodology used will be that approved in the Final Order.

IV. Calculation of Rate Adjustment

a) The Company shall provide additional schedules indicating the following revenue deficiency/sufficiency calculations using the class classification and allocation methodology accepted in the Final Order. The result shall be reflected in the proposed new rates to be established for the Rate Effective Period. In calculating the required rate adjustments, such adjustments will be applied to the minimum charge or customer charge if the rate class has no minimum charge.

b) All reasonable and necessary operation and maintenance expenses from the Test Period will be used for the calculation of rates for the Rate Effective Period. Such amounts shall be prepared consistent with the rate making treatments approved in the Final Order subject to an allowance that authorizes the inclusion of (1) reasonable cost of meals and travel incurred during the Test Period (as limited by Sec IX) and (2) 25% of the Company's long-term and short-term incentive compensation costs incurred during the Test Period. The Company may include in its operations and maintenance expense reasonable costs of Pipeline Integrity testing conducted after completion of the 2010-2014 test cycle. The Company may also adjust rates for the Rate Effective Period to include recovery of any known and measurable changes to operating and maintenance costs. Known and measurable adjustments shall be limited to those changes that have occurred prior to the Filing Date.

c) Effective with the Company's 2014 filing under this tariff, the Company may include in its rate base calculation all prudently incurred, direct, incremental investment and costs associated with Commission Rule 8.209.

d) The regulatory authority may disallow any net plant investment that is not shown to be prudently incurred. Approval by the regulatory authority of net plant investment pursuant to the provisions of this tariff shall be deemed prudent and not subject to further review. In determining whether investment was prudently incurred, the regulatory authority shall base its decision on a review that examines as fair, just and reasonable.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7657

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

e) The Company shall provide a schedule demonstrating the proof of revenues relied upon to calculate the proposed rate for the Rate Effective Period. The proposed rates shall conform as closely as is practicable to the revenue allocation principles approved in the Final Order except that any required increase or decrease shall be apportioned to the customer charge.

V. Attestation

A sworn statement shall be filed by an Officer of the Company affirming that the filed schedules are in compliance with the provisions of this mechanism and are true and correct to the best of his/her knowledge, information and belief. No testimony shall be filed, but a brief narrative explanation shall be provided of any changes to corporate structure, accounting methodologies or allocation of common costs.

VI. Evaluation Procedures

The City of El Paso shall have a minimum of 125 days to review and render a decision on the Company's filed schedules and work papers. The Company will be prepared to provide all supplemental information as may be requested to ensure adequate review by the relevant regulatory authority. The Company shall not unilaterally impose any limits upon the provision of supplemental information, with the exception of information claimed to be confidential, highly sensitive or proprietary, and such information shall be provided within ten (10) working days of the original request.

The regulatory authority may propose any adjustments it determines to be required to bring the schedules into compliance with the above provisions. Information claimed to be confidential, highly sensitive or proprietary shall be furnished to representatives of the Regulatory Authority pursuant to a confidentiality agreement in accordance with Texas Law.

During the 125 day period, the Company and the regulatory authority will work collaboratively and seek agreement on the proposed adjustments to the Company's schedule and proposed rates. If agreement has been reached by the Company and the regulatory authority, the regulatory authority shall authorize an increase or decrease to the Company's rates so as to achieve the revenue levels indicated for the Rate Effective Period. If, at the end of the 125 day period, the Company and the regulatory authority have not reached agreement on the proposed adjustments, the Company shall have the right to appeal the regulatory authority's action or inaction to the Railroad Commission of Texas. Upon the filing of an appeal of a city's order relating to an annual EPARR filing with the Railroad Commission of Texas, the regulatory authority shall not oppose the implementation of rates subject to refund or advocate the imposition of a third party surety bond by the Company.

To defray the cost, if any, of regulatory authority review of the Company's annual filing, the Company shall reimburse the regulatory authority for its reasonable expenses incurred upon submission of invoices for such review. The Company shall further be allowed to recover its reasonable and necessary expenses it incurs for outside services above any amounts included in the Test Year provided in connection with the annual filing subject to the review of the regulatory authority. Costs contemplated hereunder shall be deemed a reasonable and necessary operating expense

of the Company in the year in which the reimbursement is made or the Company expense is incurred. A regulatory authority seeking reimbursement under this provision shall submit its request for reimbursement to the Company no later than September 1 of the year in which the annual filing is made and the Company shall reimburse the regulatory authority in accordance with this provision within 30 days of the submission.

VII. Reconsideration and Appeal

Orders issued pursuant to this mechanism are ratemaking orders and shall be subject to appeal under Sections 102.001(b) and 103.021, et seq., of the Texas Utilities Code (Vernon 2007).

VIII. Notice

Notice of this annual EPARR filing shall be provided by either: (1) including the notice, in conspicuous form, in the bill of each directly affected customer, or (2) sending the notice by email if the customer's bill is provided in this format no later than forty-five (45) days after the Company makes its annual filing pursuant to this tariff. The notice to customers shall include the following information:

- a) a description of the proposed revision of rates and schedules;
- b) the effect the proposed revision of rates is expected to have on the rates applicable to each customer class and on an average bill for each affected customer;
- c) the service area or areas in which the proposed rate adjustment would apply;
- d) the date the proposed rate adjustment was filed with the regulatory authority; and
- e) the Company's address, telephone number and website where information concerning the proposed rate adjustment may be obtained.

IX. EPARR Schedules and Information

The following types of employee reimbursed expenses and directly incurred costs are to be removed from all expense and rate base amounts included within Rider EPARR filings for the Test Period and for the Rate Effective Period: Amounts incurred for travel, meals or entertainment of employee spouses, domestic partners, significant others, children and pets.

Amounts for air travel that exceed published commercial coach air fares.

Amounts incurred for excessive rates for hotel rooms.

Amounts for alcoholic beverages.

Amounts paid for admission to entertainment, sports, art or cultural events, and all event sponsorship costs.

Amounts for social club dues or fees.

IRA-EPSvcA-IS-IRAdj

TEXAS GAS SERVICE COMPANY

RATE SCHEDULE IRA El Paso Service Area - West Texas Region

INTERIM RATE ADJUSTMENT

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro, and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, and T-1.

B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7657

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

PIT-EPSvcA-ISOS

TEXAS GAS SERVICE COMPANY
RATE SCHEDULE PIT
El Paso Service Area - West Texas Region
PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's

DESCRIPTION

transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated		Total Testing		Each Class'
Demand				

Testing Expense	=	Expense	x	Total Demand of the
Applicable Classes				

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class	=	Each Class' Total Allocated
Testing Expense		

48 Months

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7657

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge = Monthly Recovery from Each Class

_____ Estimated
 Monthly Usage of Each Class

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7657

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

DESCRIPTION

annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division

and the Pipeline Safety Division a report showing:
(A) the pipeline safety and regulatory program fee amount paid to the Commission;
(B) the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RCE-Rider-EPSvcA-IS

TEXAS GAS SERVICE COMPANY
RATE SCHEDULE RCE RIDER
El Paso Service Area - Incorporated
RATE CASE EXPENSE (RCE) SURCHARGE

A. APPLICABILITY

Pursuant to the Final Order in GUD No. 10016, the Rate Case Expense (RCE) Surcharge set forth in Section B. below shall apply to all gas sales customers (except special contract customers) located in that portion of the Company's El Paso Service Area (EPSA) that is within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas, including customers served under Rate Schedules 10, 20, 21, 25, 26, 27, 40, C-1, SS, and T-1.

B. RCE SURCHARGE

- The initial RCE Surcharge per Ccf for each billing period shall be: \$0.0053
- The RCE Surcharge per Ccf for each billing period from April 2013 - March 2014 shall be: \$0.0054

This rate, as adjusted pursuant to Section C. below, shall be designed to recover the approved level of Company and City rate case expenses of \$2,536,360.75 over a recovery period of three years. However, if the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, is collected in less than three years, then this Rider shall cease to be operable and the Company shall cease to apply the Rate Case Expense Surcharge. If the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, has not been collected by the end of the three-

DESCRIPTION

year recovery period, then this Rider shall remain in effect beyond the three-year recovery period only until all approved rate case expenses have been recovered under the applicable rate schedules, and any interest accruing on overrecoveries or underrecoveries has been recovered from or refunded or credited to the Company's customers.

C. OTHER ADJUSTMENTS

The applicable RCE Surcharge shall be adjusted annually to reflect interest on any underrecoveries or overrecoveries calculated at the Company's 6.21% cost of long-term debt as determined by the Railroad Commission of Texas in GUD No. 9988. In addition to the RCE Surcharge, applicable revenue-related taxes and fees, including franchise fees, shall also be recovered based on the revenue amounts collected hereunder.

D. ANNUAL COMPLIANCE FILING On or before February 21st following each calendar year in which an RCE Surcharge was applied to recover rate case expenses under this Rider, the Company shall file a written report with the Commission and the EPSCA Cities showing the total amount of rate case expenses (including any adjustments made to reflect interest on overrecoveries or underrecoveries accruing to the Company or its customers) that (a) were recovered during the preceding calendar year, (b) have been cumulatively recovered since the effective date of the Rider, and (c) still remain to be recovered through the Rider pursuant to the Commission's Final Order in GUD No. 10016. The report shall also include a calculation of the RCE Surcharge that is to be applied during the ensuing recovery period.

E. CONDITIONS Service under this rate schedule shall be subject to all applicable laws and orders and to the Company's rules and regulations on file with the regulatory authority.

TEXAS GAS SERVICE COMPANY
 El Paso Service Area - West Texas Region
 RATE SCHEDULE NO. 1-1-INC
 COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7657

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component, Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7657

RATE SCHEDULESCHEDULE IDDESCRIPTION

operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new

TARIFF CODE: DS RRC TARIFF NO: 7657

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the

total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report to demonstrate that gas costs were acquired during ordinary and atypical periods at the lowest prudently incurred price and necessary to provide reliable service to retail customers.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULESCHEDULE IDDESCRIPTION

include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULESCHEDULE IDDESCRIPTION

following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report

 RATE SCHEDULE EDR
 ECONOMIC DEVELOPMENT RATE

A. APPLICABILITY

This Economic Development Rate (EDR) rate schedule shall apply to the following rate schedules for the incorporated areas of the El Paso Service Area: 10, 20, 21, 25, 26, 27, 40, C-1 and T-1.

B. TERRITORY Incorporated Areas of the El Paso Service Area - Cities of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas

C. PURPOSE This rate schedule provides for the recovery of costs that TGS incurs related to economic development in the El Paso Service Area. Successful economic development will only occur to the extent that the community and its corporate partners provide the necessary support to attract new businesses and industries to this region. New businesses and industries will increase employment, spur growth and local business expansion, create a more robust economy and improve the quality of life for the region.

D. EDR RATE The EDR rate:

During each Monthly Billing Period All Ccf @ \$.002 per Ccf

All applicable fees and taxes will be added to the EDR rates. D. BILLING 1. The EDR rate shall be included as a component of the Company's Cost of Gas (per Ccf rate) for rate schedules: 10, 20, 21, 22, 25, 26, 27, 40 and C-1. 2. The EDR rate shall be added to the applicable cost of service usage charge (per Ccf rate) for rate schedules: T-1.

Texas Gas Service Company

Rate Schedule EPARR

El Paso Service Area - West Texas Region

El Paso Annual Rate Review

I. Purpose

This mechanism is designed to provide annual earnings transparency. All rate calculations under this tariff shall be made on an El Paso Service Area wide basis.

If, through the implementation of the provisions of this mechanism, it is determined that rates should be decreased or increased, then rates will be adjusted accordingly in the manner set forth herein. The rate adjustments implemented under this mechanism will reflect annual changes in the Company's cost of service and rate base. This Rider EPARR will be effective for the period commencing with the Company's first EPARR filing on or before April 15, 2014, and will remain in effect unless and until either the Company or the regulatory authority having original jurisdiction gives written notice to the contrary to the other by January 1 of the filing year. Upon receipt of such notice by either the Company or the regulatory authority having original jurisdiction, the Company shall prepare and file a Statement of Intent rate case with the regulatory authority within 180 days. Rates approved pursuant to this tariff shall remain in effect during the pendency of any Statement of Intent rate filing.

II. Definitions

a) The Filing Date shall occur on or before March 31 of each year with the exception of 2014, which shall have a Filing Date of April 15, 2014. The Annual Evaluation Date shall be the date the Company will make its annual filing under this mechanism. The Annual Evaluation Date shall, with the exception of 2014 be no earlier than March 1st nor later than March 31st of each year. This filing shall be made in electronic form where practicable.

b) Audited Financial Data shall mean the Company's books and records related to the Company's El Paso Service Area and shared services operations. Audited Financial Data shall not require the schedules and information provided under this tariff to undergo a separate financial audit by an outside auditing firm similar to the Company's annual financial audit.

c) The Company is defined as Texas Gas Service Company, a division of ONE Gas, Inc.

d) The Test Period is defined as the twelve-month period ending December 31, of each preceding calendar year. The Company's April 2014 filing will be based on the twelve-month period ending December 31, 2013.

e) The Rate Effective Period is defined as the twelve-month period commencing with the first billing cycle for August in each year and ending when subsequent rates are implemented under this tariff pursuant to a final order from a regulatory authority.

f) Final Order is defined as the most recent general rate case final order establishing the Company's effective rates for customers within the City of El

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

Paso.

g) El Paso Service Area means the incorporated areas of El Paso, Anthony, Clint, Horizon City, San Elizario, Socorro, and Vinton, as well as the surrounding unincorporated areas served by the Company.

III. Rate Review Mechanism

The Company shall file with the City of El Paso the schedules specified below for the Test Period, with the filing to be made by the Annual Evaluation Date following the end of the Test Period. The schedules will be based upon the Company's Audited Financial Data, as adjusted, and will include the following:

a) Test Period ending balances for actual gross plant in service, accumulated depreciation, accumulated deferred income taxes, inventory, and other rate base components, with the exception of working capital, will be used for the calculation of rates for the Rate Effective Period. The ratemaking treatments, principles, findings and adjustments included in the Final Order will apply except when a departure from those treatments, principles, findings or adjustments is justified by changed circumstances. Regulatory adjustments due to prior regulatory rate base adjustment disallowances will be maintained. In addition:

(i) Cash working capital to be included in rate base will be zero 0;

(ii) With respect to pension and other postemployment benefits, the Company will record a regulatory asset or liability for these costs until the amounts are included in the next annual rate adjustment implemented under this tariff. Each year, the Company's filing under this tariff will clearly state the level of pension and other postemployment benefits recovered in rates. In addition, the Company may maintain one or more reserve accounts as provided in Tex. Util. Code. Sec. 104.059, and treat any surplus or shortage in the reserve accounts in accordance with Tex. Util. Code. Sec. 104.059.

(iii) For rate making purposes, the calculation of Accumulated Deferred Income Taxes (ADIT) will be based on the original book basis and tax basis for assets placed in service under the ownership of Southern Union and the original book basis and tax basis for assets placed in service subsequent to the acquisition of Southern Union's assets. Company-generated net operating losses may be considered in calculating the ADIT balance, if appropriate.

b) Depreciation rates booked in the period will be those approved in the Final Order, or the depreciation rates most recently approved for the El Paso Service Area and for the Shared Services Division by the Railroad Commission of Texas, as applicable, if and only if the City of El Paso has the right to participate in a subsequent Railroad Commission of Texas proceeding with a full right to have its reasonable expenses reimbursed. All calculation methodologies will be those approved in the Final Order except where noted or included in this tariff.

c) Return on Equity (ROE) shall be maintained at 10.1%.

d) The cost of long-term debt will be the weighted cost of long-term debt for ONE Gas, Inc. determined at the end of the Test Period. The capital structure will be the ratio of long-term debt and equity determined at the end of the Test Period. For purposes of the filing in April 2014, the long-term cost of debt will be determined at January 31, 2014. For purposes of the filing in April 2014, the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULESCHEDULE IDDESCRIPTION

Capital Structure for the filing in April 2014 shall be determined at January 31, 2014, but in no event shall the capital structure consist of more than 57% equity.

e) All applicable accounting adjustments along with all supporting work papers. Such adjustments may include:

1) Pro-forma adjustments to update and annualize costs and revenue billing determinants as of the end of the Test Period.

2) Pro-forma or other adjustments required to properly account for atypical, unusual, or nonrecurring events recorded during the Test Period.

f) Shared Services allocation factors shall be recalculated each year based on the latest component factors used during the Test Period, but the methodology used will be that approved in the Final Order.

IV. Calculation of Rate Adjustment

a) The Company shall provide additional schedules indicating the following revenue deficiency/sufficiency calculations using the class classification and allocation methodology accepted in the Final Order. The result shall be reflected in the proposed new rates to be established for the Rate Effective Period. In calculating the required rate adjustments, such adjustments will be applied to the minimum charge or customer charge if the rate class has no minimum charge.

b) All reasonable and necessary operation and maintenance expenses from the Test Period will be used for the calculation of rates for the Rate Effective Period. Such amounts shall be prepared consistent with the rate making treatments approved in the Final Order subject to an allowance that authorizes the inclusion of (1) reasonable cost of meals and travel incurred during the Test Period (as limited by Sec IX) and (2) 25% of the Company's long-term and short-term incentive compensation costs incurred during the Test Period. The Company may include in its operations and maintenance expense reasonable costs of Pipeline Integrity testing conducted after completion of the 2010-2014 test cycle. The Company may also adjust rates for the Rate Effective Period to include recovery of any known and measurable changes to operating and maintenance costs. Known and measurable adjustments shall be limited to those changes that have occurred prior to the Filing Date.

c) Effective with the Company's 2014 filing under this tariff, the Company may include in its rate base calculation all prudently incurred, direct, incremental investment and costs associated with Commission Rule 8.209.

d) The regulatory authority may disallow any net plant investment that is not shown to be prudently incurred. Approval by the regulatory authority of net plant investment pursuant to the provisions of this tariff shall be deemed prudent and not subject to further review. In determining whether investment was prudently incurred, the regulatory authority shall base its decision on a review that examines as fair, just and reasonable.

e) The Company shall provide a schedule demonstrating the proof of revenues relied upon to calculate the proposed rate for the Rate Effective Period. The proposed rates shall conform as closely as is practicable to the revenue allocation principles approved in the Final Order except that any required increase or

DESCRIPTION

decrease shall be apportioned to the customer charge.

V. Attestation

A sworn statement shall be filed by an Officer of the Company affirming that the filed schedules are in compliance with the provisions of this mechanism and are true and correct to the best of his/her knowledge, information and belief. No testimony shall be filed, but a brief narrative explanation shall be provided of any changes to corporate structure, accounting methodologies or allocation of common costs.

VI. Evaluation Procedures

The City of El Paso shall have a minimum of 125 days to review and render a decision on the Company's filed schedules and work papers. The Company will be prepared to provide all supplemental information as may be requested to ensure adequate review by the relevant regulatory authority. The Company shall not unilaterally impose any limits upon the provision of supplemental information, with the exception of information claimed to be confidential, highly sensitive or proprietary, and such information shall be provided within ten (10) working days of the original request.

The regulatory authority may propose any adjustments it determines to be required to bring the schedules into compliance with the above provisions. Information claimed to be confidential, highly sensitive or proprietary shall be furnished to representatives of the Regulatory Authority pursuant to a confidentiality agreement in accordance with Texas Law.

During the 125 day period, the Company and the regulatory authority will work collaboratively and seek agreement on the proposed adjustments to the Company's schedule and proposed rates. If agreement has been reached by the Company and the regulatory authority, the regulatory authority shall authorize an increase or decrease to the Company's rates so as to achieve the revenue levels indicated for the Rate Effective Period. If, at the end of the 125 day period, the Company and the regulatory authority have not reached agreement on the proposed adjustments, the Company shall have the right to appeal the regulatory authority's action or inaction to the Railroad Commission of Texas. Upon the filing of an appeal of a city's order relating to an annual EPARR filing with the Railroad Commission of Texas, the regulatory authority shall not oppose the implementation of rates subject to refund or advocate the imposition of a third party surety bond by the Company.

To defray the cost, if any, of regulatory authority review of the Company's annual filing, the Company shall reimburse the regulatory authority for its reasonable expenses incurred upon submission of invoices for such review. The Company shall further be allowed to recover its reasonable and necessary expenses it incurs for outside services above any amounts included in the Test Year provided in connection with the annual filing subject to the review of the regulatory authority. Costs contemplated hereunder shall be deemed a reasonable and necessary operating expense of the Company in the year in which the reimbursement is made or the Company expense is incurred. A regulatory authority seeking reimbursement under this provision shall submit its request for reimbursement to the Company no later than September 1 of the year in which the annual filing is made and the Company shall

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULESCHEDULE IDDESCRIPTION

reimburse the regulatory authority in accordance with this provision within 30 days of the submission.

VII. Reconsideration and Appeal

Orders issued pursuant to this mechanism are ratemaking orders and shall be subject to appeal under Sections 102.001(b) and 103.021, et seq., of the Texas Utilities Code (Vernon 2007).

VIII. Notice

Notice of this annual EPARR filing shall be provided by either: (1) including the notice, in conspicuous form, in the bill of each directly affected customer, or (2) sending the notice by email if the customer's bill is provided in this format no later than forty-five (45) days after the Company makes its annual filing pursuant to this tariff. The notice to customers shall include the following information:

- a) a description of the proposed revision of rates and schedules;
- b) the effect the proposed revision of rates is expected to have on the rates applicable to each customer class and on an average bill for each affected customer;
- c) the service area or areas in which the proposed rate adjustment would apply;
- d) the date the proposed rate adjustment was filed with the regulatory authority; and
- e) the Company's address, telephone number and website where information concerning the proposed rate adjustment may be obtained.

IX. EPARR Schedules and Information

The following types of employee reimbursed expenses and directly incurred costs are to be removed from all expense and rate base amounts included within Rider EPARR filings for the Test Period and for the Rate Effective Period: Amounts incurred for travel, meals or entertainment of employee spouses, domestic partners, significant others, children and pets.

Amounts for air travel that exceed published commercial coach air fares.

Amounts incurred for excessive rates for hotel rooms.

Amounts for alcoholic beverages.

Amounts paid for admission to entertainment, sports, art or cultural events, and all event sponsorship costs.

Amounts for social club dues or fees.

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULESCHEDULE IDDESCRIPTION

IRA-EPSvcA-IS-IRAdj

RATE SCHEDULE IRA El Paso Service Area - West Texas Region
INTERIM RATE ADJUSTMENT**A. APPLICABILITY**

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro, and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, and T-1.

B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

PIT-EPSvca-ISOS TEXAS GAS SERVICE COMPANY
RATE SCHEDULE PIT
El Paso Service Area - West Texas Region
PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey,

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Demand		Total Testing Expense	x	Each Class' Total Demand of the Applicable Classes
_____	=			
Testing Expense		Expense		

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class Testing Expense	=	Each Class' Total Allocated

48 Months		

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Each Class' PIT Surcharge = Monthly Recovery from Each Class

Estimated
Monthly Usage of Each Class

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

PIPELINE SAFETY AND REGULATORY PROGRAM FEES

TEXAS ADMINISTRATIVE CODE TITLE 16

ECONOMIC REGULATION PART 1

RAILROAD COMMISSION OF TEXAS CHAPTER 8

PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and

DESCRIPTION

(D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RCE-Rider-EPSvcA-IS

TEXAS GAS SERVICE COMPANY
RATE SCHEDULE RCE RIDER
El Paso Service Area - Incorporated
RATE CASE EXPENSE (RCE) SURCHARGE

A. APPLICABILITY

Pursuant to the Final Order in GUD No. 10016, the Rate Case Expense (RCE) Surcharge set forth in Section B. below shall apply to all gas sales customers (except special contract customers) located in that portion of the Company's El Paso Service Area (EPSA) that is within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas, including customers served under Rate Schedules 10, 20, 21, 25, 26, 27, 40, C-1, SS, and T-1.

B. RCE SURCHARGE

- The initial RCE Surcharge per Ccf for each billing period shall be: \$0.0053
- The RCE Surcharge per Ccf for each billing period from April 2013 - March 2014 shall be: \$0.0054

This rate, as adjusted pursuant to Section C. below, shall be designed to recover the approved level of Company and City rate case expenses of \$2,536,360.75 over a recovery period of three years. However, if the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, is collected in less than three years, then this Rider shall cease to be operable and the Company shall cease to apply the Rate Case Expense Surcharge. If the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, has not been collected by the end of the three-year recovery period, then this Rider shall remain in effect beyond the three-year recovery period only until all approved rate case expenses have been recovered under the applicable rate schedules, and any interest accruing on overrecoveries or underrecoveries has been recovered from or refunded or credited to the Company's

customers.

C. OTHER ADJUSTMENTS

The applicable RCE Surcharge shall be adjusted annually to reflect interest on any underrecoveries or overrecoveries calculated at the Company's 6.21% cost of long-term debt as determined by the Railroad Commission of Texas in GUD No. 9988. In addition to the RCE Surcharge, applicable revenue-related taxes and fees, including franchise fees, shall also be recovered based on the revenue amounts collected hereunder.

D. ANNUAL COMPLIANCE FILING On or before February 21st following each calendar year in which an RCE Surcharge was applied to recover rate case expenses under this Rider, the Company shall file a written report with the Commission and the EPSCA Cities showing the total amount of rate case expenses (including any adjustments made to reflect interest on overrecoveries or underrecoveries accruing to the Company or its customers) that (a) were recovered during the preceding calendar year, (b) have been cumulatively recovered since the effective date of the Rider, and (c) still remain to be recovered through the Rider pursuant to the Commission's Final Order in GUD No. 10016. The report shall also include a calculation of the RCE Surcharge that is to be applied during the ensuing recovery period.

E. CONDITIONS Service under this rate schedule shall be subject to all applicable laws and orders and to the Company's rules and regulations on file with the regulatory authority.

SCHEDULE ID	DESCRIPTION
1-1-INC-EPSvcA-IS-CO	TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 1-1-INC COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area. B. DEFINITIONS 1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed. 2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period. 4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component,

TARIFF CODE: DS RRC TARIFF NO: 7659

RATE SCHEDULESCHEDULE IDDESCRIPTION

Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7659

RATE SCHEDULESCHEDULE IDDESCRIPTION

include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7659

RATE SCHEDULESCHEDULE IDDESCRIPTION

following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report

 RATE SCHEDULE EDR
 ECONOMIC DEVELOPMENT RATE

A. APPLICABILITY

This Economic Development Rate (EDR) rate schedule shall apply to the following rate schedules for the incorporated areas of the El Paso Service Area: 10, 20, 21, 25, 26, 27, 40, C-1 and T-1.

B. TERRITORY Incorporated Areas of the El Paso Service Area - Cities of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas

C. PURPOSE This rate schedule provides for the recovery of costs that TGS incurs related to economic development in the El Paso Service Area. Successful economic development will only occur to the extent that the community and its corporate partners provide the necessary support to attract new businesses and industries to this region. New businesses and industries will increase employment, spur growth and local business expansion, create a more robust economy and improve the quality of life for the region.

D. EDR RATE The EDR rate:

During each Monthly Billing Period All Ccf @ \$.002 per Ccf

All applicable fees and taxes will be added to the EDR rates. D. BILLING 1. The EDR rate shall be included as a component of the Company's Cost of Gas (per Ccf rate) for rate schedules: 10, 20, 21, 22, 25, 26, 27, 40 and C-1. 2. The EDR rate shall be added to the applicable cost of service usage charge (per Ccf rate) for rate schedules: T-1.

 El Paso Service Area - West Texas Region

El Paso Annual Rate Review

I. Purpose

This mechanism is designed to provide annual earnings transparency. All rate calculations under this tariff shall be made on an El Paso Service Area wide basis.

If, through the implementation of the provisions of this mechanism, it is determined that rates should be decreased or increased, then rates will be adjusted accordingly in the manner set forth herein. The rate adjustments implemented under this mechanism will reflect annual changes in the Company's cost of service and rate base. This Rider EPARR will be effective for the period commencing with the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7659

RATE SCHEDULESCHEDULE IDDESCRIPTION

Company's first EPARR filing on or before April 15, 2014, and will remain in effect unless and until either the Company or the regulatory authority having original jurisdiction gives written notice to the contrary to the other by January 1 of the filing year. Upon receipt of such notice by either the Company or the regulatory authority having original jurisdiction, the Company shall prepare and file a Statement of Intent rate case with the regulatory authority within 180 days. Rates approved pursuant to this tariff shall remain in effect during the pendency of any Statement of Intent rate filing.

II. Definitions

a) The Filing Date shall occur on or before March 31 of each year with the exception of 2014, which shall have a Filing Date of April 15, 2014. The Annual Evaluation Date shall be the date the Company will make its annual filing under this mechanism. The Annual Evaluation Date shall, with the exception of 2014 be no earlier than March 1st nor later than March 31st of each year. This filing shall be made in electronic form where practicable.

b) Audited Financial Data shall mean the Company's books and records related to the Company's El Paso Service Area and shared services operations. Audited Financial Data shall not require the schedules and information provided under this tariff to undergo a separate financial audit by an outside auditing firm similar to the Company's annual financial audit.

c) The Company is defined as Texas Gas Service Company, a division of ONE Gas, Inc.

d) The Test Period is defined as the twelve-month period ending December 31, of each preceding calendar year. The Company's April 2014 filing will be based on the twelve-month period ending December 31, 2013.

e) The Rate Effective Period is defined as the twelve-month period commencing with the first billing cycle for August in each year and ending when subsequent rates are implemented under this tariff pursuant to a final order from a regulatory authority.

f) Final Order is defined as the most recent general rate case final order establishing the Company's effective rates for customers within the City of El Paso.

g) El Paso Service Area means the incorporated areas of El Paso, Anthony, Clint, Horizon City, San Elizario, Socorro, and Vinton, as well as the surrounding unincorporated areas served by the Company.

III. Rate Review Mechanism

The Company shall file with the City of El Paso the schedules specified below for the Test Period, with the filing to be made by the Annual Evaluation Date following the end of the Test Period. The schedules will be based upon the Company's Audited Financial Data, as adjusted, and will include the following:

a) Test Period ending balances for actual gross plant in service, accumulated depreciation, accumulated deferred income taxes, inventory, and other rate base

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7659

RATE SCHEDULESCHEDULE IDDESCRIPTION

components, with the exception of working capital, will be used for the calculation of rates for the Rate Effective Period. The ratemaking treatments, principles, findings and adjustments included in the Final Order will apply except when a departure from those treatments, principles, findings or adjustments is justified by changed circumstances. Regulatory adjustments due to prior regulatory rate base adjustment disallowances will be maintained. In addition:

(i) Cash working capital to be included in rate base will be zero 0;

(ii) With respect to pension and other postemployment benefits, the Company will record a regulatory asset or liability for these costs until the amounts are included in the next annual rate adjustment implemented under this tariff. Each year, the Company's filing under this tariff will clearly state the level of pension and other postemployment benefits recovered in rates. In addition, the Company may maintain one or more reserve accounts as provided in Tex. Util. Code. Sec. 104.059, and treat any surplus or shortage in the reserve accounts in accordance with Tex. Util. Code. Sec. 104.059.

(iii) For rate making purposes, the calculation of Accumulated Deferred Income Taxes (ADIT) will be based on the original book basis and tax basis for assets placed in service under the ownership of Southern Union and the original book basis and tax basis for assets placed in service subsequent to the acquisition of Southern Union's assets. Company-generated net operating losses may be considered in calculating the ADIT balance, if appropriate.

b) Depreciation rates booked in the period will be those approved in the Final Order, or the depreciation rates most recently approved for the El Paso Service Area and for the Shared Services Division by the Railroad Commission of Texas, as applicable, if and only if the City of El Paso has the right to participate in a subsequent Railroad Commission of Texas proceeding with a full right to have its reasonable expenses reimbursed. All calculation methodologies will be those approved in the Final Order except where noted or included in this tariff.

c) Return on Equity (ROE) shall be maintained at 10.1%.

d) The cost of long-term debt will be the weighted cost of long-term debt for ONE Gas, Inc. determined at the end of the Test Period. The capital structure will be the ratio of long-term debt and equity determined at the end of the Test Period. For purposes of the filing in April 2014, the long-term cost of debt will be determined at January 31, 2014. For purposes of the filing in April 2014, the Capital Structure for the filing in April 2014 shall be determined at January 31, 2014, but in no event shall the capital structure consist of more than 57% equity.

e) All applicable accounting adjustments along with all supporting work papers. Such adjustments may include:

1) Pro-forma adjustments to update and annualize costs and revenue billing determinants as of the end of the Test Period.

2) Pro-forma or other adjustments required to properly account for atypical, unusual, or nonrecurring events recorded during the Test Period.

f) Shared Services allocation factors shall be recalculated each year based on the latest component factors used during the Test Period, but the methodology used will be that approved in the Final Order.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7659

RATE SCHEDULESCHEDULE IDDESCRIPTION

IV. Calculation of Rate Adjustment

a) The Company shall provide additional schedules indicating the following revenue deficiency/sufficiency calculations using the class classification and allocation methodology accepted in the Final Order. The result shall be reflected in the proposed new rates to be established for the Rate Effective Period. In calculating the required rate adjustments, such adjustments will be applied to the minimum charge or customer charge if the rate class has no minimum charge.

b) All reasonable and necessary operation and maintenance expenses from the Test Period will be used for the calculation of rates for the Rate Effective Period. Such amounts shall be prepared consistent with the rate making treatments approved in the Final Order subject to an allowance that authorizes the inclusion of (1) reasonable cost of meals and travel incurred during the Test Period (as limited by Sec IX) and (2) 25% of the Company's long-term and short-term incentive compensation costs incurred during the Test Period. The Company may include in its operations and maintenance expense reasonable costs of Pipeline Integrity testing conducted after completion of the 2010-2014 test cycle. The Company may also adjust rates for the Rate Effective Period to include recovery of any known and measurable changes to operating and maintenance costs. Known and measurable adjustments shall be limited to those changes that have occurred prior to the Filing Date.

c) Effective with the Company's 2014 filing under this tariff, the Company may include in its rate base calculation all prudently incurred, direct, incremental investment and costs associated with Commission Rule 8.209.

d) The regulatory authority may disallow any net plant investment that is not shown to be prudently incurred. Approval by the regulatory authority of net plant investment pursuant to the provisions of this tariff shall be deemed prudent and not subject to further review. In determining whether investment was prudently incurred, the regulatory authority shall base its decision on a review that examines as fair, just and reasonable.

e) The Company shall provide a schedule demonstrating the proof of revenues relied upon to calculate the proposed rate for the Rate Effective Period. The proposed rates shall conform as closely as is practicable to the revenue allocation principles approved in the Final Order except that any required increase or decrease shall be apportioned to the customer charge.

V. Attestation

A sworn statement shall be filed by an Officer of the Company affirming that the filed schedules are in compliance with the provisions of this mechanism and are true and correct to the best of his/her knowledge, information and belief. No testimony shall be filed, but a brief narrative explanation shall be provided of any changes to corporate structure, accounting methodologies or allocation of common costs.

VI. Evaluation Procedures

The City of El Paso shall have a minimum of 125 days to review and render a decision on the Company's filed schedules and work papers. The Company will be prepared to provide all supplemental information as may be requested to ensure

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7659

RATE SCHEDULESCHEDULE IDDESCRIPTION

adequate review by the relevant regulatory authority. The Company shall not unilaterally impose any limits upon the provision of supplemental information, with the exception of information claimed to be confidential, highly sensitive or proprietary, and such information shall be provided within ten (10) working days of the original request.

The regulatory authority may propose any adjustments it determines to be required to bring the schedules into compliance with the above provisions. Information claimed to be confidential, highly sensitive or proprietary shall be furnished to representatives of the Regulatory Authority pursuant to a confidentiality agreement in accordance with Texas Law.

During the 125 day period, the Company and the regulatory authority will work collaboratively and seek agreement on the proposed adjustments to the Company's schedule and proposed rates. If agreement has been reached by the Company and the regulatory authority, the regulatory authority shall authorize an increase or decrease to the Company's rates so as to achieve the revenue levels indicated for the Rate Effective Period. If, at the end of the 125 day period, the Company and the regulatory authority have not reached agreement on the proposed adjustments, the Company shall have the right to appeal the regulatory authority's action or inaction to the Railroad Commission of Texas. Upon the filing of an appeal of a city's order relating to an annual EPARR filing with the Railroad Commission of Texas, the regulatory authority shall not oppose the implementation of rates subject to refund or advocate the imposition of a third party surety bond by the Company.

To defray the cost, if any, of regulatory authority review of the Company's annual filing, the Company shall reimburse the regulatory authority for its reasonable expenses incurred upon submission of invoices for such review. The Company shall further be allowed to recover its reasonable and necessary expenses it incurs for outside services above any amounts included in the Test Year provided in connection with the annual filing subject to the review of the regulatory authority. Costs contemplated hereunder shall be deemed a reasonable and necessary operating expense of the Company in the year in which the reimbursement is made or the Company expense is incurred. A regulatory authority seeking reimbursement under this provision shall submit its request for reimbursement to the Company no later than September 1 of the year in which the annual filing is made and the Company shall reimburse the regulatory authority in accordance with this provision within 30 days of the submission.

VII. Reconsideration and Appeal

Orders issued pursuant to this mechanism are ratemaking orders and shall be subject to appeal under Sections 102.001(b) and 103.021, et seq., of the Texas Utilities Code (Vernon 2007).

VIII. Notice

Notice of this annual EPARR filing shall be provided by either: (1) including the notice, in conspicuous form, in the bill of each directly affected customer, or (2) sending the notice by email if the customer's bill is provided in this format no later than forty-five (45) days after the Company makes its annual filing pursuant to this tariff. The notice to customers shall include the following information:

GAS SERVICES DIVISION

DESCRIPTION

- a) a description of the proposed revision of rates and schedules;
- b) the effect the proposed revision of rates is expected to have on the rates applicable to each customer class and on an average bill for each affected customer;
- c) the service area or areas in which the proposed rate adjustment would apply;
- d) the date the proposed rate adjustment was filed with the regulatory authority; and
- e) the Company's address, telephone number and website where information concerning the proposed rate adjustment may be obtained.

IX. EPARR Schedules and Information

The following types of employee reimbursed expenses and directly incurred costs are to be removed from all expense and rate base amounts included within Rider EPARR filings for the Test Period and for the Rate Effective Period: Amounts incurred for travel, meals or entertainment of employee spouses, domestic partners, significant others, children and pets.

Amounts for air travel that exceed published commercial coach air fares.

Amounts incurred for excessive rates for hotel rooms.

Amounts for alcoholic beverages.

Amounts paid for admission to entertainment, sports, art or cultural events, and all event sponsorship costs.

Amounts for social club dues or fees.

IRA-EPSvcA-IS-IRAdj

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE IRA El Paso Service Area - West Texas Region
 INTERIM RATE ADJUSTMENT

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro, and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, and T-1.

B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7659

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.
2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.
3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.
4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.
5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under

this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE PIT
 El Paso Service Area - West Texas Region
 PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program.

The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this

TARIFF CODE: DS RRC TARIFF NO: 7659

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Total Testing Each Class'
 Demand

Testing Expense = Expense x Total Demand of the
 Applicable Classes

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class = Each Class' Total Allocated
 Testing Expense

48 Months

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge = Monthly Recovery from Each
 Class

Monthly Usage of Each Class Estimated

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7659

RATE SCHEDULESCHEDULE IDDESCRIPTION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

SCHEDULE IDDESCRIPTION

to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission;
- (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to

RATE SCHEDULESCHEDULE IDDESCRIPTION

the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-1-INC-EPSvcA-IS-CO	TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 1-1-INC COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area. B. DEFINITIONS 1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed. 2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period. 4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component,

TARIFF CODE: DS RRC TARIFF NO: 7660

RATE SCHEDULESCHEDULE IDDESCRIPTION

Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7660

RATE SCHEDULESCHEDULE IDDESCRIPTION

include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7660

RATE SCHEDULESCHEDULE IDDESCRIPTION

following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report

TEXAS GAS SERVICE COMPANY
 El Paso Service Area - West Texas Region
 RATE SCHEDULE EDR
 ECONOMIC DEVELOPMENT RATE

A. APPLICABILITY

This Economic Development Rate (EDR) rate schedule shall apply to the following rate schedules for the incorporated areas of the El Paso Service Area: 10, 20, 21, 25, 26, 27, 40, C-1 and T-1.

B. TERRITORY Incorporated Areas of the El Paso Service Area - Cities of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas

C. PURPOSE This rate schedule provides for the recovery of costs that TGS incurs related to economic development in the El Paso Service Area. Successful economic development will only occur to the extent that the community and its corporate partners provide the necessary support to attract new businesses and industries to this region. New businesses and industries will increase employment, spur growth and local business expansion, create a more robust economy and improve the quality of life for the region.

D. EDR RATE The EDR rate:

During each Monthly Billing Period All Ccf @ \$.002 per Ccf

All applicable fees and taxes will be added to the EDR rates. D. BILLING 1. The EDR rate shall be included as a component of the Company's Cost of Gas (per Ccf rate) for rate schedules: 10, 20, 21, 22, 25, 26, 27, 40 and C-1. 2. The EDR rate shall be added to the applicable cost of service usage charge (per Ccf rate) for rate schedules: T-1.

EPARR-ElPaso-IS

Texas Gas Service Company
 Rate Schedule EPARR
 El Paso Service Area - West Texas Region

El Paso Annual Rate Review

I. Purpose

This mechanism is designed to provide annual earnings transparency. All rate calculations under this tariff shall be made on an El Paso Service Area wide basis. If, through the implementation of the provisions of this mechanism, it is determined that rates should be decreased or increased, then rates will be adjusted accordingly in the manner set forth herein. The rate adjustments implemented under this mechanism will reflect annual changes in the Company's cost of service and rate base. This Rider EPARR will be effective for the period commencing with the Company's first EPARR filing on or before April 15, 2014, and will remain in effect unless and until either the Company or the regulatory authority having original jurisdiction gives written notice to the contrary to the other by January 1 of the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7660

RATE SCHEDULESCHEDULE IDDESCRIPTION

filing year. Upon receipt of such notice by either the Company or the regulatory authority having original jurisdiction, the Company shall prepare and file a Statement of Intent rate case with the regulatory authority within 180 days. Rates approved pursuant to this tariff shall remain in effect during the pendency of any Statement of Intent rate filing.

II. Definitions

- a) The Filing Date shall occur on or before March 31 of each year with the exception of 2014, which shall have a Filing Date of April 15, 2014. The Annual Evaluation Date shall be the date the Company will make its annual filing under this mechanism. The Annual Evaluation Date shall, with the exception of 2014 be no earlier than March 1st nor later than March 31st of each year. This filing shall be made in electronic form where practicable.
- b) Audited Financial Data shall mean the Company's books and records related to the Company's El Paso Service Area and shared services operations. Audited Financial Data shall not require the schedules and information provided under this tariff to undergo a separate financial audit by an outside auditing firm similar to the Company's annual financial audit.
- c) The Company is defined as Texas Gas Service Company, a division of ONE Gas, Inc.
- d) The Test Period is defined as the twelve-month period ending December 31, of each preceding calendar year. The Company's April 2014 filing will be based on the twelve-month period ending December 31, 2013.
- e) The Rate Effective Period is defined as the twelve-month period commencing with the first billing cycle for August in each year and ending when subsequent rates are implemented under this tariff pursuant to a final order from a regulatory authority.
- f) Final Order is defined as the most recent general rate case final order establishing the Company's effective rates for customers within the City of El Paso.
- g) El Paso Service Area means the incorporated areas of El Paso, Anthony, Clint, Horizon City, San Elizario, Socorro, and Vinton, as well as the surrounding unincorporated areas served by the Company.

III. Rate Review Mechanism

The Company shall file with the City of El Paso the schedules specified below for the Test Period, with the filing to be made by the Annual Evaluation Date following the end of the Test Period. The schedules will be based upon the Company's Audited Financial Data, as adjusted, and will include the following:

- a) Test Period ending balances for actual gross plant in service, accumulated depreciation, accumulated deferred income taxes, inventory, and other rate base components, with the exception of working capital, will be used for the calculation of rates for the Rate Effective Period. The ratemaking treatments, principles, findings and adjustments included in the Final Order will apply except when a

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7660

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

departure from those treatments, principles, findings or adjustments is justified by changed circumstances. Regulatory adjustments due to prior regulatory rate base adjustment disallowances will be maintained. In addition:

(i) Cash working capital to be included in rate base will be zero 0;

(ii) With respect to pension and other postemployment benefits, the Company will record a regulatory asset or liability for these costs until the amounts are included in the next annual rate adjustment implemented under this tariff. Each year, the Company's filing under this tariff will clearly state the level of pension and other postemployment benefits recovered in rates. In addition, the Company may maintain one or more reserve accounts as provided in Tex. Util. Code. Sec. 104.059, and treat any surplus or shortage in the reserve accounts in accordance with Tex. Util. Code. Sec. 104.059.

(iii) For rate making purposes, the calculation of Accumulated Deferred Income Taxes (ADIT) will be based on the original book basis and tax basis for assets placed in service under the ownership of Southern Union and the original book basis and tax basis for assets placed in service subsequent to the acquisition of Southern Union's assets. Company-generated net operating losses may be considered in calculating the ADIT balance, if appropriate.

b) Depreciation rates booked in the period will be those approved in the Final Order, or the depreciation rates most recently approved for the El Paso Service Area and for the Shared Services Division by the Railroad Commission of Texas, as applicable, if and only if the City of El Paso has the right to participate in a subsequent Railroad Commission of Texas proceeding with a full right to have its reasonable expenses reimbursed. All calculation methodologies will be those approved in the Final Order except where noted or included in this tariff.

c) Return on Equity (ROE) shall be maintained at 10.1%.

d) The cost of long-term debt will be the weighted cost of long-term debt for ONE Gas, Inc. determined at the end of the Test Period. The capital structure will be the ratio of long-term debt and equity determined at the end of the Test Period. For purposes of the filing in April 2014, the long-term cost of debt will be determined at January 31, 2014. For purposes of the filing in April 2014, the Capital Structure for the filing in April 2014 shall be determined at January 31, 2014, but in no event shall the capital structure consist of more than 57% equity.

e) All applicable accounting adjustments along with all supporting work papers. Such adjustments may include:

1) Pro-forma adjustments to update and annualize costs and revenue billing determinants as of the end of the Test Period.

2) Pro-forma or other adjustments required to properly account for atypical, unusual, or nonrecurring events recorded during the Test Period.

f) Shared Services allocation factors shall be recalculated each year based on the latest component factors used during the Test Period, but the methodology used will be that approved in the Final Order.

IV. Calculation of Rate Adjustment

a) The Company shall provide additional schedules indicating the following revenue deficiency/sufficiency calculations using the class classification and allocation

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7660

RATE SCHEDULESCHEDULE IDDESCRIPTION

methodology accepted in the Final Order. The result shall be reflected in the proposed new rates to be established for the Rate Effective Period. In calculating the required rate adjustments, such adjustments will be applied to the minimum charge or customer charge if the rate class has no minimum charge.

b) All reasonable and necessary operation and maintenance expenses from the Test Period will be used for the calculation of rates for the Rate Effective Period. Such amounts shall be prepared consistent with the rate making treatments approved in the Final Order subject to an allowance that authorizes the inclusion of (1) reasonable cost of meals and travel incurred during the Test Period (as limited by Sec IX) and (2) 25% of the Company's long-term and short-term incentive compensation costs incurred during the Test Period. The Company may include in its operations and maintenance expense reasonable costs of Pipeline Integrity testing conducted after completion of the 2010-2014 test cycle. The Company may also adjust rates for the Rate Effective Period to include recovery of any known and measurable changes to operating and maintenance costs. Known and measurable adjustments shall be limited to those changes that have occurred prior to the Filing Date.

c) Effective with the Company's 2014 filing under this tariff, the Company may include in its rate base calculation all prudently incurred, direct, incremental investment and costs associated with Commission Rule 8.209.

d) The regulatory authority may disallow any net plant investment that is not shown to be prudently incurred. Approval by the regulatory authority of net plant investment pursuant to the provisions of this tariff shall be deemed prudent and not subject to further review. In determining whether investment was prudently incurred, the regulatory authority shall base its decision on a review that examines as fair, just and reasonable.

e) The Company shall provide a schedule demonstrating the proof of revenues relied upon to calculate the proposed rate for the Rate Effective Period. The proposed rates shall conform as closely as is practicable to the revenue allocation principles approved in the Final Order except that any required increase or decrease shall be apportioned to the customer charge.

V. Attestation

A sworn statement shall be filed by an Officer of the Company affirming that the filed schedules are in compliance with the provisions of this mechanism and are true and correct to the best of his/her knowledge, information and belief. No testimony shall be filed, but a brief narrative explanation shall be provided of any changes to corporate structure, accounting methodologies or allocation of common costs.

VI. Evaluation Procedures

The City of El Paso shall have a minimum of 125 days to review and render a decision on the Company's filed schedules and work papers. The Company will be prepared to provide all supplemental information as may be requested to ensure adequate review by the relevant regulatory authority. The Company shall not unilaterally impose any limits upon the provision of supplemental information, with the exception of information claimed to be confidential, highly sensitive or

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7660

RATE SCHEDULESCHEDULE IDDESCRIPTION

proprietary, and such information shall be provided within ten (10) working days of the original request.

The regulatory authority may propose any adjustments it determines to be required to bring the schedules into compliance with the above provisions. Information claimed to be confidential, highly sensitive or proprietary shall be furnished to representatives of the Regulatory Authority pursuant to a confidentiality agreement in accordance with Texas Law.

During the 125 day period, the Company and the regulatory authority will work collaboratively and seek agreement on the proposed adjustments to the Company's schedule and proposed rates. If agreement has been reached by the Company and the regulatory authority, the regulatory authority shall authorize an increase or decrease to the Company's rates so as to achieve the revenue levels indicated for the Rate Effective Period. If, at the end of the 125 day period, the Company and the regulatory authority have not reached agreement on the proposed adjustments, the Company shall have the right to appeal the regulatory authority's action or inaction to the Railroad Commission of Texas. Upon the filing of an appeal of a city's order relating to an annual EPARR filing with the Railroad Commission of Texas, the regulatory authority shall not oppose the implementation of rates subject to refund or advocate the imposition of a third party surety bond by the Company.

To defray the cost, if any, of regulatory authority review of the Company's annual filing, the Company shall reimburse the regulatory authority for its reasonable expenses incurred upon submission of invoices for such review. The Company shall further be allowed to recover its reasonable and necessary expenses it incurs for outside services above any amounts included in the Test Year provided in connection with the annual filing subject to the review of the regulatory authority. Costs contemplated hereunder shall be deemed a reasonable and necessary operating expense of the Company in the year in which the reimbursement is made or the Company expense is incurred. A regulatory authority seeking reimbursement under this provision shall submit its request for reimbursement to the Company no later than September 1 of the year in which the annual filing is made and the Company shall reimburse the regulatory authority in accordance with this provision within 30 days of the submission.

VII. Reconsideration and Appeal

Orders issued pursuant to this mechanism are ratemaking orders and shall be subject to appeal under Sections 102.001(b) and 103.021, et seq., of the Texas Utilities Code (Vernon 2007).

VIII. Notice

Notice of this annual EPARR filing shall be provided by either: (1) including the notice, in conspicuous form, in the bill of each directly affected customer, or (2) sending the notice by email if the customer's bill is provided in this format no later than forty-five (45) days after the Company makes its annual filing pursuant to this tariff. The notice to customers shall include the following information:

a) a description of the proposed revision of rates and schedules;

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7660

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

- b) the effect the proposed revision of rates is expected to have on the rates applicable to each customer class and on an average bill for each affected customer;
- c) the service area or areas in which the proposed rate adjustment would apply;
- d) the date the proposed rate adjustment was filed with the regulatory authority; and
- e) the Company's address, telephone number and website where information concerning the proposed rate adjustment may be obtained.

IX. EPARR Schedules and Information

The following types of employee reimbursed expenses and directly incurred costs are to be removed from all expense and rate base amounts included within Rider EPARR filings for the Test Period and for the Rate Effective Period: Amounts incurred for travel, meals or entertainment of employee spouses, domestic partners, significant others, children and pets.

Amounts for air travel that exceed published commercial coach air fares.

Amounts incurred for excessive rates for hotel rooms.

Amounts for alcoholic beverages.

Amounts paid for admission to entertainment, sports, art or cultural events, and all event sponsorship costs.

Amounts for social club dues or fees.

IRA-EPSvcA-IS-IRAdj

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE IRA El Paso Service Area - West Texas Region
 INTERIM RATE ADJUSTMENT

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro, and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, and T-1.

B. PURPOSE

Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7660

RATE SCHEDULESCHEDULE IDDESCRIPTION

recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for

DESCRIPTION

reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

 PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program.

The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

DESCRIPTION

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Total Testing Each Class'
Demand

_____ = Expense x Total Demand of the
Testing Expense = Expense x Total Demand of the
Applicable Classes

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class = Each Class' Total Allocated
Testing Expense

_____ = Each Class' Total Allocated
48 Months

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge = Monthly Recovery from Each
Class

_____ = Monthly Recovery from Each
Monthly Usage of Each Class Estimated

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7660

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and

DESCRIPTION

approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS CHAPTER 8
PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
Rule Section 8.201 Pipeline Safety and Regulatory Program Fees
(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the

RATE SCHEDULESCHEDULE IDDESCRIPTION

amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

DESCRIPTION

the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

TEXAS GAS SERVICE COMPANY

RATE SCHEDULE RCE RIDER

El Paso Service Area - Incorporated

RATE CASE EXPENSE (RCE) SURCHARGE

A. APPLICABILITY

Pursuant to the Final Order in GUD No. 10016, the Rate Case Expense (RCE) Surcharge set forth in Section B. below shall apply to all gas sales customers (except special contract customers) located in that portion of the Company's El Paso Service Area (EPSA) that is within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas, including customers served under Rate Schedules 10, 20, 21, 25, 26, 27, 40, C-1, SS, and T-1.

B. RCE SURCHARGE

- The initial RCE Surcharge per Ccf for each billing period shall be: \$0.0053
- The RCE Surcharge per Ccf for each billing period from April 2013 - March 2014 shall be: \$0.0054

This rate, as adjusted pursuant to Section C. below, shall be designed to recover the approved level of Company and City rate case expenses of \$2,536,360.75 over a recovery period of three years. However, if the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, is collected in less than three years, then this Rider shall cease to be operable and the Company shall cease to apply the Rate Case Expense Surcharge. If the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, has not been collected by the end of the three-year recovery period, then this Rider shall remain in effect beyond the three-year recovery period only until all approved rate case expenses have been recovered under the applicable rate schedules, and any interest accruing on overrecoveries or underrecoveries has been recovered from or refunded or credited to the Company's customers.

C. OTHER ADJUSTMENTS

The applicable RCE Surcharge shall be adjusted annually to reflect interest on any underrecoveries or overrecoveries calculated at the Company's 6.21% cost of long-term debt as determined by the Railroad Commission of Texas in GUD No. 9988. In addition to the RCE Surcharge, applicable revenue-related taxes and fees, including franchise fees, shall also be recovered based on the revenue amounts collected hereunder.

D. ANNUAL COMPLIANCE FILING On or before February 21st following each calendar year in which an RCE Surcharge was applied to recover rate case expenses under this Rider, the Company shall file a written report with the Commission and the EPSA Cities showing the total amount of rate case expenses (including any adjustments made to reflect interest on overrecoveries or underrecoveries accruing to the

RATE SCHEDULE PSF
PIPELINE SAFETY AND REGULATORY PROGRAM FEES
TEXAS ADMINISTRATIVE CODE TITLE 16
ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS CHAPTER 8
PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7669

RATE SCHEDULESCHEDULE IDDESCRIPTION

pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

PIT-EPSvcA-ISOS

TEXAS GAS SERVICE COMPANY

RATE SCHEDULE PIT

El Paso Service Area - West Texas Region

PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test

DESCRIPTION

water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Demand		Total Testing Expense			Each Class' Demand
------------------------------------	--	-----------------------	--	--	--------------------

Testing Expense of Applicable Classes	=	Expense	x		Total Demand of the Applicable Classes
---------------------------------------	---	---------	---	--	--

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class Testing Expense		=			Each Class' Total Allocated Testing Expense
--	--	---	--	--	---

48 Months

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge		=			Monthly Recovery from Each Class
---------------------------	--	---	--	--	----------------------------------

_____ Estimated

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7669

RATE SCHEDULESCHEDULE IDDESCRIPTION

Monthly Usage of Each Class

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the

DESCRIPTION

average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received by the Company during the twelve (12) month period ending June 30 by the sum of the volumes delivered to customers. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso

DESCRIPTION

pursuant to applicable franchise ordinances. General Service customers in the unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible cost of Gas during the period, (f) the total amount of FERC Intervention Costs, and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of applicable fees and taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) the total amount of FERC Intervention Costs.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also include prudently incurred internal travel expenses related to this purpose.

8. Uncollectible Cost of Gas - the amounts actually written off after the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7669

RATE SCHEDULESCHEDULE IDDESCRIPTION

effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph ?F? below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated

to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the fees and taxes; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section F, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account.

This report shall be filed concurrently with the Cost of Gas Statement for December.

unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible cost of Gas during the period, (f) the total amount of FERC Intervention Costs, and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of applicable fees and taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) the total amount of FERC Intervention Costs.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also include prudently incurred internal travel expenses related to this purpose.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7670

RATE SCHEDULESCHEDULE IDDESCRIPTION

No. 1910106 as of the end of each reconciliation period.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph ?F? below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an

adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the fees and taxes; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section F, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account.

This report shall be filed concurrently with the Cost of Gas Statement for December.

PIT-EPSvcA-ISOS

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE PIT
 El Paso Service Area - West Texas Region
 PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with

DESCRIPTION

providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Total Testing Each Class'
 Demand

_____ = Expense x Total Demand of the
 Testing Expense Applicable Classes

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class = Each Class' Total Allocated
 Testing Expense

_____ = Estimated
 48 Months

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge = Monthly Recovery from Each
 Class

_____ = Estimated
 Monthly Usage of Each Class

Based upon customer data for the prior calendar year and any other relevant

RATE SCHEDULESCHEDULE IDDESCRIPTION

factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate

DESCRIPTION

mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7670

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

(B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

SCHEDULE ID	DESCRIPTION
1-1-ElPasSvcA-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-1 El Paso Service Area - West Texas Region</p> <p>COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.</p> <p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received by the Company during the twelve (12) month period ending June 30 by the sum of the volumes delivered to customers. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.</p> <p>3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the</p>

unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible cost of Gas during the period, (f) the total amount of FERC Intervention Costs, and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of applicable fees and taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) the total amount of FERC Intervention Costs.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also include prudently incurred internal travel expenses related to this purpose.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account

TARIFF CODE: DS RRC TARIFF NO: 7671

RATE SCHEDULESCHEDULE IDDESCRIPTION

No. 1910106 as of the end of each reconciliation period.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph ?F? below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an

RATE SCHEDULESCHEDULE IDDESCRIPTION

adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the fees and taxes; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section F, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account.

This report shall be filed concurrently with the Cost of Gas Statement for December.

DESCRIPTION

PIT-EPSvcA-ISOS

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE PIT
 El Paso Service Area - West Texas Region
 PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program.

The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this

DESCRIPTION

Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Demand		Total Testing Expense		Each Class' Total Demand of the
------------------------------------	--	-----------------------	--	---------------------------------

$\frac{\text{Testing Expense}}{\text{Applicable Classes}}$	=	$\frac{\text{Total Testing Expense}}{\text{Total Demand of the Applicable Classes}}$	x	Each Class' Total Demand of the
--	---	--	---	---------------------------------

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class Testing Expense	=	$\frac{\text{Each Class' Total Allocated Testing Expense}}{48 \text{ Months}}$
--	---	--

48 Months

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge	=	$\frac{\text{Monthly Recovery from Each Class}}{\text{Estimated Monthly Usage of Each Class}}$
---------------------------	---	--

Estimated

Monthly Usage of Each Class

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7671

RATE SCHEDULESCHEDULE IDDESCRIPTION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly

SCHEDULE ID

DESCRIPTION

addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission;
- (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to

RATE SCHEDULESCHEDULE IDDESCRIPTION

the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-1-ElPasSvcA-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-1 El Paso Service Area - West Texas Region</p> <p>COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.</p> <p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received by the Company during the twelve (12) month period ending June 30 by the sum of the volumes delivered to customers. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.</p> <p>3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible cost of Gas during the period, (f) the total amount of FERC Intervention Costs, and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of applicable fees and taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) the total amount of FERC Intervention Costs.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also include prudently incurred internal travel expenses related to this purpose.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7672

RATE SCHEDULESCHEDULE IDDESCRIPTION

No. 1910106 as of the end of each reconciliation period.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph ?F? below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7672

RATE SCHEDULESCHEDULE IDDESCRIPTION

adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the fees and taxes; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section F, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account.

This report shall be filed concurrently with the Cost of Gas Statement for December.

PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7672

RATE SCHEDULESCHEDULE IDDESCRIPTION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly

DESCRIPTION

addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

SCHEDULE IDDESCRIPTION

to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to

RATE SCHEDULESCHEDULE IDDESCRIPTION

the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

SCHEDULE ID	DESCRIPTION
1-1-ElPasSvcA-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-1 El Paso Service Area - West Texas Region</p> <p>COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.</p> <p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received by the Company during the twelve (12) month period ending June 30 by the sum of the volumes delivered to customers. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.</p> <p>3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the</p>

unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible cost of Gas during the period, (f) the total amount of FERC Intervention Costs, and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of applicable fees and taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) the total amount of FERC Intervention Costs.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also include prudently incurred internal travel expenses related to this purpose.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account

TARIFF CODE: DS RRC TARIFF NO: 7673

RATE SCHEDULESCHEDULE IDDESCRIPTION

No. 1910106 as of the end of each reconciliation period.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph ?F? below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an

adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the fees and taxes; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section F, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account.

This report shall be filed concurrently with the Cost of Gas Statement for December.

DESCRIPTION

APPLICABILITY

Applicable to gas used in internal combustion engines by various municipal agencies in El Paso County, Texas. This rate is only available to full requirements customers of Texas Gas Service Company. TERRITORY Environs of the El Paso Service Area.

COST OF SERVICE RATE

During each monthly billing period:

A customer charge per meter per month of \$121.75 plus

Interim Rate Adjustment (IRA)

\$181.43 (Footnote 1)

Total Customer Charge

\$303.18

All Ccf per monthly billing period @

The First 5000 Ccf @ \$ 0.06817 per Ccf

The Next 5000 Ccf @ \$ 0.05817 per Ccf

Prompt Payment Provision: None.

OTHER ADJUSTMENTS

Cost of Gas Component: In addition to the Cost of Service set forth above, each customer's bill shall include an amount equal to the Cost of Gas for the billing month as determined in accordance with Rate Schedule No. 1-1 multiplied by the total Ccf consumed during the billing month.

Taxes: Plus applicable taxes and fees related to above.

CONDITIONS

1. Delivery of gas hereunder may be interrupted or curtailed at the discretion of the Company, in case of shortage or threatened shortage of gas supply from any cause whatsoever, to conserve gas for other consumers.

2. The applicability section of this rate notwithstanding, if a customer, other than a full requirement customer, pays a standby charge pursuant to Rate Schedule S.S., Texas Gas Service Company will maintain facilities and supply capability to serve said customer. If standby payments are current, the customer will qualify for this rate.

PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7673

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7673

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Total Testing Each Class'
 Demand

_____ = Expense x Total Demand of the
 Testing Expense = Expense x Total Demand of the
 Applicable Classes

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class = Each Class' Total Allocated
 Testing Expense

_____ = Each Class' Total Allocated
 48 Months

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge = Monthly Recovery from Each
 Class

_____ = Monthly Recovery from Each
 Monthly Usage of Each Class Estimated

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7673

RATE SCHEDULESCHEDULE IDDESCRIPTION

of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

DESCRIPTION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

SCHEDULE IDDESCRIPTION

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the

purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

 ENVIRONS RATE CASE EXPENSE SURCHARGE

A. APPLICABILITY

The Rate Case Expense Surcharge (RCE) rate as set forth in Section (B) below is pursuant to Final Order in GUD 10142. This rate shall apply to the following rate schedules of Texas Gas Service Company in the unincorporated areas of the El Paso Service Area including El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton Texas: 1Z, 2A, 2E, 2F, 2G, 2Z, 4Z, C-1, SS-Env, and T-1-Env.

B. RCE RATE

Per bill for each billing period: \$0.25

This rate will be in effect for approximately 12 months from the date of the Final Order in GUD No. 10142 until all approved and expended rate case expense are recovered under the applicable rate schedules. Not to exceed \$36,256.89.

C. OTHER ADJUSTMENTS

Taxes: Plus applicable taxes and fees related to above.

D. CONDITIONS

Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.

E. COMPLIANCE REPORT

Within 45 days the final collection month, TGS shall file a reconciliation report. TGS shall file the report with the Commission, addressed to the Director of the Gas Services Division and referencing Gas Utilities Docket No. 10142, Rate Case Expense Recovery Report. The report shall include: - the meters billed by month by customer class during the applicable period, - the amount of Rate Case Expense recovered, by month, - the outstanding balance, by month

SCHEDULE ID	DESCRIPTION
1-1-ElPasSvcA-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-1 El Paso Service Area - West Texas Region</p> <p>COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.</p> <p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received by the Company during the twelve (12) month period ending June 30 by the sum of the volumes delivered to customers. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.</p> <p>3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the</p>

SCHEDULE IDDESCRIPTION

unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible cost of Gas during the period, (f) the total amount of FERC Intervention Costs, and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of applicable fees and taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) the total amount of FERC Intervention Costs.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also include prudently incurred internal travel expenses related to this purpose.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7674

RATE SCHEDULESCHEDULE IDDESCRIPTION

No. 1910106 as of the end of each reconciliation period.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph ?F? below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an

RATE SCHEDULESCHEDULE IDDESCRIPTION

adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the fees and taxes; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section F, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account.

This report shall be filed concurrently with the Cost of Gas Statement for December.

PIPELINE INTEGRITY TESTING (PIT) RIDER

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7674

RATE SCHEDULESCHEDULE IDDESCRIPTION

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program.

The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline

DESCRIPTION

Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Total Testing Each Class' Demand

Testing Expense = Expense x Total Demand of the Applicable Classes

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class = Each Class' Total Allocated Testing Expense

48 Months

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge = Monthly Recovery from Each Class

Monthly Usage of Each Class Estimated

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the

GAS SERVICES DIVISION

RATE SCHEDULESCHEDULE IDDESCRIPTION

Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

DESCRIPTION

FINAL REVIEW, RECONCILIATION, AND TERMINATION
 After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

TEXAS ADMINISTRATIVE CODE TITLE 16
ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS CHAPTER 8
PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
Rule Section 8.201 Pipeline Safety and Regulatory Program Fees
(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any

RATE SCHEDULESCHEDULE IDDESCRIPTION

fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned

RATE SCHEDULESCHEDULE IDDESCRIPTION

natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.</p> <p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received by the Company during the twelve (12) month period ending June 30 by the sum of the volumes delivered to customers. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.</p> <p>3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the</p>

unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible cost of Gas during the period, (f) the total amount of FERC Intervention Costs, and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of applicable fees and taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) the total amount of FERC Intervention Costs.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also include prudently incurred internal travel expenses related to this purpose.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7676

RATE SCHEDULESCHEDULE IDDESCRIPTION

No. 1910106 as of the end of each reconciliation period.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph ?F? below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an

RATE SCHEDULESCHEDULE IDDESCRIPTION

adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the fees and taxes; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section F, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account.

This report shall be filed concurrently with the Cost of Gas Statement for December.

RATE SCHEDULESCHEDULE IDDESCRIPTION

PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7676

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Total Testing Each Class'
Demand

_____ = Expense x Total Demand of the
Testing Expense = Expense x Total Demand of the
Applicable Classes

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class = Each Class' Total Allocated
Testing Expense

_____ = Each Class' Total Allocated
48 Months

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge = Monthly Recovery from Each
Class

_____ = Monthly Recovery from Each
Monthly Usage of Each Class Estimated

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7676

RATE SCHEDULESCHEDULE IDDESCRIPTION

for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the

DESCRIPTION

same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS CHAPTER 8
PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7676

RATE SCHEDULESCHEDULE IDDESCRIPTION

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7677

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis

GAS SERVICES DIVISION

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

 RATE SCHEDULE PSF
 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS CHAPTER 8
 PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission;
- (C) shall be applied in the billing

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7677

RATE SCHEDULESCHEDULE IDDESCRIPTION

cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

B. RCE SURCHARGE

- The initial RCE Surcharge per Ccf for each billing period shall be: \$0.0053
- The RCE Surcharge per Ccf for each billing period from April 2013 - March 2014 shall be: \$0.0054

This rate, as adjusted pursuant to Section C. below, shall be designed to recover the approved level of Company and City rate case expenses of \$2,536,360.75 over a recovery period of three years. However, if the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, is collected in less than three years, then this Rider shall cease to be operable and

GAS SERVICES DIVISION

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

the Company shall cease to apply the Rate Case Expense Surcharge. If the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, has not been collected by the end of the three-year recovery period, then this Rider shall remain in effect beyond the three-year recovery period only until all approved rate case expenses have been recovered under the applicable rate schedules, and any interest accruing on overrecoveries or underrecoveries has been recovered from or refunded or credited to the Company's customers.

C. OTHER ADJUSTMENTS

The applicable RCE Surcharge shall be adjusted annually to reflect interest on any underrecoveries or overrecoveries calculated at the Company's 6.21% cost of long-term debt as determined by the Railroad Commission of Texas in GUD No. 9988. In addition to the RCE Surcharge, applicable revenue-related taxes and fees, including franchise fees, shall also be recovered based on the revenue amounts collected hereunder.

D. ANNUAL COMPLIANCE FILING On or before February 21st following each calendar year in which an RCE Surcharge was applied to recover rate case expenses under this Rider, the Company shall file a written report with the Commission and the EPSA Cities showing the total amount of rate case expenses (including any adjustments made to reflect interest on overrecoveries or underrecoveries accruing to the Company or its customers) that (a) were recovered during the preceding calendar year, (b) have been cumulatively recovered since the effective date of the Rider, and (c) still remain to be recovered through the Rider pursuant to the Commission's Final Order in GUD No. 10016. The report shall also include a calculation of the RCE Surcharge that is to be applied during the ensuing recovery period.

E. CONDITIONS Service under this rate schedule shall be subject to all applicable laws and orders and to the Company's rules and regulations on file with the regulatory authority.

TEXAS GAS SERVICE COMPANY
El Paso Service Area - West Texas Region
RATE SCHEDULE NO. 1-1-INC
COST OF GAS CLAUSE

A. APPLICABILITY
This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area.

B. DEFINITIONS
1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7677

RATE SCHEDULESCHEDULE IDDESCRIPTION

include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component, Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7677

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7677

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the

GAS SERVICES DIVISION

DESCRIPTION

Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report to demonstrate that gas costs were acquired during ordinary and atypical periods at the lowest prudently incurred price and necessary to provide reliable service to retail customers.

TEXAS GAS SERVICE COMPANY
 El Paso Service Area - West Texas Region
 RATE SCHEDULE C-1

ELECTRICAL COGENERATION AND ENERGY CONSERVATION RATE

APPLICABILITY

Service under this rate schedule is available to any customer who enters into a contract with the Company to use natural gas for the purpose of cogeneration. Cogeneration is defined as the use of thermal energy to produce electricity with recapture of by-product heat in the form of steam, exhaust heat, etc. for industrial process use, space heating, food processing or other purposes.

TERRITORY

This rate shall be available throughout the Company's El Paso Service Area which

GAS SERVICES DIVISION

DESCRIPTION

includes El Paso, Anthony, Clint, Horizon City, Socorro and Vinton, Texas.

COST OF SERVICE RATE

During each monthly billing period:

A Customer Charge of \$300.50 plus -

Oct. - April

May - Sept.

Winter

Summer

The First	5,000 Ccf	\$.07108 per Ccf
\$.06107 per Ccf		
The Next	95,000 Ccf		.06108 per Ccf
	.05106 per Ccf		
The Next	300,000 Ccf		.05108 per Ccf
	.04107 per Ccf		
All Over	400,000 Ccf		.04108 per Ccf
	.03106 per Ccf		

Cost of Gas Component: In addition to the Cost of Service set forth above, each customer's bill shall include an amount equal to the Cost of Gas for the billing month as determined in accordance with Rate Schedule No. 1-1-INC multiplied by the total Ccf consumed during the billing month.

CONDITIONS

1. Gas taken under this rate shall be used exclusively for the purpose of cogeneration as defined in the Applicability section of this rate schedule and not for other purposes. The gas taken under this rate will be separately metered.
2. This rate will not be available for standby use.
3. For the purpose of this rate, the annual load factor must be 60 percent or greater. The annual load factor is defined as the customer's total annual consumption divided by the customer's peak month consumption times twelve. If less than 60 percent load factor occurs for a twelve-month period, the rate charged will revert back to the rate that the customer would have otherwise been served under. A continuous twelve-month period of 60 percent or better load factor must precede a return to the cogeneration rate.
4. To qualify for the summer discounts, the customers' peak summer months load must be at least 75 percent of the customers' peak winter months load. Failure to meet this requirement will result in an adjustment to the customers' October bill equal to the difference between the winter and summer rates times that year's total May through September consumption by that customer.
5. The curtailment priority of any customer served under this rate schedule shall be the same as the curtailment priority which would pertain if gas were used directly to provide energy for uses as defined and listed in paragraph 14.2 of the Company's Texas Rules of Service.

TARIFF CODE: DS RRC TARIFF NO: 7679

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

TEXAS GAS SERVICE COMPANY

RATE SCHEDULE NO. 1-1

El Paso Service Area - West Texas Region

COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received by the Company during the twelve (12) month period ending June 30 by the sum of the volumes delivered to customers. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

authority.

3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible cost of Gas during the period, (f) the total amount of FERC Intervention Costs, and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7679

RATE SCHEDULESCHEDULE IDDESCRIPTION

limited to balancing service rate and stranded capacity charges net of applicable fees and taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) the total amount of FERC Intervention Costs.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also include prudently incurred internal travel expenses related to this purpose.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph ?F? below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction

TARIFF CODE: DS RRC TARIFF NO: 7679

RATE SCHEDULESCHEDULE IDDESCRIPTION

closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the fees and taxes; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section F, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account.

TEXAS GAS SERVICE COMPANY
El Paso Service Area - West Texas Region
RATE SCHEDULE C-1

ELECTRICAL COGENERATION AND ENERGY CONSERVATION RATE

APPLICABILITY

Service under this rate schedule is available to any customer who enters into a contract with the Company to use natural gas for the purpose of cogeneration. Cogeneration is defined as the use of thermal energy to produce electricity with recapture of by-product heat in the form of steam, exhaust heat, etc. for industrial process use, space heating, food processing or other purposes.

TERRITORY This rate shall be available throughout the Company's El Paso Service Area.

COST OF SERVICE RATE

During each monthly billing period:

A Customer Charge of \$300.50 plus - Oct. - April
May - Sept.

	Summer	Winter
The First 5,000 Ccf	\$ 0.07108 per Ccf	
\$ 0.06107 per Ccf		
The Next 95,000 Ccf	0.06108 per Ccf	
0.05106 per Ccf		
The Next 300,000 Ccf	0.05108 per Ccf	
0.04107 per Ccf		
All Over 400,000 Ccf	0.04108 per Ccf	
0.03106 per Ccf		

Cost of Gas Component: In addition to the Cost of Service set forth above, each customer's bill shall include an amount equal to the Cost of Gas for the billing month as determined in accordance with Rate Schedule No. 1-1-INC multiplied by the total Ccf consumed during the billing month.

CONDITIONS

1. Gas taken under this rate shall be used exclusively for the purpose of cogeneration as defined in the Applicability section of this rate schedule and not for other purposes. The gas taken under this rate will be separately metered.

2. This rate will not be available for standby use.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7679

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

3. For the purpose of this rate, the annual load factor must be 60 percent or greater. The annual load factor is defined as the customer's total annual consumption divided by the customer's peak month consumption times twelve. If less than 60 percent load factor occurs for a twelve-month period, the rate charged will revert back to the rate that the customer would have otherwise been served under. A continuous twelve-month period of 60 percent or better load factor must precede a return to the cogeneration rate.

4. To qualify for the summer discounts, the customers' peak summer months load must be at least 75 percent of the customers' peak winter months load. Failure to meet this requirement will result in an adjustment to the customers' October bill equal to the difference between the winter and summer rates times that year's total May through September consumption by that customer.

5. The curtailment priority of any customer served under this rate schedule shall be the same as the curtailment priority which would pertain if gas were used directly to provide energy for uses as defined and listed in paragraph 14.2 of the Company's Texas Rules of Service.

6. Subject in all respects to applicable laws, rules and regulations from time to time in effect.

TARIFF CODE: DS RRC TARIFF NO: 7680

RATE SCHEDULESCHEDULE IDDESCRIPTION

regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

TEXAS GAS SERVICE COMPANY
 South Jefferson County Service Area - Gulf Coast Region
 RATE SCHEDULE NO. 1-1
 COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7680

RATE SCHEDULESCHEDULE IDDESCRIPTION

natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7680

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the

GAS SERVICES DIVISION

DESCRIPTION

Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

I. PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June. .

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
	<p>Clause, Rate Schedule No. 1-1 and 1-1-INC.CONDITIONS1. Gas taken under this rate shall be used exclusively for the purpose of cogeneration as defined in the Applicability section of this rate schedule and not for other purposes. The gas taken under this rate will be separately metered.2. This rate will not be available for standby use. Supersedes Same Sheet Dated Gas Sold On and After November 30, 1988 February 13, 1992 (Revised) TEXAS GAS SERVICE COMPANY South Jefferson County Service Area - Gulf Coast Region RATE SCHEDULE C-1 Page 2 of 2 ELECTRICAL COGENERATION AND ENERGY CONSERVATION SERVICE RATE(Continued)3. For the purpose of this rate, the annual load factor must be 60 percent or greater. The annual load factor is defined as the customer's total annual consumption divided by the customer's peak month consumption times twelve. If less than a 60 percent load factor occurs for a twelve-month period, the rate charged will revert back to the rate that the customer would have otherwise been served under. A continuous twelve-month period of 60 percent or better load factor must precede a return to the cogeneration rate.4. To qualify for the summer discounts, the customer's peak summer month's load must be at least 75% of the customer's peak winter month's load. Failure to meet this requirement will result in an adjustment to the customer's October bill equal to the difference between the winter and summer rates times that years total May through September consumption by that customer.5. The curtailment priority of any customer served under this rate schedule shall be the same as the curtailment priority which would pertain if gas were used directly to provide energy for uses as defined and listed in paragraph 14.2 of the Company's Texas Rules of Service.6. Subject in all respects to applicable laws, rules and regulations from time to time in effect. Supersedes Same Sheet Dated Gas Sold On and After November 30, 1988 February 13, 1992 (Revised)</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

TEXAS GAS SERVICE COMPANY
South Jefferson County Service Area - Gulf Coast Region
RATE SCHEDULE NO. 1-1
COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7681

RATE SCHEDULESCHEDULE IDDESCRIPTION

natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7681

RATE SCHEDULESCHEDULE IDDESCRIPTION

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

DESCRIPTION

Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

I. PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June. .

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
PIT-EPSvcA-ISOS	TEXAS GAS SERVICE COMPANY RATE SCHEDULE PIT El Paso Service Area - West Texas Region PIPELINE INTEGRITY TESTING (PIT) RIDER PURPOSE The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act. APPLICABILITY This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers. TERRITORY This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities. QUALIFYING EXPENSES This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components

DESCRIPTION

thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Total Testing Each Class'
 Demand

_____ = Expense x Total Demand of the
 Testing Expense = Expense x Total Demand of the
 Applicable Classes

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class = Each Class' Total Allocated
 Testing Expense

_____ = Each Class' Total Allocated
 48 Months

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge = Monthly Recovery from Each
 Class

_____ = Monthly Recovery from Each
 Monthly Usage of Each Class Estimated

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7682

RATE SCHEDULESCHEDULE IDDESCRIPTION

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

RATE SCHEDULESCHEDULE IDDESCRIPTION

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7682

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and

TEXAS GAS SERVICE COMPANY

RATE SCHEDULE NO. 1-1

El Paso Service Area - West Texas Region

COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received by the Company during the twelve (12) month period ending June 30 by the sum of the volumes delivered to customers. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7682

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible cost of Gas during the period, (f) the total amount of FERC Intervention Costs, and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause reduced by the amount of fees and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedules(s) including but not limited to balancing service rate and stranded capacity charges net of applicable fees and taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) the total amount of FERC Intervention Costs.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7682

RATE SCHEDULESCHEDULE IDDESCRIPTION

customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also include prudently incurred internal travel expenses related to this purpose.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph ?F? below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage,

TARIFF CODE: DS RRC TARIFF NO: 7682

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the fees and taxes; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section F, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account.

This report shall be filed concurrently with the Cost of Gas Statement for December.

Bliss billing shall include an amount equal to the Cost of Gas per billing month as determined in accordance with Rate Schedule No. 1-1. Cost per Ccf will be determined at 14.9 PSIA and multiplied by total Ccf consumed during the billing month.

CONDITIONS

1. In case of shortage of natural gas supply, or any other emergency not due to fault of the contractor, deliveries of gas hereunder may be curtailed in accordance with contractor's program of curtailment applicable to its consumers in the City of El Paso and Environs.
2. Volume of gas shown by meter readings will be corrected to 14.9 pounds per square inch absolute. Atmospheric pressure is agreed to be 12.8 pounds.
3. Subject to existing contract.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
PIT-EPSvcA-ISOS	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE PIT El Paso Service Area - West Texas Region PIPELINE INTEGRITY TESTING (PIT) RIDER</p> <p>PURPOSE The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover over a four-year period the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the four-year testing cycle from January 1, 2010, through December 31, 2013 (including contractor costs but excluding the labor cost of TGS employees), in the amount of \$2,197,846. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.</p> <p>APPLICABILITY This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.</p> <p>TERRITORY This Rider shall apply throughout the Company's El Paso Service Area (EPSA), both within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas (collectively, the EPSA Cities), and in the unincorporated areas (environs) adjacent to the EPSA Cities.</p> <p>QUALIFYING EXPENSES This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the EPSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components</p>

DESCRIPTION

thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's transmission pipelines in the EPSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense of \$2,197,846 in Pipeline Integrity Safety Testing expenses incurred by the Company over the four-year testing cycle from January 1, 2010, through December 31, 2013, and shall be calculated as follows:

First, the Total Testing Expense shall be allocated among the applicable customer classes in the same proportion that demand costs were assigned to those classes in the Class Cost of Service Study approved in the Company's most recent rate case in which rates were set by the Railroad Commission of Texas (the Commission) for customers in the EPSA Cities.

Each Class' Total Allocated Demand		Total Testing Expense	x	Each Class' Total Demand of the Applicable Classes
	=			

Second, the total dollar amount allocated to each customer class in the foregoing manner shall be divided by forty-eight (48) monthly billing cycles, so as to derive the amount that shall be ratably recovered from each class on a monthly basis during the four-year recovery period:

Monthly Recovery from Each Class Testing Expense		=		Each Class' Total Allocated Demand
48 Months				

Third, the total amount that is to be recovered on a monthly basis from each class shall be divided by the estimated average monthly usage for each class to produce the monthly PIT Surcharge for each class.

Each Class' PIT Surcharge Class		=		Monthly Recovery from Each Class
				Estimated
Monthly Usage of Each Class				

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7683

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Based upon customer data for the prior calendar year and any other relevant factors, the estimated monthly usage for each class may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each of the first three annual recovery periods, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the EPSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year of the four-year recovery period.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2010, and ending on December 31, 2013, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year of the testing cycle, the Company shall file a report with the Commission and the EPSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the EPSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year of the testing cycle, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on

DESCRIPTION

the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the EPSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

FINAL REVIEW, RECONCILIATION, AND TERMINATION

After the end of the four-year recovery period, the Company shall file a final reconciliation with the regulatory authority identifying all PIT Expenses recovered to date under this Rider, as well as any interest on overrecoveries refunded or credited to customers and any interest on underrecoveries recovered from customers during that period. In the event the total amount recovered differs from the total amount that TGS is authorized to recover under this Rider, then the Company shall include a calculation of the final surcharge, refund, or credit required to eliminate any such difference and shall implement same over a period of not more than four months. This Rider shall cease to be operable upon collection in this manner of the Total Testing Expenses authorized for collection hereunder, plus or minus any interest accruing on underrecoveries and overrecoveries, or sooner if ordered by the Commission or agreed upon by the Company and the EPSA Cities.

DESCRIPTION

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7683

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and

RCE-Rider-EPSvcA-IS

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE RCE RIDER
 El Paso Service Area - Incorporated
 RATE CASE EXPENSE (RCE) SURCHARGE

A. APPLICABILITY

Pursuant to the Final Order in GUD No. 10016, the Rate Case Expense (RCE) Surcharge set forth in Section B. below shall apply to all gas sales customers (except special contract customers) located in that portion of the Company's El Paso Service Area (EPSA) that is within the incorporated municipal limits of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas, including customers served under Rate Schedules 10, 20, 21, 25, 26, 27, 40, C-1, SS, and T-1.

B. RCE SURCHARGE

- The initial RCE Surcharge per Ccf for each billing period shall be: \$0.0053
- The RCE Surcharge per Ccf for each billing period from April 2013 - March 2014 shall be: \$0.0054

This rate, as adjusted pursuant to Section C. below, shall be designed to recover the approved level of Company and City rate case expenses of \$2,536,360.75 over a recovery period of three years. However, if the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, is collected in less than three years, then this Rider shall cease to be operable and the Company shall cease to apply the Rate Case Expense Surcharge. If the authorized level of rate case expenses, plus or minus interest on any overrecoveries or underrecoveries, has not been collected by the end of the three-year recovery period, then this Rider shall remain in effect beyond the three-year recovery period only until all approved rate case expenses have been recovered under the applicable rate schedules, and any interest accruing on overrecoveries or underrecoveries has been recovered from or refunded or credited to the Company's customers.

C. OTHER ADJUSTMENTS

The applicable RCE Surcharge shall be adjusted annually to reflect interest on any underrecoveries or overrecoveries calculated at the Company's 6.21% cost of long-term debt as determined by the Railroad Commission of Texas in GUD No. 9988. In addition to the RCE Surcharge, applicable revenue-related taxes and fees, including

franchise fees, shall also be recovered based on the revenue amounts collected hereunder.

D. ANNUAL COMPLIANCE FILING On or before February 21st following each calendar year in which an RCE Surcharge was applied to recover rate case expenses under this Rider, the Company shall file a written report with the Commission and the EPSA Cities showing the total amount of rate case expenses (including any adjustments made to reflect interest on overrecoveries or underrecoveries accruing to the Company or its customers) that (a) were recovered during the preceding calendar year, (b) have been cumulatively recovered since the effective date of the Rider, and (c) still remain to be recovered through the Rider pursuant to the Commission's Final Order in GUD No. 10016. The report shall also include a calculation of the RCE Surcharge that is to be applied during the ensuing recovery period.

E. CONDITIONS Service under this rate schedule shall be subject to all applicable laws and orders and to the Company's rules and regulations on file with the regulatory authority.

Texas Gas Service Company
Rate Schedule EPARR
El Paso Service Area - West Texas Region

El Paso Annual Rate Review

I. Purpose

This mechanism is designed to provide annual earnings transparency. All rate calculations under this tariff shall be made on an El Paso Service Area wide basis.

If, through the implementation of the provisions of this mechanism, it is determined that rates should be decreased or increased, then rates will be adjusted accordingly in the manner set forth herein. The rate adjustments implemented under this mechanism will reflect annual changes in the Company's cost of service and rate base. This Rider EPARR will be effective for the period commencing with the Company's first EPARR filing on or before April 15, 2014, and will remain in effect unless and until either the Company or the regulatory authority having original jurisdiction gives written notice to the contrary to the other by January 1 of the filing year. Upon receipt of such notice by either the Company or the regulatory authority having original jurisdiction, the Company shall prepare and file a Statement of Intent rate case with the regulatory authority within 180 days. Rates approved pursuant to this tariff shall remain in effect during the pendency of any Statement of Intent rate filing.

II. Definitions

a) The Filing Date shall occur on or before March 31 of each year with the exception of 2014, which shall have a Filing Date of April 15, 2014. The Annual Evaluation Date shall be the date the Company will make its annual filing under this mechanism. The Annual Evaluation Date shall, with the exception of 2014 be no earlier than March 1st nor later than March 31st of each year. This filing shall be made in electronic form where practicable.

b) Audited Financial Data shall mean the Company's books and records related to the Company's El Paso Service Area and shared services operations. Audited Financial Data shall not require the schedules and information provided under this tariff to undergo a separate financial audit by an outside auditing firm similar to the Company's annual financial audit.

c) The Company is defined as Texas Gas Service Company, a division of ONE Gas, Inc.

d) The Test Period is defined as the twelve-month period ending December 31, of each preceding calendar year. The Company's April 2014 filing will be based on the twelve-month period ending December 31, 2013.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7683

RATE SCHEDULESCHEDULE IDDESCRIPTION

e) The Rate Effective Period is defined as the twelve-month period commencing with the first billing cycle for August in each year and ending when subsequent rates are implemented under this tariff pursuant to a final order from a regulatory authority.

f) Final Order is defined as the most recent general rate case final order establishing the Company's effective rates for customers within the City of El Paso.

g) El Paso Service Area means the incorporated areas of El Paso, Anthony, Clint, Horizon City, San Elizario, Socorro, and Vinton, as well as the surrounding unincorporated areas served by the Company.

III. Rate Review Mechanism

The Company shall file with the City of El Paso the schedules specified below for the Test Period, with the filing to be made by the Annual Evaluation Date following the end of the Test Period. The schedules will be based upon the Company's Audited Financial Data, as adjusted, and will include the following:

a) Test Period ending balances for actual gross plant in service, accumulated depreciation, accumulated deferred income taxes, inventory, and other rate base components, with the exception of working capital, will be used for the calculation of rates for the Rate Effective Period. The ratemaking treatments, principles, findings and adjustments included in the Final Order will apply except when a departure from those treatments, principles, findings or adjustments is justified by changed circumstances. Regulatory adjustments due to prior regulatory rate base adjustment disallowances will be maintained. In addition:

(i) Cash working capital to be included in rate base will be zero 0;

(ii) With respect to pension and other postemployment benefits, the Company will record a regulatory asset or liability for these costs until the amounts are included in the next annual rate adjustment implemented under this tariff. Each year, the Company's filing under this tariff will clearly state the level of pension and other postemployment benefits recovered in rates. In addition, the Company may maintain one or more reserve accounts as provided in Tex. Util. Code. Sec. 104.059, and treat any surplus or shortage in the reserve accounts in accordance with Tex. Util. Code. Sec. 104.059.

(iii) For rate making purposes, the calculation of Accumulated Deferred Income Taxes (ADIT) will be based on the original book basis and tax basis for assets placed in service under the ownership of Southern Union and the original book basis and tax basis for assets placed in service subsequent to the acquisition of Southern Union's assets. Company-generated net operating losses may be considered in calculating the ADIT balance, if appropriate.

b) Depreciation rates booked in the period will be those approved in the Final Order, or the depreciation rates most recently approved for the El Paso Service Area and for the Shared Services Division by the Railroad Commission of Texas, as applicable, if and only if the City of El Paso has the right to participate in a subsequent Railroad Commission of Texas proceeding with a full right to have its reasonable expenses reimbursed. All calculation methodologies will be those approved in the Final Order except where noted or included in this tariff.

TARIFF CODE: DS RRC TARIFF NO: 7683

RATE SCHEDULESCHEDULE IDDESCRIPTION

- c) Return on Equity (ROE) shall be maintained at 10.1%.
- d) The cost of long-term debt will be the weighted cost of long-term debt for ONE Gas, Inc. determined at the end of the Test Period. The capital structure will be the ratio of long-term debt and equity determined at the end of the Test Period. For purposes of the filing in April 2014, the long-term cost of debt will be determined at January 31, 2014. For purposes of the filing in April 2014, the Capital Structure for the filing in April 2014 shall be determined at January 31, 2014, but in no event shall the capital structure consist of more than 57% equity.
- e) All applicable accounting adjustments along with all supporting work papers. Such adjustments may include:
- 1) Pro-forma adjustments to update and annualize costs and revenue billing determinants as of the end of the Test Period.
 - 2) Pro-forma or other adjustments required to properly account for atypical, unusual, or nonrecurring events recorded during the Test Period.
- f) Shared Services allocation factors shall be recalculated each year based on the latest component factors used during the Test Period, but the methodology used will be that approved in the Final Order.
- IV. Calculation of Rate Adjustment
- a) The Company shall provide additional schedules indicating the following revenue deficiency/sufficiency calculations using the class classification and allocation methodology accepted in the Final Order. The result shall be reflected in the proposed new rates to be established for the Rate Effective Period. In calculating the required rate adjustments, such adjustments will be applied to the minimum charge or customer charge if the rate class has no minimum charge.
- b) All reasonable and necessary operation and maintenance expenses from the Test Period will be used for the calculation of rates for the Rate Effective Period. Such amounts shall be prepared consistent with the rate making treatments approved in the Final Order subject to an allowance that authorizes the inclusion of (1) reasonable cost of meals and travel incurred during the Test Period (as limited by Sec IX) and (2) 25% of the Company's long-term and short-term incentive compensation costs incurred during the Test Period. The Company may include in its operations and maintenance expense reasonable costs of Pipeline Integrity testing conducted after completion of the 2010-2014 test cycle. The Company may also adjust rates for the Rate Effective Period to include recovery of any known and measurable changes to operating and maintenance costs. Known and measurable adjustments shall be limited to those changes that have occurred prior to the Filing Date.
- c) Effective with the Company's 2014 filing under this tariff, the Company may include in its rate base calculation all prudently incurred, direct, incremental investment and costs associated with Commission Rule 8.209.
- d) The regulatory authority may disallow any net plant investment that is not shown to be prudently incurred. Approval by the regulatory authority of net plant investment pursuant to the provisions of this tariff shall be deemed prudent and not subject to further review. In determining whether investment was prudently

TARIFF CODE: DS RRC TARIFF NO: 7683

RATE SCHEDULESCHEDULE IDDESCRIPTION

incurred, the regulatory authority shall base its decision on a review that examines as fair, just and reasonable.

e) The Company shall provide a schedule demonstrating the proof of revenues relied upon to calculate the proposed rate for the Rate Effective Period. The proposed rates shall conform as closely as is practicable to the revenue allocation principles approved in the Final Order except that any required increase or decrease shall be apportioned to the customer charge.

V. Attestation

A sworn statement shall be filed by an Officer of the Company affirming that the filed schedules are in compliance with the provisions of this mechanism and are true and correct to the best of his/her knowledge, information and belief. No testimony shall be filed, but a brief narrative explanation shall be provided of any changes to corporate structure, accounting methodologies or allocation of common costs.

VI. Evaluation Procedures

The City of El Paso shall have a minimum of 125 days to review and render a decision on the Company's filed schedules and work papers. The Company will be prepared to provide all supplemental information as may be requested to ensure adequate review by the relevant regulatory authority. The Company shall not unilaterally impose any limits upon the provision of supplemental information, with the exception of information claimed to be confidential, highly sensitive or proprietary, and such information shall be provided within ten (10) working days of the original request.

The regulatory authority may propose any adjustments it determines to be required to bring the schedules into compliance with the above provisions. Information claimed to be confidential, highly sensitive or proprietary shall be furnished to representatives of the Regulatory Authority pursuant to a confidentiality agreement in accordance with Texas Law.

During the 125 day period, the Company and the regulatory authority will work collaboratively and seek agreement on the proposed adjustments to the Company's schedule and proposed rates. If agreement has been reached by the Company and the regulatory authority, the regulatory authority shall authorize an increase or decrease to the Company's rates so as to achieve the revenue levels indicated for the Rate Effective Period. If, at the end of the 125 day period, the Company and the regulatory authority have not reached agreement on the proposed adjustments, the Company shall have the right to appeal the regulatory authority's action or inaction to the Railroad Commission of Texas. Upon the filing of an appeal of a city's order relating to an annual EPARR filing with the Railroad Commission of Texas, the regulatory authority shall not oppose the implementation of rates subject to refund or advocate the imposition of a third party surety bond by the Company.

To defray the cost, if any, of regulatory authority review of the Company's annual filing, the Company shall reimburse the regulatory authority for its reasonable expenses incurred upon submission of invoices for such review. The Company shall further be allowed to recover its reasonable and necessary expenses it incurs for

GAS SERVICES DIVISION

RATE SCHEDULESCHEDULE IDDESCRIPTION

outside services above any amounts included in the Test Year provided in connection with the annual filing subject to the review of the regulatory authority. Costs contemplated hereunder shall be deemed a reasonable and necessary operating expense of the Company in the year in which the reimbursement is made or the Company expense is incurred. A regulatory authority seeking reimbursement under this provision shall submit its request for reimbursement to the Company no later than September 1 of the year in which the annual filing is made and the Company shall reimburse the regulatory authority in accordance with this provision within 30 days of the submission.

VII. Reconsideration and Appeal

Orders issued pursuant to this mechanism are ratemaking orders and shall be subject to appeal under Sections 102.001(b) and 103.021, et seq., of the Texas Utilities Code (Vernon 2007).

VIII. Notice

Notice of this annual EPARR filing shall be provided by either: (1) including the notice, in conspicuous form, in the bill of each directly affected customer, or (2) sending the notice by email if the customer's bill is provided in this format no later than forty-five (45) days after the Company makes its annual filing pursuant to this tariff. The notice to customers shall include the following information:

- a) a description of the proposed revision of rates and schedules;
- b) the effect the proposed revision of rates is expected to have on the rates applicable to each customer class and on an average bill for each affected customer;
- c) the service area or areas in which the proposed rate adjustment would apply;
- d) the date the proposed rate adjustment was filed with the regulatory authority; and
- e) the Company's address, telephone number and website where information concerning the proposed rate adjustment may be obtained.

IX. EPARR Schedules and Information

The following types of employee reimbursed expenses and directly incurred costs are to be removed from all expense and rate base amounts included within Rider EPARR filings for the Test Period and for the Rate Effective Period: Amounts incurred for travel, meals or entertainment of employee spouses, domestic partners, significant others, children and pets.

Amounts for air travel that exceed published commercial coach air fares.

Amounts incurred for excessive rates for hotel rooms.

Amounts for alcoholic beverages.

Amounts paid for admission to entertainment, sports, art or cultural events, and all event sponsorship costs.

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
IRA-EPSvcA-IS-IRAdj	<p>Amounts for social club dues or fees.</p> <p>Initial Rate Schedule</p> <p>Meters Read On and After March 25, 2014 (City of El Paso only)</p> <p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE IRA El Paso Service Area - West Texas Region INTERIM RATE ADJUSTMENT</p> <p>A. APPLICABILITY This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro, and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, and T-1.</p> <p>B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.</p> <p>C. COMPUTATION OF IRA RATE The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.</p> <p>D. FILING WITH THE REGULATORY AUTHORITY 1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the</p>

DESCRIPTION

proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 8601

RATE SCHEDULESCHEDULE IDDESCRIPTION

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its South Jefferson County Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, and other purchased gas expenses.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 8601

RATE SCHEDULESCHEDULE IDDESCRIPTION

unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. This report shall be filed concurrently with the Cost of Gas Statement for October. Meters Read On and After April 1, 2013 Supersedes Same Sheet Dated April 28, 2006

PIPELINE SAFETY AND REGULATORY PROGRAM FEES
TEXAS ADMINISTRATIVE CODE TITLE 16
ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS CHAPTER 8
PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the

DESCRIPTION

annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division

and the Pipeline Safety Division a report showing:
 (A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

Panhandle Region

RATE SCHEDULE

1

COST OF GAS

CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Borger, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost per Ccf for gas purchased by the Company from its supplier or the weighted average cost per Ccf for gas purchased by the Company from all sources where applicable.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9193

RATE SCHEDULESCHEDULE IDDESCRIPTION

2. Purchase Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/1(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9193

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas (as defined in Section B, Number 4) incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%) per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or

GAS SERVICES DIVISION

RATE SCHEDULESCHEDULE IDDESCRIPTION

returned to the customers.

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the Borger area, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Borg-OS-COG	TEXAS GAS SERVICE COMPANY
	Borger Service Area - Panhandle Region
1	RATE SCHEDULE COST OF GAS
	CLAUSE
	A. APPLICABILITY
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Borger, Texas Service Area.
	B. DEFINITIONS
	1. Cost of Purchased Gas - The cost per Ccf for gas purchased by the Company from its supplier or the weighted average cost per Ccf for gas purchased by the Company from all sources where applicable.
	2. Purchase Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/1(1 - .05) unless expressly authorized by the applicable regulatory authority.
	3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.
	4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9194

RATE SCHEDULESCHEDULE IDDESCRIPTION

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas (as defined in Section B, Number 4) incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9194

RATE SCHEDULESCHEDULE IDDESCRIPTION

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%) per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the Borger area, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9194

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

PIPELINE SAFETY AND REGULATORY PROGRAM FEES

TEXAS ADMINISTRATIVE CODE TITLE 16

ECONOMIC REGULATION PART 1

RAILROAD COMMISSION OF TEXAS CHAPTER 8

PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

customer charge per bill of \$0.92, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;

DESCRIPTION

(B) the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Borg-OS-COG	TEXAS GAS SERVICE COMPANY Panhandle Region 1 RATE SCHEDULE COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Borger, Texas Service Area.	
B. DEFINITIONS	
1. Cost of Purchased Gas - The cost per Ccf for gas purchased by the Company from its supplier or the weighted average cost per Ccf for gas purchased by the Company from all sources where applicable.	
2. Purchase Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/1(1 - .05) unless expressly authorized by the applicable regulatory authority.	
3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9195

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas (as defined in Section B, Number 4) incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9195

RATE SCHEDULESCHEDULE IDDESCRIPTION

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%) per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the Borger area, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and

DESCRIPTION

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

PIPELINE SAFETY AND REGULATORY PROGRAM FEES

TEXAS ADMINISTRATIVE CODE TITLE 16

ECONOMIC REGULATION PART 1

RAILROAD COMMISSION OF TEXAS CHAPTER 8

PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

TARIFF CODE: DS RRC TARIFF NO: 9195

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Borg-OS-COG	TEXAS GAS SERVICE COMPANY Panhandle Region 1 RATE SCHEDULE COST OF GAS CLAUSE
A. APPLICABILITY	
<p>This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Borger, Texas Service Area.</p>	
B. DEFINITIONS	
<p>1. Cost of Purchased Gas - The cost per Ccf for gas purchased by the Company from its supplier or the weighted average cost per Ccf for gas purchased by the Company from all sources where applicable.</p>	
<p>2. Purchase Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/1(1 - .05) unless expressly authorized by the applicable regulatory authority.</p>	
<p>3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p>	
<p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.</p>	
<p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:</p>	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9196

RATE SCHEDULESCHEDULE IDDESCRIPTION

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas (as defined in Section B, Number 4) incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9196

RATE SCHEDULESCHEDULE IDDESCRIPTION

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%) per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the Borger area, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9196

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

PIPELINE SAFETY AND REGULATORY PROGRAM FEES

TEXAS ADMINISTRATIVE CODE TITLE 16

ECONOMIC REGULATION PART 1

RAILROAD COMMISSION OF TEXAS CHAPTER 8

PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

customer charge per bill of \$0.92, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Borg-OS-COG	TEXAS GAS SERVICE COMPANY Panhandle Region 1 RATE SCHEDULE COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Borger, Texas Service Area.	
B. DEFINITIONS	
1. Cost of Purchased Gas - The cost per Ccf for gas purchased by the Company from its supplier or the weighted average cost per Ccf for gas purchased by the Company from all sources where applicable.	
2. Purchase Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/1(1 - .05) unless expressly authorized by the applicable regulatory authority.	
3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9197

RATE SCHEDULESCHEDULE IDDESCRIPTION

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas (as defined in Section B, Number 4) incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9197

RATE SCHEDULESCHEDULE IDDESCRIPTION

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%) per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the Borger area, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

PIPELINE SAFETY AND REGULATORY PROGRAM FEES

TEXAS ADMINISTRATIVE CODE TITLE 16

ECONOMIC REGULATION PART 1

RAILROAD COMMISSION OF TEXAS CHAPTER 8

PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas

GAS SERVICES DIVISION

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and

DESCRIPTION

(D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
COSA-RGV-IS-COSAdj	TEXAS GAS SERVICE COMPANY RATE SCHEDULE COSA Rio Grande Valley Service Area COST OF SERVICE ADJUSTMENT CLAUSE
<p>A. APPLICABILITY</p> <p>This Cost of Service Adjustment Clause applies to all gas sales and standard transportation service rate schedules of Texas Gas Service Company (the Company) currently in force in the Company's Rio Grande Valley Service Area. If, through the implementation of the provisions of this mechanism, it is determined that rates should be decreased or increased, then rates will be adjusted accordingly in the manner set forth herein. This Rate Schedule is authorized for an implementation period of three (3) years commencing with the Company's filing under this rate schedule for the calendar year 2012, and shall automatically renew for successive single year periods unless either the Company or the regulatory authority having original jurisdiction gives written notice to the contrary to the other by February 1, 2015, or February 1 of each succeeding year after the three year implementation period. Both the cities and the Company retain their statutory right to initiate a rate proceeding at any time.</p> <p>B. EFFECTIVE DATE</p> <p>Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 1, with the rate adjustments to be effective with the first billing cycle of August 1st of each year. The first filing pursuant to this Rider shall be no later than May 1, 2013, and shall be based on the financial results for the calendar year ending December 31, 2012.</p> <p>C. COMPONENTS OF THE RATE ADJUSTMENT</p> <p>Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, and Federal Income Tax. The rate adjustment shall be included in the monthly Commodity Charge of the corresponding rate schedules. The actual percentage change in the Commodity Charge in any year shall not exceed five percent (5%), exclusive of those expenses identified in C.5. The Company shall file with each regulatory authority having original jurisdiction over the Company's rates the schedules specified below, by FERC Account, for the prior calendar year period. The schedules will be based upon the Company's audited financial data, as adjusted, and provided in a format that will allow for the same analysis as that undertaken of a Company Statement of Intent filing.</p> <p>C.1 Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account Nos. 403-407)* Taxes Other Than FIT (Account No. 408) ** Operation and Maintenance Expenses (Account Nos. 850-894, excluding any cost of gas related expenses) Customer Related Expenses (Account Nos.</p>

DESCRIPTION

901-916) Administrative & General Expenses (Account Nos. 920-932) Interest on Customer Deposits (Account No. 431) * Based on the last approved depreciation methods and lives. ** Excluding City Franchise Fees, Gross Receipts, and any other revenue-based tax. All shared expenses allocated to RGV must be supported by workpapers containing the allocation, methodology and factors. This information will be presented with supporting calculations. The Company shall provide additional information for all operating expenses upon request by the regulatory authority during the ninety (90) day review period specified in Section D.

C.2 Return on Investment - The return on investment is equal to the rate of return of 8.0845% multiplied by the rate base balance at the end of the applicable calendar year. The rate of return is composed of: Component Weighting Cost ROR Long-Term Debt 45.0000% 6.1100% 2.7495% Common Equity 55.0000% 9.7000% 5.3350% Total 100.0000% 8.0845% The rate base balance is composed of: Net Utility Plant in Service* Plus: ** Storage Gas Plus:** Materials and Supplies Inventories Prepayments Cash Working Capital Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * Net Utility Plant in Service as shown by FERC account. Gross utility plant in service and accumulated depreciation by account will be shown separately. ** These items will reflect the 13 month average materials and supplies inventories, storage gas inventories, and prepayments. Cash Working Capital shall be set to zero (\$0) absent a lead/lag study. Supporting information for all rate base items shall be provided to the regulatory authority during the ninety (90) day review period specified in Section D upon request by the regulatory authority.

C.3 Federal Income Tax Applicable calendar year federal income taxes will be calculated as follows: Net Taxable Income (applicable calendar-year end rate base multiplied by rate of return included in Section C.2.) Less: Interest on Long Term Debt (debt cost component of return as included in Section C.2 multiplied by the most recent calendar year end rate base) Multiplied by: Tax Factor (.35/(1-.35)) or .53846

C.4 Cost of Service Adjustment The amount to be collected through the Cost of Service Adjustment rate (Adjustment Amount) will be the sum of the amounts from Sections C.1, C.2, and C.3, less the calendar year normalized non-gas revenue (gas sales revenue excluding cost of gas revenue) and other revenue (i.e., transportation revenue and service charges). The difference shall be allocated among all customer classes in the same manner as approved in the most recent general rate case. For each customer class, the Adjustment Amount will be collected by adjusting the monthly Commodity Charges. This will be accomplished by dividing the Adjustment Amount by the normalized current year volumes* to determine a per ccf rate. This rate will be added to the Commodity Charge on the applicable rate schedule. *Normalized current year rate schedule T-2 volumes exclude volumes on which the Minimum Bill Charge is assessed.

C.5 Cost of Service Adjustment Rate Any change in the Cost of Service Adjustment shall not exceed an amount equal to five percent (5%) of the Commodity Charge effective for service in the Rio Grande Valley Service Area at the end of the calendar year immediately preceding the year in which the Cost of Service Adjustment is made, net of Annual Capital Investment costs*, the costs for the Company to provide public notice, comply with Integrity Assessment and Management

expenses**, and reimburse reasonable rate case expenses. Annual Capital Investment costs shall include expenses related to Accounts 403-408, as well as all investment in plant in service. ** Integrity Assessment and Management expenses shall include expenses related to the Railroad Commission of Texas Pipeline Integrity Assessment and Management plan rule, 16 Tex. Admin. Code Ann. Section 8.101, Risk Based Leak Survey Program 16 Tex. Admin. Code Ann. Section 8.206, Leak Grading and Repair 16 Tex. Admin. Code Ann. Section 8.207, Mandatory Removal and Replacement Program 16 Tex. Admin. Code Ann. Section 8.208, and 49 CFR Part 192 Subpart O Gas Transmission Pipeline Integrity Management.

C.6 Attestation A sworn statement shall be filed by the Company's Accounting Director, affirming that the filed schedules are in compliance with the provisions of this tariff and are true and correct to the best of his/her knowledge, information, and belief. No testimony shall be filed. C.7 Proof of Revenues The Company shall also provide a schedule demonstrating the proof of revenues relied upon to calculate the proposed Cost of Service Adjustment rate. The proposed rates shall conform as closely as practicable to the revenue allocation principles in effect prior to the adjustment. C.8 Notice Notice of the annual Cost of Service Adjustment shall be published in a form similar to that required under Section 104.103, TEX. UTIL. CODE ANN. no later than forty-five (45) days after the Company makes its annual filing pursuant to this rate schedule with the regulatory authority. The notice to customers shall include the following information: a) a description of the proposed revision of rates and schedules; b) the effect the proposed revision of rates is expected to have on the rates applicable to each customer class and on an average bill for each affected customer class; c) the service area or areas in which the proposed rate adjustment would apply; d) the date the proposed rate adjustment was filed with the regulatory authority; and e) the Company's address, telephone number, and website where information concerning the proposed Cost of Service Adjustment may be obtained.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The regulatory authority with original jurisdiction will have a period of not less than ninety (90) days within which to review the proposed Cost of Service Adjustment. During the review period, Company shall provide additional information and supporting documents as requested by the regulatory authority and such information shall be provided within ten (10) working days of the original request.

The rate adjustment shall take effect with the first billing cycle of August of each year. This Cost of Service Adjustment Rate Schedule does not limit the legal rights and duties of the regulatory authority. The Company's annual rate adjustment will be made in accordance with all applicable laws. If at the end of the ninety (90) day review period, the Company and the regulatory authority with original jurisdiction have not reached agreement on the proposed Cost of Service Adjustment Rate, the regulatory authority may take action to deny such adjustment, and the Company shall have the right to appeal the regulatory authority's action. Upon the filing of any appeal the Company shall have the right to implement the proposed Cost of Service Adjustment Rate, subject to refund. The Company will reimburse Cities for all reasonable and necessary legal and consulting expenses incurred to review this Cost of Service Adjustment. Any reimbursement of such costs will be recoverable through the Company's annual Cost of Service Adjustment rate.

SCHEDULE IDDESCRIPTION

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9224

RATE SCHEDULESCHEDULE IDDESCRIPTION

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and

WNA RGV-IS

TEXAS GAS SERVICE COMPANY
Rio Grande Valley Service Area
RATE SCHEDULE WNA
WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20 (other than Church Service), and 40. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer-than-normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule.

The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

WNA Rate = WNAD, where

CV WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

WNAD = (HDD Diff * CB * WF) * COS rate, where

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual

DESCRIPTION

heating degree days for the billing period. CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

CV = Current Volumes for the billing period.

D. FILING WITH THE CITIES

The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds.

TEXAS GAS SERVICE COMPANY
Rio Grande Valley Service Area
RATE SCHEDULE NO. 1
COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its incorporated areas in the Rio Grande Valley Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes (including franchise fees) and other purchased gas expenses.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period. .

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9224

RATE SCHEDULESCHEDULE IDDESCRIPTION

each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period and (f) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect: (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. Uncollectible Cost of Gas - The amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over-recovery or under-recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9224

RATE SCHEDULESCHEDULE IDDESCRIPTION

through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6 percent per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6 percent per annum compounded monthly.

F. SALE OF EXCESS GAS SUPPLY

For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve-month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost-related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1-July 31), the Company shall record up to the first \$235,543 in Excess Gas Sales Margin in to the Reconciliation Account. The \$235,543 reimburses the ratepayers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65 percent going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35 percent credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth: (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the Reconciliation Component; and (d) the Cost of Gas which is the total of items (b) and (c). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9224

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.
6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period.
7. A description of Uncollectible Cost of Gas during the period and its effect on the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for December.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-RGV-IS-COG	<p>TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area RATE SCHEDULE NO. 1 COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its incorporated areas in the Rio Grande Valley Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes (including franchise fees) and other purchased gas expenses.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period. .</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period and (f) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect: (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. Uncollectible Cost of Gas - The amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over-recovery or under-recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

over collected balance multiplied by interest of 6 percent per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6 percent per annum compounded monthly.

F. SALE OF EXCESS GAS SUPPLY

For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve-month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost-related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1-July 31), the Company shall record up to the first \$235,543 in Excess Gas Sales Margin in to the Reconciliation Account. The \$235,543 reimburses the ratepayers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65 percent going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35 percent credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth: (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the Reconciliation Component; and (d) the Cost of Gas which is the total of items (b) and (c). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of

DESCRIPTION

the operations of the Cost of Gas Clause to date.

4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.

5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.

6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period.

7. A description of Uncollectible Cost of Gas during the period and its effect on the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for December.

1/ The tax rates shown in columns (b) and (c) above are rates applied to gross receipts and are in addition to the revenues derived from general service rate schedules and the PGA adjustment. However, the State Comptroller has determined that beginning February 1, 1985, these taxes are includable when calculating gross receipts. This is accomplished by applying the Billing Tax Factor to all bills rendered by the Company for service within city limits. For example, for the City of Brownsville the 6.380% Billing Tax Factor added to a basic bill of \$100.00 would equal \$106.38. Bill Including Tax Adjustment \$106.38 Less: State Occupancy Tax @1.997% 2.12 City Franchise Fee @4.000% 4.26 Bill Before Tax Adjustment \$100.00 Supersedes Same Rate Sheet Dated Meters Read On and After March 31, 2009 July 30, 2009

TEXAS GAS SERVICE COMPANY
Rio Grande Valley Service Area
RATE SCHEDULE 20
COMMERCIAL SERVICE RATE

APPLICABILITY

Applicable to commercial consumers and to consumers not otherwise specifically provided for under any other rate schedule.

TERRITORY

All customers in the incorporated areas served by the Company in its Rio Grande Valley Service Area.

COST OF SERVICE RATE

During each monthly billing period:

A Customer Charge per meter per month of \$31.25 plus (For Commercial Service)
A Customer Charge per meter per month of \$18.75 plus (For Church Service)
All Ccf @ \$ 0.36896 per Ccf

OTHER ADJUSTMENTS

In addition to the Cost of Service set forth above, each customer's bill shall include the following adjustments:

Cost of Gas Component:

The basic rates for cost of service set forth above shall be increased by the amount of the Cost of Gas Component for the billing month computed in accordance with the provisions of Rate Schedule 1.

Weather Normalization Adjustment:

The billing shall reflect adjustments in accordance with the provisions of the Weather Normalization Adjustment Clause, Rate Schedule WNA.

COSA-RGV-IS-COSAdj

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE COSA
 Rio Grande Valley Service Area
 COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all gas sales and standard transportation service rate schedules of Texas Gas Service Company (the Company) currently in force in the Company's Rio Grande Valley Service Area. If, through the implementation of the provisions of this mechanism, it is determined that rates should be decreased or increased, then rates will be adjusted accordingly in the manner set forth herein. This Rate Schedule is authorized for an implementation period of three (3) years commencing with the Company's filing under this rate schedule for the calendar year 2012, and shall automatically renew for successive single year periods unless either the Company or the regulatory authority having original jurisdiction gives written notice to the contrary to the other by February 1, 2015, or February 1 of each succeeding year after the three year implementation period. Both the cities and the Company retain their statutory right to initiate a rate proceeding at any time.

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 1, with the rate adjustments to be effective with the first billing cycle of August 1st of each year. The first filing pursuant to this Rider shall be no later than May 1, 2013, and shall be based on the financial results for the calendar year ending December 31, 2012.

C. COMPONENTS OF THE RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, and Federal Income Tax. The rate adjustment shall be included in the monthly Commodity Charge of the corresponding rate schedules. The actual percentage change in the Commodity Charge in any year shall not exceed five percent (5%), exclusive of those expenses identified in C.5. The Company shall file with each regulatory authority having original jurisdiction over the Company's rates the schedules specified below, by FERC Account, for the prior

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9225

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

calendar year period. The schedules will be based upon the Company's audited financial data, as adjusted, and provided in a format that will allow for the same analysis as that undertaken of a Company Statement of Intent filing.

C.1 Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account Nos. 403-407)* Taxes Other Than FIT (Account No. 408) ** Operation and Maintenance Expenses (Account Nos. 850-894, excluding any cost of gas related expenses) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932) Interest on Customer Deposits (Account No. 431) * Based on the last approved depreciation methods and lives. ** Excluding City Franchise Fees, Gross Receipts, and any other revenue-based tax. All shared expenses allocated to RGV must be supported by workpapers containing the allocation, methodology and factors. This information will be presented with supporting calculations. The Company shall provide additional information for all operating expenses upon request by the regulatory authority during the ninety (90) day review period specified in Section D.

C.2 Return on Investment - The return on investment is equal to the rate of return of 8.0845% multiplied by the rate base balance at the end of the applicable calendar year. The rate of return is composed of: Component Weighting Cost ROR Long-Term Debt 45.0000% 6.1100% 2.7495% Common Equity 55.0000% 9.7000% 5.3350% Total 100.0000% 8.0845% The rate base balance is composed of: Net Utility Plant in Service* Plus: ** Storage Gas Plus: ** Materials and Supplies Inventories Prepayments Cash Working Capital Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * Net Utility Plant in Service as shown by FERC account. Gross utility plant in service and accumulated depreciation by account will be shown separately. ** These items will reflect the 13 month average materials and supplies inventories, storage gas inventories, and prepayments. Cash Working Capital shall be set to zero (\$0) absent a lead/lag study. Supporting information for all rate base items shall be provided to the regulatory authority during the ninety (90) day review period specified in Section D upon request by the regulatory authority.

C.3 Federal Income Tax Applicable calendar year federal income taxes will be calculated as follows: Net Taxable Income (applicable calendar-year end rate base multiplied by rate of return included in Section C.2.) Less: Interest on Long Term Debt (debt cost component of return as included in Section C.2 multiplied by the most recent calendar year end rate base) Multiplied by: Tax Factor (.35/(1-.35)) or .53846

C.4 Cost of Service Adjustment The amount to be collected through the Cost of Service Adjustment rate (Adjustment Amount) will be the sum of the amounts from Sections C.1, C.2, and C.3, less the calendar year normalized non-gas revenue (gas sales revenue excluding cost of gas revenue) and other revenue (i.e., transportation revenue and service charges). The difference shall be allocated among all customer classes in the same manner as approved in the most recent general rate case. For each customer class, the Adjustment Amount will be collected by adjusting the monthly Commodity Charges. This will be accomplished by dividing the Adjustment Amount by the normalized current year volumes* to determine a per ccf rate. This rate will be added to the Commodity Charge on the applicable

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9225

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

rate schedule. *Normalized current year rate schedule T-2 volumes exclude volumes on which the Minimum Bill Charge is assessed.

C.5 Cost of Service Adjustment Rate Any change in the Cost of Service Adjustment shall not exceed an amount equal to five percent (5%) of the Commodity Charge effective for service in the Rio Grande Valley Service Area at the end of the calendar year immediately preceding the year in which the Cost of Service Adjustment is made, net of Annual Capital Investment costs*, the costs for the Company to provide public notice, comply with Integrity Assessment and Management expenses**, and reimburse reasonable rate case expenses. Annual Capital Investment costs shall include expenses related to Accounts 403-408, as well as all investment in plant in service. ** Integrity Assessment and Management expenses shall include expenses related to the Railroad Commission of Texas Pipeline Integrity Assessment and Management plan rule, 16 Tex. Admin. Code Ann. Section 8.101, Risk Based Leak Survey Program 16 Tex. Admin. Code Ann. Section 8.206, Leak Grading and Repair 16 Tex. Admin. Code Ann. Section 8.207, Mandatory Removal and Replacement Program 16 Tex. Admin. Code Ann. Section 8.208, and 49 CFR Part 192 Subpart O Gas Transmission Pipeline Integrity Management.

C.6 Attestation A sworn statement shall be filed by the Company's Accounting Director, affirming that the filed schedules are in compliance with the provisions of this tariff and are true and correct to the best of his/her knowledge, information, and belief. No testimony shall be filed. C.7 Proof of Revenues The Company shall also provide a schedule demonstrating the proof of revenues relied upon to calculate the proposed Cost of Service Adjustment rate. The proposed rates shall conform as closely as practicable to the revenue allocation principles in effect prior to the adjustment. C.8 Notice Notice of the annual Cost of Service Adjustment shall be published in a form similar to that required under Section 104.103, TEX. UTIL. CODE ANN. no later than forty-five (45) days after the Company makes its annual filing pursuant to this rate schedule with the regulatory authority. The notice to customers shall include the following information: a) a description of the proposed revision of rates and schedules; b) the effect the proposed revision of rates is expected to have on the rates applicable to each customer class and on an average bill for each affected customer class; c) the service area or areas in which the proposed rate adjustment would apply; d) the date the proposed rate adjustment was filed with the regulatory authority; and e) the Company's address, telephone number, and website where information concerning the proposed Cost of Service Adjustment may be obtained.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The regulatory authority with original jurisdiction will have a period of not less than ninety (90) days within which to review the proposed Cost of Service Adjustment. During the review period, Company shall provide additional information and supporting documents as requested by the regulatory authority and such information shall be provided within ten (10) working days of the original request.

The rate adjustment shall take effect with the first billing cycle of August of each year. This Cost of Service Adjustment Rate Schedule does not limit the legal rights and duties of the regulatory authority. The Company's annual rate adjustment will be made in accordance with all applicable laws. If at the end of the ninety (90) day review period, the Company and the regulatory authority with original jurisdiction have not reached agreement on the proposed Cost of Service Adjustment

PIPELINE SAFETY AND REGULATORY PROGRAM FEES

TEXAS ADMINISTRATIVE CODE TITLE 16

ECONOMIC REGULATION PART 1

RAILROAD COMMISSION OF TEXAS CHAPTER 8

PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time

SCHEDULE ID

DESCRIPTION

customer charge per bill of \$0.92, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;

GAS SERVICES DIVISION

(B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA RGV-IS

TEXAS GAS SERVICE COMPANY
 Rio Grande Valley Service Area
 RATE SCHEDULE WNA
 WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20 (other than Church Service), and 40. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer-than-normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9225

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

WNA Rate = WNAD, where
 CV WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

WNAD = (HDD Diff * CB * WF) * COS rate, where

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period. CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

CV = Current Volumes for the billing period.

D. FILING WITH THE CITIES

The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-RGV-IS-COG	<p>TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area RATE SCHEDULE NO. 1 COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its incorporated areas in the Rio Grande Valley Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes (including franchise fees) and other purchased gas expenses.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period. .</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period and (f) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect: (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. Uncollectible Cost of Gas - The amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over-recovery or under-recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding

GAS SERVICES DIVISION

RATE SCHEDULESCHEDULE IDDESCRIPTION

over collected balance multiplied by interest of 6 percent per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6 percent per annum compounded monthly.

F. SALE OF EXCESS GAS SUPPLY

For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve-month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost-related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1-July 31), the Company shall record up to the first \$235,543 in Excess Gas Sales Margin in to the Reconciliation Account. The \$235,543 reimburses the ratepayers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65 percent going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35 percent credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth: (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the Reconciliation Component; and (d) the Cost of Gas which is the total of items (b) and (c). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of

the operations of the Cost of Gas Clause to date.

4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.

5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.

6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period.

7. A description of Uncollectible Cost of Gas during the period and its effect on the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for December.

1/ The tax rates shown in columns (b) and (c) above are rates applied to gross receipts and are in addition to the revenues derived from general service rate schedules and the PGA adjustment. However, the State Comptroller has determined that beginning February 1, 1985, these taxes are includable when calculating gross receipts. This is accomplished by applying the Billing Tax Factor to all bills rendered by the Company for service within city limits. For example, for the City of Brownsville the 6.380% Billing Tax Factor added to a basic bill of \$100.00 would equal \$106.38. Bill Including Tax Adjustment \$106.38 Less: State Occupancy Tax @1.997% 2.12 City Franchise Fee @4.000% 4.26 Bill Before Tax Adjustment \$100.00 Supersedes Same Rate Sheet Dated Meters Read On and After March 31, 2009 July 30, 2009

COSA-RGV-IS-COSAdj

TEXAS GAS SERVICE COMPANY
RATE SCHEDULE COSA
Rio Grande Valley Service Area
COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all gas sales and standard transportation service rate schedules of Texas Gas Service Company (the Company) currently in force in the Company's Rio Grande Valley Service Area. If, through the implementation of the provisions of this mechanism, it is determined that rates should be decreased or increased, then rates will be adjusted accordingly in the manner set forth herein. This Rate Schedule is authorized for an implementation period of three (3) years commencing with the Company's filing under this rate schedule for the calendar year 2012, and shall automatically renew for successive single year periods unless either the Company or the regulatory authority having original jurisdiction gives written notice to the contrary to the other by February 1, 2015, or February 1 of each succeeding year after the three year implementation period. Both the cities and the Company retain their statutory right to initiate a rate proceeding at any time.

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 1, with the rate adjustments to be effective with the first billing cycle of August 1st of each year. The first filing pursuant to this Rider shall be no later than May 1, 2013, and shall be based on the financial results for the calendar year ending December 31, 2012.

C. COMPONENTS OF THE RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, and Federal Income Tax. The rate adjustment shall be included in the monthly Commodity Charge of the corresponding rate schedules. The actual percentage change in the Commodity Charge in any year shall not exceed five percent (5%), exclusive of those expenses identified in C.5. The Company shall file with each regulatory authority having original jurisdiction over the Company's rates the schedules specified below, by FERC Account, for the prior calendar year period. The schedules will be based upon the Company's audited financial data, as adjusted, and provided in a format that will allow for the same analysis as that undertaken of a Company Statement of Intent filing.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9228

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

C.1 Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account Nos. 403-407)* Taxes Other Than FIT (Account No. 408) ** Operation and Maintenance Expenses (Account Nos. 850-894, excluding any cost of gas related expenses) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932) Interest on Customer Deposits (Account No. 431) * Based on the last approved depreciation methods and lives. ** Excluding City Franchise Fees, Gross Receipts, and any other revenue-based tax. All shared expenses allocated to RGV must be supported by workpapers containing the allocation, methodology and factors. This information will be presented with supporting calculations. The Company shall provide additional information for all operating expenses upon request by the regulatory authority during the ninety (90) day review period specified in Section D.

C.2 Return on Investment - The return on investment is equal to the rate of return of 8.0845% multiplied by the rate base balance at the end of the applicable calendar year. The rate of return is composed of: Component Weighting Cost ROR Long-Term Debt 45.0000% 6.1100% 2.7495% Common Equity 55.0000% 9.7000% 5.3350% Total 100.0000% 8.0845% The rate base balance is composed of: Net Utility Plant in Service* Plus: ** Storage Gas Plus: ** Materials and Supplies Inventories Prepayments Cash Working Capital Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * Net Utility Plant in Service as shown by FERC account. Gross utility plant in service and accumulated depreciation by account will be shown separately. ** These items will reflect the 13 month average materials and supplies inventories, storage gas inventories, and prepayments. Cash Working Capital shall be set to zero (\$0) absent a lead/lag study. Supporting information for all rate base items shall be provided to the regulatory authority during the ninety (90) day review period specified in Section D upon request by the regulatory authority.

C.3 Federal Income Tax Applicable calendar year federal income taxes will be calculated as follows: Net Taxable Income (applicable calendar-year end rate base multiplied by rate of return included in Section C.2.) Less: Interest on Long Term Debt (debt cost component of return as included in Section C.2 multiplied by the most recent calendar year end rate base) Multiplied by: Tax Factor (.35/(1-.35)) or .53846

C.4 Cost of Service Adjustment The amount to be collected through the Cost of Service Adjustment rate (Adjustment Amount) will be the sum of the amounts from Sections C.1, C.2, and C.3, less the calendar year normalized non-gas revenue (gas sales revenue excluding cost of gas revenue) and other revenue (i.e., transportation revenue and service charges). The difference shall be allocated among all customer classes in the same manner as approved in the most recent general rate case. For each customer class, the Adjustment Amount will be collected by adjusting the monthly Commodity Charges. This will be accomplished by dividing the Adjustment Amount by the normalized current year volumes* to determine a per ccf rate. This rate will be added to the Commodity Charge on the applicable rate schedule. *Normalized current year rate schedule T-2 volumes exclude volumes on which the Minimum Bill Charge is assessed.

C.5 Cost of Service Adjustment Rate Any change in the Cost of Service Adjustment

GAS SERVICES DIVISION

DESCRIPTION

shall not exceed an amount equal to five percent (5%) of the Commodity Charge effective for service in the Rio Grande Valley Service Area at the end of the calendar year immediately preceding the year in which the Cost of Service Adjustment is made, net of Annual Capital Investment costs*, the costs for the Company to provide public notice, comply with Integrity Assessment and Management expenses**, and reimburse reasonable rate case expenses. Annual Capital Investment costs shall include expenses related to Accounts 403-408, as well as all investment in plant in service. ** Integrity Assessment and Management expenses shall include expenses related to the Railroad Commission of Texas Pipeline Integrity Assessment and Management plan rule, 16 Tex. Admin. Code Ann. Section 8.101, Risk Based Leak Survey Program 16 Tex. Admin. Code Ann. Section 8.206, Leak Grading and Repair 16 Tex. Admin. Code Ann. Section 8.207, Mandatory Removal and Replacement Program 16 Tex. Admin. Code Ann. Section 8.208, and 49 CFR Part 192 Subpart O Gas Transmission Pipeline Integrity Management.

C.6 Attestation A sworn statement shall be filed by the Company's Accounting Director, affirming that the filed schedules are in compliance with the provisions of this tariff and are true and correct to the best of his/her knowledge, information, and belief. No testimony shall be filed. C.7 Proof of Revenues The Company shall also provide a schedule demonstrating the proof of revenues relied upon to calculate the proposed Cost of Service Adjustment rate. The proposed rates shall conform as closely as practicable to the revenue allocation principles in effect prior to the adjustment. C.8 Notice Notice of the annual Cost of Service Adjustment shall be published in a form similar to that required under Section 104.103, TEX. UTIL. CODE ANN. no later than forty-five (45) days after the Company makes its annual filing pursuant to this rate schedule with the regulatory authority. The notice to customers shall include the following information: a) a description of the proposed revision of rates and schedules; b) the effect the proposed revision of rates is expected to have on the rates applicable to each customer class and on an average bill for each affected customer class; c) the service area or areas in which the proposed rate adjustment would apply; d) the date the proposed rate adjustment was filed with the regulatory authority; and e) the Company's address, telephone number, and website where information concerning the proposed Cost of Service Adjustment may be obtained.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The regulatory authority with original jurisdiction will have a period of not less than ninety (90) days within which to review the proposed Cost of Service Adjustment. During the review period, Company shall provide additional information and supporting documents as requested by the regulatory authority and such information shall be provided within ten (10) working days of the original request.

The rate adjustment shall take effect with the first billing cycle of August of each year. This Cost of Service Adjustment Rate Schedule does not limit the legal rights and duties of the regulatory authority. The Company's annual rate adjustment will be made in accordance with all applicable laws. If at the end of the ninety (90) day review period, the Company and the regulatory authority with original jurisdiction have not reached agreement on the proposed Cost of Service Adjustment Rate, the regulatory authority may take action to deny such adjustment, and the Company shall have the right to appeal the regulatory authority's action. Upon the filing of any appeal the Company shall have the right to implement the proposed Cost of Service Adjustment Rate, subject to refund. The Company will reimburse

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9228

RATE SCHEDULESCHEDULE IDDESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-RGV-IS-COG	<p>TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area RATE SCHEDULE NO. 1 COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its incorporated areas in the Rio Grande Valley Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes (including franchise fees) and other purchased gas expenses.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period. .</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas</p>

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9230

RATE SCHEDULESCHEDULE IDDESCRIPTION

Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period and (f) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect: (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. Uncollectible Cost of Gas - The amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over-recovery or under-recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9230

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

over collected balance multiplied by interest of 6 percent per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6 percent per annum compounded monthly.

F. SALE OF EXCESS GAS SUPPLY

For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve-month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost-related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1-July 31), the Company shall record up to the first \$235,543 in Excess Gas Sales Margin in to the Reconciliation Account. The \$235,543 reimburses the ratepayers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65 percent going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35 percent credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth: (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the Reconciliation Component; and (d) the Cost of Gas which is the total of items (b) and (c). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of

the operations of the Cost of Gas Clause to date.

4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.

5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.

6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period.

7. A description of Uncollectible Cost of Gas during the period and its effect on the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for December.

1/ The tax rates shown in columns (b) and (c) above are rates applied to gross receipts and are in addition to the revenues derived from general service rate schedules and the PGA adjustment. However, the State Comptroller has determined that beginning February 1, 1985, these taxes are includable when calculating gross receipts. This is accomplished by applying the Billing Tax Factor to all bills rendered by the Company for service within city limits. For example, for the City of Brownsville the 6.380% Billing Tax Factor added to a basic bill of \$100.00 would equal \$106.38. Bill Including Tax Adjustment \$106.38 Less: State Occupancy Tax @1.997% 2.12 City Franchise Fee @4.000% 4.26 Bill Before Tax Adjustment \$100.00 Supersedes Same Rate Sheet Dated Meters Read On and After March 31, 2009 July 30, 2009

COSA-RGV-IS-COSAdj

TEXAS GAS SERVICE COMPANY
RATE SCHEDULE COSA
Rio Grande Valley Service Area
COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all gas sales and standard transportation service rate schedules of Texas Gas Service Company (the Company) currently in force in the Company's Rio Grande Valley Service Area. If, through the implementation of the provisions of this mechanism, it is determined that rates should be decreased or increased, then rates will be adjusted accordingly in the manner set forth herein. This Rate Schedule is authorized for an implementation period of three (3) years commencing with the Company's filing under this rate schedule for the calendar year 2012, and shall automatically renew for successive single year periods unless either the Company or the regulatory authority having original jurisdiction gives written notice to the contrary to the other by February 1, 2015, or February 1 of each succeeding year after the three year implementation period. Both the cities and the Company retain their statutory right to initiate a rate proceeding at any time.

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 1, with the rate adjustments to be effective with the first billing cycle of August 1st of each year. The first filing pursuant to this Rider shall be no later than May 1, 2013, and shall be based on the financial results for the calendar year ending December 31, 2012.

C. COMPONENTS OF THE RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, and Federal Income Tax. The rate adjustment shall be included in the monthly Commodity Charge of the corresponding rate schedules. The actual percentage change in the Commodity Charge in any year shall not exceed five percent (5%), exclusive of those expenses identified in C.5. The Company shall file with each regulatory authority having original jurisdiction over the Company's rates the schedules specified below, by FERC Account, for the prior

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9230

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

calendar year period. The schedules will be based upon the Company's audited financial data, as adjusted, and provided in a format that will allow for the same analysis as that undertaken of a Company Statement of Intent filing.

C.1 Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account Nos. 403-407)* Taxes Other Than FIT (Account No. 408) ** Operation and Maintenance Expenses (Account Nos. 850-894, excluding any cost of gas related expenses) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932) Interest on Customer Deposits (Account No. 431) * Based on the last approved depreciation methods and lives. ** Excluding City Franchise Fees, Gross Receipts, and any other revenue-based tax. All shared expenses allocated to RGV must be supported by workpapers containing the allocation, methodology and factors. This information will be presented with supporting calculations. The Company shall provide additional information for all operating expenses upon request by the regulatory authority during the ninety (90) day review period specified in Section D.

C.2 Return on Investment - The return on investment is equal to the rate of return of 8.0845% multiplied by the rate base balance at the end of the applicable calendar year. The rate of return is composed of: Component Weighting Cost ROR Long-Term Debt 45.0000% 6.1100% 2.7495% Common Equity 55.0000% 9.7000% 5.3350% Total 100.0000% 8.0845% The rate base balance is composed of: Net Utility Plant in Service* Plus: ** Storage Gas Plus: ** Materials and Supplies Inventories Prepayments Cash Working Capital Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * Net Utility Plant in Service as shown by FERC account. Gross utility plant in service and accumulated depreciation by account will be shown separately. ** These items will reflect the 13 month average materials and supplies inventories, storage gas inventories, and prepayments. Cash Working Capital shall be set to zero (\$0) absent a lead/lag study. Supporting information for all rate base items shall be provided to the regulatory authority during the ninety (90) day review period specified in Section D upon request by the regulatory authority.

C.3 Federal Income Tax Applicable calendar year federal income taxes will be calculated as follows: Net Taxable Income (applicable calendar-year end rate base multiplied by rate of return included in Section C.2.) Less: Interest on Long Term Debt (debt cost component of return as included in Section C.2 multiplied by the most recent calendar year end rate base) Multiplied by: Tax Factor (.35/(1-.35)) or .53846

C.4 Cost of Service Adjustment The amount to be collected through the Cost of Service Adjustment rate (Adjustment Amount) will be the sum of the amounts from Sections C.1, C.2, and C.3, less the calendar year normalized non-gas revenue (gas sales revenue excluding cost of gas revenue) and other revenue (i.e., transportation revenue and service charges). The difference shall be allocated among all customer classes in the same manner as approved in the most recent general rate case. For each customer class, the Adjustment Amount will be collected by adjusting the monthly Commodity Charges. This will be accomplished by dividing the Adjustment Amount by the normalized current year volumes* to determine a per ccf rate. This rate will be added to the Commodity Charge on the applicable

DESCRIPTION

rate schedule. *Normalized current year rate schedule T-2 volumes exclude volumes on which the Minimum Bill Charge is assessed.

C.5 Cost of Service Adjustment Rate Any change in the Cost of Service Adjustment shall not exceed an amount equal to five percent (5%) of the Commodity Charge effective for service in the Rio Grande Valley Service Area at the end of the calendar year immediately preceding the year in which the Cost of Service Adjustment is made, net of Annual Capital Investment costs*, the costs for the Company to provide public notice, comply with Integrity Assessment and Management expenses**, and reimburse reasonable rate case expenses. Annual Capital Investment costs shall include expenses related to Accounts 403-408, as well as all investment in plant in service. ** Integrity Assessment and Management expenses shall include expenses related to the Railroad Commission of Texas Pipeline Integrity Assessment and Management plan rule, 16 Tex. Admin. Code Ann. Section 8.101, Risk Based Leak Survey Program 16 Tex. Admin. Code Ann. Section 8.206, Leak Grading and Repair 16 Tex. Admin. Code Ann. Section 8.207, Mandatory Removal and Replacement Program 16 Tex. Admin. Code Ann. Section 8.208, and 49 CFR Part 192 Subpart O Gas Transmission Pipeline Integrity Management.

C.6 Attestation A sworn statement shall be filed by the Company's Accounting Director, affirming that the filed schedules are in compliance with the provisions of this tariff and are true and correct to the best of his/her knowledge, information, and belief. No testimony shall be filed. C.7 Proof of Revenues The Company shall also provide a schedule demonstrating the proof of revenues relied upon to calculate the proposed Cost of Service Adjustment rate. The proposed rates shall conform as closely as practicable to the revenue allocation principles in effect prior to the adjustment. C.8 Notice Notice of the annual Cost of Service Adjustment shall be published in a form similar to that required under Section 104.103, TEX. UTIL. CODE ANN. no later than forty-five (45) days after the Company makes its annual filing pursuant to this rate schedule with the regulatory authority. The notice to customers shall include the following information: a) a description of the proposed revision of rates and schedules; b) the effect the proposed revision of rates is expected to have on the rates applicable to each customer class and on an average bill for each affected customer class; c) the service area or areas in which the proposed rate adjustment would apply; d) the date the proposed rate adjustment was filed with the regulatory authority; and e) the Company's address, telephone number, and website where information concerning the proposed Cost of Service Adjustment may be obtained.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The regulatory authority with original jurisdiction will have a period of not less than ninety (90) days within which to review the proposed Cost of Service Adjustment. During the review period, Company shall provide additional information and supporting documents as requested by the regulatory authority and such information shall be provided within ten (10) working days of the original request.

The rate adjustment shall take effect with the first billing cycle of August of each year. This Cost of Service Adjustment Rate Schedule does not limit the legal rights and duties of the regulatory authority. The Company's annual rate adjustment will be made in accordance with all applicable laws. If at the end of the ninety (90) day review period, the Company and the regulatory authority with original jurisdiction have not reached agreement on the proposed Cost of Service Adjustment

RATE SCHEDULE PSF

PIPELINE SAFETY AND REGULATORY PROGRAM FEES

TEXAS ADMINISTRATIVE CODE TITLE 16

ECONOMIC REGULATION PART 1

RAILROAD COMMISSION OF TEXAS CHAPTER 8

PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

customer charge per bill of \$0.92, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;

WNA RGV-IS

TEXAS GAS SERVICE COMPANY
Rio Grande Valley Service Area
RATE SCHEDULE WNA
WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20 (other than Church Service), and 40. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer-than-normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9230

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

WNA Rate = WNAD, where
 CV WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

WNAD = (HDD Diff * CB * WF) * COS rate, where

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period. CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

CV = Current Volumes for the billing period.

D. FILING WITH THE CITIES

The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds.

TARIFF CODE: DS RRC TARIFF NO: 9232

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA RGV-OS

TEXAS GAS SERVICE COMPANY
 Rio Grande Valley Service Area
 RATE SCHEDULE WNA
 WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20, and 40 as well as general service rate schedules 1Z, 2Z and 4Z for the unincorporated areas. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9232

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

WNA Rate = WNAD, where
CV

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

WNAD = (HDD Diff * CB * WF) * COS rate, where

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

CV = Current Volumes for the billing period.

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

RATE SCHEDULE NO. 1-ENV
Rio Grande Valley Service Area
COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its unincorporated areas in the Rio Grande Valley Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes, if applicable and other purchased gas expenses. The rate shall be calculated according to the following formula:

Monthly Cost of Gas Rate = ((2) * (5)) plus or minus (3) plus any fees or taxes.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9232

RATE SCHEDULESCHEDULE IDDESCRIPTION

2. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers and adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility.

3. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

4. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(2) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

5. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

6. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of applicable fees and taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9232

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

7. Uncollectible Cost of Gas-The amounts actually written off after the effective date of this rate schedule related to cost of gas will be tracked along with any subsequent recovery/credits related to the cost of gas clause. Annually the charge offs minus recoveries will be included in the annual reconciliation and factored into the resulting reconciliation component.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. The reconciliation factor shall be calculated as below:

$(B \pm I) / S = \text{Reconciliation Factor}$

B = Result of Annual Reconciliation Audit Balance (Section B.4)

I = Interest on Funds (Section E)

S= Sales volumes adjusted for weather and growth for recent period December through August

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly.

F. SALE OF EXCESS GAS SUPPLY

For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1-July 31),

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9232

RATE SCHEDULESCHEDULE IDDESCRIPTION

the Company shall record the first \$235,543 in Excess Gas Sales Margin to the Reconciliation Account. The \$235,543 reimburses the rate payers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65% going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35% credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the Reconciliation Component; (d) surcharge or refunds and (e) any fees or taxes. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.
6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period.
7. A description of Uncollectible Cost of Gas during the period and the effect on the Cost of Gas Clause.

This report shall be filed concurrently with the Cost of Gas Statement for December.

DESCRIPTION

1Z-RGV-OS-Res

Rio Grande Valley Service Area
 RATE SCHEDULE 1Z
 RESIDENTIAL SERVICE RATE

APPLICABILITY

Applicable to a residential customer in a single dwelling, or in a dwelling unit of a multiple dwelling or residential apartment, or nursing homes, for domestic purposes.

TERRITORY

All customers in the unincorporated areas served by the Company in its Rio Grande Valley Service Area.

COST OF SERVICE RATE

During each monthly billing period:

A Customer Charge per meter per month of \$12.08 plus -
 Interim Rate Adjustments (IRA) \$ per month (Footnote
 1)

Total Customer Charge \$12.08 per month

All Ccf per monthly billing period @ \$ 0.1784 per Ccf

OTHER ADJUSTMENTS

In addition to the Cost of Service set forth above, each customer's bill shall include the following adjustments:

Cost of Gas Component: The basic rates for cost of service set forth above shall be increased by the amount of the Cost of Gas Component for the billing month computed in accordance with the provisions of Rate Schedule 1-ENV.

Weather Normalization Adjustment: The billing shall reflect adjustments in accordance with the provisions of the Weather Normalization Adjustment Clause, Rate Schedule WNA.

Taxes: Plus applicable taxes and fees related to above.

CONDITIONS

Subject in all respects to applicable laws, rules, and regulations from time to time in effect.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-ENV-RGV-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-ENV Rio Grande Valley Service Area COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its unincorporated areas in the Rio Grande Valley Service Area.</p> <p>B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes, if applicable and other purchased gas expenses. The rate shall be calculated according to the following formula: Monthly Cost of Gas Rate = ((2) * (5)) plus or minus (3) plus any fees or taxes.</p> <p>2. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers and adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility.</p> <p>3. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.</p> <p>4. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(2) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas</p>

TARIFF CODE: DS RRC TARIFF NO: 9236

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

Clause, and (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

5. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

6. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of applicable fees and taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

7. Uncollectible Cost of Gas-The amounts actually written off after the effective date of this rate schedule related to cost of gas will be tracked along with any subsequent recovery/credits related to the cost of gas clause. Annually the charge offs minus recoveries will be included in the annual reconciliation and factored into the resulting reconciliation component.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. The reconciliation factor shall be calculated as below:

$$(B \pm I) / S = \text{Reconciliation Factor}$$

B = Result of Annual Reconciliation Audit Balance (Section B.4)

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9236

RATE SCHEDULESCHEDULE IDDESCRIPTION

I = Interest on Funds (Section E)

S= Sales volumes adjusted for weather and growth for recent period December through August

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly.

F. SALE OF EXCESS GAS SUPPLY

For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1-July 31), the Company shall record the first \$235,543 in Excess Gas Sales Margin to the Reconciliation Account. The \$235,543 reimburses the rate payers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65% going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35% credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the Reconciliation Component; (d) surcharge or refunds and (e) any fees or taxes. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9236

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.
6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period.
7. A description of Uncollectible Cost of Gas during the period and the effect on the Cost of Gas Clause.

This report shall be filed concurrently with the Cost of Gas Statement for December.

OTHER ADJUSTMENTS

In addition to the Cost of Service set forth above, each customer's bill shall include the following adjustments:

Cost of Gas Component: The basic rates for cost of service set forth above shall be increased by the amount of the Cost of Gas Component for the billing month computed in accordance with the provisions of Rate Schedule 1-ENV.

Weather Normalization Adjustment: The billing shall reflect adjustments in accordance with the provisions of the Weather Normalization Adjustment Clause, Rate Schedule WNA.

Taxes: Plus applicable taxes and fees related to above.

CONDITIONS

1. Subject in all respects to applicable laws, rules, and regulations from time to time in effect.

2. Delivery of Gas hereunder may be interrupted or curtailed at the discretion of the Company, in case of shortage or threatened shortage of gas supply from any cause whatsoever, to conserve gas for residences, hospitals, schools, churches, and other human needs customers as prioritized in the Company's approved Curtailment Program.

 RATE SCHEDULE PSF
 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS CHAPTER 8
 PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees
 (a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9236

RATE SCHEDULESCHEDULE IDDESCRIPTION

amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9236

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

TEXAS GAS SERVICE COMPANY
 Rio Grande Valley Service Area RATE SCHEDULE RCE-RIDER
 RATE CASE EXPENSE RATE

A. APPLICABILITY

The Rate Case Expense (RCE) rate as set forth in Section (B) below is pursuant to Gas Utilities Docket No. 10285: Statement of Intent Filed by Texas Gas Service Company to Change Rates in the Environs of the Rio Grande Valley Service Area, Final Order Finding of Fact No. 43. This rate shall apply to the following rate schedules of Texas Gas Service Company in the unincorporated areas served in Rio Grande Valley Area of Texas including Alamo, Alton, Bayview, Brownsville, Combes, Donna, Edcouch, Edinburg, Elsa, Harlingen, Hidalgo, La Feria, La Joya, La Villa, Laguna Heights, Laguna Vista, Los Fresnos, Lyford, McAllen, Mercedes, Mission, Monte Alto, Olmito, Palm Valley, Palmview, Penitas, Pharr, Port Isabel, Primera, Progreso, Rancho Viejo, Raymondville, Rio Hondo, San Benito, San Carlos, San Juan, Santa Rosa, and Weslaco, Texas: 1Z, 2Z, 3Z, 4Z, T-1 and T-2.

B. RCE RATE

All Ccf during each billing period: \$ 0.02072 per Ccf

This rate will be in effect until all approved and expended rate case expenses are recovered under the applicable rate schedules. Texas Gas Service Company will recover \$219,700.72 in actual expense and up to \$10,000.00 in estimated expense, not to exceed actual expense. Texas Gas Service Company will not include any interest calculations in the recovery. The Rate Case Expense Surcharge will be a separate line item on the bill.

C. OTHER ADJUSTMENTS

Taxes: Plus applicable taxes and fees (including franchise fees) related to above.

D. CONDITIONS

Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.

E. COMPLIANCE

TGS shall file a reconciliation report annually on or before December 31st, commencing in 2014. TGS shall file the report with the Commission, Addressed to the Director of Gas Services Division an referencing Gas Utilities Docket No. 10285, Rate Case Expense Recovery Report. The report shall include: - The volumes used by month by customer class during the applicable period, - The amount of Rate Case Expense recovered, by month - The outstanding balance, by month Effective Date: Issuance date of Final Order in GUD No. 10285

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
WNA RGV-OS	<p>Meters Read On and After November 26, 2013</p> <p>TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area RATE SCHEDULE WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE</p> <p>A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20, and 40 as well as general service rate schedules 1Z, 2Z and 4Z for the unincorporated areas. The WNA shall be effective during the September through May billing cycles.</p> <p>B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.</p> <p>C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:</p> <p style="margin-left: 40px;">WNA Rate = $\frac{WNAD}{CV}$, where</p> <p style="margin-left: 40px;">WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:</p> <p style="margin-left: 40px;">WNAD = (HDD Diff * CB * WF) * COS rate, where</p> <p style="margin-left: 40px;">HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.</p> <p style="margin-left: 40px;">CB = Number of customers billed for the billing period.</p> <p style="margin-left: 40px;">WF = Weather factor determined for each rate schedule in the most recent rate case.</p> <p style="margin-left: 40px;">CV = Current Volumes for the billing period.</p> <p>D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC)</p>

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

Initial Rate	Meters
Read On and After	July 31,
2006 (Incorporated)	April 30,
2007 (Unincorporated)	

RATE ADJUSTMENT PROVISIONS

None

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-ENV-RGV-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-ENV Rio Grande Valley Service Area COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its unincorporated areas in the Rio Grande Valley Service Area.</p> <p>B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes, if applicable and other purchased gas expenses. The rate shall be calculated according to the following formula: Monthly Cost of Gas Rate = ((2) * (5)) plus or minus (3) plus any fees or taxes.</p> <p>2. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers and adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility.</p> <p>3. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.</p> <p>4. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(2) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas</p>

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

Clause, and (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

5. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

6. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of applicable fees and taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

7. Uncollectible Cost of Gas-The amounts actually written off after the effective date of this rate schedule related to cost of gas will be tracked along with any subsequent recovery/credits related to the cost of gas clause. Annually the charge offs minus recoveries will be included in the annual reconciliation and factored into the resulting reconciliation component.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. The reconciliation factor shall be calculated as below:

$$(B \pm I) / S = \text{Reconciliation Factor}$$

B = Result of Annual Reconciliation Audit Balance (Section B.4)

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9238

RATE SCHEDULESCHEDULE IDDESCRIPTION

I = Interest on Funds (Section E)

S= Sales volumes adjusted for weather and growth for recent period December through August

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly.

F. SALE OF EXCESS GAS SUPPLY

For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1-July 31), the Company shall record the first \$235,543 in Excess Gas Sales Margin to the Reconciliation Account. The \$235,543 reimburses the rate payers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65% going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35% credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the Reconciliation Component; (d) surcharge or refunds and (e) any fees or taxes. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.
6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period.
7. A description of Uncollectible Cost of Gas during the period and the effect on the Cost of Gas Clause.

This report shall be filed concurrently with the Cost of Gas Statement for December.

RATE SCHEDULE PSF
PIPELINE SAFETY AND REGULATORY PROGRAM FEES
TEXAS ADMINISTRATIVE CODE TITLE 16
ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS CHAPTER 8
PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9238

RATE SCHEDULESCHEDULE IDDESCRIPTION

program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject

GAS SERVICES DIVISION

RATE SCHEDULESCHEDULE IDDESCRIPTION

to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA RGV-OS	<p>TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area RATE SCHEDULE WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE</p>
	<p>A. APPLICABILITY</p>

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9238

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20, and 40 as well as general service rate schedules 1Z, 2Z and 4Z for the unincorporated areas. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \text{WNAD} \cdot \text{CV} \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} \cdot \text{CB} \cdot \text{WF}) \cdot \text{COS rate, where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

CV = Current Volumes for the billing period.

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-ENV-RGV-OS-COG	TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-ENV Rio Grande Valley Service Area COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its unincorporated areas in the Rio Grande Valley Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes, if applicable and other purchased gas expenses. The rate shall be calculated according to the following formula:

Monthly Cost of Gas Rate = ((2) * (5)) plus or minus (3) plus any fees or taxes.

2. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers and adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility.

3. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

4. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(2) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9241

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

Clause, and (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

5. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

6. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of applicable fees and taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

7. Uncollectible Cost of Gas-The amounts actually written off after the effective date of this rate schedule related to cost of gas will be tracked along with any subsequent recovery/credits related to the cost of gas clause. Annually the charge offs minus recoveries will be included in the annual reconciliation and factored into the resulting reconciliation component.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. The reconciliation factor shall be calculated as below:

$$(B \pm I) / S = \text{Reconciliation Factor}$$

B = Result of Annual Reconciliation Audit Balance (Section B.4)

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9241

RATE SCHEDULESCHEDULE IDDESCRIPTION

I = Interest on Funds (Section E)

S= Sales volumes adjusted for weather and growth for recent period December through August

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly.

F. SALE OF EXCESS GAS SUPPLY

For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1-July 31), the Company shall record the first \$235,543 in Excess Gas Sales Margin to the Reconciliation Account. The \$235,543 reimburses the rate payers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65% going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35% credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the Reconciliation Component; (d) surcharge or refunds and (e) any fees or taxes. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9241

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.
6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period.
7. A description of Uncollectible Cost of Gas during the period and the effect on the Cost of Gas Clause.

This report shall be filed concurrently with the Cost of Gas Statement for December.

 RATE SCHEDULE PSF
 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS CHAPTER 8
 PIPELINE SAFETY REGULATIONS SUBCHAPTER C

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3,

Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

DESCRIPTION

RATE CASE EXPENSE RATE

A. APPLICABILITY

The Rate Case Expense (RCE) rate as set forth in Section (B) below is pursuant to Gas Utilities Docket No. 10285: Statement of Intent Filed by Texas Gas Service Company to Change Rates in the Environs of the Rio Grande Valley Service Area, Final Order Finding of Fact No. 43. This rate shall apply to the following rate schedules of Texas Gas Service Company in the unincorporated areas served in Rio Grande Valley Area of Texas including Alamo, Alton, Bayview, Brownsville, Combes, Donna, Edcouch, Edinburg, Elsa, Harlingen, Hidalgo, La Feria, La Joya, La Villa, Laguna Heights, Laguna Vista, Los Fresnos, Lyford, McAllen, Mercedes, Mission, Monte Alto, Olmito, Palm Valley, Palmview, Penitas, Pharr, Port Isabel, Primera, Progreso, Rancho Viejo, Raymondville, Rio Hondo, San Benito, San Carlos, San Juan, Santa Rosa, and Weslaco, Texas: 1Z, 2Z, 3Z, 4Z, T-1 and T-2.

B. RCE RATE

All Ccf during each billing period: \$ 0.02072 per Ccf

This rate will be in effect until all approved and expended rate case expenses are recovered under the applicable rate schedules. Texas Gas Service Company will recover \$219,700.72 in actual expense and up to \$10,000.00 in estimated expense, not to exceed actual expense. Texas Gas Service Company will not include any interest calculations in the recovery. The Rate Case Expense Surcharge will be a separate line item on the bill.

C. OTHER ADJUSTMENTS

Taxes: Plus applicable taxes and fees (including franchise fees) related to above.

D. CONDITIONS

Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.

E. COMPLIANCE

TGS shall file a reconciliation report annually on or before December 31st, commencing in 2014. TGS shall file the report with the Commission, Addressed to the Director of Gas Services Division an referencing Gas Utilities Docket No. 10285, Rate Case Expense Recovery Report. The report shall include: - The volumes used by month by customer class during the applicable period, - The amount of Rate Case Expense recovered, by month - The outstanding balance , by month Effective Date: Issuance date of Final Order in GUD No. 10285

WNA RGV-OS

TEXAS GAS SERVICE COMPANY
Rio Grande Valley Service Area
RATE SCHEDULE WNA
WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9241

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20, and 40 as well as general service rate schedules 1Z, 2Z and 4Z for the unincorporated areas. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule.

The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \frac{\text{WNAD}}{\text{CV}}, \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} * \text{CB} * \text{WF}) * \text{COS rate}, \quad \text{where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

CV = Current Volumes for the billing period.

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

DESCRIPTION

regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2013 the annual pipeline safety program fee, billed effective with meters read on and after March 31, 2014, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.92, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RATE SCHEDULE NO.

COS

COST OF SERVICE ADJUSTMENT

PROVISION

A. APPLICABILITY

This Cost of Service Adjustment Provision applies to all general service rate schedules of Texas Gas Service Company currently in force in its Dell City, Texas Service Area.

B. EFFECTIVE DATE

Rate adjustments made in accordance with this Cost of Service Adjustment Provision

RAILROAD COMMISSION OF TEXAS
 GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9242

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

will be applied to all bills rendered between July 1, 1991 and June 30, 1992, and annually thereafter beginning each July 1st.

C. RELEVANT ACCOUNTS

Calculation of the annual rate adjustment will be based on changes in the level of expenses recorded in the following accounts:

Description

Account No.

Depreciation Expense	403
Amortization Expenses	404.1 - 407.1
Taxes Other than FIT	408 (Excluding Gross Receipts Taxes)
Distribution Expenses	870 - 894
Customer Accounts Expenses	901 - 916
Administrative & General Expenses	920 - 931
Maintenance of General Plant	932

Cost of gas, gross receipts taxes, federal income taxes, irrigation-related expenses and return on investment will not be considered or included in the calculation of the annual rate adjustment. Irrigation-related expenses will be removed from each group of accounts based on the ratios determined in the most recent rate case.

D. BASIS OF ANNUAL RATE ADJUSTMENT

Calculation of the annual rate adjustment will be based on calendar year-end data taken from the books and records of Texas Gas Service Company and reported in the General Annual Reports filed with the Railroad Commission of Texas. All annual rate adjustments will be cumulative.

E. AMOUNT OF ANNUAL RATE ADJUSTMENT

The amount of the annual rate adjustment will be determined by comparing the sum of the balances in the Relevant Accounts at the end of each of the two calendar years preceding the year during which the adjustment is made. Only dollar amounts attributable to the Dell City, Texas Service Area will be included when the adjustment is determined. The dollar amount of the net increase or decrease in the year-end balances of the Relevant Accounts will be determined by subtracting the balances from the second year preceding the rate adjustment (base year) from the balances from the first year immediately preceding the rate adjustment (prior

DESCRIPTION

year). The difference will be divided by the adjusted volume of gas (Ccf) sold in the Dell City, Texas Service Area during the prior year, and the resulting increase (decrease) will be added to (subtracted from) the existing consumption related rate blocks. All adjustments will be rounded up (or down) to the nearest one-hundredth of a cent per hundred cubic feet (0.01 cents/Ccf) of gas sold.

F. FILING OF ANNUAL RATE ADJUSTMENT

Texas Gas Service Company will file with the appropriate regulatory authorities its proposed annual rate adjustment accompanied by the revised rate schedules, supporting documentation, and calculations required to determine the adjustment. This filing will be made each May and will occur at least thirty (30) days prior to July 1st of the same year.

G. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The appropriate regulatory authorities will have a period of not less than thirty (30) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on and after July 1st of each year. This Cost of Service Adjustment Provision does not change or limit the legal rights or duties of the affected regulatory authorities, and Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

SCHEDULE NO. 1-INC

COST OF

GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated area of its Dell City, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9242

RATE SCHEDULESCHEDULE IDDESCRIPTION

sources where applicable.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company for general service customers during the twelve (12) month period ending October 31 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of October to determine the amount of over or under collection occurring during such twelve month period. The reconciliation factor effective on the October, 1985 bills will be reviewed, adjusted if necessary and made effective on bills for February through October 1986. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from February through October as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,
