## Gas Leaks

### Emergency Phone Number(s)

In case of an emergency  
use the following numbers before dialing 911

Day: ( ) \_\_\_\_\_  
Night: ( ) \_\_\_\_\_

24 hours a day 7 days a week

---

## Smell Gas?

Natural Gas smells similar to rotten eggs.

If a gas leak is underground, the following may occur:

1. A blowing or hissing sound!
2. Dust or dirt may blow into the air!
3. May cause bubbles in low areas containing water!

If you smell Natural Gas, leave the area immediately.

DO NOT turn on any lights or appliances and DO NOT use your telephone, even if it is cordless. Use a neighbor's telephone to call for assistance.
