*** If you live in a mobile home, you MUST EVACUATE regardless of its location in Hernando County***

USING YOUR COUNTY MAP

1. Locate where you live and work on the map.
2. Determine whether you are in an evacuation area, and if so, what level (color).
3. If you are in an evacuation area, or mobile home/manufactured home/RV, decide where you will go if ordered to evacuate. Your choices include:
 - ✓ Home of a relative or friend outside the evacuation zone
 - ✓ Hotel/motel outside the evacuation zone (make arrangements early)
 - ✓ Go to a public shelter
 - ✓ As a last resort leave the area entirely
4. If you must go to a public shelter, use your county map to decide which one is convenient. Make sure you verify the shelter is open before you go.

HURRICANE THREAT

- ✓ The colored areas on the map are vulnerable to storm surge. Storm surge is the saltwater flooding that rushes over coastal areas when the eye of a hurricane crosses land.
- ✓ Storm surge creates a path of destruction, wiping out structures as it rapidly surges inland and then recedes. This is a life threatening situation for anyone who ignores mandatory evacuation orders and stays in vulnerable areas.
- ✓ Hurricanes are categorized on a scale of 1 to 5, depending on wind strength and destructive power. The evacuation zones are color coded to designate the level of storm surge likely to occur with the five categories.
- ✓ If you live in an area ordered to evacuate, gather your family/pets and emergency supplies, secure your home and leave immediately. Failure to obey a mandatory evacuation order is a violation of state and local laws.

Note: All persons living in mobile homes/manufactured homes/RVs must evacuate for all mandatory evacuation orders, regardless of where you are located in the county.
