Subject: Comments on Injection Wells

Gil:

Can you please forward the following to the committee taking public comments on the proposed injection well rules.

Sent on behalf of Frio County Judge Carlos Garcia. Thank you!

Attention RRC Rules Committee:

It is the wishes of Frio County to authorize each state permit application to implement a 1.5 cent contribution awarded the county for each barrel disposed whereby the county becomes the recipient of the energy field waste.

Each permit application shall receive with prior approval from the county commissioners court for an update and coordinate emergency management plan and facility evaluation schedule with county inspector. Fee for inspection shall be made on a county optional basis.

Carlos Garcia, Frio County Judge
830/334-2154

Subject: Public Remark .. Injection Wells rules

Katie:

Can you please forward the following also to the RRC Commissioners and the committee handling injection well rules? Judge Garcia wanted the following to be considered. Thank you!

Sent on behalf of
Frio County Judge, Carlos Garcia

The disposal well applicant should be required to collect background samples from all water wells within a five mile radius of the disposal well. The background samples should be analyzed for all constituents that may be injected into the disposal well.
