**Subject:** RRC Draft Proposed Rules

Ms. Veronica Larson  
Texas Railroad Commission

Please accept this email as comments from the Wintergarden Groundwater Conservation District on the informal drafts of the RRC's proposed changes to 6 TAC 3.9, 3.36, and 3.46. We request that any groundwater conservation district be notified by mail of all applications submitted for a permit for a commercial disposal/injection well within that water district's jurisdiction. We also request that you increase the radius of concern be extended from one-quarter (1/4) mile to one-half (1/2) mile.

Respectfully,  
Ed Walker, General Manager  
Wintergarden Groundwater Conservation District  
P. O. Box 1433  
Carrizo Springs, TX 78834
