GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

City of Dallas

Texas

For the Fiscal Year Beginning

October 1, 2012

Christopher P. Morill *Jeffrey R. Egan*

President

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the City of Dallas for its annual budget for the fiscal year beginning October 1, 2012.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and are submitting it to GFOA to determine its eligibility for another award.

City of Dallas

To: The Honorable Mayor and Members of the Dallas City Council

The FY 2013-14 proposed budget is balanced and reflects a fiscally responsible approach to address the challenges and leverage the opportunities to improve the quality of life for Dallas citizens.

Executive Summary

At a time when national headlines include news of municipal bankruptcies and continued financial hardship, Dallas has carefully navigated through this difficult period. Our healthy position today is the result of tough financial sacrifices. Council, staff and community partnerships have enabled us to leverage resources; thus reducing the negative impact of cuts while heightening the impact of continued investment in public safety, economic development and infrastructure. Moving forward, this proposed budget seeks to strengthen safety, restore services and grow business.

Economic Outlook:

While the Texas economy churns on a path of expansion, Dallas continues its post-recession stabilization and is experiencing areas of measured economic growth. The Dallas unemployment rate of 6.3% is below the national average (7.6%) and existing home sales and housing starts are increasing. Although this period of growth is expected to continue, the City maintains a cautionary approach realizing that a world event could slow or moderate expansion in the Dallas economy during the next 12 months.

The Mayor, City Council, and City management have worked diligently over the past five years to offset the economic effects of the global recession by operating within the City's resources; establishing priorities; focusing on core services; finding operational efficiencies; and positioning the City for recovery.

Key revenue resources are recovering, and there is encouraging news in the numbers. Property tax revenue is the single largest revenue source and accounts for 43% of the General Fund revenue. After three years of significant decline, FY 2013-14 marks the second consecutive year of growth with values increasing 4.27% which amounts to \$28.5M additional revenue.

Property Tax Base Values (\$ in Billions)

Sales Tax Revenue (\$ in Millions)

New Construction Appraised Values (\$ in Millions)

Value of new construction provided by Appraisal Districts.

New construction appraised values are increasing but still significantly below the 2008 peak.

No new taxes. The tax rate is proposed to remain at the same level. Therefore, guiding principles and development goals of the FY 2013-14 City of Dallas proposed budget is as follows:

Guiding Principles:

- Maintain current year service levels and restore some discontinued services
- Fund on-going obligations
- Address most critical needs

Development Goals:

- Continue to focus on crime reduction by adding 20 officers above attrition to begin to address population growth; add cameras to deter criminal behavior; fund one step pay increase and full-year fund education pay for uniform police and fire personnel to retain younger officers; and fund 10 additional call takers and additional training in 9-1-1 operations center.
- Continue strategic restoration of services and strategic service increases such as street maintenance to slow the rate of required replacement.
- Continue to invest in key economic development opportunities to encourage private development and continue to grow the tax base.
- Continue development efforts in Southern Dallas and attract more visitors to Fair Park by restoring amenities and promoting park events and assets, and work to improve neighborhoods surrounding Fair Park.

We will continue to strengthen the City's financial condition through strategic planning, effective and efficient management and by expanding the City's economic tax base through aggressive and creative economic development activities. Therefore, the FY 2013-14 City of Dallas proposed budget allows the City to continue to operate within its resources; reflects the City's established priorities; and supports the City's ability to recover and thrive. All key service levels are maintained with some service restorations, enhancements, and some increased obligations.

Service Restorations / Enhancements / Obligations:

Public Safety:

- Add 20 additional police officers above attrition
- Replace 183 squad cars
- Fund one uniformed step pay increase and education pay
- Increase paramedic training (120 firefighters)
- Fund 10 additional call takers and training in the 9-1-1 center

Economic Vibrancy:

- Upgrade traffic safety and congestion management system to digital operations, replacing old system
- Increase street maintenance, including street repairs, rights-of-way and preventative maintenance, asphalt and concrete
- Add positions to manage, coordinate and accelerate complex economic development and redevelopment projects
- Enhance Fair Park operations, maintenance and marketing/promotion to increase foot traffic and drive neighborhood growth and revitalization

Clean, Healthy Environment:

- Address neighborhood cleanliness by expanding demolition, mow clean, and Mow-mentum programs
- Add 2 sanitarians to inspect restaurants
- Add 1 environmental specialist to mosquito abatement operations

Culture, Arts and Recreation:

- Improve maintenance of park land by mowing an average of 10 days instead of 12 days
- Expand cultural service contracts
- Increase funding to meet contractual obligation to Dallas Zoo Management and Dallas Black Dance Theater
- Restore position at the South Dallas Cultural Center

Educational Enhancements:

- Restore funding to library materials budget to peak level of FY 2007-08
- Replace all aging/obsolete public-use computers in libraries to more effectively accommodate use of electronic media and on-line research materials
- Maintain current service hours for libraries

E3 Government:

- Add 5 positions in City Attorney's Office for general counsel and litigation divisions; expand delinquent collections efforts
- Add a position to monitor ethics program
- Add 3 positions in City Auditor's Office and add training
- Restore 3 positions in Civil Service for civilian applicant processing
- Continue implementation of total compensation study and fund an average 3% civilian merit increase (effective April 2014)
- Fund replacement of aging vehicles and equipment in the City fleet

Workforce Impacts:

The City's civilian workforce, reduced by 18% over the past several years, has pay disparities that are preventing the organization from competitive hiring. Last fiscal year the City conducted a total compensation study to review employee (civilian and uniformed) pay and benefits to determine how the organization compared with 27 peer cities and the private sector, with an eye toward improving retention of a talented, qualified and competitive workforce. Some key deficiencies were identified and addressed in the first phase. Phase two of the study's recommendations will be implemented in FY 2013-14.

Service Charges:

Water:

With the state still facing drought and water challenges, it is important that the City continue to focus on maintaining infrastructure, conserving resources and providing for future needs through: rehabilitation and/or replacement of 54 miles of aging water and wastewater mains; water treatment plant improvements to enhance reliability and water quality and increase capacity; and continued water conservation efforts. To achieve these goals, the typical residential monthly bill will increase by 3.6%.

Sanitation:

Residential collection fees of \$20.25 per month will be adjusted by \$0.39 per month in order to maintain full cost recovery for increasing costs of temporary labor contracts, sanitation workers compensation brought to market, and fleet maintenance expenses.

Stormwater Drainage Management:

There is no rate change proposed in FY 2013-14.

Looking Forward:

Our focus is to Strengthen, Restore and Grow: Strengthen our safety programs, restore community services, and grow our economy.

The city offers hundreds of programs and services, and is involved with millions of transactions every year. This demands we have systems and processes in place. We understand that sometimes working through those processes can be frustrating for citizens, but we have been making significant progress in simplifying our systems to improve customer service. We are implementing new technology to make it easier for citizens to access services, and deploying new communication tools to better engage and inform the public.

Our initiatives are having a positive impact. In the 2013 Community Survey, 73% of respondents rated the overall quality of life in Dallas as excellent or good. Other major findings reveal that while there are some differences for specific services, overall satisfaction with City services is generally the same throughout the City; the City of Dallas is setting the standard for service delivery; and the City continues to maintain high overall satisfaction ratings even though the results for most other large U.S. cities have decreased.

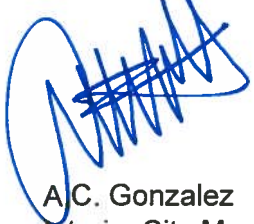

We intend to build on those successes, further simplify processes and promote an environment of enthusiasm, so that citizens, business owners and developers know when they walk into a city facility for help, they will be working with partners for their success.

Several exciting projects are underway with more to come online during the next fiscal year. The Love Field Modernization Project is on schedule and on budget. It will be completed upon full repeal of the Wright Amendment in fall 2014. The renovation of 2014 Main Street is nearly complete and will significantly upgrade judicial operations and welcome the planned addition of the UNT Dallas College of Law. Downtown continues to attract urban residents with an estimated 40,000 people now living in the expanded downtown areas. The Farmers Market, now operated privately, will soon be enhanced by retail and residential development. Construction of new retail development at the Dallas Omni Convention Center Hotel will begin during the next fiscal year. Both projects will strengthen economic development in the southern part of the Central Business District.

Trinity River Corridor planning and implementation of new projects are gaining momentum. The Continental Avenue Bridge will be transformed into a unique outdoor space. The Great Trinity River Gateway and Horse Trails and the Pavilion and Amphitheater Entryway on 8th Street connecting Moore Park and the Santa Fe Trestle Trail will soon be joined by the Texas Horse Park, the Trinity Forest Golf Course and additional bike trails in the Trinity floodway. The course will host The PGA Byron Nelson Golf Championship as well as First Tee of Greater Dallas junior golf program and the Southern Methodist University golf program. In 2014, construction of the new Sylvan Avenue Bridge will be completed, the upgraded Baker Pump Station will go on-line, and work will begin on the Able Pump Station; all projects addressing

flood control. The City, in partnership with TxDOT, has entered into the next phase of the Dallas Horseshoe Project to improve mobility along I-30 and I-35E near downtown Dallas' Central Business District in a safe, efficient, reliable, and environmentally sensitive manner.

Dallas is the ninth-largest city and part of the fourth-largest metropolitan area in the nation. Our city is vibrant and diverse, sophisticated and fun, and a center for art, fashion and sports. As a result, we attract worldwide travelers, making the area the number one visitor and leisure destination in Texas. We have enriched the cultural offerings to our citizens through some of the most successful public/private partnerships in the world. Through it all, we have remained fiscally conservative, operationally responsible and consistently responsive to the needs of our community. As we move forward, we will strive to strengthen our safety programs, restore community services and grow our economy.

HOW TO USE THIS DOCUMENT

This page is included to provide an overview on how this document is organized.

The hierarchy of organization is **Key Focus Areas** supported by individual **Services**:

Key Focus Areas

The FY 2013-14 Budget is presented by six (6) City Council established Key Focus Areas as the City's top priorities. The six Key Focus Areas are:

1. Public Safety Improvements and Crime Reduction
2. Economic Vibrancy
3. A Cleaner, Healthier City Environment
4. Better Cultural, Arts and Recreational Amenities
5. Educational Enhancements
6. Make Government Services More Efficient, Effective and Economical

Services are functional activities that are not dependent on other Services and were identified by City Departments.

Summary of Services (See Tab)

- This section includes a summary of all Services by Key Focus Area.
- A numbering system (1.1, 1.2, 1.3, etc.) is used to identify the Service. The first digit represents the Key Focus Area number (See above). The second digit represents the Service.
- The summary includes the responsible Department, Total Proposed Dollars (all funding sources), General Fund Proposed Dollars and General Fund FTEs.

Service Detail Pages by Key Focus Area (See Tabs listed by Key Focus Name)

- Each Service is organized by Key Focus Area. Use the 2 digit identifying number to find a specific Service from the Summary page.
- The Services include both General Fund and Enterprise Fund Services and are sorted alphabetically by Service name.
- Each detail page includes a Description, Funding Chart, Efficiency Measure, and Service Target FY 2013-14
 - Funding Chart includes operating budgets (shown as either General Fund or Enterprise Funds). Additional Resources reflect, for example, reimbursement from the Capital Budget, Storm Water or Other funds as well as Grants and Donations.
 - Measures provide additional information and are tied to the Performance Management system.

EXPENDITURE AND PROPERTY TAX OVERVIEW

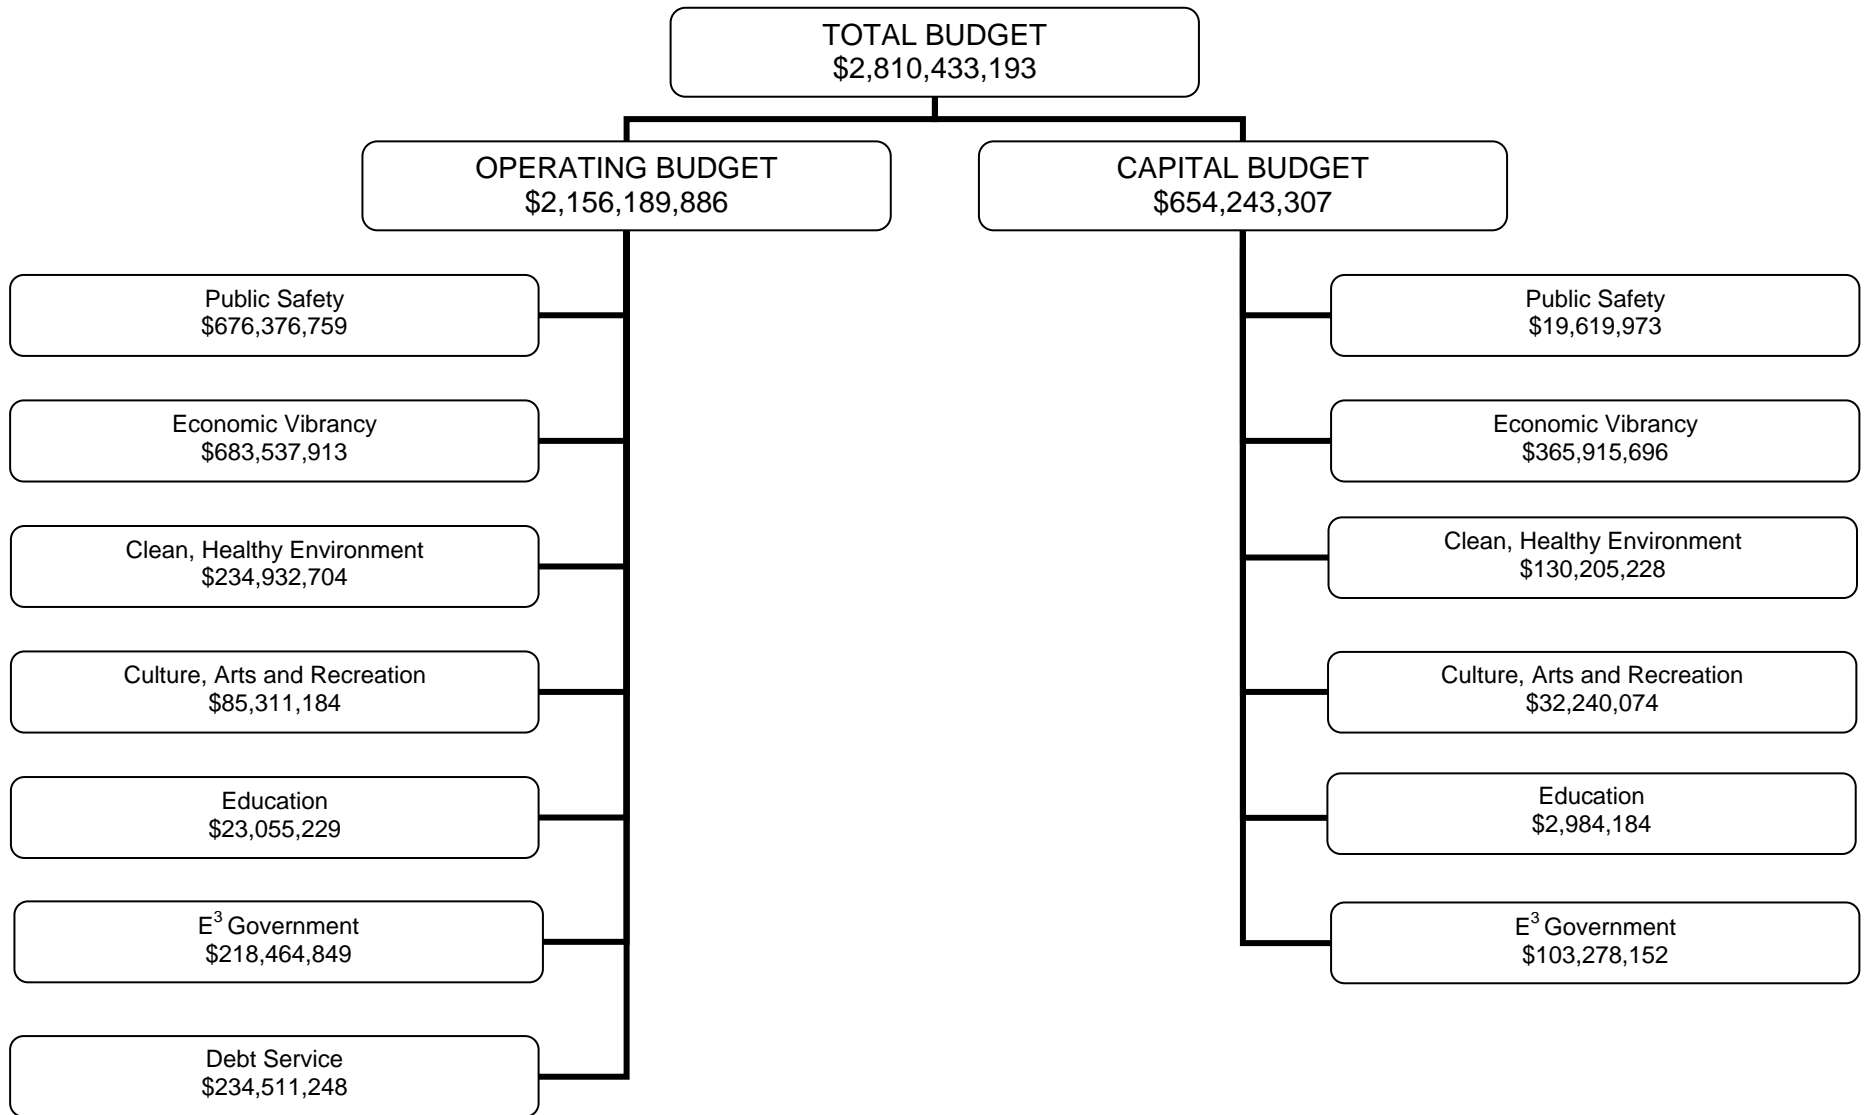

The City of Dallas has been consistently recognized for its judicious management of financial resources. An excellent bond rating, steady tax rate, and fair fee structures ensure the availability of necessary funds to support City services.

Property values increased 4.27% from \$83.68 billion in 2013 to \$87.25 billion in 2014. The proposed tax rate of \$0.7970 per \$100 valuation remains the same as the FY 2012-13 adopted tax rate. The proposed tax rate is split into two rates with \$0.5601 (70.3%) used to pay for operating and maintenance costs incurred in the General Fund, and \$0.2369 (29.7%) used to pay principal and interest on the City's outstanding general obligation debt. The City's property tax, sales tax receipts and other revenues support this budget.

BUDGET PROCESS

Preparing the Budget

- In January, preliminary revenue projections are used to create a starting point for the upcoming budget. Money is subdivided by KFA and departments begin to submit service bids to address the City Council's Key Focus Area goals.
- February-May, six city staffed budget teams (known as KFA Teams) rank service bids according to their ability to meet the Council's Key Focus Area goals. Rankings are given within each Key Focus Area category. The ranking of bids in each category continues until the KFA's budget allocation (derived from of the preliminary revenue projections mentioned earlier) is depleted. City Management and the Office of Financial Services oversee this initial process.

Reviewing the Budget

- In May, the City Manager presents the bid rankings to Council. This is the first draft version of the budget seen by Council or the public. A citywide citizen public hearing is held later in the month to receive citizen input. The City Management and Office of Financial Services take the input given to them from citizens and Council and make adjustments where feasible.
- By late June, a briefing is provided to Council on the preliminary budget outlook. This briefing highlights progress made on the budget since May and gives a recap as to what services are "funded", "not funded", or "should be funded". The "should be funded" category is a list of services that are not funded at this point due to insufficient revenue estimates, but based on citizen and Council input "should be funded" if additional revenues or savings become available.
- In August, the City Manager Proposed Budget is presented to Council and Council Members hold Budget Town Hall Meetings with citizens in their district to receive opinions about the City Manager's Proposed Budget.
- In late August a budget workshop and a public hearing allow Council and citizens an opportunity to collectively share opinions on the proposed operating, capital, and grants & trust budgets.

Amending the Budget

- In September, City Council holds a Budget Amendment Workshop where Council Members submit proposed amendments to the City Manager's Proposed Budget. Proposed amendments should be balanced with revenue and/or expenditure changes. A majority straw vote decides if the amendment is included in the final proposed budget.

Adopting the Budget

- Early September, City Council adopts the budget on its first reading.
- Mid September, City Council adopts the upcoming year operating, capital and grants & trusts budget on the second reading. Any approved amendments are included in this adoption.

BUDGET PROCESS CALENDAR

FY 12-13 Performance Measure Status:

On Track

Service Target FY 2013-14: File 100% of cases with the District Attorney's Office within 2 days of submission by the Investigative Unit.

Major Budget Items: Additional resources include Bullet Proof Vest Grant and stormwater reimbursement. Reduction in additional resources in FY 2013-14 is due to the ENP reimbursement being reclassified as revenue.

Key Focus Area 1: Public Safety

Police Community Outreach

Department: Police

- 1.19** **Description:** Community Outreach serves as a liaison between the police department, its employees and the community by establishing and maintaining a positive relationship. Community Outreach provides safety and educational programs such as 10-70-20, Chief on the Beat, and Coffee with Cops. The unit also consists of Crisis Intervention, which provides advocacy services to citizens experiencing neglect or mental illness.

FY 12-13 Performance Measure Status:
Caution

Shelters are over capacity leading to lower placements by Crisis Assistance. Community Policing 2.0 trainers focused time on 10-70-20 implementation and Chief on the Beat, resulting in fewer training hours provided to officers.

Service Target FY 2013-14: Conduct 1,800 hours of Community Policing 2.0 Training.

Major Budget Items: Additional resources include the Crime Reduction Program Grant. FY 2012-13 and FY 2013-14 increase in FTEs is due to sworn personnel being assigned full-time to enhance the 10-70-20 program. For FY 2013-14, 3 case workers for the Crisis Assistance Program that were funded from CDBG funding in FY 2012-13 will be funded in the General Fund.

FY 12-13 Performance Measure Status:

On Track

Service Target FY 2013-14:

Meet or exceed annual clearance rate of 85% for child abuse offenses.

Major Budget Items:

Additional resources include Victim Services grant, Auto Theft Grant, ICAC Grant, Sexual Assault reimbursement, COPs Sexual Predator & task force reimbursement. The increase in additional resources in FY 2013-14 is primarily due to additional ICAC funding from the State; the COPs Sexual Predator Grant will end in FY 2012-13. The increase in FY 2013-14 expenses from the estimate is primarily due to an increase in the SWIF contract (\$780,000) in the General Fund.

Key Focus Area 1: Public Safety

Police Field Patrol

Department: Police

- 1.21** *Description:* Police Field Patrol is the primary responder for police service calls for the 1.2 million+ citizens of Dallas. The Patrol watches are the primary responders for citizen calls for service. The Neighborhood Police Patrol is a proactive and community-oriented policing group that serves as the primary liaison between neighborhoods and the police department.

FY 12-13 Performance Measure Status:
Caution

Increase in emergency calls (Priority 1) due to re-classification of certain disturbance calls (previously Priority 2). Increased focus on warrant arrest has led to lower citations.

Service Target FY 2013-14: Respond to 82% of emergency calls within 8 minutes of receipt of the call by Communications.

Major Budget Items: Additional resources for FY 2013-14 include CDBG SAFE Grant and task forces. The reduction in additional resources in FY 2013-14 is due to COPs grant ending in FY 2012-13. FY 2013-14 expenses increased due to funding for: 183 replacement cars; full year funding for education pay; sworn step increases; EBS charges; payment for the highway program moved to the GF, and PAL & Bexar St. Outreach Programs.

FY 12-13 Performance Measure Status:

On Track

Service Target FY 2013-14:

Increase Canine interdiction operations by 2% over current estimate.

Major Budget Items:

Additional resources include confiscated funds and task force reimbursement. The reduction in additional resources for FY 2013-14 is due to use of one-time confiscated funding in FY 2012-13 for the highway traffic program (\$600,000), school crossing guard payment (\$759,000), reimbursement for overtime (\$2M), and technology for TAAG areas (\$2.8M). For FY 2013-14, the reduction of \$2M reimbursement from Confiscated Fund increases the General Fund budget by \$2M.

Number of calls for service answered by Canine Officers	2,100	2,272	2,300

FY 12-13 Performance Measure Status:
Caution

Readiness training hours are down because they are focusing on family violence warrants. A reduction in the number of accident investigators has led to fewer accidents worked. This has led to an increase in the number of accidents worked by patrol.

Service Target FY 2013-14: 95% of events with SWAT officers on-scene in 30 minutes.

Major Budget Items: Additional resources include traffic grants, Love Field reimbursement and task forces. FY 2013-14 additional resources reduction is primarily due to the state fair reimbursement (\$500,000) being reclassified as revenue and a reduction of \$759,000 for a one time reimbursement from confiscated funds for the school crossing guard program. In FY 2013-14, COPs funding was awarded for medical kits.

DEBT SERVICE

GENERAL OBLIGATION DEBT

Introduction

The General Obligation Debt Service Fund provides for the payment of principal and interest on the City's outstanding general obligation bonds, certificates of obligation and equipment acquisition notes as well as interest on outstanding general obligation commercial paper. Debt financing is used to pay for large capital projects. By using debt, the project costs are allocated over the life of the asset. Capital projects may include improvements to and/or construction of the City's street system; parks and recreational facilities; libraries; police and fire protection facilities; flood protection and storm drainage system. The Financial Management Performance Criteria (FMPC) addresses debt management and other requirements adopted by the City Council. The FMPC provides additional guidance on the issuance of debt including restricting the length of maturities and outlines the amount and purpose for which bonded debt may be issued.

The primary source of revenue for the debt service fund is the ad valorem property tax. The proposed ad valorem tax rate of \$0.7970 per \$100 assessed value is split into two rates. Slightly less than one-third (\$0.2369) of the tax revenue is used to pay principal and interest on the City's outstanding general obligation debt as well as interest on outstanding general obligation commercial paper. The remainder (\$0.5601) is used to pay for operating and maintenance costs incurred in the General Fund.

Due to the level principal structure of most bond sales, the principal and interest payments of the existing general obligation debt decline annually. This repayment schedule creates more growth in the capacity to issue new debt within the existing debt service tax rate than a level debt service schedule.

Credit Rating

The City of Dallas' general obligation debt currently holds AA+/Aa1 ratings from Standard & Poor's and Moody's Investors Service, respectively. These exceptionally high ratings reflect the sound management of the City's financial resources and allow for the issuance of relatively low cost debt. These ratings were reaffirmed in July 2013.

Legal Debt Margin

The City of Dallas Charter (Chapter XXI, Section 3) limits the maximum bonded indebtedness, payable from taxation, to 10% of assessed property value. However, the City's Financial Management Performance Criteria (FMPC) limits the net general obligation debt to 4% of the true market valuation of the taxable property of Dallas. Existing debt plus new debt to be issued (refunding of commercial paper) will constitute 1.8% of the assessed value of \$87.25 billion and 1.5% of the market value of taxable property of \$100.77 billion. Thus, the City will continue to comply with both requirements as of 9/30/2014.

Assessed Value	\$87,251,522,141

FY2013-14 Debt Service Budget

The FY2013-14 budget includes principal and interest payments on \$1.69 billion of existing general obligation debt. Principal and interest expense for existing debt in FY 2013-14 are \$143.96 million and \$82.64 million, respectively. In FY 2010-11, a commercial paper program was implemented to interim finance voter-approved capital improvement projects. The fees associated with the commercial paper program are included in the General Fund budget. The interest on outstanding commercial paper is paid by the Debt Service Fund. The City is anticipating a bond issue of \$250.0 million in summer 2014 to refund commercial paper issued since the last commercial paper refunding.

CONVENTION CENTER

Introduction

The Convention Center Debt Service Fund provides for the payment of principal and interest on the Convention Center's outstanding revenue bonded indebtedness. In February 2009, the Convention Center Complex issued \$324.94 million in refunding and improvement revenue bonds. This issue included the refunding of all of the Convention Center's \$261.36 million outstanding debt and \$63.58 million of new money. Of the new money issuance, \$60.80 million is being used for planned improvements to the Dallas Convention Center.

7% Hotel Occupancy Tax, non-operating revenue of the Convention Center Complex, and interest earned on cash balances in the bond reserve fund transferred to debt service funds are pledged for repayment of the debt. Operating revenues from the Convention Center Complex are transferred to the debt service fund to meet annual principal and interest payments. Additionally, the City has covenanted to provide for the payment of operating and maintenance expenses of the Convention Center Complex, should a shortfall in Convention Center revenues occur.

Credit Rating

The Convention Center Complex currently holds A/A1 underlying ratings from Standard & Poor's and Moody's Investors Service, respectively. The bonds are rated AA-/Aa3 based on the bond insurance policy that Assured Guaranty Insurance Corporation is providing.

FY2013-14 Debt Service Budget

The FY2013-14 budget includes payments on existing debt of \$3.68 million in principal payments and \$16.28 million in interest payments.

DEBT SERVICE

WATER UTILITIES

Introduction

The debt service component of the Operating Budget for Dallas Water Utilities (DWU) provides for payment of principal and interest on DWU's indebtedness. The budget for these payments is prescribed by the following standards:

- ◆ The Dallas City Charter provides in Chapter XI, Section 14 that all water and wastewater costs (including debt requirements) shall be paid for from customer service revenues.
- ◆ Revenue bond ordinances provide that customer service revenues solely secure water and wastewater bonds.
- ◆ Financial criteria for DWU provide for financing of capital improvements (effectively defined as capital projects with useful lives of 20 years or longer) either from debt or directly from revenues, to maintain system equity levels.

In addition to revenue bonds, debt sources include tax-exempt commercial paper notes (CP), which are utilized for interim financing of capital construction projects. On at least a bi-annual basis, commercial paper is refinanced and retired with revenue bonds. This process lowers overall interest costs and provides greater financing flexibility. Debt sources also include certain contractual obligations whereby DWU reimburses other agencies for debt incurred to construct joint-use facilities. Under these contractual agreements DWU makes payments in proportion to its allocated share of the joint use facilities.

Credit Ratings

The City of Dallas Waterworks and Sewer System Revenue Bonds are judged to be of high quality by all standards. These credit ratings reflect the sound management of DWU financial resources and allow issuance of bonds with relatively low interest costs. The City of Dallas Waterworks and Sewer System Commercial Paper Notes hold similarly high credit ratings. Current ratings of the City's debt instruments are shown in the table below.

Revenue Bond and Commercial Paper Note Coverage

The following are established standards for DWU net revenue in relation to future debt service payments.

- ◆ Revenue bond ordinances require net revenues equal to at least 1.25 times bond principal and interest requirements of the future year when those requirements are highest.
- ◆ DWU financial criteria state that net revenues should be 1.5 times maximum annual bond requirements at the end of each fiscal year.
- ◆ Commercial Paper coverage requirements state that net revenues should be 1.10 times the maximum annual principal and interest payments required on all debt outstanding in the future year when those requirements are highest.

For fiscal year 2012, coverage at September 30, 2012 is summarized in the table below.

Debt Service Coverage Requirements FY 2011-12 (000 omitted)

Coverage Net Revenue (CNR) = \$299,431

<u>Authority</u>	<u>Ratio</u>	<u>Requirement</u>	<u>Denominator \$</u>	<u>Actual</u>

DWU Criteria	CNR/Max CP	1.10	173,365	1.73
Rating Agencies	CNR/Average Annual Debt	N/A	100,145	2.99

Max Year = Maximum amount of debt service required in a single fiscal year for principal and interest payments on outstanding revenue bond indebtedness.

Max CP = Maximum amount of debt service required in a single fiscal year for principal and interest payments on all outstanding debt.

FY 2013-14 Debt Service Budget

The FY 2013-14 Budget provides principal and interest on existing debt of \$89.51 million and \$84.50 million, respectively. Commercial paper issues in FY 2013-14 are forecast at \$207 million with an estimated interest cost and fees of \$5.0 million, which is paid from the Water Utilities Operating Fund.

Water Utilities Financial Criteria for Debt Management

Financial criteria have been established to ensure sound management of DWU's financial resources. Financial criteria that apply to DWU indebtedness are listed below. Compliance with each of the criteria is projected for FY 2013-14 unless otherwise noted (in italics).

- (1) Current revenues will be sufficient to support current expenditures including debt service and other obligations of the system.
- (2) Long-term debt will be used only for capital expansion, replacement and improvement of plant, not for current expenses.
- (3) Short-term debt, including tax-exempt commercial paper, will be used as authorized for interim financing of projects that will result in capital improvements.
- (4) Capital projects financed through the issuance of debt will be financed for a period not to exceed the expected useful lives of the projects.
- (5) An equity target will be maintained for each fiscal year-end of at least 20% of the total capital structure, excluding current liabilities.
- (6) Net revenues available for debt service should be at least 1.50 times the maximum annual principal and interest requirements of relevant outstanding revenue bonds at the end of the same fiscal year, and at least 1.25 times maximum-year requirements at all times, measured during a fiscal year using the previous year net revenues available for debt service.
- (7) Capital financing will be provided through revenue bonds, current revenues, contributed capital, and short-term debt.
- (8) Revenue bonds will be issued with serial maturities not to exceed thirty (30) years.
- (9) Debt refinancing will only be considered when the current refunding has an overall net present value savings is at least 3% of the principal amount to be refunded, and the advance refund has an overall net present value savings at 4% of the principal amount to be refunded.
- (10) Fully funded debt service reserves shall be maintained. A surety bond (or other type of credit facility such as a letter of credit) may be used in lieu of funding the reserve if the former is economically advantageous.

FY 2013-14 PROPOSED CAPITAL IMPROVEMENT BUDGET

The Proposed FY 2013-14 Capital Improvement Program budget is \$654.24 million consisting of \$340.98 million for General Purpose Capital Improvements and \$313.26 million for Enterprise Fund Capital Improvements. This compares to the amended FY 2012-13 Budget of \$543.20 million that consisted of \$244.28 million for General Purpose projects and \$298.92 million for Enterprise Fund projects.

General Purpose Capital Improvement Program

The General Purpose Capital Improvement Program provides for improvements to and/or construction of the City's street system; parks and recreational facilities; libraries; police and fire protection facilities; cultural art facilities; the flood protection and storm drainage system; other City-owned facilities, and economic initiatives. General obligation bonds are the primary financing mechanism for these capital improvements. On November 6, 2012 the citizens of Dallas overwhelmingly approved a \$642.00 million Capital Bond program. Beginning in FY 2010-11, commercial paper is utilized to interim finance capital improvement projects. The commercial paper will be refinanced and retired with general obligation bonds approved by voters in 1998, 2006 and 2012.

Enterprise Fund Capital Improvement Program

The Capital Improvement Program for the enterprise departments consists of improvements to and/or construction of water and wastewater systems, venues for convention activities, and air transportation facilities. These projects are funded primarily by the transfer of enterprise revenues and the issuance of debt such as commercial paper and/or revenue bonds.

Capital Budget Process

The FY 2013-14 Capital Improvement Program budget was developed according to the same schedule as the City's operating funds. The foundation of the annual General Purpose Capital Improvement Program budget is the 2006 and 2012 General Obligation Bond Programs. The development of these bond programs included the update of a citywide needs inventory; citizen input meetings; analysis of financial and implementation capacity; City Council workshops and amendments; and, public hearings.

How to Read the Capital Budget

The Capital Improvement Budget portion of this document is comprised of the following sections:

Summaries – Includes tables and charts highlighting the City's priorities for project funding in the upcoming fiscal year. Projects are identified by the City Council's Key Focus Area, funding source, and capital improvement program.

Bond Issue Schedules – Provides annual funded amounts, by proposition, for the 1998, 2003, 2006 and 2012 Bond Programs.

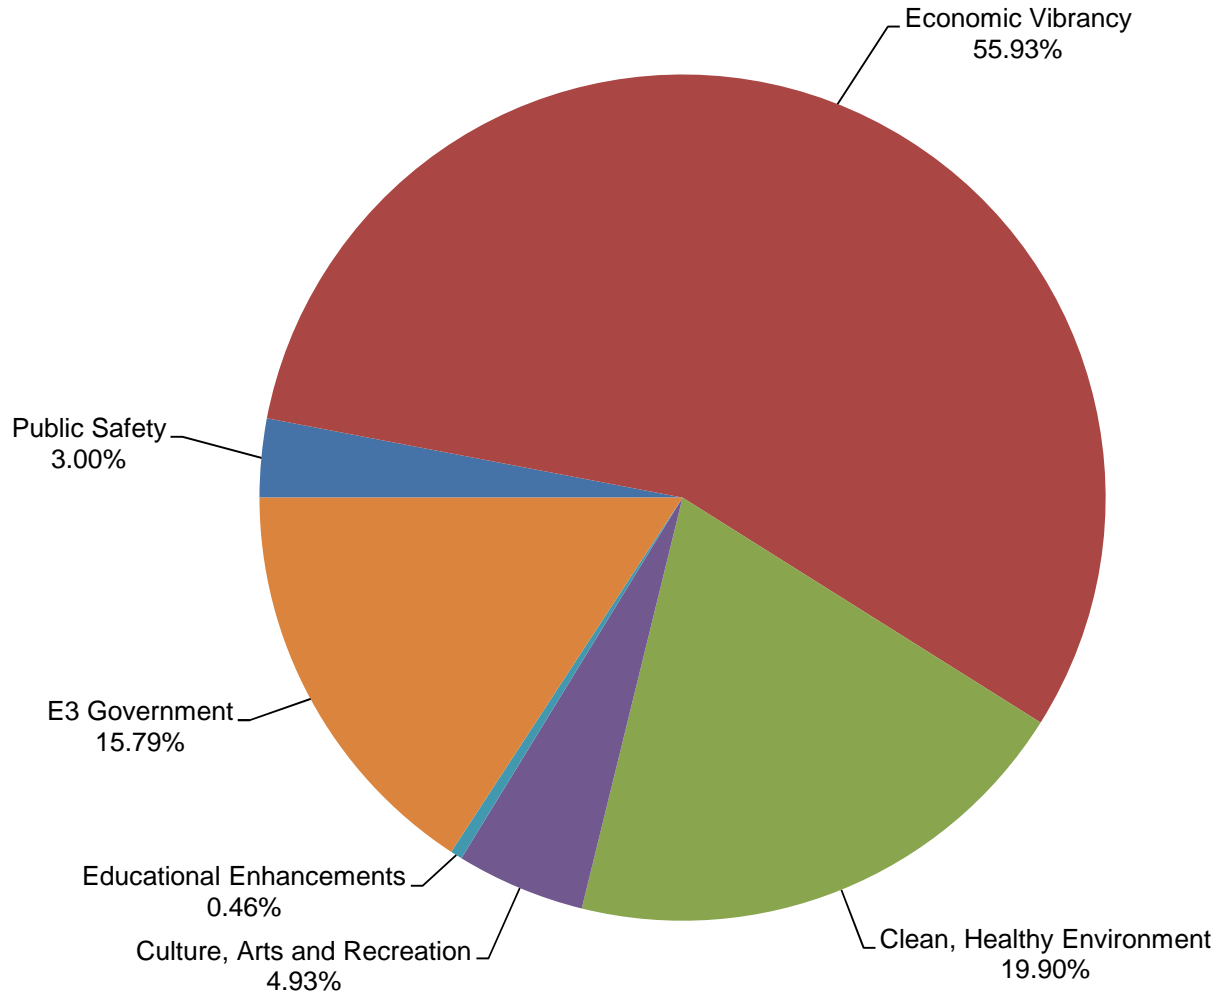

Capital Program Sections – Provides information by capital program, service and project. Capital program information includes narrative for program mission, current year major accomplishments, and upcoming budget year objectives. Expenditures by funding source and service are summarized by capital program. A detailed project listing, in alphabetical order, follows the program summaries. Active projects budgeted in prior fiscal years are also included. Projects funded in prior years that were finalized as of April 30, 2013, have been excluded. Included in the project detail for each project is the service category, corresponding Council priority Key Focus Area, council district, funding source, the total project budget over the life of the project, remaining appropriations, and new appropriations for the upcoming budget year. Estimated costs for future phases of current projects beyond FY 2013-14 have been indicated when known. Identification of future cost is not a commitment of future funding.

The project costs used in developing the City's bond programs are estimated at the mid-point of the bond program timeframe. By doing this, projects completed earlier in the bond program will generally cost less than originally projected. These cost savings are accumulated in a project contingency reserve and then used to offset overruns for projects scheduled to be completed later in the bond program's life. The current appropriations for the contingency reserves are included in the detailed project listing by proposition. These appropriations are transferred to projects when needed to fully fund a bond program project.

AVIATION FACILITIES CAPITAL IMPROVEMENTS

MISSION

The Department of Aviation's Capital Improvement Program is directed toward: (1) meeting the obligations incumbent of the City's role in the National Airspace System to maintain safe, delay-free and cost effective airports; (2) maintaining existing systems, pavements and buildings at the City's three aviation facilities to meet federal, state and municipal standards for safety, security and serviceability; (3) continuously improving aviation facilities for both commercial and general aviation users; and (4) studying, designing and constructing facilities that enhance customer service and convenience.

The Department of Aviation's facilities include Dallas Love Field, the Downtown Vertiport and Dallas Executive Airport.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2012-13

1. Completed Airline Consultation in preparation for Passenger Facility Charge Application #4.
2. Completed General Aviation Customs Facility at Love Field.
3. Began Dallas Executive Airport Master Plan update and perimeter roads project.
4. Began design of perimeter roads project at Love Field.
5. Completed construction of the Field Maintenance Facility at Love Field.

12. Complete Taxiway A, B, and D reconstruction at Dallas Love Field
13. Begin design of Runway 13/31 reconstruction at Dallas Executive

AVIATION FACILITIES CAPITAL IMPROVEMENTS

SERVICE DESCRIPTIONS

Airfield Electrical Federal Aviation Regulations establish very detailed requirements for the installation and operation of electrical lighting systems within the Airport Operating Area (AOA). These systems include runway and taxiway lighting, guidance signs, navigational aids and obstruction and apron lighting. Reconstruction and new installation projects are scheduled based on inspection findings and changes in federal regulations.

Aviation Land Acquisition Paragraph 5.4 of the Dallas Love Field Policies directs the Department of Aviation to acquire privately owned parcels within the area bounded by Mockingbird Lane, Lemmon Avenue, Denton Drive and Shorecrest Drive for transportation, aviation or other appropriate uses when such land becomes available for purchase and when City funding is available for such acquisition.

Environmental Federal and State regulations administered by the Environmental Protection Agency (EPA), the Texas Commission on Environmental Quality (TCEQ), and Municipal Codes administered by the City's Environmental and Health Services Department (EHS), direct the environmental projects undertaken by the Department of Aviation.

Landscaping Both Dallas Love Field and Dallas Executive Airport are located within the Dallas city limits and are surrounded by or in close proximity to residential housing and retail businesses. The airports strive to maintain a "good neighbor" status and make every possible effort to be aesthetically pleasing.

Parking A Parking Garage Feasibility Study concluded that existing parking facilities at Love Field were inadequate to meet current and projected demands. To remedy this shortage, a new parking garage was constructed to add 4,000 spaces to the existing on-airport parking capacity. A second sky bridge with integral people movers was also added to connect the new parking garage with the terminal building.

Pavement Maintenance/Construction Federal Aviation Regulations establish very detailed requirements for maintenance and construction of pavement areas within the Airport Operating Area (AOA). Dallas Love Field and Dallas Executive Airport maintain a massive amount of concrete and asphalt pavement areas. These areas require daily inspections. Repair, reconstruction and new construction projects are scheduled based on

inspection findings.

Safety/Security Federal Aviation Regulations (FAR) Part 139 and Transportation Security Administration (TSA) Part 1540 and associated Advisory Circulars establish very detailed requirements for safety and security at air carrier airports such as Love Field. FAR Part 139 addresses safety issues related to preventing inadvertent entry by unauthorized personnel or animals into operational areas of the airport; aircraft rescue and firefighting (ARFF); and ensuring the safety of personnel and aircraft within the confines of the airport's AOA. TSA Part 1540 focuses on securing the airport from intentional entry into the restricted areas of the airport by unauthorized personnel and protecting personnel and property from weapons and explosive devices.

Terminal Since the airports are the first impression many visitors have of the City of Dallas, it is necessary that the airport terminal facilities be maintained in a manner that presents a clean and attractive appearance while providing high levels of customer convenience. Last year over 8 million passengers passed through the Love Field terminal either arriving in Dallas or traveling to other destinations. This usage level places a great strain on existing facilities, requiring aggressive programs for updating, renovating and maintenance to maintain the traveling public's favorable impression of Love Field and the City of Dallas. Similar challenges exist at Dallas Executive; however, in accordance with the Master Plan Study, a new replacement terminal building has been constructed to meet projected special and service needs.

Vertiport The Vertiport is a public use aviation related facility located in the Central Business District on the south end of the Dallas Convention Center; the flight deck covers approximately 169,000 square feet, or about four acres, and is 65 feet above ground. It houses two lighted landing take-off pads which can be converted to a rollway for future tilt-rotor operations. In addition there are five 60x60 parking/tie down areas for corporate size helicopters. The FAA established dedicated approach and departure corridors which are assets to the complex airspace model for the metroplex. The Vertiport has a dedicated and secured parking area allowing for 26 vehicles at street level, and easy access to the flight deck from street level and the loading dock levels via a vehicular ramp. The Heliport also hosts a full service lobby with ground access, passenger waiting area, small conference room, pilot's lounge, flight planning area and an operational area for staff.

CITY FACILITIES CAPITAL IMPROVEMENTS

MISSION

The purpose of this program is to protect the City's \$700 million investment in existing facilities, to ensure safe and usable facilities, and to provide a higher level of service to citizens. This is accomplished through extraordinary repair improvements to existing City facilities and when needed, the construction of new facilities. Strategic planning is conducted to evaluate existing City facilities for recommended future renovation, expansion or replacement.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY2012-13

1. Awarded construction contract for Polk Wisdom Library and Fretz Park Library renovations.
2. Awarded design build contract for roofing replacement at 19 city facilities.
3. Awarded construction contracts for replacement of Fire Stations #27 (Douglas Ave. at NW Hwy.), #32 (Benning Ave. at Jim Miller Rd.), #37 (Greenville Ave. at Blackwell) and #44 (Frank St. at Lagow St.).
4. Completed construction of Fire Station #50 (Keeneland and Walton Walker); station achieved LEED Gold certification.
5. Completed renovation of Municipal Courts Building at 2014 Main St.
6. Awarded construction contract for the Bexar St. Police Satellite Facility.
7. Completed HVAC replacements at North Oak Cliff Library, Park Forest Library, Forest Green Library and Preston Royal Library.
8. Completed construction of City Performance Hall.

HIGHLIGHTED OBJECTIVES FOR FY2013-14

1. Award construction contract for 106 S. Harwood Exterior Renovation (Old City Hall)
2. Award construction contract for replacement of Fire Station #6 (Harwood St. at Park Row Blvd.).

3. Award design contract for the roof replacement, HVAC and water infiltration repairs at the Museum of Natural History at Fair Park
4. Award the design contract for the HVAC replacement at the Dallas Theatre Center.
5. Award construction contracts for the renovation of Central and Southwest Police stations.
6. Award the construction of the fire alarm system upgrade at Dallas City Hall.
7. Award the design contract for the City Hall electrical upgrade.

SERVICE DESCRIPTIONS

Administrative, Internal Services and City Facilities Repairs, modifications and improvements to existing City facilities that house administrative and internal functions. Funding is also provided to improve and maintain service facilities that house such functions as Code Compliance, Court Services, Streets, Equipment Services, and training facilities.

Animal Control Facilities Design, construction and replacement of the Oak Cliff Animal Shelter located at 525 Shelter Place. The replacement facility will be constructed in a more accessible location to the public and will accommodate enlarged facilities for animal impoundment and pet adoption activities.

Fire Protection Facilities Projects include site acquisition, design and construction of new and replacement of fire stations and other fire department facilities.

Land Acquisition Funding for the purchase of land which will be used for the future location of City Facilities. Additionally, the 2006 Bond Program included proposition specifically to acquire land from the Cadillac Heights area.

CITY FACILITIES CAPITAL IMPROVEMENTS

Library Facilities Site acquisition, design, renovation and construction of new or replacement branch libraries. Funding is also provided for design, renovations, and/or expansion projects at the City's existing Central Library and twenty-two branch libraries.

Major Maintenance Repair and replacement of major building systems that typically cost more than \$10,000 to provide timely and appropriate maintenance to protect the City's general fund facility investment. This process ensures safe and usable facilities for citizens and staff, and maintains a positive image for the City. Examples of building systems include elevators, structural components, roofs, HVAC, electrical, plumbing, and interior finishes.

Municipal Court Facilities Provides funding for improvements which may include designing, constructing, renovating, equipping and furnishing and/or acquisition of right-of-way for court facilities.

Police Facilities Planning, land acquisition, design, construction, renovation, equipping, and furnishing police substations, a police academy, and related facilities.

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks, and for administration of the public art projects.

Solid Waste Facilities Construction of waste disposal cells, and levee/swale at the McCommas Bluff Landfill for the purpose of managing solid waste providing solid waste facilities improvements including cell disposal, flood protection and drainage, establishment of wetlands, and relocation of utilities. These projects consist of four major components: cell construction; extension of the levee system; swale excavation/environmental protection; drainage improvements; and, relocation of utilities.

Studies and Master Plans Provides funding for resolution of major developmental issues prior to proceeding with design and construction of individual projects.

Technology This category includes the purchase of equipment that will enhance or improve the delivery of services to external and internal users through the use of advances in electronic and computer technology. These capital equipment purchases will also bring the City of Dallas to current computer industry standards.

CONVENTION AND EVENT SERVICES FACILITIES IMPROVEMENTS

MISSION

The Department of Convention and Event Services is directed towards: (1) renovating, maintaining, and preserving existing facilities, (2) replacing equipment to enhance operational efficiency and occupant safety, and (3) expanding Convention Center facilities to ensure adequate space necessary to attract new clients, visitors and citizens to the facility. A variety of convention and event facilities are available to clients, citizens and visitors to Dallas, including the Dallas Convention Center, Dallas Farmers Market, and Union Station Transportation Hub.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2012-13

1. Completed construction contract for upper D meeting spaces proposed in the capital improvement program of the Dallas Convention Center.
2. Completed construction of the Dallas Convention Center Hotel integration.
3. Completed phase II study for proposed capital improvement program of existing facility, meeting/ballroom spaces, restrooms and mechanical, electrical, plumbing (MEP) renovations at the DCC.
4. Transitioned Dallas Farmers Market to private ownership/operations. The plan was executed on June 17, 2013.
5. Awarded the contract and began construction of phase 1 of the roof replacement, the Fire Alarm and emergency lighting improvements and the water proofing of A,B and C Buildings.
6. Awarded the contract for Phase 2 of the roof replacement.
7. Awarded the contract and replaced the cooling towers at Union Station

HIGHLIGHTED OBJECTIVES FOR FY 2013-14

1. Complete both reroofing projects, waterproofing and the improvement of the fire alarm and emergency lighting system.
2. Finalize the planning and design and award the construction contract of restrooms and meeting rooms.
3. Complete waterproofing at Union Station.

SERVICE DESCRIPTIONS

Convention Center Improvements The Dallas Convention Center has identified a list of needs that has formed the basis for the capital improvement program that will be implemented in two phases. Phase I finished out the D area meeting space and hotel connector integration into the Dallas Convention Center as well as HVAC improvements. Phase II will cover life safety improvements and a waterproofing package that includes new roofing and interior improvements.

Farmers Market Improvements City Council approved the development agreement for privatization of Dallas Farmers Market on February 27, 2013 and the sale and lease of real property at the Market on March 27, 2013. City ownership, management and operations of the Market ceased on June 17, 2013.

Union Station Renovations These projects included the masonry wall cleaning and repairs, granite cleaning and repairs, plaster repairs, terra cotta cleaning and repairs, steel window restoration (excludes abatement), north canopy restoration, terrace/loggia waterproofing, roof replacement, and improvement and upgrading HVAC system, electrical and plumbing systems at Union Station.

SERVICE DESCRIPTIONS

Cultural Facilities Site acquisition, design, construction and/or renovation of the City's cultural facilities.

Major Maintenance Repair and replacement of major building systems that typically cost more than \$10,000 and provide timely and appropriate maintenance to protect the City's general fund facility investment. This process ensures safe and usable facilities for citizens and staff, and maintains a positive image for the City. Examples of building systems include elevators, structural components, roofs, HVAC, electrical, plumbing, and interior finishes.

Municipal Radio Improvements Projects include the upgrading and expanding of digital broadcast equipment to ensure high quality broadcast, uninterrupted service, and compliance with Federal Communications Commission requirements for a 100,000 Kw FM radio transmitter, and the construction of a new broadcast facility or renovation of existing broadcast facility, including building security and production studio improvements.

City Performance Hall Completes the planning, design and construction of a performing arts theater and constructing the related site improvements within the Downtown Arts District, including the acquisition of land, relocation of utilities, and infrastructure improvements.

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering. Debt issuance and CIP engineering costs are paid from the interest earned on bond proceeds. These costs may also include transfers to the General Fund and/or the Debt Service Fund.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks and for administration of the public art projects.

ECONOMIC DEVELOPMENT PROGRAMS AND INITIATIVES

MISSION

The Economic Development Capital Improvement Program assists the creation of an adaptive and resilient economy by promoting job growth and increasing the tax base. Bond program projects include infrastructure improvements to protect the existing public and private assets, balance growth in all areas of the City, and adjust historical disparities in development and facilities. The Public/Private Partnership program facilitates private development by offsetting costs such as infrastructure and development fees. The projects for the eighteen tax increment financing districts (TIFs), in which the City participates, provide funding for TIF-eligible improvements within the boundaries of each TIF Reinvestment Zone.

EQUIPMENT ACQUISITION

MISSION

This program provides funding for the purchase of capital equipment used in the day-to-day operations of the City.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY2012-13

1. Completed upgrades to the Computer Aided Dispatch system for the remaining in-car mobile installations.
2. Purchased 10 replacement fire engines and 3 replacement aerial ladder trucks.
3. Purchased 1 replacement hazardous material response apparatus.
4. Purchased 149 pieces of replacement fleet equipment, including sedans, light and heavy trucks and off road equipment.
5. Purchased 101 Compressed Natural Gas (CNG) sedans and light and heavy trucks
6. Purchased 25 pieces of sanitation collection and 10 pieces of disposal equipment for a total of 35 pieces.

HIGHLIGHTED OBJECTIVES FOR FY2013-14

1. Continue location infrastructure and regional warrant updates.
2. Finalize implementation of the citywide network refresh project for key infrastructure equipment updates for remote locations throughout the City.
3. Continue implementation of secondary phases of the electronic citation program.
4. Purchase 236 pieces of fleet replacement equipment (including prisoner transport vans, road repair patch trucks and off road equipment) which have reached the end of their useful life cycle.
5. Purchase 200 police squad cars.

6. Purchase 24 pieces of sanitation collection equipment.

SERVICE DESCRIPTIONS

Fleet Replacement This category includes purchases of fleet such as trucks, sedans, vans, dump trucks, backhoes, motorcycle; landfill equipment such as compactors, rotobooms, loaders and bulldozers; and fire emergency apparatus such as pumpers and trucks.

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering. Debt issuance and CIP engineering costs are paid from the interest earned on bond proceeds. These costs may also include transfers to the General Fund and/or the Debt Service Fund.

Technology This category includes the purchase of equipment that will enhance or improve the delivery of services to external and internal users through the use of advances in electronic and computer technology. These capital equipment purchases will also bring the City of Dallas to current computer industry standards.

Operational Equipment Provides for the purchases of new and/or replacement equipment used to deliver services to the public on a daily basis. Equipment purchases in this category include, but are not limited to, mowers, sanders, concrete saws, street striping machines, tractors, flood warning systems, and paving breakers.

FLOOD PROTECTION AND STORM DRAINAGE CAPITAL IMPROVEMENTS

MISSION

This program provides for the preparation of plans, specifications, and construction to improve storm drainage and reduce the loss of property due to flooding and erosion. These projects include construction and replacement of storm drainage systems, inadequate bridges and culverts, erosion control structures, and the implementation of flood plain management plans to improve the flood protection system.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2012-13

1. Completed the design of the Able Pump Station.
2. Completed construction for 11 erosion control projects including 8022 Claremont Drive, 2118-2132 Clarksdale Drive, 8220 Coolgreene Drive, 2631-2635 Deep Hill Circle, 4518 Dove Creek Way, 2102-2103 Healey, 3417, 3429, 3509, 3529 Holliday, and 8165-8171 Hunnicut Road.
3. Completed construction of Pavaho Pump Station.
4. Completed construction of Ricketts Branch detention basin project.
5. Continued construction of the Rush Creek diversion system.
6. Continued construction of Baker (Hampton-Oak Lawn) Pump Station.

HIGHLIGHTED OBJECTIVES FOR FY 2013-14

1. Begin construction on Able Sump Station improvements.
2. Continue design of Mill Creek, Middle Peaks Branch, and State Thomas flood protection and storm drainage improvements.
3. Complete construction of Rush Creek relief/diversion system.
4. Complete construction of Baker (Hampton-Oak Lawn) pump station.

5. Complete construction on State Thomas-Antique District and State Thomas-McKinney Avenue storm drainage relief systems.

SERVICE DESCRIPTIONS

Erosion Control Erosion control projects are recommended for structures threatened by creek or channel bank erosion. Typical structures include streets, culverts, bridges, alleys and homes. Erosion occurring in areas not associated with creek banks or man-made channels is not included in this category. This category would provide armoring of natural creek banks to protect soil against further erosion loss.

Flood Management Comprised of projects recommended in Flood Plain Management Studies of creeks and tributaries. The emphasis is on reduction of severe flood impact on bridges and neighborhoods bordering flood plain areas. Typical projects in this category are bridge and culvert replacement, creek channelization, detention basins and construction of flood protection levees.

Storm Drainage Relief System Provides funds for the construction of storm drainage system improvements. Many areas within the City of Dallas are served by storm drainage systems that are inadequate because of continued development and the fact that many of the older systems were designed to a lesser standard than is used today. In many cases, because of the high cost of retrofitting improvements in fully developed areas, these projects are proposed for design and construction by phases.

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering. Debt issuance and CIP Engineering costs are paid from the interest earned on bond proceeds.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks and for administration of the public art projects.

PARK AND RECREATION CAPITAL IMPROVEMENTS

MISSION

The mission of the Park and Recreation Capital Improvement Program is to:

- Recover the quality and prestige of the Dallas park system
- Regain the confidence and enthusiasm of our citizens
- Reposition the Dallas Park and Recreation Department as a recognized state and national leader

“A Renaissance Plan for Dallas Parks and Recreation in the 21st Century”

This program provides for the design, construction and maintenance of Park and Recreation facilities including: playgrounds, major parks, public facilities, athletic facilities, aquatic facilities, erosion control, site development, historic preservation, and service facilities.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY2012-13

1. Completion of Woodall Rogers Deck Park (Klyde Warren Park), the Elm Fork Athletic Complex, and Luna Vista Golf Course renovation.
2. Completion of playground replacements at Friendship, Glencoe, JJ Lemmon, Fruitdale, Ricketts Branch, College, Casa Linda, Holcomb and JP Hawn parks.
3. Completion of recreation center renovations and expansions at Harry Stone, Samuell-Grand and Beckley Saner recreation centers.
4. Completion of pavilions at College and Miller Family parks.
5. Completion of Pike Park Plaza, Seaton Park Loop Trail, Five Mile Creek Trail design, White Rock Creek Trail renovation from Forest Lane to Royal Lane, Reverchon Park improvements and Turtle Creek erosion control.
6. Completion of spraygrounds at Willie Mae Butler and Beckley Saner parks.
7. Begin construction of the Texas Horse Park.

HIGHLIGHTED OBJECTIVES FOR FY2013-14

1. Complete improvements to Cotton Bowl at Fair Park, White Rock Lake Dog Park renovation, restorations at Lee Park (including Roque Courts) and Dealey Plaza Phase 2.
2. Complete trail improvements at: Trinity Strand Trail, Kiest Trail, Five Mile Creek Trail from Glendale Park to College Park, White Rock Lake E. Lawther Trail from Mockingbird Point to Big Thicket, White Rock Creek Trail from Valley View Park to Hillcrest Park, and Lake Highlands Trail Phase 3. Complete amenities package at Kiestwood Trail.
3. Complete recreation center renovations at Cummings, Anita Martinez, and Walnut Hill recreation centers.
4. Complete improvements at Luna Vista Golf Course Service Center, Lakeland Hills pavilion and parking improvements at Park in the Woods
5. Complete playground improvements at Cedar Run, and Big Thicket (White Rock Lake) parks; soccer fields and parking improvements at Timberglen Park; and site development at Griggs Park.

SERVICE DESCRIPTIONS

Administrative and Internal Service Facilities Provides for service facilities required to effectively and efficiently deliver services in an expanding park system.

Aquatic Facilities These improvements provide for new neighborhood spraygrounds, family aquatic centers and infrastructure improvements to Park and Recreation public swimming pools. The improvements may include new filtration systems, new piping and chlorination systems, re-plastering of pool walls, new perimeter fencing, new decking and improvements to the restroom and changing facilities.

Citywide Parks Projects have a broader benefit to the citizens. Included within these projects are storm water quality improvements, park accessibility improvements and land acquisition.

PARK AND RECREATION CAPITAL IMPROVEMENTS

Code Compliance, Safety and Security Provides a mechanism to address major critical needs throughout the city.

Community Parks These parks are larger than Neighborhood Parks and usually comprise 15 to 100 acres and serve a 2-mile radius. These parks may include areas for intense recreation activity such as competitive sports, swimming, tennis, playgrounds, volleyball etc. There may also be passive recreation opportunities such as walking, viewing, sitting and picnicking.

Dallas Arboretum Provides for the development at Dallas Arboretum in partnership with the Dallas Arboretum and Botanical Society.

Dallas Zoo This category provides for development within the park and is often accomplished in partnership with the Dallas Zoological Society.

Downtown Parks Provides for the development of parks within the Central Business District.

Environmental Provides funding to address improvements directly affecting the health and well-being of the citizens of Dallas.

Erosion Control These projects employ a variety of engineering techniques to control erosion around creek, channel or lake banks. Erosion problems, if left unchecked, will cause damage to existing structures in the park and may create hazardous conditions.

Fair Park Provides for the development of projects within Fair Park. These projects often are completed in partnership with the State Fair of Texas, Inc. or other institutions who have a stake in the development of the park.

Hike and Bike Trails All-weather trail projects that encourage walking, bicycling, and other modes of transportation as an alternative to the automobile. These trails offer sufficient width to accommodate bicyclists, pedestrians, and skaters, and are recommended under the North Central Texas Council of Government's (COG) Mobility 2025 Plan and the Texas Natural Resources Conservation Commission's (TNRCC) Emission Reduction Plan for the region.

Historic Restoration These improvements provide for the restoration and stabilization of historically significant park facilities, particularly those constructed during the 1930s Works Progress Administration era.

Linear/Linkage These areas are built connections or natural corridors that link parks together. Typically, the linear park is developed for one or more modes of recreational travel such as walking, jogging, skating etc.

Major Maintenance Provides repair and replacement of major building systems that typically cost more than \$10,000 and provide timely and appropriate maintenance to protect the City's general fund facility investment. This process ensures safe and usable facilities for citizens and staff, and maintains a positive image for the City. Examples of building systems include elevators, structural components, roofs, HVAC, electrical, plumbing, and interior finishes.

Major Park Facilities These improvements provide for the development of new park facilities or renovation of existing facilities at regional parks that provide citywide or regional services. Included are projects at Fair Park, Dallas Zoo, Dallas Nature Center, Katy Trail, Golf Courses, and the Arboretum.

Metropolitan Park These parks are large facilities that service several communities. The parks range in size from 100-500 acres which serve the entire City and are natural areas or developed for a variety of outdoor recreation activities.

Mini Park These parks are used to address limited, isolated or unique recreation needs of concentrated populations; usually 1 acre or less in size with less than ¼ mile service radius.

Neighborhood Park Facilities These facilities provide for new recreation centers and additions to and renovations of existing recreation centers. The standard recreation center has program space and a full gymnasium. An addition typically consists of a large multi-purpose room. Reservation facilities are available to the public for rental for special events and functions. These parks are from 1 to 15 acres in size and service a ½ mile radius.

Park Land Acquisition Provides funding for the acquisition of land for future park development.

Playground Improvement Includes new playgrounds or replacement of outdated playground equipment. These projects may also include replacement or installation of new groundcover material to ensure playground safety.

PARK AND RECREATION CAPITAL IMPROVEMENTS

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering. These costs also include transfers to General Fund.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks and for administration of the public art projects.

Public Private Partnership Provides a funding source for leveraging potential participation and private funding to support park development and programming.

Recreation Centers These facilities provide for new recreation centers and additions to and renovations of existing recreation centers. The standard recreation center has program space and a full gymnasium. An addition typically consists of a large multi-purpose room. Reservation facilities are available to the public for rental for special events and functions.

Regional Parks These parks are very large multi-use parks that serve several communities within a particular region. They encompass 500+ acres and serve those within a one-hour driving distance. The regional park will provide a wide array of active and passive recreation activities for all age groups.

Site Development Includes the development and implementation of Park master plans. These projects may include installing some or all of the components as outlined in the Plan. Typical components may include: pavilions, sidewalks, barrier free ramps, hiking and biking trails, drainage, landscaping and irrigation, fencing, lighting, signage, and other improvements.

Special Use Areas These areas are for specialized or single purpose recreation activities. There are no specific standards for size or acreage. Included in these areas are: historic areas, nature centers, marinas, golf courses, zoos, arboretums, amphitheatres, plazas and community squares.

Studies and Master Plans Provides funding for resolution of major developmental issues prior to proceeding with design and construction of individual projects.

Trail Development Provides funding for trails identified within the citywide trails master plan.

STREET AND THOROUGHFARE CAPITAL IMPROVEMENTS

MISSION

Street and Thoroughfare capital improvements seek to enhance the overall transportation system in the City of Dallas to provide safe and efficient movement of people, goods and services throughout the City. These projects include transportation systems management, participation with other agencies for improvements to intersections, thoroughfares and alternative modes of transportation, as well as street resurfacing, street petitions, street reconstruction, local collectors, sidewalks, thoroughfare improvements, alley petitions and reconstruction, and bridge repair and modification.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2012-13

1. Completed construction of 8 Alley Reconstruction projects including alley Carry Back Cir. & TU ROW - Pensive to T-alley, Catamore (3144) & Woodwind - Dundee including "T", Chattington (7606) & Rolling Acres - Tophill to Carriage, Cromwell(11001) - Royal to Cromwell, Paldao Dr (7311 - 7429) Spring Valley - Meandering to Carillon, Tahoe & Brush Creek-Brush Creek to Roaring Springs, Talisman Dr & Wildflower from Wildflower to Caraway, Whitehall & Jubilee Trail - Shans to Cromwell .
2. Completed 3 Bridge Repair and Modification projects including Lake June Rd. over Prairie Creek, Mockingbird Bridge over Fisher Road, Simpson Stuart Rd. over Five Mile Creek.
3. Completed 4 Sidewalk projects including Community from Webb Chapel Ext. to NW Hwy, Herbert Street, from Toronto Street to Canada Drive, McCallum from Hillcrest to Coit, Martin Weiss elementary and D. A. Hulcy Middle.
4. Completed 2 Street Petitions projects including Laneri Ave - Merrimac Ave to Mercedes Ave, Oldgate Ln. - Garland Rd to Diceman Dr.
5. Completed 142 barrier-free ramps and 164 slope downs.
6. Completed 5 Street Reconstruction projects including Congo St. from S. Carroll Ave. to Bank St., Campbell Rd at DART crossing, Fitchburg St - Chalk Hill Rd to Weir St, Irving Blvd (N Serv Rd) - Mockingbird Lane to Woodall St.

7. Completed 559 Resident Cost-Share Sidewalk Replacement projects.
8. Completed 30 Fast-Fix Sidewalk Replacement projects.
9. Completed 30 segments of street resurfacing for a total of 39 lane miles.
10. Completed 2 Streetscape/Urban Design projects including Bexar St.-CF Hawn (US 175) Svc. Rd. to Brigham Ln., Buckner Blvd (Phase II) - Bruton to Scyene.
11. Completed 5 Intergovernmental Partnership Projects including Katy Trail Phase III, Gaston & Washington, Northwest Highway from West Lawther to Buckner, CBD Signage and Wayfinding Phase II, and Frankford from Coit to the East City Limits.

HIGHLIGHTED OBJECTIVES FOR FY2013-14

1. Complete 3 Alley Petitions projects.
2. Complete 17 Alley Reconstruction projects such as 9th St & 10th St - Zang to Madison, Aberdeen Ave & Mimosa Ln - Tibbs to Edgemere, and Marsalis & Lancaster - 11th to Jefferson.
3. Complete 2 Bridge Repair and modification projects including the Fair Oaks Crossing bridge.
4. Complete 13 Intergovernmental Partnership Projects such as Gaston at Washington, Katy Trail 3 and 4, Montfort from Peterson to Alpha, McKinney Ave Trolley Olive Street Ext, and Sylvan Bridge.
5. Complete 1 Street Modification and Bottlenecks project at Montfort and Peterson.
6. Complete 13 Street Petitions projects such as Bainbridge Dr - Camp Wisdom to Cliffwood Dr, Missouri Av (E) - Fowler St to Illinois Ave (E), and Woodway Dr - Fountaindale Dr to Dead-End.

STREET AND THOROUGHFARE CAPITAL IMPROVEMENTS

7. Complete 12 Street Reconstruction projects such as Forsythe Dr - Gayglen Dr to Komatty Dr, Southwell Rd - Ables Ln to Shady Tr, Titan Dr - Empress Row to Governors Row, and Fordham Rd - Bonnie View Rd to Hale St.
8. Complete 9 Streetscape/Urban Design projects such as Akard from Commerce to Elm, Bexar Street Corridor- US 175 to Rochester, and Spring Avenue Redevelopment Project.
9. Complete 2 Target Neighborhood projects including Polk St (S) - Ferndale Av to Clarendon Av.
10. Complete 13 Thoroughfares projects such as Akard - Commerce to Elm, Central Boulevard - Commerce to Live Oak, and Routh St - Ross to San Jacinto.
11. Complete 100 slopedowns and 150 barrier-free ramps.
12. Complete 250 Resident Cost-Share Sidewalk Replacement projects.
13. Complete 50 Fast-Fix Sidewalk Replacement projects.
14. Complete 25 segments of street resurfacing for a total of 51 lane miles such as Alpha from Peyton to Coit and Sunnyvale from Ann Arbor to Kiest. This begins the 2012 Bond Program Resurfacing.

SERVICE DESCRIPTIONS

Alley Petitions Engineering and construction of alley paving through petitions from the Property Owners Cost Participation Program (POCPP). Petitions must represent a two-thirds majority of the abutting property owners and/or residents adjacent to unimproved alleys for a valid paving petition. Property owners are assessed for a portion of the cost.

Alley Reconstruction Engineering and construction of alleys that have exceeded their structural life expectancy.

Alternate Mode Transportation Trails All weather trail projects that encourage walking, bicycling and other modes of transportation as an alternative to the automobile. These facilities offer sufficient width to accommodate bicyclists, pedestrians and skaters, and are recommended under the North Central Texas Council of Government's (COG) Mobility 2025 Plan and the Texas Natural Resources Conservation Commission's (TNRCC) Emission Reduction Plan for the region.

Barrier Free Ramps The general public requests barrier-free-ramp projects. Priority is given to walkways serving government offices and facilities, health care facilities (hospitals, clinics, retirement facilities, etc.), bus stops and transportation centers (DART), commercial districts (private businesses offering goods and services to the public), schools, followed by walkways serving residential areas.

Bridge Repair and Modification Provide for repair and modification of bridges due to structural deficiencies identified in the bi-annual Bridge Inspection and Appraisal Program (BRINSAP) performed by Texas Department of Transportation.

Complete Streets The new complete streets vision is to build streets that are safe and comfortable for everyone: young and old, motorists and bicyclists, walkers and wheelchair users, and bus and train riders alike.

Economic and Business Development Street, utility and other infrastructure improvements in furtherance of economic and business development in the Southern area of the City and other target project sites.

Gateway (West Dallas Gateway) Provides for railroad coordination, temporary track relocation, bridges, retaining walls, street paving including storm drainage, water and wastewater utilities, and other related infrastructure improvements consistent with the City Design Studio West Dallas redevelopment plan.

Housing Infrastructure Improvements Street, alley and drainage infrastructure improvements for low to moderate-income housing. Property owners may be assessed for a portion of the cost.

STREET AND THOROUGHFARE CAPITAL IMPROVEMENTS

Intelligent Transportation Systems Projects include changeable turn-lane signs, adaptive signal timing, and Roadside cameras. Changeable turn lane signs will display various turning movement messages throughout the day to help reduce traffic congestion. The adaptive signal timing system will measure traffic flow and automatically download optimized traffic signal timings for freeway ramps and arterials frequently affected by traffic diverting from freeways. Roadside cameras monitor traffic conditions at critical intersections from the City Hall Traffic Management Center and allow remote traffic signal timing changes to be made more efficiently.

Intergovernmental Partnership Projects Transportation projects where the City is leveraging funding from other federal, state and local sources. These projects typically include building a Roadway to the standard identified in the Thoroughfare Plan, adding turn lanes at intersections, signal and other ITS upgrades, and trail projects.

Local Collector Improvements to substandard or over-burdened local collector streets to bring them into compliance with current City standards including safety, lane width, and pavement thickness.

Participation With Other Government Agencies - Alternate Modes Improvements to alternate modes of transportation such as separate bike routes, signage, or parking facilities with matching funds from other agencies.

Participation With Other Government Agencies - Intersections Improvements for turning movements, addition of auxiliary turn lanes, and increasing storage capacity at designated intersections using matching funds from other agencies.

Participation With Other Government Agencies - Thoroughfares Provides for improvement of substandard or overburdened City thoroughfares to bring them into compliance with current City standards including safety, lane width and pavement thickness by using matching funds from other agencies.

PID/TIF Development Public Improvement Districts (PIDs) and Tax Increment Financing (TIF) districts are special districts used to finance planned economic development activities in specific target areas of the City. Capital improvement projects provide for the engineering and construction of street, drainage, landscaping and streetscaping improvements at the beginning of the redevelopment process to encourage private investments in PIDs and TIFs.

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering. Debt issuance and CIP Engineering costs are paid from the interest earned on bond proceeds.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks and for administration of the public art projects.

Public/Private Partnerships Provides cost participation for street infrastructure improvements related to Public/Private Development.

School Flasher Upgrades Replace existing flasher assemblies. This will eliminate hard-wired electrical connections and electricity costs by using stand-alone solar-powered assemblies. Control equipment will also be upgraded to allow flexible flasher activation schedules.

Sidewalk Improvements Sidewalk replacement cost sharing program between the City and the citizens. This program was created to assist property owners with the cost of replacing sidewalks. Under this program, the City pays 50% and the property owners pay 50% of the cost to replace the sidewalk.

Sidewalk Petitions Provides for a new sidewalk that is petitioned by citizens. Sidewalk petition projects are validated by meeting the following requirements:

- Signatures of 2/3 majority of the abutting property owners and ½ of the property frontage, or
- Signatures of ½ of the abutting property owners and 2/3rds of the property frontage.

STREET AND THOROUGHFARE CAPITAL IMPROVEMENTS

Sidewalk Safety Provides for new sidewalks in high pedestrian areas. These projects are requested by parents, teachers, school administrators and general public and are submitted to the Citizen Safety Advisory Committee for review. Adjacent property owners are assessed for a portion of the cost.

Street Improvements Funding for engineering and construction.

Street Lighting Projects include completion of the 1981 CBD Roadway Lighting Master Plan and installation of historic-style street lights in lieu of conventional street lights in 5 designated historic districts. In the Central Business District, approximately 600 shoe box-style 1000-watt metal halide street lights will be installed.

St. Modifications and Bottleneck Removal Transportation projects that provide a mobility improvement at a location where the capacity is currently constrained.

Street Petitions Engineering and construction of street paving petition improvements requested by property owners through the Property Owners Cost Participation Program (POCPP). Petitions must represent a two-thirds majority of the abutting property owners and/or residents adjacent to unimproved street for a valid paving petition. Property owners are assessed for a portion of the cost.

Street Reconstruction Engineering and construction of street that have exceeded their structural life expectancy.

Street Resurfacing Street Resurfacing Design and construction for streets that need resurfacing. Resurfacing consists of removal of previous asphalt overlays or milling of existing concrete, repairs to base pavement, curb, gutter, and sidewalks, where required for the resurfacing project and placement of new or recycled asphalt overlays or concrete repairs and traffic markings, as necessary.

Streetscape/Urban Design Design and installation of sidewalks, barrier-free ramps, brick pavers, trees and planting materials, irrigation systems, street lighting, and pedestrian lighting.

Target Neighborhood Improvement of substandard residential streets to current City standards without requiring street petition. Property owners will be assessed for a portion of the cost.

Thoroughfares Roadway projects that improve the capacity of a segment of Roadway by constructing it to the standard identified on the Thoroughfare Plan or CBD Streets and Vehicular Circulation Plan.

Traffic Devices - Illuminated Crosswalks Installation of mid-block pedestrian crosswalks with illuminated pavement markers for increased pedestrian safety.

Traffic Signal Control Equipment Upgrades Replace traffic control equipment citywide (signal controllers and conflict monitors) that have exceeded their design life. As electronic equipment ages, the number of failures increases. Equipment reliability effects traffic safety and congestion.

Traffic Signal Upgrades Replacement of traffic signal hardware that is structurally deficient, prone to being damaged by vehicles, and/or requires operational improvement such as the addition of left turn signals or pedestrian signals. In the Central Business District, signal poles will be replaced by a streetscape-style hardware that have higher signal display mounting heights providing better visibility.

Transportation Systems Management Installation of new traffic signals and school flashers where warranted, replacement of structurally deficient traffic signal hardware and installation of Intelligent Transportation System devices to improve traffic flow.

Trinity River Transportation Related Projects Engineering studies, design, initial right-of-way acquisition and construction of transportation related improvements in the Trinity River Corridor.

Warranted Signals, School Flashers and Whistle-Banned Railroad Crossings Construction of traffic signals at approximately 12 un-signalized intersections per year that meet the criteria (warrants) for traffic signal installations. In addition, funds would be used for the installation of approximately 10 to 15 new school zones with flashers per year. This category also provides for the installation of supplemental safety measures required to implement a whistle ban.

TRINITY RIVER CORRIDOR CAPITAL IMPROVEMENTS

MISSION

This program consists of projects along the Trinity River Corridor that provide for flood protection, environmental restoration/preservation, recreation, transportation improvements and economic development. The current Trinity River Corridor projects include the Dallas Floodway Extension and development of flood improvements in the Elm Fork area. Also included are transportation improvements such as the Margaret Hunt Hill (formerly referred to as the Woodall Rodgers Extension) Bridge and the Trinity Parkway, both of which will provide reliever routes to allow the State to make improvements to the Canyon/Mixmaster/Lower Stemmons areas. Other projects will provide for recreational amenities in the Great Trinity Forest and lakes within the Floodway.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2012-13

1. Completed construction of IH-20 Gateway Park.
2. Completed construction of Elm Fork Athletic Complex.
3. Completed installation of slurry cut-off walls along the Trinity River Levees.
4. Completed construction of Pavaho Pump Station.
5. Began construction of AT&T Trail (Trinity Forest Trail Phase 3 and 3A.), Trinity Trail along the Dallas Floodway. Completed Moore Gateway Park Phase II and Santa Fe Trestle Trail.
6. Began construction of Western Gateway and Continental Bridge.
7. Began construction of IH-30 (Margaret McDermott) Signature Bridge.

HIGHLIGHTED OBJECTIVES FOR FY 2013-14

1. Continue construction of Trinity Trail along the Dallas Floodway.
2. Complete construction of AT&T Trail (Trinity Forest Trail Phase 3 and 3A).

3. Complete construction of Western Gateway and Continental Bridge.
4. Continue construction of IH-30 (Margaret McDermott) Signature Bridge.
5. Begin construction of Able Sump Station improvements.
6. Complete construction of Baker (Hampton-Oak Lawn) Pump Station.

SERVICE DESCRIPTIONS

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering. Debt issuance and CIP Engineering costs are paid from the interest earned on bond proceeds. These costs also include transfers to General Fund.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks and for administration of the public art projects.

Trinity River Projects Projects along the Trinity River Corridor for flood protection, environmental restoration/preservation, recreation, and transportation improvements.

WATER UTILITIES FACILITIES CAPITAL IMPROVEMENTS

MISSION

The City of Dallas Water Utilities Department (DWU) is a City-owned enterprise utility providing regional water and wastewater services to the citizens of Dallas and to the surrounding customer cities. DWU's mission is to provide services vital to the health and safety of Dallas citizens and our customers and to support the City's efforts toward economic development, environmental protection and enhancement of quality of life, including water supply, treatment, and distribution; wastewater collection and treatment; and billing, credit and collection and customer service.

The mission of the Water Utilities Department Capital Improvement Program is to provide an adequate water supply and wastewater treatment to its customers by the acquisition of future water and wastewater facilities and to renovate and construct improvements to existing water and wastewater facilities throughout the City of Dallas.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2012-13

1. Completed the construction of the dewatering facility at the Southside Wastewater Treatment Plant and put the facility into operation. This project will optimize solids disposal at the plant and reduce personnel overtime with the elimination of 24-hour operations.
2. Awarded the construction of the grit removal and screenings improvements project at the Central Wastewater Treatment Plant. Completion of this project will reduce operations and maintenance costs at both of the City's wastewater treatment plants.
3. Awarded the design of the process control system improvements at the Central Wastewater Treatment Plant. This project will reduce operation, maintenance, chemical and electrical costs by optimizing operations at the plant.
4. Awarded the construction of East Side Water Treatment Plant electrical substation III to address increased electrical needs due to expanding the capacity of the plant to the 540 million gallons per day (MGD).

5. Awarded construction management services for the Elm Fork and Bachman Water Treatment Plants. These services will augment inspection and project management staff for a substantial level of critical process change projects and specialized mechanical, electrical and instrumentation needs.
6. Awarded water and wastewater main replacement contracts which resulted in the installation of approximately 130 miles of water and wastewater mains, including relocation and private development projects.
7. Finalized the construction of the recycle water phase I and II projects which resulted in the installation of approximately 6 miles of 20-inch pipe. Use of the recycled water for irrigation will help reduce overall demand on Dallas' drinking water system.
8. Awarded the business technology master plan project. This project will provide a sustainable plan for the implementation of technology solutions and recommendations and improve the efficiency in business functions.
9. Awarded contracts to participate with other area water providers to determine the feasibility of obtaining water from the Sulphur River Basin and also additional water from the Neches River Basin. The City needs to obtain and connect additional water supply to meet the future needs of the citizens, retail and wholesale customers of Dallas. It is important that Dallas continues to be a part of the regional process to determine the availability of water resources to meet our future needs and be able to use this information in the Long Range Water Supply Plan.

HIGHLIGHTED OBJECTIVES FOR FY 2013-14

1. Complete the construction of the new influent pump station at the Central Wastewater Treatment Plant (CWWTP) and put the facility into operation. This project will allow Dallas to decommission the Cadiz Street Wastewater Pump Station and consolidate pumping operations at CWWTP.
2. Award the construction of the process control system Improvements at the Central Wastewater Treatment Plant. This project will reduce

WATER UTILITIES FACILITIES CAPITAL IMPROVEMENTS

operation, maintenance, chemical and electrical costs by optimizing operations at the plant.

3. Award construction of White Rock Dam and Spillway Improvements and Bachman Dam replacement to comply with dam safety requirements and insure dependable water supply.
4. Award construction of Elm Fork Intake, Presedimentation Basins and Sludge Handling Improvements. Completion of this work improves the overall water quality and capacity at the Elm Fork Water Treatment Plant.
5. Award construction for Walcrest Pump Station and Reservoir Improvements. These improvements will improve reliability of the water system and reduce maintenance costs by replacing aging infrastructure.
6. Award construction of East Side Water Treatment Plant Stage Five Filter project. Completion of this work improves the overall water quality and capacity at the East Side Water Treatment Plant.
7. Award Water and Wastewater Main Replacement contracts which will result in the installation of approximately 54 miles of water and wastewater mains, including relocation and private development projects.

SERVICE DESCRIPTIONS

Homeowner Extensions and Unserved Areas Construction of water and wastewater main extensions to homeowners and meters for water service.

Inflow/Infiltration Remediation Design and construction of improvements to eliminate inflow and infiltration conditions within the wastewater collection system.

Mains, Pump Stations and Associated Facilities Right-of-way acquisition, design and construction of new and replacement mains, pump stations, lift stations, ground storage reservoirs, and elevated tanks citywide as required by growth, development and obsolescence. Surveying, geotechnical and environmental services are also included.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks and for administration of the public art projects.

Raw Water Pumping and Transmission Acquisition of right-of-way for transmission facilities and for the design and construction of water transmission facilities to include the Lake Fork Pump Station and pipeline.

Rehabilitation and Equipment Maintenance and renovation of major water and wastewater facilities.

Relocations In Advance of Paving Replacement and/or relocation of water mains, wastewater mains and related facilities to permit widening and paving of streets and highways and storm drainage in coordination with City, County and State programs.

Service Centers, Offices and Research Facilities Renovation of existing service facilities and business and customer service systems.

Studies and Master Plans Studies related to business, planning, water and wastewater operations and master plan updates.

Wastewater Treatment Plants and Associated Facilities Design and construction of renovations, expansions, and improvements to the Central and Southside Wastewater Treatment Plants. Funding for the design and construction of the proposed future wastewater treatment plant(s).

Water Supply Reservoirs and Dams Dam inspection, consultation, rehabilitation and erosion studies for various dams. Also includes acquisition of new water supply sources.

Water Treatment Plants and Associated Facilities Design and construction of renovations, expansions and improvements to the City's three water treatment plants: Bachman Plant, East Side Plant and Elm Fork Plant. Funding for the design and construction of the proposed future water treatment plant(s).

Wholesale Customer Facilities Construction of facilities necessary to provide service to the Customer Cities.

MAJOR REVENUE SOURCES

GENERAL FUND MAJOR REVENUE SOURCES

The revenue sources described in this section account for \$989,733,446 of the City's total General Fund operating revenues and \$204,863,694 of the Tax Supported Debt Service revenues.

PROPERTY TAXES

Property (ad valorem) taxes attach as an enforceable lien on property as of each January 1st. The City's property tax is levied each September on the assessed value listed as of the prior January 1st for all real property and income-producing personal

property located in the City. Assessed values are established by the four Counties in which the City of Dallas is located, 100% of the estimated market value and certified by the Appraisal Review Board. The assessed taxable value for the tax roll as of January 1, 2013 (upon which the FY 2013-14 levy is based) is \$87,251,522,141. The 2013 tax roll is 4.27% more than the 2012 tax roll.

The City is permitted by Article XI, Section 5 of the State of Texas

Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The tax rate for the year ending September 30, 2014 is \$0.7970 per \$100 of which \$0.5601 is allocated for general government operations and maintenance and \$0.2369 is allocated for general obligation debt service payments.

Taxes are due January 31st following the September levy and are considered delinquent after January 31st of each year. Based upon historical collection trends, current tax collections for the year ending September 30, 2014 are estimated to be 97.67% of levy and will generate \$477,309,164 in General Fund revenues and \$201,882,773 in Debt Service revenues for a total of \$679,191,937 in revenues. Prior year taxes, penalties and interest, and special inventory tax are expected to produce an additional \$6,588,719 in revenues.

MAJOR REVENUE SOURCES

AMBULANCE REVENUES

The Dallas Fire-Rescue Department provides emergency ambulance services within the boundaries of the City of Dallas to any person requesting aid. The emergency medical staff transports the individual or individuals to a hospital providing emergency aid for a transport charge plus itemized charges. The transport charge is \$800 for residents and \$900 for non-city residents, and \$125 for treatment/non-transport services.

The billing and collection of ambulance fees and additional supplemental payment from the federal government is provided by vendors contracted by the City of Dallas. To estimate the FY 2013-14 revenue, historical information is used to project the gross amount billed, and a projected collection rate is applied to this amount. FY 2013-14 also includes projected reimbursement revenue through Governmental Ambulance Supplemental Payment Program approved by the federal government through Texas Health and Human Services Commission. The program allows governmental ambulance providers to recover a portion of the 'loss' of providing services to Medicaid, Medicaid Managed Care and the Uninsured patients. The reimbursement amount is calculated by applying a Federal Matching Assistance Percentage (FMAP) which is 58.22% for Texas in FY 2011-12. This means that the program allows the ambulance providers to be reimbursed for 58.22% of the difference between the cost and the charges (subtracting payments) of providing ambulance services to Medicaid, Medicaid Managed Care and the Uninsured clients.

SANITATION SERVICES REVENUE

Sanitation Services Revenue is collected to match the cost of providing garbage collection, brush and bulky collection, and recyclables collection services for residential customers and a few small commercial customers. This revenue is based on fees, which are collected through the monthly utility bills issued by Dallas Water Utilities. The FY 2013-14 estimated revenue is determined by multiplying the current residential rate of \$20.64 per month (increase \$0.39 from FY 2012-13) by the projected number of residential customers, plus estimates for fees for "pack out" service, commercial customers' fees, and fees for collection of dead animals from vets and pet rescue shelters. The Sanitation rate is directly offset by revenues from the residential recycling program – which is estimated to decrease by 33% from the FY 2012-13 recycling revenue budget due to changes in the recycling commodities market. In addition, an allowance of 1.56% is assumed for uncollectible accounts.

PRIVATE DISPOSAL REVENUE

Private Disposal Revenue is collected primarily at the McCommas Bluff Landfill from private (commercial) waste haulers for the privilege of disposing of solid waste at the site. The rate at the McCommas Bluff Landfill stays unchanged at \$21.50 per ton in FY 2013-14. The Bachman Transfer Station rate remains unchanged at \$47 per ton. City of Dallas residents hauling their own household and yard wastes are exempt from the fees. Commercial haulers may also elect to enter into a disposal contract with

MAJOR REVENUE SOURCES

the City, allowing for a discount from the posted rate in exchange for a guaranteed minimum amount of waste disposal over a specific time period. The FY 2013-14 figure is determined by projecting an estimate for commercial waste tons to be delivered to the landfill at the solid waste disposal fee, with consideration for waste tonnage under disposal contracts continuing into FY 2013-14.

FRANCHISE FEE REVENUE

The City of Dallas maintains non-exclusive franchise agreements with utilities and other service providers that use the City's right-of-ways to provide services to the public. These franchise ordinances provide for compensation to the City in the form of franchise fees. These fees are in lieu of all other fees and charges related to the use of the right-of-ways. They are in addition to sales and ad valorem taxes.

Generally, franchise fees are calculated based on a percentage of the companies' gross receipts as a result of doing business in Dallas. Cable TV providers such as Time Warner, AT&T and Verizon, pay a fee equal to 5% of gross receipts, paid quarterly, 45 days after the end of the period covered. Franchise fees for Atmos Energy are 5% of their gross receipts, paid quarterly, by wire transfer. Projections for FY 2013-14 revenues for cable are based on historical data trended forward using regression analysis. Franchise fees for TXU Electric are based on a fee per kilowatt hour consumed and are projected for FY 2013-14 using historical data, trended forward by statistical analysis techniques and normalized for weather.

Certificated telecommunications providers no longer pay franchise fees to the City. Pursuant to Local Government Code 283 telecommunications providers must compensate the City for use of the right-of-way on a per access line basis. These fees are to be paid to the City 45 days after the end of each calendar quarter. It is anticipated that these municipal fees for all telecommunications providers in the City will total \$28,271,320 for FY 2013-14.

MUNICIPAL COURT REVENUES

Court and Detention Services collects fines and fees on Class C Misdemeanor citations, including moving/non-moving traffic violations and State law/City ordinance violations. Revenues are collected at cashier windows, by mail-in payments and through express mail depositories. Delinquent accounts are forwarded to a collection agency for additional collection efforts. The methodology used to project revenues is a combination of straight lining actuals, historical analysis and multi-year averaging.

MAJOR REVENUE SOURCES

SALES TAX

The sales tax rate in the City of Dallas is 8.25% of taxable goods or services sold within the City limits. The tax is collected by the retriever at the point of sale and forwarded to the State Comptroller's Office on a monthly or quarterly basis. Of the 8.25% collected, the state retains 6.25% and distributes 1% to the City of Dallas and 1% to the Dallas Area Rapid Transit transportation authority.

As illustrated in the accompanying graph, sales tax receipts have increased from \$193.6 million in FY 2003-04 to a projected \$249,565,006 million in FY 2013-14. Sales tax revenues are historically volatile; therefore, actual collections may differ significantly from the budgeted amount.

SECURITY ALARM PERMIT FEE

The City of Dallas charges an annual permit fee of \$50 for a residence and \$100 for a business permit. A permitted alarm site is allowed three free false burglar alarms in a twelve-month period. The 4th, 5th and 6th false burglar alarms are \$50, 7th and 8th false burglar alarms are \$75 while the 9th+ are \$100 each. All Panic/Hold-up false alarms for a residence are \$100. The 1st Business Panic/Hold-up false alarm is \$100, 2nd is \$200, 3rd is \$300 while 4th+ are \$400 each.

MAJOR REVENUE SOURCES

ENTERPRISE FUND MAJOR REVENUE SOURCES

HOTEL OCCUPANCY TAXES

The Hotel Occupancy Tax rate in the City of Dallas is 13% of the room rate charged within the City limits. The tax is collected by the hotel at the point of sale and forwarded to the State (6%) and City (7%) on a monthly basis.

Of the 7% received by the City of Dallas, 32.6% of it is distributed to the Dallas Convention and Visitors Bureau (DCVB) to market and promote the City of Dallas as a convention and tourist destination and 67.4% of it is retained by Dallas Convention Center to support operations and capital improvements.

Hotel occupancy tax revenues are historically volatile; therefore, actual collections may differ significantly from the budgeted amount. For FY 2013-14, the City's portion of the Hotel Occupancy Tax revenue (7%) is projected at \$40,923,630. The distribution of

the 13% hotel occupancy tax is illustrated in the accompanying graph.

STORM WATER REVENUES

The Storm Drainage Management Utility Revenue is collected to support the cost of compliance with the City's storm drainage discharge permit with the Texas Commission on Environmental Quality (TCEQ), operation, maintenance and enhancement of the levee system, and operating and maintenance of the City's storm natural and improved storm drainage system. Compliance activities include, but are not limited to: water quality sampling and analysis; creek monitoring; public education and outreach; hazardous spill response, cleanup and disposal; construction compliance inspections, industrial facility inspections; and engineering, design and inspection of storm sewer infrastructure. Drainage system operating and maintenance activities include, but are not limited to: natural and improved channel maintenance; creek, river and levee maintenance; cleaning and maintenance of storm sewers and inlets; and monthly sweeping of the City's major thoroughfares. The fee is billed and collected through the monthly water bill.

The FY 2013-14 projected revenue and rates are based on the 2009 rate and structure study. Proposed fees are based on size (gross parcel size), a calculated drainage area, and general use (raw vacant land, residential, or commercial) of each property within the City. FY 2013-14 projected revenue provides for at least a 30-day fund reserve in accordance with the City's Financial Management Performance Criteria.

MAJOR REVENUE SOURCES

WATER/WASTEWATER REVENUES

The Water Utilities Department is owned and operated by the City of Dallas as a self-supporting enterprise fund. The department receives no tax dollars and earns its revenues through the sale of water and wastewater services in five customer classes. These classes are Residential, General Service, Municipal, Optional General Service, and Wholesale. The wholesale customer class is comprised of 23 communities outside the City of Dallas which receives water service, and 11 communities, which receive wastewater service. Rates for each class are determined by a cost of service study that assigns costs to each class based on the department's cost to provide them with these services.

The breakdown of the source of revenues from these customer classes is as follows:

- 36.8% of the revenues come from the Residential class,
- 42.1% comes from the General class,
- 0.9% comes from the Municipal class,
- 3.2% comes from the Optional General class
- 17.0% comes from the Wholesale class.

These revenues are used to pay for the following:

- Operating and maintenance costs of providing water and wastewater service to customers,
- Debt service (principal and interest) on outstanding debt used to design and construct the facilities necessary to provide these services,
- Street Rental payment (equivalent to franchise fees assessed to other utilities) to the General Fund for the use of the City's right-of-ways,
- Cash funding for capital improvement facilities not funded through the sale of revenue bonds or other debt.

The Water Utilities Department also receives other miscellaneous revenues such as, but not limited to, interest earnings, connection fees, and system improvement contributions. In FY 2013-14, water and wastewater revenues will total \$595.3M including a 4.5% increase in retail revenues. Water revenues can fluctuate depending on the summer temperatures and the amount of rainfall in the area.

FINANCIAL MANAGEMENT PERFORMANCE CRITERIA

FY 2013-14 Proposed Budget Status

Operating Program

1. The City shall operate on a current funding basis. Expenditures shall be budgeted and controlled so as not to exceed current revenues plus the planned use of unassigned fund balance accumulated through prior year surplus. Nonrecurring or one-time revenues should, to the extent possible, only be used for one-time expenditures (expenditures not expected to reoccur and requiring future appropriations) to avoid future shortfalls.

2. The year-to-year increase of actual revenue from the levy of the ad valorem tax will generally not to exceed 8%:
 - Excluding taxable value gained by through annexation or consolidation;
 - Excluding the value gained through new construction;
 - Excluding expenditure increases mandated by the voters or another governmental entity; and
 - Not excluding the valuation gained through revaluation or equalization programs.

4. All retirement systems will be financed in a manner to systematically fund liabilities. The City will assure sufficient funds are provided to pay current service plus interest on unfunded liabilities plus amortization of the unfunded liabilities over a programmed period. No less than annual reviews will be provided to Council by the pension funds.
5. Actuarial analysis will be performed annually on all retirement systems. Adjustments in benefits and contributions will be authorized only after meeting the test of actuarial soundness. All health plans should have actuarial reviews performed bi-annually to determine the required levels of funding necessary. These health plans shall be financed in a manner to ensure sufficient funds are available to fund current liabilities and provide some reserve levels for extraordinary claims.
6. Each enterprise fund of the City will maintain revenues which support the full (direct and indirect) cost of the fund. In addition, each Enterprise Fund and Internal Service Fund should maintain at least 30 days of budgeted operations and maintenance expense in net working capital, and avoid cash deficits.

The Emergency Reserve, a component of unassigned fund balance, shall be used to provide for temporary financing of unanticipated or unforeseen extraordinary needs of an emergency nature; for example, costs related to a natural disaster or calamity, a 5% decline in property values, or an unexpected liability created by Federal or State legislative action. Funds shall be allocated from the Emergency Reserve only after an analysis has been prepared by the City Manager and presented to City Council. The analysis shall provide sufficient evidence to establish that the remaining balance is adequate to offset potential downturns in revenue sources. The analysis shall address the nature of the adopted expenditure and the revenue requirement in subsequent budget years. Prior to allocating funds from the Emergency Reserve, the City Council shall find that an emergency or extraordinary need exists to justify the use of these funds. Funds shall be allocated from the Contingency Reserve only after an analysis has been prepared by the City Manager and presented to the City Council outlining the initial and recurring costs associated with the adopted expenditure. Additionally, these funds would be used prior to use of the Emergency Reserve funds. FY 2013-14 Proposed Budget Status

Capital and Debt Management (Continued)

40. Each Enterprise Fund (where applicable) will maintain fully funded debt service reserves. A surety bond (or other type of credit facility such as a letter of credit) may be used in lieu of funding the reserve if the former is economically advantageous.

Status

In Compliance

Accounting, Auditing, and Financial Planning

41. The City will establish and maintain a high degree of accounting practices; accounting practices will conform to generally accepted accounting principles as set forth by the authoritative standard setting body for units of local government.

In Compliance

The basis of budgeting for all funds essentially follows the basis of accounting (modified accrual for government funds and full accrual for enterprise and internal service funds). The major differences between the budgeting and accounting basis are: 1) encumbrances are recorded as expenditures (budget basis) rather than assigned, committed, or restricted fund balance (accounting basis); 2) compensated absences (accrued but unused leave) and other long-term liabilities are not reflected in the budget; 3) depreciation expense is not included in the budget; 4) change in fair value of investments is not recognized as income (expenditure) in the budget.

42. An annual audit will be performed by an independent public accounting firm, with the subsequent issue of an official Comprehensive Annual Financial Report (CAFR) within 120 days of the City's fiscal year end.

Not In Compliance

FY 2011-12 CAFR was issued March 26, 2013.

43. Full disclosure will be provided in the annual financial statements and bond representations.

Budget

- | <u>Budget</u> | <u>Status</u> |
|---|---------------|
| 44. Revenues and expenditures will be projected annually for at least three years beyond the current budget projections. | In Compliance |
| 45. Financial systems will be maintained to monitor expenditures, revenues and performance of all municipal programs on an ongoing basis. | In Compliance |
| 46. Operating expenditures will be programmed to include the cost of implementing service of the capital improvements, and future revenues necessary for these expenditures will be estimated and provided for prior to undertaking the capital improvement. | In Compliance |
| 47. A report reflecting end of fiscal year status of performance against these criteria will be prepared within 60 days after official presentation of the Comprehensive Annual Financial Report to the City Council. A pro forma report reflecting Adopted Budget status will be submitted with the City Manager's Adopted Budget each year. | In Compliance |

Cash Management

- | | |

50. Internal Service Funds and Enterprise Funds will maintain positive cash balances.

Status

In Compliance

Grants and Trusts

51. All grants will be managed to comply with the laws, regulations and guidance of the grantor; and all gifts and donations will be managed and expended according to the wishes and instructions of the donor.

In Compliance

52. Prior to acceptance of proposed gifts and donations and governmental grants a fiscal review will be conducted. The review should consider matching requirements, impacts on both revenues and expenditures for the next five years, whether the objectives of the gifts, donation or grants meet the strategic goals of the City, and any potential impact of loss of funds.

In Compliance

Dallas Water Utilities

1. Current revenues will be sufficient to support current expenses including debt service and other obligations of the system.

In Compliance

2. Long-term debt will be used only for capital expansion, replacement and improvement of plant, not for current expenses.

9. Funds available from current rates in each fiscal year for system rehabilitation, replacement, and expansion will be appropriated equal to or more than financial statement depreciation expense reasonably estimated in the same year.	In Compliance
10. Capital financing will be provided through a combination of revenue bonds, current revenues, contributed capital, and short-term debt. An equity to debt ratio of at least 20% should be maintained on all capital projects.	In Compliance
11. Retail cost of service studies will be performed at least every two years and reviewed annually. Rate adjustments will be recommended when required, but, normally, no more frequently than annually.	In Compliance
12. Wholesale treated water rates for customer cities and other governmental entities will be determined on the basis of the inter-city agreement currently in effect. Wholesale wastewater and untreated water rates will be determined on the basis of contractual agreements with wholesale customers. Rates shall be adjusted annually if cost of service studies indicates a need therefore.	In Compliance, current agreement approved by Council in 2010.
13. Funds generated by Dallas Water Utilities will be used solely for the development, operation, and maintenance of the water and wastewater utility system.	In Compliance

GLOSSARY OF BUDGET TERMINOLOGY

ACCRUAL ACCOUNTING

A measure of the City's revenues earned and expenses incurred during the period, regardless of when cash is received or paid.

AD VALOREM TAX

A tax levied on the assessed valuation of real land and improvements and personal property located in the City.

ADDITIONAL RESOURCES

Grants, trusts, or any other source of funds (excluding Capital funds) that contribute to the service.

AGENCY FUND

Agency fund consists of resources retained by the governmental unit as an agent for another governmental unit.

APPROPRIATION

An authorization made by the City Council that permits officials to incur obligations against and make expenditures of governmental resources.

ARBITRAGE

The interest earnings derived from invested bond proceeds or debt service fund balances.

ASSESSED VALUATION

This represents the total valuation of land and improvements and personal property less all properties exempt from tax. Also identified as taxable valuation.

BALANCED BUDGET

A budget with revenues equal to expenditures.

BOND

A written promise to pay a sum of money on a specified date at a specified interest rate. General Obligation (GO) and Revenue Bonds are used for funding permanent capital improvements such as buildings, streets, and bridges.

BUDGET

A financial plan for a specified period of time that matches all planned revenues and expenditures with various municipal services. It is the primary means by which most of the expenditure and service delivery activities of a government are controlled.

GLOSSARY OF BUDGET TERMINOLOGY

CAPITAL CONSTRUCTION FUND

Capital construction funds are used to pay for capital projects which are not debt financed. Funding is usually derived from operating fund transfers.

CAPITAL EXPENDITURE

A capital expenditure is the acquisition or construction of an asset that has a useful life greater than one year.

CAPITAL GIFTS AND DONATIONS

Contributions by individuals or organizations for the purpose of funding capital improvements within the scope of interest of the donor.

CAPITAL IMPROVEMENT PROGRAM (CIP)

The City's plan to finance major infrastructure development and improvement. It is primarily funded through General Obligation Bonds and Revenue Bonds.

CAPITAL PROJECTS FUND

Fund used to account for and report financial sources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

CERTIFICATE OF OBLIGATION (CO)

A written promise secured by the full faith and credit of the City. Used for funding permanent capital improvements. Debt Service is paid from ad valorem taxes or operating revenues.

COMMERCIAL PAPER

A short-term promissory note offering flexibility to borrow as needed at the time of the actual award of projects instead of sale of bond. Used for interim financing for water and wastewater improvements.

COMMUNITY DEVELOPMENT BLOCK GRANTS (CDBG)

Federal funds available to municipalities specifically for activities and programs to create viable urban communities for low and moderate income persons.

CONTINGENCY RESERVE

A budgetary reserve which provides for unanticipated expenditures of a non-recurring nature.

GLOSSARY OF BUDGET TERMINOLOGY

CONTRACTUAL SERVICE

The cost related to services performed for the City by individuals, businesses, or utilities.

DEBT SERVICE

Sometimes referred to as the Interest and Sinking Fund, it is used to account for the accumulation of financial resources to meet the requirements of general obligation debt service and debt service reserve.

DEFICIT

Excess of expenses over revenues at a specific point in time.

DEPARTMENT

A major administrative division of the City that indicates overall management responsibility for an operation or a group of related operations within a functional area.

DEPRECIATION

A systematic allocation of cost for a tangible asset during its estimated useful life.

EMERGENCY RESERVE

A budgetary reserve which provides for temporary financing of unforeseen needs of an emergency nature, unanticipated fluctuations in revenue, and individual judgment/settlement payments exceeding a \$5,000,000 liability cap.

ENCUMBRANCE

The commitment of appropriated funds to purchase an item or service.

ENTERPRISE FUND

These funds are fully supported by charges for service. Each fund establishes revenue-based fees and charges to recoup the costs of providing the services.

EQUIPMENT ACQUISITION NOTES

Short term note financing secured by the full faith and credit of the City used for funding capital equipment purchases. Debt service requirements are met with ad valorem or operating transfers from fee supported funds.

GLOSSARY OF BUDGET TERMINOLOGY

FIDUCIARY FUND

This type of fund accounts for assets held by the City in a trustee or agency capacity.

FINANCIAL MANAGEMENT PERFORMANCE CRITERIA

The City maintains Financial Management Performance Criteria (FMPC), established in the late 1970's to reflect financial policies that the City believes necessary for planning purposes and to measure sound financial condition. These criteria are applied to the ongoing management of the City's finances and covers the following aspects of financial management: operating programs; capital and debt management; accounting, auditing and financial planning; cash management; grants and trusts; and Dallas Water Utilities.

FINES AND FORFEITURES

Charges levied by City departments to individuals and businesses that are resolved through payment or loss of property.

FISCAL YEAR

The twelve-month period beginning October 1st and ending the following September 30th to which the annual budget applies.

FRANCHISE FEE

A fee levied by the City Council on businesses that use the City's right-of-way to deliver services. This fee is usually charged as a percentage of gross receipts.

FULL TIME EQUIVALENTS (FTE)

A unit used to quantify staffing. One FTE is a full year, 40 hour per week position. A part-time position working 20 hours per week or a temporary full-time position working six months would be 0.5 FTEs.

FULL YEAR FUNDING

The additional required funding necessary for twelve full months of operations related to positions and/or program funding added in the previous fiscal year. This funding complements prior year funding.

FUND

A fiscal and accounting entity with a self-balancing set of accounts (assets, liabilities, fund balance) which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

GLOSSARY OF BUDGET TERMINOLOGY

FUND BALANCE

The difference between a fund's assets and liabilities. For the purposes of this document, two different calculations are utilized. For the General Fund, the unreserved undesignated portion of fund balance is reported. For Other Funds, fund balance is reported as current assets less current liabilities less reserves for encumbrances. For non-enterprise funds, sick and vacation accruals are excluded. For multi-year funds, reserves for encumbrances are not excluded. For funds that utilize inventory accounting, inventory encumbrances are not deducted (to avoid double-reduction).

GENERAL CAPITAL RESERVE

Depository for proceeds from property sale, abandonments, or reimbursements of prior loans/advances providing funds for Capital Improvements and/or to provide interim financing for Capital Projects.

GENERAL FUND

This is the main operating fund of the City. It accounts for basic operating services such as Police, Fire, Streets, Sanitation, Code Enforcement, Park and Recreation, Library, Environmental and Health Services, and others.

GENERAL OBLIGATION BOND

Bonds used for funding permanent public capital improvements such as buildings, streets, and bridges. The repayment of these bonds is made from the levy of property tax. Voter approval is required to issue these bonds.

GOVERNMENTAL FUNDS

Governmental funds are made up of the general fund, special revenue funds, capital projects funds, debt service funds, and permanent funds.

GRANT

A contribution by a government or other organization to support a particular function. Typically, these contributions are made to a local government from the state or federal government.

IN SERVICE DATE

Date on which a City facility is available to the public.

INTER-DEPARTMENT FINANCING

Short-term interim financing from one City department to another City department (necessary due to timing of project with permanent financing mechanism) with the repayment of the loan plus interest once permanent financing is in place.

GLOSSARY OF BUDGET TERMINOLOGY

INTEREST EARNED

Assets collected through investment of cash.

INTERFUND REVENUE

Assets transferred from one fund to another for services rendered. These are revenues from various funds that provide indirect cost payments to the General Fund. In addition, this revenue also includes Dallas Water Utilities street rental payment and surplus property auction revenue.

INTERGOVERNMENTAL REVENUE

Money collected from other governmental entities.

INTERNAL SERVICE FUND

Fund used to account for goods or services given to one department by another on a cost reimbursement basis.

KEY FOCUS AREA

Dallas City Council established the following Key Focus Areas: Public Safety; Economic Vibrancy; Clean, Healthy Environment; Culture, Arts and Recreation; Education and E³ Government.

LIABILITY RESERVE

Funds reserved for outstanding current and forecasted future liabilities.

LICENSE AND PERMITS REVENUE

These are revenues related to various license and permit fees.

MASTER LEASE

A short-term financing program offering flexibility to borrow as needed at the time of the actual purchase of equipment and technology improvements instead of the sale of equipment notes.

MISCELLANEOUS REVENUE

These are miscellaneous revenues from rental, gifts and donations, and collections for damages to City property.

GLOSSARY OF BUDGET TERMINOLOGY

MODIFIED ACCRUAL BASIS OF ACCOUNTING

Basis of accounting according to which (a) revenues are recognized in the accounting period in which they became available and measurable and (b) expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt and certain similar accrued obligations, which should be recognized when due.

ONE TIME RESOURCES

These are non-recurring revenues, which will be used for one-time expenses.

OPERATING AND MAINTENANCE COST

Operational cost incurred by a facility for one year.

OPERATING BUDGET

The personnel, supply, service, and short term capital expenditures of a department.

PERMANENT FUND

Fund used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for the benefit of the government or its citizenry.

PROGRAM

A sub-unit of a department.

PROPRIETARY FUND

A proprietary fund is one having profit and loss aspects. The two types of proprietary funds are enterprise and internal service funds.

REVENUE

Receipt of cash from other entity that requires a cash receipt to be entered in the financial system.

REIMBURSEMENT

Repayment of funds from one fund or department to another for a specific purpose.

GLOSSARY OF BUDGET TERMINOLOGY

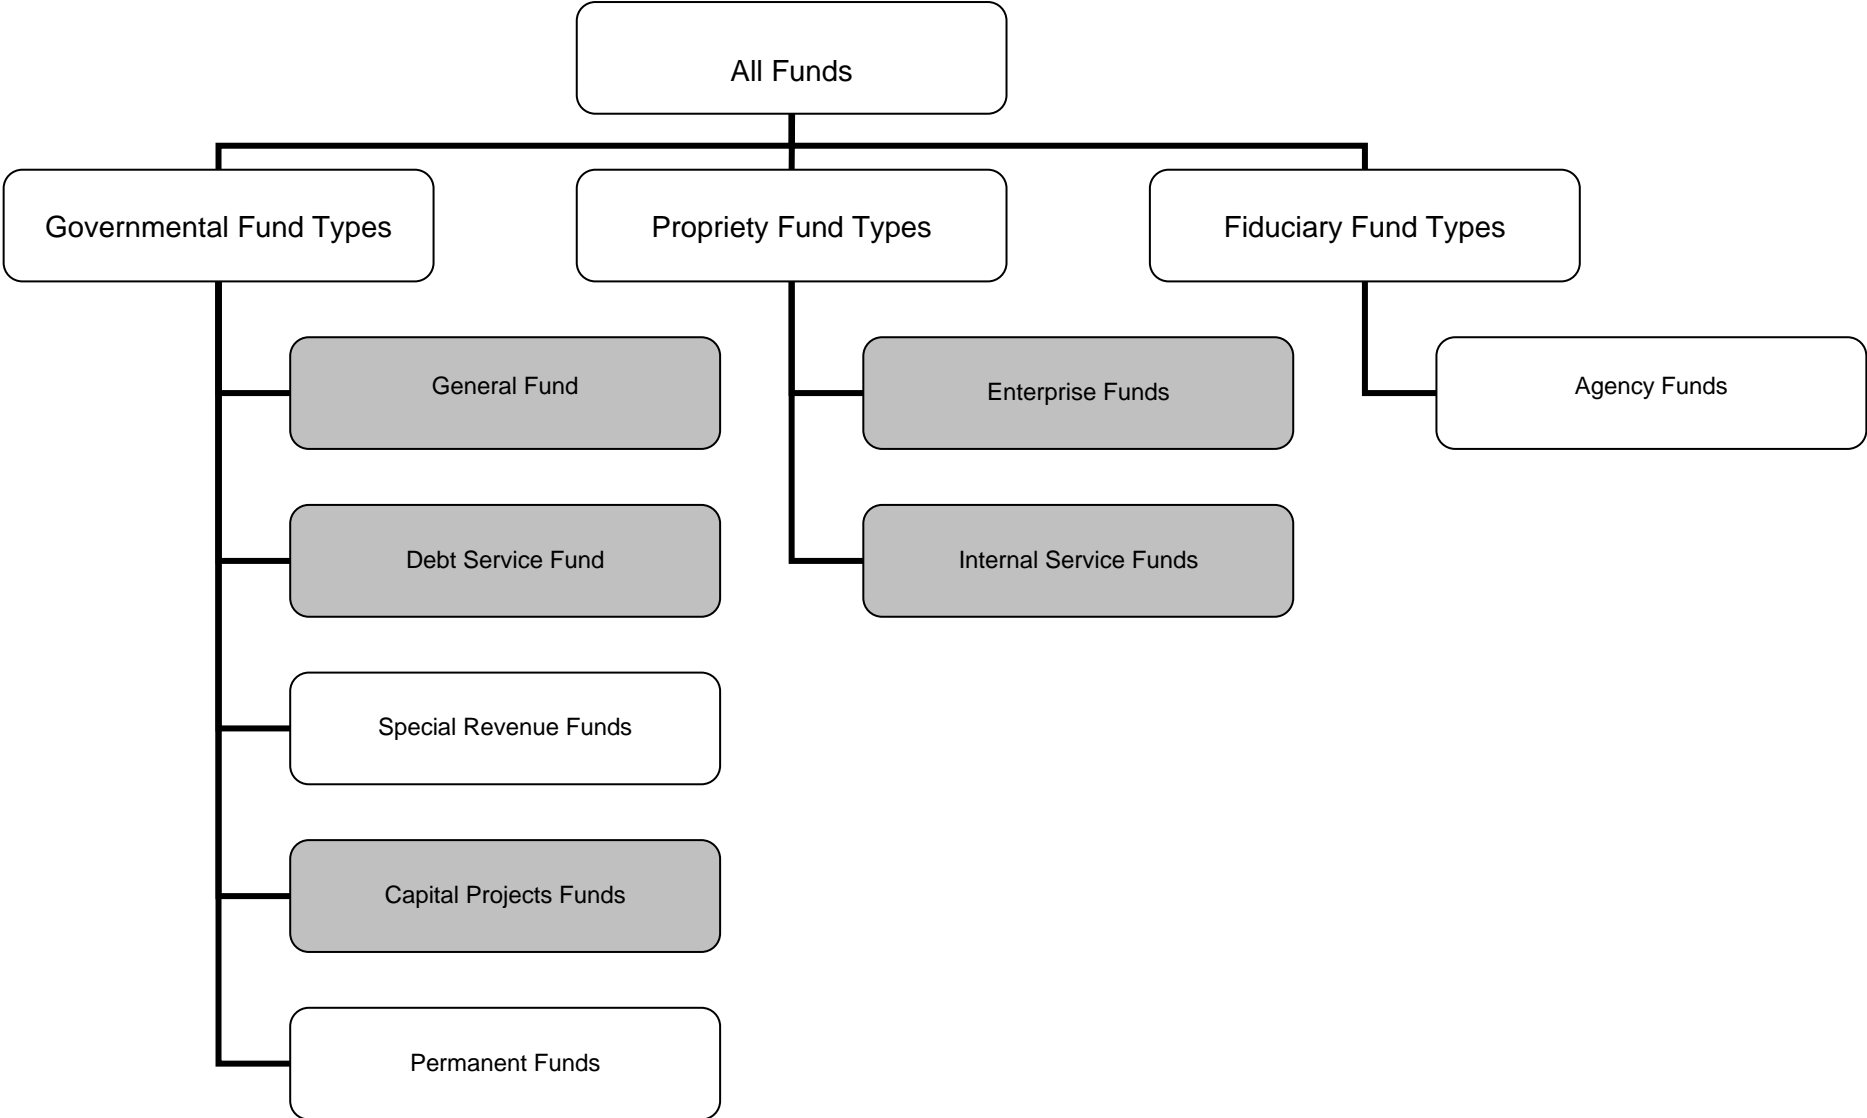

SERVICE

A specific operation performed within a department or office.

SPECIAL REVENUE FUND

Fund used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.
