I. Introduction

Transportation is an important factor in all our lives. How well we get to and from work, school, hospitals, shopping centers and recreational facilities is important to us all. The ability to travel affects our socio-economic well-being. On a larger scale, the San Antonio metropolitan area's economy and environment depend heavily on the condition and efficient performance of our regional transportation system. Appropriate transportation planning, recognizing the mobility needs and identifying the available resources, allow for the maintenance and improvement of our transportation system, therefore affecting our economy and quality of life.

The Federal Aid Highway Act of 1962 promulgated the requirement that all urban areas of 50,000 or more population develop and maintain a comprehensive, cooperative, and continuing (3-C) transportation planning process. The process established the need for a transportation plan and required it to be maintained and revised on a continuing basis. To accomplish this process in San Antonio, an agreement was reached in 1963 between the City of San Antonio, Bexar County, and the Texas Department of Transportation (TxDOT) which established the San Antonio-Bexar County Urban Transportation Study (SABCUTS), now commonly referred to as the San Antonio – Bexar County Metropolitan Planning Organization (MPO). This agreement was updated and re-executed in 1968, 1974, 1977, 1992, and 1996. The Metropolitan Transit Authority (VIA Metropolitan Transit) became a signatory party to the agreement in 1978.

In August 1977, the Governor of Texas designated the San Antonio - Bexar County Urban Transportation Study or SABCUTS Steering Committee as the MPO for the San Antonio urbanized area. This committee, composed of eleven elected officials and eight appointed officials, provides a forum for cooperative decision-making policy guidance to the transportation planning process.

In December 1991, the Intermodal Surface Transportation Efficiency Act (ISTEA) was signed into effect by President George H. W. Bush. The ISTEA gave a clearer purpose and definition to transportation planning. The passage of this act granted unprecedented flexibility to local officials in addressing their communities' transportation needs. The ISTEA established a new Federal-Aid system, the National Highway System (NHS). The NHS includes the Interstate System, routes with strategic purpose, principal arterials that provide regional service, and routes that access major airports, ports, and other transportation facilities. In addition to NHS, the ISTEA allows the use of Federal Highway funds

to be utilized by those roads which have been functionally classified under the Federal-Aid System. The Surface Transportation Program (STP) established by ISTEA, allowed funding for more non-traditional transportation projects.

On June 9, 1998, the Transportation Equity Act for the 21st Century (TEA-21) was signed by President Bill Clinton, authorizing highway, highway safety, transit and other surface transportation programs for the next six years. TEA-21 combined the continuation and improvement of current programs with new initiatives to meet the challenges of improving safety as traffic continues to increase at record levels, protecting and enhancing communities and the natural environment as we provide transportation and economic growth through efficient and flexible transportation.

On August 10, 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was signed into law by President George W. Bush. The act authorized the highway, highway safety, transit and other transportation program through FY 2009 and has now been extended into 2010. SAFETEA-LU built on the foundations of ISTEA and TEA-21 by refining the programmatic framework for investments needed to maintain and grow our vital transportation infrastructure.

All new metropolitan transportation plans developed after July 1, 2007 are required to be consistent with SAFETEA-LU planning guidance. Projects are consistent with the MPO's long range transportation plan "Mobility 2035" and other planning efforts such as the Alamo Regional Mobility Authority's Strategic Plan, VIA Metropolitan Transit's Five Year Plan, and TxDOT's Unified Transportation Program. As of this writing, a new federal transportation has not been signed and MPO's continue to work under SAFETEA-LU planning guidelines.

II. Purpose

As part of the urban transportation planning process, the Transportation Improvement Program (TIP) addresses federal regulations administered by the United States Department of Transportation. It is required, as a condition of the receipt of federal capital or operating assistance, to maintain the transportation system covered by the continuing, cooperative and comprehensive transportation planning process. Essentially, the TIP is developed to ensure that implementation of the transportation plan is done in an orderly manner.

The TIP outlines a financially constrained program of federally assisted transportation projects that will be implemented over a four-year period. Projects

not included in the approved TIP are ineligible to receive federal transportation assistance. The TIP consists of projects that are to be executed over the next four fiscal years. Priorities are demonstrated by grouping projects into the one-to-four year time frame. Also included in this document are realistic estimates of project costs and revenues for the program period.

The construction and improvement of roadways and transportation facilities listed in the TIP will have a positive impact on mobility throughout the region. Some improvements will affect conditions only within the area in which they are located, yet the impact of others will extend far beyond their immediate locations. These transportation improvement projects can be expected to decrease crashes, provide travel options, reduce congestion, reduce air pollution, conserve energy, enhance quality of life and maintain a transportation system beneficial to the entire area.

III. Definition of Area

Planning activities for the transportation program are concentrated within Bexar County, and a small portion of Comal and Guadalupe Counties. Figure 1 shows the study area which encompasses over 1,200 square miles. Nearly 80 percent of the population resides within the incorporated limits of San Antonio which encompasses over 262 square miles. San Antonio is the second largest city in Texas. Like many large urban areas, rapid growth and development have contributed to ever-increasing needs in transportation.

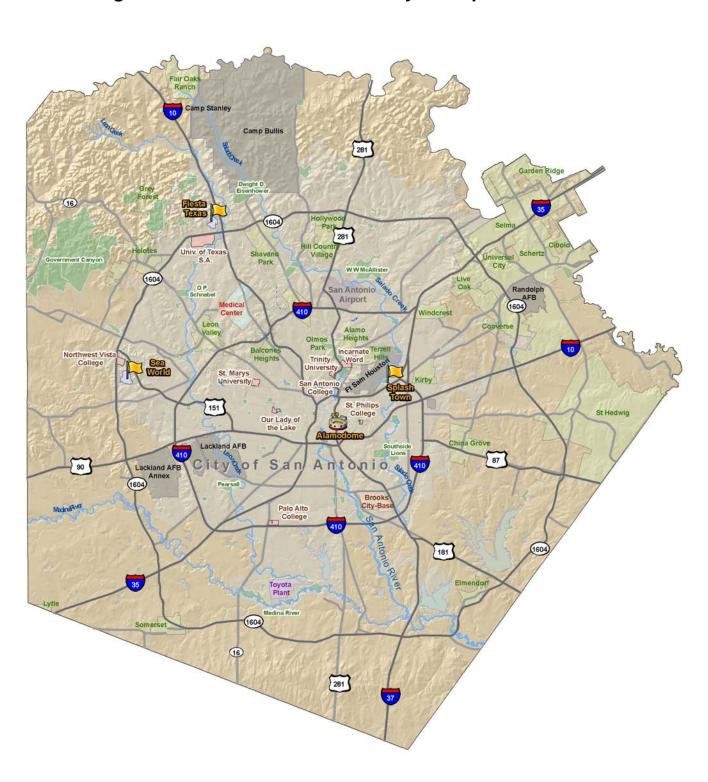

Figure 1. San Antonio-Bexar County Metropolitan Area

IV. Public Involvement Process

The MPO's Public Involvement Process provides for the proactive involvement of citizens, affected public agencies, transportation agency employees, private providers of transportation, and other interested parties in the development and periodic update of the FY 2013-2016 TIP. The MPO wholly supports early and continuous public involvement, reasonable public access to technical and other information, open public meetings, open access to the transportation planning and decision-making process, and effective involvement processes that are designed to be responsive to local conditions.

All meetings of the MPO Transportation Policy Board and Technical Advisory Committee are subject to the Texas Open Meetings Act and are open to the public. Meeting notices were sent to the Texas Secretary of State, published in the Texas Register, and posted both at the Bexar, Comal and Guadalupe County Courthouses and at the MPO offices in accordance with the Texas Open Meetings Act. All MPO meetings are accessible to persons with disabilities.

The public was afforded the opportunity to comment on all projects. Lists of the proposed roadway and transit projects were mailed to all individuals and organizations in the MPO's public involvement database in March 2012. Public comments were accepted during the MPO's Technical Advisory Committee meetings, which were held on March 9, 2012 and April 13, 2012, and the MPO Transportation Policy Board meetings, which were held on March 26, 2012 and April 23, 2012.

Additionally, in accordance with its adopted Public Participation Plan, the MPO was required to hold three public listening sessions to allow citizens additional opportunities to comment on proposed projects and learn more about the transportation planning process. The MPO held six public meetings, exceeding its public involvement requirements for the TIP. The public meeting dates, time and locations are provided below:

- Northeast Meeting 6:00 to 8:00 p.m., Thursday, February 9th at Judson Middle School, 9695 Schaefer Road, Converse, Texas
- Northwest Meeting 6:00 to 8:00 p.m., Monday, February 13th at Leon Valley Conference Center, 6421 Evers Road, Leon Valley, Texas
- Southwest Meeting 6:00 to 8:00 p.m., Thursday, February 16th at Port San Antonio Boardroom, 907 Billy Mitchell Blvd, San Antonio, Texas
- Central Meeting 9:00 to 11:00 a.m., Saturday, February 18th at VIA Community Room, 1021 San Pedro, San Antonio, Texas

- Southeast Meeting 6:00 to 8:00 p.m., Tuesday, February 21st at Highlands High School, 3118 Elgin Avenue, San Antonio, Texas
- Northcentral Meeting 6:00 to 8:00 p.m., Thursday, February 23rd at Methodist Hospital Stone Oak, 1139 E. Sonterra Blvd., San Antonio Texas

All meetings were the same in content and format. In addition to an overview presentation, maps and other displays, two interactive workstations with Google Earth application with a TIP project display application as well as project videos of the proposed STP-MM funded projects were available for the public to view.

Input methods throughout the entire TIP development process included comment cards at public meetings, the Budget game (hardcopy and on-line) emails, letters and speaking opportunities at TAC and TPB meetings. The comment cards allowed for input on the transit and roadway project lists as well as the effectiveness of the public involvement process itself. All comments received were provided in writing to Transportation Policy Board members.

To advertise the public meetings, newspaper ads were run in the San Antonio Express-News, La Prensa (local Spanish language newspaper), The Observer, the San Antonio Business Journal and other local media outlets. The listening sessions were also advertised through the MPO's bi-weekly enewsletter, "Fast Track", on Facebook and through the project list mailout to all individuals and organizations in the MPO's public involvement database. As described later, the MPO also posted all public meeting handouts on its website including the "Budget Game".

Projects in other funding categories were selected by the State (TxDOT) or the transit operator (VIA Metropolitan Transit) and the Transportation Policy Board reviewed the projects and, by adoption of this document, concurred with the selection of those projects. MPO staff also provided opportunities for the public to review the roadway and transit project lists and supporting information on our website, at www.sametroplan.org, and comment on these items electronically at their convenience.

V. Project Selection Process

An agency call for STP-MM funded projects was announced at the May 23, 2011 Transportation Policy Meeting. Presentations to the MPO's Committees on the FY 2013-2016 TIP development schedule and process occurred as follows:

• June 3, 2011: Technical Advisory Committee

June 8, 2011: Bicycle Mobility Advisory Committee
 June 15, 2011: Pedestrian Mobility Advisory Committee

• June 27, 2011: Transportation Policy Board

On July 25, 2011 the Transportation Policy Board took action on the TIP development process and schedule and the formal Call for Projects occurred on August 1, 2011. Between August and November 2011 agency staff followed their internal project selection processes, developed projects and secured the commitment of local match. The agency project submittals were due to the MPO on December 1, 2011. Throughout December, MPO staff compiled information (i.e., crash rates, and current and future congestion levels) used to technically score projects. During January 2012 subcommittees of the MPO's committees, Technical Advisory Committee, Bicycle Mobility Advisory Committee and Pedestrian Mobility Advisory Committee, met to score the submitted projects. As noted above, throughout February 2012, the MPO hosted six public meetings and provided on-line opportunities for persons to provide comments in lieu of attending the meetings. All input was due to the MPO by 5:00 p.m. on Friday, March 2, 2012.

On March 6, 2012, the MPO's STP-MM Workgroup met in an open meeting to develop a recommendation for funding projects submitted for STP-MM funding. The MPO's Technical Advisory Committee reviewed the draft TIP document at their March 9, 2012 meeting. The MPO Transportation Policy Board took action on the STP-MM list of funded transportation projects at their meeting on March 26, 2012. The Technical Advisory Committee made a favorable recommendation for adoption of the TIP at their meeting on April 13, 2012. The complete document was adopted at the April 23, 2012 Board meeting. All of these meetings allow additional opportunities for public comment on the document and project lists.

The MPO's adopted project selection procedures state that any project listed in the first year of the approved TIP shall be considered in the first priority and may be implemented as soon as plans are completed and funds are appropriated. Should any projects not be implementable from the first priority, then any projects listed in the second, third or fourth years of the TIP may be accelerated to the first year of the TIP as soon as plans are complete, including right-of-way and utility adjustments, and funding is available.

VI. Air Quality Issues

The San Antonio-Bexar County Metropolitan Planning Organization (MPO) study area currently has five continuous air monitoring sites (CAMS). All of the sites, San Antonio Northwest (CAMS 23), Camp Bullis (CAMS 58), Calaveras Lake (CAMS 59), CPS Pecan Valley (CAMS 678), and CPS Heritage Middle School (CAMS 622) measure ozone. Three of the sites (CAMS 23, CAMS 58, and CAMS 59) are maintained by the Texas Commission on Environmental Quality (TCEQ), and City Public Service (CPS Energy) maintains CAMS 678 and CAMS 622. In addition, the Alamo Area Council of Governments (AACOG) operates six ozone monitoring sites across the region during the ozone season. These are: Elm Creek Elementary (CAMS 501), Fair Oaks Ranch (CAMS 502), Bulverde Elementary (CAMS 503), New Braunfels Airport (CAMS 504), City of Garden Ridge (CAMS 505), and Seguin Outdoor Learning Center (Cams 506). The locations of ozone monitoring sites in the area are shown in Figure 2. Currently the San Antonio region is in "attainment" for ozone.

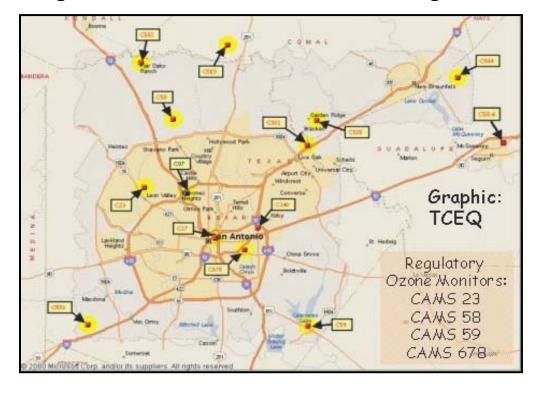

Figure 2. San Antonio Area Ozone Monitoring Sites

VII. Americans With Disabilities Act (ADA)

Many of the projects in the TIP include enhancements to make the various transportation amenities accessible to the disabled. All federally funded transportation projects will be developed in compliance with the ADA.

VIII. Funding Categories

The categories for funding state and federal transportation improvements are as follows:

Category 1	Preventative Maintenance & Rehabilitation
Category 2	Metropolitan and Urban Corridor Projects
Category 3	Non-Traditional Funding
Category 4	Statewide Connectivity Corridor
Category 5	Congestion Mitigation and Air Quality (CMAQ)
Category 6	Structure Rehabilitation
Category 7	Metro Mobility (Surface Transportation Program - Metro
	Mobility or STP-MM)
Category 8	Safety
Category 9	Transportation Enhancements Program
Category 10	Miscellaneous
Category 11	District Discretionary
Category 12	Strategic Priority

Federal Transit Administration Section 5307 (Urbanized Area Formula Grant Program)

Federal Transit Administration Section 5309 (Capital Grant Program)

Federal Transit Administration Section 5310 (Elderly and Disabled Transportation Assistance Grant Program)

Federal Transit Administration Section 5316 (Job Access & Reverse Commute Grant Program)

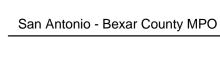

Federal Transit Administration Section 5317 (New Freedom Grant Program)

IX. Progress From Previous Year

Roadway, transit, bicycle, pedestrian and other projects annually let to contract from FY 2004 through FY 2011 can be found on the MPO's website at http://www.sametroplan.org/Plans/TIP/tip.html. This item will continue to be annually updated on the website. To request a copy please contact the MPO staff by telephone at 210-227-8651, by fax at 210-227-9321, by mail or in person at 825 S. St. Mary's, San Antonio, Texas 78205, or by e-mail at sabcmpo@sametroplan.org.

This document incorporates "year of expenditure" and "total project cost" requirements.

SELF-CERTIFICATION

This page intentionally left blank.

MPO SELF-CERTIFICATION

In accordance with 23 CFR Part 450.334 and 450.220 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users, the Texas Department of Transportation, and the San Antonio-Bexar County Metropolitan Planning Organization, hereby certify that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

- (1) 23 U. S. C. 134, 49 U.S.C. 5303, and this subpart;
- (2) In nonattainment and maintenance areas, sections 174 and 176(c) and (d) of the Clean Air Act as amended (42 U.S.C. 7504, 7506 (c) and (d)), and 40 CFR part 93;
- (3) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1), and 49 CFR part 21;
- (4) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- (5) Section 1101(b) of the SAFETEA-LU (Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- (6) 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (7) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
- (8) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (9) Section 324 of title 23, U.S.C., regarding the prohibition of discrimination based on gender; and
- (10) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

Witness these signatures this <u>23rd</u> day of	<u>April</u> 2012.
Texas Department of Transportation San Antonio District Mario Medina, P. E. District Engineer	San Antonio-Bexar County MPO Transportation Policy Board Lower County Tommy Adkisson Chair
Jeanne Gerger	Clarre Gugi

Certification of Planning Process

Title 23 of the Code of Federal Regulations, §450.334 mandates that the State and the Metropolitan Planning Organization (MPO) certify that the planning process is consistent with the requirements of 23 USC §134; and 49 USC §5303, and this subpart. In addition, the State and the MPO must certify that the planning process is consistent with the transportation planning and programming related requirements contained in Sections 174 and 176 (c) and (d) of the Clean Air Act, as amended. The requirements of this certification and the actions(s) taken by the San Antonio-Bexar County MPO to comply with those requirements are discussed in the following sections.

Federal Regulations 23 CFR 450, 23 USC 134, and 49 USC 5303:

Federal regulations require the urban transportation planning process to include activities to support the development and implementation of a long range transportation plan, Metropolitan Transportation Plan (MTP) and a short range transportation plan, the Transportation Improvement Program (TIP) and subsequent project development activities. While all of the activities programmed in the MPO's Budget Document, the Unified Planning Work Program (UPWP), contribute to those requirements, the following lists some of the more recent efforts:

- Program Support
- Support for the Planning Process
- Public Involvement Activities
- Environmental Justice Analysis and Outreach
- Demographic Forecast Modeling Projects
- Geographic Information Systems Activities (includes the use of NEPAssist)
- Pedestrian Safety Action Plan
- Pedestrian and Bicycle Planning Activities (includes Walk & Roll events and Walkable Community Program and Safe Routes to Schools workshops and activities)
- Traffic Data Collection and Management System
- Traffic Signal Re-timing Studies
- Traffic Safety Planning Study
- Air Quality Planning
- Congestion Management System/Process
- Support for the Metropolitan Transportation Plan
- Long Range Comprehensive Transportation Plan (VIA Metropolitan Transit))

23 CFR 450.306: Scope of the metropolitan planning process

The MPO's metropolitan transportation planning process is continuous, cooperative and comprehensive and provides for the consideration and implementation of projects, strategies and services that address the adopted eight planning factors.

23 CFR 450.308: Funding for transportation planning and unified planning work programs

The Unified Planning Work Program (UPWP) is developed cooperatively with the State, the MPO, recipients of FTA Section 5307 funds (VIA Metropolitan Transit) and participating local governments. The UPWP is developed and maintained on a two-year cycle.

23 CFR 450.310: Metropolitan planning organization and redesignation

The MPO, a Transportation Management Area, continues to be designated by the Governor with the concurrence of the State and local elected officials. The Transportation Policy Board (i.e., the MPO) consists of elected officials and staff of general purpose governments.

23 CFR 450.312: Metropolitan planning area boundaries

The MPO boundary is in effect through an agreement between the MPO and the Governor.

23 CFR 450.314: Metropolitan planning agreements

Responsibilities for transportation planning are cooperatively determined by the State, the MPO, VIA Metropolitan Transit and participating local governments.

23 CFR 450.316: Interested parties, participation and consultation

The MPO utilizes a proactive public involvement process that provides complete information, timely public notice, full public access to key decisions, and supports early and continuing involvement of the public in developing plans and TIPs. The MPO's public involvement process meets the necessary requirements and criteria.

23 CFR 450.320: Congestion management process in transportation management areas

The MPO's transportation planning process incorporates a functioning congestion management process.

23 CFR 450.322: Development and content of the metropolitan transportation plan

The year 2035 Metropolitan Transportation Plan (MTP) for San Antonio and Bexar County was developed and approved on December 7, 2009. The recommendations within the MTP were formulated in accordance with the planning requirements of 23 U.S.C Section 135 and 49 U.S.C. Section 5323.

23 CFR 450.324: Development and content of the transportation improvement program

At least every two years, or as required by the State of Texas, the MPO has prepared and adopted a Transportation Improvement Program (TIP) which:

 with the passage of SAFETEA-LU, covers a period of not less than four years;

- includes realistic estimates of costs and revenues consistent with estimated funding available;
- is submitted to the Governor for approval, and to the Federal Transit Administration and the Federal Highway Administrator through the State:
- provides required information for all projects, including total project cost and year of expenditure project construction cost.

Section 134 of Title 23, U.S.C. and Section 5303 OF Title 49, U.S.C.:

These requirements are "...development of transportation systems embracing various modes of transportation in a manner which will efficiently maximize mobility of people and goods within and through urbanized areas and minimize transportation-related fuel consumption and air pollution. To accomplish this objective, metropolitan planning organizations, in cooperation with the State, shall develop transportation plans and programs for urbanized areas of the State. Such plans and programs shall provide for the development of transportation facilities (including pedestrian walkways and bicycle transportation facilities) which will function as an intermodal transportation system for the state, the metropolitan areas, and the nation. The process for developing such plans and programs shall provide for consideration of all modes of transportation and shall be continuing, cooperative, and comprehensive to the degree appropriate, based on the complexity of the transportation problems".

- Long range land use plans and overall development objectives are a functional responsibility of local governments. Demographic forecasts are developed by as needed. As long range needs are evaluated, consideration is given to their relationship and impact on overall development objectives of local governments. (Demographic Forecast Modeling Projects; Geographic Information Systems Activities; Support for the Metropolitan Transportation Plan; Support for the Planning Process; Long Range Comprehensive Transportation Plan; Public Involvement Activities; Environmental Justice Analysis and Outreach)
- Social, economic, and environmental affects of transportation improvements are considered in environmental studies for individual projects. These factors were considered in the overall comparison of alternatives and the selection of projects in the MTP. (Air Quality Planning; Geographic Information Systems Activities; Support for the Metropolitan Transportation Plan; Congestion Management System/Process; Traffic Signal Re-timing Studies; Austin-San Antonio Corridor Projects; Long Range Comprehensive Transportation Plan; Public Involvement Activities; Environmental Justice Analysis and Outreach)
- System performance is considered both in the evaluation of alternatives in the
 development of the long range plan and in technical studies analyzing existing
 needs for highway, street, and/or transit improvements. (Support for the
 Metropolitan Transportation Plan; Congestion Management System/Process;
 Traffic Signal Re-timing Studies; Traffic Safety Planning Study; Traffic Data
 Collection and Management System; Long Range Comprehensive
 Transportation Plan)

- Alternative transportation systems management strategies are considered as an integral part of short range planning efforts to address existing problems in both highway/street and transit. (Support for the Metropolitan Transportation Plan; Long Range Comprehensive Transportation Plan; Congestion Management System/Process; Pedestrian Safety Action Plan; Traffic Signal Re-timing Studies; Traffic Safety Planning Study)
- Alternative investment strategies are considered in the economic/financial analysis of transportation improvements. (Support for the Metropolitan Transportation Plan; Long Range Comprehensive Transportation Plan; Support for the Planning Process)
- Plans are developed for modes utilizing travel forecasts based on the same demographic projections and the impact of modal recommendations on different modes is analyzed prior to a final recommendation being formulated. (Support for the Metropolitan Transportation Plan; Long Range Comprehensive Transportation Plan; Demographic Forecast Modeling Projects; Air Quality Planning)
- Transportation planning and the development of transportation plans and programs have been done on a continuous basis since the mid-1960s. (Program Support; Support for the Planning Process; Support for the Metropolitan Transportation Plan; Long Range Comprehensive Transportation Plan; Public Involvement Activities; Environmental Justice Analysis and Outreach)
- The process maintains a cooperative relationship between the agencies in planning through agency interaction and review at the technical committee levels and direct staff contacts. (Program Support; Support for the Planning Process; Support for the Metropolitan Transportation Plan; Pedestrian Safety Acton Plan; study oversight committees)
- The planning process is comprehensive through the use of local-government developed demographic forecasts and the consideration of their overall development objectives. (Demographic Forecast Modeling Projects)

42 U.S. Code 7504, 7506(c) and (d); The Clean Air Act, Section 174 and 176(c) and (d):

The counties of Bexar, Comal and Guadalupe were designated as "Nonattainment/deferred" with an effective nonattainment date of September 30, 2005. This meant that these three counties were within an Early Action Compact area that does not meet the 8-hour ozone standard, yet which the Environmental Protection Agency as determined to have complied with the March 2004 Early Action Compact milestone for submitting State Implementation Plan (SIP) revisions to the State.

The San Antonio region met all milestones associated with the Early Action Compact and, based on monitor readings for the past three years, and was designated "attainment for ozone" effective April 15, 2008.

Priority for project implementation is normally determined by funding restrictions and decisions by local officials. Should this area fail to meet national ambient air quality standards, the air

quality impact of proposed projects in the TIP would be a determining factor by local elected officials in developing priorities for implementation.

Title VI of the Civil Rights Act of 1964:

Title VI requires that programs supported by Federal assistance do not discriminate and Federal grant recipients must prepare and follow a program which effects such assurances. A Title VI program has been developed and is updated as required.

Title VI Assurances Filed By State:

These assurances apply to highway project funding in the same manner as the above section applies to transit projects. The San Antonio-Bexar County MPO complies with the requirements of Title VI through the Title VI Program and the requirement that all subrecipients contractually comply with the requirement of Title VI. Assurances are filed by the State.

Section 1101(b) of the Safe, Accountable, Flexible and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU)

This section deals with the requirement that, except to the extent the Secretary of Transportation determines otherwise, not less than 10 percent of the funds authorized to be appropriated under other Titles of the SAFETEA-LU shall be expended with small business concerns owned and controlled by socially and economically disadvantaged individuals. To comply with this requirement, the MPO includes in all agreements with the agencies that receive funds from the MPO a clause requiring that Minority Business Enterprises have the maximum opportunity to participate in the performance of contracts and subcontracts financed in whole or in part with Federal funds. The MPO has established an overall disadvantaged business enterprise participation goal of 25% in all of its third party contracting opportunities. The MPO exceeds this 25% goal. In addition, VIA (a recipient of funds from the MPO) has an adopted Minority Owned/Women Owned Business participation goal for all Federal funds received by them which they normally achieve and/or exceed.

49 CFR Parts 27, 37 and 38 (Americans with Disabilities Act):

Part 27 requires compliance with all applicable requirements of the Americans with Disabilities Act of 1990 (ADA) including the regulations of the Department of Justice implementing Titles II and III of the ADA (28 CFR Parts 35 and 36) and the regulations of the Equal Employment Opportunity Commission implementing Title I of the ADA (29 CFR Part 1630). The Metropolitan Planning Organization meetings are held in accessible facilities and meeting notices contain the following:

Meetings are accessible to persons with disabilities. To arrange for special assistance or an interpreter, please call (210)-227-8651 OR TDD 1-800-735-2989 (Relay Texas) at least five working days in advance.

Parts 37 and 38 require compliance with the accessible transportation and related provisions of Title II and III of the ADA. VIA Metropolitan Transit indicated full compliance with the ADA

Paratransit Service Criteria in January 1995 (ADA Paratransit Plan - Third Annual Update). All of VIA's newly procured transit vehicles are accessible.

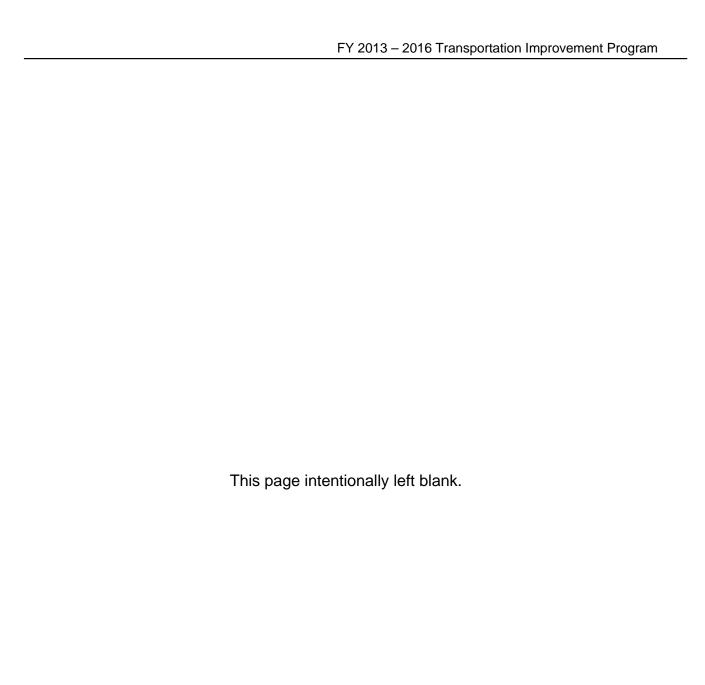

23 USC Section 324, Section 504 of the Rehabilitation Act of 1973 (29 USC 794 and 49 CFR part 27), 42 USC 6101, and 49 USC 5332:

The Metropolitan Planning Organization is an Equal Employment Opportunity Employer and does not discriminate on the basis of race, color, national origin, religion, age, sex, or disability.

Conclusions and Recommendations:

The transportation planning process for the San Antonio-Bexar County metropolitan area is consistent with all applicable Federal requirements. It is therefore recommended the Transportation Policy Board approve the attached MPO Self-Certification for submittal to the State of Texas, the Federal Highway Administration and the Federal Transit Administration.

PROJECT SELECTION PROCEDURE

San Antonio-Bexar County Urban Transportation Study Metropolitan Planning Organization Project Selection Procedures - FY 2013

In accordance with Section 134(h)(2) of Title 23 U.S.C. as amended and Section 8(h)(2) of 49 U.S.C. 1601 as amended, the San Antonio-Bexar County Urban Transportation Study Metropolitan Planning Organization (MPO) Transportation Policy Board hereby approves the following Project Selection Procedures:

- 1) The approved Transportation Improvement Program shall be utilized for programming projects within the metropolitan planning area.
- 2) Any project listed in the first year of the approved Transportation Improvement Program shall be considered in the first priority and may be implemented as soon as plans are completed and funds are appropriated.
- 3) Should any projects not be implementable from the first priority, then projects should be selected from the second, third or fourth years which shall be considered the second priority, and those projects may be implemented as plans are completed and funds are appropriated.
- 4) Any projects listed in the second, third or fourth year of the Transportation Improvement Program may be accelerated to the first year of the Transportation Improvement Program as soon as plans are complete, including right-of-way and utility adjustments, and funding is available.
- 5) Projects with "statewide" or "grouped" CSJs will be implemented as outlined in the MPO's Policy 6: Guidelines for Programming Projects in the Transportation Improvement Program.

This procedure was developed cooperatively between the Texas Department of Transportation, VIA Metropolitan Transit and the MPO, signed this the <u>/23rd</u> day of April 2012 .

APPENDIX A

Policy 5: Public Involvement Process / Public Participation Plan

This page intentionally left blank.

Policy 5: Public Participation Plan

The following document constitutes the San Antonio-Bexar County Metropolitan Planning Organization's Public Participation Plan (PPP) as prescribed in SAFETEA-LU. This document has been issued for public comment for a period of not less than 45 days prior to formal adoption or revision by the Metropolitan Planning Organization Transportation Policy Board.

Guiding Principles for Public Participation

Federal transportation law states that an MPO will "... provide citizens, affected public agencies, representatives of public transportation employees, freight shippers, providers of freight transportation services, private providers of transportation, representatives of users of public transportation, representatives of users of pedestrian walkways and bicycle transportation facilities, representatives of the disabled, and other interested parties with a reasonable opportunity to comment on the transportation plan." The MPO's public participation process must also adhere to the provisions of Title VI of the Civil Rights Act of 1964 and the Americans With Disabilities Act.

The following principles represent the core values of the MPO's public participation process:

- 1. People should have a say in transportation decisions that affect their lives.
- 2. The process should strive to reflect the interests and meet the process needs of participants.
- 3. The process will actively seek out and facilitate the participation of all those potentially affected.
- 4. The process will provide individuals with various options in how they wish to participate.
- 5. The process will provide usable information to permit the public's participation in a meaningful manner.

Given these principles, the MPO's Public Participation performance standards include:

- 1. Early, proactive and continuous public participation efforts;
- 2. Reasonable public access to understandable technical and other information;
- 3. Collaborative input on alternatives, evaluation criteria, and mitigation needs;
- 4. Open public meetings where matters related to transportation policies, programs, and projects are being considered;
- 5. Open access to the decision-making process prior to closure;
- 6. Commitment to seeking out and considering the needs of the traditionally underserved population(s)

Purpose of the Public Participation Plan

This Public Participation Plan (PPP) provides the guideline for public participation activities to be conducted by the San Antonio – Bexar County MPO. The PPP contains the goals and actions of the MPO for public participation in four areas:

1. Regular and special business meetings of the MPO and its advisory committees are conducted in an open public forum with prior notification and provisions for receiving

- public comment according to Federal law and the Texas Open Meetings and Public Information Acts.
- 2. Development of the Transportation Improvement Program (TIP), Unified Planning Work Program (UPWP) and the Metropolitan Transportation Plan (MTP) include opportunities for public comment prior to adoption by the MPO.
- 3. Individual planning projects such as corridor studies have individual public participation components, including project-specific Public Participation Plans.
- 4. Ongoing updates of MPO activities are provided to the public in several ways, including a bi-weekly e-newsletter, a quarterly hardcopy newsletter and an Internet web site.

Public Participation Goals and Actions

- **Goal 1**: The MPO will actively **engage the public in the transportation planning process** according to the goals and actions contained in this Public Participation Plan and State and Federal law.
 - 1. The MPO will maintain a current database of contacts including at least the following:
 - a. Citizens expressing an interest in transportation planning activities.
 - b. Elected local, state and federal officials
 - c. Affected public agencies and staff
 - d. Representatives of public transportation employees
 - e. Providers of freight transportation services
 - f. Freight shippers
 - g. Private providers of transportation
 - h. Representatives of users of public transportation
 - i. Representatives of users of pedestrian walkways and bicycle transportation facilities
 - j. Representatives of the disabled
 - k. Local media outlets
 - I. Homeowner, neighborhood and resident associations
 - m. Civic and public interest groups
 - n. Business and trade organizations
 - o. City and academic libraries
 - p. Faith-based organizations
 - q. Community-based associations
 - r. Any other interested parties
 - 2. The MPO will mail and/or e-mail meeting announcements and invitations to the MPO contact database or to other targeted groups for upcoming activities with reasonable lead time. For public meetings, announcements will also be placed in the local general circulation newspaper and media. Suitably sized announcements will be printed in both English and Spanish language publications.
 - 3. All MPO meetings will be conducted in accordance with the Americans With Disabilities Act (ADA) and are accessible to persons with disabilities. Arrangements for special assistance or an interpreter can be made by calling the Metropolitan Planning Organization office at (210)-227-8651, or Relay Texas at 1-800-735-2989 at least five (5) business days in advance. The meeting facilities will also be within a reasonable distance of a VIA Metropolitan Transit route.

- 4. Public participation for a new Transportation Improvement Program (TIP) will include; opportunities for public comment at two Technical Advisory Committee (TAC) meetings and two Transportation Policy Board (TPB) monthly meetings; three public listening sessions and posting the draft TIP for comment on the MPO website.
- 5. In conjunction with major updates of the Metropolitan Transportation Plan (MTP), the MPO will host at least four (4) public meetings to involve interested parties in the early stages of the plan development. After a draft MTP has been developed and prior to Transportation Policy Board adoption, the MPO will host at least one (1) formal public meeting to solicit comments on the draft plan. A final draft MTP will be presented to the Transportation Policy Board with public comments received for consideration prior to adoption.
- 6. Routine amendments to the TIP occurring between annual updates require a two-step process. To permit adequate public review and comment, amendments to the TIP will be presented at a meeting of the Transportation Policy Board with action on the amendment occurring at the following Transportation Policy Board meeting (approximately 30 days after initial presentation). Amendments that delete or substantially change the scope of a project will be explicitly listed on both the presentation and action agendas for the Transportation Policy Board meetings.

Routine amendments to the MTP occurring between major updates also require a twostep process. To permit adequate public review and comment, amendments to the MTP will be presented at a meeting of the Transportation Policy Board with action on the amendment occurring at the following Transportation Policy Board meeting (approximately 30 days after initial presentation). Amendments to both documents may be initiated concurrently.

Amendments to the TIP or MTP requiring quick action due to impending federal or state requirements or deadlines (or for other reasons deemed in the community's best interest) may be accomplished by a 75% vote of the Transportation Policy Board quorum present to waive the routine two-step process. In these cases, the Transportation Policy Board will hold a special public hearing within their normal meeting agenda to specifically solicit public comment on the proposed amendment(s). These actions will be emphasized on the meeting agenda which is mailed ten (10) days prior to the Transportation Policy Board meeting thus permitting special public attendance to comment on the action prior to adoption by the Policy Board. Amendments that delete or substantially change the scope of a project will be explicitly listed on both the presentation and action agendas for the Transportation Policy Board meetings.

7. The MPO or lead agency will host at least one (1) formal public meeting to solicit comments on all alternative strategies to be considered in the early stages of any significant transportation study. After draft study results are reported to the Transportation Policy Board, at least one (1) formal public meeting will be held to solicit comments on the draft results. The final report will then be presented to the Transportation Policy Board for action and any comments received from the final public meeting will be presented. The minimum requirements of this public involvement process will be in effect for all significant transportation studies regardless of the lead agency.

- 8. All public input received by the MPO at public meetings will be documented in meeting summaries. This documentation along with any written comments received will be forwarded to the Study Oversight Committee, Technical Advisory Committee and the Transportation Policy Board for consideration and appropriate action. Actions taken will be documented in official meeting minutes. When significant written and/or oral comments are received from the public on the draft TIP, MTP or significant transportation study a summary, analysis, and report on the disposition of such comments will be made a part of the final documents.
- 9. In the event the Transportation Policy Board adopts a plan, project, program or study that is "significantly" or "substantially" different in form, content or value from that presented at the last public meeting for the subject, members of the public may request in writing that the Transportation Policy Board hold another public meeting for comment on the adopted version of the plan, project or program. If an additional public meeting is deemed necessary by the Transportation Policy Board, comments from that meeting will be duly recorded and provided to the Transportation Policy Board for additional consideration and a final decision on the matter.

Goal 2: The MPO will keep the public informed of transportation related activities on a continuous basis.

- 1. The MPO will publish a bi-weekly electronic newsletter for distribution to an electronic contact list. The newsletter will include updates on current or recently completed projects, announcements of upcoming meetings, other items of transportation interest and contact information.
- 2. The MPO will also publish a quarterly hardcopy newsletter for distribution to the contact mailing list and to the electronic contact list.
- 3. The MPO will make significant transportation publications and work products readily available to the public via the Internet, the Library system and the MPO office staff.
- 4. MPO staff will be available to provide general and project-specific information at a central location during normal business hours and after hours at the request of individuals or groups with reasonable notice.
- 5. The MPO will maintain an Internet web site. The web site will be updated and maintained to provide the most current information available. Other transportation agencies, transportation related businesses, local governments, and interested groups will be encouraged to provide a link to the MPO web site on their organization's web site. The web site will, at a minimum, contain the following information:
 - a. Contact information (mailing address, phone, fax, and e-mail)
 - b. Current MPO and advisory committee memberships
 - c. Meeting agendas and package materials
 - d. Brief descriptions of current projects and studies
 - e. Completed work products and publications
 - f. Bicycle and pedestrian program information and event schedules
 - g. Links to related agencies

- 6. The MPO will provide information for publication and distribution with newsletters and other publications produced by various special interest groups including, but not limited to:
 - a. Citizens expressing an interest in transportation planning activities.
 - b. Elected local, state and federal officials
 - c. Affected public agencies and staff
 - d. Representatives of public transportation employees
 - e. Providers of freight transportation services
 - f. Freight shippers
 - g. Private providers of transportation
 - h. Representatives of users of public transportation
 - i. Representatives of users of pedestrian walkways and bicycle transportation facilities
 - j. Representatives of the disabled
 - k. Local media outlets
 - I. Homeowner, neighborhood and resident associations
 - m. Civic and public interest groups
 - n. Business and trade organizations
 - o. City and academic libraries
 - p. Faith-based organizations
 - q. Community-based associations
 - r. Traditionally underserved populations
 - s. Any other interested parties
- 7. The MPO will produce an Annual Report for FHWA, FTA and TxDOT to report on activities completed each fiscal year and to document revenues and expenditures of the MPO.
- 8. Copies of materials are available at reproduction and postage costs consistent with the State of Texas Comptroller's policy. Copies of final documents and major updates of the Unified Planning Work Program, Transportation Improvement Program, the Metropolitan Transportation Plan and other major planning studies are posted on the MPO's website for public review.
- **Goal 3**: The MPO will encourage the participation of all its study area residents, including those defined by FHWA as "traditionally underserved", in the transportation planning process and strive to ensure full and fair participation in the transportation decision making process by all potentially affected communities.
 - 1. Both Title VI of the Civil Rights Act of 1964 (Title VI) and Executive Order 12898 on Environmental Justice (EO 12898) are specific in the description of the populations they protect. Title VI prohibits discrimination based on race, color and national origin. EO 12898 protects minority and low-income populations. Discrimination against persons based on gender, age, and disability are addressed by other nondiscrimination statutes. Collectively, these populations are often referred to as "traditionally underserved" in the transportation planning process. The laws prohibiting discrimination against those referred to as "traditionally underserved" by recipients of federal financial assistance include:

- The Civil Rights Act of 1964, as amended, which prohibits discrimination on the basis of race, color, or national origin.
- The 1973 Federal aid Highway Act, which prohibits discrimination on the basis of sex.
- The Age Discrimination Act of 1975, which prohibits discrimination on the basis of age.
- The Americans with Disabilities Act of 1990, which prohibits discrimination on the basis of disabilities.
- Executive Order 12898 on Environmental Justice, which protects minority and low-income populations from disproportionately high and adverse impacts.
- Executive Order 13166 on Limited English Proficiency, which provides meaningful access to services for persons who have limited English proficiency.

Additionally, low-literacy populations and those without personal transportation are included as traditionally underserved populations, although they do not enjoy the protection of either a federal act or an executive order.

2. Definitions of Traditionally Underserved Populations

Minority: Persons considered to be minorities are identified by the Census as people of African, Hispanic, Asian, American Indian, or Alaskan Native origin. Executive Order 12898 and the DOT and FHWA Orders on Environmental Justice consider minority persons as persons belonging to any of the following groups:

- **Black** a person having origins in any of the black racial groups of Africa.
- **Hispanic** a person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.
- **Asian** a person having origins in the Far East, Southeast Asia, or the Indian subcontinent.
- American Indian and Alaskan Native a person having origins in North America and who maintains cultural identification through tribal affiliation or community recognition.

Low Income: A person whose household income (or in the case of a community or group, whose median household income) is at or below the U.S. Department of Health and Human Services poverty guidelines. The national poverty guidelines are issued annually by the Department of Health and Human Services and are available at http://aspe.hhs.gov/poverty/poverty.shtml.

Elderly: Any persons over the age of 65.

People with Disabilities: Under the Americans with Disabilities Act of 1990, a qualified individual with a disability is a person that 1) has a physical or mental impairment that substantially limits one or more major life activities; 2) has a record of such an impairment; or 3) is regarded as having such an impairment.

Limited English Proficiency: People who do not speak English as their primary language and have a limited ability to read, speak, write, or understand English may be considered limited English proficient.

Low Literacy: People who have difficulty using certain reading, writing, and computational skills considered necessary for functioning in everyday life may be considered to have low literacy. Persons with low literacy are generally defined as having less than fifth-grade reading and comprehension skills.

Zero car households: Households without cars or access to one.

- 3. The MPO will use mapping technology in conjunction with census data to identify areas with a concentration of minority, low-income or low-literacy populations. A concentration will be defined as:
 - a. A percentage of the population at the *census block group level* that exceeds 50% for all minority groups.
 - b. An average income at the *census block group level* that is at or below current Department of Health and Human Services poverty guidelines.
- 4. Target audiences will be identified for each planning study conducted by the MPO, including but not limited to:
 - a. Study area residents including "traditionally underserved" populations
 - b. Elected local, state and federal officials
 - c. Affected public agencies and staff
 - d. Representatives of public transportation employees
 - e. Providers of freight transportation services
 - f. Freight shippers
 - g. Private providers of transportation
 - h. Representatives of users of public transportation
 - i. Representatives of users of pedestrian walkways and bicycle transportation facilities
 - j. Representatives of the disabled
 - k. Local media outlets
 - I. Homeowner, neighborhood and resident associations
 - m. Civic and public interest groups
 - n. Business and trade organizations
 - o. City and academic libraries
 - p. Faith-based organizations
 - q. Community-based associations
 - r. Any other interested parties
- 5. The MPO will to hold public meetings at sites and times reasonably available and convenient to potentially affected citizens. All meeting locations used will be reviewed to insure compliance with ADA accessibility (See Enclosure 1 Sample Checklist for Planning an Accessible Event) as well as reasonable access to the facility by transit and paratransit.
- 6. Given a 5-working-days notice, MPO staff will ensure opportunities for full participation and accommodations for persons with disabilities at meetings by:
 - a. Providing documents in alternate formats (e.g., Braille)
 - b. Providing interpreters or sign language interpreters

- 7. When an MPO study or project impacts a low-income community, special efforts will be made to accommodate participation including considerations for transit access, meeting times and locations.
- 8. MPO public meetings will be designed to accommodate persons with low-literacy. Information will be presented in simple language and in visual terms. Provisions will be made for verbal inputs.
- All appropriate public input concerning the MPO's transportation planning process received by the MPO will be acknowledged and considered. Such input and feedback may be transmitted orally, by telephone, fax, electronically or in writing.
- 10. The following MPO Title VI and Environmental Justice Nondiscrimination Statement will be included in informational items and collateral materials as appropriate:

The San Antonio-Bexar County Metropolitan Planning Organization (MPO), as a recipient of Federal funding and under Title VI of the Civil Rights Act and related statutes, ensures that no person shall on the grounds of race, religion, color, national origin, sex, age or disability be excluded from participation in, denied benefits of, or otherwise discriminated against by any MPO program or activity.

Goal 4: The MPO will continuously strive to improve public participation.

- 1. The MPO will continuously evaluate public participation techniques.
- 2. This PPP will be reviewed and adopted, with revisions if necessary, at least every three (3) years.

Goal 5: The MPO will participate in the public participation efforts of other transportation agencies and organizations.

1. The MPO will actively assist local governments and transportation agencies in the development and implementation of public participation techniques for transportation planning and other related studies. For example, in the MTP and TIP development processes, the MPO will assist VIA Metropolitan Transit with their Federal Transit Administration (FTA) requirement for Section 5307 Program of Projects public involvement by including the following statement in advertisements and/or other collateral materials as appropriate:

"The MPO's MTP/TIP development process is being used to satisfy the public hearing requirements of FTA's Section 5307 program. This public notice of public involvement activities and the time established for public review and comment on the MTP/TIP will satisfy the FTA Program of Projects requirements."

2. MPO staff will attempt to attend and participate in as many transportation partner public participation activities as is feasible to enhance public consideration of transportation issues, plans, and programs and to reduce redundancies and costs.

Public Participation Techniques

Public participation is an on-going activity of the MPO with numerous techniques occurring on a continuous basis. Public participation is also an integral part of one-time activities such as corridor studies and recurring activities such as the TIP process and Metropolitan Transportation Plan updates.

This section contains descriptions of public participation tools currently used by the MPO. Additional tools used by other agencies are included to present a more complete picture of available techniques.

MPO Web Site

The site was established in 1998 with basic information about the MPO process, members, meeting times and contact information. The site has been expanded to include information about specific projects undertaken by the MPO. Bicycle, pedestrian and trails information and event schedules are also included. Work products such as the UPWP, TIP and MTP are available from the website. The site provides many links to other transportation related sites from the local to national level. The site is continually maintained and updated by MPO staff and is used to promote regular and special meetings, planning studies, bicycle and pedestrian events, publications and work products.

MPO Contact Database

MPO staff maintains a database of all contacts, both business and public, on a continuous basis. The database includes committee membership, mailing information, phone and fax numbers, and e-mail and internet addresses. The database is used for maintaining current committee membership lists, special interest groups and homeowners association contacts and the newsletter mailing list. Membership lists generated using the database are provided to the public, municipalities and other agencies on request. The database will be used to establish and maintain a list of e-mail contacts for electronic meeting notification and announcements.

Meeting Notices

The Texas Open Meetings Act requires notice of any public meeting where a decision could be made or that may be attended by more than one elected official. The MPO regularly posts MPO Transportation Policy Board (TPB), Technical Advisory Committee (TAC), Bicycle Mobility Advisory Committee (BMAC) and Pedestrian Mobility Advisory Committee (PMAC) meetings in the Texas Register and at the Bexar County Courthouse Bulletin Board and with Comal and Guadalupe counties.

MPO Newsletter

1. The MPO publishes an electronic newsletter on a bi-weekly basis and distributes it according to the database e-mail list. Citizens are added to the distribution list at their own request. Opportunities to be added to the list occur during public meetings hosted by the MPO, on the MPO web site, and when citizens contact MPO staff. Each issue of the newsletter includes staff contact information, upcoming meeting schedules, the MPO web site address, project highlights, and current planning project status reports. Information regarding significant transportation issues, MPO awards, and other one-time activities are also included.

2. The MPO also publishes a quarterly hardcopy newsletter that is mailed to the contact mailing list and e-mailed to the electronic contact list. Included are feature stories about the transportation planning process as well as ongoing studies, projects and issues

Facebook

The MPO will maintain a Facebook page to post pertinent information and notices on a frequent basis. This also provides another opportunity for MPO Facebook fans to provide public input to the MPO's on-going planning process.

Display Ads

These ads are used to promote meetings that are not regularly scheduled, such as corridor or subarea workshops, project specific meetings, open houses or hearings. They are published in the major circulation newspaper as well as in newspapers serving predominantly minority populations in order to reach a larger audience than those that typically read legal ads.

Bus Cards

The MPO will use advertising space in VIA buses whenever possible as provided by VIA Metropolitan Transit for various MPO events.

Banners

The MPO will consider using banner advertising such as physical street banners and internet page banners as appropriate for MPO events and activities.

Project Newsletters

For individual projects, such as corridor or subarea studies, that are typically performed using consulting services, newsletters are often used to address specific project issues. These newsletters are mailed to targeted residents, businesses and property owners in the area affected by a particular study. Information regarding upcoming project meetings, alternatives being proposed in the area, and other project news is reported in these newsletters.

Other Newsletters

When project-specific newsletters are not used, articles may be prepared for publication in other newsletters produced by municipalities, homeowner associations, church groups, civic groups, or others that may have an interest in the project. These articles are subject to the publication dates and space restrictions of the individual publishers.

Direct Mailings

These are used to announce upcoming meetings or activities or to provide information to a targeted area or group of people. Direct mailings are usually post cards (5 $\frac{1}{2}$ " x 8"), but can also be letters or flyers. An area may be targeted for a direct mailing because of potential impacts from a project. Groups are targeted that may have an interest in a specific issue.

Press Releases

Formal press releases are sent to local media (newspaper, TV and radio) to announce upcoming meetings and activities and to provide information on specific issues being considered by the MPO or their committees.

TV Message Board Scripts

Information about regular MPO Transportation Policy Board meetings, project-specific meetings, workshops, open houses, public hearings and other MPO events or activities meetings is provided to the government access cable channels.

TV and Radio Public Affairs Shows

MPO staff will solicit radio and talk show appearances to provide information or to promote events and topics as appropriate.

Video and Audio Public Service Announcements

MPO staff will produce audio and video public service announcements for selected events and distribute them to the appropriate metro area radio, TV and cable stations.

Project-specific Web Sites

For individual projects, such as corridor studies, that are typically performed using consulting services, project-specific web sites may be used. These sites are used when project information is too extensive to be included on the MPO site. Project web sites can contain study area maps, meeting announcements, descriptions of potential alternatives, comment forms, user surveys and project team contact information. Links to project sites are provided on the MPO site.

Project Workshops/Open-Houses

These are public meetings that are generally open and informal, with project team members interacting with the public on a one-on-one basis. Short presentations may be given at these meetings. The purpose of project-specific meetings is to provide project information to the public and to solicit public comment.

MPO Exhibit Tables

MPO staff will attend other agency events and activities to set up an exhibit with maps, charts and informational brochures. Exhibit tables may also be used at selected malls and other public venues as appropriate.

Small Group Meetings

During projects such as planning studies, meetings are held with small groups that have an interest in the project. Meetings could be with homeowners or neighborhood associations, civic groups, special interest groups, or other groups of affected or interested parties.

E-mail Announcements/Internet Message Boards

Meeting announcements and MPO information is e-mailed to interested persons that have submitted their e-mail addresses to MPO staff. Interactive message boards may be used to facilitate discussion and solicit public comment regarding specific MPO projects or issues.

Citizen's Advisory Committees

Citizen Working Groups are formed for various MPO planning activities to provide input from citizens representing potentially affected areas or special interest groups. Individual members are normally appointed by elected officials in the study area. Neighborhoods and traditionally underserved groups with vested interests are also encouraged to join these committees. Typically, these groups meet several times throughout a study with the consultants, MPO and agency staff.

Flyers, Posters and Fact Sheets

To provide summary information regarding MPO policy, programs and projects, flyers, posters and fact sheets **may** be distributed at public meetings, posted on the MPO web site, and displayed in public places such as libraries and community centers. Individuals and special interest groups can also request fact sheets directly from the MPO staff office.

MPO Logo

A logo representing the MPO is used to identify products and publications of the MPO. The logo helps the public become familiar with the different activities of the MPO by providing a means of recognizing MPO products. The logo will be used on all MPO publications, including those developed by consultants working on MPO sponsored projects.

Revisions and Amendments

This Public Participation Plan reflects the current policies of the San Antonio-Bexar County MPO. At a minimum, these policies will be reviewed, revised if necessary and adopted every three (3) years.

Enclosure 1: Sample Checklist for Planning an Accessible Event

Adopted: May 21, 2012

Sample Checklist for Planning an Accessible Event

Element	Accommodation Area	Yes	No
General	 Do you know your agency's responsibility to provide accessibility to persons' with disabilities? 		
Transportation	 Is the facility/meeting location accessible by public transportation? If yes, is public transportation available at the time of your meeting/training? 		
Evacuation	Do you know the emergency evacuation plans for the meeting/training location?		
Parking	 Does the building have accessible (handicap) parking spaces? If yes, are they at least 8' wide and have 5' aisles next to them? 		
Sidewalk	 Are there unobstructed curb ramps leading to the sidewalk (walkway)? 		
Walkway	 Is there a walkway from the parking lot to the building, at least 36" wide? Does the walkway have a stable and firm surface? If the accessible route is different from the primary route to and through the building, can you post signs with the wheelchair symbol that show the route? Is the walkway level and free of steps? If no, is there a ramp at least 36" wide? If there is a ramp, does it have a gentle slope (1" rise to 12" length)? 		
Entrance/Doors	 Is the door at least 32" wide (wide enough for a wheelchair)? Can the hardware be operated with one hand (level, push plate, etc.) with a minimum of twisting or grasping)? Are the handles low enough to reach? (maximum 48" high) Can the door be pushed open easily? Is the threshold no more than 1/2" high and beveled? When a vestibule, is there a minimum of 48" between the sets of doors? 		
Floors	Are the floors hard and not slippery? Is there a floor mat to dry feet and crutch tips to prevent slipping?		
Corridors	Is there a 36" corridor, from the entrance to where the meeting/training is held?		

	Is the path free of objects projecting 4" maximum into the corridor?	
Elevators	Is there an elevator in the facility where the meeting/training is located?	
	If yes, is it a working one that is large enough for a wheelchair?	
	Are the controls within reach? (maximum 48*)	
	Do the controls have Braille?	
	Is there an audible signal ringing at each floor?	
	 Is there an audible two-way emergency communication system in the elevator? 	
Meeting/Training Rooms	Is there enough clearance around the table for a wheelchair to move?	
NOOHIS	Can the wheelchair pull under the edge of the table to sit close?	
Restrooms	Is there a wide, accessible path to the restroom?	
	 Is there a toilet stall wide enough that a wheelchair can enter and close the door behind? Interior space to turn around? 	
	Is the water closet (toilet) 17-19 inches high to the rim?	
	 Can the wheelchair roll under the sink (29 inches to the bottom)? 	
	Can the faucets be reached and turned on easily?	
	Are the dispensers (soap, towel, etc) reachable? (maximum 48" high)	
	 Is there a mirror at an accessible height? (bottom of the mirror 44" above the floor) 	
Interpreters	Do you know how to arrange for sign language interpreters?	
	(You must ask the participant the type of interpretation needed)	
Telephone	Is there a Teletype unit (TTY) in your facility/agency?	
	 If yes, is the number published on the announcements alongside the phone number? 	
	Is the staff in your agency trained to use the TTY?	
	Can the TTY be used by those attending your meeting/training?	
	Does the staff know how to use the Virginia Relay Center?	
Assistive	Does your facility have permanent assistive listening system?	
Listening System (ALS)	If yes, do you know how to use it?	
	 Do you know how to arrange for an ALS (permanent, portable, and rental)? 	
	 (You must ask the participant the type of system and listening accessory needed) 	

Captioning	Do you know how to arrange for captioning or computer assisted note-taking services?	
Videotapes	Do the videotapes or other broadcast programming materials that you may be using during your meeting/ training carry captioning?	
Fire Alarm	Are there flash fire alarm signals in the building? In the meeting/training room?	
Directions	Can you provide clear, detailed directions to the facility and/or the meeting room? Is there a receptionist to offer assistance? (If not, can someone be available to help?)	
Handouts	Can you provide the meeting/training materials in alternative formats if requested? (You must ask the participant what format is needed)	
Signage	Is there Braille text in the signage at the facility?	
Lighting	Is there adequate lighting in the elevators, hallways, stainwells, etc?	

This page intentionally left blank.

APPENDIX B

Policy 6: Guidelines for Programming Projects in the Transportation Improvement Program

This page intentionally left blank.

Policy 6: Guidelines for Programming Projects in the Transportation Improvement Program (DRAFT)

This document constitutes the San Antonio-Bexar County Metropolitan Planning Organization's process for programming projects in the Transportation Improvement Program. When considered for amendment, this document shall be subject to a public comment period of approximately 30 days prior to adoption by the Metropolitan Planning Organization Transportation Policy Board.

A. Purpose

The San Antonio-Bexar County Metropolitan Planning Organization (MPO) develops a Transportation Improvement Program (TIP) that programs projects for a minimum of the following four (4) fiscal years. The TIP is forwarded to the Texas Department of Transportation (TxDOT) for inclusion into the Statewide Transportation Improvement Program. The TIP project selection process begins with the long-range Metropolitan Transportation Plan process. The public is invited to fully participate in the Metropolitan Transportation Plan development process thus assisting in the selection and prioritization of transportation improvement projects. Implementing agencies which include the Alamo Area Council of Governments, Alamo Regional Mobility Authority, cities and counties within the MPO study area, the Texas Department of Transportation (TxDOT), and VIA Metropolitan Transit, participate in the Metropolitan Transportation Plan development process with one of the final products of the process being a prioritized list of transportation projects to be eventually considered for inclusion in the TIP.

Projects are either selected by the Transportation Policy Board in consultation with the State (TxDOT) and transit operator (VIA) or selected by the State (TxDOT) in cooperation with the MPO. Projects selected by the Transportation Policy Board are those that are to be funded with Surface Transportation Program - Metro Mobility (STP-MM), Congestion Mitigation & Air Quality (CMAQ), and any other future U.S. Department of Transportation (USDOT) or TxDOT funds suballocated to the local level.

B. Project Funding Categories

Project funding categories include but are not limited to:

- Category 1 Preventative Maintenance & Rehabilitation ¹
- Category 2 Metropolitan and Urban Corridor Projects
- Category 3 Non-Traditional Funding
- Category 4 Statewide Connectivity Corridor ²
- Category 5 Congestion Mitigation and Air Quality (CMAQ)²
- Category 6 Structure Rehabilitation ¹

¹ These projects are identified through the use of Statewide CSJs and a lump sum dollar amount.

² The San Antonio-Bexar County MPO does not receive these types of funds.

- Category 7 Metro Mobility (Surface Transportation Program Metro Mobility or STP-MM)
- Category 8 Safety ¹
- Category 9 <u>Transportation</u> Enhancements <u>Program</u>
- Category 10 Miscellaneous ¹
- Category 11 District Discretionary
- Category 12 Strategic Priority
- Federal Transit Administration Section 5307 (Urbanized Area Formula Grant Program)
- Federal Transit Administration Section 5309 (Capital Grant Program)
- Federal Transit Administration Section 5310 (Elderly and Disabled Transportation Assistance Grant Program)
- Federal Transit Administration Section 5316 (Job Access & Reverse Commute Grant Program)
- Federal Transit Administration Section 5317 (New Freedom Grant Program)

C. Use of 'Grouped' or 'Statewide' CSJs ³

The MPO will use 'Grouped' or 'Statewide' CSJs for the following types of projects:

- Preliminary Engineering
- Right-of-Way Acquisition
- Preventive Maintenance and Rehabilitation
- Bridge Replacement and Rehabilitation
- Railroad Grade Separations
- Safety
- Landscaping
- Intelligent Transportation Systems Deployment
- Bicycle and Pedestrian
- Safety Rest Areas and Truck Weigh Stations
- Transit Improvements

Projects that fall within these categories will be listed in an appendix of the Transportation Improvement Program. Generally these statewide CSJs will be used for projects funded under Category 1 (Preventive Maintenance & Rehabilitation), Category 6 (Structure Rehabilitation), Category 8 (Safety), and Category 10 (Miscellaneous).

Statewide CSJs will not be used for wholly or partially funded Category 2 (Metro<u>politan and Urban Corridor</u>) or Category 7 (STP-MM) projects.

¹ These projects are identified through the use of Statewide CSJs and a lump sum dollar amount.

 $^{^{3}}$ CSJ stands for Control Section Job and is an identifying number used by the Texas Department of Transportation.

Statewide CSJ projects will be revised or amended administratively as allowed in Section G Administrative Revisions.

D. Use of Appendix D - Projects Undergoing Environmental Assessment

The purpose of Appendix D is to identify projects that are undergoing preliminary engineering and environmental analysis (PE/EA) consistent with early project development. The Federal Highway Administration allows these projects to be referenced in the current Transportation Improvement Program in order to facilitate the feasibility and PE/EA phases. This Appendix contains projects that are scheduled for implementation beyond the four years of the TIP time frame, and it in no way implies that these projects are programmed in the TIP. Cost estimates are preliminary and do not represent any commitment of construction funding. Consistency with the Metropolitan Transportation Plan will be verified as alternatives are examined in studies or environmental clearance efforts.

Projects listed in Appendix D will include, at a minimum, CSJ Number, MPO ID number, county, TxDOT district, sponsoring entity, street name, project limits, project description, estimated let date and preliminary project cost.

E. Quarterly Review of Projects

Category 2 (Metropolitan and Urban Corridor) Projects

The implementing agency will submit amendments to the Category 2 (Metropolitan and Urban Corridor) projects to the MPO in writing. For cost increases greater than 10%, the implementing agency will also submit to the MPO justification for the cost increase and the funding source of the additional amount, i.e. which other Category 2 projects are being amended to cover the requested TIP revision. For new projects being amended into the TIP that are not part of the current Unified Transportation Program the implementing agency will also submit to the MPO which other Category 2 projects are being amended to allow for the inclusion of the new project.

Category 7 (STP-MM) Projects

Every three (3) months, a detailed review of Category 7 (STP-MM) funded projects in the TIP will be conducted. These projects will be reviewed for progress towards their letting (contract) dates, cost estimates, description and limits. If warranted by the detailed review, projects may be re-prioritized at the discretion of the Transportation Policy Board.

If the quarterly review warrants amendment(s) to the TIP, such amendment(s) will be presented to the Transportation Policy Board for consideration in sufficient time to allow the amendment(s) to be incorporated into the next regularly scheduled quarterly amendment of the Statewide Transportation Improvement Program.

F. Amendment Process

The following changes will require an amendment to the TIP:

- 1) Adding or deleting project(s)
- 2) Revising the project scope of work
- 3) Revising the project cost
- 4) Revising funding categories
- 5) Revising the phase of work (ex: from P.E. to construction)
- 6) Revising project limits

Amendments to the TIP require a two-step process. To permit adequate public review and comment, amendments to the TIP will be presented at a Transportation Policy Board meeting with action on the amendment occurring at the following Transportation Policy Board meeting (approximately 30 days after initial presentation).

To the extent possible, amendments to delete a project or significantly change the scope of work of a project will be explicitly listed on both the presentation and action agendas for the Transportation Policy Board meetings.

Routine amendments to the Metropolitan Transportation Plan occurring between major updates also require a two-step process. To permit adequate public review and comment, amendments to the Metropolitan Transportation Plan will be presented at a meeting of the Transportation Policy Board with action on the amendment occurring at the following Transportation Policy Board meeting (approximately 30 days after initial presentation). Amendments to both the TIP and the Metropolitan Transportation Plan may be initiated concurrently.

Amendments to the TIP or the Metropolitan Transportation Plan requiring quick action due to impending federal or state requirements or deadlines (or for other reasons deemed in the community's best interest) may be accomplished by a 75% vote of the TPB quorum present to waive the routine two-step process. In these cases, the Transportation Policy Board will hold a special public hearing within their normal meeting agenda to specifically solicit public comment on the proposed TIP or Metropolitan Transportation Plan amendment. These actions will be emphasized on the meeting agenda that is both mailed and e-mailed out ten (10) days prior to the Transportation Policy Board meeting. This will alert the public and permit special attendance to comment on the action prior to adoption by the Transportation Policy Board. To the extent possible, amendments to delete a project or significantly change the scope of work of a project will be explicitly listed on the agenda for the Transportation Policy Board meeting.

Governing bodies of the sponsoring agencies will promptly notify the MPO in writing of any currently programmed projects that are proposed to <u>be</u> deleted from the TIP. The governing body of the sponsoring agency shall state its preference for project replacement in the written notification. The Transportation Policy Board will provide direction and/or may consider action at the next appropriate meeting with respect to amending the TIP.

To the extent possible, any project amended outside the timeframe of the current TIP due to funding limitations will have priority consideration in being amended back into the TIP when additional funding becomes available.

G. Administrative Revisions

The MPO Director is authorized to approve certain "administrative changes" to the TIP with the notification of such to the appropriate transportation planning partners. The intent of this section is not to circumvent the public process for amending the TIP, but to allow for minor corrections to the TIP that do not materially change a project's function. These revisions may include minor corrections to project limits, scope or project costs.

H. Category 7 (STP-MM) Funded Projects

Basic Requirements for STP-MM Projects

All projects submitted for consideration for funding through the Category 7 (STP-MM) program will meet the following basic requirements:

- Projects will be submitted to the MPO through an implementing agency (Alamo Area Council of Governments, Alamo Regional Mobility Authority, Texas Department of Transportation, VIA Metropolitan Transit and cities and counties within the MPO Study Area) and appropriate commitments of local match shall be made. Approval of the commitment of the local match from the Texas Department of Transportation District Engineer or the policy body of the local agency submitting the project for consideration will be obtained and submitted to the MPO.
- 2. Each implementing agency is encouraged to address Title VI and Environmental Justice considerations in submitting projects to the MPO for consideration.
- 3. Agencies should consider the transit service area when submitting projects.
- 4. Pedestrian and bicycle facilities will be included in all future transportation improvement projects. Any exceptions will need to be adequately documented by management of the implementing entity. Regardless, technical points will be subtracted for not including bicycle and pedestrian components in an added capacity roadway project or roadway rehabilitation project. Bicycle and pedestrian components included in a project may not be deleted from the project at a future date.
- 5. Funded projects will be included in the latest approved Metropolitan Transportation Plan. Note: Amendments to the Metropolitan Transportation Plan and the Transportation Improvement Program can be made through the amendment process at the discretion of the Transportation Policy Board. Any required amendments to the Metropolitan Transportation Plan must be made prior to amending the TIP, however amendments to both may be initiated concurrently.

- 6. A roadway project submitted for consideration must be on a functionally classified facility as defined by the MPO and approved by Federal Highway Administration through the State. Roadway projects on facilities classified as a local street or rural minor collector do NOT qualify for Federal transportation assistance.
- 7. All deadlines set by the MPO are firm.
- 8. This funding category will not be used for toll projects.

Project Selection

- 1. Projects will be primarily selected from priority corridors/projects identified through the Metropolitan Transportation Plan development process. However, the flexibility to incorporate other projects into the Metropolitan Transportation Plan and TIP when essential will be retained.
- 2. When the project is submitted to the MPO for funding consideration, the sponsoring agency will include the following information:
 - Project name,
 - Project limits (logical termini)
 - Project description
 - Project justification
 - Length of roadway (in miles)
 - Roadway classification
 - Right of way requirements
 - Utility and drainage requirements (with initial cost estimates)
 - Location map with adjacent land uses shown
 - Typical cross-section, existing and proposed
 - Bicycle and pedestrian facilities
 - Initial total cost construction estimate
 - Source of match funding

To the extent that data is available and used for project scoring, MPO staff will provide the following information for submitted projects:

- Current (base year) and future year volume to capacity ratio
- Congestion Management System status for project prioritization
- Cost/vehicle mile traveled
- Transit route information
- Number of trucks
- Critical intersection
- Existing and future traffic volumes
- Bicycle information
- Pedestrian information
- System connectivity

- Crash rates
- 3. If more projects are submitted than funding is available, the projects submitted will be scored based on technical criteria adopted by the Transportation Policy Board. Submitted projects may be grouped by project type to allow for direct technical comparisons between projects within those project types. Project types may include transit, added roadway capacity, roadway operational, roadway rehabilitation, bicycle and pedestrian.

Awarding of points will always be given to projects supported by transit service. Additional points will be awarded for overmatching or leveraging a project.

- 4. Projects will be presented to the Transportation Policy Board for consideration in sufficient time to allow the new TIP or amendment(s) to be incorporated into the next regularly scheduled quarterly amendment or adoption of the Statewide Transportation Improvement Program.
- 5. Unless allocated a fixed amount, each STP-MM project will have a cost figure in the approved TIP that is an estimate. The TIP estimate shall include all construction costs at 100% and shall designate what percent match is required by the local agency. "Construction cost" is to be defined consistent with the Texas Administrative Code 43 Part 1 Chapter 15 Subchapter E. "Construction cost" includes all direct and indirect costs to a highway improvement project, other than for right-of-way acquisition, preliminary engineering and construction engineering. The amount programmed in the TIP shall be calculated as follows:

Construction estimate + maximum 10% contingency for eligible change orders + maximum 11% for construction management services

- 6. Unless allocated a fixed amount, each selected STP-MM project will be adjusted when bids are approved.
 - a. if bids are higher than the TIP estimate, the TIP estimate shall become a fixed funding cap unless an increase is approved by the TPB.
 - b. If bids are lower than the TIP estimate, the TIP shall be revised as follows:

Construction bid + 10% contingency for eligible change orders + 11% for construction management services (not to exceed the TIP programmed amount).

c. TxDOT and the local governmental entity shall execute an amendment to the Funding Agreement (Federal Letter of Authority) to reflect a change in the TIP amount. 7. Owner requested change orders will be covered 100% by the local agency. Owner requested change orders are the result of changes requested by the local agency, not included in the original TPB approved scope of work.

I. Public Involvement

The MPO commits to a public involvement process that includes the provision of timely information, provides reasonable public access to technical and policy information, provides adequate public notice, seeks out and considers traditionally underserved populations, and documents significant comments. Please see the MPO Policy 5: Public Involvement Process for additional information on public involvement.

Adopted: December 5, 2011

APPENDIX E

"Grouped" or "Statewide" CSJ Project Listing

In cooperation with the Federal Highway Administration, the Texas Department of Transportation developed statewide programs identified by statewide CSJs to maximize the provisions for grouping projects that are not determined to be regionally significant in one line item, as allowed for in Title 23 USC Section 135 Statewide Planning. A table of the eligible funding categories and corresponding CSJs can be found in this section.

The use of statewide CSJs for these categories provides a more efficient method of programming and letting projects and decreases the necessity for TIP/STIP revisions. By adopted policy, the San Antonio-Bexar County MPO will not have any Category 2 Metro Corridor of Category 7 Surface Transportation Program – Metropolitan Mobility projects listed in this section of the TIP. A listing of the projects proposed to be let during the FY 2013-2016 timeframe can be found in this section. Grouped CSJ projects are financially constrained at the state level.

2011-2014 TRANSPORTATION IMPROVEMENT PROGRAM STATEWIDE CSJs

CSJ	STATEWIDE PROGRAM	DEFINITION
5000-00-916	Bicycle and Pedestrian	Construction or rehabilitation of bicycle and pedestrian lanes, paths and facilities.
5000-00-953	Bridge Replacement and Rehabilitation	Projects to replace and/or rehabilitate functionally obsolete or structurally deficient bridges.
5800-00-915	Intelligent Transportation Systems Deployment	Highway traffic operation improvement projects including the installation of ramp metering control devices, variable message signs, traffic monitoring equipment and projects in the Federal ITS/IVHS programs.
5000-00-956 5000-00-915	Landscaping	Project consisting of typical right-of-way landscape development, establishment and aesthetic improvements to include any associated erosion control and environmental mitigation activities.
5000-00-950	PE – Preliminary Engineering	Preliminary Engineering for any project that is not added capacity in a non-attainment area. Includes activities which do not involve or lead directly to construction such as planning and technical studies, grants for training and research programs.
5000-00-952 5000-00-957 5000-00-958	Preventive Maintenance and Rehabilitation	Projects to include pavement repair to preserve existing pavement so that it may achieve its designed loading. Includes seal coats, overlays, resurfacing, restoration and rehabilitation done with existing ROW. Also includes modernization of a highway by reconstruction, adding shoulders or adding auxiliary lanes (e.g., parking, weaving, turning, climbing, non-added capacity).
5000-00-954	Railroad Grade Separations	Projects to construct or replace existing highway-railroad grade crossings and to rehabilitate and/or replace deficient railroad underpasses, resulting in no added capacity.
5000-00-951	Right of Way Acquisition	Right of Way acquisition for any project that is not added capacity in a non-attainment area. Includes relocation assistance, hardship acquisition and protective buying.
5800-00-950	Safety	Projects to include the construction or replacement/rehabilitation of guard rails, median barriers, crash cushions, pavement markings, skid treatments, medians, lighting improvements, railroad/highway crossing warning devices, fencing, intersection improvements (e.g., turn lanes), signalization projects and interchange modifications. Also includes projects funded via the Federal Hazard Elimination Program and the Federal Railroad Signal Safety Program.
5000-00-917	Safety Rest Areas and Truck Weigh Stations	Construction and improvement of rest areas and truck weigh stations.
5000-00-918	Transit Improvements	Projects include the construction and improvement of small passenger shelters and information kiosks. Also includes the construction and improvement of rail storage maintenance facilities bus transfer facilities where minor amounts of additional land are required and there is not a substantial increase in the number of users.
