¹ Census Bureau data at the new district level is not yet available. Estimates are obtained by aggregating data at the block group level. Block groups that cross district lines are included if more than 50% of the population is contained within the district.

² Many of the estimates are calculated by aggregating other variables. The margins of error for aggregated estimates are approximations.

³ Percents are based on the total in the superceding category, which is marked by a gray bar.

⁴ Individuals who work at home are not included in these categories.

⁵ Percents are based on the population for which poverty status is determined.

⁶ Estimates do not include SNAP / food stamps.

⁷ Housing units where this percentage was not computed are not included.

⁸ District and state percents are based on the number of renter-occupied housing units.
