# Introduction

During the 75th Legislative Session, House Bills 1133 and 1367 added a new section (Section 5.126) to the Texas Water Code that requires the Texas Commission on Environmental Quality (“TCEQ”) to prepare an electronic enforcement report each year by December 1. The law requires the Commission to report actions for each type of regulatory program. The report is to contain statistical indicators including the number of investigations, number of notices of violation issued, number of enforcement actions, type of enforcement actions, amount of penalties assessed, deferred, or collected; and any other information the Commission determines is relevant. The report must include a comparison with TCEQ’s enforcement actions for each of the preceding five fiscal years. This report, the sixteenth of its kind, includes information from fiscal years 2007-2012.

The 77th Legislative Session added requirements to the Annual Enforcement Report in TEX. WATER CODE §5.756 and re-codified §5.123 as TEX. WATER CODE §5.126. The new requirements expanded the comparison requirement in the original section by adding a comparative analysis of data evaluating the performance, over time, of the Commission and of entities regulated by the Commission. The Legislature also added a requirement in TEX. HEALTH AND SAFETY CODE §382.0215 to assess emissions events, including actions taken by the Commission in response to the emissions events. Emissions events are upset events or unscheduled maintenance, startup, or shutdown activities, from a common cause that results in unauthorized emissions of air contaminants.

The 82<sup>nd</sup> Legislative Session added Chapter 28A to the TEX. WATER CODE, which pertains to the registration and investigation of certain aggregate production operations (APOs). The law requires the Commission to conduct a physical survey of the state to identify all active APOs and to ensure that each is registered. Additionally, the Commission is required to report the results of the survey, the number and general location of the registered APOs, the number of inspectors trained in multiple areas related to the investigations, the number of investigations conducted, and the results of the investigations.

The TCEQ is the State’s primary and comprehensive environmental regulatory agency. Its mission is to protect our State’s precious human and natural resources consistent with sustainable economic development. The agency regulates approximately 503,000 public and private facilities and/or individuals in Texas that affect, or have the potential to significantly affect, the environment. The goal of the agency is clean air, clean water, and the safe management of waste.

## **Glossary of Abbreviations for Programs**

AGRI = water quality facilities such as dairies and concentrated animal feeding operations

AIREI = Air Emissions Inventory

AIR or AQ = air quality

DC = dry cleaners

EA = Edwards Aquifer

ER = emergency response

IHW = industrial and hazardous waste

MSW = municipal solid waste, including landfills, tires, medical waste, and used oil/filter facilities

OC or OL = occupational certification/licensing

OSSF = on-site sewage facilities

PST = petroleum storage tanks

PWS = public water supply systems

RAD = radioactive material disposal, including low level radioactive waste and non oil and gas exploration naturally occurring radioactive material waste disposal

UIC = underground injection control

WQ = water quality, including domestic and industrial wastewater treatment plants, storm water, and sludge use operations (beneficial use sites and transporters)

WR or WATERIGHT = water rights diversion and pumping

WWA = wastewater agriculture, such as dairies and concentrated animal feeding operations

MM = multi-media - any combination of the above

# Annual Enforcement Report

## Fiscal Year 2012

### Executive Summary

Fiscal Year (FY) 2012 was a year of significant accomplishments for the TCEQ. Enforcement efforts resulted in 1,826 administrative orders issued with over \$11.4 million to be paid as penalties and over \$2.5 million to be expended for Supplemental Environmental Projects (SEPs). In addition, there were two administrative orders for which stipulated penalties were collected during FY 2012. These orders contain provisions that require payment of stipulated penalty amounts for specified future violations for the duration of the order. During FY 2012, equal amounts were paid in penalties and SEPs (\$124,250 each for a total of \$248,500) for these two orders. There were an additional 48 civil judicial orders issued through representation by the Texas Attorney General's Office that resulted in over \$57.4 million to be paid as penalties and \$121,500 to be expended for SEPs.

**Compliance Assistance:** The agency's efforts to provide assistance to the regulated community resulted in helping more than 61,500 Texas small businesses and local governments, keeping them informed about changes and trends in environmental regulations to help them comply. Additionally, more than 5,600 Texans attended TCEQ education events, benefiting from the latest technical information on environmental rules and permits. Extreme drought in 2011 resulted in eight TCEQ workshops to help water systems develop formal drought-emergency plans, as well as TCEQ-technical support to approximately 20 high-priority water systems facing critical water shortages for their communities.

**Investigations and Enforcement:** The agency conducted nearly 100,000 routine investigations and investigated over 4,000 complaints. More than 14,000 Notices of Violation were issued regarding investigations conducted.

The voluntary environmental self audit program resulted in the receipt, evaluation, and response for 586 notices of intent to audit and 270 disclosures of violation. Those who comply with the conditions of the Texas Environmental, Health, and Safety Audit Privilege Act may qualify for immunity from penalties if swift compliance is achieved.

Along with the agency's administrative and civil enforcement authorities, the TCEQ also partners with the Texas Environmental Enforcement Task Force to pursue criminal enforcement. The agency participated in eight search warrants and finalized 16 cases with

convictions against 19 individuals and five corporations. The finalized cases included 17 felony counts and 12 misdemeanor counts. These cases resulted in a total of \$746,000 for criminal fines, over 47 years of probation and deferred adjudication, 385 hours of community service, 12 months and one day of imprisonment and over \$92,000 in restitution.

**Comparative Analysis of Performance:** Most of the enforcement orders issued by the TCEQ were for the waste program (902 orders or 49%) and were the primary result of increased investigations at petroleum storage tank sites subject to the federal Energy Policy Act. Of the 1,869 regulated entities that were issued civil and administrative orders, 388 (21%) of the regulated entities had previous enforcement orders, and 284 (16%) had previous violations that were the same or similar.

The highest percentage of industry types with previous orders issued included Petroleum Refineries (16%), Plastic Material and Resin Manufacturing (14%), Water Supply and Irrigation Systems (14%), Petrochemical Manufacturing (9%), Wired Telecommunications Carriers (7%), All other Basic Organic Chemical Manufacturing (5%), and Gasoline Stations with Convenience Stores (4%).

The highest percentage of industry types for regulated entities with same or similar violations included in prior enforcement orders included Petroleum Refineries (32%), Organic Chemical Manufacturing (22%), Water Supply and Irrigation Systems (9%), Sewage Treatment Facilities (7%), Petrochemical Manufacturing (4%), Cyclic Crude and Intermediate Manufacturing (4%), Plastics Material and Resin Manufacturing (2%), Alkalies and Chlorine Manufacturing (2%), and Gasoline Stations with Convenience Stores (2%).

**Emissions Events:** The overall number of incidents reported decreased 6% from 4,469 in FY 2011 to 4,290 in FY 2012. The overall number of investigations conducted decreased from 1,622 in FY 2011 to 1,415 in FY 2012. The following Standard Industrial Classification (SIC) Code sectors reported the most incidents: 4922 (Natural Gas Transmission), 1321 (Natural Gas Liquids), 1311 (Crude Petroleum and Natural Gas), 2911 (Petroleum Refining), and 2869 (Industrial Organic Chemicals). The reported quantity of emissions from FY 2011 to FY 2012 increased 23% from 69,052,877 pounds to 84,603,345. Significant decreases were experienced in the Lubbock, Corpus Christi and Abilene regions. The Midland region saw the largest increase in emissions. The large increase in the Midland region was attributed to oil and gas production growth that outpaced expectations and exceeded the infrastructure capacity of the Permian Basin. Sulfur dioxide comprised the greatest quantity, 40.5 million pounds, of all the

contaminants reported. There was an overall increase in the amount of highly-reactive volatile organic compounds (HRVOCs) reported from 1,258,011 in FY 2011 to 2,806,402 in FY 2012.

**Aggregate Production Operations:** The TCEQ adopted new rules implementing HB 571, 82<sup>nd</sup> Legislative Session, 2011, on June 13, 2012, which are codified in 30 Texas Administrative Code Chapter 342. The new rules require commercial APOs to register with the TCEQ beginning September 1, 2012 (with a deadline of Oct. 30, 2012), renew registration annually, pay registration fees, and be inspected every three years.

**Results of Enforcement Actions:** Enforcement Orders resulted in more than 242 million pounds of pollutants eliminated, reduced, or the routes of exposure reduced, and an estimated cost of more than \$109 million that respondents will spend to achieve compliance. The estimated amount of pollutants reduced in FY2012 is significantly higher than in previous years because the Enforcement Division implemented increased quality assurance measures to ensure pollutant reduction information was captured in the database for applicable enforcement actions.

# The Environmental Toolbox

The TCEQ approaches enforcement as a tool among many available to protect the environment and people while addressing key environmental issues. The agency pursues strong and vigorous enforcement, used within an overall strategy for achieving maximum compliance. The TCEQ uses a broad range of tools to enable and require businesses and governments, large and small, to comply with environmental rules. These tools include on-site and off-site facility assistance, small business and local government assistance, general education events, regulatory workshops, publications and guidance documents, telephone hotlines, and the agency's expansive internet site, as well as traditional investigations and enforcement.

## Compliance Assistance Helps Communities Plan for Droughts

An example of how the TCEQ extends assistance to the regulated community during critical times is the extreme drought of 2011. Texas history shows that the 2011 drought was the most severe one-year drought ever recorded. The drought affected each corner of the state, even East Texas, which normally boasts healthy rainfall.

Responding to the urgent need for how to prepare for water shortages, the TCEQ and partner agencies reached out to local water systems to provide customized state assistance, giving local operators the specific help they needed.

Since January 2012, the TCEQ has conducted eight drought emergency-planning workshops across the state for local government officials, board members, and their water system operators. These workshops—conducted in Brownsville, Kerrville, New Braunfels, Liberty, Midland, Lubbock, Nacogdoches, and San Angelo—reached more than 550 attendees, and offered information and tools to prevent and mitigate water outages. Workshop participants also examined future drought scenarios to outline their step-by-step plans for finding alternative sources of water in the case of a drought emergency.

In addition, staffers placed special emphasis on technical support to high-priority water systems through a newly formed task force on emergency drinking water, assisting approximately 20 water systems.

Water system representatives found immediate assistance by calling the TCEQ's Drought Hotline, which was promoted through a variety of resources: letters to officials and operators, letters to water rights holders, printed materials at workshops, agency newsletters, the TCEQ's website, and the TCEQ's YouTube channel, <[YouTube/TCEQNews](#)>. Roughly 148 callers received assistance through the hotline.

## **Event Coordination and Education Activities**

The TCEQ also provides educational opportunities and technical assistance through coordinated workshops, seminars, and educational events, including an annual trade fair. During FY 2012, seven events provided technical information and assistance to roughly 5,020 attendees while another 10 events targeted specifically to small businesses and local governments drew an additional 612 attendees. These events focus on up-to-date information that ultimately helps the regulated community understand environmental rules and how to comply with those rules:

### **Educational Events**

- Environmental Trade Fair and Conference
- Dam Safety Workshop for Owners and Operators (three events)
- Water Quality/Stormwater Seminar
- Advanced Air Permitting Seminar/Oil & Gas Facilities Workshop
- 2012 Public Drinking Water Conference
- Drought Emergency Planning Workshops (eight events)
- Outdoor Burning Workshops (two events)

## **Assistance to Small Businesses and Local Governments**

The TCEQ annually reaches more than 61,500 Texas small businesses and local governments, keeping them informed about changes and trends in environmental regulations to help them comply. Staffers received and responded to approximately 4,950 requests for assistance from small business and local government customers, providing them information, direction, and encouragement to address environmental issues.

In addition, 164 small businesses or local governments received on-site compliance assessments. Of those sites, 107 demonstrated compliance and qualified to join the Compliance Commitment (C2) program. The C2 recipients correct all compliance deficiencies found during their site visits in exchange for an up to two-year exemption from routine TCEQ investigations. The U.S. Environmental Protection Agency and local enforcement programs in Corpus Christi, Dallas, El Paso, Ft. Worth, Galveston, Houston, Pasadena, Waco, Brazoria County, Fort Bend County, and Montgomery County, waive scheduled investigations for C2 recipients.

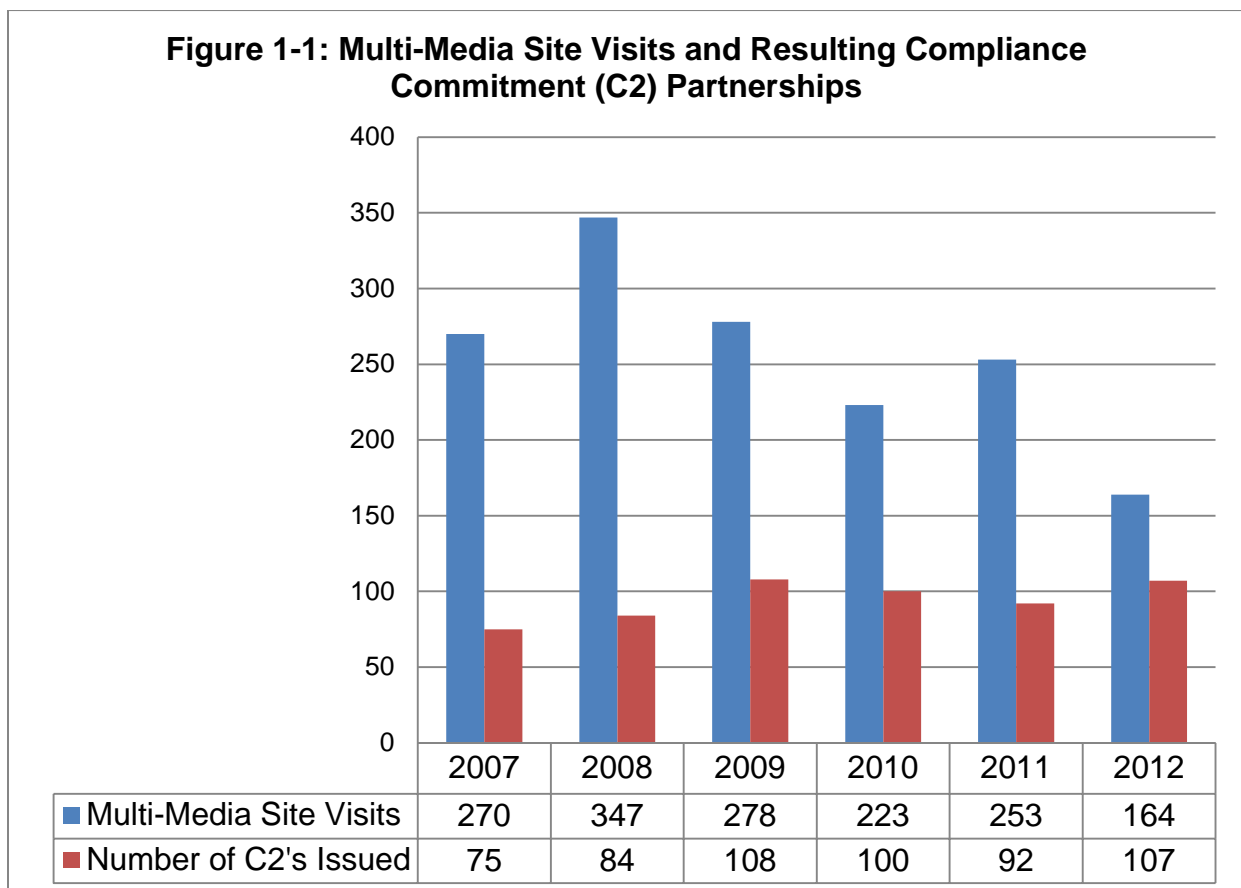

Another effort, the EnviroMentor program, matches participating small businesses and local governments with dedicated environmental professionals who volunteer their time and expertise to help these small entities achieve compliance. In FY 2012, this group tallied 1,644 volunteer hours, and helped 71 small businesses or governments.

Table 1-1 depicts assistance that focused on small businesses and local governments. Figure 1-2 graphically represents Multi-Media Site Visits (site visits to check compliance with all aspects of the environment—air, water, and waste) and resulting C2 recipients over the past six years.

**Table 1-1: Small Business and Local Government Assistance Activities**

| Table 1-1 Small Business and Local Government Assistance Activities |                        |                         |                       |
|---|------------------------|-------------------------|-----------------------|
| Fiscal Year   | Request for Assistance | Multi-Media Site Visits | Number of C2's Issued |
| 2007  | 7,150                  | 270                     | 75                    |
| 2008  | 7,700                  | 347                     | 84                    |
| 2009  | 6,900                  | 278                     | 108                   |
| 2010  | 6,500                  | 223                     | 100                   |
| 2011  | 6,200                  | 253                     | 92                    |
| 2012  | 4,950                  | 164                     | 107                   |

**Figure 1-1: Multi-Media Site Visits and Resulting Compliance Commitment Partnerships**

## **Investigations and Enforcement Policy**

Strong enforcement also means ensuring that enforcement measures are applied in an equitable manner. Equitable treatment requires that violators not come out ahead economically to the disadvantage of those entities that spend substantial amounts of money to comply with the law.

The TCEQ continues to implement the provisions of the enforcement penalty policy which was last revised in 2011. The cornerstone of this policy emphasizes compliance to protect our citizens from harm, coupled with swift, sure and firm enforcement for those who do not comply.

The TCEQ has the authority to levy penalties in 26 environmental program areas. As of September 1, 2011, penalties can be as much as \$25,000 per day, per violation for most administrative cases and \$25,000 per day, per violation for most civil judicial cases. There are some statutory provisions for certain regulated program activities that authorize different administrative and civil penalty amounts. Some examples of these unique situations include, but are not limited to:

- Limiting the statutory maximum to \$1,000 (levees and public water supply)
- Limiting the statutory maximum to \$5,000 (occupational licensees, on-site sewage disposal (OSSF), public water utilities, used oil and filters, and water rights)
- Application of a minimum penalty of \$2,500 and maximum penalty of \$25,000 per violation (unauthorized discharges from quarries)
- Application of a strict penalty of \$10,000 per day of violation (with an exception), rather than defining a maximum (rock crusher or concrete plants that perform wet batching, dry batching, or central mixing and are operating without a permit)
- Providing different maximum penalty amounts based upon the particular violation cited (dry cleaners)
- Some statutes provide for a particular penalty amount total per violation, rather than per day (dry cleaners, computer equipment manufacturers)

When determining the penalty amount, the TCEQ considers the nature, circumstances, extent, duration and gravity of the violation; the severity of impact to human health and the environment; compliance history; culpability; good faith efforts to comply; economic benefit; deterrence; and other factors as justice may require.

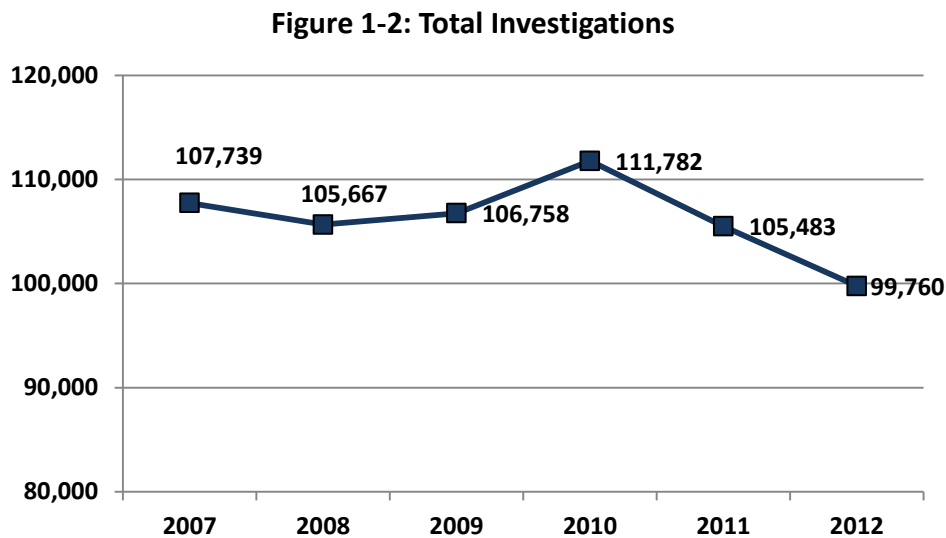

It is important to note that the TCEQ's enforcement activities tend to originate, not in Austin at the Commission's headquarters, but in Texas communities. Scientific, technical, and

environmental specialists in the agency's 16 regional offices are responsible for the vast majority of both investigations conducted and complaints investigated.

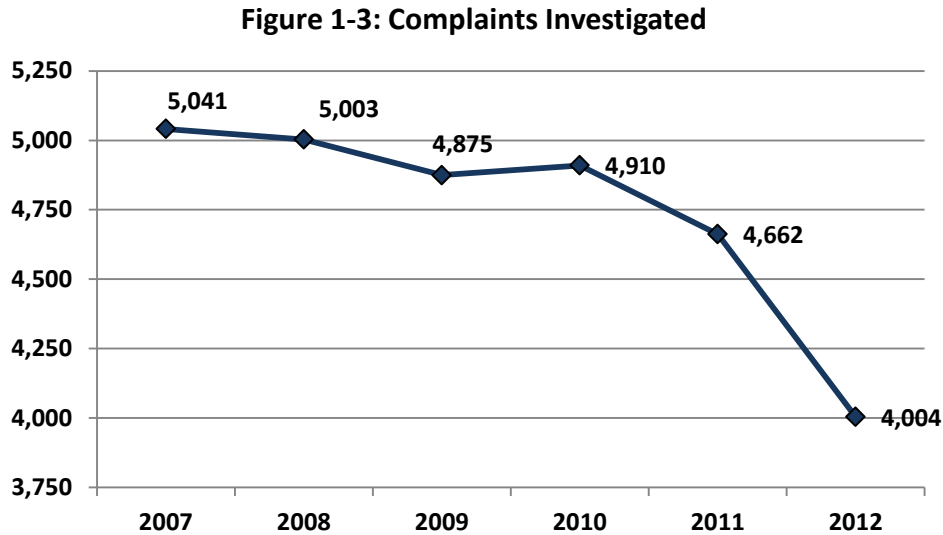

In FY 2012, the TCEQ conducted 99,760 investigations, as depicted in Figure 1-2, of which 61,750 were on-site investigations. The agency investigated 4,004 complaints in FY 2012 (see Figure 1-3). For details regarding investigations conducted over the past six years, see Tables T-1A through T-6 in the tables section of this report. For details regarding complaints investigated over the past six years, see Tables T-7 through T-12 in the tables section of this report.

Advance notification of routine compliance investigations ensures that proper personnel and records will be available at the time of the investigation. However, there are exceptions to advance notification, including those that are complaint related, enforcement follow-up investigations, and other scenarios that warrant an unannounced investigation. The agency provided advance notice for 6,968 distinct on-site investigations and conducted 37,146 unannounced investigations. Please note that the sum of these two numbers will not match the total number of on-site investigations conducted as investigations can include multiple activities, but only be announced once.

**Figure 1-2: Total Investigations**

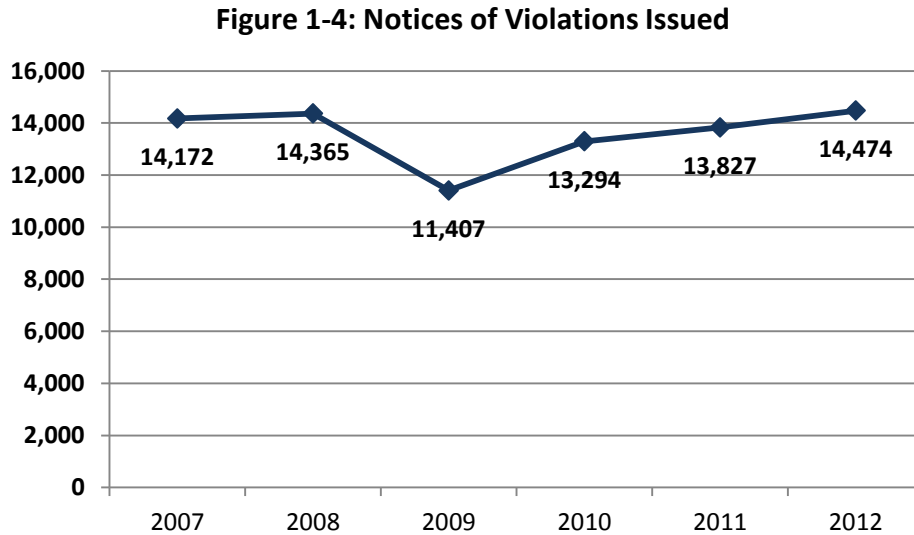

**Figure 1-3: Complaints Investigated**

The most common tool used in Texas to encourage compliance with environmental laws is the “Notice of Violation,” known as the “NOV.” An NOV is sent to an entity when it is determined that an environmental violation may have occurred. The NOV is a multi-purpose, flexible tool that is used thousands of times each year. In many cases it is enough to encourage compliance, thereby halting possible damage to the environment. In other cases it can be the first step in a process that ultimately can result in administrative enforcement, civil enforcement, and/or possible criminal charges for violation of environmental laws. As depicted in Figure 1-4 below, the TCEQ issued 14,474 NOV’s from both the region offices and the central office in FY 2012. Details regarding NOV’s issued are included in Tables T-13 through T-24 in the tables section of this report.

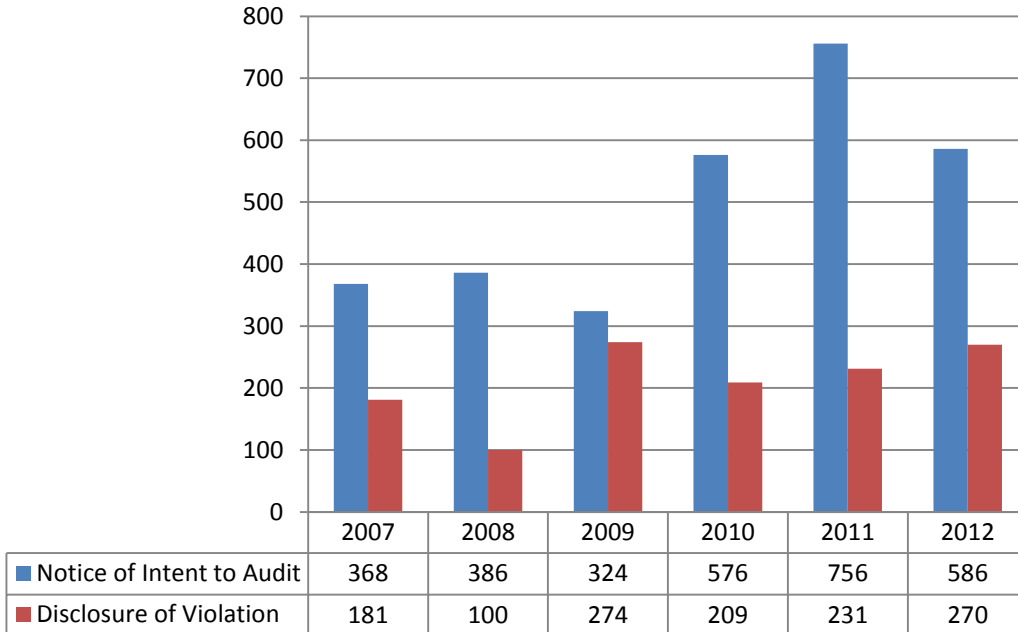

**Figure 1-4: Notices of Violation Issued**

The TCEQ’s traditional enforcement efforts have been enhanced by voluntary environmental self audits conducted at facilities under the Texas Environmental, Health, and Safety Audit Privilege Act (“Audit Act”). This legislation encourages businesses and governments subject to environmental regulation to perform comprehensive assessments of compliance with environmental laws, regulations, and permits for their own facilities. Organizations who participate in the Audit Act are required to notify the TCEQ of their intent to self-audit and then fully disclose and resolve violations resulting from the audit. The TCEQ ensures that all violations disclosed under this program are corrected, and, provided that certain conditions of the Audit Act are complied with, the participants in this program may not be subject to civil and administrative penalties. Figure 1-5 depicts a summary of the Notices of Audit and Disclosures of Violation that have been received by the TCEQ from Fiscal Year 2007 through FY 2012.

**Figure 1-5: Summary of Texas Environmental Health and Safety Audit Privilege Act Statistics**

**Figure 1-5: Summary of Texas Environmental Health and Safety Audit Privilege Act Statistics**

The success of TCEQ’s regulatory assistance and investigation/enforcement programs is revealed in the high percentages of compliance documented following investigations conducted by the TCEQ. Table 1-2 depicts the compliance rates of facilities inspected from Fiscal Years 2007 through 2012.

**Table 1-2: Percent of Facilities Inspected by the TCEQ in Compliance**

| Table 1-2: Percent of Facilities Inspected by the TCEQ in Compliance <sup>1</sup> |      |      |      |      |      |      |
|---|------|------|------|------|------|------|
|   | 2007 | 2008 | 2009 | 2010 | 2011 | 2012 |
| % of inspected air facilities in compliance                                       | 96%  | 95%  | 96%  | 97%  | 97%  | 97%  |
| % of inspected water facilities in compliance                                     | 99%  | 99%  | 99%  | 99%  | 99%  | 99%  |
| % of inspected waste facilities in compliance                                     | 96%  | 94%  | 94%  | 92%  | 93%  | 90%  |

<sup>1</sup> Compliance indicates that enforcement orders, referrals to another agency (Office of the Attorney General, Railroad Commission, etc.) or program (Superfund or criminal investigations, etc.) or compliance agreements were not required following an investigation. Some minor violations may have been noted in the investigations; however, they were corrected within a reasonable period of time, and therefore did not require further enforcement.

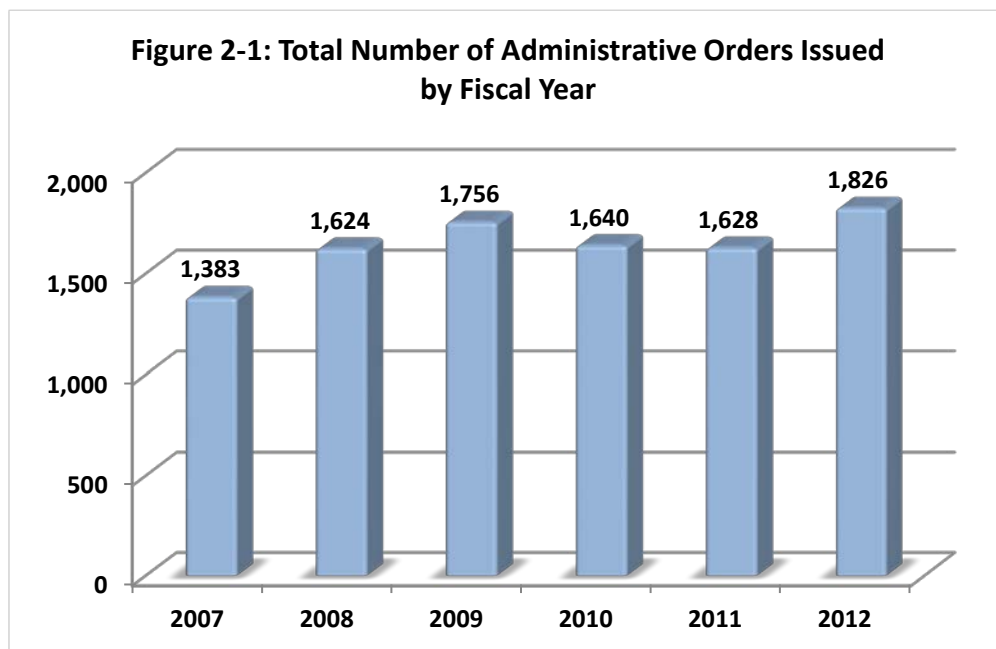

## Dollars and Sense

Some of the most familiar indicators for the enforcement activities of a regulatory agency are dollars and cents: How much money did the agency order to be paid in fines? While familiar, this is not necessarily an indication that the agency has been successful. The number of administrative orders issued by the TCEQ varies each year and is dependent upon the violator's willingness to settle a case. If a violator refuses to settle a case, and requests a hearing, the TCEQ must try the case through the administrative hearing process. This is a complex legal process that is similar to trying a case in court and often results in significantly delaying issuance of final orders to allow due process of law.

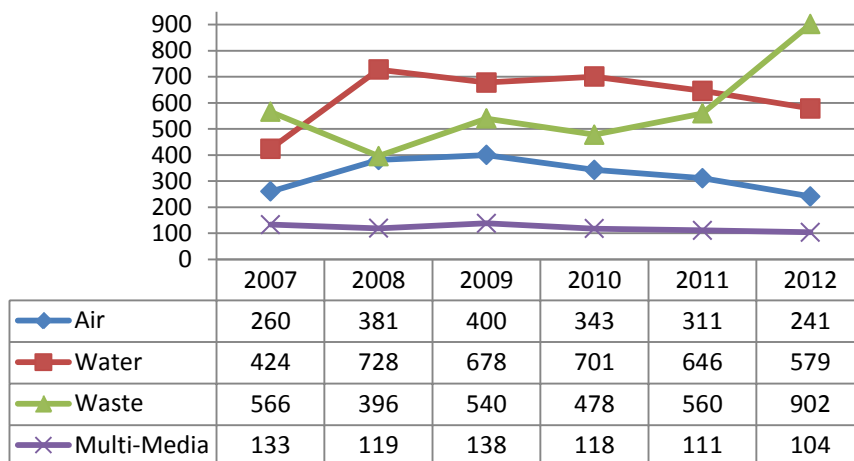

The TCEQ issued 1,826 administrative orders in FY 2012 (see Figure 2-1). The number of enforcement cases issued by the TCEQ has increased over the years due to improvements in efficiencies related to processing enforcement cases, a focused effort to reduce the backlog of cases in 2008 and 2009, and increased enforcement activity in the petroleum storage tank (PST) program beginning in FY 2011.

**Figure 2-1: Total Number of Administrative Orders Issued by Fiscal year**

**Figure 2-2: Number of Administrative Orders Issued by Media and Fiscal Year**

**Figure 2-2: Number of Administrative Orders Issued by Media and Fiscal Year**

The trend in how issued orders break down by media is dependent mostly on the types of initiatives that are being conducted in the region offices. Over the past six years the initiatives have been in different media. For example in the water media, in Fiscal Year 2010, the agency conducted an initiative targeted at water treatment plants and drinking water systems to ensure that these facilities have emergency generators for a backup power source.

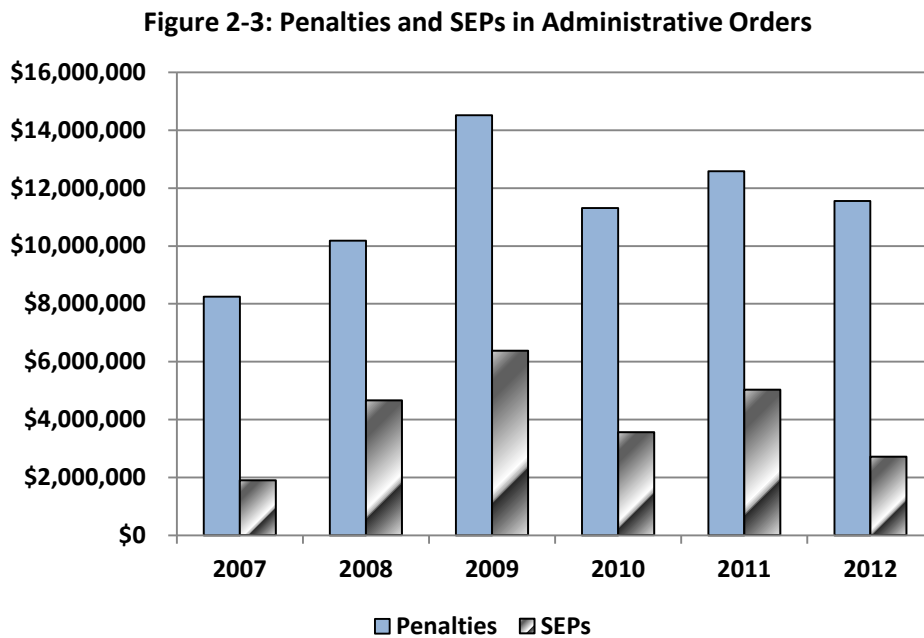

The number of waste orders increased significantly from Fiscal Year 2008 to 2009 which can be attributed mostly to the efforts in the Litigation Division to clear backlogged PST enforcement cases in Fiscal Year 2009. These numbers continue to rise due to an increase in enforcement activity in the PST program as a result of the Federal Energy Policy Act of 2005. This federal law requires that each underground storage tank be investigated every three years. It is anticipated that the number of waste-focused administrative orders will continue to stay at or above the current level in the coming years.

The 1,826 administrative orders issued in FY 2012 required payments of \$11,436,256 in penalties and an additional \$2,586,858 was required to be paid for SEPs. In addition, there were two administrative orders for which stipulated penalties were collected during FY 2012. These orders contain provisions that require payment of stipulated penalty amounts for specified future violations for the duration of the order. During FY 2012, equal amounts were paid in penalties and SEPs (\$124,250 each for a total of \$248,500) for these two orders. Table 2-1 and Figure 2-3 display the penalty and SEP amounts for the past six years.

**Table 2-1: Summary of Administrative Penalty Amounts and SEPs by Fiscal Year**

| <b>Table 2-1: Summary of Administrative Penalty Amounts and SEPs by Fiscal Year</b> |                                      |                  |                                   |
|---|--------------------------------------|------------------|-----------------------------------|
| <b>Fiscal Year</b>  | <b>Penalties Required to be Paid</b> | <b>SEP Costs</b> | <b>Number of Orders with SEPs</b> |
| 2007  | \$8,245,706                          | \$1,895,103      | 149                               |
| 2008  | \$10,180,835                         | \$4,659,119      | 297                               |
| 2009  | \$14,524,544                         | \$6,375,212      | 282                               |
| 2010  | \$11,309,521                         | \$3,558,484      | 219                               |
| 2011  | \$12,582,418                         | \$5,028,126      | 222                               |
| 2012  | \$11,560,506                         | \$2,711,108      | 146                               |

**Figure 2-3: Penalties and SEPs in Administrative Orders**

SEPs are projects ordered by the Commission to benefit the local Texas communities where environmental laws have been broken. Violators are allowed to put the penalty dollars to work to benefit the environment in the community affected by the violations, rather than paying the penalty to the State’s General Revenue Fund. SEP projects that have been approved include the following:

- cleanups of abandoned illegal dump sites,
- community household hazardous waste and tire collections,
- funding for air quality monitoring networks,

- wetlands and habitat restoration,
- establishment of nature preserves,
- erosion control,
- placement of ozone air monitoring equipment in schools and local communities,
- funding to install on-site wastewater treatment facilities or to pay for hooking households up to municipal sewer lines for low-income households,
- funding for retrofitting of diesel buses to “clean-technology” for school districts,
- purchasing alternative fueled equipment to replace diesel and gasoline powered equipment, and
- cleanup of bays and watersheds.

For more information regarding the number of orders issued, programmatic information, and a listing of each of the administrative orders issued by program, see Tables T-25 through T-30 in the tables section of this report, and Appendices 1-12.

If administrative orders and penalties issued by the TCEQ do not achieve environmental compliance, the agency may pursue compliance through the Texas Attorney General’s Office (AG) in court. Additionally, there are some cases with such significant violations that the TCEQ refers to the Attorney General’s Office immediately rather than pursue administrative remedies. During FY 2012, the AG’s office obtained 48 judicial orders in cases referred from the TCEQ or in which the TCEQ was a necessary and indispensable party. These 48 orders resulted in \$57,499,142 in penalties and an additional \$121,500 to be dedicated to SEPs. The increase in penalties from judicial orders is primarily due to one court order that became effective in FY 2012. Table 2-2 is a summary of the judicial orders that have been issued for the past six years.

**Table 2-2: Summary of Civil Judicial Order Penalty Amounts and SEPs by Fiscal Year**

| <b>Table 2-2: Summary of Civil Judicial Order Penalty Amounts and SEPs by Fiscal Year</b> |  |  |                  |
|---|--|--|------------------|
| <b>Fiscal Year</b>  | <b>Number of Civil Judicial Orders</b> | <b>Civil Penalties Required to be Paid</b> | <b>SEP Costs</b> |
| 2007  | 33                                     | \$1,858,127                                | \$86,000         |
| 2008  | 22                                     | \$1,100,554                                | \$100,000        |
| 2009  | 29                                     | \$10,030,845                               | \$1,125,000      |
| 2010  | 27                                     | \$2,116,960                                | \$1,345,000      |
| 2011  | 29                                     | \$4,377,664                                | \$115,000        |
| 2012  | 48                                     | \$57,499,142                               | \$121,500        |

For more information regarding the number of judicial orders issued, programmatic information, and a listing of each of the judicial orders issued by program, see Tables T-31 through T-36 in the tables section of this report and Appendices 13-18.

A strong enforcement program, combined with a strong regulatory assistance program, ensures that the public and environment receive the benefits of the promises embodied in environmental statutes, regulations, and permits.

# The Criminal Element

## Texas Environmental Enforcement Task Force (the “Task Force”)

Texas is a leader and national model in the investigation and prosecution of environmental crime. Created in 1991, the Task Force has included participants from more than 25 local, state, and federal agencies. The TCEQ and particularly the Environmental Crimes Unit play a key investigative role and head the task force. Members of the Task Force include the Texas Commission on Environmental Quality, the Governor’s Office, the Texas Parks and Wildlife Department, the Texas Attorney General’s Office, the Texas Railroad Commission, and the General Land Office. These agencies coordinate activities with the U.S. Environmental Protection Agency’s Criminal Investigation Division, the U.S. Attorney’s Office, the FBI, and local district and county attorneys. Numerous other federal, state, and local agencies also participate in Task Force investigations. The TCEQ Environmental Crimes Unit with assistance from other members of the Task Force also conducts environmental crimes enforcement training for local law enforcement officers.

## Criminal Investigations

The agency participated in eight search warrants and finalized 16 cases with convictions against 19 individuals and five corporations (see Table 3-1). The finalized cases included 17 felony counts and 12 misdemeanor counts. These cases resulted in a total of \$746,000 for criminal fines, over 47 years of probation and deferred adjudication, 385 hours of community service, 12 months and one day of imprisonment and over \$92,000 in restitution.

**Table 3-1: Summary of Criminal Investigation Information by Fiscal Year**

| <b>Table 3-1: Summary of Criminal Investigation Information by Fiscal Year</b> |                                  |   |  |   |                                    |                                |                                     |
|--|----------------------------------|---|--|---|------------------------------------|--------------------------------|-------------------------------------|
| <b>Fiscal Year</b>   | <b>Number of Search Warrants</b> | <b>Number of Cases Resulting in Convictions</b> | <b>Number of Convictions Against Individuals</b> | <b>Number of Convictions Against Corporations</b> | <b>Total Number of Convictions</b> | <b>Number of Felony Counts</b> | <b>Number of Misdemeanor Counts</b> |

## Comparative Analysis of Performance

As indicated in the introduction to this report, the 77th Legislature added additional requirements to the Annual Enforcement Report, which were codified in TEX. WATER CODE §5.756. The new requirements expanded the comparison by adding a comparative analysis of data evaluating the performance, over time, of the Commission and of entities regulated by the Commission. This section of the report addresses the comparison of entities regulated by the Commission. An analysis has been performed on the types of businesses for all of the orders issued, orders issued to regulated entities with prior orders, orders issued to regulated entities with the same or similar violations, the violations included in the orders (including classification of the severity of the violations), and the size of businesses or municipalities that had orders issued during the Fiscal Year.

In FY 2012, the TCEQ issued 1,826 Administrative Orders and assisted the Texas Attorney General's Office in issuing 48 Civil Judicial Orders. Figure 4-1 displays the percentage of Orders issued during FY 2012 by media type (air, water, waste, and multi-media).

**Figure 4-1: Percent of Orders Issued by Media Type**

Figure 4-1: Percent of Orders Issued by Media Type

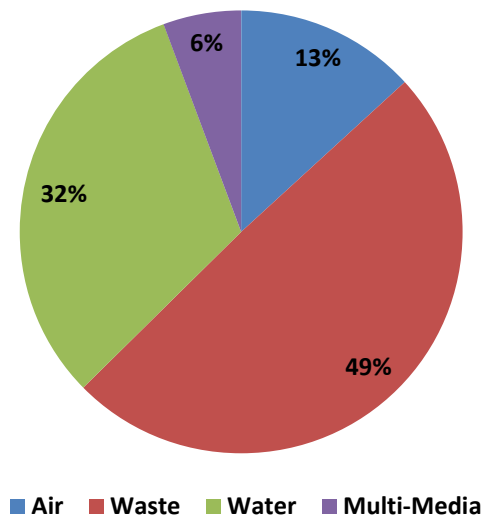

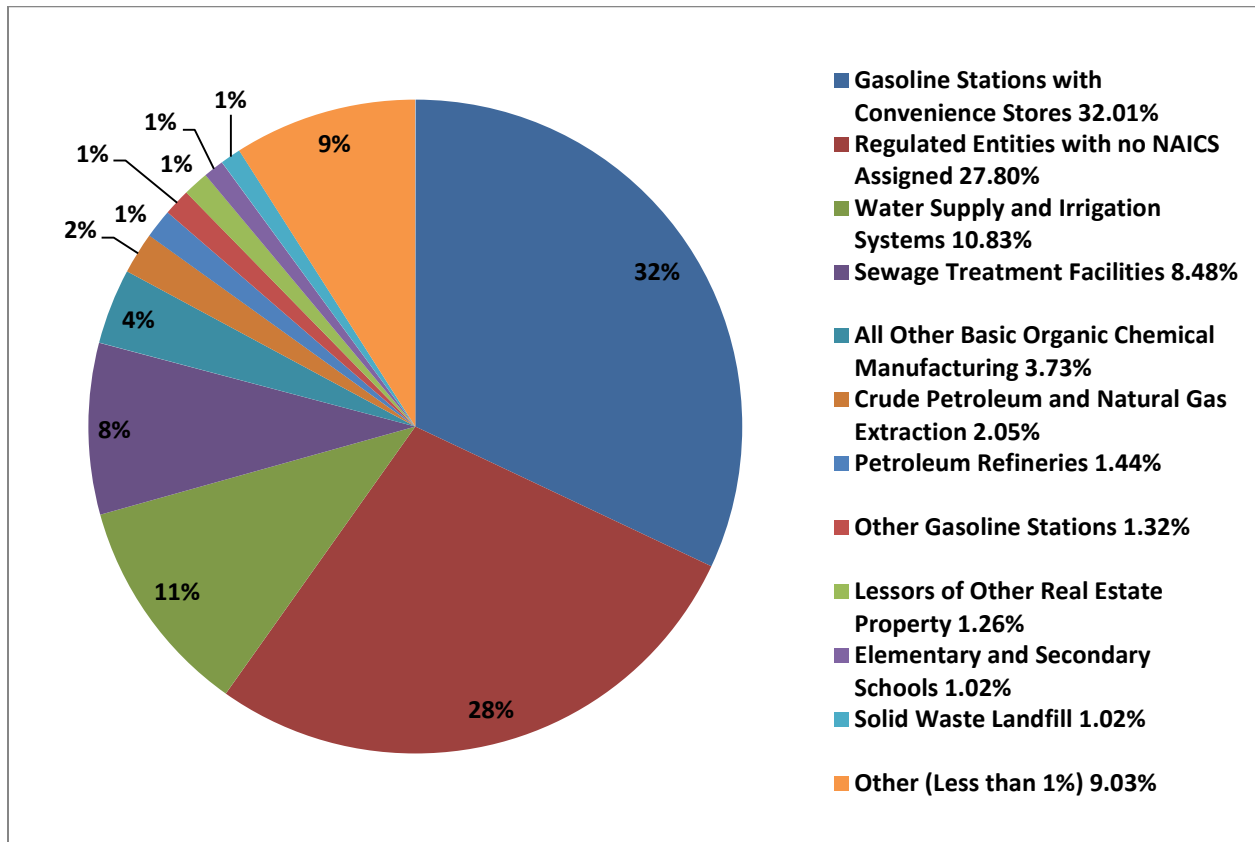

Figure 4-2 depicts the percent of regulated entities with orders issued for FY 2012 based upon the North American Industry Classification System (NAICS). The highest percentages of regulated entities with enforcement orders (both administrative and judicial) for FY 2012 were Gasoline Stations with Convenience Stores, Water Supply and Irrigation Systems, Sewage Treatment Facilities, All Other Basic Organic Chemical Manufacturing, and Crude Petroleum and Natural Gas Extraction (see Figure 4-2). Nine percent of the regulated entities with orders issued represented NAICS categories of less than one percent and 28% of the regulated entities could not be classified by NAICS due to insufficient data.

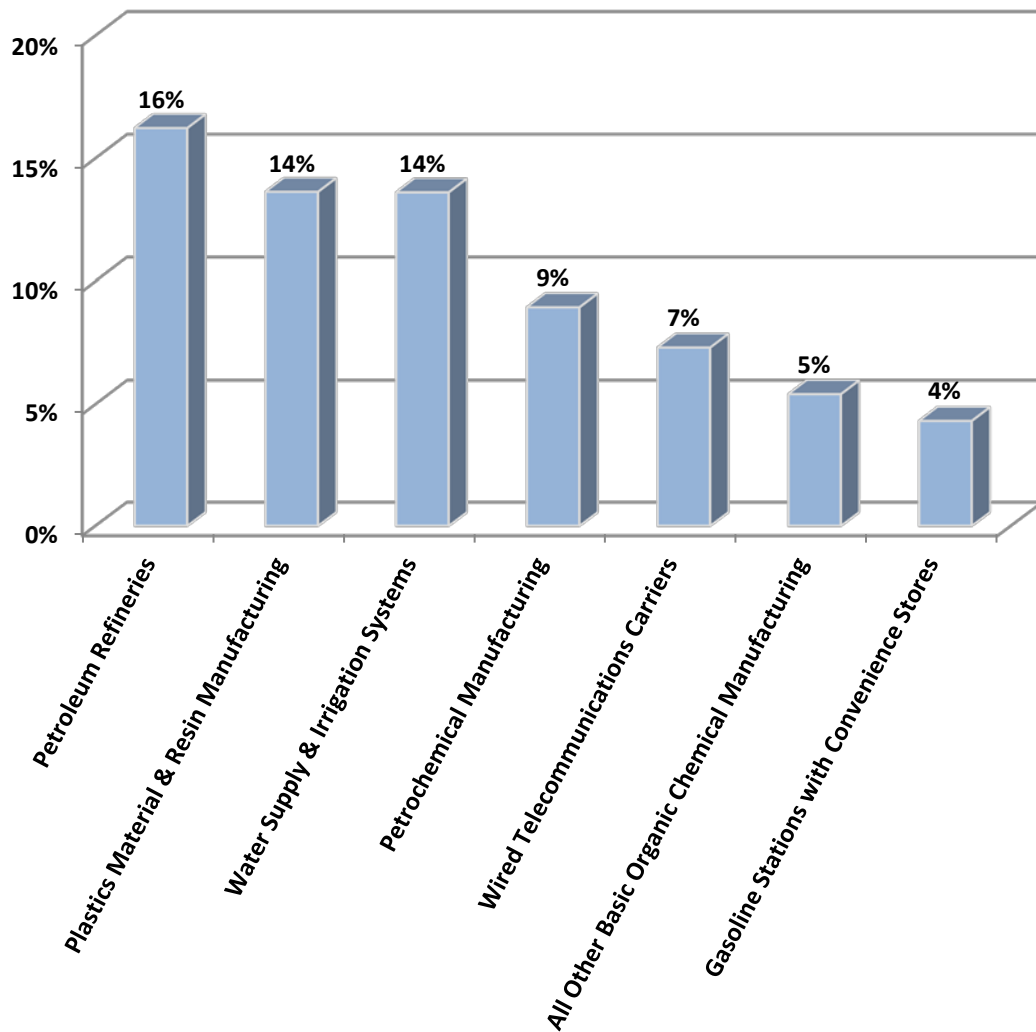

**Figure 4-2: Percent of Industry Types with Orders Issued**

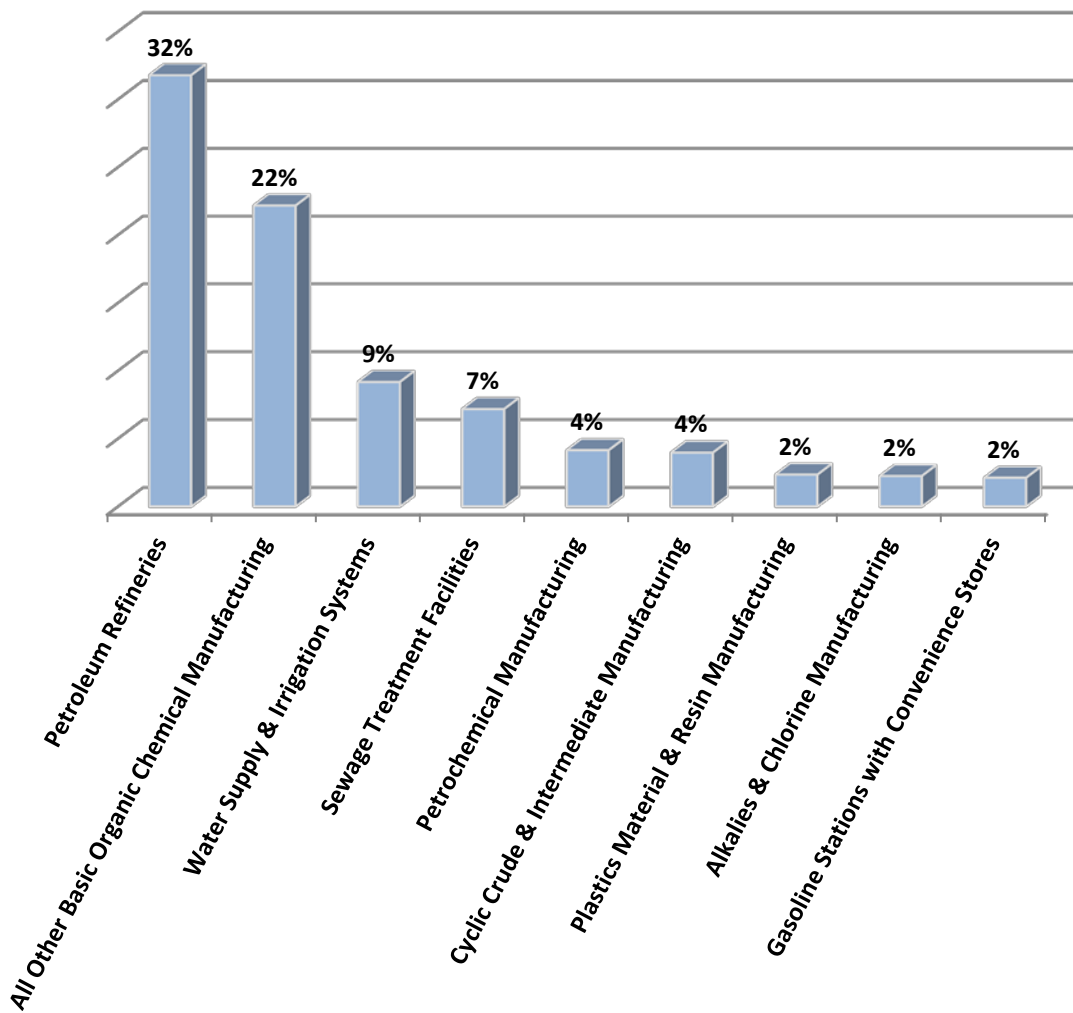

Of the 1,869 regulated entities that were issued civil and administrative orders, 388 (21%) of the regulated entities had previous enforcement orders, and 284 (16%) had previous violations that were the same or similar. The highest percentage of industry types with previous orders issued included Petroleum Refineries, Plastic Material and Resin Manufacturing, Water Supply and Irrigation Systems, Petrochemical Manufacturing, Wired Telecommunications Carriers, All other Basic Organic Chemical Manufacturing, and Gasoline Stations with Convenience Stores (see Figure 4-3).

**Figure 4-3: Percent of Industry Types with Previous Orders**

The highest percentage of industry types for regulated entities with same or similar violations included in prior enforcement orders included Petroleum Refineries, Organic Chemical Manufacturing, Water Supply and Irrigation Systems, Sewage Treatment Facilities, Petrochemical Manufacturing, Cyclic Crude and Intermediate Manufacturing, and Plastics Material and Resin Manufacturing, Alkalies and Chlorine Manufacturing, and Gasoline Stations with Convenience Stores (see Figure 4-4).

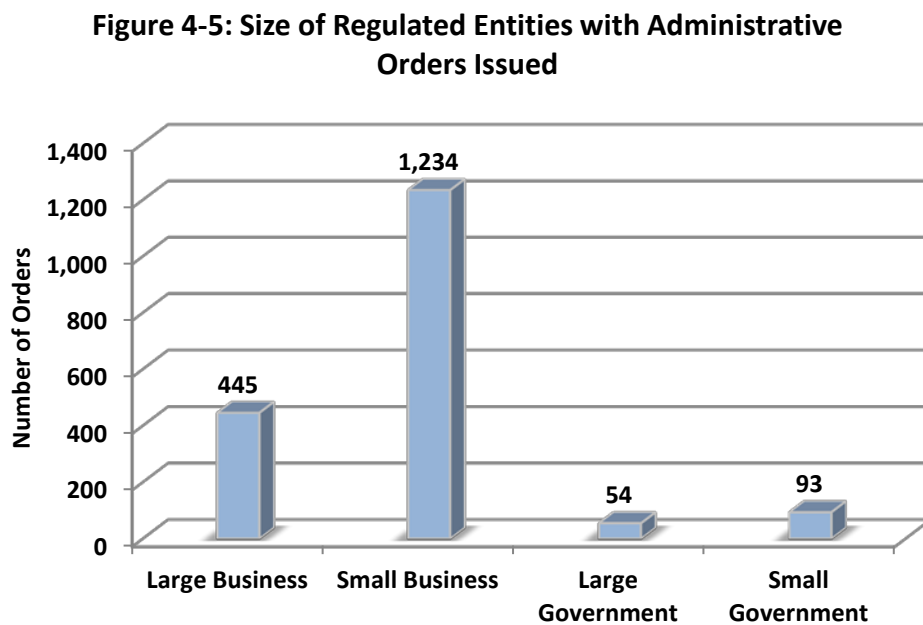

**Figure 4-4: Percent of Industry Types with Same or Similar Violations**

Administrative Orders address regulated entities of varying sizes. Of those orders issued in FY 2012, small businesses received 68% of the orders issued, 24% were issued to large businesses, 3% were issued to large governments, and 5% were issued to small governments. Figure 4-5 depicts the breakdown of the size of business or local government with orders issued during the year.

A small business is defined as any person, firm, or business that employs fewer than 100 full-time employees. A small government is defined as a city with a population of less than 5,000 or a county with a population of less than 25,000.

**Figure 4-5: Size of Regulated Entities with Administrative Orders Issued**

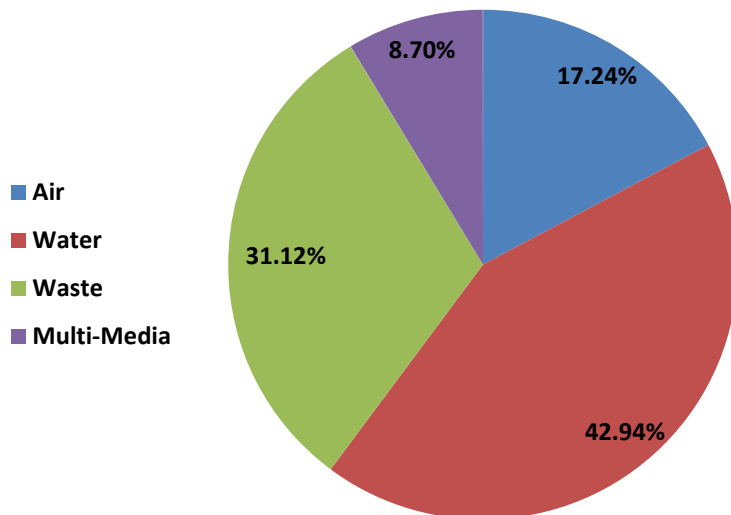

Of the 1,874 Orders issued (Civil and Administrative) in FY 2012, there were 5,962 violations alleged with 11,002 citations of rules, statutes, permits, or orders. Of all of the citations documented, 86% were for violations of rules or statutes, 12% were for violations of permit provisions, and 2% was for violations of orders issued. Table 4-1 lists the highest percentage of rule or statutory citations included in orders issued in FY 2012. Figure 4-6 depicts the most frequently cited rules or statutes by Media Type.

**Table 4-1: Percent of Citations in Orders Issued**

Figure 4-6: Percent of Most Frequently Cited Rules or Statutes by Media Types

Note: The chart above only includes an analysis of the data included in Table 4-1 and does not include information on the citations that were of less than 1% frequency.

House Bill (HB) 2912, 77th Legislative Session, 2001, required the Commission to "develop a uniform standard for evaluating compliance history." This legislation placed additional requirements on the TCEQ to track and consider the compliance history of businesses and industries when issuing permits, assessing penalties, considering whether to conduct unannounced investigations, and deciding whether a regulated entity can participate in innovative environmental programs.

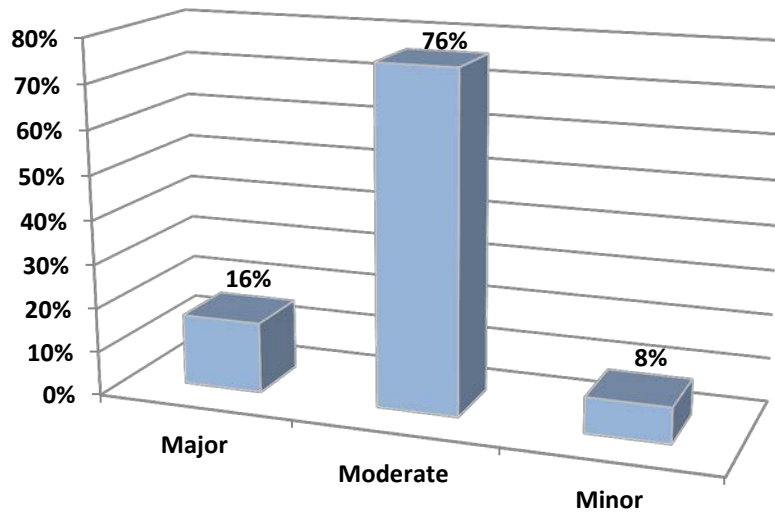

Regulated entities are classified according to a three-tiered rating system. "High" performers are those with an above-average compliance record. "Average" performers have generally complied with environmental regulations, and "poor" performers have a below-average record. By law, poor performers cannot receive or renew a flexible permit nor use a wastewater general permit. They also are not allowed to participate in innovative programs or to receive notices of scheduled compliance investigations.

The program sets up a point system for various violations, criminal convictions, and federal orders. These points may be offset by mitigating factors, such as implementation of a voluntary pollution-reduction program or voluntary disclosure of violations. The point system is based on several factors, including whether a documented violation of an applicable legal requirement is of major, moderate, or minor significance. The Commission's rationale for categorizing the

violations as either major, moderate, or minor, is based on its experience in evaluating the severity of various violations and their impacts, or potential impacts, to human health and the environment.

Figure 4-7 depicts the percentage of major, moderate and minor violations included in Orders issued in FY 2012. The highest percentages of violations were of moderate severity.

**Figure 4-7: Severity of Violations Included in Orders Issued**

HB 2694, 82<sup>nd</sup> Legislature, 2011, required the Commission to make changes to the compliance history rule. In 2012, the TCEQ adopted revisions to 30 Texas Administrative Code Chapter 60 (Compliance History) to implement the changes required by HB 2694. These revisions allow the Commission to use new standards instead of the existing uniform standard for evaluating and using compliance history. In addition, the adopted rule modifies the components and formula of compliance history in order to provide a more accurate measure of regulated entities' performance and make compliance history a more effective regulatory tool. These changes will be reflected in compliance history information for FY 2013.

# Assessment of Emissions Events

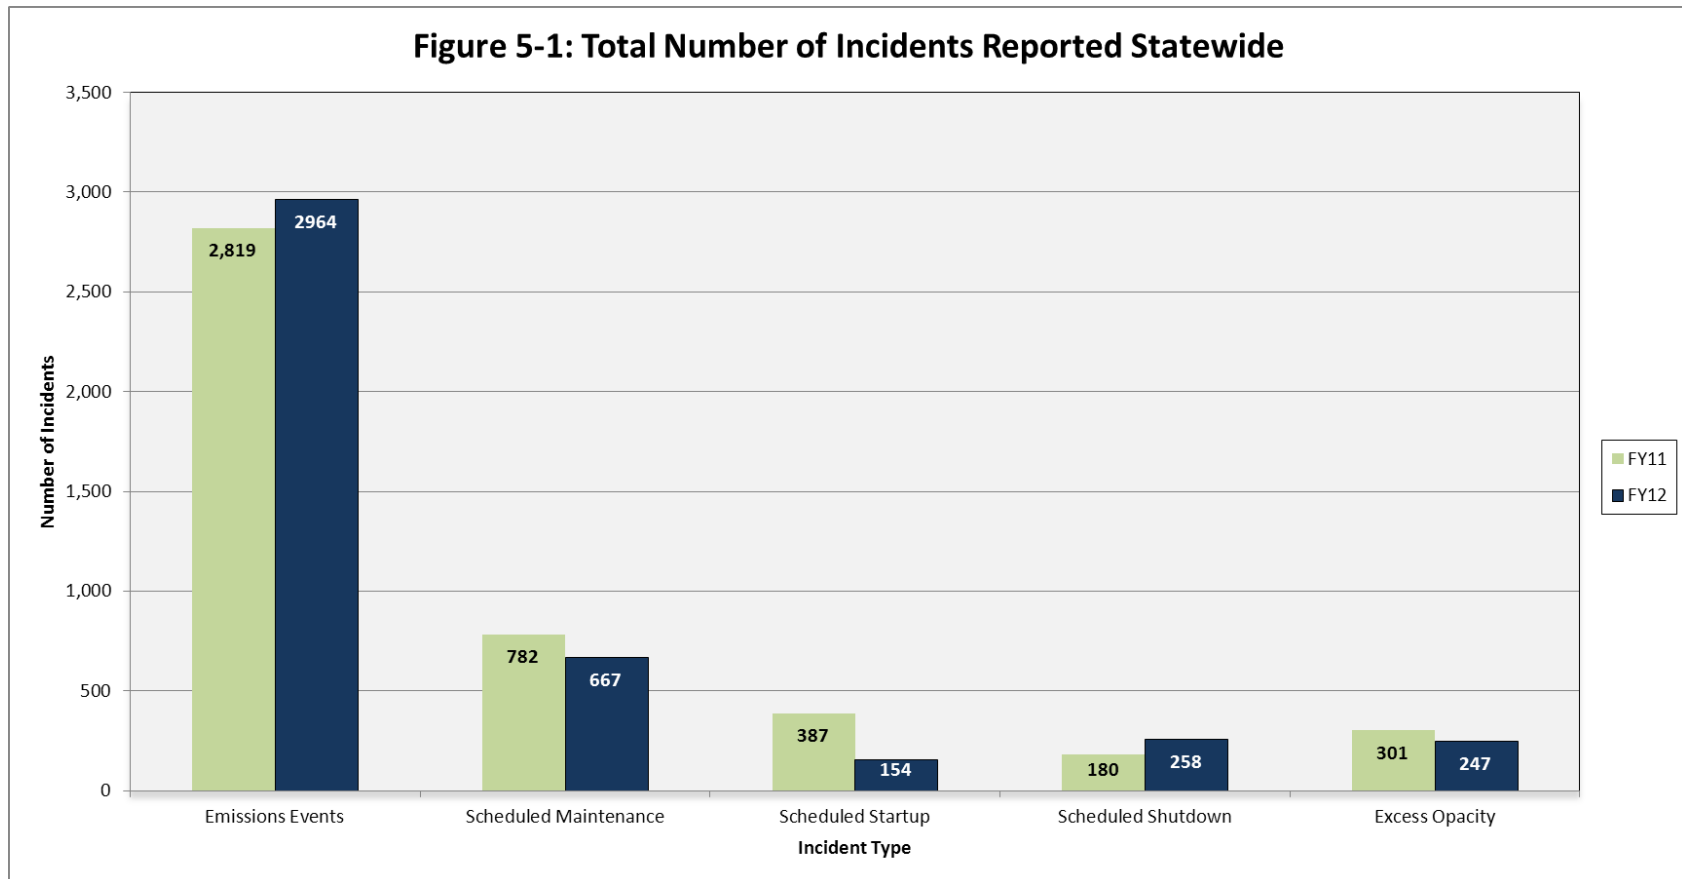

## Background

Subchapter F of 30 Texas Administrative Code (TAC), Chapter 101 (relating to Emissions Events and Scheduled Maintenance, Startup, and Shutdown Activities) contains the regulatory requirements relating to emissions events, opacity events, and scheduled maintenance, startup, and shutdown activities. The rule also incorporates the statutory requirements of Texas Health & Safety Code §§382.0215 and 382.0216. For clarification, emissions events are upset events or unscheduled maintenance, startup, or shutdown activities, from a common cause that results in unauthorized emissions of air contaminants. On the other hand, scheduled maintenance, startup, or shutdown activities are those activities performed by the regulated entity owner or operator that require prior notice and a final report per the TCEQ rules.

## Reported Incidents

The overall number of incidents reported under 30 TAC Chapter 101, Subchapter F decreased slightly from 4,469 in FY 2011 to 4,290 in FY 2012, a 4% decrease. See Table 5-1 below for the complete set of data by TCEQ region related to the total number of reported incidents for FY 2012.

## Total Quantity of Emissions

The reported quantity of emissions from FY 2011 to FY 2012 increased from 69,052,877 pounds to 84,603,345, which is a 23% increase. Significant decreases were experienced in the Lubbock, Corpus Christi, and Abilene regions. The Midland region saw a large increase in emissions. The large increase in the Midland region was attributed to oil and gas production growth that outpaced expectations and exceeded the infrastructure capacity of the Permian Basin. Other regions with a significant increase in emissions include Beaumont and Tyler. See Table 5-3 below for the complete set of data related to pounds of contaminants emitted from regulated entities in each TCEQ region for FY 2012. ## Top Contributing Air Contaminants

Sulfur dioxide comprised the greatest quantity, 40.5 million pounds, of all the contaminants reported under 30 TAC Chapter 101, Subchapter F for FY2012. For this discussion, the term HRVOCs is used to describe the following groups of contaminants:

Butadienes, Butenes, Ethylene, and Propylene. There was an overall increase in the amount of HRVOCs reported from 1,258,011 in FY 2011 to 2,806,402 in FY 2012. See Table 5-4 below for the complete set of data related to the major contaminants released and reported in FY 2012.

**Please note the quantities of emissions are rounded to the nearest pound. The HRVOC total is also a component of the VOC total.**

## Quantity of Contaminants by SIC Code

The top source category for reported contaminants in FY 2012 was SIC Code 4922 (Natural Gas Transmission) at 22,704,308 pounds, which is 31% of the total air contaminants reported. The second largest quantity of reported contaminants was from SIC Code 1321 (Natural Gas Liquids) at 19,963,289 pounds, and was 28% of the total air contaminants reported. SIC Code 1311 (Crude Petroleum and Natural Gas) reported the third highest quantity at 17,965,429 pounds, and 25% of the total air contaminants reported. See Table 5-5 below for the complete set of data related to contaminants reported by SIC Code for FY 2012.

Please note the quantities of emissions are rounded to the nearest pound.

## Incidents Investigated

The number of investigations conducted under 30 TAC Chapter 101 decreased from 1,622 in FY 2011 to 1,414 in FY 2012. The number of Notices of Violation (NOVs) increased slightly from 115 in FY 2011 to 120 in FY 2012, and the number of Notices of Enforcement (NOEs) decreased from 97 in FY 2011 to 85 in FY 2012. See Table 5-6 below for the complete set of data related to investigations, NOVs, and NOEs in response to Scheduled Maintenance, Scheduled Shutdown, Scheduled Startup, Emissions Events, and Opacity for FY 2012.

**Figure 5-5: Incidents Investigated**

## Emissions Events Investigations by Region

The total number of Emissions Event (EE) Investigations decreased from 1,019 in FY 2011 to 986 in FY 2012. Some examples of investigations completed in response to reported EEs are as follows: The Midland region conducted 445 investigations in response to receiving 1,510 EE incident reports. The Houston region conducted 162 investigations in response to receiving 308 EE incident reports. The Beaumont region conducted 80 investigations in response to receiving 245 EE incident reports. See Tables 5-7 and 5-8 below for the complete set of FY 2012 data related to EE incidents reported and EE Investigations, respectively.

| <b>REGION 15 - HARLINGEN</b>   | <b>2</b>                 |
| <b>Total</b>   | <b>986</b>               |

Please note that every incident reported to the agency is reviewed by TCEQ staff. On some occasions multiple reported incidents may be included into one investigation. On other occasions the reported incident may not require additional investigation. Additionally, the EE investigation number reported here is a distinct count of emissions events investigations completed and does not relate to the Legislative Budget Board performance measure which reflects each instance when a review of records and/or operations was evaluated.

## Excessive Emissions Events

The number of Excessive Emissions Events determinations increased from 4 in FY 2011 to 6 in FY 2012. The number of approved Corrective Action Plans (CAP) decreased from 6 in FY 2011 to 4 in FY 2012. The difference in Excessive Emissions Events Determinations and CAPS is due to crossing the fiscal year date. See Table 5-9 below for the complete set of data. Regulated entities are required to file a CAP within 60 days after receiving notification that an emissions event was deemed excessive. A CAP must identify four things: the cause or causes of the excessive emissions event (including all contributing factors that led to the emissions event); the control devices or other measures that are reasonably designed to prevent or minimize similar emissions events in the future; operational changes the owner or operator will take to prevent or minimize similar emissions events in the future; and time frames within which the owner or operator will implement the components of the CAP.

**Figure 5-7: Excessive Determinations and Corrective Action Plans**

## Aggregate Production Operations

As a result of House Bill 571 (HB 571), the 82nd Legislative Session added a requirement in Tex. Water Code Chapter 28A for the registration and investigation of certain aggregate production operations (APOs). The law requires the Commission to conduct a physical survey of the state to identify all active APOs in the state and to ensure each active APO is registered. The law also requires the Commission to report the results of the survey, the number and general location of the registered APOs, the number of inspectors trained in multiple areas related to the investigations, the number of investigations conducted, and the results of the investigations.

Aggregates are materials used in construction, including sand, gravel, crushed and broken limestone, crushed and broken granite, dirt, soil, or caliche. The TCEQ adopted new rules implementing HB 571 on June 13, 2012. Those rules are codified in 30 TAC Chapter 342.

Exemptions from the requirements of the APO rules can be found in 30 TAC Chapter 342.1(1)(E).

The new rules require commercial APOs to:

- register with the TCEQ beginning September 1, 2012 (with a deadline of Oct. 30, 2012), and renew registration annually;
- pay registration fees; and
- be inspected every three years.

APOs that submit a Notice of Audit to conduct a self-audit under the Texas Environmental, Health, and Safety Audit Privilege Act (Audit Act) with their initial registration may postpone TCEQ inspection requirements until September 1, 2015.

In 2012, after consultation with a stakeholder group, a graduated fee structure was developed. The fee structure will be re-evaluated each year. Survey, registration, and compliance information has been sent to entities listed in the Water Quality Permits database, U.S. Geological Survey mining activities, the Texas Department of Transportation's Aggregate Quarry and Pit certification program, and the Mine Safety and Health Administration program. Information regarding the APO requirements has been incorporated in the TCEQ publications "News You Can Use" and "The Advocate". Information has also been provided to the Texas Aggregates and Concrete Association to provide to their members. Several stakeholder meetings were held prior to rule adoption.

The Small Business and Environmental Assistance Division developed guidelines for assisting those eligible APOs that are not able to perform self-audit evaluations to participate in the Compliance Commitment Site Visit Program.

After the initial registration period ends, staff will begin to conduct surveys and investigations of APO facilities.

## Results of Enforcement Actions

Since Fiscal Year 1998, the TCEQ has been compiling statistical information regarding the results of enforcement actions taken by the TCEQ and through cases referred to the Attorney General's Office. Once administrative or judicial orders are finalized, the Enforcement Division staff review each case and determine if the enforcement action had an impact or potential impact on public health and the environment. Staff also document some of the actions required to achieve compliance, including an estimate of the cost of compliance to the violators. This statistical data indicates that as a result of administrative and judicial orders in FY 2012, alleged violators spent more than \$109 million to correct violations and take steps necessary to protect the environment. Figure 7-1 illustrates the positive impact enforcement orders have on human health and the environment.

**Figure 7-1: Impact Analysis of Administrative and Civil Judicial Orders**

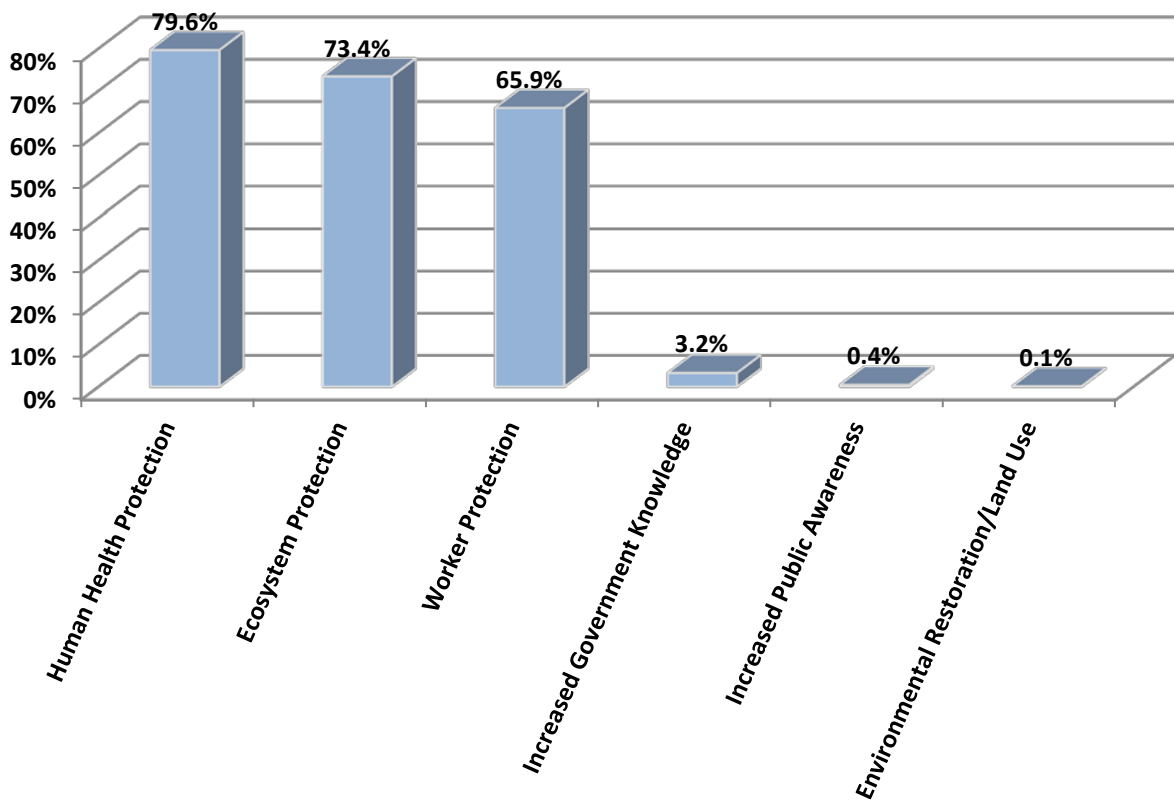

Figure 7-2 depicts the number of enforcement orders that resulted in the following: reduction of the use of hazardous chemicals; industrial process changes; emissions or discharge changes; storage or disposal changes; submittal of a permit application or amendment; environmental compliance promotion through dissemination of information to other members of the regulated community who are similarly situated; provision of public health care (either diagnostic or preventative) to members of the public who were potentially or actually affected by the violations; provision of emergency planning or preparedness equipment or assistance to local emergency response programs; or a decrease in the amount or toxicity of a pollutant (other than through a pollution prevention project).

**Figure 7-2: Results of Administrative and Civil Judicial Orders – Permitting and Process Changes**

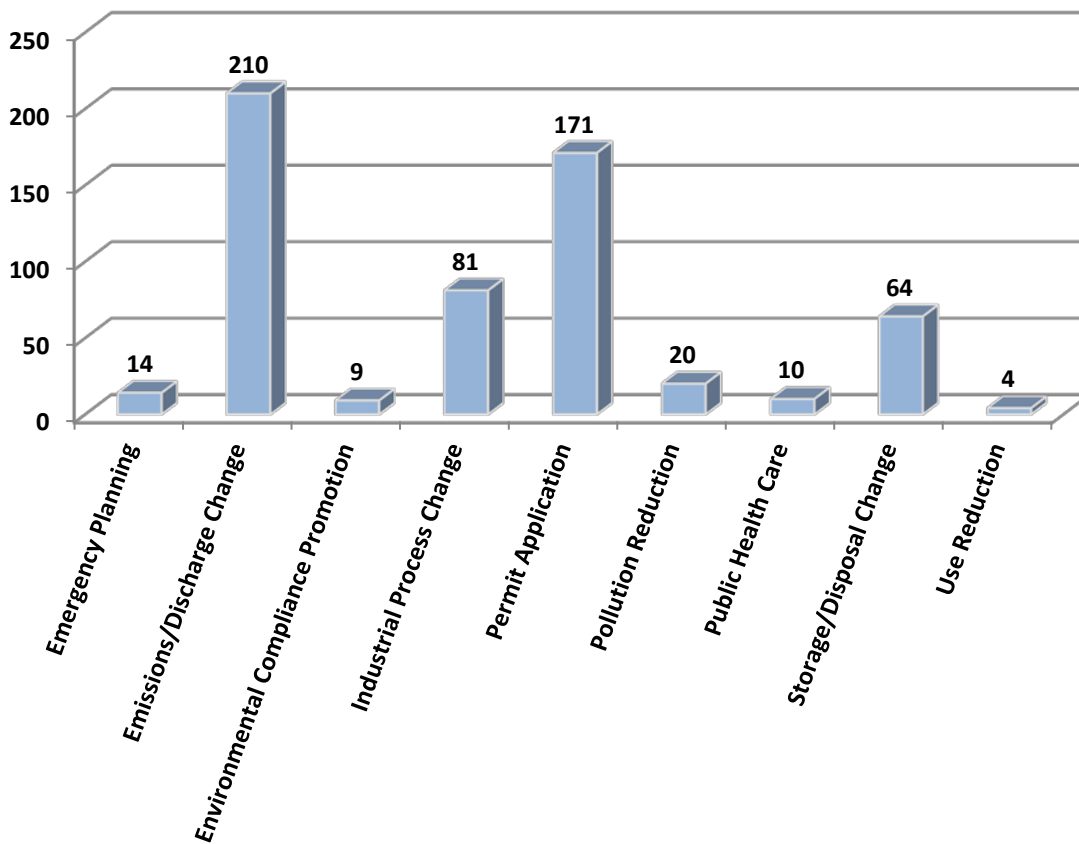

Figure 7-3 depicts the number of enforcement orders that resulted in the following: site assessment, remediation, restoration, or removal activities; auditing, testing, monitoring and/or sampling activities; labeling and manifesting of hazardous wastes; training; recordkeeping and/or reporting activities; and/or provision of site access to admit government officials for investigation and monitoring activities.

**Figure 7-3: Results of Administrative and Civil Judicial Orders – Clean Up, Monitoring, and Recordkeeping Requirements**

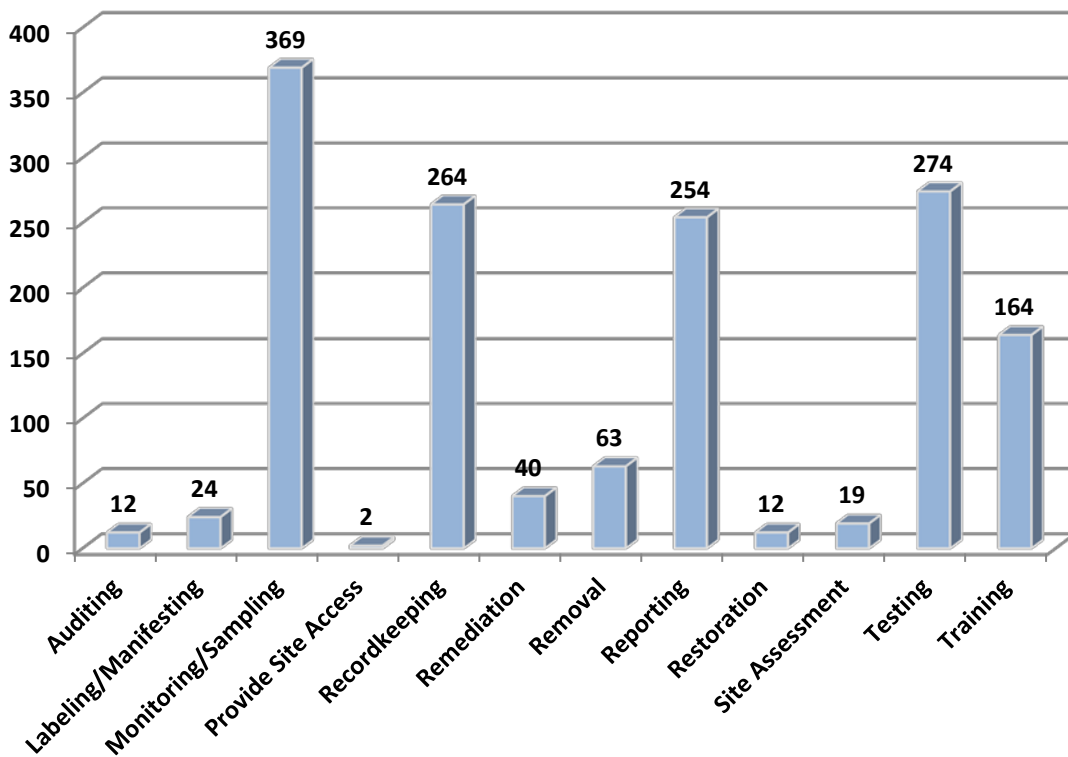

Figure 7-4 depicts the number of enforcement orders that resulted in the following pollution prevention related activities: equipment or technology modifications; product reformulation; raw materials substitutions; process or procedure modifications; in-process recycling; energy efficiency or conservation; improved housekeeping, operating and maintenance, training, or inventory control; and the number of orders with supplemental environmental projects including pollution prevention activities. Pollution prevention activities are those actions that result in reduction or elimination of a source of pollution that is above and beyond any regulatory requirements.

**Figure 7-4: Results of Administrative and Civil Judicial Orders – Pollution Prevention**

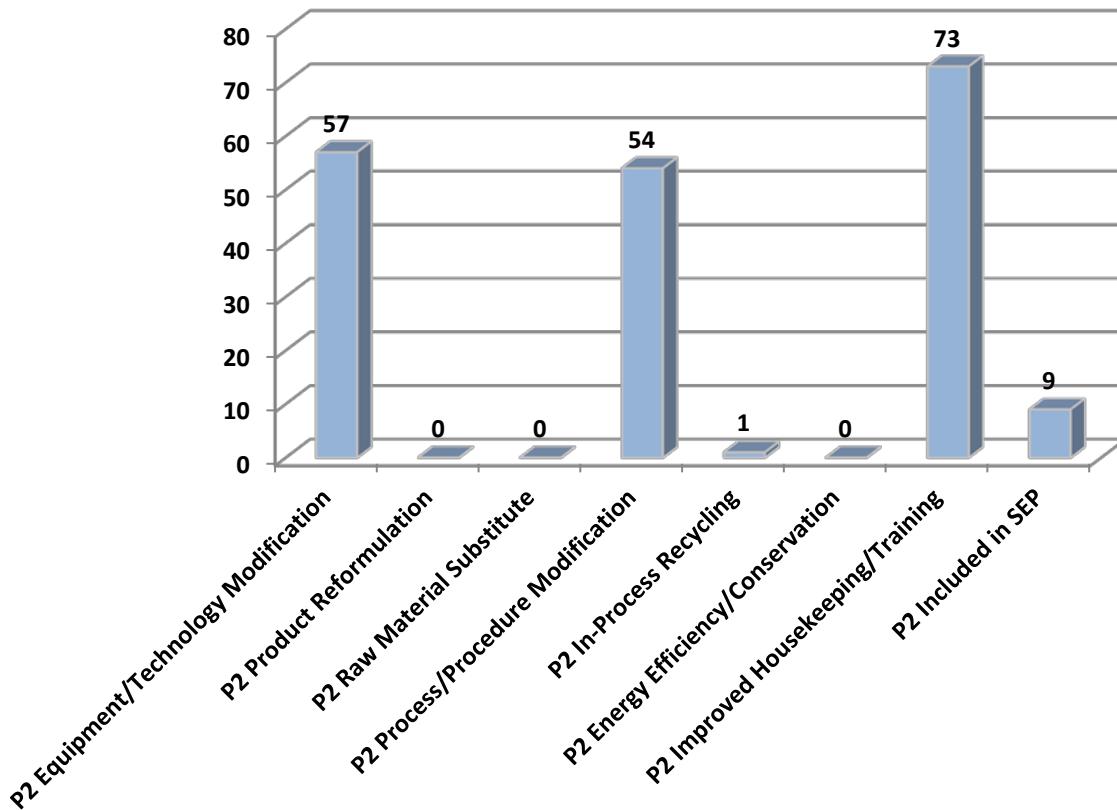

Table 7-1 depicts an estimation of the largest amount of pollutant reductions through enforcement actions finalized in FY 2012. Overall, it is estimated<sup>2</sup> that TCEQ final enforcement actions resulted in, or will result in, more than 242<sup>3</sup> million pounds of pollutants eliminated or reduced, or the routes of exposure reduced, in the environment.

**Table 7-1: Twenty-Five Largest Estimated Pollutant Reductions from Orders Issued**

| <b>Pollutant</b>   | <b>Amount in Pounds</b> | <b>Routes of Exposure</b> |
|--|-------------------------|---------------------------|
| Scrap Tires  | 117,191,400             | LAND                      |
| Trash, Debris, Miscellaneous Materials                     | 64,271,982              | LAND                      |
| Municipal Solid Waste                                      | 14,711,400              | LAND                      |
| Sewage   | 14,636,146              | WATER, LAND               |
| Industrial Wastewater Discharge                            | 8,466,000               | WATER, LAND               |
| Animal Carcasses   | 6,222,000               | LAND                      |
| Construction Debris  | 6,134,000               | LAND                      |
| Volatile Organic Compounds (VOCs)                          | 2,956,610               | AIR                       |
| Sulfur Dioxide   | 1,928,913               | AIR                       |
| Grease   | 1,885,371               | LAND                      |
| Soil, contaminated with Total Petroleum Hydrocarbons (TPH) | 1,055,000               | LAND                      |
| Carbon Monoxide  | 839,221                 | AIR                       |
| Nitrogen Oxides (NOx)                                      | 581,215                 | AIR                       |
| Oily Water   | 441,490                 | WATER                     |
| Sludge (Water Treatment)                                   | 364,000                 | LAND                      |
| Total Suspended Solids                                     | 230,307                 | WATER                     |
| Gasoline   | 140,223                 | LAND                      |
| Butene   | 140,213                 | AIR                       |
| Particulate Matter (unspeciated)                           | 90,286                  | AIR                       |
| Gasoline contaminated with water                           | 62,725                  | WATER                     |
| Ammonium Nitrate (solution)                                | 58,310                  | WATER                     |
| Ammonia Nitrogen   | 21,770                  | WATER                     |
| 1-hexene   | 21,320                  | AIR                       |
| Sludge (Wastewater)  | 20,013                  | LAND                      |
| Used Oil   | 18,091                  | LAND                      |

- 2 Estimations were based upon best educated predictions or knowledge of the technical staff. In those cases where cleanups were not completed yet, estimates of the amount of contaminants to be removed were used. In those cases where emissions or discharges were reduced or eliminated by the enforcement action, the estimation was based upon an assumption that the violations would have continued at least for one year if the TCEQ had not acted.
- 3 The estimated amount of pollutants reduced in FY2012 is significantly higher than in previous years because the Enforcement Division implemented increased quality assurance measures to ensure pollutant reduction information was captured in the database for applicable enforcement actions.

## Tables

### Table Descriptions:

#### Investigations

- Table T-1A summarizes, by TCEQ region and type, total investigations conducted during Fiscal Year 2012.
- Table T-1B summarizes, by TCEQ region and type, on-site investigations conducted during Fiscal Year 2012.
- Table T-2A summarizes, by TCEQ region and type, total investigations conducted during Fiscal Year 2011.

**Includes complaint investigations. There was an increase in PST investigations due to the Federal Energy Bill.**

**PWS investigations include Municipal Utility District Construction investigations.**

**\* "Other" includes those investigations conducted by contracted investigators.**

4 The number of PST investigations was revised from previous years' reports to include investigations conducted by contracted investigators.

6 "No Program Assigned" includes complaint investigations that cannot be categorized in the listed program areas, or complaints occurring at the end of FY12 that have not yet been assigned to a program area.

7 The number of complaints investigated and approved in FY12 is 3,943. However, since some complaints are investigated by multiple programs, the total number of complaint investigations is greater.

13 "No Program Assigned" included complaint investigations that cannot be categorized in the listed program areas, or complaints occurring at the end of FY09 that have not yet been assigned to a program area.

14 The number of complaints investigated and approved in FY09 is 4,733. However, since some complaints investigated by multiple programs, the total number of complaint investigations is greater.

17 "No Program Assigned" includes complaint investigations that cannot be categorized in the listed program areas, or complaints occurring at the end of FY07 that have not yet been assigned to a program area.

18 The number of complaints investigated in FY07 is 4,974. However, since some complaints are investigated by multiple programs, the total number of complaint investigations is greater.

# Annual Enforcement Report

Fiscal Year 2012

## Part Two: Appendices

**Enforcement Division**  
**Office of Compliance and Enforcement**  
**Texas Commission on Environmental Quality**

November 2012

The electronic annual enforcement report is available on the TCEQ's Web Page at  
<http://www.tceq.texas.gov/enforcement/reports/AER/annenfreport.html>

# Appendices

## Appendix Descriptions:

### Administrative Orders

[Appendix 1:](#) List of Administrative Enforcement Orders Issued During Fiscal Year 2012

[Appendix 2:](#) Summary of Supplemental Environmental Projects Approved in Administrative Orders Issued in Fiscal Year 2012

[Appendix 3:](#) List of Administrative Enforcement Orders Issued During Fiscal Year 2011

[Appendix 4:](#) Summary of Supplemental Environmental Projects Approved in Administrative Orders Issued in Fiscal Year 2011

[Appendix 5:](#) List of Administrative Enforcement Orders Issued During Fiscal Year 2010

[Appendix 6:](#) Summary of Supplemental Environmental Projects Approved in Administrative Orders Issued in Fiscal Year 2010

[Appendix 7:](#) List of Administrative Enforcement Orders Issued During Fiscal Year 2009

[Appendix 8:](#) Summary of Supplemental Environmental Projects Approved in Administrative Orders Issued in Fiscal Year 2009

[Appendix 9:](#) List of Administrative Enforcement Orders Issued During Fiscal Year 2008

[Appendix 10:](#) Summary of Supplemental Environmental Projects Approved in Administrative Orders Issued in Fiscal Year 2008

[Appendix 11:](#) List of Administrative Enforcement Orders Issued During Fiscal Year 2007

[Appendix 12:](#) Summary of Supplemental Environmental Projects Approved in Administrative Orders Issued in Fiscal Year 2007

### Court Orders

[Appendix 13:](#) List of Civil Judicial Orders Issued Through Representation by the Attorney General's Office for Fiscal Year 2012

[Appendix 14:](#) List of Civil Judicial Orders Issued Through Representation by the Attorney General's Office for Fiscal Year 2011

[Appendix 15:](#) List of Civil Judicial Orders Issued Through Representation by the Attorney General's Office for Fiscal Year 2010

[Appendix 16:](#) List of Civil Judicial Orders Issued Through Representation by the Attorney General's Office for Fiscal Year 2009

[Appendix 17:](#) List of Civil Judicial Orders Issued Through Representation by the Attorney General's Office for Fiscal Year 2008

[Appendix 18:](#) List of Civil Judicial Orders Issued Through Representation by the Attorney General's Office for Fiscal Year 2007

### Criminal Convictions

[Appendix 19:](#) Description of Each Criminal Conviction Obtained in Fiscal Year 2012

[Appendix 20:](#) Description of Each Criminal Conviction Obtained in Fiscal Year 2011

[Appendix 21:](#) Description of Each Criminal Conviction Obtained in Fiscal Year 2010

[Appendix 22:](#) Description of Each Criminal Conviction Obtained in Fiscal Year 2009

[Appendix 23:](#) Description of Each Criminal Conviction Obtained in Fiscal Year 2008

[Appendix 24:](#) Description of Each Criminal Conviction Obtained in Fiscal Year 2007

## Appendix 1: List of Administrative Orders Issued FY2012

## Appendix 2: List of SEP's & SEP Projects - FY2012

### Single Program

Date Range Selected : 09/01/2011 - 08/31/2012

| PGM | Case No. | Respondent Name                      | Effective Date   | Ratio  | Assessed Amt | Deferred Amt | Payable Amt | SEP Cost  | SEP Offset |
|-----|----------|--------------------------------------|--|--------|--------------|--------------|-------------|-----------|------------|
| AQ  | 42269    | INVISTA S.a r.l.                     | 04/08/2012   | 1.00:1 | 4,725.00     | 945.00       | 1,890.00    | 1,890.00  | 1,890.00   |
|     |          | POLLUTION PREVENTION                 | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Texas PTA for the Clean School Bus Program in Texas Air Quality Control Region as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to reimburse local school districts for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fuelled or clean diesel buses; or 2) retrofitting older diesel buses with new, cleaner technology. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations |        |              |              |             | 1,890.00  | 1,890.00   |
| AQ  | 42561    | Kuraray America, Inc.                | 05/25/2012   | 1.00:1 | 95,193.00    | 19,038.00    | 38,078.00   | 38,077.00 | 38,077.00  |
|     |          | POLLUTION PREVENTION                 | SEP funds will be used to supplement existing operation of a network of ambient air monitoring stations that continuously measure and record concentrations of ambient air pollutants.   |        |              |              |             | 38,077.00 | 38,077.00  |

## Appendix 2: List of SEP's & SEP Projects - FY2012

### Single Program

|                      |   |          |          |
|----------------------|---|----------|----------|
| POLLUTION PREVENTION | <p>The Respondent will contribute to Barbers Hill Independent School District's ("Barbers Hill ISD") Alternative Fueled Vehicle and Equipment Program in Chambers County. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between Barbers Hill ISD and the Texas Commission on Environmental Quality. SEP monies will be used to retire current diesel-powered or gasoline powered vehicles and equipment and replace those vehicles and equipment with alternative-fueled vehicles and equipment; convert current vehicles and equipment to alternative-fueled equipment; or retrofit current gasoline or diesel-powered equipment.</p> <p>Environmental Benefits: Replacement of gasoline and diesel powered lawnmowers, heavy equipment, and vehicles with lower-emission items will reduce air pollution emissions of particulate matter (PM), volatile organic carbon (VOC) compounds, nitrogen oxides (NOx), and other pollutants associated with the combustion of fuel.</p> | 5,000.00 | 5,000.00 |
|----------------------|---|----------|----------|

| AQ | 39783                | Valero Refining-Texas, L.P. *   | 11/18/2011 | 1.00:1 | 292,291.00 | 58,456.00 | 165,781.00 | 68,054.00 | 68,054.00 |
|----|----------------------|---|------------|--------|------------|-----------|------------|-----------|-----------|
|    | POLLUTION PREVENTION | Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to the Bayou Land Conservancy for the Spring Creek Greenway Project. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Third-Party Recipient and the TCEQ (the "Project"). Specifically, this SEP will focus on preserving multiple tracts of land comprising approximately 1,000 acres in the riparian corridor east of FM 2978 and west of U.S. 59. The Third-Party Recipient shall use SEP Funds to acquire conservation easements on these tracts to provide permanent protection and stewardship of these lands and waters. The Third-Party Recipient shall also use SEP Funds to conduct restoration work, including tree plantings, on these tracts, as needed. All property acquired in whole or in part with SEP Funds must be preserved in perpetuity through a conservation easement that complies with Subchapter A, Chapter 183, Texas Na |            |        |            |           |            | 29,758.00 | 29,758.00 |
|    | POLLUTION PREVENTION | AutoCheck is a remote vehicle emission sensing system that identifies polluting vehicles and informs the vehicle operators about the health of their vehicle via a large electronic sign. Once a vehicle is identified, qualified service stations perform repairs on identified polluting vehicles. Pre and post emissions tests are performed and tracked, and the service stations are reimbursed for their expenses. SEP monies will be used to pay for repair vouchers, equipment maintenance, and a program operator. The SEP will be performed in accordance with all federal, state and local environmental laws and regulations.   |            |        |            |           |            | 34,250.00 | 34,250.00 |
|    | POLLUTION PREVENTION | SEP funds will be used by the Third-Party Recipient to purchase equipment (such as automated canister samplers), hardware, software, and licenses to enable the monitoring, and for the cost of operating, maintaining, and periodically upgrading or adding to these air monitoring stations along with ancillary equipment approved by TCEQ. Performing Party shall ensure that the data is validated and sent to TCEQ's Leading Environmental Analysis and Display (LEADS) system. All costs associated with the collection, transfer, and formatting of these data to be compatible with the LEADS system is the responsibility of the Third-Party Recipient.   |            |        |            |           |            | 4,046.00  | 4,046.00  |

## Appendix 2: List of SEP's & SEP Projects - FY2012

### Single Program

|    |                      |  |            |        |            |           |            |            |            |
|----|----------------------|--|------------|--------|------------|-----------|------------|------------|------------|
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Texas PTA for the Clean School Bus Program in Texas Air Quality Control Region as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to reimburse local school districts for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fuelled or clean diesel buses; or 2) retrofitting older diesel buses with new, cleaner technology. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations |            |        |            |           | 3,987.00   | 3,987.00   |            |
| AQ | 43027                | South Hampton Resources, Inc.  | 06/17/2012 | 1.00:1 | 3,822.00   | 764.00    | 1,529.00   | 1,529.00   | 1,529.00   |
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Texas PTA for the Clean School Bus Program in Texas Air Quality Control Region as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to reimburse local school districts for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fuelled or clean diesel buses; or 2) retrofitting older diesel buses with new, cleaner technology. The Third-Party recipient may also use SEP funds to pay for the continued operation and maintenance of existing SARBMN sites.   |        |           |          | 660.00   | 660.00   |
| PST | 42649 | Harris County                         | 06/07/2012  | 1.00:1 | 3,400.00  | 680.00   | 0.00     | 2,720.00 |
|     |       | POLLUTION PREVENTION                  | Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to the Bayou Land Conservancy for the Spring Creek Greenway Project. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Third-Party Recipient and the TCEQ (the "Project"). Specifically, this SEP will focus on preserving multiple tracts of land comprising approximately 1,000 acres in the riparian corridor east of FM 2978 and west of U.S. 59. The Third-Party Recipient shall use SEP Funds to acquire conservation easements on these tracts to provide permanent protection and stewardship of these lands and waters. The Third-Party Recipient shall also use SEP Funds to conduct restoration work, including tree plantings, on these tracts, as needed. All property acquired in whole or in part with SEP Funds must be preserved in perpetuity through a conservation easement that complies with Subchapter A, Chapter 183, Texas Na |        |           |          | 2,720.00 | 2,720.00 |

\* There are Multiple Respondent Names associated to this Case No.

## Appendix 2: List of SEP's & SEP Projects - FY2012

### Single Program

|     |                      |  |            |           |           |          |           |           |           |
|-----|----------------------|--|------------|-----------|-----------|----------|-----------|-----------|-----------|
|     | POLLUTION PREVENTION | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to the City of Portland for the Violet Andrews Park Erosion Control and Habitat Restoration SEP. The contribution will be used in accordance with the Supplemental Environmental Project between the Third-Party Recipient and the TCEQ (the "Project"). Specifically, the SEP Offset Amount will be used for habitat restoration and erosion control in Violet Andrews Park. This SEP will restore native vegetation in strategic areas that are denuded within the park site which will reduce erosion and sedimentation, and enhance and restore native habitat for numerous bird species protected under the Migratory Bird Treaty Act.                           | 1,600.00   | 1,600.00  |           |          |           |           |           |
| PST | 43574                | Limestone County   | 08/26/2012 | 1.00:1    | 6,000.00  | 1,200.00 | 0.00      | 4,800.00  | 4,800.00  |
|     | POLLUTION PREVENTION | RC&D will coordinate with local city and county government officials to clean-up sites where tires have been disposed of illegally. Contributions will be used to clean up illegal tire sites. Eligible sites will be limited to areas where a responsible party can not be identified and where there is no preexisting obligation to clean up the site by the owner or government.   | 4,800.00   | 4,800.00  |           |          |           |           |           |

|     | POLLUTION PREVENTION | Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to the Austin Parks Foundation for the Restoration and Rehabilitation of the Barton Springs Pool Bypass Tunnel. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Third-Party Recipient and the TCEQ (the "Project"). The deteriorated condition of the Barton Springs Pool Bypass tunnel results in a significant increase of pollutants from urban runoff into the pool. Specifically, this SEP will restore and rehabilitate the Barton Springs Pool bypass tunnel inlet grate and outlet valve by providing funds for the engineering design, materials and construction activities to repair the tunnel. | 952.00     | 952.00    |           |          |           |           |           |

|     | POLLUTION REDUCTION  | Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Jefferson County for the Cheek Community First Time Sewer Service for Low-Income Home Owners. The contribution will be used in accordance with the Supplemental Environmental Project between the Third-Party Recipient and the TCEQ (the "Project"). Specifically, the SEP Offset Amount will be used to provide first time sewer service for approximately 81 Low-Income residential customers in the Candlelight and Martel Subdivisions (Cheek Community) located in the western area of Jefferson County. This area has open sewage pits or poorly maintained septic systems which are a hazard to human health and the environment.                              | 42,002.00  | 42,002.00 |           |          |           |           |           |

## Appendix 2: List of SEP's & SEP Projects - FY2012

### Single Program

|     |                      |   |            |        |          |          |          |          |          |
|-----|----------------------|---|------------|--------|----------|----------|----------|----------|----------|
|     | POLLUTION PREVENTION | The contribution will be to Caddo Lake Institute (CLI) for the Caddo Lake Watershed Enhanced Monitoring Program to be used as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, SEP funds will be used for increased water quality monitoring and contaminant sampling for use in evaluating risks to water in Caddo Lake and other water bodies in the Cypress Creek basin, comprising the Caddo Lake watershed. This project will supplement and enhance existing monitoring and contaminant sampling within the Cypress Creek basin. Depending upon the amount of funding available, SEP funds may be used to increase the frequency of samples taken and analyzed from existing monitoring sites, expand the types of monitoring done for existing sites, fund monitoring at other locations, or fund other types of environmental sampling for contaminants that enter waters of the State.  | 900.00     | 900.00 |          |          |          |          |          |

|     | POLLUTION PREVENTION | he contribution will be to the Trans-Pecos Water & Land Trust for the Trans-Pecos Water Rights Acquisition Project. The contribution will be used in accordance with the Supplemental Environmental Project between the Third-Party Recipient and the TCEQ (the "Project"). Specifically, the SEP Offset Amount will be used to acquire, by lease or purchase, surface water rights from various owners of existing water rights in the Rio Grande River Basin in Texas. Within 30 days after water rights are acquired, Third-Party Recipient shall then apply to TCEQ to administratively amend the water rights permit or certificate of adjudication (collectively referred to as "permit") pursuant to Water Code, Section 11.0237. If water rights are purchased, Third-Party Recipient shall change the use exclusively to instream flows dedicated to environmental needs. If the water rights are leased, Third-Party Recipient shall either change the use exclusively to or add a use for instream flows dedicated to environmental needs. |            |        |          |          |          | 2,403.00 | 2,403.00 |

|     |       | POLLUTION REDUCTION                      | Respondent shall hold two one-day events for the collection, recycling, and proper disposal of used tires (the "Project"). The events will be advertised in the local newspaper of largest circulation and will include the required enforcement statement as stated in Section 6, Publicity, below. Citizens will be invited to drop off tires free of charge at a location convenient to local citizens located at the Zapata County Waterworks Maintenance Yard, 451 FM 496, Zapata, Texas, and at the collection site at San Ygnacio Landfill, (RN102327574), N US Highway 83, San Ygnacio, Texas 78067. Labor shall be provided by the Respondent at no cost to the SEP. Respondent shall provide the necessary equipment to collect tires. The SEP Offset Amount will be used for the cost of a licensed contractor to transport and properly dispose of collected tires, for directional signs at the drop off locations, and for the cost of publication of the events. |        |           |          | 10,560.00 | 10,560.00 |           |

\* There are Multiple Respondent Names associated to this Case No.

## Appendix 2: List of SEP's & SEP Projects - FY2012

### Single Program

|    |                      |   |            |        |           |          |           |           |           |
|----|----------------------|---|------------|--------|-----------|----------|-----------|-----------|-----------|
|    | POLLUTION REDUCTION  | Respondent shall hold three (3) one-day events for the collection, recycling, and proper disposal of used tires (the "Project"). The events shall be advertised in the local newspaper of largest circulation and shall include the required enforcement statement as stated in Section 6, Publicity, below. Citizens will be invited to drop off tires free of charge at a location convenient to local citizens located at the corner of Military Road and Garza Avenue in La Joya, Texas. Labor shall be provided by the Respondent at no cost to the SEP. Respondent shall provide the necessary equipment to collect tires. The SEP Offset Amount shall be used for the cost of a licensed contractor to pick up and transport the tires to the Hidalgo County Landfill (Permit No. 1727; RN102003597), a proper disposal facility, located on Military Road off of Farm to Market Road 1427. The contractor will take the recyclable tires directly to an authorized tire recycling facility and provide proof of delivery to the City of La Joya. The SEP Offset Amount shall also be used for directional signs at the drop off locations, and for the cost of publication of the events. |            |        |           |          | 13,360.00 | 13,360.00 |           |

|    | POLLUTION REDUCTION  | Respondent shall hold a three-day event for the collection, recycling, or proper disposal of tires and residential electronic waste ("E-waste") consisting of computers and televisions. Respondent shall offer a designated drop-off location at Old City Yard, Hanna Street, Calvert, Texas, where the public can drop off materials for disposal or recycling at no cost to the citizens. The event will be advertised in a local newspaper to increase public awareness of and participation in the event. Respondent shall collect, transport, dispose of, or recycle the collected materials at Brazos Valley Solid Waste Management Agency (Permit No. 1444C, RN100830090), 7600 Rock Prairie Road, College Station, Texas. The SEP Offset Amount will be used for the cost of a licensed contractor to transport and properly dispose of or recycle collected tires and E-waste, for directional signs at the drop off location(s), and for the cost of publication of the event. Labor shall be provided by the Respondent at no cost to the SEP.  |            |        |           |          |           | 6,464.00  | 6,464.00  |

|    | POLLUTION PREVENTION | The contribution will be to Caddo Lake Institute (CLI) for the Caddo Lake Watershed Enhanced Monitoring Program to be used as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, SEP funds will be used for increased water quality monitoring and contaminant sampling for use in evaluating risks to water in Caddo Lake and other water bodies in the Cypress Creek basin, comprising the Caddo Lake watershed. This project will supplement and enhance existing monitoring and contaminant sampling within the Cypress Creek basin. Depending upon the amount of funding available, SEP funds may be used to increase the frequency of samples taken and analyzed from existing monitoring sites, expand the types of monitoring done for existing sites, fund monitoring at other locations, or fund other types of environmental sampling for contaminants that enter waters of the State. |            |        |           |          | 8,896.00 | 8,896.00  |           |

|    | POLLUTION PREVENTION | Performing Party shall establish, operate and maintain water quality monitoring stations in streams, lakes, rivers, or other water bodies within one hundred miles of San Marcos, Texas. The stations will consist of ambient water quality monitoring instruments, meteorological instruments, and ancillary equipment. The primary objective of these new monitoring stations is to provide continuous monitoring of area water quality. The information collected will be non-regulatory, and will be used to monitor the quality and safety of Texas surface waters, and to assess the state of the environment with real-time or near real-time monitoring data. SEP monies will be used to pay for the instrumentation, installation, and maintenance and/or operation of the instrumentation, data validation, software license, and web server costs.  |            |        |           |          |          | 3,280.00  | 3,280.00  |

## Appendix 2: List of SEP's & SEP Projects - FY2012

### Single Program

|    |                           |  |            |           |           |          |      |           |           |
|----|---------------------------|--|------------|-----------|-----------|----------|------|-----------|-----------|
|    | POLLUTION PREVENTION      | Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to the Austin Parks Foundation for the Restoration and Rehabilitation of the Barton Springs Pool Bypass Tunnel. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Third-Party Recipient and the TCEQ (the "Project"). The deteriorated condition of the Barton Springs Pool Bypass tunnel results in a significant increase of pollutants from urban runoff into the pool. Specifically, this SEP will restore and rehabilitate the Barton Springs Pool bypass tunnel inlet grate and outlet valve by providing funds for the engineering design, materials and construction activities to repair the tunnel.   | 13,050.00  | 13,050.00 |           |          |      |           |           |
| WQ | 41091                     | Texas Parks and Wildlife Department  | 10/02/2011 | 1.00:1    | 1,380.00  | 276.00   | 0.00 | 1,104.00  | 1,104.00  |
|    | ENVIRONMENTAL RESTORATION | Respondent shall perform an erosion control project along the shore of Lake Abilene in Taylor County, Texas, to reduce siltation in the Fort Phantom Lake Watershed (the "Project"). The bank of Lake Abilene has eroded approximately seven feet within the past five years. The Project will consist of the installation of slope protection to eliminate ongoing erosion of Lake Abilene's shoreline. Slope stabilization will be addressed by the installation of R-Rap walls (also referred to as Bag Wall installation). The R-Rap wall installation will begin at N32°14'00.5" W99°53'41.4" and will continue 140 yards west to N32°14'01.7" W99°53'43.9". The SEP Offset Amount will be used to purchase R-Rap materials. No SEP Offset Amount may be used to pay labor costs for Park Rangers that will provide the labor for the Project during normal working hours.  | 1,104.00   | 1,104.00  |           |          |      |           |           |

## Appendix 2: List of SEP's & SEP Projects - FY2012

### Single Program

|    |                      |  |            |           |           |          |          |           |           |
|----|----------------------|--|------------|-----------|-----------|----------|----------|-----------|-----------|
|    | POLLUTION PREVENTION | Contributions will be used to pay for labor and materials costs associated with implementing the Marsh Mania Project, which include restoring shoreline elevations, growing plants for shoreline restoration, and planting new habitat. Historic subsidence and erosion have resulted in shoreline elevations which are too low to support vegetation. This project will seek to raise elevations by scraping and terracing. Scraping involves the use of earthmoving equipment to grade an eroded, bluff-like shoreline so that it slopes gradually towards the water resulting in the ability of plant growth. Terracing uses earthmoving equipment to create small levees by burrowing and stacking sediment in shallow water.  | 9,560.00   | 9,560.00  |           |          |          |           |           |
| WQ | 41857                | Trinity Bay Conservation District  | 01/27/2012 | 1.00:1    | 20,925.00 | 4,185.00 | 0.00     | 16,740.00 | 16,740.00 |

|   |          | POLLUTION PREVENTION          | The contribution will be to Caddo Lake Institute (CLI) for the Caddo Lake Watershed Enhanced Monitoring Program to be used as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, SEP funds will be used for increased water quality monitoring and contaminant sampling for use in evaluating risks to water in Caddo Lake and other water bodies in the Cypress Creek basin, comprising the Caddo Lake watershed. This project will supplement and enhance existing monitoring and contaminant sampling within the Cypress Creek basin. Depending upon the amount of funding available, SEP funds may be used to increase the frequency of samples taken and analyzed from existing monitoring sites, expand the types of monitoring done for existing sites, fund monitoring at other locations, or fund other types of environmental sampling for contaminants that enter waters of the State. |              |              |              |              | 10,000.00    | 10,000.00  |

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|   |                      |   |            |        |            |           |            |            |            |
|---|----------------------|---|------------|--------|------------|-----------|------------|------------|------------|
|   | POLLUTION PREVENTION | The Respondent shall contribute the SEP amount to the Third-Party Recipient named above. The contribution will be to the Southeast Texas Regional Planning Commission to be used for the West Port Arthur Home Energy Efficiency Program as set forth in the agreement between the Third-Party Recipient and the TCEQ. Specifically, the Performing Party shall use SEP funds to assist low-income residents in the West Port Arthur area by: 1) conducting home energy audits; 2) weatherizing homes to improve energy efficiency; and/or 3) repairing or replacing heating/cooling systems and major appliances with new, energy-efficient equipment. Weatherizing homes may include costs of caulking openings as well as insulating walls, floors, and attics in homes. Any heating/cooling systems or major appliances that are replaced must be scrapped and must not be reused in any way. Performing Party shall use consistent and reliable criteria for determining the low-income status of residents assisted with SEP funds. |            |        |            |           | 8,840.00   | 8,840.00   |            |
| AQ  | 40834                | Southern Union Pipeline, Ltd.   | 07/31/2011 | 1.00:1 | 7,250.00   | 1,450.00  | 2,900.00   | 2,900.00   | 2,900.00   |
|   | POLLUTION PREVENTION | Project will fuse funds to aid local school districts, area transit agencies, and local governments in need of funding assistance to pay for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fueled or clean diesel buses; or 2) retrofitting older diesel buses with new cleaner technology. RC&D shall disburse funds to school districts, area transit agencies, or local governments on a needs-rated basis, using non-attainment area status, condition of buses, or economic status of recipient as possible rating factors if competition for funds exists.<br><br>Minimum Contribution: \$1,500  |            |        |            |           | 2,900.00   | 2,900.00   |            |

|   | POLLUTION PREVENTION | Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Texas Air Research Center for the Flare Minimization and Air Quality Modeling project. The contribution will be used in accordance with the Supplemental Environmental Project executed on October 30, 2009, between the Third-Party Recipient and the TCEQ (the "Project"). Specifically, the SEP Offset Amount will be used for advanced modeling involving utilizing optimization and plant-wide dynamic simulation to cause reductions in flaring during turnaround operations at industrial facilities. Flaring during turnaround operations (startups and shutdowns) at industrial facilities is a substantial source of both volatile organic compounds (VOCs) and highly reactive volatile organic compounds (HRVOCs), and flaring results in considerable loss of energy and resources. Reductions in VOC and HRVOC emissions are expected to occur primarily through reducing the duration of turnar    |            |        |            |           | 17,600.00  | 17,600.00  |            |

|   | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas PTA for the Clean School Bus Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to reimburse local school districts for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fuelled or clean diesel buses; or 2) retrofitting older diesel buses with new, cleaner technology. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.   |            |        |            |           | 145,532.00 | 145,532.00 |            |
| * There are Multiple Respondent Names associated to this Case No. |                      |   |            |        |            |           |            |            |            |

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |       |                                    |  |        |            |           |            |            |            |

|    |       | POLLUTION PREVENTION               | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Abandoned Tire Clean-Up Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to clean-up sites where tires have been disposed of illegally. Eligible sites will be limited to those where a responsible party cannot be found and where reasonable efforts have been made to prevent the dumping. SEP monies will be used to pay for the direct cost of collecting and disposing of tires. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.   |        |            |           |            | 7,250.00   | 7,250.00   |

|    | POLLUTION PREVENTION |                                   | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Barbers Hill Independent School District for the Alternative Fueled Vehicle and Equipment Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP monies will be used to retire current diesel-powered or gasoline powered vehicles and equipment and replace those vehicles and equipment with alternative-fueled vehicles and equipment; convert current vehicles and equipment to alternative-fueled equipment; or retrofit current gasoline or diesel-powered equipment.   |        |           |          |          | 2,579.00 | 2,579.00 |
| AQ | 41182                | City of Austin                    | 08/13/2011  | 1.00:1 | 1,875.00  | 375.00   | 0.00     | 1,500.00 | 1,500.00 |
|    | POLLUTION PREVENTION |                                   | Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to the Austin Parks Foundation for the Restoration and Rehabilitation of the Barton Springs Pool Bypass Tunnel. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Third-Party Recipient and the TCEQ (the "Project"). The deteriorated condition of the Barton Springs Pool Bypass tunnel results in a significant increase of pollutants from urban runoff into the pool. Specifically, this SEP will restore and rehabilitate the Barton Springs Pool bypass tunnel inlet grate and outlet valve by providing funds for the engineering design, materials and construction activities to repair the tunnel.  |        |           |          |          | 1,500.00 | 1,500.00 |

\* There are Multiple Respondent Names associated to this Case No.

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |       |                                      |  |        |           |           |           |           |           |
|----|-------|--------------------------------------|--|--------|-----------|-----------|-----------|-----------|-----------|
|    |       | POLLUTION PREVENTION                 | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Houston-Galveston AERCO for the Clean Cities/Clean Vehicles Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP monies will be used to aid local school districts and area transit agencies in reaching local match requirements mandated by the Federal Highway Administration's ("FHWA") Congestion Mitigation/Air Quality Funding program. SEP monies will be disbursed to school districts and transit agencies in need of funding assistance in the Houston-Galveston non-attainment area. Those SEP monies will be used exclusively by the school districts and transit agencies as supplements to meet the local match requirements of the EPA. SEP monies will be used to pay for the cost of replacing older diesel buses with alternative fueled or clean diesel buses. The old buses will be permanently retired and only sold for scrap. The schools and transit agencies will also use the SEP monies to retrofit more buses to reduce emissions. Houston-Galveston AERCO will send the TCEQ verification in the form of paid invoices and other documentation to show that the retrofits were completed. Retrofit technologies include particulate matter traps, diesel particulate matter filters, NOx reduction catalyst technology in combination with diesel particulate filters, and other emission control technologies that are developed and approved by EPA or the California Air Resources Board. |        |           |           | 7,980.00  | 7,980.00  |           |

|    |       | POLLUTION PREVENTION                 | The Respondent shall contribute the SEP Amount to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to install, operate, and maintain a stationary ambient air monitoring station in the vicinity of Memorial High School Ninth Grade Campus. The station will employ canister sampling, a hydrocarbon analyzer, and/or a chromatograph. Ancillary equipment will include a sample conditioning system, a ten meter meteorological tower, a climate controlled equipment shelter, a remote communications system, and have electronic data logging capabilities. The station will continuously sample and analyze the ambient air for a wide range of hydrocarbon species in accordance with Environmental Protection Agency's recommended "TO-14" list. SEP monies will be used for the cost of purchasing, installing, operating, and maintaining the air monitoring station along with its ancillary equipment. |        |           |          | 5,040.00 | 5,040.00 |          |

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                      |  |            |        |            |           |           |           |           |
|----|----------------------|--|------------|--------|------------|-----------|-----------|-----------|-----------|
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Keep Odessa Beautiful for the Household Hazardous Waste, Tire Collection, and Recycling program to be used as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, SEP funds will be used to provide citizens and schools with a no-cost safe and convenient opportunity to properly dispose of harmful chemicals, and to prevent illegal dumping of tires. The following types of materials will be accepted: batteries, oil and oil filters, paints, household and/or school chemicals, and used tires. The items collected in these events will be either reused or properly disposed. Citizens may 'reuse' unused portions of properly labeled and handled chemical products through the reusable materials exchange. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. This project will be administered in accordance with federal, state, and local environmental laws and regulations. |            |        |            |           | 1,420.00  | 1,420.00  |           |
| AQ | 39574                | Chevron Phillips Chemical Company LP   | 04/18/2011 | 1.00:1 | 235,330.00 | 47,066.00 | 94,132.00 | 94,132.00 | 94,132.00 |
|    | POLLUTION PREVENTION | RC&D will coordinate with local city and county government officials to clean-up sites where tires have been disposed of illegally. Contributions will be used to clean up illegal tire sites. Eligible sites will be limited to areas where a responsible party can not be identified and where there is no preexisting obligation to clean up the site by the owner or government. SEP monies will be used for the direct cost of collection and disposal of debris and tires. Benefit: Helps rid communities of the dangers and health threats associated with illegal tire sites. Eligible Counties: All counties in the state of Texas that are within the boundaries of one of the 23 RC&D Areas in the state of Texas.  |            |        |            |           | 94,132.00 | 94,132.00 |           |
| AQ | 40154                | The Dow Chemical Company   | 03/07/2011 | 1.00:1 | 10,000.00  | 2,000.00  | 4,000.00  | 4,000.00  | 4,000.00  |
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be used by Brazoria County for the Brazoria County Vehicle and Equipment Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. The Third-Party Recipient shall use SEP funds to: 1) retire current diesel powered or gasoline-powered vehicles and equipment and replace those vehicles and equipment with alternative-fueled or low-emission vehicles or equipment; 2) convert current vehicles and equipment to alternative-fueled vehicles or equipment; or 3) retrofit current gasoline-powered and diesel-powered vehicles and equipment to decrease emissions from those sources. SEP funds may only be used for: 1) the incremental costs of purchase of alternative-fueled or lower emission vehicles or equipment or retrofit of existing vehicles or equipment; 2) the incremental cost of purchase of alternative fuels versus regular gasoline or diesel fuels; or 3) other direct expenses authorized in advance and in writing by TCEQ.                                       |            |        |            |           | 4,000.00  | 4,000.00  |           |
| AQ | 40871                | Houston Refining LP  | 07/31/2011 | 1.00:1 | 10,000.00  | 2,000.00  | 4,000.00  | 4,000.00  | 4,000.00  |

\* There are Multiple Respondent Names associated to this Case No.

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                      |  |            |        |           |          |           |           |           |
|----|----------------------|--|------------|--------|-----------|----------|-----------|-----------|-----------|
|    | POLLUTION PREVENTION | Performing Party shall use SEP Funds to perform energy efficiency upgrades on public buildings and infrastructure. Specifically, SEP Funds may only be used for: 1) the cost of conducting energy efficiency audits; 2) the incremental cost for construction or implementation of energy-efficiency upgrades (versus the cost of non-energy efficiency upgrades); 3) the incremental cost of purchase of more energy-efficient equipment or appliances (versus the cost of purchasing non-energy efficient equipment or appliances); or 4) other direct costs authorized in advance by TCEQ.<br><br>Environmental Benefits: reduce fuel and electricity usage for heating and cooling and other day-to-day operations. These reductions will reduce emissions of particulate matter (PM), volatile organic carbon (VOC) compounds, nitrogen oxides (NOx), and other pollutants associated with the combustion of fuel and generation of electricity.  |            |        |           |          | 4,000.00  | 4,000.00  |           |
| AQ | 39585                | ConocoPhillips Company   | 11/15/2010 | 1.00:1 | 70,000.00 | 0.00     | 35,000.00 | 35,000.00 | 35,000.00 |
|    | POLLUTION PREVENTION | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to aid local school districts, area transit agencies, and local governments in need of funding assistance to pay for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative-fueled or clean diesel buses; or 2) retrofitting older diesel buses with new, cleaner technology. The funds will be disbursed on a needs-rated basis, using non-attainment area status, condition of buses, and economic status of the recipient as possible rating factors if competition for the funds exists. To maximize funds, retrofitting will take priority over replacement of buses. Older buses deemed not suitable for retrofitting will be permanently retired and sold only for scrap.<br><br>Acceptable retrofit technologies include particulate matter traps, diesel particulate matter filters, nitrogen oxides (NOx) reduction catalyst technology in combination with diesel particulate filters, and other emission control technologies that are developed and approved by the United States Environmental Protection Agency ("EPA") or the California Air Resources Board. |            |        |           |          | 35,000.00 | 35,000.00 |           |

|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be used by Harris County for the Ambient Air Pollutants Monitoring Study as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP funds will be used to install or retrofit, operate, maintain, and potentially expand air monitoring stations in Harris County to continuously monitor ambient air for total non-methane hydrocarbons and hazardous air pollutants (HAPs). Specifically, SEP funds will be used to purchase equipment (such as automated canister samplers), hardware, software, and licenses to enable the monitoring. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.   |            |        |           |          | 3,424.00  | 3,424.00  |           |

### Single Program

|    |                      |  |            |           |           |           |           |           |           |
|----|----------------------|--|------------|-----------|-----------|-----------|-----------|-----------|-----------|
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be used by Brazoria County for the Brazoria County Vehicle and Equipment Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. The Third-Party Recipient shall use SEP funds to: 1) retire current diesel powered or gasoline-powered vehicles and equipment and replace those vehicles and equipment with alternative-fueled or low-emission vehicles or equipment; 2) convert current vehicles and equipment to alternative-fueled vehicles or equipment; or 3) retrofit current gasoline-powered and diesel-powered vehicles and equipment to decrease emissions from those sources. SEP funds may only be used for: 1) the incremental costs of purchase of alternative-fueled or lower emission vehicles or equipment or retrofit of existing vehicles or equipment; 2) the incremental cost of purchase of alternative fuels versus regular gasoline or diesel fuels; or 3) other direct expenses authorized in advance and in writing by TCEQ.                     | 9,300.00   | 9,300.00  |           |           |           |           |           |
| AQ | 40195                | BASF FINA Petrochemicals Limited Partnership   | 04/18/2011 | 1.00:1    | 61,450.00 | 12,290.00 | 24,580.00 | 24,580.00 | 24,580.00 |
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Texas Air Quality Research Center at Lamar University for the Flare Speciation and Air Quality Modeling project to be used as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP funds will be used for advanced modeling and simulations to identify the VOC species generated and emitted from industrial flares at chemical process facilities under various operating conditions and environmental conditions as well as determine the Combustion Efficiency (CE) and Destruction and Removal Efficiency (DRE). All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.   | 24,580.00  | 24,580.00 |           |           |           |           |           |
| AQ | 40167                | Plant Process Equipment, Inc.  | 03/19/2011 | 1.00:1    | 1,530.00  | 306.00    | 612.00    | 612.00    | 612.00    |
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Galveston Bay Foundation to be used for the Galveston Bay Foundation "Marsh Mania" as set forth in the agreement between the Third-Party Recipient and the TCEQ. SEP monies will be used to restore shoreline elevations, growing plants for shoreline restoration, and planting new habitat. Historic subsidence and erosion have resulted in shoreline elevations which are too low to support vegetation. This project will seek to raise elevations by scraping and terracing. Scraping involves the use of earthmoving equipment to grade an eroded, bluff-like shoreline so that it slopes gradually towards the water resulting in the ability of plant growth. Terracing uses earthmoving equipment to create small levees by burrowing and stacking sediment in shallow water. The high elevation can then be planted with emergent vegetation. SEP monies will be used to pay for the direct costs of the implementation of the project, including material, equipment, and labor costs. | 612.00     | 612.00    |           |           |           |           |           |
| AQ | 40902                | Shell Chemical LP  | 07/31/2011 | 1.00:1    | 10,000.00 | 2,000.00  | 4,000.00  | 4,000.00  | 4,000.00  |

\* There are Multiple Respondent Names associated to this Case No.

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                      |  |            |        |           |          |          |          |          |
|----|----------------------|--|------------|--------|-----------|----------|----------|----------|----------|
|    | POLLUTION PREVENTION | Performing Party shall use SEP Funds to perform energy efficiency upgrades on public buildings and infrastructure. Specifically, SEP Funds may only be used for: 1) the cost of conducting energy efficiency audits; 2) the incremental cost for construction or implementation of energy-efficiency upgrades (versus the cost of non-energy efficiency upgrades); 3) the incremental cost of purchase of more energy-efficient equipment or appliances (versus the cost of purchasing non-energy efficient equipment or appliances); or 4) other direct costs authorized in advance by TCEQ.<br><br>Environmental Benefits: reduce fuel and electricity usage for heating and cooling and other day-to-day operations. These reductions will reduce emissions of particulate matter (PM), volatile organic carbon (VOC) compounds, nitrogen oxides (NOx), and other pollutants associated with the combustion of fuel and generation of electricity.  |            |        |           |          | 4,000.00 | 4,000.00 |          |

|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to The Sheltering Arms to be used for the Sheltering Arms Weatherization Assistance Program as set forth in the Agreement between the Third-Party Recipient and TCEQ. The SEP offset amount shall be used to perform energy efficiency upgrades on low-income homes in Harris County. Specifically, the SEP offset amount may only be used for: 1) purchase and installation of compact fluorescent light bulbs; 2) the incremental cost of replacement of energy-inefficient fans and refrigerators with energy-efficient models; 3) the incremental cost of replacement of energy-inefficient washers and dryers with energy-efficient models; 4) sheetrock repairs to sustain and protect new attic insulation; 5) floor repairs to prevent air leaks; 6) repairs to patches made to sheetrock during the addition of all new insulation; and 7) other direct costs authorized in advance by TCEQ.   |            |        |           |          | 8,650.00 | 8,650.00 |          |

|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Houston-Galveston AERCO for the Clean Cities/Clean Vehicles Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP monies will be used to aid local school districts and area transit agencies in reaching local match requirements mandated by the Federal Highway Administration's ("FHWA") Congestion Mitigation/Air Quality Funding program. SEP monies will be disbursed to school districts and transit agencies in need of funding assistance in the Houston-Galveston non-attainment area. Those SEP monies will be used exclusively by the school districts and transit agencies as supplements to meet the local match requirements of the EPA. SEP monies will be used to pay for the cost of replacing older diesel buses with alternative fueled or clean diesel buses. The old buses will be permanently retired and only sold for scrap. The schools and transit agencies will also use the SEP monies to retrofit more buses to reduce emissions. Houston-Galveston AERCO will send the TCEQ verification in the form of paid invoices and other documentation to show that the retrofits were completed. Retrofit technologies include particulate matter traps, diesel particulate matter filters, NOx reduction catalyst technology in combination with diesel particulate filters, and other emission control technologies that are developed and approved by EPA or the California Air Resources Board. |            |        |           |          | 2,642.00 | 2,642.00 |          |

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |       |                             |   |        |           |           |           |           |
|----|-------|-----------------------------|---|--------|-----------|-----------|-----------|-----------|
|    |       | POLLUTION PREVENTION        | RC&D will coordinate with local city and county government officials to clean-up sites where tires have been disposed of illegally. Contributions will be used to clean up illegal tire sites. Eligible sites will be limited to areas where a responsible party can not be identified and where there is no preexisting obligation to clean up the site by the owner or government. SEP monies will be used for the direct cost of collection and disposal of debris and tires. Benefit: Helps rid communities of the dangers and health threats associated with illegal tire sites. Eligible Counties: All counties in the state of Texas that are within the boundaries of one of the 23 RC&D Areas in the state of Texas. Estimated Time to Complete: 12 months. Estimated Cost: \$ 4,500 per collection event.   |        |           |           | 4,200.00  | 4,200.00  |
| AQ | 40065 | Linde Gas North America LLC | 05/08/2011  | 1.00:1 | 55,650.00 | 11,130.00 | 22,260.00 | 22,260.00 |
|    |       | POLLUTION PREVENTION        | The Respondent will contribute to Barbers Hill Independent School District's ("Barbers Hill ISD") Alternative Fueled Vehicle and Equipment Program in Chambers County. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between Barbers Hill ISD and the Texas Commission on Environmental Quality. SEP monies will be used to retire current diesel-powered or gasoline powered vehicles and equipment and replace those vehicles and equipment with alternative-fueled vehicles and equipment; convert current vehicles and equipment to alternative-fueled equipment; or retrofit current gasoline or diesel-powered equipment. Environmental Benefits: Replacement of gasoline and diesel powered lawnmowers, heavy equipment, and vehicles with lower-emission items will reduce air pollution emissions of particulate matter (PM), volatile organic carbon (VOC) compounds, nitrogen oxides (NOx), and other pollutants associated with the combustion of fuel. |        |           |           | 22,260.00 | 22,260.00 |

|    |       | POLLUTION PREVENTION        | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Abandoned Tire Clean-Up Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to clean-up sites where tires have been disposed of illegally. Eligible sites will be limited to those where a responsible party cannot be found and where reasonable efforts have been made to prevent the dumping. SEP monies will be used to pay for the direct cost of collecting and disposing of tires. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.  |        |           |           | 37,234.00 | 37,234.00 |

|    | POLLUTION PREVENTION | The Respondent will contribute to Texas A&M University-Kingsville, Air Quality Monitoring in San Patricio County. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between Texas A&M University-Kingsville and the Texas Commission on Environmental Quality. The 3rd party will establish three air quality monitoring stations in the San Patricio Water District. The stations will consist of ambient air monitoring instruments, meteorological instruments, and ancillary equipment. The primary objective of these new monitoring stations is to provide continuous non-regulatory information on air quality. The stations will also generate data on background concentrations, pollutant transports from outside the air shed, and from the industrial district during the periods of predominant southeast to northwest wind patterns. The monitoring sites will be located at the Odem Raw Water Stations, Taft Texana Blending Station, and the San Patricio Country.    | 45,824.00  | 45,824.00  |            |          |            |            |            |
|    | POLLUTION PREVENTION | Project will repair or replace failing water systems or on-site wastewater systems for low-income homeowners. SEP funds will be used to pay for the labor and material costs related to repairing or replacing the failing systems. The recipients will not be charged for the cost of replacing or repairing the failing system.<br>Benefit: Protect water sources for drinking, recreation and wildlife from contamination from the failing treatment systems; protect public health from contaminated drinking water supplies.<br>Eligible Counties: Statewide<br>Minimum Contribution: \$2,000   | 100,000.00 | 100,000.00 |            |          |            |            |            |

### Single Program

|    |                      |  |            |        |           |          |          |          |          |
|----|----------------------|--|------------|--------|-----------|----------|----------|----------|----------|
|    | POLLUTION PREVENTION | The Respondent will contribute to Barbers Hill Independent School District's ("Barbers Hill ISD") Alternative Fueled Vehicle and Equipment Program in Chambers County. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between Barbers Hill ISD and the Texas Commission on Environmental Quality. SEP monies will be used to retire current diesel-powered or gasoline powered vehicles and equipment and replace those vehicles and equipment with alternative-fueled vehicles and equipment; convert current vehicles and equipment to alternative-fueled equipment; or retrofit current gasoline or diesel-powered equipment.<br>Environmental Benefits: Replacement of gasoline and diesel powered lawnmowers, heavy equipment, and vehicles with lower-emission items will reduce air pollution emissions of particulate matter (PM), volatile organic carbon (VOC) compounds, nitrogen oxides (NOx), and other pollutants associated with the combustion of fuel.             |            |        |           |          | 1,100.00 | 1,100.00 |          |
| AQ | 40744                | Shell Chemical LP  | 06/20/2011 | 1.00:1 | 10,000.00 | 2,000.00 | 4,000.00 | 4,000.00 | 4,000.00 |
|    | POLLUTION PREVENTION | -  |            |        |           |          |          | 4,000.00 | 4,000.00 |

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                      |   |            |           |           |          |           |           |           |
|----|----------------------|---|------------|-----------|-----------|----------|-----------|-----------|-----------|
|    | POLLUTION PREVENTION | RC&D will coordinate with local city and county government officials to clean-up sites where tires have been disposed of illegally. Contributions will be used to clean up illegal tire sites. Eligible sites will be limited to areas where a responsible party can not be identified and where there is no preexisting obligation to clean up the site by the owner or government. SEP monies will be used for the direct cost of collection and disposal of debris and tires. Benefit: Helps rid communities of the dangers and health threats associated with illegal tire sites. Eligible Counties: All counties in the state of Texas that are within the boundaries of one of the 23 RC&D Areas in the state of Texas. Estimated Time to Complete: 12 months. Estimated Cost: \$ 4,500 per collection event.   | 10,080.00  | 10,080.00 |           |          |           |           |           |
| AQ | 40693                | Enterprise Products Operating LLC   | 05/22/2011 | 1.00:1    | 6,251.00  | 1,250.00 | 2,501.00  | 2,500.00  | 2,500.00  |
|    | POLLUTION PREVENTION | The Respondent will contribute to Barbers Hill Independent School District's ("Barbers Hill ISD") Alternative Fueled Vehicle and Equipment Program in Chambers County. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between Barbers Hill ISD and the Texas Commission on Environmental Quality. SEP monies will be used to retire current diesel-powered or gasoline powered vehicles and equipment and replace those vehicles and equipment with alternative-fueled vehicles and equipment; convert current vehicles and equipment to alternative-fueled equipment; or retrofit current gasoline or diesel-powered equipment. Environmental Benefits: Replacement of gasoline and diesel powered lawnmowers, heavy equipment, and vehicles with lower-emission items will reduce air pollution emissions of particulate matter (PM), volatile organic carbon (VOC) compounds, nitrogen oxides (NOx), and other pollutants associated with the combustion of fuel. | 2,500.00   | 2,500.00  |           |          |           |           |           |
| AQ | 40210                | Shell Chemical LP   | 04/18/2011 | 1.00:1    | 21,346.00 | 0.00     | 10,673.00 | 10,673.00 | 10,673.00 |
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Barbers Hill Independent School District for the Alternative Fueled Vehicle and Equipment Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP monies will be used to retire current diesel-powered or gasoline powered vehicles and equipment and replace those vehicles and equipment with alternative-fueled vehicles and equipment; convert current vehicles and equipment to alternative-fueled equipment; or retrofit current gasoline or diesel-powered equipment.   | 10,673.00  | 10,673.00 |           |          |           |           |           |

|    | POLLUTION PREVENTION | Project will fuse funds to aid local school districts, area transit agencies, and local governments in need of funding assistance to pay for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fueled or clean diesel buses; or 2) retrofitting older diesel buses with new cleaner technology. RC&D shall disburse funds to school districts, area transit agencies, or local governments on a needs-rated basis, using non-attainment area status, condition of buses, or economic status of recipient as possible rating factors if competition for funds exists. Minimum Contribution: \$1,500   | 3,350.00   | 3,350.00  |           |          |           |           |           |
| AQ | 39013                | Ascend Performance Materials, LLC   | 08/27/2011 | 1.00:1    | 22,175.00 | 0.00     | 11,088.00 | 11,087.00 | 11,087.00 |

\* There are Multiple Respondent Names associated to this Case No.

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                      |  |            |            |            |           |           |            |            |
|----|----------------------|--|------------|------------|------------|-----------|-----------|------------|------------|
|    | POLLUTION REDUCTION  | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be used by Brazoria County for the Brazoria County Vehicle and Equipment Program as set forth in an agreement between the Third-Party Recipient and the TCEQ.  | 11,087.00  | 11,087.00  |            |           |           |            |            |
| AQ | 39873                | Exxon Mobil Corporation  | 03/07/2011 | 1.00:1     | 26,950.00  | 5,390.00  | 10,780.00 | 10,780.00  | 10,780.00  |
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Houston Regional Monitoring Corporation for the HRMC Houston Area Air Monitoring to be used as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP funds will be used to supplement existing operation of a network of ambient air monitoring stations (designated HRM Sites 1, 3, 4, 7, 8, 10, Wallisville, and Lynchburg Ferry) that continuously measure and record concentrations of ambient air pollutants. Specifically, SEP funds will be used to operate, maintain, and potentially expand portions of the existing ambient air quality monitoring network in the Houston area in order to continue to provide information on data quality and trends to the public, TCEQ, and industry representatives. SEP funds may be used to operate a single monitoring site or multiple sites contingent upon the amount of SEP funds provided. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations. | 10,780.00  | 10,780.00  |            |           |           |            |            |
| AQ | 39406                | 850 Pine Street, Inc.  | 11/15/2010 | 1.00:1     | 11,050.00  | 2,210.00  | 4,420.00  | 4,420.00   | 4,420.00   |
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Jefferson County Government to be used for the Cheek Community First Time Sewer Service for Low Income Home Owners project. Specifically, SEP monies will be used to provide first time sewer service for low-income residential customers in the Candlelight and Martel Subdivisions (Cheek Community) located in the western area of Jefferson County. This area has open sewage pits or poorly maintained septic systems which are a hazard to human health and the environment. SEP funds will be used to install wastewater infrastructure and a low pressure sewer system consisting of grinder pump stations located at each home. The project will be administered in accordance with federal, state, and local environmental laws and regulations.  | 4,420.00   | 4,420.00   |            |           |           |            |            |
| AQ | 40916                | J-W Operating Company  | 08/27/2011 | 1.00:1     | 212,500.00 | 0.00      | 0.00      | 212,500.00 | 212,500.00 |
|    | POLLUTION PREVENTION | SEP funds will be used to construct, operate, maintain, and potentially expand a network of continuous ambient monitoring stations ("CAMS") that monitor both air toxics and ozone precursors.   | 212,500.00 | 212,500.00 |            |           |           |            |            |
| AQ | 39781                | Prism Gas Systems I, L.P   | 02/05/2011 | 1.00:1     | 54,800.00  | 10,960.00 | 21,920.00 | 21,920.00  | 21,920.00  |

\* There are Multiple Respondent Names associated to this Case No.

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                      |   |            |        |            |          |            |            |            |
|----|----------------------|---|------------|--------|------------|----------|------------|------------|------------|
|    | POLLUTION PREVENTION | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to aid local school districts, area transit agencies, and local governments in need of funding assistance to pay for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fuelled or clean diesel buses; or 2) retrofitting older diesel buses with new, cleaner technology. The funds will be disbursed on a needs-rated basis, using non-attainment area status, condition of buses, and economic status of the recipient as possible rating factors if competition for the funds exists. To maximize funds, retrofitting will take priority over replacement of buses. Older buses deemed not suitable for retrofitting will be permanently retired and sold only for scrap.<br><br>Acceptable retrofit technologies include particulate matter traps, diesel particulate matter filters, nitrogen oxides (NOx) reduction catalyst technology in combination with diesel particulate filters, and other emission control technologies that are developed and approved by the United States Environmental Protection Agency ("EPA") or the California Air Resources Board. |            |        |            |          | 21,920.00  | 21,920.00  |            |

|    |       | POLLUTION PREVENTION    | <p>The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Houston-Galveston AERCO for the Clean Cities/Clean Vehicles Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP monies will be used to aid local school districts and area transit agencies in reaching local match requirements mandated by the Federal Highway Administration's ("FHWA") Congestion Mitigation/Air Quality funding program. SEP monies will be disbursed to school districts and transit agencies in need of funding assistance in the Houston-Galveston non-attainment area. Those SEP monies will be used exclusively by the school districts and transit agencies as supplements to meet the local match requirements of the EPA. SEP monies will be used to pay for the cost of replacing older diesel buses with alternative fueled or clean diesel buses. The old buses will be permanently retired and only sold for scrap. The schools and transit agencies will also use the SEP monies to retrofit more buses to reduce emissions. Houston-Galveston AERCO will send the TCEQ verification in the form of paid invoices and other documentation to show that the retrofits were completed. Retrofit technologies include particulate matter traps, diesel particulate matter filters, NOx reduction catalyst technology in combination with diesel particulate filters, and other emission control technologies that are developed and approved by EPA or the California Air Resources Board.</p> |        |           |          | 4,100.00  | 4,100.00  |           |

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                      |   |            |          |           |          |          |          |          |
|----|----------------------|---|------------|----------|-----------|----------|----------|----------|----------|
|    | CLEAN UP             | Performing party shall coordinate with local city and county government officials and private entities to clean up sites where tires have been disposed of illegally, or to conduct tire collection events where residents will be able to drop off tires for proper disposal or recycling.   | 6,345.00   | 6,345.00 |           |          |          |          |          |
| AQ | 39307                | BASF FINA Petrochemicals Limited Partnership  | 09/26/2010 | 1.00:1   | 9,775.00  | 1,955.00 | 3,910.00 | 3,910.00 | 3,910.00 |
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Amount to the Third-Party Recipient named above. The contribution will be Southeast Texas Regional Planning Commission to be used for the West Port Arthur Home Energy Efficiency Program as set forth in agreement between the Third-Party Recipient and the TCEQ. Specifically, the Performing Party shall use SEP Funds to assist low-income residents in the West Port Arthur area by: 1) conducting home energy audits; 2) weatherizing homes to improve energy efficiency; and/or 3) repairing or replacing heating/cooling systems and major appliances with new, energy-efficient equipment. Weatherizing homes may include costs of caulking openings as well as insulating walls, floors, and attics in homes. Any heating/cooling systems or major appliances that are replaced must be scrapped and must not be reused in any way. Performing Party shall use consistent and reliable criteria for determining the low-income status of residents assisted with SEP Funds.  | 3,910.00   | 3,910.00 |           |          |          |          |          |

|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP amount to the Third-Party Recipient named above. The contribution will be to the Southeast Texas Regional Planning Commission to be used for the Southeast Texas Regional Air Monitoring Network Ambient Air Monitoring Station as set forth in agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to install, operate, and maintain a stationary ambient air monitoring station in the vicinity of Memorial High School Ninth Grade Campus. The station will employ canister sampling, a hydrocarbon analyzer, and/or a chromatograph. Ancillary equipment will include a sample conditioning system, a ten meter meteorological tower, a climate controlled equipment shelter, a remote communications system, and will have electronic data logging capabilities. The station will continuously sample and analyze the ambient air for a wide range of hydrocarbon species in accordance with Environmental Protection Agency's recommended "TO-14" list. SEP monies will be used for the cost of purchasing, installing, operating, and maintaining the air monitoring station along with its ancillary equipment. | 2,530.00   | 2,530.00 |           |          |          |          |          |

|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Texas Air Quality Research Center at Lamar University for the Flare Speciation and Air Quality Modeling project to be used as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP funds will be used for advanced modeling and simulations to identify the VOC species generated and emitted from industrial flares at chemical process facilities under various operating conditions and environmental conditions as well as determine the Combustion Efficiency (CE) and Destruction and Removal Efficiency (DRE). All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.  | 7,680.00   | 7,680.00 |           |          |          |          |          |

|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Houston Regional Monitoring Corporation for the HRMC Houston Area Air Monitoring to be used as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP funds will be used to supplement existing operation of a network of ambient air monitoring stations (designated HRM Sites 1, 3, 4, 7, 8, 10, Wallisville, and Lynchburg Ferry) that continuously measure and record concentrations of ambient air pollutants. Specifically, SEP funds will be used to operate, maintain, and potentially expand portions of the existing ambient air quality monitoring network in the Houston area in order to continue to provide information on data quality and trends to the public, TCEQ, and industry representatives. SEP funds may be used to operate a single monitoring site or multiple sites contingent upon the amount of SEP funds provided. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.  | 15,000.00  | 15,000.00  |            |          |            |            |            |

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                      |   |            |        |           |           |           |           |           |
|----|----------------------|---|------------|--------|-----------|-----------|-----------|-----------|-----------|
|    | POLLUTION PREVENTION | Specifically, the SEP Offset Amount will be used to perform energy efficiency upgrades on public buildings and infrastructure. The SEP Offset Amount may only be used for: (1) the cost of conducting energy efficiency audits; (2) the incremental cost for construction or implementation of energy-efficiency upgrades (versus the cost of non-energy efficiency upgrades); (3) the incremental cost of purchase of equipment or appliances that are more energy-efficient (versus the cost of purchasing non-energy efficient equipment or appliances); or (4) other direct costs authorized in advance by TCEQ. The SEP Offset Amount may only be used for the direct cost of performing this project and no portion will be spent on administrative costs. For items 2, 3, and 4 above, Performing Party shall submit a budget and proposals for expenditure to TCEQ for written approval prior to the use of SEP Funds.<br><br>Modifications may include but are not limited to weatherization; energy-reduction modifications such as building envelope upgrades (cool roofs, exterior shading, optimized insulation and air sealing); installation of high-efficiency lighting fixtures and occupancy sensors for both lighting and HVAC; high-efficiency demand-controlled ventilation and energy-efficient boilers; more efficient exterior lighting and energy-efficient office equipment; replacing heating, ventilation, and cooling (HVAC) systems with more efficient boilers, motors, and variable-speed drives; reducing energy and maintenance costs by installing centralized energy management systems; lowering electric lighting and cooling loads and boosting productivity through increased use of daylighting; installation of LED traffic lights; and use of renewable energy sources. Performing Party shall quantify the environmental benefit of each project and submit the results of those calculations to TCEQ within 90 days of completion of each project. |            |        |           |           | 3,304.00  | 3,304.00  |           |
| AQ | 39284                | Aruba Petroleum, INC.   | 03/07/2011 | 1.00:1 | 35,500.00 | 0.00      | 0.00      | 35,500.00 | 35,500.00 |
|    | POLLUTION PREVENTION | SEP funds will be used to construct, operate, maintain, and potentially expand a network of continuous ambient monitoring stations ("CAMS") that monitor both air toxics and ozone precursors.  |            |        |           |           |           | 35,500.00 | 35,500.00 |

Any heating/cooling systems or major appliances that are replaced must be scrapped and must not be reused in any way. Performing Party shall use consistent and reliable criteria for determining the low-income status of residents assisted with SEP funds. |            |        |           |          | 11,340.00 | 11,340.00 |           |
| AQ | 39751                | Flint Hills Resources, LP   | 02/05/2011 | 1.00:1 | 70,382.00 | 0.00     | 35,191.00 | 35,191.00 | 35,191.00 |
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP amount to the Third-Party Recipient named above. The contribution will be to the Southeast Texas Regional Planning Commission to be used for the West Port Arthur Home Energy Efficiency Program as set forth in the agreement between the Third-Party Recipient and the TCEQ. Specifically, the Performing Party shall use SEP funds to assist low-income residents in the West Port Arthur area by: 1) conducting home energy audits; 2) weatherizing homes to improve energy efficiency; and/or 3) repairing or replacing heating/cooling systems and major appliances with new, energy-efficient equipment. Weatherizing homes may include costs of caulking openings as well as insulating walls, floors, and attics in homes. Any heating/cooling systems or major appliances that are replaced must be scrapped and must not be reused in any way. Performing Party shall use consistent and reliable criteria for determining the low-income status of residents assisted with SEP funds. |            |        |           |          | 35,191.00 | 35,191.00 |           |

\* There are Multiple Respondent Names associated to this Case No.

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                      |   |            |           |           |          |          |          |          |
|----|----------------------|---|------------|-----------|-----------|----------|----------|----------|----------|
|    | POLLUTION PREVENTION | Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Texas Air Research Center for the Flare Minimization and Air Quality Modeling project. The contribution will be used in accordance with the Supplemental Environmental Project executed on October 30, 2009, between the Third-Party Recipient and the TCEQ (the "Project"). Specifically, the SEP Offset Amount will be used for advanced modeling involving utilizing optimization and plant-wide dynamic simulation to cause reductions in flaring during turnaround operations at industrial facilities. Flaring during turnaround operations (startups and shutdowns) at industrial facilities is a substantial source of both volatile organic compounds (VOCs) and highly reactive volatile organic compounds (HRVOCs), and flaring results in considerable loss of energy and resources. Reductions in VOC and HRVOC emissions are expected to occur primarily through reducing the duration of turnarounds and through recycling or reuse of materials that would otherwise be flared.<br><br>All dollars contributed will be used solely for the direct cost of the Project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state, and local environmental laws and regulations. | 10,000.00  | 10,000.00 |           |          |          |          |          |
| AQ | 40884                | The Lubrizol Corporation  | 07/02/2011 | 1.00:1    | 17,450.00 | 3,490.00 | 6,980.00 | 6,980.00 | 6,980.00 |
|    | POLLUTION PREVENTION | Project will fuse funds to aid local school districts, area transit agencies, and local governments in need of funding assistance to pay for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fueled or clean diesel buses; or 2) retrofitting older diesel buses with new cleaner technology. RC&D shall disburse funds to school districts, area transit agencies, or local governments on a needs-rated basis, using non-attainment area status, condition of buses, or economic status of recipient as possible rating factors if competition for funds exists.<br><br>Minimum Contribution: \$1,500  |            |           |           |          | 6,980.00 | 6,980.00 |          |
| AQ | 41247                | Huntsman Petrochemical Corporation  | 08/27/2011 | 1.00:1    | 20,000.00 | 4,000.00 | 8,000.00 | 8,000.00 | 8,000.00 |
|    | POLLUTION PREVENTION | Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Texas Air Research Center for the Flare Minimization and Air Quality Modeling project. The contribution will be used in accordance with the Supplemental Environmental Project executed on October 30, 2009, between the Third-Party Recipient and the TCEQ (the "Project"). Specifically, the SEP Offset Amount will be used for advanced modeling involving utilizing optimization and plant-wide dynamic simulation to cause reductions in flaring during turnaround operations at industrial facilities. Flaring during turnaround operations (startups and shutdowns) at industrial facilities is a substantial source of both volatile organic compounds (VOCs) and highly reactive volatile organic compounds (HRVOCs), and flaring results in considerable loss of energy and resources. Reductions in VOC and HRVOC emissions are expected to occur primarily through reducing the duration of turnar  |            |           |           |          | 8,000.00 | 8,000.00 |          |
| AQ | 41099                | Flint Hills Resources Port Arthur, LLC  | 08/27/2011 | 1.00:1    | 10,000.00 | 2,000.00 | 4,000.00 | 4,000.00 | 4,000.00 |
|    | POLLUTION PREVENTION | Conduct home energy audits and to assist low income residents in the West Port Arthur area in improving their homes' energy efficiency such as by caulking, weatherizing, insulating, and replacing heating and cooling systems and major appliances with new, energy efficient equipment.  |            |           |           |          | 4,000.00 | 4,000.00 |          |

### Single Program

|    |       |                                      |  |        |            |           |           |           |           |
|----|-------|--------------------------------------|--|--------|------------|-----------|-----------|-----------|-----------|
| AQ | 41110 | Chevron Phillips Chemical Company LP | 08/13/2011   | 1.00:1 | 70,000.00  | 0.00      | 35,000.00 | 35,000.00 | 35,000.00 |
|    |       | POLLUTION PREVENTION                 | SEP Funds will be used to conduct home energy audits, to make repairs and upgrades to older homes, and to cover the incremental cost of replacing older energy-inefficient appliances with more energy-efficient ones for low-income homeowners in the West Port Arthur area. This project is an pollution reduction project that will result in a reduction of air pollutants in the airshed.   |        |            |           |           | 35,000.00 | 35,000.00 |
| AQ | 39390 | Exxon Mobil Corporation              | 10/25/2010   | 1.00:1 | 40,000.00  | 0.00      | 20,000.00 | 20,000.00 | 20,000.00 |
|    |       | POLLUTION PREVENTION                 | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Houston Regional Monitoring Corporation for the HRMC Houston Area Air Monitoring to be used as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP funds will be used to supplement existing operation of a network of ambient air monitoring stations (designated HRM Sites 1, 3, 4, 7, 8, 10, Wallisville, and Lynchburg Ferry) that continuously measure and record concentrations of ambient air pollutants. Specifically, SEP funds will be used to operate, maintain, and potentially expand portions of the existing ambient air quality monitoring network in the Houston area in order to continue to provide information on data quality and trends to the public, TCEQ, and industry representatives. SEP funds may be used to operate a single monitoring site or multiple sites contingent upon the amount of SEP funds provided. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations. |        |            |           |           | 20,000.00 | 20,000.00 |

|    |       | POLLUTION REDUCTION                  | Respondent shall contribute the SEP offset Amount to the Third-Party Administrator named above. The contribution will be to Barbers Hill Independent School District (Barbers Hill ISD) for the Vehicle and Equipment Program. The contribution will be used in accordance with the Supplemental Environmental Project between Barbers Hill ISD and the Texas Commission on Environmental Quality (TCEQ). The Third-Party Administrator shall 1) retire current diesel-powered or gasoline-powered vehicles and equipment and replace those vehicles and equipment with alternative-fueled or low-emission vehicles/equipment; 2) convert current vehicles and equipment to alternative-fueled vehicles/equipment; or 3) retrofit current gasoline-powered and diesel-powered vehicles and equipment to decrease emissions from those sources.   |        |            |           |           | 3,162.00  | 3,162.00  |

|-----|----------------------|---|--|--------|------------|-----------|-----------|-----------|-----------|
|     | CLEAN UP             |   | Respondent shall contribute to Third Party Recipient and contribution will be used to clean up sites where tires have been disposed of illegally. The SEP Offset Amount will be used to pay for the labor and disposal costs associated with proper clean up and disposal of abandoned tires. Eligible cleanup sites will be limited to those where a responsible party cannot be found and where reasonable efforts have been made to prevent the dumping. Any SEP Offset Amount remaining after completion of this project may, upon approval of the Executive Director, be applied to another approved RC&D project.<br><br>Respondent shall also contribute to Third Party Recipient for Household Hazardous Waste collection whereby residents shall be allowed to bring household hazardous waste to the collection site for proper disposal. Specifically, the SEP Offset Amount will pay for the labor and disposal costs associated with properly disposing of paint, thinners, pesticides, oil and gas, corrosive cleaners, fertilizers, and other wastes. Citizens will not be charged disposal fees. The project will be administered in accordance with TCEQ guidance on household hazardous waste and in compliance with federal, state, and local environmental laws and regulations.   |        |            |           |           | 19,900.00 | 19,900.00 |
| IHW | 40588                | Diamond Shamrock Refining Company, L.P. | 08/27/2011   | 1.00:1 | 103,075.00 | 20,615.00 | 41,230.00 | 41,230.00 | 41,230.00 |
|     | POLLUTION PREVENTION |   | Project will repair or replace failing water systems or on-site wastewater systems for low-income homeowners. SEP funds will be used to pay for the labor and material costs related to repairing or replacing the failing systems. The recipients will not be charged for the cost of replacing or repairing the failing system.<br>Benefit: Protect water sources for drinking, recreation and wildlife from contamination from the failing treatment systems; protect public health from contaminated drinking water supplies.<br>Eligible Counties: Statewide<br>Minimum Contribution: \$2,000   |        |            |           |           | 41,230.00 | 41,230.00 |

|     | POLLUTION PREVENTION |   | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to the National Audubon Society for the Sundown Sanctuary Island Anti-erosion, Re-vegetation and Pest Control Project. The Sundown Island and four other small coastal islands located off Port O'Connor are major sites for nesting colonial waterbirds. These islands are increasingly subject to erosion and consequent land loss due to an increasing number of vessels, storm winds and surges, etc. Texas coastal sanctuary islands in this area host one of the largest roseate spoonbill, reddish egret and brown pelican colonies in the U.S. Colonial. The SEP offset amount will be used to restore the size of the islands utilizing dredge spoil, conduct re-vegetation using native plants, and treat vegetation to control pest populations.<br><br>The SEP will be done in accordance with all federal, state and local environmental laws and regulations. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The Respondent shall not profit from this SEP in any manner. The Respondent certifies that it has no prior commitment to make this contribution and that it is being done solely in an effort to settle this enforcement action. |        |            |           |           | 27,070.00 | 27,070.00 |

### Single Program

|                           |       |   |            |           |           |           |           |           |           |
|---------------------------|-------|---|------------|-----------|-----------|-----------|-----------|-----------|-----------|
| POLLUTION PREVENTION      |       | Contributions will be used in accordance with the Supplemental Environmental Project Agreement between the Armand Bayou Nature Center and the Texas Commission on Environmental Quality. The tallgrass prairie was once a common ecosystem in Texas and the United States. Today more than 99% of this habitat has been lost and the remainder is highly fragmented and severely threatened by exotic species and development. Prescribed burning is one stewardship tool used to maintain a tallgrass prairie ecosystem. If the prairie is not maintained, it can be destroyed by invasive species which primarily include the Chinese Tallow tree and other woody plants. Historically, prairies were managed by grazing, natural fires set by lightning, or fires set by Native Americans to aid in their hunter-gatherer lifestyle. ABNC must employ prescribed burning methods and can not use more natural stewardship tools due to its location in the center of a highly urbanized and industrialized area. ABNC=s stewards | 38,808.00  | 38,808.00 |           |           |           |           |           |
| IHW                       | 39785 | Intergulf Corporation   | 08/27/2011 | 1.00:1    | 52,600.00 | 0.00      | 26,300.00 | 26,300.00 | 26,300.00 |
| ENVIRONMENTAL ENHANCEMENT |       | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Armand Bayou Nature Center to be used for the Coastal Tall Grass Management-Prescribed Burn Program and Prairie Restoration Project Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to pay for the labor and materials costs associated with conducting prescribed burns, removing non-native trees, and for planting native trees and plants.<br><br>The Respondent certifies that there is no prior commitment to do this project and that it is being performed solely in an effort to settle this enforcement action.   | 13,150.00  | 13,150.00 |           |           |           |           |           |
| ENVIRONMENTAL ENHANCEMENT |       | the SEP Offset Amount will be used to restore shoreline elevations, grow plants for shoreline restoration, and plant new habitat. Historic subsidence and erosion have resulted in shoreline elevations which are too low to support vegetation. This project will seek to raise elevations by scraping and terracing. Scraping involves the use of earthmoving equipment to grade an eroded, bluff-like shoreline so that it slopes gradually towards the water resulting in the ability of plant growth. Terracing uses earthmoving equipment to create small levees by burrowing and stacking sediment in shallow water. The higher elevation can then be planted with emergent vegetation. The SEP Offset Amount will be used to pay for the direct cost of the implementation of the project, including material, equipment and labor costs.   | 13,150.00  | 13,150.00 |           |           |           |           |           |

|     | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Keep Texas Beautiful for the Stop Trashing Texas project as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, SEP funds will pay for the labor and disposal costs associated with cleanup of unauthorized trash dumps by supplying project coordination, labor, supplies, and materials for clean up events statewide. SEP funds used for this purpose shall be limited to the actual direct costs for the specific purpose necessary to meet the requirements of the SEP and no potion of the SEP funds will be spent on administrative costs related to this portion of the SEP. Trash dump cleanups may be coordinated with waste collection facilities and/or local governments to employ heavy machinery for the removal of large waste items. To the maximum extent possible, cleanups shall be accomplished with the use of volunteers from community groups, private companies, schools, and youth organizations. SEP funds may be used for activities. This project will be administered in accordance with federal, state, and local environmental laws and regulations. |            |          |           |          | 2,430.00  | 2,430.00  |           |

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                      |   |            |        |           |          |           |           |           |
|----|----------------------|---|------------|--------|-----------|----------|-----------|-----------|-----------|
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Unauthorized Trash Dump Clean-Up Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to coordinate with city and/or county governmental officials regarding the clean up of sites where trash has been disposed of illegally. Eligible sites will be limited to those where a responsible party can not be identified and where there is no pre-existing obligation to clean up the site by the owner or the government. Additionally, reasonable efforts must have already been taken to prevent the dumping. SEP monies will be used to pay for the direct cost of collection and disposal of debris. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations. |            |        |           |          | 2,448.00  | 2,448.00  |           |
| WQ | 40567                | City of San Augustine   | 07/02/2011 | 1.00:1 | 37,975.00 | 7,595.00 | 0.00      | 30,380.00 | 30,380.00 |
|    | POLLUTION PREVENTION | Project will repair or replace failing water systems or on-site wastewater systems for low-income homeowners. SEP funds will be used to pay for the labor and material costs related to repairing or replacing the failing systems. The recipients will not be charged for the cost of replacing or repairing the failing system. Benefit: Protect water sources for drinking, recreation and wildlife from contamination from the failing treatment systems; protect public health from contaminated drinking water supplies. Eligible Counties: Statewide Minimum Contribution: \$2,000   |            |        |           |          | 30,380.00 | 30,380.00 |           |

|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Unauthorized Trash Dump Clean-Up Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to coordinate with city and/or county governmental officials regarding the clean up of sites where trash has been disposed of illegally. Eligible sites will be limited to those where a responsible party can not be identified and where there is no pre-existing obligation to clean up the site by the owner or the government. Additionally, reasonable efforts must have already been taken to prevent the dumping. SEP monies will be used to pay for the direct cost of collection and disposal of debris. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations. |            |        |           |          | 1,800.00  | 1,800.00  |           |

### Single Program

|                      |       |   |            |        |           |          |           |           |          |
|----------------------|-------|---|------------|--------|-----------|----------|-----------|-----------|----------|
| POLLUTION PREVENTION |       | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Keep Texas Beautiful for the Stop Trashing Texas project as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, SEP funds will pay for the labor and disposal costs associated with cleanup of unauthorized trash dumps by supplying project coordination, labor, supplies, and materials for clean up events statewide. SEP funds used for this purpose shall be limited to the actual direct costs for the specific purpose necessary to meet the requirements of the SEP and no portion of the SEP funds will be spent on administrative costs related to this portion of the SEP. Trash dump cleanups may be coordinated with waste collection facilities and/or local governments to employ heavy machinery for the removal of large waste items. To the maximum extent possible, cleanups shall be accomplished with the use of volunteers from community groups, private companies, schools, and youth organizations. SEP funds may be used for activities. This project will be administered in accordance with federal, state, and local environmental laws and regulations. |            |        |           |          | 30,450.00 | 30,450.00 |          |
| POLLUTION PREVENTION |       | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Water or Wastewater Treatment Assistance Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to provide low income rural homeowners with assistance to enable the repair or replacement of their failing on-site wastewater systems. SEP monies will be used to pay for the labor and materials costs related to repairing or replacing the failing systems. The recipients will not be charged for the cost of replacing or repairing the failing systems.   |            |        |           |          | 30,450.00 | 30,450.00 |          |

| POLLUTION PREVENTION |       | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Jefferson County Government to be used for the Cheek Community First Time Sewer Service for Low Income Home Owners project. Specifically, SEP monies will be used to provide first time sewer service for low-income residential customers in the Candlelight and Martel Subdivisions (Cheek Community) located in the western area of Jefferson County. This area has open sewage pits or poorly maintained septic systems which are a hazard to human health and the environment. SEP Funds will be used to install wastewater infrastructure and a low pressure sewer system consisting of grinder pump stations located at each home. The project will be administered in accordance with federal, state, and local environmental laws and regulations.   |            |        |           |          | 5,328.00  | 5,328.00  |          |

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                           |   |            |           |           |          |      |           |           |
|----|---------------------------|---|------------|-----------|-----------|----------|------|-----------|-----------|
|    | POLLUTION PREVENTION      | RC&D will coordinate with local city and county government officials to clean-up sites where tires have been disposed of illegally. Contributions will be used to clean up illegal tire sites. Eligible sites will be limited to areas where a responsible party can not be identified and where there is no preexisting obligation to clean up the site by the owner or government. SEP monies will be used for the direct cost of collection and disposal of debris and tires. Benefit: Helps rid communities of the dangers and health threats associated with illegal tire sites. Eligible Counties: All counties in the state of Texas that are within the boundaries of one of the 23 RC&D Areas in the state of Texas. Estimated Time to Complete: 12 months. Estimated Cost: \$ 4,500 per collection event.   | 4,600.00   | 4,600.00  |           |          |      |           |           |
| WQ | 37788                     | City of Godley  | 04/18/2011 | 1.00:1    | 44,750.00 | 0.00     | 0.00 | 44,750.00 | 44,750.00 |
|    | POLLUTION PREVENTION      | Project shall coordinate collection events for local residents to bring in household hazardous waste such as paint, thinners, pesticides, oil and gas, corrosive cleaners, and fertilizers for proper disposal. Where available, the projects may also offer electronics collection and recycling. SEP funds shall be used for collection, recycling and disposal.  | 18,000.00  | 18,000.00 |           |          |      |           |           |
|    | POLLUTION REDUCTION       | Project will repair or replace failing water systems or on-site wastewater systems for low-income homeowners. SEP funds will be used to pay for the labor and material costs related to repairing or replacing the failing systems. The recipients will not be charged for the cost of replacing or repairing the failing system.   | 26,750.00  | 26,750.00 |           |          |      |           |           |
| WQ | 40880                     | City of Cleveland   | 07/02/2011 | 1.00:1    | 7,600.00  | 1,520.00 | 0.00 | 6,080.00  | 6,080.00  |
|    | POLLUTION PREVENTION      | Project will repair or replace failing water systems or on-site wastewater systems for low-income homeowners. SEP funds will be used to pay for the labor and material costs related to repairing or replacing the failing systems. The recipients will not be charged for the cost of replacing or repairing the failing system. Benefit: Protect water sources for drinking, recreation and wildlife from contamination from the failing treatment systems; protect public health from contaminated drinking water supplies. Eligible Counties: Statewide Minimum Contribution: \$2,000   | 6,080.00   | 6,080.00  |           |          |      |           |           |
| WQ | 40136                     | City of Uvalde  | 05/08/2011 | 1.00:1    | 8,400.00  | 1,680.00 | 0.00 | 6,720.00  | 6,720.00  |
|    | ENVIRONMENTAL RESTORATION | The Respondent shall replant the Cooks Slough Nature Park constructed wetland, which is a freshwater marsh with new emergent plantings including approximately one-thousand cattails (Typha latifolia) and an equal number of soft stem bulrushes (Scirpus validus). Water levels will be lowered to allow for proper planting. Plantings will be made in the shallow areas of the wetland following the seasonal departure of migratory waterfowl from the existing wetland area. Wetlands provide productive ecosystems that are rich in organic matter and nutrients which support organisms within the wetland and can be effective in improving the water quality in area lakes, rivers, and estuaries. Improving wetland vegetation impacts the productivity of these systems by supporting waterfowl and other wildlife, as well as capturing sediments, and filtering pollutants, which improves water quality. | 6,720.00   | 6,720.00  |           |          |      |           |           |
| WQ | 39163                     | Town of Little Elm  | 04/18/2011 | 1.00:1    | 12,225.00 | 2,445.00 | 0.00 | 9,780.00  | 9,780.00  |

\* There are Multiple Respondent Names associated to this Case No.

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                      |   |            |           |           |          |           |           |           |
|----|----------------------|---|------------|-----------|-----------|----------|-----------|-----------|-----------|
|    | POLLUTION PREVENTION | The Respondent shall conduct two city-wide pharmaceutical collection events to provide city-wide collection and proper disposal of pharmaceuticals at no cost to the public. The events will include collection and proper disposal of pharmaceuticals, including those that may be considered to have endocrine disrupting effects, from citizens in the Town of Little Elm and surrounding communities.<br><br>This SEP will provide a discernible environmental benefit by providing proper and safe disposal of harmful chemicals that can leach into the soil, water, and air. The events are designed to help alleviate the threat to wildlife posed by improperly disposed pharmaceuticals, which can cause endocrine disruption and affect other biological processes.  | 9,780.00   | 9,780.00  |           |          |           |           |           |
| WQ | 40073                | City of Odem  | 06/20/2011 | 1.00:1    | 5,495.00  | 0.00     | 0.00      | 5,495.00  | 5,495.00  |
|    | POLLUTION REDUCTION  | Respondent shall perform a waterway cleanup project (the "project") along Peter Swale Creek, in the Bayside Watershed, a tributary to the Aransas River, in San Patricio County, Texas. The project will remove illegally discarded bulky municipal waste including but not limited to abandoned tires, dilapidated furniture, broken appliances, animal carcasses, and trash. The project will be performed at the intersection of County Road 1694 and County Road 2269 in San Patricio County, Texas.  | 5,495.00   | 5,495.00  |           |          |           |           |           |
| WQ | 40728                | Vam USA LLC   | 06/20/2011 | 1.00:1    | 71,424.00 | 0.00     | 35,712.00 | 35,712.00 | 35,712.00 |
|    | POLLUTION PREVENTION | Contributions will be used in accordance with the Supplemental Environmental Project Agreement between the Armand Bayou Nature Center and the Texas Commission on Environmental Quality. The tallgrass prairie was once a common ecosystem in Texas and the United States. Today more than 99% of this habitat has been lost and the remainder is highly fragmented and severely threatened by exotic species and development. Prescribed burning is one stewardship tool used to maintain a tallgrass prairie ecosystem. If the prairie is not maintained, it can be destroyed by invasive species which primarily include the Chinese Tallow tree and other woody plants. Historically, prairies were managed by grazing, natural fires set by lightning, or fires set by Native Americans to aid in their hunter-gatherer lifestyle. ABNC must employ prescribed burning methods and can not use more natural stewardship tools due to its location in the center of a highly urbanized and industrialized area. ABNC=s stewards | 17,856.00  | 17,856.00 |           |          |           |           |           |
|    | POLLUTION PREVENTION | Trash Bash is an annual event that entails the use of volunteers to clean up trash and pollutants from Galveston Bay and waterways in the San Jacinto watershed. The project has resulted in the removal of an average of 141.7 tons of trash and 729 abandoned tires annually from these waterways. SEP monies will pay for materials, supplies, disposal costs and transportation costs directly associated with the clean up of trash.   | 17,856.00  | 17,856.00 |           |          |           |           |           |

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                      |   |            |        |           |          |           |           |           |
|----|----------------------|---|------------|--------|-----------|----------|-----------|-----------|-----------|
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to National Audubon Society for the Sundown Sanctuary Island Anti-erosion, Re-vegetation and Pest Control Project. The Sundown Island and four other small coastal islands located off Port O'Connor are major sites for nesting colonial waterbirds. These islands are increasingly subject to erosion and consequent land loss due to an increasing number of vessels, storm winds and surges, etc. Texas coastal sanctuary islands in this area host one of the largest roseate spoonbill, reddish egret and Brown pelican colonies in the U.S. Colonial. The SEP offset amount will be used to restore the size of the islands utilizing dredge spoil, conduct revegetation using native plants, and treat vegetation to control pest populations.<br><br>The SEP will be done in accordance with all federal, state and local environmental laws and regulations. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The Respondent shall not profit from this SEP in any manner. The Respondent certifies that it has no prior commitment to make this contribution and that it is being done solely in an effort to settle this enforcement action. |            |        |           |          | 4,224.00  | 4,224.00  |           |

|----|----------------------|---|------------|------------|------------|--------|----------|------------|------------|
|    | POLLUTION PREVENTION | Performing Party shall establish, operate and maintain water quality monitoring stations in streams, lakes, rivers, or other water bodies within one hundred miles of San Marcos, Texas. The stations will consist of ambient water quality monitoring instruments, meteorological instruments, and ancillary equipment. The primary objective of these new monitoring stations is to provide continuous monitoring of area water quality. The information collected will be non-regulatory, and will be used to monitor the quality and safety of Texas surface waters, and to assess the state of the environment with real-time or near real-time monitoring data. SEP monies will be used to pay for the instrumentation, installation, and maintenance and/or operation of the instrumentation, data validation, software license, and web server costs.   | 22,500.00  | 22,500.00  |            |        |          |            |            |
| WQ | 36948                | City of Chico   | 10/25/2010 | 1.00:1     | 208,475.00 | 0.00   | 0.00     | 208,475.00 | 208,475.00 |
|    | POLLUTION REDUCTION  | The Respondent shall provide first-time wastewater service to approximately 12 or more low-income residences that comply with the parameters of this SEP, up to the SEP Offset Amount for SEP No. 1 that have failing or inadequately designed septic systems, at no cost to the residents.   | 200,000.00 | 200,000.00 |            |        |          |            |            |
|    | POLLUTION REDUCTION  | Project will repair or replace failing water systems or on-site wastewater systems for low-income homeowners. SEP funds will be used to pay for the labor and material costs related to repairing or replacing the failing systems. The recipients will not be charged for the cost of replacing or repairing the failing system. Benefit: Protect water sources for drinking, recreation and wildlife from contamination from the failing treatment systems; protect public health from contaminated drinking water supplies.  | 8,475.00   | 8,475.00   |            |        |          |            |            |
| WQ | 39446                | City of Omaha   | 07/02/2011 | 1.00:1     | 9,020.00   | 0.00   | 0.00     | 9,020.00   | 9,020.00   |
|    | CLEAN UP             | Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. ("RC&D") to be used for the Cleanup of Unauthorized Trash Dumps program as set forth in an agreement between the Third-Party Recipient and the TCEQ (the "Project"). Specifically, the SEP Offset Amount will be used to coordinate with city and county government officials and private entities to clean up sites where trash has been disposed of illegally. Eligible sites will be limited to those where a responsible party cannot be identified, where there is no pre-existing obligation to clean up the site by the owner or the government, and where reasonable efforts have already been taken to prevent the dumping. The SEP Offset Amount may be used for the direct cost of collection and disposal or recycling of debris. Any SEP Offset Amount remaining after completion of the Project may, upon approval of the Executive Director, be applied to another approved RC&D project. | 9,020.00   | 9,020.00   |            |        |          |            |            |

\* There are Multiple Respondent Names associated to this Case No.

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|                      |       |                                     |   |        |           |          |           |           |           |
|----------------------|-------|-------------------------------------|---|--------|-----------|----------|-----------|-----------|-----------|
| POLLUTION PREVENTION |       |                                     |   |        |           |          |           |           |           |
|                      |       |                                     | <p>The Wenzel Tract Quarry is on an 85-acre property in Hays County, acquired by the Hill Country Conservancy and City of Austin to serve as an aquifer enhancement area for the Edwards Aquifer.</p> <p>This project involves using the quarry to capture and hold diverted storm flow until it can be absorbed or recharged into the aquifer. It has been estimated that the quarry could divert up to 275 acre feet of storm runoff into the aquifer annually. This would help protect against low or cessation of flow to Barton Springs, which is comprised of four springs that provide the only known habitat for two species of Plethodontid salamanders, Eurycea sosorum, the Barton Springs Salamander, and Eurycea waterlooensis, the Austin Blind Salamander. Eurycea sosorum was federally listed as endangered in 1998 and Eurycea waterlooensis is being evaluated for listing by the United States Fish and Wildlife Service. Additionally, the quarry is expected to attract nesting ducks and other waterfowl through mudflats and shallow water retention areas.</p> <p>Performing Party shall use SEP Funds on the property to:<br/>         1) Remove invasive plants; 2) provide native plantings; 3) perform water sampling and analysis; 4) create mudflats and shallow water retention areas; 5) provide nesting structures for birds; 6) restore and enhance wetlands; and 7) construct diversion channel to capture storm flow for aquifer recharge enhancement.</p> |        |           |          | 3,000.00  | 3,000.00  |           |

| POLLUTION PREVENTION |       |                                     |   |        |           |          |           |           |           |
|                      |       |                                     | <p>The Respondent shall contribute to SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&amp;D Unauthorized Trash Dump Clean-Up Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to coordinate with city and/or county governmental officials regarding the clean up of sites where trash has been disposed of illegally. Eligible sites will be limited to those where a responsible party can not be identified and where there is no pre-existing obligation to clean up the site by the owner or the government. Additionally, reasonable efforts must have already been taken to prevent the dumping. SEP monies will be used to pay for the direct cost of collection and disposal of debris. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.</p>   |        |           |          | 1,632.00  | 1,632.00  |           |
| WQ                   | 39900 | Gulf Coast Waste Disposal Authority | 02/05/2011  | 1.00:1 | 14,175.00 | 2,835.00 | 0.00      | 11,340.00 | 11,340.00 |
| POLLUTION PREVENTION |       |                                     |   |        |           |          |           |           |           |
|                      |       |                                     | <p>The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Galveston Bay Foundation to be used for the Galveston Bay Foundation "Marsh Mania" as set forth in the agreement between the Third-Party Recipient and the TCEQ. SEP monies will be used to restore shoreline elevations, growing plants for shoreline restoration, and planting new habitat. Historic subsidence and erosion have resulted in shoreline elevations which are too low to support vegetation. This project will seek to raise elevations by scraping and terracing. Scraping involves the use of earthmoving equipment to grade an eroded, bluff-like shoreline so that it slopes gradually towards the water resulting in the ability of plant growth. Terracing uses earthmoving equipment to create small levees by burrowing and stacking sediment in shallow water. The high elevation can then be planted with emergent vegetation. SEP monies will be used to pay for the direct costs of the implementation of the project, including material, equipment, and labor costs.</p>   |        |           |          | 11,340.00 | 11,340.00 |           |

|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Keep Texas Beautiful for the Stop Trashing Texas project as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, SEP funds will pay for the labor and disposal costs associated with cleanup of unauthorized trash dumps by supplying project coordination, labor, supplies, and materials for clean up events statewide. SEP funds used for this purpose shall be limited to the actual direct costs for the specific purpose necessary to meet the requirements of the SEP and no portion of the SEP funds will be spent on administrative costs related to this portion of the SEP. Trash dump cleanups may be coordinated with waste collection facilities and/or local governments to employ heavy machinery for the removal of large waste items. To the maximum extent possible, cleanups shall be accomplished with the use of volunteers from community groups, private companies, schools, and youth organizations. SEP funds may be used for activities. This project will be administered in accordance with federal, state, and local environmental laws and regulations. |            |        |           |          |          | 1,440.00  | 1,440.00  |

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|    |                      |  |            |           |           |      |      |           |           |
|----|----------------------|--|------------|-----------|-----------|------|------|-----------|-----------|
|    | POLLUTION PREVENTION | Contributions will be used in accordance with the Supplemental Environmental Project Agreement between the Armand Bayou Nature Center and the Texas Commission on Environmental Quality. The tallgrass prairie was once a common ecosystem in Texas and the United States. Today more than 99% of this habitat has been lost and the remainder is highly fragmented and severely threatened by exotic species and development. Prescribed burning is one stewardship tool used to maintain a tallgrass prairie ecosystem. If the prairie is not maintained, it can be destroyed by invasive species which primarily include the Chinese Tallow tree and other woody plants. Historically, prairies were managed by grazing, natural fires set by lightning, or fires set by Native Americans to aid in their hunter-gatherer lifestyle. ABNC must employ prescribed burning methods and can not use more natural stewardship tools due to its location in the center of a highly urbanized and industrialized area. ABNC=s stewards  | 10,050.00  | 10,050.00 |           |      |      |           |           |

|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP offset amount to the Third Party Recipient named above. The contribution will be to the Friends of the River San Bernard for the Friends of the River San Bernard Natural Area Acquisition and Conservation Program, as set forth in the SEP Agreement referenced above between the Third Party Recipient and the TCEQ. The SEP offset amount will be used to preserve a contiguous wetland corridor along the San Bernard River in lower Fort Bend County. Ducks Unlimited has protected an adjacent 114 acre tract with two conservation easements, but the contiguity of this wetland corridor greatly depends on the acquisition and preservation of the remaining acreage. This SEP will focus on three (3) tracts of land comprising approximately 645 acres in the wetland corridor on the north side of the San Bernard River and west of Armstrong Road. Third Party Recipient shall use SEP funds to acquire conservation easements on these tracts to provide permanent protection and stewardship of these lands and waters. All tracts acquired in whole or in part with SEP funds shall be preserved in perpetuity through conservation easements that comply with Subchapter A, Chapter 183, Texas Natural Resources Code. The Holder of the San Bernard Conservation Easements shall be WETLANDS AMERICA TRUST, INC. (affiliated with Ducks Unlimited) which Performing Party certifies is an entity that meets the definition of "holder" under Section 183.001(2), Texas Natural Resources Code. | 54,000.00  | 54,000.00 |           |      |      |           |           |

|    | POLLUTION PREVENTION      | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Unauthorized Trash Dump Clean-Up Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to coordinate with city and/or county governmental officials regarding the clean up of sites where trash has been disposed of illegally. Eligible sites will be limited to those where a responsible party can not be identified and where there is no pre-existing obligation to clean up the site by the owner or the government. Additionally, reasonable efforts must have already been taken to prevent the dumping. SEP monies will be used to pay for the direct cost of collection and disposal of debris. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations. |            |        |           |          | 8,576.00  | 8,576.00  |           |
| WQ | 38763                     | Westlake Municipal Utility District<br>1   | 02/20/2011 | 1.00:1 | 18,875.00 | 0.00     | 0.00      | 18,875.00 | 18,875.00 |
|    | ENVIRONMENTAL RESTORATION | The Project will include restoring shoreline elevations, growing plants for shoreline restoration, and planting new habitat. Historic subsidence and erosion have resulted in shoreline elevations which are too low to support vegetation. This project will seek to raise elevations by scraping and terracing. Scraping involves the use of earthmoving equipment to grade an eroded, bluff-like shoreline so that it slopes gradually towards the water resulting in the ability of plant growth. Terracing uses earthmoving equipment to create small levees by burrowing and stacking sediment in shallow water. The higher elevation can then be planted with emergent vegetation. SEP monies will be used to pay for the direct cost of the implementation of the project, including material, equipment and labor costs.  |            |        |           |          | 18,875.00 | 18,875.00 |           |

\* There are Multiple Respondent Names associated to this Case No.

## Appendix 4: List of SEP's & SEP Projects - FY2011

### Single Program

|                      |       |  |            |        |           |          |           |           |           |
|----------------------|-------|--|------------|--------|-----------|----------|-----------|-----------|-----------|
| POLLUTION PREVENTION |       | <p>The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The contribution will be used by San Antonio River Authority for the San Antonio River Water Quality Monitoring Network to be used as set forth in an agreement between the Third-Party Recipient and the TCEQ. The Third-Party recipient shall install additional water quality monitoring sites to complement and enhance the existing San Antonio River Basin Monitoring Network (SARBMN) along the San Antonio River in Bexar, Wilson, Karnes, and Goliad counties. The Third-Party recipient may also use SEP funds to pay for the continued operation and maintenance of existing SARBMN sites. The network is expected to document the effects of accidental spills and pollution events that affect the river as well as nonpoint source pollution. The Third-Party recipient may employ a contractor to install and provide ongoing operation and maintenance of the monitoring sites, validate data, analyze data, and provide documentation of water quality. Third-Party recipient shall compile data in a database for public information and make it available at <a href="http://www.texaswaterdata.org">www.texaswaterdata.org</a> and possibly other URLs. The information collected will be used to monitor the water quality within San Antonio River area waters with real time or near real time monitoring data. SEP funds will be used to pay for the instrumentation, installation, and maintenance and/or operation of the instrumentation, data validation, software license, and telemetry costs. Depending upon the site-specific data need(s) (coordinated with TCEQ), individual sites may monitor various water quality parameters such as dissolved oxygen, pH, specific conductance, temperature, turbidity, water level and stream flow. As technology and funding become available, the sites may be expanded to monitor additional parameters such as blue-green algae, chlorophyll, bacteria, and nutrients including ammonia, nitrates, and phosphates.</p> |            |        |           |          | 32,700.00 | 32,700.00 |           |

|    |       | CLEAN UP                 | The Respondent shall hold a cleanup event to collect solid waste and remove and properly dispose of or recycle used tires throughout the city and surrounding areas, at no cost to the residents. The Respondent shall ensure that the event occurs after normal work hours or on weekend days if respondent's personnel are used, or in the alternative, a contractor may be used during regular business hours; offers to the public a no-cost option to dispose of tires and solid waste; if advertised, that the event is advertised in a newspaper of large circulation in the geographic area and that the advertisement includes a statement that the project is being performed as a Supplemental Environmental Project as a result of an enforcement action brought by TCEQ. The Respondent shall utilize a contractor to haul and properly dispose of or recycle the collected tires and solid waste. At the Executive Director's discretion, the Respondent may receive SEP Offset Amount credit only for the direct cost of implementing the project. Specifically, the Respondent may receive SEP Offset Amount credit for costs of equipment, materials, and contract labor costs in accordance with TCEQ expenditure restrictions on the use of SEP funds. Credit for the use of the SEP Offset Amount shall be limited to costs that are actual, documented, reasonable, and necessary to performance of the SEP. The Respondent must competitively bid work for the project to ensure that costs are reasonable and customary. The Respondent may receive credit for the reasonable and customary costs of labor if its employees are used in implementing the SEP. The Respondent shall not receive credit for volunteer labor or equipment. The SEP Offset Amount will be used for the direct cost of the project and no portion of the SEP Offset Amount shall be spent on the Respondent's administrative costs. The Respondent shall also not receive credit for gratuities and/or inducements (food, refreshments, or other gifts) for volunteers. |        |           |          | 8,158.00  | 8,158.00  |           |

|    |       | POLLUTION PREVENTION     | The Respondent shall contribute the SEP Amount to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to provide local residents with a means of properly disposing household hazardous wastes such as paint, thinners, pesticides, oil and gas, corrosive cleaners, and fertilizers in one day collection events. SEP monies will be used to pay for the associated labor, materials, and disposal costs. Citizens will not be charged disposal fees. The project is administered in accordance with TCEQ guidance on household hazardous waste and in compliance with federal, state, and local environmental laws and regulations. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs.  |        |           |          | 10,400.00 | 10,400.00 |           |

|----|---------------------------|--|------------|-----------|-----------|------|-----------|-----------|-----------|
|    | ENVIRONMENTAL RESTORATION | The Respondent shall perform an erosion control project in Town Branch Creek to reduce siltation in a seasonal tributary that flows into Hurricane Bayou and into the Trinity River in Houston County. This project will consist of the installation of approximately 4,342 linear feet of slope protection to eliminate ongoing erosion at approximately 3 to 5 bends in the creek, beginning north of Pease Street (31 degs. 19'28.71"N 95 degs. 28'00.44"W) to the entrance of the North Wastewater Treatment Plant (31 degs. 19'59.21"N 95 degs. 28'.24.17"W). Slope stabilization will be addressed by the installation of R-Rap Walls (also referred to as a Bag Wall installation).   | 7,880.00   | 7,880.00  |           |      |           |           |           |

|    | POLLUTION PREVENTION      | Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to the Bayou Land Conservancy for the Spring Creek Greenway Project. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Third-Party Recipient and the TCEQ (the "Project"). Specifically, this SEP will focus on preserving multiple tracts of land comprising approximately 1,000 acres in the riparian corridor east of FM 2978 and west of U.S. 59. The Third-Party Recipient shall use SEP Funds to acquire conservation easements on these tracts to provide permanent protection and stewardship of these lands and waters. The Third-Party Recipient shall also use SEP Funds to conduct restoration work, including tree plantings, on these tracts, as needed. All property acquired in whole or in part with SEP Funds must be preserved in perpetuity through a conservation easement that complies with Subchapter A, Chapter 183, Texas Natural Resources Code. The holder of the conservation easement must be an entity that meets the definition of "holder" under section 183.001(2), Texas Natural Resources Code. Additionally, the holder of the conservation easement may not also be the owner of the property. The Third-Party Recipient shall use only conservation easements that are substantially similar to the conservation easement described in the Supplement Environmental Project Agreement between Third-Party Recipient and TCEQ. The Third-Party Recipient shall not use or set aside SEP Funds for legal defense of these properties without prior written approval of the TCEQ. | 36,465.00  | 36,465.00 |           |      |           |           |           |

|--|----------------------|---|------------|--------|--------------|--------------|--------------|--------------|--------------|
|  | POLLUTION PREVENTION | Specifically, the SEP Offset Amount will be used to perform energy efficiency upgrades on public buildings and infrastructure. The SEP Offset Amount may only be used for: (1) the cost of conducting energy efficiency audits; (2) the incremental cost for construction or implementation of energy-efficiency upgrades (versus the cost of non-energy efficiency upgrades); (3) the incremental cost of purchase of equipment or appliances that are more energy-efficient (versus the cost of purchasing non-energy efficient equipment or appliances); or (4) other direct costs authorized in advance by TCEQ. The SEP Offset Amount may only be used for the direct cost of performing this project and no portion will be spent on administrative costs. For items 2, 3, and 4 above, Performing Party shall submit a budget and proposals for expenditure to TCEQ for written approval prior to the use of SEP Funds.<br><br>Modifications may include but are not limited to weatherization; energy-reduction modifications such a  |            |        |              |              | 10,412.00    | 10,412.00    |              |
| WQ   | 39185                | Granbury Materials, LLC   | 02/20/2011 | 1.00:1 | 14,000.00    | 0.00         | 11,690.00    | 2,310.00     | 2,310.00     |
|  | POLLUTION PREVENTION | Third Party Recipient shall coordinate with local public and private entities to provide low-income homeowners with assistance to enable repair or replacement of their failing water systems or on-site wastewater systems. SEP monies will be used to pay for the labor and materials costs related to repairing or replacing the failing systems. The recipients shall not be charged for the cost of replacing or repairing the failing systems.  |            |        |              |              |              | 2,310.00     | 2,310.00     |
| WQ   | 40369                | City of Duncanville   | 03/19/2011 | 1.00:1 | 9,160.00     | 0.00         | 0.00         | 9,160.00     | 9,160.00     |
|  | POLLUTION REDUCTION  | The Respondent shall perform an erosion control project in Ten Mile Creek to reduce siltation in Tributary 11 of the Trinity River in Dallas County. This project will consist of the installation of approximately 61 linear feet of slope protection to eliminate ongoing erosion of the creek bank. Beginning at the back of the curb on the southwest corner of the lot at 1106 Spring Lake, along Tributary 11 of Ten Mile Creek, the wall will begin 200 feet east to the west creek top and proceed north-northeast approximately 61 feet to the end point of the wall. The embankment failure is located on the west side of Tributary 11 adjacent to 1106 Spring Lake Drive in Duncanville, Texas. Slope stabilization will be addressed by the installation of R-Rap Walls (also referred to as a Bag Wall installation). This SEP will provide a discernible environmental benefit by stabilizing the creek bank and preventing further erosion that would result in sedimentation and siltation in the waterway. The project will reduce erosion, pooling of stagnant water, and downstream sedimentation. Continued erosion leads to high sediment loads in waterways, silting, and disruption of ecosystems. This project will benefit and protect the water quality of Tributary 11, Ten Mile Creek and the Trinity River Basin. |            |        |              |              |              | 9,160.00     | 9,160.00     |
| <b>Count of Single Program Orders: 213</b> |                      |   | Total:     |        | 9,128,720.00 | 1,047,349.00 | 3,368,820.00 | 1,712,551.00 | 1,712,551.00 |

## Appendix 6: List of SEP's & SEP Projects - FY2010

### Single Program

Date Range Selected : 09/01/2009 - 08/31/2010

| PGM | Case No. | Respondent Name          | Effective Date  | Ratio  | Assessed Amt | Deferred Amt | Payable Amt | SEP Cost | SEP Offset |
|-----|----------|--------------------------|---|--------|--------------|--------------|-------------|----------|------------|
| AQ  | 38895    | The Lubrizol Corporation | 06/26/2010  | 1.00:1 | 8,970.00     | 1,794.00     | 3,588.00    | 3,588.00 | 3,588.00   |
|     |          | POLLUTION PREVENTION     | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Houston Regional Monitoring Corporation for the HRMC Houston Area Air Monitoring to be used as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP funds will be used to supplement existing operation of a network of ambient air monitoring stations (designated HRM Sites 1, 3, 4, 7, 8, 10, Wallisville, and Lynchburg Ferry) that continuously measure and record concentrations of ambient air pollutants. Specifically, SEP Funds will be used to operate, maintain, and potentially expand portions of the existing ambient air quality monitoring network in the Houston area in order to continue to provide information on data quality and trends to the public, TCEQ, and industry representatives. SEP Funds may be used to operate a single monitoring site or multiple sites contingent upon the amount of SEP funds provided. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.  |        |              |              |             | 3,588.00 | 3,588.00   |
| AQ  | 38577    | DCP Midstream, LP        | 04/11/2010  | 1.00:1 | 5,355.00     | 1,071.00     | 2,142.00    | 2,142.00 | 2,142.00   |
|     |          | POLLUTION PREVENTION     | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Abandoned Tire Clean-Up Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to clean-up sites where tires have been disposed of illegally. Eligible sites will be limited to those where a responsible party cannot be found and where reasonable efforts have been made to prevent the dumping. SEP monies will be used to pay for the direct cost of collecting and disposing of tires. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.  |        |              |              |             | 2,142.00 | 2,142.00   |
| AQ  | 37290    | Jeld-Wen, Inc.           | 10/04/2009  | 1.00:1 | 5,500.00     | 1,100.00     | 2,200.00    | 2,200.00 | 2,200.00   |
|     |          | POLLUTION PREVENTION     | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to aid local school districts, area transit agencies, and local governments in need of funding assistance to pay for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fuelled or clean diesel buses; or 2) retrofitting older diesel buses with new, cleaner technology. The funds will be disbursed on a needs-rated basis, using non-attainment area status, condition of buses, and economic status of the recipient as possible rating factors if competition for the funds exists. To maximize funds, retrofitting will take priority over replacement of buses. Older buses deemed not suitable for retrofitting will be permanently retired and sold only for scrap.<br><br>Acceptable retrofit technologies include particulate matter traps, diesel particulate matter filters, nitrogen oxides (NOx) reduction catalyst technology in combination with diesel particulate filters, and other emission control technologies that are developed and approved by the United States Environmental Protection Agency ("EPA") or the California Air Resources Board. |        |              |              |             | 2,200.00 | 2,200.00   |

|    |       | POLLUTION PREVENTION                  | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Texas PTA for the Texas PTA Clean School Bus Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to reimburse local school districts for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fueled or clean diesel buses; or 2) retrofitting older diesel buses with new, cleaner technology. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.  |        |           |          | 16,000.00 | 16,000.00 |           |

|    |       | POLLUTION PREVENTION                  | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Abandoned Tire Clean-Up Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to clean-up sites where tires have been disposed of illegally. Eligible sites will be limited to those where a responsible party cannot be found and where reasonable efforts have been made to prevent the dumping. SEP monies will be used to pay for the direct cost of collecting and disposing of tires. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.  |        |           |          | 3,600.00  | 3,600.00  |           |

|    |       | POLLUTION PREVENTION                  | The Respondent shall contribute the SEP Amount to the Third-Party Recipient named above. The contribution will be Southeast Texas Regional Planning Commission to be used for the Southeast Texas Regional Air Monitoring Network Ambient Air Monitoring Station as set forth in agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to install, operate, and maintain a stationary ambient air monitoring station in the vicinity of Memorial High School Ninth Grade Campus. The station will employ canister sampling, a hydrocarbon analyzer, and/or a chromatograph. Ancillary equipment will include a sample conditioning system, a ten meter meteorological tower, a climate controlled equipment shelter, a remote communications system, and have electronic data logging capabilities. The station will continuously sample and analyze the ambient air for a wide range of hydrocarbon species in accordance with Environmental Protection Agency's recommended "TO-14" list. SEP monies will be used for the cost of purchasing, installing, operating, and maintaining the air monitoring station along with its ancillary equipment. |        |           |          | 15,320.00 | 15,320.00 |           |

The station will employ canister sampling, a hydrocarbon analyzer, and/or a chromatograph. Ancillary equipment will include a sample conditioning system, a ten meter meteorological tower, a climate controlled equipment shelter, a remote communications system, and have electronic data logging capabilities. The station will continuously sample and analyze the ambient air for a wide range of hydrocarbon species in accordance with Environmental Protection Agency's recommended "TO-14" list. SEP monies will be used for the cost of purchasing, installing, operating, and maintaining the air monitoring station along with its ancillary equipment. | 27,490.00  | 27,490.00 |           |           |           |           |           |
| AQ | 38325                | Robroy Industries-Texas, L. P.   | 04/25/2010 | 1.00:1    | 26,250.00 | 5,250.00  | 10,500.00 | 10,500.00 | 10,500.00 |
|    | POLLUTION PREVENTION | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Abandoned Tire Clean-Up Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to clean-up sites where tires have been disposed of illegally. Eligible sites will be limited to those where a responsible party cannot be found and where reasonable efforts have been made to prevent the dumping. SEP monies will be used to pay for the direct cost of collecting and disposing of tires. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.   | 10,500.00  | 10,500.00 |           |           |           |           |           |

### Single Program

|    |                      |  |            |           |           |           |           |           |           |
|----|----------------------|--|------------|-----------|-----------|-----------|-----------|-----------|-----------|
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Texas PTA for the Clean School Bus Program in Texas Air Quality Control Region 211 as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to reimburse local school districts for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fuelled or clean diesel buses; or 2) retrofitting older diesel buses with new, cleaner technology. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.  | 10,000.00  | 10,000.00 |           |           |           |           |           |
| AQ | 37462                | Vopak Terminal Deer Park, Inc.   | 10/04/2009 | 1.00:1    | 7,200.00  | 1,440.00  | 2,880.00  | 2,880.00  | 2,880.00  |
|    | POLLUTION PREVENTION | Performing Party shall use SEP Funds to operate, maintain, and potentially expand portions of the existing Houston Regional Monitoring Corporation Ambient Air Quality Monitoring Network in the Houston area in order to continue to provide information on data quality and trends to the public, TCEQ, and industry representatives. SEP funds may be used to operate a single monitoring site or multiple sites contingent upon the amount of SEP funds provided.  |            |           |           |           | 2,880.00  | 2,880.00  |           |

|    | POLLUTION REDUCTION  | The Respondent shall contribute the SEP Amount to the Third-Party Recipient named above. The contribution will be Southeast Texas Regional Planning Commission to be used for the West Port Arthur Home Energy Efficiency Program as set forth in agreement between the Third-Party Recipient and the TCEQ. Specifically, the Performing Party shall use SEP Funds to assist low-income residents in the West Port Arthur area by: 1) conducting home energy audits; 2) weatherizing homes to improve energy efficiency; and/or 3) repairing or replacing heating/cooling systems and major appliances with new, energy-efficient equipment. Weatherizing homes may include costs of caulking openings as well as insulating walls, floors, and attics in homes. Any heating/cooling systems or major appliances that are replaced must be scrapped and must not be reused in any way. Performing Party shall use consistent and reliable criteria for determining the low-income status of residents assisted with SEP Funds. |            |           |           |           | 20,822.00 | 20,822.00 |           |

|    | POLLUTION PREVENTION | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Performing Party is undertaking the acquisition and development of a 162-acre nature park and the construction of a nature center on the shores of Oso Bay. The Oso Conservation Interpretive Park will include a 15,270 square-foot nature center building, interpretive trails, and significant habitat for wildlife.<br><br>Performing Party shall develop the nature center to the U.S. Green Building Council's LEED (Leadership in Energy and Environmental Design (LEED) Green Building Rating System) standards. For example, the nature center will use photovoltaic panels to supply electricity, solar panels to heat water, and energy saving measures such as industrial light tubes to supply daytime lighting to classrooms and heat pumps to supply cooling and heating.  |            |           |           |           | 12,242.00 | 12,242.00 |           |

|    |                      |   |            |           |           |           |           |           |           |
|----|----------------------|---|------------|-----------|-----------|-----------|-----------|-----------|-----------|
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Texas PTA for the Texas PTA Clean School Bus Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to reimburse local school districts for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fueled or clean diesel buses; or 2) retrofitting older diesel buses with new, cleaner technology. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.  | 5,000.00   | 5,000.00  |           |           |           |           |           |
| AQ | 37553                | TPC Group LLC   | 02/07/2010 | 1.00:1    | 63,140.00 | 0.00      | 31,570.00 | 31,570.00 | 31,570.00 |
|    | POLLUTION PREVENTION | Performing Party shall use SEP Funds to operate, maintain, and potentially expand portions of the existing Houston Regional Monitoring Corporation Ambient Air Quality Monitoring Network in the Houston area in order to continue to provide information on data quality and trends to the public, TCEQ, and industry representatives. SEP funds may be used to operate a single monitoring site or multiple sites contingent upon the amount of SEP funds provided.   | 31,570.00  | 31,570.00 |           |           |           |           |           |
| AQ | 37603                | Southern Crushed Concrete, LLC  | 03/08/2010 | 1.00:1    | 65,662.00 | 13,131.00 | 26,266.00 | 26,265.00 | 26,265.00 |
|    | POLLUTION PREVENTION | The Respondent will contribute to Houston-Galveston AERCO's Clean Cities/Clean Vehicles Program. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Houston-Galveston AERCO and the Texas Commission on Environmental Quality. SEP monies will be used to aid local school districts and area transit agencies in reaching local match requirements mandated by the Federal Highway Administration's ("FHWA") Congestion Mitigation/Air Quality funding program. SEP monies will be disbursed to school districts and transit agencies in need of funding assistance in the Houston-Galveston non-attainment area. Those SEP monies will be used exclusively by the school districts and transit agencies as supplements to meet the local match requirements of the EPA. SEP monies will be used to pay for the cost of replacing older diesel buses with alternative fueled or clean diesel buses. The old buses will be permanently retired and only sold for scrap. The schools and transit agencies will also use the SEP monies to retrofit more buses to reduce emissions. Houston-Galveston AERCO will send the TCEQ verification in the form of paid invoices and other documentation to show that the retrofits were completed. Retrofit technologies include particulate matter traps, diesel particulate matter filters, NOx reduction catalyst technology in combination with diesel particulate filters, and other emission control technologies that are developed and approved by EPA or the California Air Resources Board. | 26,265.00  | 26,265.00 |           |           |           |           |           |
| AQ | 38156                | Valero Refining-Texas, L.P.   | 01/28/2010 | 1.00:1    | 10,000.00 | 2,000.00  | 4,000.00  | 4,000.00  | 4,000.00  |
|    | POLLUTION PREVENTION | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to aid local school districts, area transit agencies, and local governments in need of funding assistance to pay for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fuelled or clean diesel buses; or 2) retrofitting older diesel buses with new, cleaner technology. The funds will be disbursed on a needs-rated basis, using non-attainment area status, condition of buses, and economic status of the recipient as possible rating factors if competition for the funds exists. To maximize funds, retrofitting will take priority over replacement of buses. Older buses deemed not suitable for retrofitting will be permanently retired and sold only for scrap.  | 4,000.00   | 4,000.00  |           |           |           |           |           |

|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Amount to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to install, operate, and maintain a stationary ambient air monitoring station in the vicinity of Memorial High School Ninth Grade Campus. The station will employ canister sampling, a hydrocarbon analyzer, and/or a chromatograph. Ancillary equipment will include a sample conditioning system, a ten meter meteorological tower, a climate controlled equipment shelter, a remote communications system, and have electronic data logging capabilities. The station will continuously sample and analyze the ambient air for a wide range of hydrocarbon species in accordance with Environmental Protection Agency's recommended "TO-14" list. SEP monies will be used for the cost of purchasing, installing, operating, and maintaining the air monitoring station along with its ancillary equipment. |            |        |            |          | 2,000.00  | 2,000.00  |           |

|    | POLLUTION REDUCTION  | The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Houston-Galveston AERCO and the Texas Commission on Environmental Quality. SEP monies will be used to pay for the cost of replacing older diesel buses with alternative fuelled or clean diesel buses.   |            |        |            |          | 40,000.00 | 40,000.00 |           |
|    | POLLUTION PREVENTION | The Respondent will contribute to Barbers Hill Independent School District's ("Barbers Hill ISD") Energy Efficiency in Chambers County. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between Barbers Hill ISD and the Texas Commission on Environmental Quality. SEP monies will be used to perform energy efficiency upgrades on public buildings and infrastructure. Specifically, the SEP funds may only be used for: 1) the cost of conducting energy efficiency audits; 2) the incremental cost for construction or implementation of energy-efficiency upgrades; 3) the incremental cost of the purchase of more energy-efficient equipment or appliances; and/or 4) or other direct costs authorized in advance by TCEQ.   |            |        |            |          | 40,000.00 | 40,000.00 |           |

|    | POLLUTION PREVENTION |                                | The Respondent shall contribute the SEP Amount to the Third-Party Recipient named above. The contribution will be Southeast Texas Regional Planning Commission to be used for the Southeast Texas Regional Air Monitoring Network Ambient Air Monitoring Station as set forth in agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to install, operate, and maintain a stationary ambient air monitoring station in the vicinity of Memorial High School Ninth Grade Campus. The station will employ canister sampling, a hydrocarbon analyzer, and/or a chromatograph. Ancillary equipment will include a sample conditioning system, a ten meter meteorological tower, a climate controlled equipment shelter, a remote communications system, and have electronic data logging capabilities. The station will continuously sample and analyze the ambient air for a wide range of hydrocarbon species in accordance with Environmental Protection Agency's recommended "TO-14" list. SEP monies will be used for the cost of purchasing, installing, operating, and maintaining the air monitoring station along with its ancillary equipment. |        |            |           |           | 3,962.00  | 3,962.00  |

|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Houston Regional Monitoring Corporation for the HRMC Houston Area Air Monitoring to be used as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP funds will be used to supplement existing operation of a network of ambient air monitoring stations (designated HRM Sites 1, 3, 4, 7, 8, 10, Wallisville, and Lynchburg Ferry) that continuously measure and record concentrations of ambient air pollutants. Specifically, SEP Funds will be used to operate, maintain, and potentially expand portions of the existing ambient air quality monitoring network in the Houston area in order to continue to provide information on data quality and trends to the public, TCEQ, and industry representatives. SEP Funds may be used to operate a single monitoring site or multiple sites contingent upon the amount of SEP funds provided. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.   | 22,360.00  | 22,360.00 |           |           |           |           |           |
| AQ | 37441                | Valero Refining-Texas, L.P.  | 12/18/2009 | 1.00:1    | 13,706.00 | 2,741.00  | 5,483.00  | 5,482.00  | 5,482.00  |
|    | POLLUTION PREVENTION | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. The performing party shall establish three air quality monitoring stations within four facilities of the San Patricio Municipal Water District. The stations will consist of ambient air quality monitoring instruments, meteorological instruments, and ancillary equipment. The primary objective of these new monitoring stations is to provide continuous information on air quality. This includes generating data on background concentrations, pollutant transport from outside the air shed, and pollutant transport from the industrial district during the periods of predominant southeast to northwest wind patterns. The monitoring sites will be located at the Odem Raw Water Station, the Taft Texana Blending Station, and the San Patricio Country Municipal Water District Main Office. These new sites will be in addition to the already existing site located at the Aransas Pass Treatment Plant, for a total of four sites. SEP Funds will be used to pay for the instruments, installation, and maintenance and/or operation of the instruments, data validation, software license, and web server costs related solely to this project. | 5,482.00   | 5,482.00  |           |           |           |           |           |

|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Amount to the Third-Party Recipient named above. The contribution will be Southeast Texas Regional Planning Commission to be used for the West Port Arthur Home Energy Efficiency Program as set forth in agreement between the Third-Party Recipient and the TCEQ. Specifically, the Performing Party shall use SEP Funds to assist low-income residents in the West Port Arthur area by: 1) conducting home energy audits; 2) weatherizing homes to improve energy efficiency; and/or 3) repairing or replacing heating/cooling systems and major appliances with new, energy-efficient equipment. Weatherizing homes may include costs of caulking openings as well as insulating walls, floors, and attics in homes. Any heating/cooling systems or major appliances that are replaced must be scrapped and must not be reused in any way. Performing Party shall use consistent and reliable criteria for determining the low-income status of residents assisted with SEP Funds. | 14,700.00  | 14,700.00 |           |           |           |           |           |

## Appendix 6: List of SEP's & SEP Projects - FY2010

### Single Program

|    |                      |  |            |        |            |          |           |           |           |
|----|----------------------|--|------------|--------|------------|----------|-----------|-----------|-----------|
|    | POLLUTION PREVENTION | The Respondent will contribute to Houston-Galveston AERCO's Clean Cities/Clean Vehicles Program in Harris County. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Houston-Galveston AERCO and the Texas Commission on Environmental Quality. SEP monies will be used to aid local school districts and area transit agencies in reaching local match requirements mandated by the Federal Highway Administration's ("FHWA") Congestion Mitigation/Air Quality funding program. SEP monies will be disbursed to school districts and transit agencies in need of funding assistance in the Houston-Galveston non-attainment area. Those SEP monies will be used exclusively by the school districts and transit agencies as supplements to meet the local match requirements of the EPA. SEP monies will be used to pay for the cost of replacing older diesel buses with alternative fueled or clean diesel buses. The old buses will be permanently retired and only sold for scrap. The schools and transit agencies will also use the SEP monies to retrofit more buses to reduce emissions. Houston-Galveston AERCO will send the TCEQ verification in the form of paid invoices and other documentation to show that the retrofits were completed. Retrofit technologies include particulate matter traps, diesel particulate matter filters, NOx reduction catalyst technology in combination with diesel particulate filters, and other emission control technologies that are developed and approved by EPA or the California Air Resources Board. |            |        |            |          | 7,490.00  | 7,490.00  |           |
| AQ | 38331                | Mitsubishi Caterpillar Forklift America Inc.   | 08/30/2010 | 1.00:1 | 105,590.00 | 0.00     | 52,833.00 | 52,757.00 | 52,757.00 |
|    | POLLUTION PREVENTION | SEP funds will be used to install or retrofit, operate, maintain, and potentially expand air monitoring stations in Harris County to continuously monitor ambient air for total non-methane hydrocarbons and hazardous air pollutants (HAPs). Specifically, SEP funds will be used to purchase equipment (such as automated canister samplers), hardware, software, and licenses to enable the monitoring.   |            |        |            |          |           | 32,757.00 | 32,757.00 |
|    | POLLUTION REDUCTION  | The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Houston-Galveston AERCO and the Texas Commission on Environmental Quality. SEP monies will be used to pay for the cost of replacing older diesel buses with alternative fueled or clean diesel buses.  |            |        |            |          |           | 20,000.00 | 20,000.00 |
| AQ | 35533                | OTAL PETROCHEMICALS USA INC.   | 10/31/2009 | 1.00:1 | 41,432.00  | 8,286.00 | 16,573.00 | 16,573.00 | 16,573.00 |
|    | POLLUTION PREVENTION | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to aid local school districts, area transit agencies, and local governments in need of funding assistance to pay for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fuelled or clean diesel buses; or 2) retrofitting older diesel buses with new, cleaner technology. The funds will be disbursed on a needs-rated basis, using non-attainment area status, condition of buses, and economic status of the recipient as possible rating factors if competition for the funds exists. To maximize funds, retrofitting will take priority over replacement of buses. Older buses deemed not suitable for retrofitting will be permanently retired and sold only for scrap.<br><br>Acceptable retrofit technologies include particulate matter traps, diesel particulate matter filters, nitrogen oxides (NOx) reduction catalyst technology in combination with diesel particulate filters, and other emission control technologies that are developed and approved by the United States Environmental Protection Agency ("EPA") or the California Air Resources Board.  |            |        |            |          |           | 16,573.00 | 16,573.00 |

|    |       | POLLUTION PREVENTION       | The Respondent shall contribute the SEP offset amount to the Third-Party Recipient named above. The Contribution will be to Houston Regional Monitoring Corporation for the Houston Area Monitoring program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Performing Party shall use SEP Funds to operate, maintain, and potentially expand portions of the existing Houston Regional Monitoring Corporation Ambient Air Quality Monitoring Network in the Houston area in order to continue to provide information on data quality and trends to the public, TCEQ, and industry representatives. SEP funds may be used to operate a single monitoring site or multiple sites contingent upon the amount of SEP funds provided.   |        |           |          |          | 4,529.00 | 4,529.00 |

|    |       | POLLUTION PREVENTION       | The Respondent shall contribute the SEP Amount to the Third-Party Recipient named above. The contribution will be Southeast Texas Regional Planning Commission to be used for the West Port Arthur Home Energy Efficiency Program as set forth in agreement between the Third-Party Recipient and the TCEQ. Specifically, the Performing Party shall use SEP Funds to assist low-income residents in the West Port Arthur area by: 1) conducting home energy audits; 2) weatherizing homes to improve energy efficiency; and/or 3) repairing or replacing heating/cooling systems and major appliances with new, energy-efficient equipment. Weatherizing homes may include costs of caulking openings as well as insulating walls, floors, and attics in homes. Any heating/cooling systems or major appliances that are replaced must be scrapped and must not be reused in any way. Performing Party shall use consistent and reliable criteria for determining the low-income status of residents assisted with SEP Funds. |        |           |          |          | 7,020.00 | 7,020.00 |

|    |       | POLLUTION PREVENTION       | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Abandoned Tire Clean-Up Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to clean-up sites where tires have been disposed of illegally. Eligible sites will be limited to those where a responsible party cannot be found and where reasonable efforts have been made to prevent the dumping. SEP monies will be used to pay for the direct cost of collecting and disposing of tires. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.   |        |           |          |          | 2,580.00 | 2,580.00 |

## Appendix 6: List of SEP's & SEP Projects - FY2010

### Single Program

|    |                      |   |            |        |            |          |            |            |            |
|----|----------------------|---|------------|--------|------------|----------|------------|------------|------------|
|    | POLLUTION PREVENTION | The Respondent will contribute to Houston-Galveston AERCO's Clean Cities/Clean Vehicles Program. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Houston-Galveston AERCO and the Texas Commission on Environmental Quality. SEP monies will be used to aid local school districts and area transit agencies in reaching local match requirements mandated by the Federal Highway Administration's ("FHWA") Congestion Mitigation/Air Quality funding program. SEP monies will be disbursed to school districts and transit agencies in need of funding assistance in the Houston-Galveston non-attainment area. Those SEP monies will be used exclusively by the school districts and transit agencies as supplements to meet the local match requirements of the EPA. SEP monies will be used to pay for the cost of replacing older diesel buses with alternative fueled or clean diesel buses. The old buses will be permanently retired and only sold for scrap. The schools and transit agencies will also use the SEP monies to retrofit more buses to reduce emissions. Houston-Galveston AERCO will send the TCEQ verification in the form of paid invoices and other documentation to show that the retrofits were completed. Retrofit technologies include particulate matter traps, diesel particulate matter filters, NOx reduction catalyst technology in combination with diesel particulate filters, and other emission control technologies that are developed and approved by EPA or the California Air Resources Board. |            |        |            |          | 3,937.00   | 3,937.00   |            |

### Single Program

|                      |       |  |            |        |           |           |           |           |           |
|----------------------|-------|--|------------|--------|-----------|-----------|-----------|-----------|-----------|
| POLLUTION PREVENTION |       | The Respondent shall contribute the SEP Amount to the Third-Party Recipient named above. The contribution will be Southeast Texas Regional Planning Commission to be used for the Southeast Texas Regional Air Monitoring Network Ambient Air Monitoring Station as set forth in agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to install, operate, and maintain a stationary ambient air monitoring station in the vicinity of Memorial High School Ninth Grade Campus. The station will employ canister sampling, a hydrocarbon analyzer, and/or a chromatograph. Ancillary equipment will include a sample conditioning system, a ten meter meteorological tower, a climate controlled equipment shelter, a remote communications system, and have electronic data logging capabilities. The station will continuously sample and analyze the ambient air for a wide range of hydrocarbon species in accordance with Environmental Protection Agency's recommended "TO-14" list. SEP monies will be used for the cost of purchasing, installing, operating, and maintaining the air monitoring station along with its ancillary equipment.  |            |        |           |           | 4,180.00  | 4,180.00  |           |
| AQ                   | 38485 | KM Liquids Terminals LLC   | 05/09/2010 | 1.00:1 | 12,000.00 | 2,400.00  | 4,800.00  | 4,800.00  | 4,800.00  |
| POLLUTION PREVENTION |       | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Houston-Galveston AERCO for the Clean Cities/Clean Vehicles Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP monies will be used to aid local school districts and area transit agencies in reaching local match requirements mandated by the Federal Highway Administration's ("FHWA") Congestion Mitigation/Air Quality funding program. SEP monies will be disbursed to school districts and transit agencies in need of funding assistance in the Houston-Galveston non-attainment area. Those SEP monies will be used exclusively by the school districts and transit agencies as supplements to meet the local match requirements of the EPA. SEP monies will be used to pay for the cost of replacing older diesel buses with alternative fueled or clean diesel buses. The old buses will be permanently retired and only sold for scrap. The schools and transit agencies will also use the SEP monies to retrofit more buses to reduce emissions. Houston-Galveston AERCO will send the TCEQ verification in the form of paid invoices and other documentation to show that the retrofits were completed. Retrofit technologies include particulate matter traps, diesel particulate matter filters, NOx reduction catalyst technology in combination with diesel particulate filters, and other emission control technologies that are developed and approved by EPA or the California Air Resources Board. |            |        |           |           | 4,800.00  | 4,800.00  |           |

|     |                      |  |            |        |            |           |           |           |           |
|-----|----------------------|--|------------|--------|------------|-----------|-----------|-----------|-----------|
|     | POLLUTION PREVENTION | The Respondent will contribute to Houston-Galveston AERCO's Clean Cities/Clean Vehicles Program in Harris County. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Houston-Galveston AERCO and the Texas Commission on Environmental Quality. SEP monies will be used to aid local school districts and area transit agencies in reaching local match requirements mandated by the Federal Highway Administration's ("FHWA") Congestion Mitigation/Air Quality funding program. SEP monies will be disbursed to school districts and transit agencies in need of funding assistance in the Houston-Galveston non-attainment area. Those SEP monies will be used exclusively by the school districts and transit agencies as supplements to meet the local match requirements of the EPA. SEP monies will be used to pay for the cost of replacing older diesel buses with alternative fueled or clean diesel buses. The old buses will be permanently retired and only sold for scrap. The schools and transit agencies will also use the SEP monies to retrofit more buses to reduce emissions. Houston-Galveston AERCO will send the TCEQ verification in the form of paid invoices and other documentation to show that the retrofits were completed. Retrofit technologies include particulate matter traps, diesel particulate matter filters, NOx reduction catalyst technology in combination with diesel particulate filters, and other emission control technologies that are developed and approved by EPA or the California Air Resources Board. |            |        |            |           | 15,000.00 | 15,000.00 |           |
| IHW | 37414                | Multi-Chem Group, LLC  | 02/22/2010 | 1.00:1 | 141,335.00 | 28,267.00 | 56,534.00 | 56,534.00 | 56,534.00 |
|     | CLEAN UP             | RC&D will coordinate with local city and county government officials to clean-up sites where tires have been disposed of illegally. Contributions will be used to clean up illegal tire sites. Eligible sites will be limited to areas where a responsible party can not be identified and where there is no preexisting obligation to clean up the site by the owner or government. SEP monies will be used for the direct cost of collection and disposal of debris and tires.   |            |        |            |           | 56,534.00 | 56,534.00 |           |
| IHW | 36521                | E. I. du Pont de Nemours and Company   | 08/09/2010 | 1.00:1 | 85,500.00  | 17,100.00 | 34,200.00 | 34,200.00 | 34,200.00 |
|     | POLLUTION PREVENTION | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Texas Air Quality Research Center at Lamar University for the Flare Speciation and Air Quality Modeling project to be used as set forth in an agreement between the Third-Party Recipient and the TCEQ. SEP funds will be used for advanced modeling and simulations to identify the VOC species generated and emitted from industrial flares at chemical process facilities under various operating conditions and environmental conditions as well as determine the Combustion Efficiency (CE) and Destruction and Removal Efficiency (DRE). All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.   |            |        |            |           | 34,200.00 | 34,200.00 |           |

\* There are Multiple Respondent Names associated to this Case No.

## Appendix 6: List of SEP's & SEP Projects - FY2010

### Single Program

|     |                      |                                       |  |        |           |           |           |           |           |
|-----|----------------------|---------------------------------------|--|--------|-----------|-----------|-----------|-----------|-----------|
|     | POLLUTION PREVENTION |                                       | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Gulf Coast Waste Disposal Authority to be used for the River, Lakes, Bays, and Bayous Trash Bash Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Trash Bash is an annual event that entails the use of volunteers to clean up trash and pollutants from Galveston Bay and waterways in the San Jacinto watershed. The project has resulted in the removal of an average of 141.7 tons of trash and 729 abandoned tires annually from these waterways. SEP monies will be used to pay for materials, supplies, disposal cost and transportation cost directly associated with the clean up of trash and pollutants from the Galveston Bay and waterways in the San Jacinto watershed.               |        |           |           | 3,060.00  | 3,060.00  |           |
| IHW | 37278                | Oglebay Norton Industrial Sands, Inc. | 10/04/2009   | 1.00:1 | 11,425.00 | 2,285.00  | 4,570.00  | 4,570.00  | 4,570.00  |
|     | POLLUTION PREVENTION |                                       | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to clean-up sites where tires have been disposed of illegally. Eligible sites will be limited to those where a responsible party cannot be found and where reasonable efforts have been made to prevent the dumping. SEP monies will be used to pay for the direct cost of collecting and disposing of tires. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.   |        |           |           | 4,570.00  | 4,570.00  |           |
| IHW | 38093                | Exxon Mobil Corporation               | 04/11/2010   | 1.00:1 | 40,550.00 | 8,110.00  | 16,220.00 | 16,220.00 | 16,220.00 |
|     | POLLUTION PREVENTION |                                       | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to provide low income rural homeowners with assistance to enable the repair or replacement of their failing on-site wastewater systems. SEP monies will be used to pay for the labor and materials costs related to repairing or replacing the failing systems. The recipients will not be charged for the cost of replacing or repairing the failing systems.  |        |           |           | 16,220.00 | 16,220.00 |           |
| IHW | 38867                | Stolthaven Houston, Inc.              | 08/30/2010   | 1.00:1 | 36,530.00 | 7,306.00  | 14,612.00 | 14,612.00 | 14,612.00 |
|     | POLLUTION PREVENTION |                                       | The Respondent shall contribute the SEP Amount to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to provide local residents with a means of properly disposing household hazardous wastes such as paint, thinners, pesticides, oil and gas, corrosive cleaners, and fertilizers in one day collection events. SEP monies will be used to pay for the associated labor, materials, and disposal costs. Citizens will not be charged disposal fees. The project is administered in accordance with TCEQ guidance on household hazardous waste and in compliance with federal, state, and local environmental laws and regulations. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. |        |           |           | 14,612.00 | 14,612.00 |           |
| IHW | 36635                | The Dow Chemical Company              | 11/27/2009   | 1.00:1 | 97,500.00 | 19,500.00 | 39,000.00 | 39,000.00 | 39,000.00 |

\* There are Multiple Respondent Names associated to this Case No.

## Appendix 6: List of SEP's & SEP Projects - FY2010

### Single Program

|     |       |                      |  |        |           |          |           |           |           |
|-----|-------|----------------------|--|--------|-----------|----------|-----------|-----------|-----------|
|     |       | POLLUTION PREVENTION | The Respondent will contribute to Houston-Galveston AERCO's Clean Cities/Clean Vehicles Program in Harris County. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Houston-Galveston AERCO and the Texas Commission on Environmental Quality. SEP monies will be used to aid local school districts and area transit agencies in reaching local match requirements mandated by the Federal Highway Administration's ("FHWA") Congestion Mitigation/Air Quality funding program. SEP monies will be disbursed to school districts and transit agencies in need of funding assistance in the Houston-Galveston non-attainment area. Those SEP monies will be used exclusively by the school districts and transit agencies as supplements to meet the local match requirements of the EPA. SEP monies will be used to pay for the cost of replacing older diesel buses with alternative fueled or clean diesel buses. The old buses will be permanently retired and only sold for scrap. The schools and transit agencies will also use the SEP monies to retrofit more buses to reduce emissions. Houston-Galveston AERCO will send the TCEQ verification in the form of paid invoices and other documentation to show that the retrofits were completed. Retrofit technologies include particulate matter traps, diesel particulate matter filters, NOx reduction catalyst technology in combination with diesel particulate filters, and other emission control technologies that are developed and approved by EPA or the California Air Resources Board. |        |           |          | 39,000.00 | 39,000.00 |           |
| MSW | 34964 | City of Crowell *    | 06/18/2010   | 1.00:1 | 11,500.00 | 0.00     | 0.00      | 11,500.00 | 11,500.00 |
|     |       | POLLUTION REDUCTION  | The Respondent Foard County shall provide supplemental energy efficiency upgrades to public buildings and infrastructure. Upgrades may include but are not limited to weatherization, energy-reduction modifications such as use of renewable energy sources; building envelope upgrades (cool roofs, exterior shading, optimized insulation and air sealing), installation of high-efficiency lighting fixtures and occupancy sensors for both lighting and HVAC, high-efficiency demand-controlled ventilation and energy-efficient boilers, more efficient exterior lighting and energy-efficient office equipment, replacing heating, ventilation, and cooling (HVAC) systems with more efficient boilers, motors, and variable-speed drives; reducing energy and maintenance costs by installing centralized energy management systems; lowering electric lighting and cooling loads and boosting productivity through increased use of daylighting, or installation of LED traffic lights.   |        |           |          | 11,500.00 | 11,500.00 |           |
| MSW | 38043 | Village Farms, L.P.  | 01/28/2010   | 1.00:1 | 4,600.00  | 920.00   | 1,840.00  | 1,840.00  | 1,840.00  |
|     |       | POLLUTION PREVENTION | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to coordinate with city and/or county governmental officials regarding the clean up of sites where trash has been disposed of illegally. Eligible sites will be limited to those where a responsible party can not be identified and where there is no pre-existing obligation to clean up the site by the owner or the government. Additionally, reasonable efforts must have already been taken to prevent the dumping. SEP monies will be used to pay for the direct cost of collection and disposal of debris. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.  |        |           |          | 1,840.00  | 1,840.00  |           |

|     |       | POLLUTION PREVENTION             | <p>The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Keep Texas Beautiful for the Stop Trashing Texas project as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, SEP funds will pay for the labor and disposal costs associated with cleanup of unauthorized trash dumps by supplying project coordination, labor, supplies, and materials for clean up events statewide. SEP funds used for this purpose shall be limited to the actual direct costs for the specific purpose necessary to meet the requirements of the SEP and no portion of the SEP funds will be spent on administrative costs related to this portion of the SEP. Trash dump cleanups may be coordinated with waste collection facilities and/or local governments to employ heavy machinery for the removal of large waste items. To the maximum extent possible, cleanups shall be accomplished with the use of volunteers from community groups, private companies, schools, and youth organizations. SEP Funds may be used for activities. This project will be administered in accordance with federal, state, and local environmental laws and regulations.</p> |        |            |          | 2,050.00  | 2,050.00  |           |
|     |       | POLLUTION PREVENTION             | <p>The Respondent shall contribute the SEP Amount to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to cleanup unauthorized dump sites, recycle materials when feasible, and properly dispose of all waste. Eligible sites will be limited to those where a responsible party cannot be found or is unable to clean the site and where reasonable efforts have been made to prevent the dumping.</p>  |        |            |          | 2,050.00  | 2,050.00  |           |

### Single Program

|     |                           |  |            |           |           |      |      |           |           |
|-----|---------------------------|--|------------|-----------|-----------|------|------|-----------|-----------|
|     | POLLUTION PREVENTION      | The Respondent will contribute to Lower Colorado River Authority ("LCRA") Household Hazardous Waste and Reusable Materials Collection. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Lower Colorado River Authority and the Texas Commission on Environmental Quality. SEP monies will be used to sponsor household hazardous waste collection events, battery collection events, used oil collection events, paint collection events, and tire collection events in conjunction with local city and county governments through the LCRA Statutory District. These collection events provide citizens with a safe and convenient opportunity to properly dispose of household hazardous wastes such as: paint, tires, pesticides, motor oil, oil filters, antifreeze, batteries, and household cleaners. Citizens will be encouraged to reuse unused portions of properly labeled and handled chemical products (i.e. fertilizers, paints, and some pesticides/herbicides) through the reusable materials exchange. SEP monies will be used by LCRA to supplement scheduled events, and to add additional collection events. The LCRA has not previously budgeted for these supplemental, additional, or special collection events and will not budget for them. | 1,410.00   | 1,410.00  |           |      |      |           |           |
| PWS | 38959                     | Childress Creek Water Supply Corporation   | 07/11/2010 | 1.00:1    | 6,340.00  | 0.00 | 0.00 | 6,340.00  | 6,340.00  |
|     | POLLUTION PREVENTION      | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Water or Wastewater Treatment Assistance Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to provide low income rural homeowners with assistance to enable the repair or replacement of their failing on-site wastewater systems. SEP monies will be used to pay for the labor and materials costs related to repairing or replacing the failing systems. The recipients will not be charged for the cost of replacing or repairing the failing systems.   | 6,340.00   | 6,340.00  |           |      |      |           |           |
| PWS | 36564                     | City of Corpus Christi   | 02/22/2010 | 1.00:1    | 10,481.00 | 0.00 | 0.00 | 10,481.00 | 10,481.00 |
|     | ENVIRONMENTAL RESTORATION | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Coastal Bend Bays & Estuaries Program for the Colonial Waterbird Rookery Island Enhancement Project to be used by the Third-Party Recipient as set forth in an agreement between the Third-Party Recipient and the TCEQ. The SEP Offset Amount will be used to pay for the labor and material costs associated with preventing erosion in the unprotected areas of the islands and restoring parts of the islands that have suffered from erosion.   | 10,481.00  | 10,481.00 |           |      |      |           |           |
| PWS | 25477                     | City Of Edgewood   | 10/04/2009 | 1.00:1    | 2,160.00  | 0.00 | 0.00 | 2,160.00  | 2,160.00  |
|     | POLLUTION PREVENTION      | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to coordinate with city and/or county governmental officials regarding the clean up of sites where trash has been disposed of illegally. Eligible sites will be limited to those where a responsible party can not be identified and where there is no pre-existing obligation to clean up the site by the owner or the government. Additionally, reasonable efforts must have already been taken to prevent the dumping. SEP monies will be used to pay for the direct cost of collection and disposal of debris. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.  | 2,160.00   | 2,160.00  |           |      |      |           |           |

## Appendix 6: List of SEP's & SEP Projects - FY2010

### Single Program

|     |       |                        |  |        |          |          |          |          |          |
|-----|-------|------------------------|--|--------|----------|----------|----------|----------|----------|
|     |       | POLLUTION REDUCTION    | Project will repair or replace failing water systems or on-site wastewater systems for low-income homeowners. SEP funds will be used to pay for the labor and material costs related to repairing or replacing the failing systems. The recipients will not be charged for the cost of replacing or repairing the failing system.<br>Benefit: Protect water sources for drinking, recreation and wildlife from contamination from the failing treatment systems; protect public health from contaminated drinking water supplies.  |        |          |          | 3,172.00 | 3,172.00 |          |
| PWS | 37705 | City of Trinity        | 12/18/2009   | 1.00:1 | 7,930.00 | 1,586.00 | 0.00     | 6,344.00 | 6,344.00 |
|     |       | POLLUTION PREVENTION   | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to clean-up sites where tires have been disposed of illegally. Eligible sites will be limited to those where a responsible party cannot be found and where reasonable efforts have been made to prevent the dumping. SEP monies will be used to pay for the direct cost of collecting and disposing of tires. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.   |        |          |          |          | 6,344.00 | 6,344.00 |

|     |       | POLLUTION PREVENTION   | The Respondent will contribute to Lower Colorado River Authority ("LCRA") Household Hazardous Waste and Reusable Materials Collection. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Lower Colorado River Authority and the Texas Commission on Environmental Quality. SEP monies will be used to sponsor household hazardous waste collection events, battery collection events, used oil collection events, paint collection events, and tire collection events in conjunction with local city and county governments through the LCRA Statutory District. These collection events provide citizens with a safe and convenient opportunity to properly dispose of household hazardous wastes such as: paint, tires, pesticides, motor oil, oil filters, antifreeze, batteries, and household cleaners. Citizens will be encouraged to reuse unused portions of properly labeled and handled chemical products (i.e. fertilizers, paints, and some pesticides/herbicides) through the reusable materials exchange. SEP monies will be used by LCRA to supplement scheduled events, and to add additional collection events. The LCRA has not previously budgeted for these supplemental, additional, or special collection events and will not budget for them. |        |          |          |          | 1,330.00 | 1,330.00 |

## Appendix 6: List of SEP's & SEP Projects - FY2010

### Single Program

|    |                           |  |            |           |           |          |           |           |           |
|----|---------------------------|--|------------|-----------|-----------|----------|-----------|-----------|-----------|
|    | ENVIRONMENTAL RESTORATION | The Respondent proposes to repair a gated weir in the Santa Anna Bayou marsh at the San Jacinto Battleground State Park that was damaged by Hurricane Ike in September 2008. The purpose of the weir is to prevent entry into the marsh of discharges from upstream industrial complexes located along the Phillips ditch which is used primarily for surface runoff of rain water. Occasionally a chemical spill may occur within the industrial complexes which may migrate into the Phillips ditch and empty into Santa Anna's bayou and eventually into the park's marsh. The Respondent shall utilize a contractor to provide heavy equipment to complete the highly specialized work.  | 4,032.00   | 4,032.00  |           |          |           |           |           |
| WQ | 37611                     | Skidmore Water Supply Corporation  | 10/04/2009 | 1.00:1    | 3,090.00  | 618.00   | 0.00      | 2,472.00  | 2,472.00  |
|    | POLLUTION PREVENTION      | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to cleanup rivers, lakes, and shorelines, by supplying project coordination, labor, supplies, and materials for cleanup events and by providing assistance with disposal fees for proper disposal of wastes collected at events. To maximize the event, cleanups will use volunteers for labor. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.   | 2,472.00   | 2,472.00  |           |          |           |           |           |
| WQ | 38159                     | Alloy Polymers Orange LLC  | 03/08/2010 | 1.00:1    | 13,300.00 | 2,660.00 | 5,320.00  | 5,320.00  | 5,320.00  |
|    | POLLUTION PREVENTION      | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to provide low income rural homeowners with assistance to enable the repair or replacement of their failing on-site wastewater systems. SEP monies will be used to pay for the labor and materials costs related to repairing or replacing the failing systems. The recipients will not be charged for the cost of replacing or repairing the failing systems.  | 5,320.00   | 5,320.00  |           |          |           |           |           |

|    | POLLUTION PREVENTION      | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Gulf Coast Waste Disposal Authority to be used for the River, Lakes, Bays, and Bayous Trash Bash Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Trash Bash is an annual event that entails the use of volunteers to clean up trash and pollutants from Galveston Bay and waterways in the San Jacinto watershed. The project has resulted in the removal of an average of 141.7 tons of trash and 729 abandoned tires annually from these waterways. SEP monies will be used to pay for materials, supplies, disposal cost and transportation cost directly associated with the clean up of trash and pollutants from the Galveston Bay and waterways in the San Jacinto watershed. | 16,640.00  | 16,640.00 |           |          |           |           |           |

|    |                      |   |            |           |           |        |      |           |           |
|----|----------------------|---|------------|-----------|-----------|--------|------|-----------|-----------|
|    | POLLUTION PREVENTION | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Galveston Bay Foundation to be used for the Galveston Bay Foundation "Marsh Mania" as set forth in the agreement between the Third-Party Recipient and the TCEQ. SEP monies will be used to restore shoreline elevations, growing plants for shoreline restoration, and planting new habitat. Historic subsidence and erosion have resulted in shoreline elevations which are too low to support vegetation. This project will seek to raise elevations by scraping and terracing. Scraping involves the use of earthmoving equipment to grade an eroded, bluff-like shoreline so that it slopes gradually towards the water resulting in the ability of plant growth. Terracing uses earthmoving equipment to create small levees by burrowing and stacking sediment in shallow water. The high elevation can then be planted with emergent vegetation. SEP monies will be used to pay for the direct costs of the implementation of the project, including material, equipment, and labor costs. | 36,192.00  | 36,192.00 |           |        |      |           |           |

|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Amount to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to provide local residents with a means of properly disposing household hazardous wastes such as paint, thinners, pesticides, oil and gas, corrosive cleaners, and fertilizers in one day collection events. SEP monies will be used to pay for the associated labor, materials, and disposal costs. Citizens will not be charged disposal fees. The project is administered in accordance with TCEQ guidance on household hazardous waste and in compliance with federal, state, and local environmental laws and regulations. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs.  | 9,430.00   | 9,430.00  |           |        |      |           |           |

## Appendix 6: List of SEP's & SEP Projects - FY2010

### Single Program

|    |                      |   |            |           |           |          |      |           |           |
|----|----------------------|---|------------|-----------|-----------|----------|------|-----------|-----------|
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Keep Texas Beautiful for the Stop Trashing Texas project as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, SEP funds will pay for the labor and disposal costs associated with cleanup of unauthorized trash dumps by supplying project coordination, labor, supplies, and materials for clean up events statewide. SEP funds used for this purpose shall be limited to the actual direct costs for the specific purpose necessary to meet the requirements of the SEP and no portion of the SEP funds will be spent on administrative costs related to this portion of the SEP. Trash dump cleanups may be coordinated with waste collection facilities and/or local governments to employ heavy machinery for the removal of large waste items. To the maximum extent possible, cleanups shall be accomplished with the use of volunteers from community groups, private companies, schools, and youth organizations. SEP Funds may be used for activities. This project will be administered in accordance with federal, state, and local environmental laws and regulations. | 17,730.00  | 17,730.00 |           |          |      |           |           |

|    | POLLUTION PREVENTION | The Respondent will contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the Third-Party Recipient will provide low income homeowners with failing on-site wastewater treatment systems or no system at all, with technical and financial assistance to install, repair, or replace those water and wastewater sewage systems. To reduce costs, the Third-Party Recipient teams with low income homeowners to solve water and wastewater problems by working together to build water and wastewater infrastructures. SEP contributions are to be used for material and labor costs.  | 17,432.00  | 17,432.00 |           |          |      |           |           |

|    | POLLUTION PREVENTION | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Unauthorized Trash Dump Clean-Up Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to coordinate with city and/or county governmental officials regarding the clean up of sites where trash has been disposed of illegally. Eligible sites will be limited to those where a responsible party can not be identified and where there is no pre-existing obligation to clean up the site by the owner or the government. Additionally, reasonable efforts must have already been taken to prevent the dumping. SEP monies will be used to pay for the direct cost of collection and disposal of debris. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.  | 7,976.00   | 7,976.00  |           |          |      |           |           |

|    |                      |  |            |           |           |          |           |           |           |
|----|----------------------|--|------------|-----------|-----------|----------|-----------|-----------|-----------|
|    | POLLUTION PREVENTION | The Respondent will contribute to Lower Colorado River Authority ("LCRA") Household Hazardous Waste and Reusable Materials Collection. The contribution will be used in accordance with the Supplemental Environmental Project Agreement between the Lower Colorado River Authority and the Texas Commission on Environmental Quality. SEP monies will be used to sponsor household hazardous waste collection events, battery collection events, used oil collection events, paint collection events, and tire collection events in conjunction with local city and county governments through the LCRA Statutory District. These collection events provide citizens with a safe and convenient opportunity to properly dispose of household hazardous wastes such as: paint, tires, pesticides, motor oil, oil filters, antifreeze, batteries, and household cleaners. Citizens will be encouraged to reuse unused portions of properly labeled and handled chemical products (i.e. fertilizers, paints, and some pesticides/herbicides) through the reusable materials exchange. SEP monies will be used by LCRA to supplement scheduled events, and to add additional collection events. The LCRA has not previously budgeted for these supplemental, additional, or special collection events and will not budget for them. | 3,280.00   | 3,280.00  |           |          |           |           |           |

|    | POLLUTION PREVENTION | This project involves using the quarry to capture and hold diverted storm flow until it can be absorbed or recharged into the aquifer. It has been estimated that the quarry could divert up to 275 acre feet of storm runoff into the aquifer annually. This would help protect against low or cessation of flow to Barton Springs, which is comprised of four springs that provide the only known habitat for two species of Plethodontid salamanders, Eurycea sosorum, the Barton Springs Salamander, and Eurycea waterlooensis, the Austin Blind Salamander. Eurycea sosorum was federally listed as endangered in 1998 and E. waterlooensis is being evaluated for listing by the United States Fish and Wildlife Service. Additionally, the quarry is expected to attract nesting ducks and other waterfowl through mudflats and shallow water retention areas.  | 1,712.00   | 1,712.00 |           |          |           |           |           |

### Single Program

|    |                      |   |            |        |           |          |          |           |           |
|----|----------------------|---|------------|--------|-----------|----------|----------|-----------|-----------|
|    | POLLUTION PREVENTION | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to the Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Abandoned Tire Clean-Up Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to clean-up sites where tires have been disposed of illegally. Eligible sites will be limited to those where a responsible party cannot be found and where reasonable efforts have been made to prevent the dumping. SEP monies will be used to pay for the direct cost of collecting and disposing of tires. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.  |            |        |           |          | 8,025.00 | 8,025.00  |           |
| WQ | 39118                | City of East Tawakoni   | 08/09/2010 | 1.00:1 | 7,895.00  | 1,579.00 | 0.00     | 6,316.00  | 6,316.00  |
|    | POLLUTION PREVENTION | The Respondent shall contribute the SEP Amount to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to provide local residents with a means of properly disposing household hazardous wastes such as paint, thinners, pesticides, oil and gas, corrosive cleaners, and fertilizers in one day collection events. SEP monies will be used to pay for the associated labor, materials, and disposal costs. Citizens will not be charged disposal fees. The project is administered in accordance with TCEQ guidance on household hazardous waste and in compliance with federal, state, and local environmental laws and regulations. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs.<br><br>The Respondent certifies that there is no prior commitment to do this project and that it is being performed solely in an effort to settle this enforcement action. |            |        |           |          |          | 6,316.00  | 6,316.00  |

## Appendix 6: List of SEP's & SEP Projects - FY2010

### Single Program

|    |                           |  |            |           |           |          |           |           |           |
|----|---------------------------|--|------------|-----------|-----------|----------|-----------|-----------|-----------|
|    | POLLUTION PREVENTION      | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to cleanup rivers, lakes, and shorelines, by supplying project coordination, labor, supplies, and materials for cleanup events and by providing assistance with disposal fees for proper disposal of wastes collected at events. To maximize the event, cleanups will use volunteers for labor. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.                                       | 4,480.00   | 4,480.00  |           |          |           |           |           |
| WQ | 37216                     | St. Francis Village, Inc.  | 10/04/2009 | 1.00:1    | 6,680.00  | 1,336.00 | 0.00      | 5,344.00  | 5,344.00  |
|    | CLEAN UP                  | The Respondent shall hold a minimum of two one-day waterway cleanup events surrounding Lake Benbrook for the collection, recycling, and proper disposal of improperly disposed debris and wastes. The Respondent shall coordinate the events with the Corps of Engineers and shall use volunteers from the community, including a local Boy Scout Troop, to accomplish the events. Participating Boy Scouts may work toward earning merit badges for citizenship in the community, environmental science, and/or water conservation. Volunteers will collect and properly dispose of or recycle wastes surrounding Lake Benbrook shorelines. The events will be advertised in a local newspaper to increase public awareness and participation.                        | 5,344.00   | 5,344.00  |           |          |           |           |           |

|    | ENVIRONMENTAL ENHANCEMENT | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the Third-Party Recipient shall repair or replace failing water systems or on-site wastewater systems for low income homeowners. The Third-Party Recipient shall use SEP funds to pay for the labor and materials costs related to repairing or replacing the failing systems. The recipients will not be charged for the cost of replacing or repairing the failing systems. The Third-Party recipient shall use a consistent and documented system for determining eligible participants.   | 13,225.00  | 13,225.00 |           |          |           |           |           |
| WQ | 38859                     | Parker Pearson, L.P.   | 06/26/2010 | 1.00:1    | 20,000.00 | 4,000.00 | 8,000.00  | 8,000.00  | 8,000.00  |
|    | POLLUTION PREVENTION      | The Respondent shall contribute to the SEP offset amount to the Third-Party Recipient named above. The contribution will be to Texas Association of Resource Conservation and Development Areas, Inc. to be used for the RC&D Water or Wastewater Treatment Assistance Program as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to provide low income rural homeowners with assistance to enable the repair or replacement of their failing on-site wastewater systems. SEP monies will be used to pay for the labor and materials costs related to repairing or replacing the failing systems. The recipients will not be charged for the cost of replacing or repairing the failing systems. | 8,000.00   | 8,000.00  |           |          |           |           |           |

|    | POLLUTION PREVENTION |                                    | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Keep Texas Beautiful for the Stop Trashing Texas project as set forth in an agreement between the Third-Party Recipient and the TCEQ. Specifically, SEP funds will pay for the labor and disposal costs associated with cleanup of unauthorized trash dumps by supplying project coordination, labor, supplies, and materials for clean up events statewide. SEP funds used for this purpose shall be limited to the actual direct costs for the specific purpose necessary to meet the requirements of the SEP and no portion of the SEP funds will be spent on administrative costs related to this portion of the SEP. Trash dump cleanups may be coordinated with waste collection facilities and/or local governments to employ heavy machinery for the removal of large waste items. To the maximum extent possible, cleanups shall be accomplished with the use of volunteers from community groups, private companies, schools, and youth organizations. SEP Funds may be used for activities. This project will be administered in accordance with federal, state, and local environmental laws and regulations. |        |          |          | 7,550.00 | 7,550.00 |          |

SEP funds used for this purpose shall be limited to the actual direct costs for the specific purpose necessary to meet the requirements of the SEP and no portion of the SEP funds will be spent on administrative costs related to this portion of the SEP. Trash dump cleanups may be coordinated with waste collection facilities and/or local governments to employ heavy machinery for the removal of large waste items. To the maximum extent possible, cleanups shall be accomplished with the use of volunteers from community groups, private companies, schools, and youth organizations. SEP Funds may be used for activities. This project will be administered in accordance with federal, state, and local environmental laws and regulations. | 1,504.00   | 1,504.00 |          |          |          |          |          |

|    | POLLUTION PREVENTION | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to coordinate with city and/or county governmental officials regarding the clean up of sites where trash has been disposed of illegally. Eligible sites will be limited to those where a responsible party can not be identified and where there is no pre-existing obligation to clean up the site by the owner or the government. Additionally, reasonable efforts must have already been taken to prevent the dumping. SEP monies will be used to pay for the direct cost of collection and disposal of debris. All dollars contributed will be used solely for the direct cost of the project and no portion will be spent on administrative costs. The SEP will be done in accordance with all federal, state and local environmental laws and regulations.   | 2,944.00   | 2,944.00 |          |          |          |          |          |

### Single Program

|  |       |  |               |                     |                   |                     |                     |                     |           |
|--|-------|--|---------------|---------------------|-------------------|---------------------|---------------------|---------------------|-----------|
| POLLUTION PREVENTION                       |       | The Respondent shall contribute to the Third-Party Recipient pursuant to the agreement between the Third-Party Recipient and the TCEQ. Specifically, the contribution will be used to aid local school districts, area transit agencies, and local governments in need of funding assistance to pay for the cost of the following activities to reduce emissions: 1) replacing older diesel buses with alternative fuelled or clean diesel buses; or 2) retrofitting older diesel buses with new, cleaner technology. The funds will be disbursed on a needs-rated basis, using non-attainment area status, condition of buses, and economic status of the recipient as possible rating factors if competition for the funds exists. To maximize funds, retrofitting will take priority over replacement of buses. Older buses deemed not suitable for retrofitting will be permanently retired and sold only for scrap. | 3,520.00      | 3,520.00            |                   |                     |                     |                     |           |

| POLLUTION PREVENTION                       |       | The Respondent shall contribute the SEP Offset Amount to the Third-Party Recipient named above. The contribution will be to Jefferson County Government to be used for the Cheek Community First Time Sewer Service for Low Income Home Owners project. Specifically, SEP monies will be used to provide first time sewer service for low-income residential customers in the Candlelight and Martel Subdivisions (Cheek Community) located in the western area of Jefferson County. This area has open sewage pits or poorly maintained septic systems which are a hazard to human health and the environment. SEP Funds will be used to install wastewater infrastructure and a low pressure sewer system consisting of grinder pump stations located at each home. The project will be administered in accordance with federal, state, and local environmental laws and regulations.                                  | 17,208.00     | 17,208.00           |                   |                     |                     |                     |           |
