

Where exactly is
DISH?

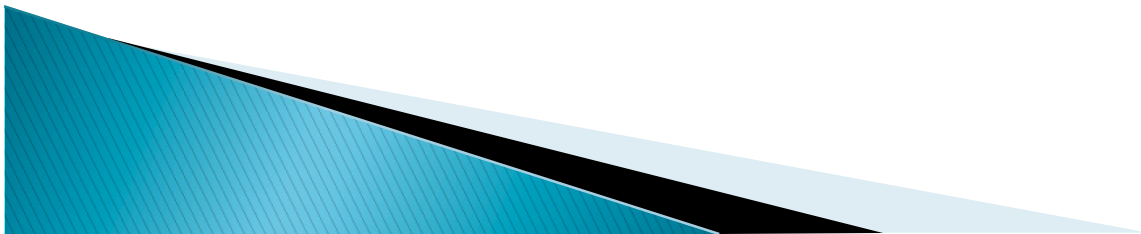

Town of DISH: Grand Central Station of the Barnett Shale

- ▶ Eleven high pressure natural gas pipelines converge on DISH.
- ▶ Five companies have installed eleven natural gas compressors as well as associated treating facility.
- ▶ Home to four natural gas metering stations.
- ▶ Around eighteen natural gas wells, inside our corporate limits.
- ▶ Fifty plus wells just outside of our corporate limits.

DISH Air Study

- ▶ Study was performed by Wolf Eagle Environmental
- ▶ Samples were taken at seven locations on private property
- ▶ All but one of the samples showed exceedances of Effects Screening Levels (ESL).
- ▶ A total of sixteen toxins were above ESL
- ▶ Several toxins exceeded both short term and long term ESL

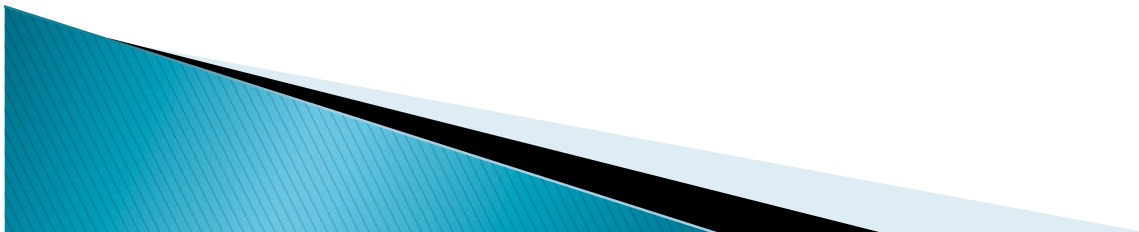

DISH Compressor Stations

Where We Are Now

- ▶ TCEQ has installed a permanent air monitor.
- ▶ Town of DISH has performed additional testing.
- ▶ Four of the sites have installed, or plan to install major emission controls.
- ▶ One has shut there facility down, and is planning to move it.
- ▶ The quality of life is much improved over the past year.
- ▶ The Oil and Gas Accountability Project, helped tremendously in getting these results.

ShaleTest

- ▶ Is an organization founded by myself and Tim Ruggiero.
- ▶ Main purpose of ShaleTest is to perform environmental testing of water, air and soil for lower income families.
- ▶ Will never charge for services.

ShaleTest

▶ Goals

- Collect environmental data that Benefits affected people as well as share data with environmental agencies.
- Recipients of the testing will receive actual lab results, as well as a plain English interpretation from a Shaletest scientist.
- Good Steward – No less than 90% of contributions will be spent on actual testing.

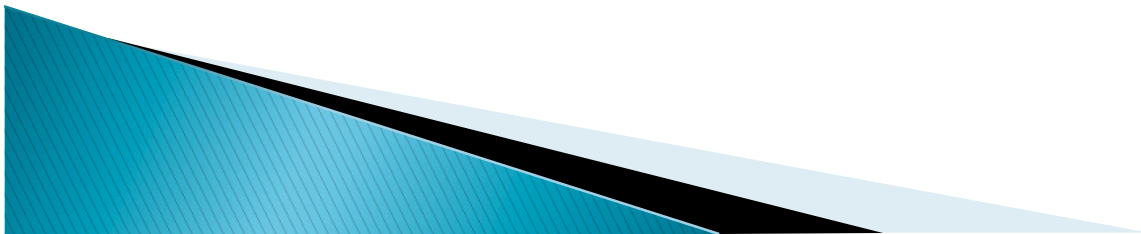

ShaleTest Organization

- ▶ Will provide environmental testing of water, air and soil
- ▶ Non-Profit Organization (501 c3 In Progress)
- ▶ Five Members on The Board of Directors, Limited to Seven Members
- ▶ Four Advisors That Will Assist With Technical Aspects of the Organization
- ▶ Four Regional Team Members
- ▶ Work in Conjunction With Numerous Community Awareness Groups Nationwide

Testing Equipment

- ▶ FLIR Gasfindir Infrared Camera
- ▶ Portable Gas Chromatograph
- ▶ Stainless Steel Summa Canisters
- ▶ Tedlar Bags

FLIR Gasfindir
