7 RATE PGF	Applicable to: Entire System					
	RATE PGF - PURCHASED GAS FACTOR					
	Purpose and Intent					
	This provision is intended to allow collection of the gas purchase costs of CoServ Gas, Ltd. (hereinafter CoServ Gas or the Company) in a manner that will lessen					
	monthly fluctuations in the Purchased Gas Factor and ensure that actual costs					
	billed to customers are fully reconciled with actual costs incurred, subject to					
	limitations for excessive lost and unaccounted for gas. The billing methods set					
	forth herein are intended to be followed to the extent the goals are realized. To					
	the extent the billing methods fail to achieve these goals, the methodology shall be revised and a revised tariff filed to reflect such revisions. The Company will					
	make appropraite regulatory filings and obtain regulatory approvals, as required,					
	before making changes to its rates.					
	Applicability					
	This clause shall apply to all CoServ Gas tariffs that incorporate this Purchased					
	Gas Factor provision and which have been properly filed and implemented with the appropriate jurisdictional authority.					
	Definitions					
	Standard Cubic Foot of Gas the amount of gas contained in one (1) cubic foot of					
	space at a standard pressure of fourteen and sixty five hundredths (14.65) pounds					
	per square inch, absolute and a standard temperature of sixty (60) degrees Fahrenheit.					
	Ccf one hundred standard cubic feet of gas.					
	Mcf one thousand standard cubic feet of gas.					
	Purchased Gas Volumes					
	The volumes of gas, expressed in Mcf's, purchased by the Company and received into					
	the Company's distribution systems from all sources, including withdrawals from storage, and excluding gas injected into storage.					
	Purchased Gas Cost(s)					
	The total cost of Purchased Gas Volumes, as received into the Company's distribution systems, all as more specifically described herein.					
	Weighted Average Cost of Gas					
	The Purchased Gas Costs divided by the Purchased Gas Volumes, calculated on a monthly basis, and expressed as dollars per Mcf.					
	Billed Gas Volumes					
	The volumes of gas billed to customers, plus volumes of gas billed to third parties					

RIFF CODE: DS	RRC TARIFF NO: 22427
ATE SCHEDULE	
SCHEDULE ID	
<u>Beinebolie 1D</u>	DESCRIPTION
	following losses or damages, expressed in Mcf's.
	Billed Gas Revenues
	The total amount of revenues attributable to billings by CoServ for Purchased Gas
	Costs during a given period, exclusive of any billings for any Reconciliation
	Factor during the same period.
	Lost and Unaccounted for Gas (LUG)
	Purchased Gas Volumes minus the sum of Billed Gas Volumes and metered Company used
	gas.
	Purchased Gas Factor (PGF)
	A factor on each customer's monthly bill, expressed in dollars per Ccf, to reflect
	the Purchase Gas Costs and the Reconciliation Factor, all as more specifically
	described herein.
	Annual Review Period
	The 12 month period ending June 30 of each year.
	Annual Review
	Annual review of the Company's records covering the 12 month period ending June
	30 to determine LUG volumes and any imbalances between the Purchased Gas Costs and
	Billed Gas Revenues existing at the end of the Annual Review Period.
	Annual Imbalance Total
	The total amount determined through the Annual Review to be credited or surcharged
	to customers' bill, plus interest, in order to balance Purchased Gas Costs with
	Billed Gas Revenues.
	Reconciliation
	Factor A credit or surcharge included in the Purchased Gas Factor to reflect the
	pro rated adjustment in billings for any over or under collections on an annual
	basis, inclusive of interest.
	Begard Kapping
	Record Keeping The Company shall keep accurate records of all gas metered in and out of its
	system, gas purchases, and Company owned gas injected into and withdrawn from
	storage, and any adjustments, including interest, relative to any imbalances. The
	records shall include date, quantity, and cost details for all gas handled.
	Purchased Gas Cost Calculation
	The Purchased Gas Cost shall be determined for each month to fairly and accurately
	reflect the cost to the Company at the points of delivery into the Company's
	distribution systems. The determination shall include, but not be limited to,
	volumetric and demand charges for Purchased Gas Volumes, fees paid to others where
	such fees are integrally tied to the purchase or transportation of gas purchased by
	CoServ, pipeline transportation charges (both volumetric and demand), and gas
	storage charges (both volumetric and demand). The Company shall account for gas
	injected into and withdrawn from storage on a weighted average cost basis.

ARIFF CODE: DS	RRC TARIFF NO: 22427
ATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	Purchased Gas Factor Calculation Each customer bill shall include a Purchased Gas Factor reflecting the estimated Weighted Average Cost of Gas for the period covered by the bill, which estimate shall include, as applicable, a pro rata amount to adjust for previous over or under estimates of the Weighted Average Cost of Gas, plus the total amount of gas cost determined to have been uncollectible, written off, and remaining unpaid; plus a Reconciliation Factor to account for any Annual Imbalance Total.
	Appual Portion
	Annual Review For each Annual Review Period, the Company shall determine (i) the amount of any imbalance between the Purchased Gas Costs and Billed Gas Revenues, and (ii) the LUG volume for the Annual Review Period. As limited by the LUG volume limitation set forth below, the Annual Imbalance Total shall then be credited or surcharged, together with interest, to the customers' bills over a twelve month period commencing each September 1 following the Annual Review Period. Annual Imbalance Total LUG Volume less than five percent of Purchased Gas Volumes or LUG Volume is negative If the Annual Review shows the LUG volume for the Annual Review Period to be less than five percent of Purchased Gas Volumes, or if the LUG volume is negative (indicating a line gain), the Annual Imbalance Total shall be the difference between the total Purchased Gas Cost and the total Billed Gas Revenues for the Annual Review Period. Annual Imbalance Total shall be the difference between the total Purchased Gas Volumes, the Annual Imbalance Total shall be determined as follows: The difference between the total Purchased Gas Costs and the total Billed Gas Revenues for the Annual Review Period to be positive and to be greater than five percent of Purchased Gas Volumes, the Annual Imbalance Total shall be determined as follows: The difference between the total Purchased Gas Costs and the total Billed Gas Revenues for the Annual Review Period shall be determined? Minus, the Purchased Gas Cost attributable to LUG volumes in excess of 5% of the Purchase Gas Volumes, using the Company's Weighted Average Cost of Purchased Gas for the Review Period. Reconciliation Factor Calculation The Annual Imbalance Total (whether positive or negative) shall be credited or surcharged over twelve months in equal total amounts per month, together with interest to be collected or paid shall be computed by using a monthly interest factor equal to the annual interest rate divided by 12. The annual interest rate shall be the interest rate established pursuant to S

RRC COID: 5588	COMPANY NAME: COSERV GAS
TARIFF CODE: DS	RRC TARIFF NO: 22427
RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	Annual Reconciliation Report
	The Company shall file an Annual Reconciliation Report with the Regulatory
	Authority that shall include but not necessarily be limited to:
	1. A tabulation of volumes of gas purchased and costs incurred listed by account or
	type of gas, supplier and source by month for the twelve months ending June 30;
	2. A tabulation of the uncollectible gas cost by month for the twelve months
	ending June 30;
	3. A description of all other costs and refunds made during the year and their effect on Rate PGF-Purchased Gas Factor to date;
	effect on Rate For-Fullhased Gas Factor to date,
	4. A tabulation of gas units sold to general service customers and related Rate
	PGF-Purchased Gas Factor revenues; and,
	5. A description of the imbalance payments made to and received from the Company's
	transportation customers within the service area, including monthly imbalances
	incurred, the monthly imbalances resolved, and the amount of cumulative imbalances.
	The description should reflect the system imbalance and imbalance amount for each
	supplier using the Company's distribution system during the reconciliation period.
8 RIDER PSF	Rider PSF - Pipeline Safety Fee. Application:
	Applicable to all customer classes. Company will charge a surcharge to recover
	pipeline safety fees assessed by the Commission pursuant to Section 121.211 of the Texas Utilities Code and Commission Rule 16 TAC section 8.201. The surcharge will
	be charged not more often than once a year and will be billed following payment by
	the Company to the Commission, in accordance with the Commission's rules.
	The Company will charge a one-time customer charge per bill of \$1.00, based on
	\$1.00 per service line, effective 4/1/14 through 4/30/14.
9 RIDER RCE	RIDER RCE - RATE CASE EXPENSES
	Applicable to: Entire System
	Application
	Applicable to Residential and Commercial customer classes.
	Monthly calculation The bill of each residential and commercial customer shall include a surcharge
	designed to recover Company's reasonable rate case expenses, including
	reimbursement of municipal rate case expenses in accordance with Section 103.022 of
	the Texas Utilities Code. The surcharge will be calculated on a CCF basis using
	total company volumes for Residential and Commercial customers, over a period of
	thirty six (36) months commencing with the date rates set forth in this revised tariff become effective in the city, town or environs area.
	All collections of the surcharge will be applied monthly to the outstanding
	uncollected balance of such rate case expenses, and interest at the rate of six (6)
	percent per year shall be calculated on, and added to, the declining balance each month. To the extent that some expenses may be estimates, Company is authorized to
	add such expenses as incurred to the amount to be surcharged up to the total

RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	estimated expenses of Company and municipalities being reimbursed.
	Company shall file an annual report with each regulatory authority with jurisdiction setting forth recoveries and the remaining balance in the rate expense account.
10.0 WNA RIDER	RIDER WNA - WEATHER NORMALIZATION ADJUSTMENT Purpose and Intent This provision is intended to account for the effects of abnormal temperatures on both customers and the Company. Under this provision customers will receive a credit when the temperature is colder than normal or will be surcharged when the temperature is warmer than normal. The billing methods set forth herein are intended to be followed to the extent the goals are realized. To the extent the billing methods fail to achieve these goals, the methodology shall be revised so that the goals are achieved, subject to review by the Gas Services Division ofthe Railroad Commission of Texas. Applicability This clause shall apply to commercial customers consuming less than 4,000 Ccf of natural gas during the prior twelve months and all residential customers. This tariff shall be applicable for the months of November through April of each year. The WNA charge shall be reflected on the monthly bills rendered to customers in the months of December through May to account for the variation in gas consumption due to the variation in temperatures from normal during the November through April period. The WNA charge billed for a month will be based on Heating Degree Day parameters for the previous month, actual number of customers for the previous month, and estimated rate class Ccf consumption for the current month. Definitions Ccf- One hundred standard cubic feet of gas HDD- Heating Degree Days HDDn- Normal heating degree days for the previous month calculated as a 10-year simple daily average over the period of July 1,1998 through June 30, 2007. HDDa- Actual heating degree days for the previous month HL-Is a factor for heat load per HDD for the test year. The factor is 0.3897 for commercial customers consuming fewer than 4,000 Ccf during the prior 12 months and 0.2631 for all residential customers. EL -Is a constant for each customer class for the base
	all residential customers. BL -IS a constant for each customer class for the base load for the test year. The constant is 42.405 for commercial customers consuming fewer than 4,000 Ccf during the prior 12 months and 18.309 for all residential customers. A regression formula for determining constant and weather sensitive consumption is derived from customer usage data from the test year used for establishing the base rates. The regression per customer is: Ccf Per customer= BL + HL * HDD C -Number of customers in the customer class at the end of the previous month. WNV -Weather Normalization Volume calculated by customer class using the following formula: WNV = C * (HL*(HDDn - HDDa)) BMVe- The estimate of the volume of natural gas for the current month to be consumed by each customer class.
6 COMMERCIAL SALES	Rate C - Commercial Sales
	Applicalbe to: Entire System
	Application of Schedule
	Schedule applies to all Commercial Customers.
	Monthly Base Rate Customer's base monthly bill will be calculated using the following Customer and Ccf charges: Customer Charge \$13.50 per month, plus

	Volumetric Charge: \$.23043 per Ccf			
	Purchased Gas Factor			
	In addition to the base monthly bill above, each customer's bill will include a			
	Purchased Gas Factor to account for purchased gas costs and computed in accordance with Rate PGF Purchased Gas Factor.			
	with rate PGF Purchased Gas Factor.			
	Taxes			
	In addition to the monthly charges above, each customer's bill will include a			
	charge for an amount equivalent to the customer's proportional part of the city franchise fees, state gross receipts taxes, or other governmental levies payable by			
	the Company, exclusive of federal income taxes. Municipal franchise fees are			
	determined by each municipality's franchise ordinance. Each municipality's			
	franchise ordinance will specify the percentage and applicability of franchise			
	fees. From time to time, the tax factor may be adjusted, if required, to account			
	for any over or under recovery of municipal franchise fees by the Company and to include an amount equivalent to the proportionate part of any new tax or increased			
	franchise fee or tax, or any other governmental imposition, rental fee, or charge			
	levied, assessed or imposed subsequent to the effective date of this tariff by any			
	governmental authority, including districts, created under the laws of the State of			
	Texas. The Company will also collect sales taxes where applicable. Gross receipts			
	taxes and municipal franchise fees will only be charged to customers within the incorporated areas.			
	Surcharges			
	In addition to the monthly charges above, each customer's bill will include an			
	amount for surcharges calculated in accordance with the applicable rider(s): Rider PSF, and Rider RCE.			
	PSF, and Rider RCE.			
	Line Extension Policy			
	The company has the right to contract with individual customers for the			
	installation of gas facilities as provided for by the city franchise. Upon the request of a prospective new residential or commercial customer for service in an			
	area served by CoServ Gas, CoServ Gas will extend its main lines up to 100 feet			
	from an existing CoServ Gas main in the Public Rights of Way, without charge. The			
	100 foot allowance applies to a single customer or to a group of customers			
	requesting service from the same extension. Customers requesting mainline			
	extensions in excess of 100 feet shall bear the cost of any additional main, and shall bear the cost of all yard lines, service lines, customer meters and			
	regulators, and appurtenant equipment, in accordance with the charges listed in			
	itme 12, Line Extension and Installation, of Rate M, Miscellaneous Service Charges.			
	CoServ Gas is not required to extend its mains or faciliteis if the customer will			
	not use gas for space heating and water heating, or the equivalent load, at a minimum.

ATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	following losses or damages, expressed in Mcf's.
	TOTTOWING TOSSES OF damages, expressed in McF 5.
	Billed Gas Revenues
	The total amount of revenues attributable to billings by CoServ for Purchased Gas
	Costs during a given period, exclusive of any billings for any Reconciliation
	Factor during the same period.
	Lost and Unaccounted for Gas (LUG)
	Purchased Gas Volumes minus the sum of Billed Gas Volumes and metered Company used
	gas.
	Purchased Gas Factor (PGF)
	A factor on each customer's monthly bill, expressed in dollars per Ccf, to reflect
	the Purchase Gas Costs and the Reconciliation Factor, all as more specifically
	described herein.
	Annual Review Period
	The 12 month period ending June 30 of each year.
	Annual Review
	An annual review of the Company's records covering the 12 month period ending June
	30 to determine LUG volumes and any imbalances between the Purchased Gas Costs and
	Billed Gas Revenues existing at the end of the Annual Review Period.
	Annual Imbalance Total
	The total amount determined through the Annual Review to be credited or surcharged
	to customers' bill, plus interest, in order to balance Purchased Gas Costs with
	Billed Gas Revenues.
	Reconciliation
	Factor A credit or surcharge included in the Purchased Gas Factor to reflect the
	pro rated adjustment in billings for any over or under collections on an annual
	basis, inclusive of interest.
	Record Keeping
	The Company shall keep accurate records of all gas metered in and out of its
	system, gas purchases, and Company owned gas injected into and withdrawn from
	storage, and any adjustments, including interest, relative to any imbalances. The
	records shall include date, quantity, and cost details for all gas handled.
	Purchased Gas Cost Calculation
	The Purchased Gas Cost shall be determined for each month to fairly and accurately reflect the cost to the Company at the points of delivery into the Company's
	distribution systems. The determination shall include, but not be limited to,
	volumetric and demand charges for Purchased Gas Volumes, fees paid to others where
	such fees are integrally tied to the purchase or transportation of gas purchased by
	CoServ, pipeline transportation charges (both volumetric and demand), and gas
	storage charges (both volumetric and demand). The Company shall account for gas
	injected into and withdrawn from storage on a weighted average cost basis.

	COMPANY NAME: COSERV GAS
ARIFF CODE: DS	RRC TARIFF NO: 22428
RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	Purchased Gas Factor Calculation Each customer bill shall include a Purchased Gas Factor reflecting the estimated Weighted Average Cost of Gas for the period covered by the bill, which estimate shall include, as applicable, a pro rata amount to adjust for previous over or under estimates of the Weighted Average Cost of Gas, plus the total amount of gas cost determined to have been uncollectible, written off, and remaining unpaid; plus a Reconciliation Factor to account for any Annual Imbalance Total.
	Annual Review For each Annual Review Period, the Company shall determine (i) the amount of any imbalance between the Purchased Gas Costs and Billed Gas Revenues, and (ii) the LUG volume for the Annual Review Period. As limited by the LUG volume limitation set forth below, the Annual Imbalance Total shall then be credited or surcharged, together with interest, to the customers' bills over a twelve month period commencing each September 1 following the Annual Review Period. Annual Imbalance Total LUG Volume less than five percent of Purchased Gas Volumes or LUG Volume is negative If the Annual Review shows the LUG volume for the Annual Review Period to be less than five percent of the Purchased Gas Volumes, or if the LUG volume is negative (indicating a line gain), the Annual Imbalance Total shall be the difference between the total Purchased Gas Cost and the total Billed Gas Revenues for the Annual Review Period. Annual Imbalance Total LUG Volume is positive and is greater than five percent of the Purchased Gas Volumes, I the Annual Review shows the LUG volume for the Annual Review Period to be positive and to be greater than five percent of the Durchased Gas Volumes, I the total Purchased Gas Costs and the total Billed As Revenues for the Annual shall be determined: Minus, the Purchased Gas Cost at tributable to LUG volumes in excess of 5% of the Purchased Gas Cost at tributable to LUG volumes in excess of 5% of the Purchased Gas Cost at tributable to tal Average Cost of Purchased Gas for the Review Period. Reconciliation Factor Calculation The Annual Imbalance Total (whether positive or negative) shall be credited or surcharged over twelve months in equal total amounts per month, together with interest to the collected or paid shall be computed by using a monthly interest factor equal to the annual Imbalance Total. The resulting total shall be determined as such rate is neffect during the Last month of the Annual Review Period. The total interest rate divided by 12. The annual interest rate shall be the intere

	COMPANY NAME: COSERV GAS
TARIFF CODE: DS	RRC TARIFF NO: 22428
RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	Annual Reconciliation Report
	The Company shall file an Annual Reconciliation Report with the Regulatory
	Authority that shall include but not necessarily be limited to:
	1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30;
	2. A tabulation of the uncollectible gas cost by month for the twelve months ending June 30;
	3. A description of all other costs and refunds made during the year and their
	effect on Rate PGF-Purchased Gas Factor to date;
	<ol> <li>A tabulation of gas units sold to general service customers and related Rate PGF-Purchased Gas Factor revenues; and,</li> </ol>
	5. A description of the imbalance payments made to and received from the Company's
	transportation customers within the service area, including monthly imbalances
	incurred, the monthly imbalances resolved, and the amount of cumulative imbalances. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
8 RIDER PSF	Rider PSF - Pipeline Safety Fee. Application:
	Applicable to all customer classes. Company will charge a surcharge to recover
	pipeline safety fees assessed by the Commission pursuant to Section 121.211 of the
	Texas Utilities Code and Commission Rule 16 TAC section 8.201. The surcharge will
	be charged not more often than once a year and will be billed following payment by the Company to the Commission, in accordance with the Commission's rules.
	The Company will charge a one-time customer charge per bill of \$1.00, based on \$1.00 per service line, effective 4/1/14 through 4/30/14.
9 RIDER RCE	RIDER RCE - RATE CASE EXPENSES
	Applicable to: Entire System
	Application
	Applicable to Residential and Commercial customer classes.
	Monthly calculation
	The bill of each residential and commercial customer shall include a surcharge
	designed to recover Company's reasonable rate case expenses, including
	reimbursement of municipal rate case expenses in accordance with Section 103.022 of
	the Texas Utilities Code. The surcharge will be calculated on a CCF basis using
	total company volumes for Residential and Commercial customers, over a period of thirty six (36) months commencing with the date rates set forth in this revised
	tariff become effective in the city, town or environs area.
	All collections of the surghance will be emplied marthly to the substanting
	All collections of the surcharge will be applied monthly to the outstanding uncollected balance of such rate case expenses, and interest at the rate of six (6)
	percent per year shall be calculated on, and added to, the declining balance each
	month. To the extent that some expenses may be estimates, Company is authorized to
	add such expenses as incurred to the amount to be surcharged up to the total

RRC COID: 5588	COMPANY NAME: COSERV GAS
TARIFF CODE: DS	RRC TARIFF NO: 22428
RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	estimated expenses of Company and municipalities being reimbursed.
	Company shall file an annual report with each regulatory authority with jurisdiction setting forth recoveries and the remaining balance in the rate expense account.
10.0 WNA RIDER	RIDER WNA - WEATHER NORMALIZATION ADJUSTMENT Purpose and Intent This provision is intended to account for the effects of abnormal temperatures on both customers and the Company. Under this provision customers will receive a credit when the temperature is colder than normal or will be surcharged when the temperature is warmer than normal. The billing methods set forth herein are intended to be followed to the extent the goals are realized. To the extent the billing methods fail to achieve these goals, the methodology shall be revised so that the goals are achieved, subject to review by the Gas Services Division ofthe Railroad Commission of Texas. Applicability This clause shall apply to commercial customers consuming less than 4,000 Ccf of natural gas during the prior twelve months and all residential customers. This tariff shall be applicable for the months of November through April of each year. The WNA charge shall be reflected on the monthly bills rendered to customers in the months of December through May to account for the variation in gas consumption due to the variation in temperatures from normal during the November through April period. The WNA charge billed for a month will be based on Heating Degree Day parameters for the previous month, actual number of customers for the previous month, and estimated rate class Ccf consumption for the current month. Definitions Ccf- One hundred standard cubic feet of gas HDD- Heating Degree Days HDD- Normal heating degree days for the previous month calculated as a 10-year simple daily average over the period of July 1,1998 through June 30, 2007. HDDa Actual heating degree days for the previous month HL-Is a factor for heat load per HDD for the test year. The factor is 0.3897 for commercial customers consuming fewer than 4,000 Ccf during the prior 12 months and 0.2631 for all residential customers. EL -Is a constant for each customer class for the base load for the test year. The constant is 42.405 for commercial customers consuming fewer than 4,000 Ccf during the p

RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	the Company, exclusive of federal income taxes. Municipal franchise fees are determined by each municipality's franchise ordinance. Each municipality's franchise ordinance will specify the percentage and applicability of franchise fees. From time to time, the tax factor may be adjusted, if required, to account for any over or under recovery of municipal franchise fees by the Company and to include an amount equivalent to the proportionate part of any new tax or increased franchise fee or tax, or any other governmental imposition, rental fee, or charge levied, assessed or imposed subsequent to the effective date of this tariff by any governmental authority, including districts, created under the laws of the State of Texas. The Company will also collect sales taxes where applicable. Gross receiptst taxes and municipal franchise fees will only be charged to customers within the incorporated areas.
	Surcharges In addition to the monthly charges above, each customer's bill will include an amount for surcharges calculated in accordance with the applicable rider(s): Rider PSF, and Rider RCE.
	Line Extension Policy The company has the right to contract with individual customers for the installation of gas facilities as provided for by the city franchise. Upon the request of a prospective new residential or commercial customer for service in an area served by CoServ Gas, CoServ Gas will extend its main lines up to 100 feet from an existing CoServ Gas main in the Public Rights of Way, without charge. The 100 foot allowance applies to a single customer or to a group of customers requesting service from the same extension. Customers requesting mainline extensions in excess of 100 feet shall bear the cost of any additional main, and shall bear the cost of all yard lines, service lines, customer meters and regulators, and appurtenant equipment, in accordance with the charges listed in itme 12, Line Extension and Installation, of Rate M, Miscellaneous Service Charges. CoServ Gas is not required to extend its mains or faciliteis if the customer will not use gas for space heating and water heating, or the equivalent load, at a minimum.

None

RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
6.2 RATE CE	RATE CE COMMERCIAL ENVIRONS SALES
	Applicable to: Commercial customers in unincorporated areas
	Application of Schedule
	Schedule applies to all Commercial Customers in unincorporated areas.
	Reason for Filing
	Amendment to existing tariff to implement uniform rates within CoServ's service area.
	Monthly Base Rate
	Customer's base monthly bill will be calculated using the following Customer and Ccf charges:
	Customer Charge \$13.50 per month, plus Volumetric Charge \$.23043 per Ccf
	Purchased Gas Factor
	In addition to the base monthly bill above, each customer's bill will include a Purchased Gas Factor to account for purchased gas costs and computed in accordance with Rate PGF Purchased Gas Factor.
	Taxes
	In addition to the monthly charges above, each customer's bill will include a charge for an amount equivalent to the customer's proportional part of any taxes, fees, or similar levies payable by the Company to governmental or quasi governmental entities with authority over the area in which the customer resides. Any such charge will be computed by multiplying the Monthly Base Rate charges and Purchased Gas Factor charges by a factor calculated to recover the actual amount of such taxes, fees, or similar levies.
	Currently applicable taxes, fees, or similar levies for each environs area are detailed on the CoServ Environs Tax Factor tariff sheet(Rate ETF).
	CoServ does not assess municipal franchise fees to environs customers.
	Surcharges
	In addition to the monthly charges above, each customer's bill will include an

CHEDULE ID	DESCRIPTION
	amount for surcharges calculated in accordance with the applicable rider(s): Rider Pipeline Safety Fee (PSF), and Rider Rate Case Expense (RCE).
	Line Extention Policy
	The company has the right to contract with individual customers for the installation of gas facilities. Upon the request of a prospective new residential or commercial customer for service in an area served by CoServ Gas, CoServ Gas will extend its main lines up to 100 feet from an existing CoServ Gas main in the Public Rights of Way, without charge. The 100 foot allowance applies to a single customer or to a group of customers requesting service from the same extension. Customers requesting mainline extensions in excess of 100 feet shall bear the cost of any additional main, and shall bear the cost of all yard lines, service lines, customer meters and regulators, and appurtenant equipment, in accordance with the charges listed in item 12, Line Extension and Installation, of Rate M, Miscellaneous Service Charges. CoServ Gas is not required to extend its mains or facilities if
	the customer will not use gas for space heating and water heating, or the equivalent load, at a minimum.
.0 RATE PGF ENV	RATE PGF PURCHASED GAS FACTOR
	Applicable to: Entire System
	Purpose and Intent
	This provision is intended to allow collection of the gas purchase costs of CoServ Gas, Ltd. (hereinafter CoServ Gas or the Company) in a manner that will lessen monthly fluctuations in the Purchased Gas Factor and ensure that actual costs billed to customers are fully reconciled with actual costs incurred, subject to limitations for excessive lost and unaccounted for gas. The billing methods set forth herein are intended to be followed to the extent the goals are realized. To the extent the billing methods fail to achieve these goals, the methodology shall be revised and a revised tariff filed to reflect such revisions. The Company will make appropriate regulatory filings and obtain regulatory approvals, as required, before making changes to its rates. The Company will notify the Railroad Commission within 10 days of the datge its policies and procedures for recovering the uncollectible portion of its gas costs charges.
	Applicability
	This clause shall apply to all CoServ Gas tariffs that incorporate this Purchased Gas Factor provision and which have been properly filed and implemented with the appropriate jurisdictional authority.
	Definitions Standard Cubic Foot of Gas – the amount of gas contained in one (1) cubic foot of space at a standard pressure of fourteen and sixty five hundredths (14.65) pounds per square inch, absolute and a standard temperature of sixty (60) degrees Fahrenheit.
	Ccf - one hundred standard cubic feet of gas.

RRC COID: 5588	COMPANY NAME: COSERV GAS
TARIFF CODE: DS	RRC TARIFF NO: 22886
RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	Mcf - one thousand standard cubic feet of gas.
	Purchased Gas Volumes - The volumes of gas, expressed in Mcf's, purchased by the Company and received into the Company's distribution systems from all sources, including withdrawals from storage, and excluding gas injected into storage.
	Purchased Gas Cost(s) - The total cost of Purchased Gas Volumes, as received into the Company's distribution systems, all as more specifically described herein.
	Weighted Average Cost of Gas – The Purchased Gas Costs divided by the Purchased Gas Volumes, calculated on a monthly basis, and expressed as dollars per Mcf. Weighting is by the volume of each cost component.
	Billed Gas Volumes - The volumes of gas billed to customers, plus volumes of gas billed to third parties following losses or damages,expressed in Mcf's.
	Billed Gas Revenues – The total amount of revenues attributable to billings by CoServ for Purchased Gas Costs during a given period, exlcusive of any billings for any Reconciliation Factor during the same period.
	Lost and Unaccounted for Gas (LUG) - Purchased Gas Volumes minus the sum of Billed Gas Volumes and metered Company used gas.
	Purchased Gas Factor (PGF) - A factor on each customer's monthly bill, expressed in dollars per Ccf, to reflect the Purchase Gas Costs and the Reconciliation Factor, all as more specifically described herein.
	Annual Review Period - The 12 month period ending June 30 of each year.
	Annual Review - An annual review of the Company's records covering the 12 month period ending June 30 to determine LUG volumes and any imbalances between the Purchased Gas Costs and Billed Gas Revenues existing at the end of the Annual Review Period.
	Annual Imbalance Total – The total amount determined through the Annual Review to be credited or surcharged to customers' bills, plus interest, in order to balance Purchased Gas Costs with Billed Gas Revenues.
	Reconciliation Factor - A credit or surcharge included in the Purchased Gas Factor to reflect the pro rated adjustment in billings for any over or under collections on an annual basis, inclusive of interest.
	Record Keeping
	The Company shall keep accurate records of all gas metered in and out of its system, gas purchases, and Company owned gas injected into and withdrawn from storage, and any adjustments, including interest, relative to any imbalances. The records shall include date, quantity, and cost details for all gas handled.

	COMPANY NAME: COSERV GAS
RIFF CODE: DS	RRC TARIFF NO: 22886
ATE SCHEDULE	
CHEDULE ID	DESCRIPTION
	Purchased Gas Cost Calculation
	Fulchased Gas Cost Calculation
	The Purchased Gas Cost shall be determined for each month to fairly and accurately reflect the cost to the Company at the points of delivery into the Company's distribution systems. The determination shall include, but not be limited to, volumetric and demand charges for Purchased Gas Volumes, fees paid to others where such fees are integrally tied to the purchase or transportation of gas purchased by CoServ, pipeline transportation charges (both volumetric and demand), and gas storage charges (both volumetric and demand). The Company shall account for gas injected into and withdrawn from storage on a weighted average cost basis.
	Purchased Gas Factor Calculation
	Each customer bill shall include a Purchased Gas Factor reflecting the estimated Weighted Average Cost of Gas for the period covered by the bill, which estimate shall include, as applicable, a pro rata amount to adjust for previous over or under estimates of the Weighted Average Cost of Gas; plus the total amount of gas cost determined to have been uncollectible, written off, and remaining unpaid; plus a Reconciliation Factor to account for any Annual Imbalance Total.
	Annual Review
	For each Annual Review Period, the Company shall determine (i) the amount of any imbalance between the Purchased Gas Costs and Billed Gas Revenues, and (ii) the LUG volume for the Annual Review Period. As limited by the LUG volume limitation set forth below, the Annual Imbalance Total shall then be credited or surcharged, together with interest, to the customers' bills over a twelve month period commencing each September 1 following the Annual Review Period.
	Annual Imbalance Total – LUG Volume less than five percent of Purchased Gas Volumes or LUG Volume is negative
	If the Annual Review shows the LUG volume for the Annual Review Period to be less than or equal to five percent of the Purchased Gas Volumes, or if the LUG volume is negative (indicating a line gain), the Annual Imbalance Total shall be the difference between the total Purchased Gas Cost and the total Billed Gas Revenues for the Annual Review Period.
	Annual Imbalance Total – LUG Volume is positive and is greater than five percent of Purchased Gas Volumes
	If the Annual Review shows the LUG volume for the Annual Review Period to be positive and to be greater than five percent of the Purchased Gas Volumes, the Annual Imbalance Total shall be determined as follows:
	The difference between the total Purchased Gas Costs and the total Billed Gas Revenues for the Annual Review Period shall be determined;
	Minus, the Purchased Gas Costs attributable to LUG volumes in excess of 5% of the Purchase Gas Volumes,

Reconciliation Factor Calculation
The Annual Imbalance Total (whether positive or negative) shall be credited or surcharged over twelve months in equal total amounts per month, together with interest on the declining unrecovered or uncredited balance. The recovery shall be through a Reconciliation Factor included in the Purchased Gas Factor. The Reconciliation Factor for each month shall be determined as follows:
The total interest to be collected or paid shall be computed by using a monthly interest factor equal to the annual interest rate divided by 12. The annual interest rate shall be the interest rate established pursuant to Section 183.003 of the Texas Utilities Code, as applicable to customer deposits, if any, of customers covered by this tariff, as such rate is in effect during the last month of the Annual Review Period.
The total interest to be collected or paid over the 12 month period shall be added to the Annual Imbalance Total.
The resulting total shall then be divided by 12 to determine the total amount to be credited or surcharged each month.
Each month of the twelve month reconciliation period, the Reconciliation Factor, expressed in Ccfs, shall be calculated by dividing the sum of amount to be credited or surcharged during that month (which amount shall include, as necessary, an amount to correct for any previous over or under estimates of Billed Gas Volumes during the previous month or months in the same reconciliation period), by the estimated Billed Gas Volumes for the month.
At the end of each 12 month period, any remaining balance in the Annual Imbalance Total shall be included in any Annual Imbalance Total to be credited or surcharged during the successor 12 month period.
Annual Reconciliation Report
The Company shall file an Annual Reconciliation Report with the Regulatory Authority that shall include but not necessarily be limited to:
1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30;
<ol> <li>A tabulation of the uncollectible gas cost by month for the twelve months ending June 30;</li> <li>A description of all other costs and refunds made during the year and</li> </ol>
their effect on Rate PGF Purchased Gas Factor to date; 4. A tabulation of gas units sold to general service customers and related
Rate PGF Purchased Gas Factor revenues; and, 5. A description of the imbalance payments made to and received from the

SCHEDULE ID	DESCRIPTION
	Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of cumulative imbalances. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
	6. The Annual Reconciliation Report prepared for the Railroad Commission shall be sent to the Audit Section of the Gas Services Division and shall include uncollected expenses, uncollected margin, uncollected gas costs, uncollected taxes, subsequent collected gas costs, and subsequent collected margin.
	The Company shall maintain detailed information that will allow the Regulatory Authority to audit the operation of the uncollectible gas cost recovery process.
8.0 RIDER PSF ENV	Rider PSF - Pipeline Safety Fee. Application: Applicable to all customer classes. Company will charge a surcharge to recover pipeline safety fees assessed by the Commission pursuant to Section 121.211 of the Texas Utilities Code and Commission Rule 16 TAC section 8.201. The surcharge will be charged not more often than once a year and will be billed following payment by the Company to the Commission, in accordance with the Commission's rules.
	The Company will charge a one-time customer charge per bill of \$1.00, based on \$1.00 per service line, effective 4/1/14 through 4/30/14.
9.0 RIDER RCE ENV	RIDER RCE RATE CASE EXPENSES
	Applicable to: Entire System
	Application
	Applicable to Residential and Commercial customer classes.
	Monthly calculation
	The bill of each residential and commercial customer shall include a surcharge designed to recover Company's reasonable rate case expenses, including reimbursement of municipal rate case expenses in accordance with Section 103.022 of the Texas Utilities Code. In incorporated areas, the surcharge will be calculated on a Ccf basis using total company volumes for Residential and Commercial customers, over a period of thirty six (36) months commencing with the date rates set forth in this revised tariff become effective in the incorporated area.
	In unincorporated areas, a rate case expense surcharge of \$.0151 will be applied on a Ccf basis using total company volumes for Residential and Commercial customers, over a period of twelve (12) months commencing on the date rate set forth in this revised tariff become effective in the unincorporated area.
	For incorporated areas only, the surcharge will be applied monthly to the outstanding uncollected balance of such rate case expense, and interest at the rate six (6) percent per year shall be calculated on, and added to, the declining balance each month. To the extent that some expenses may be estimates, Company is authorized to add such expenses as incurred to the amount to be surcharged up to

RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	Purchased Gas Volumes - The volumes of gas, expressed in Mcf's, purchased by the Company and received into the Company's distribution systems from all sources, including withdrawals from storage, and excluding gas injected into storage.
	Purchased Gas Cost(s) - The total cost of Purchased Gas Volumes, as received into the Company's distribution systems, all as more specifically described herein.
	Weighted Average Cost of Gas – The Purchased Gas Costs divided by the Purchased Gas Volumes, calculated on a monthly basis, and expressed as dollars per Mcf. Weighting is by the volume of each cost component.
	Billed Gas Volumes - The volumes of gas billed to customers, plus volumes of gas billed to third parties following losses or damages,expressed in Mcf's.
	Billed Gas Revenues - The total amount of revenues attributable to billings by CoServ for Purchased Gas Costs during a given period, exlcusive of any billings for any Reconciliation Factor during the same period.
	Lost and Unaccounted for Gas (LUG) - Purchased Gas Volumes minus the sum of Billed Gas Volumes and metered Company used gas.
	Purchased Gas Factor (PGF) – A factor on each customer's monthly bill, expressed in dollars per Ccf, to reflect the Purchase Gas Costs and the Reconciliation Factor, all as more specifically described herein.
	Annual Review Period - The 12 month period ending June 30 of each year.
	Annual Review - An annual review of the Company's records covering the 12 month period ending June 30 to determine LUG volumes and any imbalances between the Purchased Gas Costs and Billed Gas Revenues existing at the end of the Annual Review Period.
	Annual Imbalance Total – The total amount determined through the Annual Review to be credited or surcharged to customers' bills, plus interest, in order to balance Purchased Gas Costs with Billed Gas Revenues.
	Reconciliation Factor - A credit or surcharge included in the Purchased Gas Factor to reflect the pro rated adjustment in billings for any over or under collections on an annual basis, inclusive of interest.
	Record Keeping
	The Company shall keep accurate records of all gas metered in and out of its system, gas purchases, and Company owned gas injected into and withdrawn from storage, and any adjustments, including interest, relative to any imbalances. The records shall include date, quantity, and cost details for all gas handled.

RC COID: 5588	COMPANY NAME: COSERV GAS
ARIFF CODE: DS	RRC TARIFF NO: 22887
RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	Purchased Gas Cost Calculation
	The Purchased Gas Cost shall be determined for each month to fairly and accurately reflect the cost to the Company at the points of delivery into the Company's distribution systems. The determination shall include, but not be limited to, volumetric and demand charges for Purchased Gas Volumes, fees paid to others where such fees are integrally tied to the purchase or transportation of gas purchased by CoServ, pipeline transportation charges (both volumetric and demand), and gas storage charges (both volumetric and demand). The Company shall account for gas injected into and withdrawn from storage on a weighted average cost basis.
	Purchased Gas Factor Calculation
	Each customer bill shall include a Purchased Gas Factor reflecting the estimated Weighted Average Cost of Gas for the period covered by the bill, which estimate shall include, as applicable, a pro rata amount to adjust for previous over or under estimates of the Weighted Average Cost of Gas; plus the total amount of gas cost determined to have been uncollectible, written off, and remaining unpaid; plus a Reconciliation Factor to account for any Annual Imbalance Total.
	Annual Review
	For each Annual Review Period, the Company shall determine (i) the amount of any imbalance between the Purchased Gas Costs and Billed Gas Revenues, and (ii) the LUG volume for the Annual Review Period. As limited by the LUG volume limitation set forth below, the Annual Imbalance Total shall then be credited or surcharged, together with interest, to the customers' bills over a twelve month period commencing each September 1 following the Annual Review Period.
	Annual Imbalance Total - LUG Volume less than five percent of Purchased Gas Volumes or LUG Volume is negative
	If the Annual Review shows the LUG volume for the Annual Review Period to be less than or equal to five percent of the Purchased Gas Volumes, or if the LUG volume is negative (indicating a line gain), the Annual Imbalance Total shall be the difference between the total Purchased Gas Cost and the total Billed Gas Revenues for the Annual Review Period.
	Annual Imbalance Total - LUG Volume is positive and is greater than five percent of Purchased Gas Volumes
	If the Annual Review shows the LUG volume for the Annual Review Period to be positive and to be greater than five percent of the Purchased Gas Volumes, the Annual Imbalance Total shall be determined as follows:
	The difference between the total Purchased Gas Costs and the total Billed Gas Revenues for the Annual Review Period shall be determined;
	Minus, the Purchased Gas Costs attributable to LUG volumes in excess of 5% of the Purchase Gas Volumes,

RRC COID: 5588	COMPANY NAME: COSERV GAS
TARIFF CODE: DS	RRC TARIFF NO: 22887
RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	using the Company's Weighted Average Cost of Purchased Gas for the Review Period.
	Reconciliation Factor Calculation
	The Annual Imbalance Total (whether positive or negative) shall be credited or surcharged over twelve months in equal total amounts per month, together with interest on the declining unrecovered or uncredited balance. The recovery shall be through a Reconciliation Factor included in the Purchased Gas Factor. The Reconciliation Factor for each month shall be determined as follows:
	The total interest to be collected or paid shall be computed by using a monthly interest factor equal to the annual interest rate divided by 12. The annual interest rate shall be the interest rate established pursuant to Section 183.003 of the Texas Utilities Code, as applicable to customer deposits, if any, of customers covered by this tariff, as such rate is in effect during the last month of the Annual Review Period.
	The total interest to be collected or paid over the 12 month period shall be added to the Annual Imbalance Total.
	The resulting total shall then be divided by 12 to determine the total amount to be credited or surcharged each month.
	Each month of the twelve month reconciliation period, the Reconciliation Factor, expressed in Ccfs, shall be calculated by dividing the sum of amount to be credited or surcharged during that month (which amount shall include, as necessary, an amount to correct for any previous over or under estimates of Billed Gas Volumes during the previous month or months in the same reconciliation period), by the estimated Billed Gas Volumes for the month.
	At the end of each 12 month period, any remaining balance in the Annual Imbalance Total shall be included in any Annual Imbalance Total to be credited or surcharged during the successor 12 month period.
	Annual Reconciliation Report
	The Company shall file an Annual Reconciliation Report with the Regulatory Authority that shall include but not necessarily be limited to:
	1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30;
	<ol> <li>A tabulation of the uncollectible gas cost by month for the twelve months ending June 30;</li> <li>A description of all other costs and refunds made during the year and</li> </ol>
	their effect on Rate PGF Purchased Gas Factor to date; 4. A tabulation of gas units sold to general service customers and related
	Rate PGF Purchased Gas Factor revenues; and, 5. A description of the imbalance payments made to and received from the

	COMPANY NAME: COSERV GAS

TE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of cumulative imbalances. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 6. The Annual Reconciliation Report prepared for the Railroad Commission
	shall be sent to the Audit Section of the Gas Services Division and shall include uncollected expenses, uncollected margin, uncollected gas costs, uncollected taxes, subsequent collected gas costs, and subsequent collected margin.
	The Company shall maintain detailed information that will allow the Regulatory Authority to audit the operation of the uncollectible gas cost recovery process.
8.0 RIDER PSF ENV	Rider PSF - Pipeline Safety Fee. Application: Applicable to all customer classes. Company will charge a surcharge to recover pipeline safety fees assessed by the Commission pursuant to Section 121.211 of the Texas Utilities Code and Commission Rule 16 TAC section 8.201. The surcharge will be charged not more often than once a year and will be billed following payment by the Company to the Commission, in accordance with the Commission's rules.
	The Company will charge a one-time customer charge per bill of \$1.00, based on \$1.00 per service line, effective 4/1/14 through 4/30/14.
9.0 RIDER RCE ENV	RIDER RCE RATE CASE EXPENSES
	Applicable to: Entire System
	Application
	Applicable to Residential and Commercial customer classes.
	Monthly calculation
	The bill of each residential and commercial customer shall include a surcharge designed to recover Company's reasonable rate case expenses, including reimbursement of municipal rate case expenses in accordance with Section 103.022 of the Texas Utilities Code. In incorporated areas, the surcharge will be calculated on a Ccf basis using total company volumes for Residential and Commercial customers, over a period of thirty six (36) months commencing with the date rates set forth in this revised tariff become effective in the incorporated area.
	In unincorporated areas, a rate case expense surcharge of \$.0151 will be applied on a Ccf basis using total company volumes for Residential and Commercial customers, over a period of twelve (12) months commencing on the date rate set forth in this revised tariff become effective in the unincorporated area.
	For incorporated areas only, the surcharge will be applied monthly to the outstanding uncollected balance of such rate case expense, and interest at the rate six (6) percent per year shall be calculated on, and added to, the declining balance each month. To the extent that some expenses may be estimates, Company is authorized to add such expenses as incurred to the amount to be surcharged up to

RRC COID: 5588 CO	OMPANY NAME: COSERV GAS
TARIFF CODE: DS	RRC TARIFF NO: 22887
RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	For unincorporated areas, the amount of estimated expenses recovered through the \$.0151 surcharge shall not exceed \$21,000.
	Company shall file an annual report with each regulatory authority with jurisdiction setting forth recoveries and the remaining balance in the rate expense account.
10.0a RIDER WNA ENV	RIDER NNA - WEATHER NORMALIZATION ADJUSTMENT Purpose and Intent This provision is intended to account for the effects of abnormal temperatures on both customers and the Company. Under this provision customers will receive a credit when the temperature is colder than normal or will be surcharged when the temperature is warmer than normal. The billing methods set forth herein are intended to be followed to the extent the goals are realized. To the extent the billing methods fail to achieve these goals, the methodology shall be revised so that the goals are achieved, subject to review by the Gas Services Division ofthe Rairoad Commission ofTexas. Applicability This clause shall apply to commercial customers consuming less than 4,000 Ccf of natural gas during the prior twelve months and all residential customers. This tariff shall be applicable for the months of November through April of each year. The NNA charge shall be reflected on the monthly bills rendered to customers in the months of December through May to account for the variation in gas consumption due to the variation in temperatures from normal during the November through April period. The NNA charge billed for a month will be based on Heating Degree Day parameters for the previous month, actual number of customers for the previous month, and estimated rate class Ccf consumption for the current month. Definitions Ccf- one hundred standard cubic feet of gas HDD- Heating Degree Days HDDn- Normal heating degree days for the previous month calculated as a 10-year simple daily average over the periol of July 1,1998 through June 30, 2007. HDDa- Actual heating degree days for the previous month establishing the base rates. The regression per customer class for the base load for the test year. The constant is 24.05 for commercial customers consuming fewer than 4,000 Ccf during the prior 12 months and 18.309 for all residential customers. A regression formula for determining constant and weather sensitive consumption is derived from customer usage data from the

ARIFF CODE: DS	RRC TARIFF NO: 22887
RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	given WNA is billed or credited, the Company will file with the Regulatory Authority a report showing the volume adjustments and WNA revenues for each applicable customer class. Supporting documentation will be made available for review upon request. Annual Report An annual report shall be filed with the regulatory authority for each five-month period beginning with November and ending the Subsequent April by customer class. The report shall provide: (a) the total amount of volumetric revenues collected from customers including WNA revenues, (b) the Base Load revenues collected from customers using the Base Load per customer during the period, (c) the difference between the volumetric revenues collected from customers and the Base Load, which represents the weather sensitive revenues billed, and (d) the calculated WNA revenues determined by the operation of the provisions of this weather normalization adjustment clause.
