4. Membership Support Requirement

To determine if an organization has met the membership support percentage (%) thresholds established in section 3, the group must provide a list of enrolled members for verification along with a written certification that it has signed individual membership authorizations for each employee listed. This list and certification will be sent by the organization directly to an identified external auditor and not to Volkswagen. This list must be updated on a semi-annual basis. The external auditor will be instructed to verify the organization's list by checking it (either the full list or a representative sample) against Volkswagen's active employee roster and the employees themselves. Volkswagen will receive notification of only the verified membership support % from the external auditor without any individual employee information. Whether a group has met a membership % threshold will be determined based on the total, active headcount in the relevant employee group (hourly, salary, or both – depending on the group's stated scope). While employees are free to form or join as many external groups as they wish, any employee who joins multiple groups will be required to select a primary organization for the purposes of determining membership support %.

Falsification or misrepresentation of employee membership by any group will result in removal from this program.

5. Representation and Collective Bargaining

This policy may not be used by any group or organization to claim or request recognition as the exclusive representative of any group of employees for the purposes of collective bargaining. Any organization which requests recognition as an exclusive bargaining partner must comply fully with the National Labor Relations Act (NLRA) and the Labor Management Reporting and Disclosure Act (LMRDA) and shall do so in accordance with the provisions of and practices established under the NLRA.

This policy provides additional opportunities for employees beyond the protections provided in U.S. law. Nothing in this policy is intended or should be interpreted to restrict or interfere with employees' protected rights under the NLRA.

6. No Discrimination

Any organization that is found to limit membership or discriminate against any employee in violation of Volkswagen's Equal Employment Opportunity policy (HR-02) will be immediately removed from this program.

7. No Limitation on Company

This policy provides a voluntary program for external organizations who wish to engage with Volkswagen on behalf of their members. It in no way limits Volkswagen from electing to engage in any way with other outside companies, organizations, or groups (i.e. Diversity Advisory Council, Chamber of Commerce, etc.) in its discretion and judgment.
