Tell Us Your Story: Share an Anecdote of Your History in Denton Sticky notes were typed verbatim-- no comments have been edited.

"I moved to Denton in 2003 to attend UNT. Upon graduation, I move to Lewisville for 2 years and missed Denton so I returned in 2009. I LOVE being a Dentonite. We are a very eclectic city and I think it makes us very unique. There is a pride calling ourselves Dentonites because we a large city that has a small town atmosphere which is very unique. You get the best of both works. Large city amenities and services with the safety and security of a small town. It's awesome."

"I came to Denton for UNT in 2005 and never left after getting a full time job at UNT. My Denton fate was sealed. I stay because it's affordable, fun, and friendly. There's always something to do and get involved with. I can't wait to see where our city goes!"

"Moved to Denton for a man. He asked if I could move here and I said, "Sure, I don't have to brush my hair." Mind you I was a 100k a yr exec at the time. There is a bohemian culture here and high culture too which is fun. I also love it as we age. Being close to 2 major airports allows me to hop on a plane often. <3"

"Moved here when I saw the "former" Longhorns at Razor Ranch and loved the thought of the 'Gateway to the west.' Was so sad when there tore out that major centerpiece to our area. Been here 29 years – finished my B.S. at UNT."

"My wife and I attended UNT in the mid 1990's and then moved around Texas for the next 10 years. When choosing a city to buy a home and schools for children to attend we returned to Denton. We really like the direction Denton has been heading white retaining its identity. I hope it continues to move that way over next 20 years!"
