6 nology, engineering, and mathematics education  
7 throughout its 56 year history.

8 (2) Under section 3 of the National Science  
9 Foundation Act of 1950 (42 U.S.C. 1862), the Na-

### 9 **SEC. 101. SHORT TITLE.**

10 This title may be cited as the “10,000 Teachers, 10  
11 Million Minds Science and Math Scholarship Act”.

### 12 **SEC. 102. FINDINGS.**

13 Congress finds the following:

14 (1) The prosperity the United States enjoys  
15 today is due in no small part to investments the Na-  
16 tion has made in research and development over the  
17 past 50 years.

18 (2) Corporate, government, and national sci-  
19 entific and technical leaders have raised concerns  
20 that current trends affecting the science and tech-  
21 nology enterprise of the Nation could result in ero-  
22 sion of this past success and jeopardize future pros-  
23 perity.

24 (3) The National Academy of Sciences, the Na-  
25 tional Academy of Engineering, and the Institute of

1 Medicine were tasked in a congressional request to  
2 recommend actions that the Federal Government  
3 could take to enhance the science and technology en-  
4 terprise so that the United States can successfully  
5 compete, prosper, and be secure in the global com-  
6 munity of the 21st century.

7 (4) The Academies' highest priority rec-  
8 ommendation in its report, "Rising Above the Gath-  
9 ering Storm: Energizing and Employing America for  
10 a Brighter Economic Future", is to improve K-12  
11 mathematics and science education, and the Acad-  
12 emies' first recommended action item is to institute  
13 a major scholarship program to recruit and educate  
14 annually 10,000 mathematics and science teachers.

15 **SEC. 103. POLICY OBJECTIVE.**

16 In carrying out the program under section 104, the  
17 National Science Foundation shall seek to increase by up  
18 to 10,000 per year the number of elementary and sec-  
19 ondary mathematics and science teachers in the Nation's  
20 schools having both exemplary subject knowledge and ped-  
21 agogical skills.
