

# Coalition to Preserve the Medicaid Safety Net

---

April 2, 2008

The Honorable John D. Dingell  
2328 Rayburn House Office Building  
Washington, DC 20515

The Honorable Tim Murphy  
322 Cannon House Office Building  
Washington, DC 20515

Dear Representatives Dingell and Murphy:

The undersigned organizations, representing a broad national coalition of public health, disability, education, hospital, organized labor, health care providers, and others write in support of the “Protecting the Medicaid Safety Net Act of 2008” (H.R. 5613). We strongly support this legislation placing a temporary one-year moratorium on seven Medicaid regulations that would make major cuts to the Medicaid program over the next five years.

These regulations will shift billions of dollars in costs to the states at a time when nearly all state budgets are already in serious trouble and will almost certainly eliminate federal participation in many important Medicaid programs. As a result, states will likely cut critical services such as specialized medical transportation to school for children with disabilities, case management services that allow people with disabilities to remain in the community, and rehabilitation services for the disabled.

We are convinced the regulations issued by the Centers for Medicare and Medicaid Services will not improve Medicaid program efficiency or the quality of Medicaid services. These regulations will be a major fiscal blow to most states and will harm our most vulnerable citizens, particularly children, by preventing beneficiaries from receiving the care they need. We support a moratorium on these regulations in order to give Congress time to conduct a review of the regulations and their implications for Medicaid recipients.

Thank you again for your leadership on this important public health issue. We look forward to working with you to move this critical legislation forward.
