## CASU – The Network

**CASU Defined** – An interagency network of Federal entrepreneurial organizations that provides the full range of support services to Federal agencies, throughout the United States and overseas, on a cost reimbursable basis.

**CASU Authority** – Network members operate under the authority provided by:

- Economy Act of 1932 as amended (31 U.S.C. 1535)
- Government Management Reform Act, 1994.

The CASU program establishes the legal and administrative framework for CASUs to offer services to government agencies.

**CASU Sources** - The Network provides over 95% of its nationwide services through contracts with the private sector.

## CASU Benefits

**CASU Benefits** - Customers are able to realize economies of scale and have documented the following results:

- savings and cost avoidance
- immediate availability of goods and services
- ease of contracting for services
- improved quality, reliability, and convenience for their services
- increased productivity and employee morale
- elimination of duplicate functions
- competitive sourcing
- national coverage with local results

**CASU customers choose** the services that meet their needs. CASU customers may purchase services that are the most cost effective and efficient without being limited to one source.

**CASUs provide the “best value”** to the American taxpayer by providing services on a fully reimbursable basis at the lowest cost possible.

**CASUs stand ready as an optional procurement resource** for federal agencies and offer access to already competed services.
