

**Update on Progress**

- In December 2007, the MCC Board of Directors re-selected Jordan to be eligible for MCC Compact funding. Jordan improved its performance on the MCC eligibility indicators, improving from fail to pass in “Girl’s Primary Education and Trade Policy.”
- In April 2008, Jordan completed a constraints analysis and a sector analysis that highlighted key challenges to long-term, sustainable economic growth in Jordan.
- In April and May, Jordan conducted a broad, participatory consultative process that included town hall meetings in each of the country’s twelve governorates. This process provided opportunities for a cross section of citizens, civil society organizations and the private sector to share issues, concerns, and potential investment ideas.
- Jordan is currently developing “concept papers” that define potential projects to address one or more of the problems identified through the constraints analysis, sector analysis and consultative process.
- Since early 2007, Jordan’s Threshold Program has been advancing customs reform and improvements in municipal governance. The on-going program is managed by USAID.
