This statement is required by the Act of August 12, 1970, Section 3685, Title 39, U.S. Code, showing ownership, management, and circulation of the *Marine Fisheries Review*, publication number 366-360, and was filed on 18 November 1996. The *Review* is published quarterly (four issues annually) with an annual subscription price of \$8.50 (sold by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402). The complete mailing address of the office of publication is: NMFS Scientific Publications Office, NOAA, 7600 Sand Point Way NE, BIN C15700, Seattle, WA 98115. The complete mailing address of the headquarters of the publishing agency is: National Marine Fisheries Service, NOAA, Department of Commerce, 1315 East-West Highway, Silver Spring, MD 20910. The name of the publisher and editor is Willis Hobart and the managing editor is Jacki Strader; their mailing address is: NMFS Scientific Publications Office, 7600 Sand Point Way NE, BIN C15700, Seattle, WA 98115. The owner is the U.S. Department of Commerce, 14th St. N.W., Washington, DC 20230; there are no bondholders, mortgages, or other security holders. The purpose, function, and nonprofit status of the organization (agency) and the exempt status for Federal income tax purposes has not changed during the preceding 12 months. The extent and nature of circulation is as follows: Total number of copies (A) (average number of copies of each issue during the preceding 12 months) was 1,921 and the actual number of copies of the single issue published nearest to the filing date was 1,912. Paid circulation (B) is handled by the U.S. Government Printing Office, Washington, DC 20402, and (C) the total number printed for their sales (mail subscriptions and individual sales) was 500 for both the average number of copies of each issue during the preceding 12 months and the actual number of copies of the single issue published nearest to the filing date. Free distribution (D) by mail, carrier, or other means; samples, complimentary, and other free copies (average number of copies of each issue during the preceding 12 months) was 1,421 and the actual number of copies of the single issue published nearest to the filing date was 1,412. The total distribution (E: sum of C and D) (average number of copies of each issue during the preceding 12 months) was 1,421 and the actual number of copies of the single issue published nearest to the filing date was 1,412. There were no copies not distributed or returned from news agents (F). The total (G: sum of E and F) is equal to the net press run figures shown in Item A: 1,921 and 1,912 copies, respectively. I certify that the statements made by me above are correct and complete: (Signed) Willis Hobart, Publisher.
