Subject: Time to stop using animal testing!
Date: Wednesday, June 6, 2007 11:23 AM

It is very important that we stop using animal testing around the world. As most people know, animals have done nothing to improve our lives, and they were not put here to do that anyway. But throughout the years they have been used in some of the most inhumane and torturous tests just so a company would not be held liable for what the drugs may have done to anyone using them.

It is time to stop this torture and DO THE RIGHT THING!
