

Subject: comments on testing methods

Date: Thursday, June 7, 2007 12:30 PM

Please accept internationally validated non-animal methods, including non-animal test methods for skin and eye irritation, phototoxicity, and pyrogenicity (fever induction), and to follow the additional December 2006 recommendations of the animal protection community (located at <http://www.stopanimaltests.com/pdfs/ICCVAM-5yearplan-Final.pdf>).

Thank you,
Ravi Grover
