

Subject: Non-Animal Testing

Date: Tuesday, June 5, 2007 12:29 PM

From: Susan Hildebrand

As an animal rights supporter, I am writing to urge you to immediately accept more internationally validated non-animal test methods. Animals should not be subjected to needless suffering and death because of human frailty or mistakes. Please look closely at those non-animal tests which could be used instead of animal testing, and approve as many as you can.

Thank you,

Susan E. Hildebrand
