

Subject: I'm not feeling represented...
Date: Friday, May 25, 2007 10:24 PM

My tax money supports ICCVAM, yet I don't feel like I'm being represented in how your group is run.

I'm asking that you accept internationally validated non-animal methods of testing, including non-animal test methods for skin and eye irritation, phototoxicity, and pyrogenicity. I would ask also that you follow the additional December 2006 recommendations of the animal protection community.

sincerely,
Paula McShane
