

Dear Investigator:

The NIMH IRP Non-Human Primate Core (IRP NHP Core) is pleased that you are submitting a collaborative project proposal. As you are designing your project, please don't hesitate to contact us to assist you with resource and budget considerations. Please also identify personnel you might be able to allocate to your project. Any compounds, equipment or primate interventions needed should also be listed to assist in the eventual development of an animal use committee proposal. If you have any questions about the attached proposal submission form or the submission process in general, please contact myself or Pam Noble ([noblep@intra.nimh.nih.gov](mailto:noblep@intra.nimh.nih.gov)).

Sincerely,

James Winslow

IRP NHP Core – Project Proposal Submission Form

SECTION A

1) Principal Investigator's Name:

2) Contact Scientist's Name:

3) Address:

4) Phone Number:

5) E-mail Address:

SECTION B

6) Project Title (no more than 50 characters):

7) Proposal should include the following and be no more than five pages in length:

- a. Statement of hypothesis
- b. Background (previous and current related studies including any relevant data showing the validity of the model system)
- c. Specific objectives and significance of proposed research
- d. Experimental plan and strategy\*
- e. Description of experiments in each phase of the study
- f. ½-1 page description of follow-up plans based on the expected outcome as well as if the outcome is not as expected
- g. Role of collaboration (explain the contribution of each individual involved in the proposed project)
- h. Significant references

\*Include information concerning species, compounds to be used, compound preparation protocol to be used, treatment protocol, expected or known biological outcome or effect, number of samples, where samples are to be sent for assay, etc.

8) Number of animals to be used

9) Proposed start date:

10) Relevance to IRP NHP Core Mission:

SECTION C

11) Estimated budgeted for this study – itemize each category and indicate estimated amounts, with a brief justification for each.

- a) Budget for animal purchases
- b) Budget for animal per diems
- c) Budget for experimental compounds
- d) Budget for equipment
- e) Budget for supplies

---

Please submit form to:

Pam Noble
