

# STANDARD STATE/COUNTRY CODES

## JANUARY 2008

1. Country, state, and territory codes are taken from the Federal Information Processing Standard (FIPS) 10-4 code list, the United States Postal Service (USPS) state/territory codes, and previous FinCEN lists.
2. Entries for U.S. Territories and the states/territories of Canada and Mexico should be completed in both the "state" and "country" fields. Leave the "state" field blank for all other countries.

## Zip Code Validation Table

The following table is used to validate all ZIP Code fields. The table consists of the first three digits of the valid ZIP Code range by state. Therefore, if a ZIP Code falls within the given range for the state indicated, it is considered valid. Otherwise, an error code will be issued. Consult the U.S. Postal Service Zip Code Directory to resolve any conflicts between state and ZIP Codes.
