## Exports & Imports by NAICS Commodities Added to USA Trade® Online!

With the March 11th release of the merchandise trade data, the U.S. Census Bureau and STAT-USA® are pleased to announce the addition of export and import data by NAICS commodities to USA Trade Online!

As mentioned in a previous STAT•News article, NAICS replaced the Standard Industrial Classification (SIC) system in 1997 as the official classification system to be used by U.S. statistical agencies. The export and import data on USA Trade Online will carry 3- through 6-digit NAICS district-level reports. This is important as the NAICS system provides for similar data among the U.S., Canada and Mexico up to the 5-digit level.

By utilizing the export and import NAICS data, customers can access the following:

- **Total Export Value** – Domestic export value added to foreign export value
- **Domestic Export Value** – Value of domestic (grown, manufactured, enhanced, etc.) merchandise exported
- **Foreign Export Value** – Export value of foreign merchandise (re-exports)
- **General Imports, Customs Value** – Value of physical arrivals of merchandise from foreign countries (including goods going into bonded warehouses etc.)
- **General Imports, CIF Value** – Landed value of merchandise at the first port of arrival in the U.S. (excludes U.S. import duties)
- **Imports for Consumption Customs Value** - The value of imports cleared through Customs (including goods from bonded warehouses etc.)
- **Imports for Consumption, C.I.F. Value** - The value of imports cleared through Customs based on the actual price including freight, insurance, and other charges incurred in bringing the merchandise to the United States (excluding U.S. import duties).
- **Balance** – Total export value minus general imports customs value

Customers can access the new data from the Data Source Selection screen below the HS District, Port and State level options. Should you have any additional questions, please visit our [Online Help](#) or contact STAT-USA directly at 1-800-STAT-USA (800-782-8872) or [statmail@doc.gov](mailto:statmail@doc.gov)
