

Joint Warfighting – Enabling the Department

**John Garing
Chief Information Officer and Director
Strategic Planning and Information
8 August 08**

Combat Support Agency

Force Provider to the JTF GNO

The DISA Strategy

The Five Foundations

- **Sharing and defense of information** – enable sharing of information while staunchly protecting it
- **Speed** – deliver IT capabilities and services faster
- **Power to the edge** – extend enterprise services to the edge
- **Operational excellence** – accelerate operational effectiveness and efficiency
- **Financial transparency** – customers know and understand the value and costs of DISA capabilities and services

Confidentiality**

The DISA Supply Chain

The value of what is compared to the value of what can be

Changing our Approaches

We want to achieve...

- Speed
- Mobility
- Agility
- Availability
- Elasticity

With...

- Relationships
- Partnerships
- Non-traditional sources

Through...

- Innovation
- Ingenuity

Using smart sourcing...

- The need for managed services
- The right mix of time and materials and performance-based contracts
- The right mix of resources
